FEDERAL REGISTER

Vol. 80 Thursday,

No. 73 April 16, 2015

Book 1 of 2 Books

Pages 20407–20688

OFFICE OF THE FEDERAL REGISTER

The **FEDERAL REGISTER** (ISSN 0097–6326) is published daily, Monday through Friday, except official holidays, by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). The Superintendent of Documents, U.S. Government Publishing Office, Washington, DC 20402 is the exclusive distributor of the official edition. Periodicals postage is paid at Washington, DC.

The **FEDERAL REGISTER** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders, Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress, and other Federal agency documents of public interest.

Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless the issuing agency requests earlier filing. For a list of documents currently on file for public inspection, see *www.ofr.gov.*

The seal of the National Archives and Records Administration authenticates the Federal Register as the official serial publication established under the Federal Register Act. Under 44 U.S.C. 1507, the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** is published in paper and on 24x microfiche. It is also available online at no charge at *www.fdsys.gov*, a service of the U.S. Government Publishing Office.

The online edition of the **Federal Register** is issued under the authority of the Administrative Committee of the Federal Register as the official legal equivalent of the paper and microfiche editions (44 U.S.C. 4101 and 1 CFR 5.10). It is updated by 6:00 a.m. each day the **Federal Register** is published and includes both text and graphics from Volume 59, 1 (January 2, 1994) forward. For more information, contact the GPO Customer Contact Center, U.S. Government Publishing Office. Phone 202-512-1800 or 866-512-1800 (toll free). E-mail, *gpocusthelp.com.*

The annual subscription price for the **Federal Register** paper edition is $749 plus postage, or $808, plus postage, for a combined **Federal Register, Federal Register** Index and List of CFR Sections Affected (LSA) subscription; the microfiche edition of the **Federal Register** including the **Federal Register** Index and LSA is $165, plus postage. Six month subscriptions are available for one-half the annual rate. The prevailing postal rates will be applied to orders according to the delivery method requested. The price of a single copy of the daily **Federal Register,** including postage, is based on the number of pages: $11 for an issue containing less than 200 pages; $22 for an issue containing 200 to 400 pages; and $33 for an issue containing more than 400 pages. Single issues of the microfiche edition may be purchased for $3 per copy, including postage. Remit check or money order, made payable to the Superintendent of Documents, or charge to your GPO Deposit Account, VISA, MasterCard, American Express, or Discover. Mail to: U.S. Government Publishing Office—New Orders, P.O. Box 979050, St. Louis, MO 63197-9000; or call toll free 1-866-512-1800, DC area 202-512-1800; or go to the U.S. Government Online Bookstore site, see *bookstore.gpo.gov.*

There are no restrictions on the republication of material appearing in the **Federal Register.**

How To Cite This Publication: Use the volume number and the page number. Example: 80 FR 12345.

Postmaster: Send address changes to the Superintendent of Documents, Federal Register, U.S. Government Publishing Office, Washington, DC 20402, along with the entire mailing label from the last issue received.

Rules and Regulations

Federal Register
Vol. 80, No. 73
Thursday, April 16, 2015

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

DEPARTMENT OF AGRICULTURE

Federal Crop Insurance Corporation

7 CFR Part 457

[Docket No. FCIC–14–0004]

RIN 0563–AC44

Common Crop Insurance Regulations; Macadamia Tree Crop Insurance Provisions and Macadamia Nut Crop Insurance Provisions

AGENCY: Federal Crop Insurance Corporation, USDA.

ACTION: Final rule.

SUMMARY: The Federal Crop Insurance Corporation (FCIC) finalizes the Common Crop Insurance Regulations, Macadamia Tree Crop Insurance Provisions and the Macadamia Nut Crop Insurance Provisions. The intended effect of this action is to provide policy changes and to better meet the needs of the producers. The proposed changes will be effective for the 2016 and succeeding crop years for macadamia trees and for the 2017 and succeeding crop years for macadamia nuts.

DATES: This rule is effective May 18, 2015.

FOR FURTHER INFORMATION CONTACT: Tim Hoffmann, Director, Product Administration and Standards Division, Risk Management Agency, United States Department of Agriculture, Beacon Facility, Stop 0812, Room 421, P.O. Box 419205, Kansas City, MO 64141–6205, telephone (816) 926–7730.

SUPPLEMENTARY INFORMATION:

Executive Order 12866

The Office of Management and Budget (OMB) has determined that this rule is not-significant for the purpose of Executive Order 12866 and, therefore, it has not been reviewed by OMB.

Paperwork Reduction Act of 1995

Pursuant to the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the collections of information in this rule have been approved by OMB under control number 0563–0053.

E-Government Act Compliance

FCIC is committed to complying with the E-Government Act of 2002, to promote the use of the Internet and other information technologies to provide increased opportunities for citizen access to Government information and services, and for other purposes.

Unfunded Mandates Reform Act of 1995

Title II of the Unfunded Mandates Reform Act of 1995 (UMRA) establishes requirements for Federal agencies to assess the effects of their regulatory actions on State, local, and tribal governments and the private sector. This rule contains no Federal mandates (under the regulatory provisions of title II of the UMRA) for State, local, and tribal governments or the private sector. Therefore, this rule is not subject to the requirements of sections 202 and 205 of UMRA.

Executive Order 13132

It has been determined under section 1(a) of Executive Order 13132, Federalism, that this rule does not have sufficient implications to warrant consultation with the States. The provisions contained in this rule will not have a substantial direct effect on States, or on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.

Executive Order 13175

This rule has been reviewed in accordance with the requirements of Executive Order 13175, Consultation and Coordination with Indian Tribal Governments. The review reveals that this regulation will not have substantial and direct effects on Tribal governments and will not have significant Tribal implications.

Regulatory Flexibility Act

FCIC certifies that this regulation will not have a significant economic impact on a substantial number of small entities. Program requirements for the Federal crop insurance program are the same for all producers regardless of the size of their farming operation. For instance, all producers are required to submit an application and acreage report to establish their insurance guarantees and compute premium amounts, and all producers are required to submit a notice of loss and production information to determine the amount of an indemnity payment in the event of an insured cause of crop loss. Whether a producer has 10 acres or 1,000 acres, there is no difference in the kind of information collected. To ensure crop insurance is available to small entities, the Federal Crop Insurance Act authorizes FCIC to waive collection of administrative fees from limited resource farmers. FCIC believes this waiver helps to ensure that small entities are given the same opportunities as large entities to manage their risks through the use of crop insurance. A Regulatory Flexibility Analysis has not been prepared since this regulation does not have an impact on small entities, and therefore, this regulation is exempt from the provisions of the Regulatory Flexibility Act (5 U.S.C. 605).

Federal Assistance Program

This program is listed in the Catalog of Federal Domestic Assistance under No. 10.450.

Executive Order 12372

This program is not subject to the provisions of Executive Order 12372, which require intergovernmental consultation with State and local officials. See the Notice related to 7 CFR part 3015, subpart V, published at 48 FR 29115, June 24, 1983.

Executive Order 12988

This final rule has been reviewed in accordance with Executive Order 12988 on civil justice reform. The provisions of this rule will not have a retroactive effect. The provisions of this rule will preempt State and local laws to the extent such State and local laws are inconsistent herewith. With respect to any direct action taken by FCIC or action by FCIC to require the insurance provider to take specific action under the terms of the crop insurance policy, the administrative appeal provisions published at 7 CFR part 11 must be exhausted before any action against FCIC for judicial review may be brought.

Environmental Evaluation

This action is not expected to have a significant economic impact on the quality of the human environment, health, or safety. Therefore, neither an Environmental Assessment nor an Environmental Impact Statement is needed.

Background

This rule finalizes changes to the Common Crop Insurance Regulations (7 CFR part 457), Macadamia Tree Crop Insurance Provisions and Macadamia Nut Crop Insurance Provisions that were published by FCIC on August 1, 2014, as a notice of proposed rulemaking in the **Federal Register** at 79 FR 44719–44722. The public was afforded 60 days to submit comments after the regulation was published in the **Federal Register**.

A total of 23 comments were received from two commenters. The commenters were an insurance service organization and a producer association.

The public comments received regarding the proposed rule and FCIC's responses to the comments are as follows:

Macadamia Tree Crop Insurance Provisions

Section 1

Comment: One commenter agrees with the proposal to add definitions for ''damaged'' and ''scaffold limb.''

Response: FCIC thanks the commenter for its review and its support of the addition of these two definitions.

Section 2

Comment: One commenter states the first sentence in redesignated paragraph (a) states that optional units by legal description or by irrigated/non-irrigated practices are not applicable; and the second sentence states that ''. . . Optional units may be established ONLY if each optional unit is located on non-contiguous land, unless otherwise allowed by written agreement'' [emphasis added]. The commenter states that neither sentence addresses the possibility of optional units for organic and conventional practices, which is allowed according to section 34(c)(3) of the Basic Provisions. As written, this provision appears to mean that separate optional units for organic and conventional acreage would be possible only if they happen to be on non-contiguous land or unless allowed by written agreement. If that is the intention, it would be clearer to include ''organic practices'' in the first sentence as not applicable. If it is not intended to exclude optional units by organic/conventional practices, the second sentence should be revised to clarify that optional units by non-contiguous land may be ''in addition to'' the optional units by organic/conventional allowed in section 34(c)(3) of the Basic Provisions.

Response: FCIC intends for optional units to be allowed on acreage located on non-contiguous land or on acreage grown and insured under an organic farming practice. FCIC does not intend to require that optional units distinguished by organic and conventional practices must also be located on non-contiguous land. FCIC has revised the provisions accordingly.

Comment: One commenter states the ''Background'' explains that the proposal to remove the 80-acre minimum requirement for optional units is because most macadamia tree orchards are smaller than that, and the other proposed changes (requiring a clear and discernible break, and records) ''. . . will mitigate any potential abuse from this change.'' The commenter has no objection to this change.

Response: FCIC agrees with the commenter and thanks it for its support. FCIC also notes that the planned removal of this 80-acre optional unit minimum requirement was inadvertently described in the proposed rule summary. The discussion of this requirement removal was also described in specific detail under the description of changes for this rule at Section 2. Therefore, FCIC removed this inadvertent reference from the final rule summary because specific mention of this proposal in the proposed rule summary was inadvertent and duplicative. This removal of the duplicative language from the proposed rule summary does not affect the commenter's agreement with the proposal: FCIC continues to agree with the commenter, and the proposal as originally proposed has been adopted.

Comment: One commenter states if the current section 2(a) is deleted as proposed, then Basic Provisions sections 34(b)(1), (3) and (4) will apply, meaning optional units will require a clear and discernible break, and acceptable and verifiable records. The commenter has no objection to this change.

Response: FCIC agrees with the commenter that by deleting section 2(a) of the Macadamia Tree Crop Provisions, sections 34(b)(1), (3) and (4) of the Basic Provisions will apply. FCIC thanks the commenter for its support.

Comment: One commenter states the proposed change would require that optional units must have a ''clear and discernable break between optional units.'' This is clarified further by stating ''optional units may be established only if each optional unit is located on non-contiguous land.'' There is no clear definition of what constitutes a ''clear and discernable break.'' It does disqualify optional units determined by ''section, section equivalent, or FSA farm serial number and by irrigated and non-irrigated practices.''

Without a clear specification for what actually fits their definition for the ''clear and discernable break,'' there is great potential for a broad interpretation from the Risk Management Agency that would ultimately prohibit larger operations from using optional units at all. Since large operations have significantly varied conditions over the span of their operations that can cause production loss over only certain sections (such as differences in rainfall, elevation, soil-type, disease and pest-incidence, etc.), optional units are important and necessary to provide operations with some security to protect from losses. Without the optional units, an operation becomes far more vulnerable, since only significant orchard-wide production losses would ever qualify for a claim. It becomes financially infeasible to even have insurance for many producers with such limitations. This rule change should not pass without explicit definitions of what would qualify as a ''clear and discernible break.''

Based on how the insurance companies had treated boundaries in the past with regards to the formation of optional units, a clear and discernible break should be defined by a designated production area (for instance, a block or field) with a set acreage that has enough production statistics for the APH to qualify for insurance. For instance, in our operation, we have had the same fields that have remained consistent since planting. Each field should be able to qualify as a block, as production statistics are kept for each field separately.

