

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Acrylonitrile (AN) Standard information collection requirements codified in regulations 29 CFR 1910.1045. The Standard is an occupational safety and health standard that protects workers from the adverse health effects that may result from exposure to AN. The AN Standard information collection requirements are essential components that protect workers from occupational exposure. An Occupational Safety and Health Act of 1970 (OSH Act) covered employer subject to the Standard and employees use the information to implement the protection the Standard requires. The information collections contained in the AN Standard include notifying a worker of AN exposures; a written compliance program; a worker medical surveillance program; and the development, maintenance, and disclosure of workers' exposure monitoring and medical records. OSH Act sections 2(b)(9), 6, and 8(c) authorize this information collection. See 29 U.S.C. 651(b)(9), 655, and 657.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1218-0126.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on March 31, 2015. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on November 13, 2014 (79 FR 67463).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section by April 30, 2015. In order to help ensure appropriate consideration,

comments should mention OMB Control Number 1218-0126. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Onsite Consultation Agreements information collection. The OSHA Onsite Consultation Service Program offers free and confidential advice to small and medium-sized businesses in all States across the country, with priority given to high-hazard worksites. The requirements specified in the Onsite Consultation regulations for cooperative agreements, 29 CFR part 1908, are necessary to ensure uniform delivery of onsite consultation services nationwide. The regulatory procedures specify the activities to be carried out by State Onsite Consultation Programs funded by the Federal government, as well as the responsibilities of employers

who receive onsite consultation services.

Information collection requirements set forth in the Onsite Consultation Program regulations are in two categories: State responsibilities and employer responsibilities. Eight regulatory provisions require State information collection activities. The Federal government provides ninety (90) percent of funds for onsite consultation services delivered by the States. Four requirements apply to employers and specify conditions for receiving the free onsite consultation services. Occupational Safety and Health Act of 1970 sections 7(c)(1) and 21(c) authorize this information collection. See 29 U.S.C. 656(c)(1) and 670.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1218-0110.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on March 31, 2015. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on January 26, 2015 (80 FR 3991).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section by April 30, 2015. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1218-0110. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including

whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Slings Standard information collection codified in regulations 29 CFR 1910.184. The Standard specifies several information collection requirements, depending on the type of sling. The purpose of each requirement is to prevent workers from using defective or deteriorated slings, thereby reducing the risk of death or serious injury caused by sling failure during material handling. Information on the identification tags, markings, and codings assists the employer in determining whether the sling can be used for the lifting task. Sling inspections enable early detection of faulty slings. Inspection and repair records provide the employer with information about when the last inspection was done and about the type of repairs made. This information provides some assurance about the condition of the slings. These records also provide the most efficient means for an OSHA compliance officer to determine whether an Occupational Safety and Health Act (OSH Act)
