SUPPLEMENTARY INFORMATION:

Introduction

The Privacy Act (5 U.S.C. 552a (e)(4) and (e)(11)) requires the Department to publish in the **Federal Register** this notice of a new system of records maintained by the Department. The Department's regulations implementing the Privacy Act are contained in part 5b of title 34 of the Code of Federal Regulations (CFR).

The Privacy Act applies to any record about an individual that is maintained in a system of records from which individually identifying information is retrieved by a unique identifier associated with each individual, such as a name or Social Security number (SSN). The information about each individual is called a "record," and the system, whether manual or computer-based, is called a "system of records."

The Privacy Act requires each agency to publish a notice of a system of records in the **Federal Register** and to prepare and send a report to OMB whenever the agency publishes a new system of records or makes a significant change to an established system of records. Each agency is also required to send copies of the report to the Chair of

the Senate Committee on Homeland Security and Governmental Affairs and the Chair of the House Committee on Oversight and Government Reform. These reports are intended to permit an evaluation of the probable effect of the proposal on the privacy rights of individuals.

The system will contain personally identifying information on approximately 38,000 students and 3,600 teachers and other school staff from 12 school districts and will include, but not necessarily be limited to, data on: (1) For students, standardized math and English/Language Arts test scores, age, sex, race/ethnicity, grade, eligibility for free/reduced-price lunches, English Learner status, individualized education program status, school enrollment dates, attendance, discipline records, school engagement, and student behavior, and (2) for teachers and other school staff, school assignments, positions, grades and subjects taught, any available teacher and staff background characteristics, including age, sex, race/ethnicity, certifications, and years of teaching experience, and classroom management and behavior support practices.

Electronic Access to This Document: The official version of this document is the document published in the **Federal Register**. Free Internet access to the official edition of the **Federal Register** and the Code of Federal Regulations is available via the Federal Digital System at: www.gpo.gov/fdsys. At this site you can view this document, as well as all other documents of this Department published in the **Federal Register**, in text or Adobe Portable Document Format (PDF). The Department may make these disclosures on a case-by-case basis or, if the Department has complied with the computer matching requirements of the Privacy Act of 1974, as amended (Privacy Act), under a computer matching agreement. Any disclosure of individually identifiable information from a record in this system must also comply with the requirements of section 183 of the ESRA (20 U.S.C. 9573) providing for confidentiality standards that apply to all collection, reporting, and publication of data by the Institute of Education Sciences. POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**STORAGE:**

The Department will maintain records on CD–ROM, and the contractor (MDRC) and subcontractors (AIR and DIR) will maintain data for this system on computers and in hard copy.

RETRIEVABILITY:

Records in this system will be indexed and retrieved by a unique number assigned to each individual that is cross-referenced by the individual’s name on a separate list.

SAFEGUARDS:

All physical access to the Department’s site and to the sites of the Department’s contractor and subcontractors, where this system of records will be maintained, is controlled and monitored by security personnel. The computer system employed by the Department offers a high degree of resistance to tampering and circumvention. This security system limits data access to Department and contract staff on a need-to-know basis and controls individual users’ ability to access and alter records within the system.

The contractor and subcontractors will establish a similar set of procedures at their sites to ensure confidentiality of data. The contractor and subcontractors are required to ensure that information identifying individuals is in files physically separated from other research data and electronic files identifying individuals are separated from other electronic research data files. The contractor will maintain security of the complete set of all master data files and documentation. Access to individually identifiable data will be strictly controlled. All information will be kept in locked file cabinets during nonworking hours, and work on hardcopy data will take place in a single room, except for data entry.

Physical security of electronic data also will be maintained. Security features that protect project data will include: Password-protected accounts

that authorize users to use the contractor’s system but to access only specific network directories and network software; user rights and directory and file attributes that limit those who can use particular directories and files and determine how they can use them; and additional security features that the network administrators will establish for projects as needed. The Department’s, the contractor’s, and the subcontractor’s employees who “maintain” (collect, maintain, use, or disseminate) data in this system must comply with the requirements of the Privacy Act and the confidentiality standards in section 183 of the ESRA (20 U.S.C. 9573).

RETENTION AND DISPOSAL:

Records are maintained and disposed of in accordance with the Department’s Records Disposition Schedules (GRS 23, Item 8).

SYSTEM MANAGER AND ADDRESS:

Associate Commissioner, Evaluation Division, National Center for Education Evaluation and Regional Assistance, Institute of Education Sciences, U.S. Department of Education, 555 New Jersey Avenue NW., Room 502D, Washington, DC 20208–0001.

NOTIFICATION PROCEDURE:

If you wish to determine whether a record exists regarding you in the system of records, contact the system manager. Your request must meet the requirements of the Department’s Privacy Act regulations at 34 CFR 5b.5, including proof of identity.

RECORD ACCESS PROCEDURE:

If you wish to gain access to a record about you in this system of records, contact the system manager. Your request must meet the requirements of the Department’s Privacy Act regulations at 34 CFR 5b.5, including proof of identity.

CONTESTING RECORD PROCEDURE:

If you wish to contest the content of a record regarding you in the system of records, contact the system manager. Your request must meet the requirements of the Department’s Privacy Act regulations at 34 CFR 5b.7, including proof of identity.

RECORD SOURCE CATEGORIES:

This system will contain records on students as well as teachers and other school staff in an impact evaluation of training in multi-tiered systems of supports for behavior. Data will be obtained through human resource and student administrative records maintained by the school districts,

surveys of students as well as teachers and other school staff, observations of classrooms, ratings of student behavior, and individual student testing.

EXEMPTIONS CLAIMED FOR THE SYSTEM:
