Proposed Information Collection: Use of iNaturalist by the National Park Service To Record Natural History Observations

AGENCY: National Park Service, Interior.
ACTION: Notice; request for comments.

SUMMARY: We (National Park Service) will ask the Office of Management and Budget (OMB) to approve a new information collection (IC) that will be used by the public to collect and record natural history observations at selected NPS parks and sponsored events. As required by the Paperwork Reduction Act of 1995 and as part of our continuing efforts to reduce paperwork and respondent burden, we invite the general public and other federal agencies to take this opportunity to comment on this IC. A federal agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: To ensure that your comments on this IC are considered, we must receive them on or before June 8, 2015.

ADDRESSES: Direct all written comments on this IC to Phadrea Ponds, Information Collection Coordinator, National Park Service, 1201 Oakridge Drive, Fort Collins, CO 80525 (mail); or phadrea_ponds@nps.gov (email). Please reference Information Collection 1024-INAT in the subject line.

FOR FURTHER INFORMATION CONTACT: Margaret Beer, National Park Service Inventory and Monitoring Division, 1201 Oakridge Drive, Suite 150, Fort Collins, CO 80525 (mail); margaret_beer@nps.gov (email); or: 970-267-2168 (phone).

SUPPLEMENTARY INFORMATION:**I. Abstract**

The NPS is in the process of developing a partnership with the California Academy of Sciences to use its iNaturalist web-based and mobile applications to digitally record natural history observations during selected NPS parks and sponsored events. This information will be recorded by park visitor participants to help verify and substantiate the presence of wildlife and plant species in over 300 NPS units. Because the parks have no formal mechanism for visitors to contribute natural history observations to our

current listings, we are requesting to use iNaturalist as a platform to submit observations that can be used by NPS.

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC is considering issuance of exemptions from specific emergency planning (EP) requirements of part 50 of Title 10 of the Code of Federal Regulations (10 CFR) for license nos. DPR-39 and DPR-48, issued to ZionSolutions, LLC (ZS, the licensee), for the Zion Nuclear Power Station (ZNPS), Units 1 and 2. Therefore, as required by 10 CFR 51.21, the NRC performed an environmental assessment. Based on the results of the environmental assessment that follows, the NRC has determined not to prepare an environmental impact statement for the exemptions, and is issuing a finding of no significant impact.

On November 23, 2011, the NRC issued a Final Rule modifying or adding EP requirements in § 50.47, § 50.54, and appendix E of 10 CFR part 50 (76

Federal Register (FR) 72560). The EP Final Rule was effective on December 23, 2011, with specific implementation dates for each of the rule changes, varying from the effective date of the Final Rule through December 31, 2015. The EP Final Rule codified certain voluntary protective measures contained in NRC Bulletin 2005-02, "Emergency Preparedness and Response Actions for Security-Based Events," and generically applicable requirements similar to those previously imposed by NRC Order EA-02-026, "Order for Interim Safeguards and Security Compensatory Measures," dated February 25, 2002. In addition, the EP Final Rule amended other licensee emergency plan requirements to: (1) Enhance the ability of licensees in
