

should require Neo Solar to provide additional information about its company operations before making a preliminary successor-in-interest determination.

Scope of the Order

The merchandise covered by this order is crystalline silicon photovoltaic cells, and modules, laminates, and panels, consisting of crystalline silicon photovoltaic cells, whether or not partially or fully assembled into other products, including, but not limited to, modules, laminates, panels and building integrated materials.

This order covers crystalline silicon photovoltaic cells of thickness equal to or greater than 20 micrometers, having a p/n junction formed by any means, whether or not the cell has undergone other processing, including, but not limited to, cleaning, etching, coating, and/or addition of materials (including, but not limited to, metallization and conductor patterns) to collect and forward the electricity that is generated by the cell.

Merchandise under consideration may be described at the time of importation as parts for final finished products that are assembled after importation, including, but not limited to, modules, laminates, panels, building-integrated modules, building-integrated panels, or other finished goods kits. Such parts that otherwise meet the definition of merchandise under consideration are included in the scope of this order.

Excluded from the scope of this order are thin film photovoltaic products produced from amorphous silicon (a-Si), cadmium telluride (CdTe), or copper indium gallium selenide (CIGS).

Also excluded from the scope of this order are crystalline silicon photovoltaic cells, not exceeding 10,000 mm² in surface area, that are permanently integrated into a consumer good whose function is other than power generation and that consumes the electricity generated by the integrated crystalline silicon photovoltaic cell. Where more than one cell is permanently integrated into a consumer good, the surface area for purposes of this exclusion shall be the total combined surface area of all cells that are integrated into the consumer good.

Modules, laminates, and panels produced in a third-country from cells produced in the PRC are covered by this order; however, modules, laminates, and panels produced in the PRC from cells produced in a third-country are not covered by this order.

Merchandise covered by this order is currently classified in the Harmonized

Tariff System of the United States ("HTSUS") under subheadings 8501.61.0000, 8507.20.80, 8541.40.6020, 8541.40.6030, and 8501.31.8000. These HTSUS subheadings are provided for convenience and customs purposes; the written description of the scope of this order is dispositive.

Initiation of Changed Circumstances Review

Pursuant to section 751(b) of the Act, the Department will conduct a changed circumstances review upon receipt of a request from an interested party which shows changed circumstances sufficient to warrant a review of an order. In accordance with section 751(b) of the Act and 19 CFR 351.216(d), the Department determines that the information submitted by Neo Solar, DelSolar Taiwan, and DelSolar Wujiang constitutes sufficient evidence to conduct a changed circumstances review of the *Order*.²

In a changed circumstances review involving a successor-in-interest determination, the Department typically examines several factors including, but not limited to, changes in: (1) Management; (2) production facilities; (3) supplier relationships; and (4) customer base.³ While no single factor or combination of factors will necessarily be dispositive, the Department generally will consider the new company to be the successor to the predecessor if the resulting operations are essentially the same as those of the predecessor company.⁴ Thus, if the record demonstrates that, with respect to the production and sale of the subject merchandise, the new company operates as the same business entity as the predecessor company, the Department may assign the new company the cash deposit rate of its predecessor.⁵

After reviewing the information provided in the request for a changed circumstances review, we determined that Neo Solar, DelSolar Taiwan, and DelSolar Wujiang provided sufficient evidence to warrant a review to determine if Neo Solar is the successor-in-interest to DelSolar Taiwan. Therefore, pursuant to section 751(b)(1) of the Act and 19 CFR 351.216(d), we are initiating a changed circumstances

² See also 19 CFR 351.221.

⁵ *Id.*

review. However, we also determined that there is a need to issue a questionnaire to gather additional information, as provided for by 19 CFR 351.221(b)(2), before issuing a preliminary determination in this review. Therefore, the Department is not conducting this review on an expedited basis by publishing the preliminary results in conjunction with this notice of initiation.

The Department will issue the preliminary results of this changed circumstances review, in accordance with 19 CFR 351.221(b)(4) and 19 CFR 351.221(c)(3), which will set forth the factual and legal conclusions upon which the preliminary results are based, and a description of any action proposed because of those results. Pursuant to 19 CFR 351.221(b)(4)(ii), interested parties will have an opportunity to comment on the preliminary results of the review. In accordance with 19 CFR 351.216(e), the Department will issue the final results of its AD changed circumstance review within 270 days after the date on which the review is initiated.

