

A. Overview of Information Collection

Title of Information Collection: Community Development Block Grant Entitlement Program.

OMB Approval Number: 2506-0077.

Type of Request: Revision of currently approved collection.

Form Numbers: N/A.

Description of the need for the information and proposed use: This request identifies the estimated reporting burden associated with information that CDBG entitlement grantees will report in IDIS for CDBG-assisted activities, recordkeeping requirements, and reporting requirements. Grantees are encouraged to update their accomplishments in IDIS

on a quarterly basis. In addition, grantees are required to retain records necessary to document compliance with statutory and regulatory requirements, Executive Orders, applicable OMB Circulars, and determinations required to be made by grantees as a determination of eligibility. Grantees are required to prepare and submit their Consolidated Annual Performance and Evaluation Reports, which demonstrate the progress grantees make in carrying out CDBG-assisted activities listed in their consolidated plans. This report is due to HUD 90 days after the end of the grantee's program year. The information required for any particular activity is generally based on the eligibility of the

activity and which of the three national objectives (benefit low- and moderate-income persons; eliminate/prevent slums or blight; or meet an urgent need) the grantee has determined that the activity will address.

Respondents: Grant recipients (metropolitan cities and urban counties) participating in the CDBG Entitlement Program.

Estimation Number of Respondents: 1,164.

Estimation Number of Responses: The proposed frequency of the response to the collection is on an annual basis.

Frequency of Response: Annually.

Total Estimated Burdens: The total estimated burden is 544,984.

Information Collection 2506-0077	Number of respondents	Frequency of response	Responses per annum	Burden hour per response	Annual burden hours	Hourly cost per response	Annual cost
Recordkeeping	1,164	1	1,164	129.2	150,388
Reporting	1,164	4	4,656	78.50	365,496
Maintain Documenta- tion	1,164	1	1,164	25	29,100
Total	6,984	42	544,984	\$36.60	\$1,789,300.80

Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

(1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) The accuracy of the agency's estimate of the burden of the proposed collection of information;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) Ways to minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

HUD encourages interested parties to submit comment in response to these questions.

Authority: Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. Chapter 35.

Dated: April 9, 2015.

Endangered and Threatened Wildlife and Plants; 5-Year Status Reviews of Black-Lace Cactus, Bone Cave Harvestman, Pima Pineapple Cactus, Texas Snowbells, and Walker's Manioc in the Southwest Region

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of initiation of reviews; request for information.

SUMMARY: We, the U.S. Fish and Wildlife Service, are initiating 5-year status reviews under the Endangered Species Act of 1973, as amended (Act), of the endangered black-lace cactus (*Echinocereus reichenbachii* var. *albertii*), the endangered Bone Cave harvestman (*Texella reyesi*), the endangered Pima pineapple cactus (*Coryphantha scheeri* var. *robustispina*), the endangered Texas snowbells (*Styrax texanus*), and the endangered Walker's manioc (*Manihot walkerae*). A 5-year review is based on the best scientific and commercial data available at the time of the review; therefore, we are requesting submission of any such information that has become available since our original listing of these five species or since the last 5-year review.

DATES: To ensure consideration, we are requesting submission of new information no later than June 15, 2015. However, we will continue to accept new information about any listed species at any time.

ADDRESSES: For how to submit information, see Request for Information and How Do I Ask Questions or Provide Information? in the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT: For information on a particular species, contact the appropriate person or office listed in the table in the **SUPPLEMENTARY INFORMATION** section.

SUPPLEMENTARY INFORMATION:

Why do we conduct a 5-year review?

Under the Act (16 U.S.C. 1531 *et seq.*), we maintain Lists of Endangered and Threatened Wildlife and Plants (which we collectively refer to as the List) in the Code of Federal Regulations (CFR) at 50 CFR 17.11 (for animals) and 17.12 (for plants). Section 4(c)(2)(A) of the Act requires us to review each listed species' status at least once every 5 years. Our regulations at 50 CFR 424.21 require that we publish a notice in the **Federal Register** announcing those species under active review. For additional information about 5-year reviews, refer to our factsheet at <http://www.fws.gov/endangered/what-we-do/recovery-overview.html>.

What information do we consider in our review?

A 5-year review considers all new information available at the time of the review. For all five of these species, this will be the second 5-year review developed for each species. In conducting these reviews, we consider the best scientific and commercial data that have become available since the listing determination or most recent status review, such as:

(A) Species biology, including but not limited to population trends,

distribution, abundance, demographics, and genetics;

(B) Habitat conditions, including but not limited to amount, distribution, and suitability;

(C) Conservation measures that have been implemented that benefit the species;

(D) Threat status and trends in relation to the five listing factors (as defined in section 4(a)(1) of the Act); and

(E) Other new information, data, or corrections, including but not limited to

taxonomic or nomenclatural changes, identification of erroneous information contained in the List, and improved analytical methods.

