

Act.⁵ The revisions to Rules 80202.A.B. and 80202.B.B. and to Appendix 1 to Rule 802 will conform CME's practice for listing indices for cleared CDX Index Untranching CDS Contracts to its existing practice for listing indices for cleared iTraxx Europe Index Untranching CDS Contracts. These amendments would provide market participants with a consistent format for identifying product eligibility requirements and should therefore be seen to be designed to promote the prompt and accurate clearance and settlement of securities transactions and, to the extent applicable, derivatives agreements, contracts, and transactions, to assure the safeguarding of securities and funds which are in the custody or control of the clearing agency or for which it is responsible, and, in general, to protect investors and the public interest consistent with Section 17A(b)(3)(F) of the Exchange Act.⁶

Furthermore, the proposed rule change is limited to CME's futures and swaps clearing businesses, which mean they are limited in their effect to products that are under the exclusive jurisdiction of the CFTC. As such, the changes are limited to CME's activities as a DCO clearing futures that are not security futures and swaps that are not security-based swaps. CME notes that the policies of the CFTC with respect to administering the Commodity Exchange Act are comparable to a number of the policies underlying the Exchange Act, such as promoting market transparency for over-the-counter derivatives markets, promoting the prompt and accurate clearance of transactions and protecting investors and the public interest.

Because the proposed rule change is limited in their effect to CME's futures and swaps clearing businesses, the proposed rule change is properly classified as effecting a change in an existing service of CME that:

(a) Primarily affects the clearing operations of CME with respect to products that are not securities, including futures that are not security futures, swaps that are not security-based swaps or mixed swaps; and forwards that are not security forwards; and

(b) does not significantly affect any securities clearing operations of CME or any rights or obligations of CME with respect to securities clearing or persons using such securities-clearing service. As such, the changes are therefore consistent with the requirements of Section 17A of the Exchange Act⁷ and

are properly filed under Section 19(b)(3)(A)⁸ and Rule 19b-4(f)(4)(ii)⁹ thereunder.

B. Self-Regulatory Organization's Statement on Burden on Competition

CME does not believe that the proposed rule change will have any impact, or impose any burden, on competition. The proposed amendments would simply provide market participants with a consistent format for identifying product eligibility requirements. Further, the changes are limited to CME's futures and swaps clearing businesses and, as such, do not affect the security-based swap clearing activities of CME in any way and therefore do not impose any burden on competition that is inappropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

CME has not solicited, and does not intend to solicit, comments regarding this proposed rule change. CME has not received any unsolicited written comments from interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective upon filing pursuant to Section 19(b)(3)(A)¹⁰ of the Act and Rule 19b-4(f)(4)(ii)¹¹ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Extension: Rule 10f-3

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520), the Securities and Exchange Commission ("Commission") is soliciting comments on the collections of information discussed below. The Commission plans to submit these existing collections of information to the Office of Management and Budget ("OMB") for extension and approval.

Section 10(f) of the Investment Company Act of 1940 (15 U.S.C. 80a) (the "Act") prohibits a registered investment company ("fund") from purchasing any security during an underwriting or selling syndicate if the fund has certain relationships with a principal underwriter for the security.¹ Congress enacted this provision in 1940 to protect funds and their shareholders by preventing underwriters from "dumping" unmarketable securities on affiliated funds.

Rule 10f-3 permits a fund to engage in a securities transaction that otherwise would violate section 10(f) if, among other things: (i) Each transaction effected under the rule is reported on Form N-SAR; (ii) the fund's directors have approved procedures for purchases made in reliance on the rule, regularly review fund purchases to determine whether they comply with these procedures, and approve necessary changes to the procedures; and (iii) a written record of each transaction effected under the rule is maintained for six years, the first two of which in an easily accessible place.² The written record must state: (i) From whom the securities were acquired; (ii) the identity of the underwriting syndicate's members; (iii) the terms of the transactions; and (iv) the information or materials on which the fund's board of directors has determined that the purchases were made in compliance with procedures established by the board.

Rule 10f-3 also conditionally allows managed portions of fund portfolios to purchase securities offered in otherwise off-limits primary offerings. To qualify for this exemption, rule 10f-3 requires that the subadviser that is advising the purchaser be contractually prohibited from providing investment advice to any other portion of the fund's portfolio and consulting with any other of the fund's advisers that is a principal

underwriter or affiliated person of a principal underwriter concerning the fund's securities transactions.