During the course of this changed circumstances review, we will not change the cash deposit requirements for the merchandise subject to review. The cash deposit will only be altered, if warranted, pursuant to the final results of this review.

This initiation notice is published in accordance with sections 751(b)(1) and 777(i) of the Act and 19 CFR 351.216(b) and 351.221(b)(1).

Dated: March 18, 2015.

Gary Taverman,

Associate Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Economic Survey of Gulf of Mexico (GOM) Dealers Associated With the Gulf of Mexico (GOM) Grouper-Tilefish Individual Fishing Quota (GT-IFQ) Program

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and

respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before May 26, 2015.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at Jjessup@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Dr. Larry Perruso, (305) 361-4278 or Larry.perruso@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for a new information collection.

The National Marine Fisheries Service (NMFS) proposes to collect economic and attitudinal data from reef fish dealers regarding the performance of the GOM Grouper-Tilefish IFQ Program five years after its implementation. These data will be used to estimate the effects of the GT-IFQ Program on these stakeholders for the five-year program review mandated by the Magnuson-Stevens Fishery Conservation and Management Act (U.S.C. 1801 *et seq.*). The population targeted by the economic survey is all federally licensed dealers that participate in the GOM reef fish fishery. In addition, the information will be used to strengthen and improve fishery management decision-making, and satisfy legal mandates under Executive Order 12866, the Regulatory Flexibility Act, the Endangered Species Act, the National Environmental Policy Act and other pertinent statutes.

II. Method of Collection

The economic and attitudinal information sought will be collected via in-person and mail surveys.

III. Data

OMB Control Number: 0648-XXXX.

Form Number: None.

Type of Review: Regular submission (request for a new information collection).

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 168.

Estimated Time per Response: 1 hour.

Estimated Total Annual Burden Hours: 168.

Estimated Total Annual Cost to Public: \$0 in recordkeeping/reporting costs.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: March 18, 2015.

Sarah Brabson,

NOAA PRA Clearance Officer.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

**Submission for OMB Review;
Comment Request**

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: Survey of Residential Building or Zoning Permit Systems.

OMB Control Number: 0607-0350.

Form Number(s): C-411(V), C-411(M), C-411(C).

Type of Request: Reinstatement, without change, of an expired collection.

Number of Respondents: 2,000.

Average Hours per Response: 15 minutes.

Burden Hours: 500.

Needs and Uses: The U.S. Census Bureau is requesting reinstatement of the recently expired Form C-411, "Survey of Residential Building or Zoning Permit Systems." The Census Bureau produces statistics used to monitor activity in the large and dynamic construction industry. These statistics help state and local governments and the federal

government, as well as private industry, to analyze this important sector of the economy. The accuracy of the Census Bureau statistics regarding the amount of construction authorized depends on data supplied by building and zoning officials throughout the country. The Census Bureau uses Form C-411 to obtain information from state and local building permit officials needed for updating the universe of permit-issuing places which serves as the sampling frame for the Report of Privately-Owned Residential Building or Zoning Permits Issued (OMB number 0607-0094), also known as the Building Permits Survey (BPS), and the Survey of Housing Starts, Sales, and Completions (OMB number 0607-0110), also known as Survey of Construction (SOC). These two sample surveys provide widely used measures of construction activity, including the principal economic indicators New Residential Construction and New Home Sales. Data from the BPS and SOC are also used by the Bureau of Economic Analysis (BEA) in the calculation of estimates of the Residential Fixed Investment portion of the Nation's Gross Domestic Product (GDP). In addition, data from the BPS are used by the Census Bureau in the calculation of annual population estimates; these estimates are widely used by government agencies to allocate funding and other resources to local governments.

The questions on Form C-411 pertain to the legal requirements for issuing building or zoning permits in the local jurisdictions. Information is obtained on such items as geographic coverage and types of construction for which permits are issued.

No changes are planned to the C-411(V) form. We have updated the form layouts of forms C-411(M) and C-411(C) to provide clarification and improve questionnaire flow.

The appropriate form is sent to a jurisdiction when the Manufacturing and Construction Division (MCD) has reason to believe that a new permit system has been established or an existing one has changed. This is based on information from a variety of sources including survey respondents, regional councils and the Census Bureau's Geography Division which keeps abreast of changes in corporate status. Responses typically approach 85 percent.

We use the information to verify the existence of new permit systems or changes to existing systems. Based on the information, we add new permit-issuing places to the universe, delete places no longer issuing permits, and
