

DEPARTMENT OF EDUCATION

[Docket No.: ED-2015-ICCD-0030]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Predominantly Black Institutions Application

AGENCY: Office of Postsecondary Education (OPE), Department of Education (ED).

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 3501 et seq.), ED is proposing a reinstatement of a previously approved information collection.

DATES: Interested persons are invited to submit comments on or before April 20, 2015.

ADDRESSES: Comments submitted in response to this notice should be submitted electronically through the Federal eRulemaking Portal at http://www.regulations.gov by selecting Docket ID number ED-2015-ICCD-0030 or via postal mail, commercial delivery, or hand delivery. If the regulations.gov site is not available to the public for any reason, ED will temporarily accept comments at ICDOcketMgr@ed.gov. Please note that comments submitted by fax or email and those submitted after the comment period will not be accepted; ED will ONLY accept comments during the comment period in this mailbox when the regulations.gov site is not available. Written requests for information or comments submitted by postal mail or delivery should be addressed to the Director of the Information Collection Clearance Division, U.S. Department of Education, 400 Maryland Avenue SW., LBJ,

Mailstop L-OM-2-2E319, Room 2E103, Washington, DC 20202.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Bernadette Miles, 202-502-7616.

SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Predominantly Black Institutions Application.

OMB Control Number: 1840-0797.

Type of Review: A reinstatement of a previously approved information collection.

Respondents/Affected Public: State, Local and Tribal Governments.

Total Estimated Number of Annual Responses: 130.

Total Estimated Number of Annual Burden Hours: 4,550.

Abstract: The Predominantly Black Institutions (PBI) Program is authorized under title III, part F of the Higher Education Act of 1965, as amended (HEA). The PBI Program makes grant awards to eligible colleges and universities to support the strengthening of PBIs to carry out programs in the following areas: science, technology, engineering, or mathematics; health education; internationalization or globalization; teacher preparation; or improving the educational outcomes of African American males. Grants support the establishment or strengthening of such programs that are designed to increase the institutions capacity to prepare students for instruction in the above noted fields. Grants are awarded competitively. This information collection is necessary to comply with title III, part F of the HEA.

Dated: March 16, 2015.

Kate Mullan,

Acting Director, Information Collection Clearance Division, Privacy, Information and Records Management Services, Office of Management.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Notice of Effectiveness of Exempt Wholesale Generator or Foreign Utility Company Status

Table with 2 columns: Company Name and Docket Nos. The table lists various energy companies and their corresponding docket numbers, ranging from EG15-11-000 to EG15-35-000.

	Docket Nos.
Enbridge Massif du Sud Wind Project GP Inc .....	FC15-2-000
Enbridge Saint Robert Bellarmin Wind Project GP I .....	FC15-3-000
FuelCell Energy, Ltd .....	FC15-4-000

Take notice that during the months of January and February 2015, the status of the above-captioned entities as Exempt Wholesale Generators or Foreign Utility Companies became effective by operation of the Commission's regulations. 18 CFR 366.7(a).

Dated: March 12, 2015.

**Kimberly D. Bose,**  
Secretary.

## ENVIRONMENTAL PROTECTION AGENCY

[FRL-9923-75-Region 5]

### Sole Source Aquifer Designation of the Mahomet Aquifer System in East-Central Illinois

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of final determination.

**SUMMARY:** Notice is hereby given that pursuant to the Safe Drinking Water Act (SDWA) Section 1424(e) and in response to a petition by a coalition of cities, a town, villages, and a public university in east-central Illinois, the Regional Administrator for Region 5 of the Environmental Protection Agency (EPA) has determined that a portion of the Mahomet Aquifer System in east-central Illinois is a sole or principal source of drinking water and if contaminated, would create a significant hazard to public health. As a result of this action, all projects receiving Federal financial assistance are subject to review by EPA regarding whether such projects may contaminate the designated aquifer system through a recharge zone so as to create a significant hazard to public health.

