Draft Environmental Impact Statement/General Management Plan, Kalaupapa National Historical Park, Kalawao and Maui Counties, Hawaii

AGENCY: National Park Service, Interior.

ACTION: Notice of availability.

SUMMARY: The National Park Service announces the availability of a Draft General Management Plan (GMP)/Environmental Impact Statement (EIS) for Kalaupapa National Historical Park. The document identifies and analyzes four alternatives. Alternative A (no action alternative) assumes that programming, facilities, staffing, and funding would generally continue at their current levels to protect the values of Kalaupapa NHP in the near term. Alternative B focuses on maintaining Kalaupapa's spirit and character through limiting visitation. Visitor use would be highly structured, though limited opportunities would exist for public visitation and overnight use. The NPS would develop an extensive outreach program to share Kalaupapa's history with a wide audience at off-site locations. Alternative C (agency-preferred) emphasizes stewardship of Kalaupapa's lands in collaboration with the park's many partners. Kalaupapa's diverse resources would be managed to protect and maintain their character and historical significance. Visitation by the general public would be supported, provided, and integrated into park management. Visitor regulations would change, while continuing to limit the number of visitors per day through new mechanisms. Alternative D focuses on the personal connections to Kalaupapa through visitation by the general public. Resources would be managed for long-term preservation through NPS-led programs throughout the park. Alternative D offers visitors the greatest opportunities to explore areas on their own. Visitor regulations would be similar to Alternative C.
