SUPPLEMENTARY INFORMATION: On October 10, 2014, OSHA published in the **Federal Register** (79 FR 61384–61438) a Request for Information (RFI) soliciting stakeholder feedback with respect to OSHA’s overall approach to managing hazardous chemical exposures in the workplace. The document outlines potential modifications to OSHA’s current risk and feasibility assessment approaches and requests additional information about chemical management for the workplace that may be more efficient, while still maintaining worker protection. The RFI set a date of April 8, 2015 for submitting written comments.

OSHA has received multiple requests from stakeholders, including the American College of Occupational and Environmental Medicine (ACOEM), the American Federation of Labor and Congress of Industrial Organizations (AFL–CIO), the American Industrial Hygiene Association (AIHA), and ORCHSE Strategies, LLC, to extend the comment period by 60 to 180 additional days. These groups have requested this additional time in order to better research, consider, and formulate responses to the over 50 questions OSHA included in the RFI.

OSHA has decided to extend the comment deadline to October 9, 2015, which provides stakeholders an additional 6 months in which to submit comments.
