

year, and specific outputs and outcomes.

Use of the Information: The data collected will be used for NSF internal reports, historical data, performance review by peer site visit teams, program level studies and evaluations, and for securing future funding for continued ERC program maintenance and growth.

Estimate of Burden: 100 hours per center for 17 centers for a total of 1,700 hours.

Respondents: Academic institutions.

Estimated Number of Responses per Report: One from each of the 17 ERCs.

Dated: March 16, 2015.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555-01-P

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request

AGENCY: National Science Foundation.

ACTION: Submission for OMB review; comment request.

SUMMARY: The National Science Foundation (NSF) has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. This is the second notice for public comment; the first was published in the **Federal Register** at 80 FR 1670, and no comments were received. NSF is forwarding the proposed renewal submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; or (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for National Science Foundation, 725-17th Street NW., Room 10235, Washington, DC 20503, and to

Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 1265, Arlington, Virginia 22230 or send email to *chines@nsf.gov*. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling 703-292-7556.

FOR FURTHER INFORMATION CONTACT:

Suzanne H. Plimpton at (703) 292-7556 or send email to *splimpto@nsf.gov*.

Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including federal holidays).

NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Title: Request for Proposals.

OMB Control Number: 3145-0080.

Proposed Project: The Federal Acquisition Regulations (FAR) Subpart 15.2—"Solicitation and Receipt of Proposals and Information" prescribes policies and procedures for preparing and issuing Requests for Proposals. The FAR System has been developed in accordance with the requirement of the Office of Federal Procurement Policy Act of 1974, as amended. The NSF Act of 1950, as amended, 42 U.S.C. 1870, Sec. II, states that NSF has the authority to:

(c) Enter into contracts or other arrangements, or modifications thereof, for the carrying on, by organizations or individuals in the United States and foreign countries, including other government agencies of the United States and of foreign countries, of such scientific or engineering activities as the Foundation deems necessary to carry out the purposes of this Act, and, at the request of the Secretary of Defense, specific scientific or engineering activities in connection with matters relating to international cooperation or national security, and, when deemed appropriate by the Foundation, such contracts or other arrangements or modifications thereof, may be entered into without legal consideration, without performance or other bonds and

without regard to section 5 of title 41, U.S.C.

Use of the Information: Request for Proposals (RFP) is used to competitively solicit proposals in response to NSF need for services. Impact will be on those individuals or organizations who elect to submit proposals in response to the RFP. Information gathered will be evaluated in light of NSF procurement requirements to determine who will be awarded a contract.

Estimate of Burden: The Foundation estimates that, on average, 558 hours per respondent will be required to complete the RFP.

Respondents: Individuals; business or other for-profit; not-for-profit institutions; Federal government; state, local, or tribal governments.

Estimated Number of Responses: 75.

Estimated Total Annual Burden on Respondents: 41,850 hours.

Dated: March 16, 2015.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555-01-P

NATIONAL SCIENCE FOUNDATION

Advisory Committee for Engineering; Notice of Meeting

In accordance with the Federal Advisory Committee Act (Pub. L. 92-463, as amended), the National Science Foundation announces the following meeting:

Name: Advisory Committee for Engineering #1170.

Date/Time: April 15, 2015: 12:30 p.m. to 6:00 p.m.; April 16, 2015: 8:30 a.m. to 12:30 p.m.

Place: National Science Foundation, 4201 Wilson Boulevard, Suite 1235, Arlington, Virginia 22230.

Type of Meeting: open.

Contact Person: Evette Rollins, National Science Foundation, 4201 Wilson Boulevard, Suite 505, Arlington, Virginia 22230; 703-292-8300.

Purpose of Meeting: To provide advice, recommendations and counsel on major goals and policies pertaining to engineering programs and activities.

Agenda:

Wednesday, April 15, 2015

- Directorate for Engineering Report
- Electrical, Communications, and Cyber Systems (ECCS) Overview
- ECCS Committee of Visitors (COV) Report
- Broadening Participation in Engineering

Thursday, April 16, 2015

- Perspectives from the Office of the Director
- Emerging Frontiers of Research and Innovation (EFRI) Overview
- EFRI Committee of Visitors (COV) Report
- Roundtable on ENG Strategic Activities and Recommendations

Dated: March 13, 2015.

Suzanne Plimpton,

Acting, Committee Management Officer.