Response: FCIC agrees with the commenter that the proposed change to remove paragraph (a) requires optional units to have a clear and discernible break. Paragraph (a) states sections 34(b)(1), (3) and (4) of the Basic Provisions are not applicable. These sections of the Basic Provisions state, among other things, that the crop must be planted in a manner such that there is a clear and discernible break between optional units. By removing paragraph (a), sections 34(b)(1), (3) and (4) of the Basic Provisions now become applicable. Under the current policy, insureds who utilize optional units can manipulate their unit boundaries to maximize indemnities because there is

no current requirement for discernible breaks between units. FCIC believes this requirement will minimize program abuse as it relates to unit division. Based on a previous comment, FCIC has revised Section 2 to clarify that optional units are allowed by non-contiguous land or by organic and conventional acreage, thereby giving producers multiple options to insure their acreage under optional units. FCIC does not define ''clear and discernible break'' in its policy; however, in general, when a term is not specifically defined in the policy, its common or ordinary meaning may be applicable as found in a standard dictionary. Examples of a clear and discernible break are highways, railroads and rivers. No change has been made.

Section 7

Comment: One commenter recommends deleting the first comma in the following sentence: ''In lieu of the provisions in section 9 of the Basic Provisions, that prohibit insurance attaching to a crop planted with another crop . . .'' The commenter says this change will be consistent with a similar change proposed in section 8 of the Macadamia Nut Crop Provisions.

Response: FCIC agrees with the commenter. The comma is not necessary and its removal does not change the meaning of the provision. FCIC has revised the provisions accordingly.

Section 10

Comment: One commenter states the proposed rule adds a phrase about destroyed trees in the following phrase so it would read: ''. . . allow us to inspect all insured acreage before pruning any damaged trees, removing any damaged trees, or removing any destroyed trees.'' This can be left as written, but consider if either of these alternatives might be preferable:

- ''. . . before pruning or removing any damaged trees, or removing any destroyed trees.'' This keeps the current wording about the two possible actions for damaged trees, and adds the new phrase about removing destroyed trees.
- ''. . . before pruning any damaged trees, or removing any damaged or destroyed trees.'' This would put ''pruning'' in one phrase (applying only to damaged trees) and ''removing'' in another (whether the trees are damaged or destroyed).

Response: FCIC appreciates the recommendations. However, FCIC believes its proposed language offers the option of the possibilities least likely to create misunderstanding because each action word is individually paired with the tree type (damaged vs. destroyed) for which the action is prohibited.

Comment: One commenter states that, concerning halting of cleanup following tree damage, during the most recent experience with Hurricane Iselle, it took the insurance companies around two weeks, and in some cases longer, to fly appraisers to Hawaii to assess storm damage. For any agricultural operation, especially during harvest season, waiting that long to remove damaged trees, branches, and other debris can pose not only safety hazards, but can also limit movement throughout orchards and can lead to crop loss due to the inability of harvest equipment and crews to safely traverse through the areas of damage.

The majority of the insurance companies are located on the continental United States, so they typically wait to hear from all of the insured operations in Hawaii before deploying loss adjusters. This is due to the distance and the large expense of sending people back and forth. In light of these limitations, it is not practical or fair to make farms wait so long before cleaning up. The alternatives to these rule changes would be either to not change this rule or to add to the change a requirement for tree loss appraisers to be on-site no later than three days after notice of a major crop or tree loss.

Response: FCIC understands that it may take insurance companies additional time to travel to Hawaii than to travel within the continental United States. This inspection requirement is consistent with the provisions in other Crop Provisions, such as the Hawaii Tropical Tree Crop Provisions, which also provide coverage for crops in Hawaii. Travel could be difficult after a catastrophic event, such as a named storm. Therefore, a regulatory provision always requiring insurance company presence on-site within three days after notice of a loss is inappropriate in part because not all circumstances will always allow such Loss Adjuster to arrive within that timeframe. A three-day arrival expectation may be appropriate in some, though not necessarily all, instances of loss. Insurance companies are required to arrive onsite after receiving a notice of loss within appropriate time frames. For example, the current Loss Adjustment Manual (LAM), in paragraph 41(A)(3), provides guidance that insurance companies must assign notice of damage to adjusters as quickly as possible to assure timely service to the insured. FCIC will, as it generally does in widespread loss situations, monitor the performance of and loss adjustment service provided by insurance companies in responding to a loss event.

Section 11

Comment: One commenter states with the example added in section 11(b)(4), consider if the parenthetical example in section 11(b)(3)(iii) is still useful or if it could be deleted. If it is kept, consider deleting the phrase ''. . . specified in section 11(b)(3) . . .'' since it is part of 11(b)(3).

Response: Given that no change to this provision was proposed, and the public was not provided an opportunity to comment, FCIC declines to adopt the recommendation in the final rule. No change has been made.

Comment: One commenter states the calculations in paragraph (b)(4) at step (3)(ii) and (iii) do not appear to correspond to the description of those steps in paragraph (b)(3) because the example includes additional calculations as well. The example appears to work out correctly, but it might be worth considering the following:

- In paragraph (b)(4) at step (3)(ii), if the calculation of the ''actual percent of loss'' should be identified as such, or included in the introductory paragraph instead; and/or
- In paragraph (b)(4) at step (3)(iii), if the calculation of the dollar amount of loss [''. . . and $58,500 total amount of insurance × 6.0 percent loss = $3,510 loss''] should be better identified [since step (3) says only to divide the previous result by the coverage level] or perhaps moved to be part of the final step (4).

Response: FCIC agrees with the commenter that the steps in paragraph (b) do not correspond with the calculations in the settlement of claim example. FCIC agrees with both of the commenters' recommendations to clarify the steps in paragraph (b). FCIC has revised the provisions as recommended, has made additional clarifications in the steps in paragraph (b), and has revised the settlement of claim example at redesignated paragraph (b)(5) to reflect the revisions in paragraph (b).

Comment: One commenter recommends, in the introduction of paragraph (b)(4) of the settlement of claim example, to add a hyphen in ''Thirty five trees. . . .'' so it reads, ''Thirty-five trees . . .''

Response: FCIC agrees with the commenter and has revised the provisions in redesignated paragraph (b)(5) accordingly.

Macadamia Nut Crop Insurance Provisions

Section 1

Comment: One commenter recommends correcting the spelling of ''floatation'' to ''flotation'' in the definition of ''floaters.''

Response: FCIC agrees with the commenter, even though ''floatation'' is an accepted spelling of ''flotation,'' and has revised the provisions accordingly.

Comment: One commenter states the definition of ''wet in-shell'' is revised to say that it excludes floaters and peewees, which FCIC claims are terms commonly used in the Macadamia industry. While the terms are sometimes used, there are some issues with the suggested use of these terms and how the FCIC defines them. For starters, there was no consultation with processors or husking operations to ascertain what the industry-accepted definition of ''wet in-shell'' is. Furthermore, the term ''floater'' has a different definition to the Macadamia nut industry than is suggested by FCIC and in actuality is seldom used. This is primarily because float grading is not a common practice for Macadamia nut husking or processing and when it is employed, it is typically performed at a different stage in the husking operation than what FCIC has suggested in their interpretation of the rules. It is believed that the reason that the FCIC is recommending this change is in response to a claim dispute, in order to validate FCIC's stance against the industry standards. The commenter states FCIC would essentially create an ultimatum for the industry that producers would either need to request their processors to change their processing methods or face the penalty of not qualifying for crop insurance. The cost of making infrastructural changes in order to comply with these proposed changes would be high, so many processors may be discouraged from making these changes, given that many only purchase nuts from producers and have no stake in the rules governing crop insurance. The rule change would essentially create an impossible standard for producers to ever qualify for crop insurance.

Though it was stated in the past that the industry was consulted in the development of the Macadamia nut policy, the policy as it is currently written does not reflect this. It is recommended that (1) the definition of ''wet in-shell'' be amended, (2) the industry be given an opportunity to provide input on how things operate in Hawaii, and (3) how the policy could be amended to better represent reality.

The revision to the definition of ''wet in-shell'' should be according to what is common to the industry. Wet in-shell (WIS) nuts are the result after husking has been implemented; this WIS weight is considered a gross number; the ''extraneous materials'' percentage is used to calculate the amount to subtract from the WIS number to come up with a net WIS. The ''extraneous materials'' percentage or trash is calculated in a quality analysis lab using samples obtained from the husking operation. While sample collection may vary from one operation to the next, this method of determining the net WIS is basically the same across the industry.

Response: FCIC disagrees with the commenter's understanding of changes to the ''wet in-shell'' definition. The language FCIC proposes to incorporate in the Crop Provisions definition is derived from the Special Provisions as well as the Macadamia Nut Loss Adjustment Standards Handbook (LASH). The Special Provisions and LASH are part of the policy or are used to service the policy. FCIC is not changing the definition meaning by incorporating the Special Provisions and LASH statements into the definition. The Special Provisions statement has been in effect since the 2006 crop year and the LASH definition has been in effect since the 2005 crop year.

The commenter says they believe the reason FCIC is recommending the change to the definition of ''wet in-shell'' is in response to a claim dispute, in order to validate FCIC's stance against the industry standards. The commenter says FCIC would essentially create an ultimatum for the industry that producers would either need to request their processors to change their processing methods or face the penalty of not qualifying for crop insurance. The commenter says the change would essentially create an impossible standard for producers to ever qualify for crop insurance. As mentioned in the previous paragraph, FCIC is not making a substantial change to the definition of ''wet in-shell.'' The primary change is to incorporate language contained in the Special Provisions and LASH that are currently in effect and have been in effect since the 2006 and 2005 crop years, respectively. Since this change is not substantial, this definition has already existed in large part, and was required for use in policy servicing, FCIC does not agree that such change creates an ultimatum for producers.

Furthermore, FCIC's definition of ''wet in-shell,'' as now updated, corresponds with the definition the commenter seeks for the industry concerns. The commenter says wet in-shell nuts are the result after husking has been implemented (gross weight) and the ''extraneous materials'' percentage or trash is used to calculate the amount that is subtracted from the gross weight. The difference between the gross weight and the ''extraneous materials'' percentage or trash is the wet in-shell net weight. FCIC's definition says the wet in-shell weight is the weight after removal of the husk (gross weight) and excluding floaters and peewees (extraneous material or trash) but prior to being dried. The industry agrees FCIC should not include floaters and peewees in the wet in-shell weight for purposes of production to count, and refers to such floaters and peewees as ''trash'' or ''extraneous materials.'' FCIC understands the comment to assume FCIC requires all macadamia nut production to be float graded using water flotation for insurance purposes. However, this assumption is incorrect. Under the policy, float grading using water flotation is only one acceptable method of determining floaters to exclude from production to count. To clarify and specifically address the commenter's concern regarding industry practices, FCIC has specifically added to the definition of wet in-shell, through the component definition of floaters, a reference that laboratory testing for floater determination is also acceptable as an alternative to float grading using water floatation. In sum, FCIC requires that the reported production must not include floaters and peewees, or, in other words, the weight of the trash, which the industry and FCIC now similarly define.

In the proposed rule, FCIC proposed to define the terms ''floaters'' and ''peewees'' because those terms are used in the Special Provisions statement and LASH definitions that were proposed for incorporation into the ''wet in-shell'' definition. Those terms were not previously defined within the Crop Provisions, but they were defined in the Macadamia Nut LASH. The LASH has contained those terms and their definitions since the 2005 crop year.

The proposed rule comment period is an opportunity for the public to provide input on changes FCIC proposes to make to the Crop Provisions. Interested parties are permitted to provide comments during that time. If the commenter had specific suggestions for recommended changes to this portion of the Macadamia Nut Crop Provisions, the commenter had an opportunity to provide specific proposed changes on this issue during the proposed rule comment period. However, FCIC has made an addition to the definition that

will address the commenter's industry concern.

Comment: One commenter recommends deleting the comma in the phrase ''wet, in-shell pounds'' in the definition of ''production guarantee (per acre)'' to match the defined term of ''wet in-shell,'' as was done in sections 6(d) and 11(c).

Response: FCIC agrees with the commenter that the comma should be removed from the sentence. The comma is not necessary and its removal does not change the meaning of the provision. FCIC has revised the provisions accordingly.

Comment: One commenter recommends adding a comma before the added phrase ''. . . excluding floaters and peewees . . .'' in the definition of ''wet in-shell.''

Response: FCIC disagrees with the commenter. A comma would not add clarity.

