

Regulations (19 CFR § 134) implements the country of origin marking requirements and exceptions of 19 U.S.C. § 1304.

Section 134.1(b), CBP Regulations (19 CFR § 134.1(b)), defines “country of origin” as:

the country of manufacture, production or growth of any article of foreign origin entering the United States. Further work or material added to an article in another country must effect a substantial transformation in order to render such other country the “country of origin” within the meaning of this part; . . .

The country of origin of an article for U.S. tariff purposes is the country in which the last substantial transformation took place. A substantial transformation occurs when an article is used in a manufacturing process or operation that results in a new article that has a new name, character or use different from that of the original imported article. A substantial transformation will not result from a minor manufacturing or combining process that leaves the identity of the article intact. See *United States v. Gibson-Thomsen Co.*, 27 C.C.P.A. 267 (1940); and *National Hand Tool Corp. v. United States*, 989 F.2d 1201 (Fed. Cir. 1992).

In the instant case, Ferring mixes all the ingredients by blending, sieving, and mixing. We find that this processing results in a substantial transformation. The combination of the two ingredients results in a more stimulative laxative effect for purposes of cleansing the bowels. Therefore, we find that the country of origin of Prepopik is China for country of origin marking purposes.

HOLDING:

Based on the facts in this case, we find that the imported Prepopik is substantially transformed in China. The country of origin for government procurement and marking purposes is China.

Notice of this final determination will be given in the **Federal Register**, as required by 19 CFR § 177.29. Any party-at-interest other than the party which requested this final determination may request, pursuant to 19 CFR § 177.31, that CBP reexamine the matter anew and issue a new final determination.

Pursuant to 19 CFR § 177.30, any party-at-interest may, within 30 days of publication of the **Federal Register** Notice referenced above, seek judicial review of this final determination before the Court of International Trade.

Sincerely,
Glen E. Vereb,
Acting Executive Director, Regulations and Rulings, Office of International Trade.

BILLING CODE 9111-14-P

DEPARTMENT OF HOMELAND SECURITY

U.S. Customs and Border Protection

Accreditation and Approval of AmSpec Services, LLC, as a Commercial Gauger and Laboratory

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: Notice of accreditation and approval of AmSpec Services, LLC, as a commercial gauger and laboratory.

SUMMARY: Notice is hereby given, pursuant to CBP regulations, that AmSpec Services, LLC, has been approved to gauge petroleum and certain petroleum products and accredited to test petroleum and certain petroleum products for customs purposes for the next three years as of October 27, 2014.

DATES: Effective Dates: The accreditation and approval of AmSpec Services, LLC, as commercial gauger and laboratory became effective on October 27, 2014. The next triennial inspection date will be scheduled for October 2017.

FOR FURTHER INFORMATION CONTACT: Approved Gauger and Accredited Laboratories Manager, Laboratories and Scientific Services Directorate, U.S. Customs and Border Protection, 1300 Pennsylvania Avenue NW., Suite 1500N, Washington, DC 20229, tel. 202-344-1060.

SUPPLEMENTARY INFORMATION: Notice is hereby given pursuant to 19 CFR 151.12 and 19 CFR 151.13, that AmSpec Services, LLC, 4075 Sprig Driver, Suite A, Concord, CA 94520, has been approved to gauge petroleum and certain petroleum products and accredited to test petroleum and certain petroleum products for customs purposes, in accordance with the provisions of 19 CFR 151.12 and 19 CFR 151.13. AmSpec Services, LLC is approved for the following gauging procedures for petroleum and certain petroleum products from the American Petroleum Institute (API):

API Chapters	Title
1	Vocabulary.
3	Tank gauging.
7	Temperature determination.
8	Sampling.
11	Physical Properties.
12	Calculations.
17	Maritime measurement.

AmSpec Services, LLC is accredited for the following laboratory analysis procedures and methods for petroleum and certain petroleum products set forth by the U.S. Customs and Border Protection Laboratory Methods (CBPL) and American Society for Testing and Materials (ASTM):

CBPL No.	ASTM	Title
27-13	ASTM D-4294	Standard test method for sulfur in petroleum and petroleum products by energy-dispersive x-ray fluorescence spectrometry.
27-06	ASTM D-473	Standard test method for sediment in crude oils and fuel oils by the extraction method.
27-01	ASTM D-287	Standard test method for API gravity of crude petroleum and petroleum products (hydrometer method).
27-46	ASTM D-5002	Standard test method for density and relative density of crude oils by digital density analyzer.
27-05	ASTM D-4928	Standard test method for water in crude oils by Coulometric Karl Fischer Titration.
27-48	D-4052	Density and Relative density of liquids by digital density meter.

Anyone wishing to employ this entity to conduct laboratory analyses and gauger services should request and receive written assurances from the entity that it is accredited or approved by the U.S. Customs and Border Protection to conduct the specific test or gauger service requested. Alternatively,

inquiries regarding the specific test or gauger service this entity is accredited or approved to perform may be directed to the U.S. Customs and Border Protection by calling (202) 344-1060. The inquiry may also be sent to CBPGaugersLabs@dhs.gov. Please reference the Web site listed below for

a complete listing of CBP approved gaugers and accredited laboratories. <http://www.cbp.gov/about/labs-scientific/commercial-gaugers-and-laboratories>

Dated: March 13, 2015.

Ira S. Reese,

Executive Director, Laboratories and Scientific Services Directorate.
