employee, designated in accordance with established DoD policies and procedures.

The Board’s DFO is required to attend at all meetings of the Board for the entire duration of each and every meeting. However, in the absence of the Board’s DFO, a properly approved Alternate DFO, duly appointed to the Board according to established DoD policies and procedures, must attend the entire duration of all meetings of the Board.

The DFO, or the Alternate DFO, calls all meetings of the Board; prepare and approve all meeting agendas; and adjourn any meeting when the DFO, or the Alternate DFO, determines adjournment to be in the public interest or required by governing regulations or DoD policies and procedures. Pursuant to 41 CFR 102–3.105(j) and 102–3.140, the public or interested organizations may submit written statements to Department of Defense Medicare-Eligible Retiree Health Care Board of Actuaries membership about the Board’s mission and functions. Written statements may be submitted at any time or in response to the stated agenda of planned meeting of the Department of Defense Medicare-Eligible Retiree Health Care Board of Actuaries.

All written statements shall be submitted to the DFO for the Department of Defense Medicare-Eligible Retiree Health Care Board of Actuaries, and this individual will ensure that the written statements are provided to the membership for their consideration. Contact information for the Department of Defense Medicare-Eligible Retiree Health Care Board of Actuaries DFO can be obtained from the GSA’s FACA Database—http://www.facadatabase.gov/.

The DFO, pursuant to 41 CFR 102–3.150, will announce planned meetings of the Department of Defense Medicare-Eligible Retiree Health Care Board of Actuaries at that time, may provide additional guidance on the submission of written statements that are in response to the stated agenda for the planned meeting in question.

Dated: March 27, 2015.

Aaron Siegel,
Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5001–06–P
Transmittal No. 15–06
Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended
(i) Prospective Purchaser: Netherlands
(ii) Total Estimated Value:
Major Defense Equipment * .... $900 billion
Other .................................... $150 billion
TOTAL ................................ $1.050 billion
* As defined in Section 47(6) of the Arms Export Control Act.

(iii) Description and Quantity or Quantities of Articles or Services under Consideration for Purchase: 17 CH–47F Cargo Helicopters with customer unique post-modifications, 46 T55–GA–714A Aircraft Turbine Engines with Hydro-Mechanical Assembly (34 installed and 12 spares), 41 Embedded Global Positioning System/Inertial Navigation Systems (EGIs), 54 AN/ARC–231 Ultra High Frequency/Very High Frequency Radios, 21 AN/ARC–220 High Frequency Radios, 21 AN/APX–123A Identification Friend or Foe Transponders, and 41 AN/ARC–201D Very High Frequency Radios. Also included are spare and repair parts, support equipment, tools and test equipment, aircraft ferry and refueling support, personnel training and training equipment, publications and technical documentation, U.S. government and contractor technical, and logistics support services, and other related elements of logistics and program support.
(iv) Military Department: Army (WGO)
(v) Prior Related Cases, if any: None
(vi) Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: None
(vii) Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold: See Annex attached.
(viii) Date Report Delivered to Congress: 19 Mar 15

Policy Justification
Netherlands—CH–47F–Aircraft
The Government of Netherlands has requested a possible sale of 17 CH–47F Cargo Helicopters with customer unique post-modifications, 46 T55–GA–714A Aircraft Turbine Engines with Hydro-Mechanical Assembly (34 installed and 12 spares), 41 Embedded Global Positioning System/Inertial Navigation Systems (EGIs), 54 AN/ARC–231 Ultra High Frequency/Very High Frequency Radios, 21 AN/ARC–220 High Frequency Radios, 21 AN/APX–123A Identification Friend or Foe Transponders, and 41 AN/ARC–201D Very High Frequency Radios. Also included are spare and repair parts, support equipment, tools and test equipment, aircraft ferry and refueling support, personnel training and training equipment, publications and technical documentation, U.S. government and contractor technical, and logistics support services, and other related elements of logistics and program support. The estimated cost is $1.05 billion.

The Netherlands is one of the major political and economic powers in Europe and NATO and an ally of the United States in the pursuit of peace and stability. It is vital to U.S. national interests to assist the Netherlands to
develop and maintain a strong and ready self-defense capability.

The proposed sale of CH–47F aircraft will improve the Netherlands’ capability to meet current and future requirements for troop movement, medical evacuation, aircraft recovery, parachute drop, search and rescue, disaster relief, fire-fighting, and heavy construction support. The Netherlands will use the enhanced capability to strengthen its homeland defense, deter regional threats, and provide direct support to coalition and security cooperation efforts. The CH–47F aircraft will supplement and eventually replace the Royal Netherlands Air Force’s aging fleet of CH–47 helicopters. The Netherlands will have no difficulty absorbing this aircraft into its armed forces.

The proposed sale of these helicopters and support will not alter the basic military balance in the region.