Section 2

Comment: One commenter states if the current paragraph (a) is deleted as proposed, then Basic Provisions section 34(b)(1) will apply, meaning optional units will require a clear and discernible break, and acceptable and verifiable records. The commenter has no objection to this change.

Response: FCIC agrees with the commenter that by deleting paragraph (a) of the Macadamia Tree Crop Provisions, section 34(b)(1) of the Basic Provisions will apply. FCIC thanks the commenter for its support.

Comment: One commenter states that the first sentence in section 2 states that optional units by legal description or by irrigated/non-irrigated practices are not applicable; and the second sentence states that ''. . . Optional units may be established ONLY if each optional unit is located on non-contiguous land, unless otherwise allowed by written agreement'' [emphasis added]. The commenter states that neither sentence addresses the possibility of optional units for organic and conventional practices, which is allowed according to section 34(c)(3) of the Basic Provisions. As written, this provision appears to mean that separate optional units for organic and conventional acreage would be possible only if they happen to be on non-contiguous land or unless allowed by written agreement. If that is the intention, it would be clearer to include ''organic practices'' in the first sentence as not applicable. If it is not intended to exclude optional units by organic/conventional practices, the second sentence should be revised to clarify that optional units by non-contiguous land may be ''in addition to'' the optional units by organic/conventional allowed in section 34(c)(3) of the Basic Provisions.

Response: FCIC intends for optional units to be allowed on acreage located on non-contiguous land or grown and insured under an organic farming practice. FCIC does not intend to require that optional units distinguished by organic and conventional practices must also be located on non-contiguous land. FCIC has revised the provisions accordingly.

Comment: One commenter states the ''Background'' explains that the proposal to remove the 80-acre minimum requirement for optional units is because most macadamia tree orchards are smaller than that, and the other proposed changes (requiring a clear and discernible break, and records) ''. . . will mitigate any potential abuse from this change.'' The commenter has no objection to this change.

Response: FCIC agrees with the commenter and thanks it for its support.

Section 3

Comment: One commenter recommends shifting the following phrase in paragraph (b): ''. . . on the yield potential of the insured crop'' from the end of the first sentence to be ahead of the list, so it would read: ''. . . based on our estimate of the effect on the yield potential of the insured crop of the following: Interplanted perennial crop; removal of trees; damage; change in practices and any other circumstance. If you fail . . .''

Response: Given that no change to this provision was proposed, and the public was not provided an opportunity to comment, FCIC declines to adopt the recommendation in the final rule. In addition, this language is consistent with other Crop Provisions, such as Texas Citrus Fruit and Arizona-California Citrus. No change has been made.

Comment: One commenter recommends revising the following sentence in paragraph (d), ''Each crop year you must report your production from two crop years ago . . .'' to ''. . . from two crop years before . . .''

Response: Given that no change to this provision was proposed, and the public was not provided an opportunity to comment, FCIC declines to adopt the recommendation in the final rule. In addition, this language is consistent with other Crop Provisions, such as Texas Citrus Fruit and Arizona-California Citrus. No change has been made.

Section 6

Comment: One commenter agrees the wording change from ''. . . we may agree in writing . . .'' to ''. . . we may give our approval in writing . . .'' in paragraph (d) makes it less likely for this to be taken as a reference to a written agreement.

Response: FCIC agrees with the commenter and thanks it for its support.

Comment: One commenter states the second sentence in paragraph (d) sounds a bit odd when it refers to ''. . . approval in writing to insure ACREAGE that has not yet reached this age . . .'', referring to the requirement in the first sentence that the insured crop be ''. . . grown on TREES that have reached at least the fifth growing season . . .'' Since the second sentence goes on to say coverage on this under-age acreage can be approved ''. . . if IT has produced at least 200 pounds of (wet in-shell) macadamia nuts per ACRE in a previous crop year'', maybe the word ''acreage'' is correct and no change is needed. But one possible alternative to consider might be: ''. . . to insure acreage of trees that have not reached this age . . .''

Response: Given that no change to this provision was proposed, and the public was not provided an opportunity to comment, FCIC declines to adopt the recommendation in the final rule. In addition, the original Macadamia Nut Crop Provisions are written with this language because nut production, not nut trees, is insured under these particular Crop Provisions. No change has been made.

Section 8

Comment: One commenter states the proposal is to add the phrase ''or as specified in the Special Provisions'' to paragraph (a)(2), so paragraph (a)(2) would read as follows: ''The calendar date for the end of the insurance period for each crop year is the second June 30th after insurance attaches, or as specified in the Special Provisions.'' According to the ''Background'', this ''. . . will provide flexibility to update this date if the need arises.'' The commenter does not object to providing flexibility to make the program work better, though it can also add some complexity by making the calendar date subject to change, meaning it must be looked up in the Special Provisions for the applicable county to be certain the date is unchanged.

Response: FCIC agrees with the commenter that the added phrase provides flexibility to make the program work better. This flexibility eliminates the administrative burden of revising

the regulation if FCIC determines the calendar date for the end of insurance period should be different than what is stated in the Crop Provisions. In addition, the change does not add the complexity issue raised by the commenter because a policyholder must always read the Special Provisions to ensure it is aware of any changes to any issue covered by the Special Provisions, which may extend beyond changes to the end of the insurance period. No change has been made.

List of Subjects in 7 CFR Part 457

Crop insurance, Macadamia tree and macadamia nut, Reporting and recordkeeping requirements.

Final Rule

Accordingly, as set forth in the preamble, the Federal Crop Insurance Corporation amends 7 CFR part 457 effective for the 2016 and succeeding crop years for macadamia trees and for the 2017 and succeeding crop years for macadamia nuts as follows:

PART 457—COMMON CROP INSURANCE REGULATIONS

■ 1. The authority citation for 7 CFR part 457 continues to read as follows:

Authority: 7 U.S.C. 1506(l) and 1506(o).

■ 2. Amend § 457.130 as follows:
■ a. In the introductory text by removing ''2011'' and adding ''2016'' in its place;
■ b. In section 1 by adding in alphabetical order definitions of ''Damaged'' and ''Scaffold limb'';
■ c. By revising section 2;
■ d. In section 3 by removing the phrase ''(Insurance Guarantees, Coverage Levels, and Prices for Determining Indemnities)'' in paragraphs (a) introductory text and (b);
■ e. In section 4 by removing the phrase ''(Contract Changes)'';
■ f. In section 5 by removing the phrase ''(Life of Policy, Cancellation, and Termination)'';
■ g. In section 6 introductory text by removing the phrase ''(Insured Crop)'';
■ h. In section 7 by removing the phrase ''(Insurable Acreage) of the Basic Provisions (§ 457.8), that prohibit'' and adding in its place the phrase ''of the Basic Provisions (§ 457.8) that prohibit'';
■ i. In section 8 by removing the phrase ''(Insurance Period)'' in paragraphs (a) introductory text and (b) introductory text;
■ j. In section 9 by removing the phrase ''(Causes of Loss)'' in paragraphs (a) introductory text and (b) introductory text;
■ k. By revising section 10; and
■ l. In section 11:
■ i. By revising paragraph (b)(3);
■ ii. By redesignating paragraph (b)(4) as paragraph (b)(5);
■ iii. By adding paragraph (b)(4); and
■ iv. By revising newly redesignated paragraph (b)(5) and paragraphs (c) introductory text and (c)(1).

The revisions and additions read as follows:

§ 457.130 Macadamia tree crop insurance provisions.

* * * * *

1. Definitions

* * * * *

Damaged. Injury to the main trunk, scaffold limb(s), and any other subordinate limbs that reduces the productivity of the macadamia tree due to an insured cause of loss that occurs during the insurance period.

* * * * *

Scaffold limb. A major limb attached directly to the trunk.

2. Unit Division

(a) Provisions in the Basic Provisions that allow optional units by section, section equivalent, or FSA farm serial number and by irrigated and non-irrigated practices are not applicable. Optional units may be established only if each optional unit is located on non-contiguous land or grown and insured under an organic farming practice, unless otherwise allowed by written agreement.

(b) You must have provided records, which can be independently verified, of acreage and age of trees for each unit for at least the last crop year.

* * * * *

10. Duties in the Event of Damage or Loss

In addition to the requirements of section 14 of the Basic Provisions, in case of damage or probable loss, if you intend to claim an indemnity on any unit, you must allow us to inspect all insured acreage before pruning any damaged trees, removing any damaged trees, or removing any destroyed trees.

11. Settlement of Claim

* * * * *

(b) * * *

* * * * *

(3) Determine the applicable percent of loss, which is calculated as follows:

(i) Subtract the coverage level percent you elected from 100 percent;

(ii) Determine the actual percent of loss, which is determined as follows:

(A) Divide the number of trees destroyed by the total number of trees to calculate the percent loss;

(B) Divide the number of trees damaged by the total number of trees to calculate the percent of damage;

(C) Add the results of sections 11(b)(3)(ii)(A) and (B).

(iii) Subtract the result obtained in section 11(b)(3)(i) from section 11(b)(3)(ii);

(iv) Divide the result in section 11(b)(3)(iii) by the coverage level you elected (For example, if you elected the 75 percent coverage level and your actual percent of loss was 70 percent, the percent of loss specified in section 11(b)(3) would be calculated as follows: 100% − 75% = 25%; 70% − 25% = 45%; 45% ÷ 75% = 60%.);

(4) Multiply the result of section 11(b)(3) by the total dollar amount of insurance obtained in section 11(b)(2); and

(5) Multiply the result in section 11(b)(4) by your share.

For example:

You select 65 percent coverage level and 100 percent of the price election on 10 acres of 9-year-old macadamia trees in the unit. Your share is 100 percent. The amount of insurance per acre is $5,850. There are 90 trees per unit. Thirty-five trees are destroyed. Your indemnity would be calculated as follows:

(1) 10 acres × $5,850 = $58,500;

(3)(i) 100 percent − 65 percent = 35 percent deductible;

(ii) 35 destroyed trees ÷ 90 total unit trees = 38.9 percent loss;

(iii) 38.9 percent loss − 35 percent deductible = 3.9 percent;

(iv) 3.9 percent ÷ 65 percent coverage level = 6.0 percent loss;

(4) $58,500 total amount of insurance × 6.0 percent loss = $3,510 loss; and

(5) $3,510 loss × 100 percent share = $3,510 indemnity payment.

(c) The total amount of loss will include both damaged trees and destroyed trees as follows:

(1) Any orchard with over 80 percent of the actual trees damaged or destroyed due to an insured cause of loss will be considered to be 100 percent damaged; and

* * * * *

■ 3. Amend § 457.131 as follows:
■ a. In the introductory text by removing ''2012'' and adding ''2017'' in its place;
■ b. In section 1:
■ i. By adding definitions in alphabetical order of ''Floaters'' and ''Peewees''; and
■ ii. By revising the definition of ''Wet in-shell'';
■ c. By revising section 2;
■ d. In section 3:
■ i. In the introductory text and paragraph (b) introductory text by

removing the phrase ''(Insurance Guarantees, Coverage Levels, and Prices for Determining Indemnities)'';

■ ii. In paragraph (b)(4) introductory text by removing the word ''anytime'' and adding in its place the phrase ''any time''; and

■ iii. By revising paragraph (d);

■ e. In section 4 by removing the phrase ''(Contract Changes)'';

■ f. In section 5 by removing the phrase ''(Life of Policy, Cancellation, and Termination)'';

■ g. In section 6:

■ i. By removing the phrase ''(Insured Crop)'' in the introductory text; and

■ ii. By revising paragraph (d);

■ h. In section 7:

■ i. By removing the phrase ''(Insurable Acreage)''; and

■ ii. By removing the comma after the phrase ''Basic Provisions (§ 457.8)'';

■ i. In section 8:

■ i. By removing the phrase ''(Insurance Period)'' in paragraphs (a) introductory text and (b) introductory text; and

■ ii. By revising paragraph (a)(2);

■ j. In section 9 by removing the phrase ''(Causes of Loss)'' in paragraphs (a) introductory text and (b) introductory text;

■ k. In section 10 introductory text by removing the phrase ''(Duties in the Event of Damage or Loss)'';

■ l. In section 11:

■ i. In paragraph (b)(4) by removing the phrase ''if applicable, (see section 11(c))'' and adding in its place the phrase ''if applicable (see section 11(c)),'';

■ ii. By adding a settlement of claim example after paragraph (b)(7); and

■ iii. In paragraph (c) by removing the phrase ''(wet, in-shell pounds)'' and adding in its place the phrase ''(wet in-shell pounds)''.

