

roadway deficiencies, bike and pedestrian accommodations, and travel demand and capacity). Because of fiscal constraints, a commitment to improvements that address all of the need factors could not be made and the environmental review process is being converted from a standard EIS to a Tier 1 EIS.

The FHWA, in cooperation with the Wisconsin Department of Transportation (WisDOT), will prepare a Tier 1 EIS for proposed improvements to address safety, operational and capacity concerns on approximately 18 miles of US 51 between Interstate 39/90, east of the City of Stoughton, to US 12/18 (Madison South Beltline Highway), north of the Village of McFarland. The study will also examine a bypass of Stoughton, as well as potential operational improvements on existing US 51 in Stoughton. As alternatives to capacity improvements on US 51, the study will consider improvements on highways other than US 51 that might address the needs of travelers between the southeast portion of Dane County and the Madison Urban area. The Tier 1 EIS will evaluate the social, economic, and environmental impacts of the alternatives within the existing US 51 highway corridor, and other full build improvements on other regional highway corridors. The objective of this project is to address existing and future transportation demand and safety concerns as identified in the US 51 Needs Assessment Report. The Tier 1 EIS will be prepared in accordance with 23 U.S.C. 139, 23 CFR 771, and 40 CFR 1500–1508. Completion of the Tier 1 EIS and the Record of Decision (ROD) is expected in 2018.

Public involvement is a critical component of the National Environmental Policy Act (NEPA) and will occur throughout the development of the draft and final Tier 1 EIS. All environmental documents will be made available for review by federal and state resource agencies and the public. Specific efforts to encourage involvement by, and solicit comments from, minority and low-income populations in the project study area will be made, with public involvement meetings held throughout the environmental document process. Public notice will be given as to the time and place of public involvement meetings. A public hearing will be held after the completion of the Draft Tier 1 EIS.

Inquiries related to this study can be sent to jeff.berens@dot.wi.gov. A public Web site will be maintained throughout the study to provide information about the project and allow for on-line public

comment (<http://www.dot.wisconsin.gov/projects/swregion/5139901218/index.htm>). To ensure the full range of issues related to the proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments and questions concerning the proposed action and this notice should be directed to the FHWA address provided above.

Projects receiving Federal funds must comply with Title VI of the Civil Rights Act, and Executive Order 12898 “Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations.” Federal law prohibits discrimination on the basis of race, color, age, sex, or country of national origin in the implementation of this project. It is also Federal policy to identify and address any disproportionately high and adverse effects of federal projects on the health or environment of minority and low-income populations to the greatest extent practicable and permitted by law. Notice of Final Federal Agency Actions on Proposed Highway in Texas

AGENCY: Federal Highway Administration (FHWA), DOT

ACTION: Notice of Limitation on Claims for Judicial Review of Actions by FHWA and Other Federal Agencies

SUMMARY: This notice announces actions taken by the FHWA and other Federal agencies that are final within the meaning of 23 U.S.C. § 139(l)(1). The actions relate to a proposed highway project, Trinity Parkway from Interstate Highway 35 East (IH35E)/State Highway (SH) 183 to U.S. 175/SH 310 in the County of Dallas, State of Texas. Those actions grant licenses, permits, and approvals for the project.

DATES: By this notice, the FHWA is advising the public of final agency actions subject to 23 U.S.C. § 139(l)(1). A claim seeking judicial review of the Federal agency actions on the highway project will be barred unless the claim is filed on or before September 8, 2015. If the Federal law that authorizes judicial review of a claim provides a time period of less than 150 days for filing such claim, then that shorter time period still applies.

FOR FURTHER INFORMATION CONTACT: Mr. Achille Alonzi, Division Administrator, Texas Division, Federal Highway Administration, 300 E. 8th Street, Room 826, Austin, Texas 78701; 8:00 a.m. to 5:00 p.m. (central daylight time) Monday through Friday, 512–536–5902; email: al.alonzi@dot.gov.

SUPPLEMENTARY INFORMATION: Notice is hereby given that the FHWA and other Federal agencies have taken final agency actions by issuing licenses, permits, and approvals for the following highway project in the State of Texas: The Trinity Parkway (Texas Department of Transportation CSJ 0918–45–121) would consist of a limited-access toll facility on new location in the City of Dallas, extending from the IH 35E/SH 183 interchange (northern terminus) to the US 175/SH 310 interchange (southern terminus), a distance of approximately nine miles. The facility would ultimately consist of six mixed-flow tolled mainlanes, local street interchanges, and interchanges at the northern terminus, southern terminus, Woodall Rodgers Freeway, and IH 45. The primary purpose for the Trinity Parkway is to manage congestion on existing highways through the downtown Dallas area. Trinity Parkway would help manage congestion on IH 35E (Lower Stemmons and South R.L. Thornton Freeways), IH 30, and other major transportation facilities within the Trinity Parkway project area to improve mobility and safety, and thereby increase accessibility to businesses and public facilities.

The actions by the Federal agencies, and the laws under which such actions were taken, are described in the Final Environmental Impact Statement (FEIS) for the project, approved on March 7, 2014, in the FHWA Record of Decision (ROD) issued on April 2, 2015, and in other documents in the FHWA administrative record. The FEIS, ROD, and other documents in the FHWA administrative record file are available by contacting the FHWA at the address provided above. The FHWA FEIS and ROD can be viewed and downloaded from the project Web site at: <https://www.ntta.org/roadsprojects/futproj/>
