Food and Nutrition Service

Title: The Integrity Program (TIP) Data Collection.

OMB Control Number: 0584-0401.

Summary of Collection: This is a request for extension, without revision, to an existing collection. The Women, Infant, and Children (WIC) Program regulations at 7 CFR 246.12(j)(5), requires State agencies to report annually on their vendor monitoring efforts. The data collected is used by States agencies as a management tool and at the national level to provide Congress, senior FNS officials, as well as the general public, assurances that every reasonable effort is being made to ensure integrity in the WIC Program.

Need and Use of the Information: The Food and Nutrition Service (FNS) will collect information using forms FNS 698, Profile of Integrity Practices and Procedures; FNS 699, the Integrity Profile Report Form; and FNS 700, TIP Data Entry Form. The collected information from the forms will be analyzed and a report is prepared by FNS annually that (1) assesses State agency progress in eliminating abusive vendors, (2) assesses the level of activity that is being directed to ensure program integrity, and (3) analyzes trends over a 5-year period. The information is used at the national level in formulating program policy and regulations. At the FNS regional office level, the data is reviewed to identify possible vendor management deficiencies so that technical assistance can be provided to States, as needed. Without the information, FNS would not have timely and accurate data needed to identify

and correct State agency vendor management and monitoring deficiencies and to implement corrective actions.

Animal Plant and Health Inspection Service

Title: Interstate Movement of Sheep and Goats; Recordkeeping for Approved Livestock Marketing Facilities and Slaughtering and Rendering Establishments.

OMB Control Number: 0579–0258.

Summary of Collection: The Animal Health Protection Act (AHPA) of 2002 is the primary Federal law governing the protection of animal health. The law gives the Secretary of Agriculture broad authority to detect, control, or eradicate pests or diseases of livestock or poultry. Disease surveillance and prevention is the most effective method for maintaining a healthy animal population and enhancing the ability of the Animal and Plant Health Inspection Service (APHIS) to help U.S. producers

compete in the world market of animal and animal product trade. The Veterinary Services (VS) program of APHIS is the unit responsible for carrying out the disease prevention mission. One of the APHIS disease eradication programs addresses scrapie. Scrapie is a progressive, degenerative, and eventually fatal disease affecting the central nervous system of sheep and goats. APHIS' regulations 9 CFR 71.20 and 9 CFR 71.21 regarding the movement of livestock to require approved livestock auction market facilities, slaughtering establishments, and rendering establishments to maintain certain records for 5 years (2 years if the records regard only swine or poultry).

APHIS is merging the information collection 0579–0342, Recordkeeping for Approved Livestock Facilities, Slaughtering, and Rendering Establishments, into this package 0579–0258. These collections include the same regulations; therefore, it will be more efficient to have them consolidated into one collection. Collection 0579–0342 will be discontinued once this collection is approved.

Need and Use of the Information: In order for APHIS' Disease prevention program to be effective, its animal identification, recordkeeping, and other requirements must be carried out at livestock facilities that handle livestock and poultry moving in interstate commerce. The individual legally responsible for the day-to-day operation of the facility must execute an Approval of Livestock Facilities Agreement with APHIS. The information restricts the interstate movement of livestock within the United States to control diseases of concern and approve livestock facilities and slaughtering and rendering establishments that handle livestock moving in interstate commerce.

Description of Respondents: Business or other for-profit; State, Local or Tribal Government.

Number of Respondents: 234.

Frequency of Responses: Recordkeeping; Reporting: On occasion.

Total Burden Hours: 604.