The revisions and additions read as follows:

§ 457.131 Macadamia nut crop insurance provisions.

* * * * *

1. Definitions

* * * * *

Floaters. Inedible, husked ''field run'' nuts identified by water flotation or laboratory testing.

* * * * *

Peewees. Mature and immature wet in-shell nuts that are smaller than 16 mm (5/8 inch) in diameter.

* * * * *

Wet in-shell. The weight of the macadamia nuts as they are removed from the orchard with the nut meats in the shells after removal of the husk and excluding floaters and peewees but prior to being dried.

2. Unit Division

Provisions in the Basic Provisions that allow optional units by section, section equivalent, or FSA farm serial number and by irrigated and non-irrigated practices are not applicable. Optional units may be established only if each optional unit is located on non-contiguous land or grown and insured under an organic farming practice, unless otherwise allowed by written agreement.

3. Insurance Guarantees, Coverage Levels, and Prices for Determining Indemnities

* * * * *

(d) Instead of reporting your macadamia nut production for the previous crop year, as required by section 3 of the Basic Provisions, there is a one-year lag period. Each crop year you must report your production from two crop years ago, *e.g.,* on the 2016 crop year production report, you will provide your 2014 crop year production.

* * * * *

6. Insured Crop

* * * * *

(d) That are grown on trees that have reached at least the fifth growing season after being set out or grafted. However, we may give our approval in writing to insure acreage of trees that has not reached this age if it has produced at least 200 pounds of (wet in-shell) macadamia nuts per acre in a previous crop year; and

* * * * *

8. Insurance Period

(a) * * *

(2) The calendar date for the end of the insurance period for each crop year is the second June 30th after insurance attaches, or as specified in the Special Provisions.

* * * * *

11. Settlement of Claim

* * * * *

(b) * * *

(7) * * *

For example:

You select the 65 percent coverage level and 100 percent of the price election on 10 acres of macadamia nuts in the unit. Your share is 100 percent. Your production guarantee (per acre) is 4,000 pounds. The price election is $0.78. You are able to harvest 25,000 pounds. Your indemnity would be calculated as follows:

(1) 10 acres × 4,000 pounds = 40,000 pounds guarantee;

(2) 40,000 pounds × $0.78 price election = $31,200 total value of guarantee;

(4) 25,000 pounds production to count × $0.78 price election = $19,500 value of production to count;

(6) $31,200 total value of guarantee − $19,500 value of production to count = $11,700 loss; and

(7) $11,700 loss × 100 percent share = $11,700 indemnity payment.

* * * * *

Signed in Washington, DC, on April 9, 2015.

Brandon Willis,

Manager, Federal Crop Insurance Corporation.

Reporting for Premium; Basis Reporting by Securities Brokers and Basis Determination for Debt Instruments and Options; Correction

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Final and temporary regulations; correction.

SUMMARY: This document contains corrections to final and temporary regulations (TD 9713) that were published in the **Federal Register** on March 13, 2015 (80 FR 13233). The final regulations are relating to information reporting by brokers for bond premium and acquisition premium.

DATES: This correction is effective on April 16, 2015 and applicable beginning March 13, 2015.

FOR FURTHER INFORMATION CONTACT: Pamela Lew at (202) 317–7053 (not a toll free number).

SUPPLEMENTARY INFORMATION:

Background

The final and temporary regulations (TD 9713) that are the subject of this correction is under section 6045 of the Internal Revenue Code.

Need for Correction

As published, the final and temporary regulations (TD 9713) contains errors that may prove to be misleading and are in need of clarification.

Correction of Publication

Accordingly, the final and temporary regulations (TD 9713), that are the

subject of FR Doc. 2015–05648, are corrected as follows:

■ 1. On page 13234, in the preamble, the first column, the twenty-sixth line from the top of the column, the language ''customer has not make the election. The'' is corrected to read ''customer has not made the election. The''.

■ 2. On page 13235, in the preamble, the first column, the fifth line from the bottom of the column, the language ''for income and basis. Under section'' is corrected to read ''for income and basis. Under § ''.

Martin V. Franks,

Chief, Publications and Regulations Branch, Legal Processing Division, Associate Chief Counsel (Procedure and Administration).

Coast Guard

33 CFR Part 100

[Docket No. USCG–2015–0185]

RIN 1625–AA08

Special Local Regulation; Glass City Scrimmage; Maumee River, Toledo, OH

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary Special Local Regulation on the Maumee River, Toledo, Ohio. This Special Local Regulation is necessary to protect race participants from other vessel traffic. This temporary Special Local Regulation is intended to restrict vessels from a portion of the Maumee River during the Glass City Scrimmage.

DATES: This rule will be effective from 6 a.m. until 1 p.m. on April 18, 2015.

ADDRESSES: Documents indicated in this preamble as being available in the docket are part of docket USCG–2015–0185. To view documents mentioned in this preamble as being available in the docket, go to *http://www.regulations.gov,* inserting USCG–2015–0185 in the ''Keyword'' box, and then clicking ''search.'' They are also available for inspection or copying at the Docket Management Facility (M–30), U.S. Department of Transportation, West Building Ground floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary final rule, contact or email MST1 Brett A. Kreigh, U.S. Coast Guard Marine Safety Unit Toledo, at (419) 418–6046 or *brett.a.kreigh@uscg.mil* If you have questions on viewing the docket, call Barbara Hairston, Program Manager, Docket Operations, telephone 202–366–9826.

SUPPLEMENTARY INFORMATION:

Table of Acronyms

DHS Department of Homeland Security
FR Federal Register
NPRM Notice of Proposed Rulemaking
TFR Temporary Final Rule

A. Regulatory History and Information

The Coast Guard is issuing this temporary final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are ''impracticable, unnecessary, or contrary to the public interest.'' Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing an NPRM with respect to this rule because doing so would be impracticable. Additional details regarding this emergent event were received from the event sponsor after the annual permitting process but not received in sufficient time for the Coast Guard to publish an NPRM and solicit public comments before the occurrence of the event. Thus, waiting for a notice and comment period to run would inhibit the Coast Guard from protecting the public and vessels from hazards associated with the event.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this temporary rule effective less than 30 days after publication in the **Federal Register**. For the same reasons discussed in the preceding paragraph, waiting for a 30 day notice period to run would be impracticable and contrary to the public interest.

B. Basis and Purpose

On Saturday, April 18, 2015, from 6 a.m. to 1 p.m. an organized racing event will take place on the Maumee River where participants will row shell boats from the Craig Memorial Bridge at River Mile 3.30 to the Martin Luther King Jr. Memorial Bridge at River Mile 4.30 on the Maumee River in Toledo, OH. The Captain of the Port Detroit has determined that this boat race, due to its close proximity to watercraft and being in the shipping channel, poses extra and unusual hazards to public safety and property, including potential collisions, allisions, and individuals falling into the water. Establishing a special local regulated area is necessary to protect persons and property at these events and help minimize the associated risks.

C. Discussion of Rule

This rule will be enforced 6 a.m. until 1 p.m. on April 18, 2015. The Coast Guard requires that all vessels transiting the area proceed at a no-wake speed and maintain extra vigilance at all times.

Vessel traffic may proceed down the West side of the river at a no wake speed during racing. The races will stop for oncoming freighter or commercial traffic. The on-scene representative or event sponsor representatives may permit vessels to transit the area when no race activity is occurring. The on-scene representative may be present on any Coast Guard, state or local law enforcement vessel assigned to patrol the event.

This temporary Special Local Regulation will encompass all U.S. waters on the Maumee River, Toledo, OH from the Craig Memorial Bridge at River Mile 3.30 to the Martin Luther King Jr. Memorial Bridge at River Mile 4.30.

The Captain of the Port will notify the affected segments of the public of the enforcement of this Special Local Regulation by all appropriate means, including a Broadcast Notice to Mariners and Local Notice to Mariners.

D. Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on these statutes and executive orders.

1. Regulatory Planning and Review

This temporary final rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, Improving Regulation and Regulatory Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of Executive Order 12866 or under section 1 of Executive Order 13563. The Office of Management and Budget has not reviewed it under that Order. We conclude that this temporary final rule is not a significant regulatory action because we anticipate that it will have minimal impact on the economy, will not interfere with other agencies, will not adversely alter the budget of any

grant or loan recipients, and will not raise any novel legal or policy issues. The temporary Special Local Regulation will be relatively small and be enforced for a relatively short time. Thus, restrictions on vessel movement within that particular area are expected to be minimal.

2. Impact on Small Entities

The Regulatory Flexibility Act of 1980 (RFA), 5 U.S.C. 601–612, as amended, requires federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term ''small entities'' comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this temporary final rule will not have a significant economic impact on a substantial number of small entities.

This temporary final rule will affect the following entities, some of which might be small entities: The owners or operators of vessels intending to transit or anchor in the portion of the Maumee River discussed above from 6 a.m. until 1 p.m. on April 18, 2015.

3. Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section above.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against entities that question or complain about this rule or any policy or action of the Coast Guard.

4. Collection of Information

This temporary final rule will call for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

5. Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that Order and determined that this rule does not have implications for federalism.

6. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

7. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of $100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

8. Taking of Private Property

This rule will not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

9. Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

10. Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children From Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

11. Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

12. Energy Effects

This action is not a ''significant energy action'' under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use.

13. Technical Standards

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

14. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.lD, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have concluded this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves the establishment of a special local regulation issued in conjunction with a regatta or marine parade and therefore is categorically excluded under figure 2–1, paragraph (34)(h), of the Instruction. During the annual permitting process for this boat racing event an environmental analysis was conducted to include the effects of this special local regulation.

List of Subjects in 33 CFR Part 100

Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 100 as follows:

PART 100—SAFETY OF LIFE ON NAVIGABLE WATERS

■ 1. The authority citation for part 100 continues to read as follows:

Authority: 33 U.S.C. 1233.

■ 2. Add temporary § 100.35T–0185 to read as follows:

§ 100.35T–0185 Special Local Regulation, Glass City Scrimmage, Toledo, OH.

(a) Location. The regulated area includes all U.S. navigable waters of the Maumee River, Toledo, OH, from the Craig Memorial Bridge at River Mile 3.30 to the Martin Luther King Jr. Memorial Bridge at River Mile 4.30.

(b) Enforcement period. This section will be enforced from 6 a.m. until 1 p.m. on April 18, 2015.

(c) Regulations. (1) Consistent with § 100.901 of this part, vessels transiting within the regulated area shall travel at a no-wake speed and remain vigilant at all times. Additionally, vessels within the regulated area must yield right-of-way for event participants and event safety craft. Commercial vessels will have right-of-way over event participants, and event safety craft.

(2) The ''on-scene representative'' of the Captain of the Port, Sector Detroit is any Coast Guard commissioned, warrant, or petty officer who has been designated by the Captain of the Port, Sector Detroit to act on his behalf. The on-scene representative of the Captain of the Port, Sector Detroit will be aboard either a Coast Guard or Coast Guard Auxiliary vessel. The Captain of the Port, Sector Detroit or his designated on scene representative may be contacted via VHF Channel 16.

(3) Vessel operators entering or operating in the special local regulated area must comply with all directions given to them by the Captain of the Port, Sector Detroit or his on-scene representative.

Dated: March 31, 2015.

Scott B. Lemasters,

Captain, U.S. Coast Guard, Captain of the Port Detroit.

BILLING CODE 9110–04–P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 100

[Docket No. USCG–2015–0190]

RIN 1625–AA08

Special Local Regulation; Hebda Cup Rowing Regatta; Detroit River, Wyandotte, MI

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary special local regulation on the Trenton Channel of the Detroit River, Wyandotte, Michigan. This action is necessary and intended to ensure safety of life on the navigable waters immediately prior to, during, and immediately after the Hebda Cup Rowing Regatta. This special local regulation will establish restrictions upon, and control movement of, vessels in a portion of the Trenton Channel. During the enforcement period, no person or vessel may enter the regulated area without permission of the Captain of the Port.

DATES: This rule will be effective from 7 a.m. until 4:30 p.m. on April 25, 2015.

ADDRESSES: Documents mentioned in this preamble are part of docket USCG–2015–0190. To view documents mentioned in this preamble as being available in the docket, go to *www.regulations.gov,* type the docket number in the ''SEARCH'' box, and click ''Search.'' You may visit the Docket Management Facility, Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary rule, call or email MST1 Todd Manow, Prevention Department, Sector Detroit, Coast Guard; telephone (313) 568–9580, email *todd.m.manow@uscg.mil.* If you have questions on viewing the docket, call Ms. Cheryl Collins, Program Manager, Docket Operations, telephone 202–366–9826, or 1–800–647–5527.