Any new information will be considered during the 5-year review and will also be useful in evaluating the ongoing recovery programs for the species.

Which species are under review?

This notice announces our active review of the species listed in the table below.

Request for Information

To ensure that a 5-year review is complete and based on the best available scientific and commercial information, we request new information from all sources. See What Information Do We Consider in Our Review? for specific criteria. If you submit information, please support it with documentation such as maps, bibliographic references, methods used to gather and analyze the data, and/or copies of any pertinent publications, reports, or letters by knowledgeable sources.

How do I ask questions or provide information?

If you wish to provide information for any species listed above, please submit your comments and materials to the appropriate contact in the table above. You may also direct questions to those contacts. Individuals who are hearing impaired or speech impaired may call the Federal Relay Service at 800-877-8339 for TTY assistance.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Comments and materials received will be available for public inspection, by appointment, during normal business hours at the offices where the comments are submitted.

Completed and Active Reviews

A list of all completed and currently active 5-year reviews addressing species for which the Southwest Region of the Service has lead responsibility is available at http://www.fws.gov/southwest/es/ElectronicLibrary_Main.cfm (under “Select a Document Category,” select “5-Year Review”).

Authority

This document is published under the authority of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*).

Announcement of USGS National Geospatial Program (NGP) 3D Elevation Program (3DEP) FY15 Public Meetings in Preparation for the Upcoming Release of the USGS Broad Agency Announcement for 3D Elevation

ACTION: Notice of Meeting(s).

SUMMARY: The 3D Elevation Program (3DEP) initiative is being developed to respond to needs for high-quality topographic data and for a wide range of other three-dimensional representations of the Nation’s natural and constructed features. The primary goal of 3DEP is to systematically collect enhanced elevation data in the form of high-quality light detection and ranging (lidar) data over the conterminous United States, Hawaii, and the U.S. territories, as well as interferometric synthetic aperture radar (ifsar) data over Alaska. The 3DEP initiative is based on the results of the National Enhanced Elevation Assessment (NEEA), which indicated an optimal benefit to cost ratio for Quality Level 2 (QL2) data collected over 8-years to complete national coverage. The implementation model for 3DEP is based on multi-agency partnership funding for acquisition, with the USGS acting in a lead program management role to facilitate planning and acquisition for the broader community, through the use of government contracts and partnership agreements. The annual Broad Agency Announcement (BAA) is a competitive solicitation issued to facilitate the collection of lidar and derived elevation data for the 3D Elevation Program (3DEP). Federal agencies, state and local governments, tribes, academic institutions and the private sector are eligible to submit proposals. The 3DEP public meetings will introduce this opportunity to the broadest stakeholder community possible and provide a forum for interested parties to discuss elevation data collection needs of mutual interest that could be addressed by a coordinated investment.

Advanced Registration is required for meeting attendance. National Webinars will be recorded and made available for viewing.

DATES: USGS Broad Agency Announcement (BAA) for 3D Elevation Program (3DEP) FY15 National Webinars—Notice of Proposed Public Acquisition Opportunity: April 24th 12:00–1:00 ET, April 29th 2:00–3:00 ET. Virtual meeting information posted on

<https://www.geoplatform.gov/elevation/3DEP>.

3DEP Public Workshops in support of upcoming BAA: To be held throughout the US between May 4th and June 26th. Locations, Dates, Times and Registration Information posted on: <https://www.geoplatform.gov/elevation/3DEP>. Registration available beginning May 1st.

USGS Broad Agency Announcement for 3D Elevation Program FY15 National Webinars—Instructions for proposal submissions: July 23rd 12:00–1:00 ET, July 28th 2:00–3:00 ET. Virtual meeting information posted on <https://www.geoplatform.gov/elevation/3DEP>.

FOR FURTHER INFORMATION CONTACT: 3D Elevation Program, gs_baa@usgs.gov.

SUPPLEMENTARY INFORMATION: The BAA is issued under the provisions of FAR Part 35. Proposals selected for eventual award are considered to be the result of full and open competition and in full compliance with the provision of Public Law 98–369, “The Competition in Contracting Act of 1984” and subsequent amendments. For additional information on the 3DEP program <http://nationalmap.gov/3DEP/index.html>.

Notice To Reopen the Public Comment Period and Notice of Additional Public Meetings for the Kachess Drought Relief Pumping Plant and Keechelus Reservoir-to-Kachess Reservoir Conveyance Draft Environmental Impact Statement, Kittitas and Yakima Counties, Washington

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice.

SUMMARY: The Bureau of Reclamation is reopening the public comment period for the Kachess Drought Relief Pumping Plant and Keechelus Reservoir-to-Kachess Reservoir Conveyance Draft Environmental Impact Statement (EIS) for another 60 days to allow the public more time to comment. We are also announcing four additional public meetings to be held in May 2015.