BILLING CODE 7555-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 070-3103; NRC-2013-0044]

URENCO USA, Uranium Enrichment Facility

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Environmental assessment and finding of no significant impact; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is considering approval of the URENCO USA (UUSA) license amendment request 12-10 (LAR-12-10) that would authorize capacity expansion of the UUSA enrichment facility near Eunice, New Mexico. In addition the NRC is considering approval of related UUSA license amendment requests that would authorize increases in the mass possession limits for natural, depleted, and enriched uranium; and would authorize use of a modified enrichment process to utilize depleted uranium as the feed material.

DATES: The environmental assessment and finding of no significant impact referenced in this document is available on March 19, 2015.

ADDRESSES: Please refer to Docket ID NRC-2013-0044 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- Federal Rulemaking Web site: Go to <http://www.regulations.gov> and search for Docket ID NRC-2013-0044. Address questions about NRC dockets to Ms. Carol Gallagher; telephone: 301-415-3463; email: Carol.Gallagher@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- NRC's Agencywide Documents Access and Management System

(ADAMS): You may obtain publicly-available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "ADAMS Public Documents" and then select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced in this document (if that document is available in ADAMS) is provided the first time that a document is referenced.

- NRC's PDR: You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT: Asimios Malliakos, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-6458; email: Asimios.Malliakos@nrc.gov.

SUPPLEMENTARY INFORMATION:**I. Introduction**

The NRC is considering approval of the UUSA LAR-12-10 (a publicly-available version is available in ADAMS under Accession No. ML12319A591), and UUSA's supplemental license amendment request (ADAMS Accession No. ML14171A092). The NRC's approval would authorize capacity expansion of the UUSA enrichment facility that operates near Eunice, New Mexico. LAR-12-10 and the supplemental request were submitted by URENCO USA (formerly Louisiana Energy Services, LLC), requesting amendment of its special nuclear material (SNM) License SNM-2010, under which UUSA operates its gas centrifuge uranium enrichment facility. The NRC's approval would increase the authorized mass possession limits for natural, depleted, and enriched uranium, and would authorize use of a modified enrichment process to utilize depleted uranium as the feed material. The NRC staff has prepared an Environmental Assessment (EA) (ADAMS Accession No. ML15072A016) of the proposed actions, in accordance with the requirements in Part 51 of Title 10 of the *Code of Federal Regulations* (10 CFR). Both LAR-12-10 and UUSA's June 2014, supplemental license amendment request were considered in the EA prepared by the NRC staff.

The NRC staff's safety evaluation of the proposed actions will be

documented in a separate Safety Evaluation Report (SER). If the proposed actions are approved, the NRC will issue to UUSA an amended SNM-2010 license following the publication of this notice, and the amended license will be made publicly available.

II. Environmental Assessment

On September 10, 2012, UUSA submitted an Environmental Report (ER) (ADAMS Accession Nos. ML12262A539 and ML12262A540) that forms a basis for the NRC's EA of the proposed actions. On November 9, 2012, UUSA submitted the associated LAR-12-10 to expand the production capacity of the UUSA facility. Subsequent to LAR-12-10, UUSA submitted a supplemental license amendment request on June 17, 2014. The June 2014 submittal requested an increase in the authorized mass possession limits for natural, depleted, and enriched uranium. In addition, the June 2014 submittal requested authorization to use a modified enrichment process that would utilize depleted uranium instead of natural uranium as the feed material.

The NRC staff has assessed the potential environmental impacts associated with the 2012 and 2014 license amendment requests, as well as the no action alternative, and has documented the results in the EA. The NRC staff performed its environmental review in accordance with the requirements in 10 CFR part 51. In addition to the ER, the NRC staff also considered information received from a request for additional information (RAI); communications with the New Mexico State Historic Preservation Office (SHPO); the New Mexico Department of Game and Fish; information gathered from an NRC site visit; consultation with Native American Tribes, local governments and agencies officials; as well as information from independent analysis.

In the EA, the NRC staff evaluated the potential environmental impacts of the proposed action and the no action alternative on the affected environment. The resource areas evaluated include: land use; historical and cultural resources; visual and scenic resources; climatology, meteorology, and air quality; geology, minerals, and soils; water resources; ecological resources; socioeconomic; environmental justice; noise; transportation; public and occupational health and safety; and waste management.

Additionally, the NRC staff analyzed the potential cumulative impacts from past, present, and reasonably foreseeable future actions when combined with the environmental