SUPPLEMENTARY INFORMATION:

Table of Acronyms

DHS Department of Homeland Security
FR Federal Register
NAD 83 North American Datum of 1983
§ Section

A. Regulatory History and Information

The Coast Guard is issuing this temporary final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are ''impracticable, unnecessary, or contrary to the public interest.'' Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking with respect to this rule because waiting for a notice and comment period to run would be impracticable. The final details of this boat race were not provided from the event sponsor to the Coast Guard with sufficient time for the Coast Guard to publish an NPRM and solicit public comments before the occurrence of the event. Thus, waiting for a notice and comment period to run would inhibit the Coast Guard's ability to protect the public from the hazards associated with this boat race.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**. For the same reasons discussed in the preceding paragraph, waiting for a 30 day notice period to run would be impracticable and contrary to the public interest.

B. Basis and Purpose

On April 25, 2015, the Wyandotte Boat Club is holding a rowing race that will require the immediate area to be clear of all vessel traffic. The rowing race will occur from 7 a.m. until 4:30 p.m. The Captain of the Port Detroit has determined that the likely combination of recreation vessels, commercial vessels, and large numbers of spectators in close proximity to the boat race along the water pose extra and unusual hazards to public safety and property. Thus, the Captain of the Port Detroit has determined that establishing a Special Local Regulation around the location of the race's course will help minimize risks to safety of life and property during this event.

C. Discussion of Rule

This rule will be enforced from 7 a.m. until 4:30 p.m. on April 25, 2015. It will encompass all waters of the Detroit River, Trenton Channel between the following two lines going from bank-to-bank: The first line is drawn directly across the channel from position *42°10′58″ N., 083°9′23″ W.* (NAD 83); the second line, to the north, is drawn directly across the channel from position *42°11′44″ N., 083°8′56″ W.* (NAD 83). This regulation will be enforced on April 25, 2015, from 7 a.m. until 4:30 p.m.

Two thirds of the Trenton Channel on the western portion of the regulated area, from the Wyandotte shoreline to a point approximately 670 feet east into the channel, will be designated as the race zone, while the remaining third portion on the eastern side of the regulated area, approximately 330 feet in width, will be designated as a spectator zone for pleasure crafts.

Entry into, transiting, or anchoring within the regulated area is prohibited unless authorized by the Captain of the Port Detroit or his designated on-scene representative. Entry into and transiting within the spectator zone of the

regulated area is only authorized at no-wake speed and requires the authorization of the Captain of the Port or his designated on-scene representative. The races will stop for oncoming freighter or commercial traffic. The on-scene representative or event sponsor representatives may permit vessels to transit the area when no race activity is occurring. The on-scene representative may be present on any Coast Guard, state or local law enforcement vessel assigned to patrol the event.

The Captain of the Port or his designated on-scene representative will notify the affected segments of the public of the enforcement of this rule by all appropriate means, including a Broadcast Notice to Mariners and Local Notice to Mariners. The Captain of the Port or his designated on-scene representative may be contacted via VHF Channel 16.

D. Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on several of these statutes or executive orders.

1. Regulatory Planning and Review

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, Improving Regulation and Regulatory Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of Executive Order 12866 or under section 1 of Executive Order 13563. The Office of Management and Budget has not reviewed it under those Orders. It is not ''significant'' under the regulatory policies and procedures of the Department of Homeland Security (DHS).

We conclude that this rule is not a significant regulatory action because we anticipate that it will have minimal impact on the economy, will not interfere with other agencies, will not adversely alter the budget of any grant or loan recipients, and will not raise any novel legal or policy issues.

The Coast Guard's use of this special local regulation will be of relatively small size and short duration, and it is designed to minimize the impact on navigation. Moreover, vessels may, when circumstances allow, obtain permission from the Captain of the Port to transit through the area affected by this special local regulations. Overall, the Coast Guard expects minimal impact to vessel movement from the enforcement of this special local regulation.

2. Impact on Small Entities

The Regulatory Flexibility Act of 1980 (RFA), 5 U.S.C. 601–612, as amended, requires federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term ''small entities'' comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities. This rule will affect the following entities, some of which might be small entities: The owners or operators of vessels intending to transit or anchor in this portion of the Trenton Channel near Wyandotte, MI between 7 a.m. until 4:30 p.m. on April 25, 2015.

This special local regulation will not have a significant economic impact on a substantial number of small entities for the following reasons: This rule will only be in effect and enforced for less than 10 hours on one day. The race event will be temporarily stopped for any deep draft vessels transiting through the shipping lanes. The Coast Guard will give notice to the public via a Broadcast Notice to Mariners that the regulation is in effect, allowing vessel owners and operators to plan accordingly.

3. Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this rule to that they can better evaluate its effects on them. If this rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section above.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against entities that question or complain about this rule or any policy or action of the Coast Guard.

4. Collection of Information

This rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

5. Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that Order and determined that this rule does not have implications for federalism.

6. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

7. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of $100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such expenditure, we do discuss the effects of this rule elsewhere in this preamble.

8. Taking of Private Property

This rule will not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

9. Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

10. Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health

Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

11. Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

12. Energy Effects

This action is not a ''significant energy action'' under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use.

13. Technical Standards

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

14. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.lD, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA)(42 U.S.C. 4321–4370f), and have concluded this action is one of a category of actions which do not individually or cumulatively have a significant effect on the human environment. This rule involves the establishment of a special local regulation issued in conjunction with a regatta or marine parade, and, therefore it is categorically excluded from further review under paragraph 34(h) of Figure 2–1 of the Commandant Instruction. During the annual permitting process for this event an environmental analysis was conducted, and thus, no preliminary environmental analysis checklist or Categorical Exclusion Determination (CED) are required for this rulemaking action. We seek any comments or information that may lead to the discovery of a significant environmental impact from this rule.

List of Subjects in 33 CFR Part 100

Marine safety, Navigation (water), Reporting and recordkeeping requirements, Waterways.

For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 100 as follows:

PART 100—SAFETY OF LIFE ON NAVIGABLE WATERS

■ 1. The authority citation for part 100 continues to read as follows:

Authority: 33 U.S.C. 1233.

■ 2. Add § 100.35T09–0190 to read as follows:

§ 100.35T09–0190 Special Local Regulation; Hebda Cup Rowing Regatta, Trenton Channel; Wyandotte, MI.

(a) *Regulated Area.* A regulated area is established to include all waters of the Detroit River, Trenton Channel between the following two lines going from bank-to-bank: The first line is drawn directly across the channel from position *42°10′58″ N., 083°9′23″ W.;* the second line, to the north, is drawn directly across the channel from position *42°11′44″ N., 083°8′56″ W.* All geographic coordinates are North American Datum of 1983 (NAD 83). Two thirds of the Trenton Channel on the western portion of the regulated area, from the Wyandotte shoreline to a point approximately 670 feet east into the channel, will be designated as the race zone, while the remaining third portion on the eastern side of the of the regulated area, approximately 330 feet in width, will be designated as a spectator zone for pleasure crafts.

(b) *Enforcement period.* This regulation will be enforced from 7 a.m. until 4:30 p.m. on April 25, 2015.

(c) *Regulations.* (1) No vessel may enter, transit through, or anchor within the race zone of the regulated area unless authorized by the Captain of the Port Detroit, or his designated on-scene representative.

(2) No vessels may enter and transit through the spectator zone on the eastern side of regulated area without authorization of the Captain of the Port or his designated on scene representative. Any vessel granted permission to enter the spectator zone must not exceed a no-wake speed.

(3) The ''on-scene representative'' of the Captain of the Port, Sector Detroit is any Coast Guard commissioned, warrant or petty officer or a Federal, State, or local law enforcement officer designated by or assisting the Captain of the Port, Sector Detroit to act on his behalf.

(4) Vessel operators desiring to enter or operate within the regulated area shall contact the Coast Guard Patrol Commander to obtain permission to do so. The Captain of the Port, Sector Detroit or his on-scene representative may be contacted via VHF Channel 16 or at 313–568–9464.

(5) Vessel operators given permission to enter or operate in the regulated area must comply with all directions given to them by the Captain of the Port, Sector Detroit, or his on-scene representative.

(6) If the Captain of the Port, Sector Detroit grants permission for a deep draft vessel to transit through the regulated area in the shipping lanes, the race event will be temporarily stopped during deep draft vessel's transit.

Dated: March 27, 2015.

Scott B. Lemasters,

Captain, U.S. Coast Guard, Captain of the Port Detroit.

AGENCY: Coast Guard, DHS.

ACTION: Final rule.

SUMMARY: The Coast Guard is issuing a final rule that revises the list of special local regulations and safety zones established for recurring marine events and fireworks displays that take place within the Fifth Coast Guard District area of responsibility. Under this rule, the list of recurring marine events requiring special local regulations or safety zones is updated with revisions, additional events, and removal of events that no longer take place in the Fifth Coast Guard District. When these regulations are enforced, certain restrictions are placed on marine traffic in specified areas. This rulemaking project promotes efficiency by eliminating the need to produce a separate rule for each individual recurring event, and serves to provide notice of the known recurring events requiring a special local regulation or safety zone throughout the year.

DATES: This rule is effective May 18, 2015.

ADDRESSES: Documents mentioned in this preamble are part of docket [USCG–2014–1011]. To view documents mentioned in this preamble as being

available in the docket, go to *http://www.regulations.gov,* type the docket number in the ''SEARCH'' box and click ''SEARCH.'' Click on Open Docket Folder on the line associated with this rulemaking. You may also visit the Docket Management Facility in Room W12–140 on the ground floor of the Department of Transportation West Building, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or email Dennis Sens, Fifth Coast Guard District, Prevention Division, (757) 398–6204, *Dennis.M.Sens@uscg.mil.* If you have questions on viewing or obtaining documents from the docket, call Cheryl Collins, Program Manager, Docket Operations, telephone (202) 366–9826.

SUPPLEMENTARY INFORMATION:

Table of Acronyms

DHS Department of Homeland Security
FR Federal Register
NPRM Notice of Proposed Rulemaking

A. Regulatory History and Information

The special local regulations listed in 33 CFR 100.501 and safety zones listed in 33 CFR 165.506 were last amended on July 21, 2014 (79 FR 42197).

On February 13, 2015, we published a notice of proposed rulemaking (NPRM) entitled ''Special Local Regulations and Safety Zones; Recurring Marine Events and Fireworks Displays within the Fifth Coast Guard District'' in the **Federal Register** (80 FR 7994). We received one favorable comment on the proposed rule.

No public meeting was requested, and none was held.

B. Basis and Purpose

This rulemaking is authorized by 33 U.S.C. 1231, 1233; 33 CFR 1.05–1, 160.5; and DHS Delegation No. 0170.1. It updates the list of permanent special local regulations at 33 CFR 100.501 and safety zones at 33 CFR 165.506, established for recurring marine events and fireworks displays at various locations within the Fifth Coast Guard District area of responsibility (AOR). The Fifth Coast Guard District AOR is defined in 33 CFR 3.25.

Publishing these regulatory updates in a single rulemaking promotes efficiency and provides the public with notice through publication in the **Federal Register** of the upcoming recurring marine events and fireworks displays and their accompanying regulations, special local regulations, and safety zones.

C. Discussion of Comments, Changes and the Final Rule

Coast Guard Sector Baltimore, MD submitted changes for a special local regulation for marine event and a safety zone for fireworks display that were published on February 13, 2015 in the notice of proposed rulemaking. The changes are included in the Table to § 100.501, (b.) line 23, Date. The date for this marine event was expanded to include the 3rd Sunday. Change was made to the Table to § 165.506, (b.) line 1, Regulated Area. The regulated area for this fireworks display was changed to 500 yard radius. This change was made to provide a larger safety buffer within Washington Channel due to the anticipated high density of spectator vessels that typically congregate for this event. These changes do not affect the location or total number of regulated areas previously listed in the NPRM.

One commenter generally supported the proposed listing of all marine events in the Fifth District area of responsibility. No changes were made to the proposed rule based upon this comment.

Special Local Regulations

This rule adds 2 new special local regulations for marine events, removes 1 regulation and revises 10 previously established regulations for marine events listed in the Table to § 100.501. Other than changes to the dates and locations of certain events, the other provisions in 33 CFR 100.501 remain unchanged.

