#### Approval and Promulgation of Air Quality Implementation Plans; District of Columbia; Preconstruction Requirements—Nonattainment New Source Review

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is approving a State Implementation Plan (SIP) revision submitted by the District Department of the Environment (DDOE) for the District of Columbia (DC) on April 5, 2013. EPA is approving this revision to DC's nonattainment New Source Review (NSR) program in accordance with the requirements of the Clean Air Act (CAA).

**DATES:** This final rule is effective on April 20, 2015.

**ADDRESSES:** EPA has established a docket for this action under Docket ID Number EPA-R03-OAR-2014-0186. All documents in the docket are listed in the [www.regulations.gov](http://www.regulations.gov) Web site. Although listed in the electronic docket, some information is not publicly available, *i.e.*, confidential business information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through [www.regulations.gov](http://www.regulations.gov) or in hard copy for public inspection during normal business hours at the Air Protection Division, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103. Copies of the State submittal are available at the District of Columbia Department of the Environment, Air Quality Division, 1200 1st Street NE., 5th Floor, Washington, DC 20002.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

On December 11, 2014 (79 FR 73508), EPA published a notice of proposed rulemaking (NPR) for the District of Columbia. In the NPR, EPA proposed approval of revisions to DC's

nonattainment NSR program, notably provisions for Plantwide Applicability Limits (PALs) and preconstruction permitting requirements for major sources of fine particulate matter (PM<sub>2.5</sub>). The formal SIP revision was submitted by DDOE on April 5, 2013.

##### II. Summary of SIP Revision

Generally, the revision submitted by DDOE involves amendments to sections 199.1 (Definitions and Abbreviations) and 200 (General Permit Requirements), repealing and replacing section 204 (Permit Requirements for Sources Affecting Non-attainment Areas), repealing section 206 (Notice and Comment Prior to Permit Issuance), adding sections 208 (General and Non-attainment Areas) and 210 (Notice and Comment Prior to Permit Issuance), and adding specific definitions to section 299 (Definitions and Abbreviations). Additionally, several non-substantive, clarifying and organizational revisions to the sections mentioned herein were submitted. As described in detail in the NPR, the revisions incorporate provisions related to two Federal rulemaking actions: The 2002 "Prevention of Significant Deterioration (PSD) and Nonattainment NSR (NSR): Baseline Emissions Determination, Actual-to-Future-Actual Methodology, Plantwide Applicability Limitations, Clean Units, Pollution Control Projects" (2002 NSR Rules); and the 2008 "Implementation of the New Source Review (NSR) Program for Particulate Matter Less than 2.5 Micrometers (PM<sub>2.5</sub>)" (2008 NSR PM<sub>2.5</sub> Rule). 67 FR 80186 (December 31, 2002) (2002 NSR Rules) and 73 FR 28321 (May 16, 2008) (2008 NSR Rule). The 2008 NSR PM<sub>2.5</sub> Rule (as well as the 2007 "Final Clean Air Fine Particle Implementation Rule" (2007 PM<sub>2.5</sub> Implementation Rule)<sup>1</sup>), was the subject of litigation before the United States Court of Appeals for the District of Columbia Circuit (DC Circuit) in *Natural Resources Defense Council v. EPA*.<sup>2</sup> On January 4, 2013, the court remanded to EPA both the 2007 PM<sub>2.5</sub> Implementation Rule and the 2008 NSR PM<sub>2.5</sub> Rule. The court found that in both rules EPA erred in implementing the 1997 PM<sub>2.5</sub> National Ambient Air Quality Standard (NAAQS) solely pursuant to the general implementation provisions of subpart 1 of part D of title I of the CAA (subpart 1), rather than pursuant to the additional implementation provisions specific to particulate matter in subpart 4 of part D

of title I (subpart 4).<sup>3</sup> As a result, the court remanded both rules and instructed EPA "to re-promulgate these rules pursuant to subpart 4 consistent with this opinion."

As was noted in the NPR, with respect to PM<sub>2.5</sub>, DDOE submitted an attainment plan for the Metropolitan Washington, DC-MD-VA nonattainment area on April 2, 2008. On January 12, 2009, EPA finalized a clean data determination for the area for the 1997 PM<sub>2.5</sub> NAAQS, which suspended the requirement for DDOE to submit, among other things, an attainment plan SIP for the area. 74 FR 1146. Accordingly, on February 6, 2012, DDOE withdrew the attainment plan SIP, and it is no longer before EPA. Moreover, on October 6, 2014, EPA took final action to redesignate the Metro-Washington area to attainment for the 1997 PM<sub>2.5</sub> NAAQS. 79 FR 60081. As a result, DDOE is no longer obligated to submit a nonattainment NSR SIP revision under section 189 of the CAA addressing nonattainment NSR permitting requirements for PM<sub>2.5</sub>, including the requirements under subpart 4. Therefore, EPA has not evaluated the April 5, 2013 submittal for the purposes of determining compliance with the subpart 4 requirements. To the extent that any area is designated nonattainment for PM<sub>2.5</sub> in the future in the Metropolitan Washington, DC area, DDOE will have to make a submission under Section 189 of the CAA addressing how its nonattainment permitting program in the D.C. SIP satisfies the CAA statutory requirements as to PM<sub>2.5</sub>, including subpart 4 and any applicable PM<sub>2.5</sub> Federal implementation rules.

