[Docket No. PF15-9-000]

UGI Sunbury, LLC; Notice of Intent To Prepare an Environmental Assessment for the Planned Sunbury Pipeline Project and Request for Comments on Environmental Issues, and Notice of Public Scoping Meeting

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Sunbury Pipeline Project (Project) involving the construction and operation of approximately 34.5 miles of 20-inch diameter pipeline and related facilities by UGI Sunbury, LLC (Sunbury) in Snyder, Union, Northumberland, Montour, and Lycoming Counties, Pennsylvania. The Commission will use this EA in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public

and interested agencies on the project. Your input will help the Commission staff determine what issues they need to evaluate in the EA. Please note that the scoping period will close on April 17, 2015.

You may submit comments in written form or verbally. Further details on how to submit written comments are in the Public Participation section of this notice. If you sent comments on this project to the Commission before the opening of this docket on December 30, 2014, you will need to file those comments in Docket No. PF15-9-000 to ensure they are considered as part of this proceeding. In lieu of or in addition to sending written comments, the Commission invites you to attend the public scoping meeting scheduled as follows:

Date and time	Location
April 7, 2015, 6:00 p.m. (Eastern Time).	James F. Baugher Elementary School, All Purpose Room, 60 Brenda Rovenolt Circle, Milton, PA 17847.

This notice is being sent to the Commission's current environmental mailing list for this project. State and local government representatives should notify their constituents of this planned project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, a pipeline company representative may contact you about the acquisition of an easement to construct, operate, and maintain the planned facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the Commission approves the project, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings where compensation would be determined in accordance with state law.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" is available for viewing on the FERC Web site (www.ferc.gov). This fact sheet addresses a number of typically asked questions, including the use of eminent domain and how to participate in the Commission's proceedings.

Summary of the Planned Project

Sunbury plans to construct, own, and operate a new natural gas pipeline extending from Lycoming County, Pennsylvania to a gas-fired power plant,