The Coast Guard has revised regulations at 33 CFR 100.501 by adding 2 new special local regulations. The special local regulations are listed in Table 1, including reference by section as printed in the Table to § 100.501.

TABLE 1

[Special local regulated areas added to 33 CFR 100.501]

Table to § 100.501 section	Location
1. (b.) 12	Rock Hall Harbor, Rock Hall, MD.
2. (b.) 23	Nanticoke River, Bivalve channel and harbor, Bivalve, MD.

One previously published special local regulation for marine event was removed from 33 CFR 100.501, *i.e.* ''Ragin on the River'' power boat race that took place on the Susquehanna River, near Port Deposit, MD.

This rule revises 10 preexisting special local regulations that involve change to marine event date(s) and/or coordinates. These events are listed in Table 2, with reference by section as printed in the Table to § 100.501.

TABLE 2

[Changes to special local regulation date(s) and coordinates]

Table to § 100.501 Section	Location	Revision (date/coordinates)
1. (a.) 9	Sunset Lake, NJ	dates.
2. (a.) 13	New Jersey Intra Coastal Waterway, Ocean City, NJ	dates.
3. (a.) 14	New Jersey Intra Coastal Waterway, Atlantic City, NJ	dates.
4. (b.) 3	Middle River, Essex, MD	coordinates.
5. (b.) 6	Upper Potomac River, Washington, DC	dates.
6. (b.) 7	Severn River, Annapolis, MD	coordinates.
7. (b.) 15	Tred Avon River, Oxford, MD	dates, coordinates.
8. (b.) 17	Spa Creek, Annapolis, MD	dates.
9. (b.) 20	Patuxent River, Solomons, MD	dates.
10. (b.) 21	North Atlantic Ocean, Ocean City, MD	dates.

Based on the nature of marine events, large number of participants and spectators, and event locations, the Coast Guard has determined that the events listed in this rule could pose a risk to participants or waterway users if

normal vessel traffic were to interfere with the event. Possible hazards include risks of participant injury or death resulting from near or actual contact with non-participant vessels traversing through the regulated areas. In order to protect the safety of all waterway users including event participants and spectators, this rule establishes special local regulations for the time and location of each marine event.

This rule prevents vessels from entering, transiting, mooring or anchoring within areas specifically designated as regulated areas during the periods of enforcement unless authorized by the Captain of the Port (COTP), or designated Coast Guard Patrol Commander. The designated ''Patrol Commander'' includes Coast Guard commissioned, warrant, or petty officer who has been designated by the COTP to act on their behalf. On-scene patrol commander may be augmented by local, State or Federal officials authorized to act in support of the Coast Guard.

Safety Zones

This rule adds 6 new safety zones, removes 1 safety zone and revises 12 previously established safety zones listed in the Table to § 165.506. Other than changes to the dates and locations of certain safety zones, the other provisions in 33 CFR 165.506 remain unchanged.

The Coast Guard has revised the regulations at 33 CFR 165.506 by adding 6 new safety zone locations to the permanent regulations listed in this section. The new safety zones are listed in Table 3, including reference by section as printed in the Table to § 165.506.

TABLE 3

[Safety zones added to 33 CFR 165.506]

Table to § 165.506 section	Location
1. (b.) 4	Upper Potomac River, Washington, DC
2. (c.) 22	Urbanna Creek, Urbanna, VA.
3. (c.) 23	Elizabeth River—Eastern Branch, Norfolk, VA.
4. (d.) 16	Shallowbag Bay, Manteo, NC.
5. (d.) 17	Pasquotank River, Elizabeth City, NC.
6. (d.) 18	Atlantic Intracoastal Waterway, Bogue Inlet, Swansboro, NC.

One safety zone was removed from 33 CFR 165.506, specifically, the fireworks display that took place over the Potomac River, near Newburg, MD.

The rule revises 12 preexisting safety zones that involve change to event date(s) and coordinates. These revised safety zones are shown in Table 4, with reference by section as printed in the Table to § 165.506.

TABLE 4

[Changes to safety zone date(s) and coordinates]

Table to § 165.506 Section	Location	Revision (date/coordinates)
1. (a.) 1	North Atlantic Ocean, Bethany Beach, DE	dates.
2. (a.) 3	North Atlantic Ocean, Rehoboth Beach, DE	dates.
3. (a.) 4	North Atlantic Ocean, Avalon, NJ	dates.
4. (a.) 6	North Atlantic Ocean, Cape May, NJ	dates.
5. (a.) 7	Delaware Bay, North Cape May, NJ	dates.
6. (a.) 9	Metedeconk River, Brick Township, NJ	dates.
7. (a.) 10	North Atlantic Ocean, Atlantic City, NJ	dates, coordinates.
8. (a.) 11	North Atlantic Ocean, Ocean City, NJ	dates.
9. (a.) 13	Little Egg Harbor, Parker Island, NJ	dates.
10. (b.) 1	Upper Potomac River, Washington Channel, Washington, DC	coordinates.
11. (b.) 20	Upper Potomac River, Washington, DC	dates, coordinates.
12. (c.) 9	North Atlantic Ocean, Virginia Beach, VA	dates.

Each year, organizations in the Fifth Coast Guard District sponsor fireworks displays in the same general location and time period. Each event uses a barge or an on-shore site near the shoreline as the fireworks launch platform. A safety zone is used to control vessel movement within a specified distance surrounding the launch platforms to ensure the safety of persons and property. Coast Guard personnel on scene may allow boaters within the safety zone if conditions permit.

The enforcement period for these safety zones is from 5:30 p.m. to 1 a.m. local time. However, vessels may enter, remain in, or transit through these safety zones during this time frame if authorized by the COTP or designated Coast Guard patrol commander on scene, as provided for in 33 CFR 165.23. This rule provides for the safety of life on navigable waters during the events.

D. Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on these statutes and executive orders.

1. Regulatory Planning and Review

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, Improving Regulation and Regulatory Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of Executive Order 12866 or under section 1 of Executive Order 13563. The Office of Management and Budget has not reviewed it under those Orders.

This finding is based on the short amount of time that vessels will be restricted from regulated areas, and the small size of these areas that are usually positioned away from high vessel traffic zones. Generally vessels would not be precluded from getting underway, or mooring at any piers or marinas currently located in the vicinity of the regulated areas. Advance notifications would also be made to the local maritime community by issuance of Local Notice to Mariners, Broadcast Notice to Mariners, Marine information and facsimile broadcasts so mariners can adjust their plans accordingly. Notifications to the public for most

events will typically be made by local newspapers, radio and TV stations. The Coast Guard anticipates that these special local regulated areas and safety zones will only be enforced one to three times per year.

2. Impact on Small Entities

The Regulatory Flexibility Act of 1980 (RFA), 5 U.S.C. 601–612, as amended, requires federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term ''small entities'' comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard received no comments from the Small Business Administration on this rule. The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities.

(1) This rule will affect the following entities some of which may be small entities: The owners and operators of vessels intending to transit or anchor in these regulated areas during the times the zones are enforced.

(2) These special local regulated areas and safety zones will not have a significant economic impact on a substantial number of small entities for the following reasons: The Coast Guard will ensure that small entities are able to operate in the areas where events are occurring to the extent possible while ensuring the safety of event participants and spectators. The enforcement period will be short in duration and, in many of the areas, vessels can transit safely around the regulated area. Generally, blanket permission to enter, remain in, or transit through these regulated areas will be given, except during the period that the Coast Guard patrol vessel is present. Before the enforcement period, we will issue maritime advisories widely.

3. Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT**, above.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

4. Collection of Information

This rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

5. Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that Order and determined that this rule does not have implications for federalism.

6. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

7. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of $100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

8. Taking of Private Property

This rule will not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

9. Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

10. Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children From Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

11. Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

12. Energy Effects

This action is not a ''significant energy action'' under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use.

13. Technical Standards

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

14. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.lD, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves implementation of regulations within 33 CFR part 100 that apply to organized marine events on the navigable waters of the United States. Some marine events by their nature may introduce potential for adverse impact on the safety or other interest of waterway users or waterfront infrastructure within or close proximity to the event area. The category of water activities includes but is not limited to sail boat regattas, boat parades, power boat racing, swimming

events, crew racing, and sail board racing. This section of the rule is categorically excluded from further review under paragraph 34(h) of Figure 2–1 of the Commandant Instruction. An environmental analysis checklist supporting this determination and a Categorical Exclusion Determination are not required for this section of the rule.

This rule involves implementation of regulations at 33 CFR part 165 that establish safety zones on navigable waters of the United States for fireworks events. These safety zones are enforced for the duration of fireworks display events. The fireworks are generally launched from or immediately adjacent to navigable waters of the United States. The category of activities includes fireworks launched from barges or at the shoreline that generally rely on the use of navigable waters as a safety buffer. Fireworks displays may introduce potential hazards such as accidental discharge of fireworks, dangerous projectiles, and falling hot embers or other debris. This section of the rule is categorically excluded from further review under paragraph 34(g) of Figure 2–1 of the Commandant Instruction. A preliminary environmental analysis checklist supporting this determination and a Categorical Exclusion Determination are available in the docket where indicated under **ADDRESSES**. We seek any comments or information that may lead to the discovery of a significant environmental impact from this rule.

List of Subjects

33 CFR Part 100

Marine safety, Navigation (water), Reporting and recordkeeping requirements, Waterways.

33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

For the reasons discussed in the preamble, the Coast Guard amends 33 CFR parts 100 and 165 as follows:

PART 100—SAFETY OF LIFE ON NAVIGABLE WATERS

■ 1. The authority citation for part 100 continues to read as follows:

Authority: 33 U.S.C. 1233.

■ 2. In § 100.501, revise Table to § 100.501 to read as follows:

§ 100.501 Special Local Regulations; Marine Events in the Fifth Coast Guard District.

* * * * *

TABLE TO § 100.501

[All coordinates listed in the Table to § 100.501 reference Datum NAD 1983]

No.	Date	Event	Sponsor	Location
(a.) Coast Guard Sector Delaware Bay—COTP Zone				
1.	June—1st Sunday.	Atlantic County Day at the Bay	Atlantic County, New Jersey.	The waters of Great Egg Harbor Bay, adjacent to Somers Point, New Jersey, bounded by a line drawn along the following boundaries: the area is bounded to the north by the shoreline along John F. Kennedy Park and Somers Point, New Jersey; bounded to the east by the State Route 52 bridge; bounded to the south by a line that runs along latitude 39°18′00″ N.; and bounded to the west by a line that runs along longitude 074°37′00″ W.
2.	May—3rd Sunday; September—3rd Saturday.	Annual Escape from Fort Delaware Triathlon.	Escape from Fort Delaware Triathlon, Inc.	All waters of the Delaware River between Pea Patch Island and Delaware City, Delaware, bounded by a line connecting the following points: latitude 39°36′35.7″ N., longitude 075°35′25.6″ W, thence southeast to latitude 39°34′57.3″ N., longitude 075°33′23.1″ W, thence southwest to latitude 39°34′11.9″ N., longitude 075°34′28.6″ W, thence northwest to latitude 39°35′52.4″ N., longitude 075°36′33.9″ W, thence to point of origin.
3.	June—last Saturday.	Westville Parade of Lights.	Borough of Westville and Westville Power Boat.	All waters of Big Timber Creek in Westville, New Jersey from shoreline to shoreline bounded on the south from the Route 130 Bridge and to the north by the entrance of the Delaware River.
4.	June—4th Sunday.	OPA Atlantic City Grand Prix.	Offshore Performance Assn. (OPA).	The waters of the North Atlantic Ocean, adjacent to Atlantic City, New Jersey, bounded by a line drawn between the following points: from a point along the shoreline at latitude 39°21′50″ N., longitude 074°24′37″ W, thence southeasterly to latitude 39°20′40″ N., longitude 074°23′50″ W, thence southwesterly to latitude 39°19′33″ N., longitude 074°26′52″ W, thence northwesterly to a point along the shoreline at latitude 39°20′43″ N., longitude 074°27′40″ W, thence northeasterly along the shoreline to point of origin at latitude 39°21′50″ N., longitude 074°24′37″ W.
5.	July—on or about July 4th.	U.S. holiday celebrations	City of Philadelphia	The waters of the Delaware River, adjacent to Philadelphia, PA and Camden, NJ, from shoreline to shoreline, bounded on the south by the Walt Whitman Bridge and bounded on the north by the Benjamin Franklin Bridge.