The principal contractor will be the Boeing Helicopter Company in Philadelphia, Pennsylvania. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. government or contractor representatives to the Netherlands.

There will be no adverse impact on U.S. defense readiness or acquisition timelines as a result of this proposed sale.

Transmittal No. 15–06
Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act
Annex
Item No. vii
(vii) Sensitivity of Technology:
1. The CH–47F is a heavy lift, newly manufactured aircraft. The CH–47F has the Common Avionics Architecture System (CAAS) cockpit, which provides aircraft system, flight, mission, and communication management systems to the flight crew. The CAAS consists of two dual-redundant MIL–STD–1553B data busses and an Ethernet LAN capable of supporting both IEEE 802.3 and ARINC 664. The CAAS includes five multifunction displays (MFDs), two general purpose processor units (GPPUs), two control display units (CDUs) and two data concentrator units (DCCUs). The Navigation System will have two Embedded Global Positioning System (GPS)/Inertial Navigation System (INS) (EGIs), two Digital Advanced Flight Control System (DAFCS), one ARN–149 Automatic Direction Finder, one ARN–147 (VOR/ILS marker Beacon System), one ARN–153 Tactical Airborne Navigation System (TACAN), and two air data computers, one Radar Altimeter systems. The communications suite consists of two AN/ARC–231 Multi-mode radios providing Very High Frequency (VHF) FM, VHF–AM, Ultra High Frequency, Have Quick II and Data Management Satellite Communications, and two AN/ARC–201D Single Channel Ground and Airborne Radio Systems (SINGGARS) with associated Internet Download Manager. The APX–123 Identification Friend or Foe (IFF) will provide the additional functionality of dual IFF Mode 4/5. The AN/APX–123 Transponder will be classified Secret if Mode 4, or Mode 5 cryptographic key is loaded in the equipment.
2. Identification and security classification of classified equipment, major components, subsystems, software, and technical data (performance, maintenance, operational (R&M), etc.), documentation, training devices, and services are classified up to Secret.
3. The Embedded GPS/INS (EGI) unit provides GPS and INS capabilities to the aircraft. The EGI will include Selective Availability anti-Spoofing Module (SAASM) security modules to be used for secure GPS PS.
4. If a technologically advanced adversary were to obtain knowledge of the specific hardware or software in this proposed sale, the information could be used to develop countermeasures which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.
5. A determination has been made that the recipient country can provide the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.
6. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of the Netherlands.

Federal Register / Vol. 80, No. 63 / Thursday, April 2, 2015 / Notices 17735

DEFENSE NUCLEAR FACILITIES SAFETY BOARD
Sunshine Act Notice
AGENCY: Defense Nuclear Facilities Safety Board.
ACTION: Notice of Public Meeting and Hearing.

SUMMARY: Pursuant to the provisions of the Government in the Sunshine Act, notice is hereby given of the Defense Nuclear Facilities Safety Board’s (Board) public meeting and hearing described below. The Board invites any interested persons or groups to present any comments, technical information, or data concerning safety issues related to the matters to be considered.

DATES: Session I: 12:00 p.m.–1:00 p.m., Session II: 1:00 p.m.–4:00 p.m., Session III: 5:30 p.m.–7:30 p.m., Session IV: 7:30 p.m.–9:00 p.m.; April 29, 2015.
ADDRESSES: Walter Gerrells Performing Arts and Exhibition Center, 4012 National Parks Highway, Carlsbad, New Mexico 88220.

STATUS: Open. The Board has determined that an open meeting furthers the public interest underlying both the Government in the Sunshine Act and the Board’s enabling legislation. The proceeding is being noticed as both a meeting under the Government in the Sunshine Act and a hearing under the Board’s enabling legislation. At the conclusion of Session IV, the Board is expected to deliberate and then vote on a staff proposal. Deliberations and voting will proceed in accordance with the Board’s operating procedures concerning the conduct of meetings.

MATTERS TO BE CONSIDERED: In Session I of this public meeting and hearing, the Board will receive testimony from a senior Department of Energy (DOE) official regarding actions taken by DOE to safely recover the Waste Isolation Pilot Plant (WIPP) underground from events following a salt haul truck fire on February 5, 2014, and a separate radiological release on February 14, 2014. Testimony is also expected to focus on the progress of implementation of corrective actions to resume safe waste operations. Directly following Session I, the Board’s staff will present testimony to the Board concerning actions taken by the Board before and after the two accidents, and give an update of ongoing Board staff oversight activities. During Session II, the Board will receive testimony from a panel of senior managers from DOE Office of Environmental Management (EM), DOE Carlsbad Field Office (CBFO), and the site contractor—Nuclear Waste Partnership (NWP). The Board will first explore actions planned, and taken, by DOE to address the seven key elements in the WIPP recovery plan, and how compensatory measures implemented under safety management programs such as emergency preparedness and