Other specific requirements of DDOE's April 5, 2013 submittal and the rationale for EPA's approval are explained in the NPR and will not be restated here. No public comments were received on the NPR.

##### III. Final Action

EPA is approving DDOE's April 5, 2013 submittal as a revision to the D.C. SIP.

##### IV. Incorporation by Reference

In this rulemaking action, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is finalizing the

<sup>3</sup> The DC Circuit's opinion did not specifically address the point that implementation under subpart 4 requirements would still require consideration of subpart 1 requirements, to the extent that subpart 4 did not override subpart 1. EPA assumes that the court presumed that EPA would address this issue of potential overlap between subpart 1 and subpart 4 requirements in subsequent actions.

<sup>2</sup> 706 F.3d 428 (D.C. Cir. 2013).

incorporation by reference of revisions to D.C.'s nonattainment NSR program, notably provisions for PALs and preconstruction permitting requirements for major sources of PM<sub>2.5</sub> as discussed in section II of this action. The EPA has made, and will continue to make, these documents generally available electronically through [www.regulations.gov](http://www.regulations.gov) and/or in hard copy at the appropriate EPA office (see the **ADDRESSES** section of this preamble for more information).

**V. Statutory and Executive Order Reviews**

**A. General Requirements**

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a "significant regulatory action" subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);

- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
  - Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
  - Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
  - Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).
- In addition, this rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIP is not approved to apply in Indian country located in the state, and EPA notes that it will not impose substantial direct costs on tribal governments or preempt tribal law.

**B. Submission to Congress and the Comptroller General**

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

**C. Petitions for Judicial Review**

Under section 307(b)(1) of the CAA, petitions for judicial review of this

action must be filed in the United States Court of Appeals for the appropriate circuit by May 18, 2015. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action pertaining to D.C.'s nonattainment NSR program may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)

**Approval and Promulgation of Air Quality Implementation Plans; State of Missouri; Reporting Emission Data, Emission Fees and Process Information**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Direct final rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is taking direct final action to approve revisions to the State Implementation Plan (SIP) and the Operating Permits Program for the State of Missouri submitted on October 2, 2013. These revisions remove definitions that were in this rule but have been moved to the state’s general definitions rule. These revisions also clarify the information required in emission reports and clarify the types and frequency of reports for the emission inventory. In addition, a revision to the emission fees section of this rule clarifies that the current emissions fee is only applicable for years 2013, 2014, and 2015 as set by Missouri statute.

**DATES:** This direct final rule will be effective May 18, 2015, without further notice, unless EPA receives adverse comment by April 20, 2015. If EPA receives adverse comment, we will publish a timely withdrawal of the direct final rule in the **Federal Register** informing the public that the rule will not take effect.

**ADDRESSES:** Submit your comments, identified by Docket ID No. EPA-R07-OAR-2015-0134, by one of the following methods:

1. *www.regulations.gov*. Follow the on-line instructions for submitting comments.
2. *Email: Higbee.paula@epa.gov*
3. *Mail or Hand Delivery:* Paula Higbee, Environmental Protection Agency, Air Planning and Development Branch, 11201 Renner Boulevard, Lenexa, Kansas 66219.

*Instructions:* Direct your comments to Docket ID No. EPA-R07-OAR-2015-0134. EPA’s policy is that all comments received will be included in the public docket without change and may be made available online at *www.regulations.gov*, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit through *www.regulations.gov* or email information that you consider to be CBI or otherwise protected. The *www.regulations.gov* Web site is an “anonymous access” system, which means EPA will not know your identity or contact information unless you

provide it in the body of your comment. If you send an email comment directly to EPA without going through *www.regulations.gov*, your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

*Docket:* All documents in the docket are listed in the *www.regulations.gov* index. Although listed in the index, some information is not publicly available, *i.e.*, CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, will be publicly available only in hard copy form. Publicly available docket materials are available either electronically in *www.regulations.gov* or in hard copy at the Environmental Protection Agency, Air Planning and Development Branch, 11201 Renner Boulevard, Lenexa, Kansas 66219.