TABLE TO § 100.501—Continued

[All coordinates listed in the Table to § 100.501 reference Datum NAD 1983]

No.	Date	Event	Sponsor	Location
6.	August—2nd Friday, Saturday and Sunday.	Point Pleasant OPA/NJ Offshore Grand Prix.	Offshore Performance Association (OPA) and New Jersey Offshore Racing Assn.	The waters of the North Atlantic Ocean bounded by a line drawn from a position along the shoreline near Normandy Beach, NJ at latitude 40°00′00″ N., longitude 074°03′30″ W, thence easterly to latitude 39°59′40″ N., longitude 074°02′00″ W, thence southwesterly to latitude 39°56′35″ N., longitude 074°03′00″ W, thence westerly to a position near the Seaside Heights Pier at latitude 39°56′35″ N., longitude 074°04′15″ W, thence northerly along the shoreline to the point of origin.
7.	July—3rd Wednesday and Thursday.	New Jersey Offshore Grand Prix.	Offshore Performance Assn. & New Jersey Offshore Racing Assn.	The waters of the Manasquan River from the New York and Long Branch Railroad Bridge to Manasquan Inlet, together with all of the navigable waters of the United States from Asbury Park, New Jersey, latitude 40°14′00″ N.; southward to Seaside Park, New Jersey latitude 39°55′00″ N., from the New Jersey shoreline seaward to the limits of the Territorial Sea. The race course area extends from Asbury Park to Seaside Park from the shoreline, seaward to a distance of 8.4 nautical miles.
8.	August—3rd Friday.	Thunder Over the Boardwalk Air show.	Atlantic City Chamber of Commerce.	The waters of the North Atlantic Ocean, adjacent to Atlantic City, New Jersey, bounded by a line drawn between the following points: from a point along the shoreline at latitude 39°21′31″ N., longitude 074°25′04″ W, thence southeasterly to latitude 39°21′08″ N., longitude 074°24′48″ W, thence southwesterly to latitude 39°20′16″ N., longitude 074°27′17″ W, thence northwesterly to a point along the shoreline at latitude 39°20′44″ N., longitude 074°27′31″ W, thence northeasterly along the shoreline to latitude 39°21′31″ N., longitude 074°25′04″ W.
9.	September—2nd, 3rd or 4th Friday, Saturday and Sunday; October—1st Friday, Saturday and Sunday.	Sunset Lake Hydrofest ...	Sunset Lake Hydrofest Assn.	All waters of Sunset Lake, New Jersey, from shoreline to shoreline, south of latitude 38°58′32″ N.
10.	October—2nd Saturday and Sunday.	The Liberty Grand Prix ...	Offshore Performance Assn. (OPA).	The waters of the Delaware River, adjacent to Philadelphia, PA and Camden, NJ, from shoreline to shoreline, bounded on the south by the Walt Whitman Bridge and bounded on the north by the Benjamin Franklin Bridge.
11.	October—1st Monday (Columbus Day).	U.S. holiday celebrations	City of Philadelphia	The waters of the Delaware River, adjacent to Philadelphia, PA and Camden, NJ, from shoreline to shoreline, bounded on the south by the Walt Whitman Bridge and bounded on the north by the Benjamin Franklin Bridge.
12.	December 31st (New Year's Eve).	U.S. holiday celebrations	City of Philadelphia	The waters of the Delaware River, adjacent to Philadelphia, PA and Camden, NJ, from shoreline to shoreline, bounded on the south by the Walt Whitman Bridge and bounded on the north by the Benjamin Franklin Bridge.
13.	September—2nd or 3rd Sunday.	Ocean City Air Show	Ocean City, NJ	All waters of the New Jersey Intracoastal Waterway (ICW) bounded by a line connecting the following points; latitude 39°15′57″ N., longitude 074°35′09″ W. thence northeast to latitude 39°16′34″ N., longitude 074°33′54″ W. thence southeast to latitude 39°16′17″ N., longitude 074°33′29″ W. thence southwest to latitude 39°15′40″ N., longitude 074°34′46″ W. thence northwest to point of origin, near Ocean City, NJ.

7.	May—Tuesday and Wednesday before Memorial Day (observed).	USNA Blue Angels Air Show.	U.S. Naval Academy	All waters of the Severn River from shoreline to shoreline, bounded to the northwest by a line drawn from the south shoreline at latitude 39°00′38.02″ N., longitude 076°31′01.49″ W. thence to the north shoreline at latitude 39°00′52.7″ N., longitude 076°30′46.01″ W., this line is approximately 1300 yards northwest of the U.S. 50 fixed highway bridge. The regulated area is bounded to the southeast by a line drawn from U.S. Naval Academy Light at latitude 38°58′39.5″ N., longitude 076°28′49″ W. thence southeast to a point 1500 yards ESE of Chinks Point, MD at latitude 38°57′41″ N., longitude 076°27′36″ W. thence northeast to Greenbury Point at latitude 38°58′27.66″ N., longitude 076°27′16.38″ W.
8.	June—2nd Sunday.	The Great Chesapeake Bay Bridges Swim Races.	Great Chesapeake Bay Swim, Inc.	The waters of the Chesapeake Bay between and adjacent to the spans of the William P. Lane Jr. Memorial Bridges from shoreline to shoreline, bounded to the north by a line drawn parallel and 500 yards north of the north bridge span that originates from the western shoreline at latitude 39°00′36″ N., longitude 076°23′05″ W. and thence eastward to the eastern shoreline at latitude 38°59′14″ N., longitude 076°20′00″ W., and bounded to the south by a line drawn parallel and 500 yards south of the south bridge span that originates from the western shoreline at latitude 39°00′16″ N., longitude 076°24′30″ W. and thence eastward to the eastern shoreline at latitude 38°58′38.5″ N., longitude 076°20′06″ W.
9.	June—3rd, 4th or last Saturday or July—2nd or 3rd Saturday.	Maryland Swim for Life ...	District of Columbia Aquatics Club.	The waters of the Chester River from shoreline to shoreline, bounded on the south by a line drawn at latitude 39°10′16″ N., near the Chester River Channel Buoy 35 (LLN–26795) and bounded on the north at latitude 39°12′30″ N. by the Maryland S.R. 213 Highway Bridge.
10.	June—last Saturday and Sunday or July—2nd Saturday and Sunday.	Bo Bowman Memorial—Sharptown Regatta.	Virginia/Carolina Racing Assn.	All waters of the Nanticoke River near Sharptown, MD, from shoreline to shoreline, bounded to the south by Maryland S.R. 313 Highway Bridge and bounded to the north by a line drawn from latitude 38°33′09″ N., longitude 075°42′45″ W., thence southeasterly to latitude 38°33′04″ N., longitude 075°42′37″ W.
11.	June—2nd, 3rd, 4th or last Saturday and Sunday or August—1st Saturday and Sunday.	Thunder on the Narrows	Kent Narrows Racing Assn.	All waters of Prospect Bay enclosed by the following points: latitude 38°57′52″ N., longitude 076°14′48″ W., thence to latitude 38°58′02″ N., longitude 076°15′05″ W., thence to latitude 38°57′38″ N., longitude 076°15′29″ W., thence to latitude 38°57′28″ N., longitude 076°15′23″ W., thence to point of origin at latitude 38°57′52″ N., longitude 076°14′48″ W.
12.	May/June—Saturday and Sunday after Memorial Day (observed); and October—1st Saturday and Sunday.	Rock Hall and Waterman's Triathlon Swims.	Kinetic Endeavors, LLC ..	The waters of Rock Hall Harbor from shoreline to shoreline, bounded by a line drawn from latitude 39°07′59″ N., longitude 076°15′03″ W. to latitude 39°07′50″ N., longitude 076°14′41″ W., located at the entrance to Rock Hall, MD.
13.	September—2nd Saturday or the Saturday after Labor Day.	Dragon Boat Races in the Inner Harbor.	Associated Catholic Charities, Inc.	The waters of the Patapsco River, Baltimore, MD, Inner Harbor from shoreline to shoreline, bounded on the east by a line drawn along longitude 076°36′30″ W.
14.	June—3rd, 4th or last Saturday or Sunday.	Baltimore Dragon Boat Challenge.	Baltimore Dragon Boat Club.	The waters of Patapsco River, Northwest Harbor, in Baltimore, MD, from shoreline to shoreline, within an area bounded on the east by a line drawn along longitude 076°35′ W. and bounded on the west by a line drawn along longitude 076°36′ W.

15.	May—2nd, 3rd 4th or last Saturday. June—1st, 2nd or 3rd Saturday.	Oxford-Bellevue Sharkfest Swim.	Enviro-Sports Productions Inc.	The waters of the Tred Avon River from shoreline to shoreline, within an area bounded on the east by a line drawn from latitude 38°42′25″ N., longitude 076°10 ′45″ W., thence south to latitude 38°41′37″ N., longitude 076°10′26″ W., and bounded on the west by a line drawn from latitude 38°41′58″ N., longitude 076°11′04″ W., thence south to latitude 38°41′25″ N., longitude 076°10′49″ W., thence east to latitude 38°41′25″ N., longitude 076°10′30″ W., located at Oxford, MD.
16.	June—1st Sunday.	Swim Across the Potomac.	U.S. Open Water Swimming Assn.—Wave One Swimming.	The waters of the Potomac River, from shoreline to shoreline, bounded to the north by a line drawn that originates at Jones Point Park, VA at the west shoreline latitude 38°47′35″ N., longitude 077°02′22″ W., thence east to latitude 38°47′2″ N., longitude 077°00′58″ W., at east shoreline near National Harbor, MD. The regulated area is bounded to the south by a line drawn originating at George Washington Memorial Parkway highway overpass and Cameron Run, west shoreline latitude 38°47′23″ N., longitude 077°03′03″ W. thence east to latitude 38°46′52″ N., longitude 077°01′13″ W., at east shoreline near National Harbor, MD.
17.	October—last Saturday; or November—1st or 2nd Saturday.	The MRE Tug of War	Maritime Republic of Eastport.	The waters of Spa Creek from shoreline to shoreline, extending 400 feet from either side of a rope spanning Spa Creek from a position at latitude 38°58′36.9″ N., longitude 076°29′03.8″ W. on the Annapolis shoreline to a position at latitude 38°58′26.4″ N., longitude 076°28′53.7″ W. on the Eastport shoreline.
18.	December—2nd Saturday.	Eastport Yacht Club Lighted Boat Parade.	Eastport Yacht Club	The waters of Spa Creek, and the Severn River, shore to shore, bounded on the south by a line drawn from Carr Point, at latitude 38°58′58″ N., longitude 076°27′40″ W., thence to Horn Point Warning Light (LLNR 17935), at 38°58′24″ N., longitude 076°28′10 W., thence to Horn Point, at 38°58′20″ N., longitude 076°28′27″ W., and bounded on the north by Naval Academy SR 450 Bridge.
19.	Memorial Day weekend—Thursday, Friday, Saturday and Sunday; or Labor Day weekend—Thursday, Friday, Saturday and Sunday.	NAS Patuxent River Air Expo.	U.S. Naval Air Station Patuxent River, MD.	All waters of the lower Patuxent River, near Solomons, Maryland, located between Fishing Point and the base of the break wall marking the entrance to the East Seaplane Basin at Naval Air Station Patuxent River, within an area bounded by a line connecting position latitude 38°17′39″ N., longitude 076°25′47″ W.; thence to latitude 38°17′47″ N., longitude 076°26′00″ W.; thence to latitude 38°18′09″ N., longitude 076°25′40″ W.; thence to latitude 38°18′00″ N., longitude 076°25′25″ W., located along the shoreline at U.S. Naval Air Station Patuxent River, Maryland. All waters of the lower Patuxent River, near Solomons, Maryland, located between Hog Point and Cedar Point, within an area bounded by a line drawn from a position at latitude 38°18′41″ N., longitude 076°23′43″ W.; to latitude 38°18′16″ N., longitude 076°22′35″ W.; thence to latitude 38°18′12″ N., longitude 076°22′37″ W.; thence to latitude 38°18′36″ N., longitude 076°23′46″ W., located adjacent to the shoreline at U.S. Naval Air Station Patuxent River, Maryland.