These requirements provide a mechanism for fund boards to oversee compliance with the rule. The required recordkeeping facilitates the Commission staff's review of rule 10f-3 transactions during routine fund inspections and, when necessary, in connection with enforcement actions.

The staff estimates that approximately 270 funds engage in a total of approximately 3,350 rule 10f-3 transactions each year.³ Rule 10f-3 requires that the purchasing fund create a written record of each transaction that includes, among other things, from whom the securities were purchased and the terms of the transaction. The staff estimates⁴ that it takes an average fund approximately 30 minutes per transaction and approximately 1,675 hours⁵ in the aggregate to comply with this portion of the rule.

The funds also must maintain and preserve these transactional records in accordance with the rule's recordkeeping requirement, and the staff estimates that it takes a fund approximately 20 minutes per transaction and that annually, in the aggregate, funds spend approximately 1,117 hours⁶ to comply with this portion of the rule.

In addition, fund boards must, no less than quarterly, examine each of these transactions to ensure that they comply with the fund's policies and procedures. The information or materials upon which the board relied to come to this determination also must be maintained and the staff estimates that it takes a fund 1 hour per quarter and, in the aggregate, approximately 1,080 hours⁷ annually to comply with this rule requirement.

The staff estimates that reviewing and revising as needed written procedures for rule 10f-3 transactions takes, on average for each fund, two hours of a compliance attorney's time per year.⁸ Thus, annually, in the aggregate, the

³ These estimates are based on staff extrapolations from filings with the Commission.

⁴ Unless stated otherwise, the information collection burden estimates are based on conversations between the staff and representatives of funds.

⁵ This estimate is based on the following calculation: (0.5 hours x 3,350 = 1,675 hours).

⁶ This estimate is based on the following calculations: (20 minutes x 3,350 transactions = 67,000 minutes; 67,000 minutes/60 = 1,117 hours).

⁷ This estimate is based on the following calculation: (1 hour per quarter x 4 quarters x 270 funds = 1,080 hours).

⁸ These averages take into account the fact that in most years, fund attorneys and boards spend little or no time modifying procedures and in other years, they spend significant time doing so.

staff estimates that funds spend a total of approximately 540 hours⁹ on monitoring and revising rule 10f-3 procedures.

Based on an analysis of fund filings, the staff estimates that approximately 251 fund portfolios enter into subadvisory agreements each year.¹⁰ Based on discussions with industry representatives, the staff estimates that it will require approximately 3 attorney hours to draft and execute additional clauses in new subadvisory contracts in order for funds and subadvisers to be able to rely on the exemptions in rule 10f-3. Because these additional clauses are identical to the clauses that a fund would need to insert in their subadvisory contracts to rely on rules 12d3-1, 17a-10, and 17e-1, and because we believe that funds that use one such rule generally use all of these rules, we apportion this 3 hour time burden equally to all four rules. Therefore, we estimate that the burden allocated to rule 10f-3 for this contract change would be 0.75 hours.¹¹ Assuming that all 251 funds that enter into new subadvisory contracts each year make the modification to their contract required by the rule, we estimate that the rule's contract modification requirement will result in 188 burden hours annually.¹²

The staff estimates, therefore, that rule 10f-3 imposes an information collection burden of 4,060 hours.¹³ This estimate does not include the time spent filing transaction reports on Form N-SAR, which is encompassed in the information collection burden estimate for that form.

Written comments are invited on: (a) Whether the collections of information are necessary for the proper performance of the functions of the Commission, including whether the information has practical utility; (b) the accuracy of the Commission's estimate of the burdens of the collections of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burdens of the collections of information on respondents, including through the use of automated collection techniques or other forms of

⁹ This estimate is based on the following calculation: (270 funds x 2 hours = 540 hours).

¹⁰ Based on information in Commission filings, we estimate that 38 percent of funds are advised by subadvisers.

¹¹ This estimate is based on the following calculation (3 hours ÷ 4 rules = .75 hours).

¹² These estimates are based on the following calculations: (0.75 hours x 251 portfolios = 188 burden hours).

¹³ This estimate is based on the following calculation: (1,675 hours + 1,117 hours + 1,080 hours + 188 hours = 4,060 total burden hours).
