Animal and Plant Health Inspection Service

Title: Importation of Longan from Taiwan.

OMB Control Number: 0579-0351.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701), the Secretary of Agriculture is authorized to carry out operations or measures to detect, eradicate, suppress, control, prevent, or retard the spread of plant pests new to the United States or not known to be widely distributed throughout the United States. The fruits and vegetables regulations allow the importation of commercial shipments of fresh longan with stems from Taiwan into the United States. As a condition of entry, the longan will be subject to cold treatment and special port-of-arrival inspection procedures for certain quarantine pests.

Need and use of the Information: APHIS will use the following information collection activities to allow the import of commercial shipment of fresh longan with stems from Taiwan into the United States: Phytosanitary Certificate, Inspection by NPPOs in Taiwan and Stamping of Boxes. Failing to collect this information would cripple APHIS ability to ensure that longan from Taiwan are not carrying plant pests.

Description of Respondents: Business or other for-profits; Federal Government.

Number of Respondents: 2.

Frequency of Responses: Reporting; On occasion.

Total Burden Hours: 22.

Ruth Brown,

Departmental Information Collection Clearance Officer.
