SUPPLEMENTARY INFORMATION:

I. Abstract

The Leahy-Smith America Invents Act (“Act”) was enacted into law on September 16, 2011. Public Law 112–29, 125 Stat. 283 (2011). Under section 10(b) of the Act, eligible small entities shall receive a 50 percent fee reduction from the undiscounted fees for filing, searching, examining, issuing, appealing, and maintaining patent applications and patents. The Act further provides that micro entities shall receive a 75 percent fee reduction from the undiscounted fees for filing, searching, examining, issuing, appealing, and maintaining patent applications and patents.

This information collection covers the submissions made by patent applicants and patentees to excuse small and micro entity fee payment errors. Specifically, 37 CFR 1.28(c) provides a procedure by which patent applicants and patentees may be excused for erroneous payments of fees in the small entity amount. 37 CFR 1.29(k) provides a procedure by which patent applicants and patentees may be excused for erroneous payments of fees in the micro entity amount.

This information collection is necessary so that patent applicants and patentees may pay the balance of fees due (i.e., make a fee deficiency payment) when a fee was previously paid in error in a micro or small entity amount. The USPTO needs the information to be able to process and properly record a fee deficiency payment to avoid questions arising later either for the USPTO or for the applicant or patentee as to whether the proper fees have been paid in the application or patent.

II. Method of Collection

The items in this collection may be submitted online using EFS-Web, the USPTO’s Web-based electronic filing system, or on paper by either mail or hand delivery.

Estimated Total Annual Hour Burden: 6,000 hours.

Estimated Total Annual Cost Burden (Hourly): $2,334,000. The USPTO estimates that attorneys will complete the instruments associated with this information collection. The professional hourly rate for an attorney is $389. Using this hourly rate, the USPTO estimates $2,334,000 per year for the total hourly costs associated with respondents.
Therefore, the USPTO estimates that the total annual (non-hour) cost burden for this collection, in the form of postage costs is $504.00 per year.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden (including hours and cost) of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Comments submitted in response to this notice will be summarized or included in the request for OMB approval of this information collection; they will also become a matter of public record.

SUPPLEMENTARY INFORMATION:
I. Abstract

The United States Patent and Trademark Office (USPTO) is required by 35 U.S.C. 131 et seq. to examine an application for patent and, when appropriate, issue a patent. The provisions of 35 U.S.C. 301 and 37 CFR 1.501 govern the ability of a person to submit into the file of an issued patent (i) prior art consisting of patents or printed publications which that person believes to have a bearing on the patentability of any claim of a patent and (ii) written statements of a patent owner filed in a proceeding before a Federal court or the USPTO in which the patent owner took a position on the scope of any claim of the patent.

The information in this collection can be submitted electronically through EFS-Web, the USPTO’s web-based electronic filing system, as well as on paper. The USPTO therefore accounts for both electronic and paper submissions in this collection.