**DATES:** This determination is effective immediately.

**FOR FURTHER INFORMATION CONTACT:** William Spaulding, EPA Region 5, Water Division, Ground Water and Drinking Water Branch, by mail at 77 W. Jackson Boulevard, Chicago, IL 60604; by telephone at (312) 886-9262; or by email at [spaulding.william@epa.gov](mailto:spaulding.william@epa.gov).

**SUPPLEMENTARY INFORMATION:**

### I. Background

Section 1424(e) of the SDWA provides as follows:

If the Administrator determines, on his own initiative or upon petition, that an area has an aquifer which is the sole or principal drinking water source for the area and which, if contaminated, would create a significant hazard to public health, he shall publish notice of that determination in the **Federal Register**. After the publication of any such notice, no commitment for Federal financial assistance (through a grant, contract, loan guarantee, or otherwise) may be entered into for any project which the Administrator determines may contaminate such aquifer through a recharge zone so as to create a significant hazard to public health, but a commitment for Federal financial assistance may, if authorized under another provision of law, be entered into to plan or design the project to assure that it will not so contaminate the aquifer.

42 U.S.C. 300h-3(e). The authority to designate an aquifer under this section has been delegated to the Regional Administrator.

EPA in general considers a "sole or principal source" or sole source aquifer (SSA) to be an aquifer or aquifer system that is needed to supply fifty percent or more of the drinking water "for the aquifer service area," and for which there is no reasonably available alternative source or sources that could physically, legally, and economically supply those dependent upon the aquifer. See U.S. EPA, 1987, Sole Source Aquifer Designation Decision Process, Petition Review Guidance ("EPA Petition Review Guidance"). A portion of an aquifer can be designated if it is hydrogeologically separate from the rest of the aquifer. *Id.* at 6. Similarly, a system of hydrogeologically connected aquifers can be designated as an SSA. *Id.*

On December 12, 2012, EPA received a petition to designate a portion of the Mahomet Aquifer System in east-central Illinois as an SSA from the City of Champaign and several partners, including the Cities of Urbana, Delavan, and Gilman; the Town of Normal; the Villages of Savoy, Mansfield, and Mahomet; and the University of Illinois at Urbana-Champaign. Following receipt of the petition, additional entities expressed support for the petition, including Champaign and DeWitt Counties; the Cities of Clinton and Watseka; the Villages of Armington and

Waynesville; and the Illinois-American Water Company.

In response to the petition, EPA published a notice of its intent to designate a portion of the Mahomet Aquifer System in east-central Illinois as an SSA and announced two Public Hearings in Champaign, Illinois on May 13, 2014, and in Morton, Illinois on May 14, 2014. This notice was published in two newspapers of general circulation in the area: The Champaign News Gazette and Peoria Journal Star, on March 12, 2014. This notice also announced the request for written comments during the public comment period from March 13, 2014 to June 12, 2014.

The public comments received by EPA generally support designation. EPA also received significant comments and additional scientific studies on the geology of the Mahomet Aquifer System during the comment period. These comments and additional studies required extensive evaluation and consideration. EPA has responded to the public comments in a document titled: "Responsiveness Summary—Sole Source Aquifer Petition for the Mahomet Aquifer System in East-Central Illinois—March 2015." The Responsiveness Summary and other relevant documents are available for public inspection during normal business hours at the following locations: Champaign Public Library, 200 W. Green St., Champaign, Illinois; Bloomington Public Library, 205 E. Olive St., Bloomington, Illinois; Pekin Public Library, 301 S. Fourth St., Pekin, Illinois; Havana Public Library, 201 W. Adams St., Havana, Illinois; Watseka Public Library, 201 S. 4th St., Watseka, Illinois; U.S. EPA's Region 5 Office Library, 77 W. Jackson Blvd., Chicago, Illinois.

### II. Description of Mahomet Aquifer System in East-Central Illinois

The Mahomet Aquifer is located in Illinois, Indiana, Ohio, and possibly West Virginia. This SSA designation is for a hydraulically and hydrogeologically distinct portion of the aquifer system in east-central Illinois bounded in the east by the Iroquois River and the North Fork of the Vermilion River and in the west by the Illinois River. Within the SSA area, deposits of saturated sand or sand and gravel found within the Quaternary