No.	Date	Location	Regulated area
2.	Labor Day	Indian River Bay, DE; Safety Zone	All waters of the Indian River Bay within a 700 yard radius of the fireworks launch location on the pier in approximate position latitude 38°36′42″ N., longitude 075°08′18″ W.
3.	July 3rd or 4th	North Atlantic Ocean, Rehoboth Beach, DE; Safety Zone.	All waters of the North Atlantic Ocean within a 360 yard radius of the fireworks barge in approximate position latitude 38°43′01.2″ N., longitude 075°04′21″ W., approximately 400 yards east of Rehoboth Beach, DE.
4.	July 3rd, 4th or 5th	North Atlantic Ocean, Avalon, NJ; Safety Zone	The waters of the North Atlantic Ocean within a 500 yard radius of the fireworks barge in approximate location latitude 39°06′19.5″ N., longitude 074°42′02.15″ W., in the vicinity of the shoreline at Avalon, NJ.
5.	July 4th, or September 1st—2nd Saturday.	Barnegat Bay, Barnegat Township, NJ; Safety Zone	The waters of Barnegat Bay within a 500 yard radius of the fireworks barge in approximate position latitude 39°44′50″ N., longitude 074°11′21″ W., approximately 500 yards north of Conklin Island, NJ.
6.	July 3rd, 4th or 5th	North Atlantic Ocean, Cape May, NJ; Safety Zone ..	The waters of the North Atlantic Ocean within a 500 yard radius of the fireworks barge in approximate location latitude 38°55′36″ N., longitude 074°55′26″ W., immediately adjacent to the shoreline at Cape May, NJ.
7.	July 3rd, 4th or 5th	Delaware Bay, North Cape May, NJ; Safety Zone ...	All waters of the Delaware Bay within a 360 yard radius of the fireworks barge in approximate position latitude 38°58′00″ N., longitude 074°58′30″ W.
8.	August—3rd Sunday	Great Egg Harbor Inlet, Margate City, NJ; Safety Zone.	All waters within a 500 yard radius of the fireworks barge in approximate location latitude 39°19′33″ N., longitude 074°31′28″ W., on the Intracoastal Waterway near Margate City, NJ.
9.	July 3rd, 4th or 5th August every Thursday; September 1st Thursday.	Metedeconk River, Brick Township, NJ; Safety Zone	The waters of the Metedeconk River within a 300 yard radius of the fireworks launch platform in approximate position latitude 40°03′24″ N., longitude 074°06′42″ W., near the shoreline at Brick Township, NJ.
10.	July—3rd, 4th or 5th	North Atlantic Ocean, Atlantic City, NJ; Safety Zone	The waters of the North Atlantic Ocean within a 500 yard radius of the fireworks barge located at latitude 39°20′58″ N., longitude 074°25′58″ W., and within 500 yard radius of a fireworks barge located at latitude 39°21′12″ N., longitude 074°25′06″ W., near the shoreline at Atlantic City, NJ.
11.	July 3rd, 4th or 5th. October—1st or 2nd Saturday.	North Atlantic Ocean, Ocean City, NJ; Safety Zone	The waters of the North Atlantic Ocean within a 500 yard radius of the fireworks barge in approximate location latitude 39°16′22″ N., longitude 074°33′54″ W., in the vicinity of the shoreline at Ocean City, NJ.
12.	May—4th Saturday	Barnegat Bay, Ocean Township, NJ; Safety Zone ...	All waters of Barnegat Bay within a 500 yard radius of the fireworks barge in approximate position latitude 39°47′33″ N., longitude 074°10′46″ W.
13.	July 3rd, 4th or 5th	Little Egg Harbor, Parker Island, NJ; Safety Zone	All waters of Little Egg Harbor within a 500 yard radius of the fireworks barge in approximate position latitude 39°34′18″ N., longitude 074°14′43″ W., approximately 100 yards north of Parkers Island.
14.	September—3rd Saturday	Delaware River, Chester, PA; Safety Zone	All waters of the Delaware River near Chester, PA just south of the Commodore Barry Bridge within a 250 yard radius of the fireworks barge located in approximate position latitude 39°49′43.2″ N., longitude 075°22′42″ W.
15.	September—3rd Saturday	Delaware River, Essington, PA; Safety Zone	All waters of the Delaware River near Essington, PA, west of Little Tinicum Island within a 250 yard radius of the fireworks barge located in the approximate position latitude 39°51′18″ N., longitude 075°18′57″ W.

No.	Date	Location	Regulated area
16.	July 3rd, 4th or 5th; Columbus Day; December 31st, January 1st.	Delaware River, Philadelphia, PA; Safety Zone	All waters of Delaware River, adjacent to Penns Landing, Philadelphia, PA, bounded from shoreline to shoreline, bounded on the south by a line running east to west from points along the shoreline at latitude 39°56′31.2″ N., longitude 075°08′28.1″ W.; thence to latitude 39°56′29.1″ N., longitude 075°07′56.5″ W., and bounded on the north by the Benjamin Franklin Bridge.
		(b.) Coast Guard Sector Baltimore—COTP Zone	
1.	April—1st or 2nd Saturday.	Washington Channel, Upper Potomac River, Washington, D.C.; Safety Zone.	All waters of the Upper Potomac River within a 500 yard radius of the fireworks barge in approximate position latitude 38°52′20″ N., longitude 077°01′17″ W., located within the Washington Channel in Washington Harbor, DC.
2.	July 4th December—1st and 2nd Saturday; December 31st.	Severn River and Spa Creek, Annapolis, MD; Safety Zone.	All waters of the Severn River and Spa Creek within an area bounded by a line drawn from latitude 38°58′43.75″ N., longitude 076°28′01.42″ W.; thence to latitude 38°58′21.14″ N., longitude 076°28′22.12″ W.; thence to latitude 38°58′39.47″ N., longitude 076°28′48.72″ W.; thence to latitude 38°58′53″ N., longitude 076°28′33.74″ W., thence to latitude 38°58′57.22″ N., longitude 076°28′39.83″ W., thence to latitude 38°59′02.15″ N., longitude 076°28′34.61″ W., thence to point of origin; located near the entrance to Spa Creek and Severn River, Annapolis, MD.
3.	July—4th, or Saturday before or after Independence Day holiday.	Middle River, Baltimore County, MD; Safety Zone ...	All waters of the Middle River within a 300 yard radius of the fireworks barge in approximate position latitude 39°17′45″ N., longitude 076°23′49″ W., approximately 300 yards east of Rockaway Beach, near Turkey Point.
4.	July—1st, 2nd or 3rd Saturday.	Upper Potomac River, Washington, D.C.; Safety Zone.	All waters of the Upper Potomac River within a 300 yard radius of the fireworks barge in approximate position 38°48′14″ N., 077°02′00″ W., located near the waterfront (King Street) at Alexandria, Virginia.
5.	June 14th; July 4th; September—2nd Saturday; December 31st.	Northwest Harbor (East Channel), Patapsco River, MD; Safety Zone.	All waters of the Patapsco River within a 300 yard radius of the fireworks barge in approximate position 39°15′55″ N., 076°34′33″ W., located adjacent to the East Channel of Northwest Harbor.
6.	May—2nd or 3rd Thursday or Friday; July 4th; December 31st.	Baltimore Inner Harbor, Patapsco River, MD; Safety Zone.	All waters of the Patapsco River within a 100 yard radius of the fireworks barge in approximate position latitude 39°17′01″ N., longitude 076°36′31″ W., located at the entrance to Baltimore Inner Harbor, approximately 125 yards southwest of pier 3.
7.	May—2nd or 3rd Thursday or Friday; July 4th December 31st..	Baltimore Inner Harbor, Patapsco River, MD; Safety Zone.	The waters of the Patapsco River within a 100 yard radius of approximate position latitude 39°17′04″ N., longitude 076°36′36″ W., located in Baltimore Inner Harbor, approximately 125 yards southeast of pier 1.
8.	July 4th; December 31st.	Northwest Harbor (West Channel) Patapsco River, MD; Safety Zone.	All waters of the Patapsco River within a 300 yard radius of the fireworks barge in approximate position latitude 39°16′21″ N., longitude 076°34′38″ W., located adjacent to the West Channel of Northwest Harbor.
9.	July—4th, or Saturday before or after Independence Day holiday.	Patuxent River, Calvert County, MD; Safety Zone ...	All waters of the Patuxent River within a 200 yard radius of the fireworks barge located at latitude 38°19′17″ N., longitude 076°27′45″ W., approximately 800 feet from shore at Solomons Island, MD.
10.	July 3rd	Chesapeake Bay, Chesapeake Beach, MD; Safety Zone.	All waters of the Chesapeake Bay within a 150 yard radius of the fireworks barge in approximate position latitude 38°41′36″ N., longitude 076°31′30″ W., and within a 150 yard radius of the fireworks barge in approximate position latitude 38°41′28″ N., longitude 076°31′29″ W., located near Chesapeake Beach, Maryland.

TABLE TO § 165.506—Continued

[All coordinates listed in the Table to § 165.506 reference Datum NAD 1983]

No.	Date	Location	Regulated area
11.	July 4th	Choptank River, Cambridge, MD; Safety Zone	All waters of the Choptank River within a 300 yard radius of the fireworks launch site at Great Marsh Point, located at latitude 38°35′06″ N., longitude 076°04′46″ W.
12.	July—2nd or 3rd Saturday and last Saturday.	Potomac River, Fairview Beach, Charles County, MD; Safety Zone.	All waters of the Potomac River within a 300 yard radius of the fireworks barge in approximate position latitude 38°19′57″ N., longitude 077°14′40″ W., located north of the shoreline at Fairview Beach, Virginia.
13.	May—last Saturday; July 4th.	Potomac River, Charles County, MD; Mount Vernon, Safety Zone.	All waters of the Potomac River within an area bound by a line drawn from the following points: latitude 38°42′30″ N., longitude 077°04′47″ W.; thence to latitude 38°42′18″ N., longitude 077°04′42″ W.; thence to latitude 38°42′11″ N., longitude 077°05′10″ W.; thence to latitude 38°42′22″ N., longitude 077°05′12″ W.; thence to point of origin located along the Potomac River shoreline at George Washington's Mount Vernon Estate, Fairfax County, VA.
14.	October—1st Saturday	Dukeharts Channel, Potomac River, MD; Safety Zone.	All waters of the Potomac River within a 300 yard radius of the fireworks barge in approximate position latitude 38°13′27″ N., longitude 076°44′48″ W., located adjacent to Dukeharts Channel near Coltons Point, Maryland.
15.	July—day before Independence Day holiday and July 4th; November—3rd Thursday, 3rd Saturday and last Friday; December—1st, 2nd and 3rd Friday.	Potomac River, National Harbor, MD; Safety Zone ..	All waters of the Potomac River within an area bound by a line drawn from the following points: latitude 38°47′13″ N., longitude 077°00′58″ W.; thence to latitude 38°46′51″ N., longitude 077°01′15″ W.; thence to latitude 38°47′25″ N., longitude 077°01′33″ W.; thence to latitude 38°47′32″ N., longitude 077°01′08″ W.; thence to the point of origin, located at National Harbor, Maryland.
16.	Sunday before July 4th, July 4th..	Susquehanna River, Havre de Grace, MD; Safety Zone.	All waters of the Susquehanna River within a 300 yard radius of approximate position latitude 39°32′06″ N., longitude 076°05′22″ W., located on the island at Millard Tydings Memorial Park.
17.	June and July—Saturday before Independence Day holiday.	Miles River, St. Michaels, MD; Safety Zone	All waters of the Miles River within a 200 yard radius of approximate position latitude 38°47′42″ N., longitude 076°12′51″ W., located at the entrance to Long Haul Creek.
18.	July 3rd	Tred Avon River, Oxford, MD; Safety Zone	All waters of the Tred Avon River within a 150 yard radius of the fireworks barge in approximate position latitude 38°41′24″ N., longitude 076°10′37″ W., approximately 500 yards northwest of the waterfront at Oxford, MD.
19.	July 3rd	Northeast River, North East, MD; Safety Zone	All waters of the Northeast River within a 300 yard radius of the fireworks barge in approximate position latitude 39°35′26″ N., longitude 075°57′00″ W., approximately 400 yards south of North East Community Park.
20.	December 31st.	Upper Potomac River, Washington, D.C.; Safety Zone.	All waters of the Upper Potomac River within a 300 yard radius of the fireworks barge in approximate position 38°48′38″ N., 077°01′56″ W., located east of Oronoco Bay Park at Alexandria, Virginia.
21.	March through October, at the conclusion of evening MLB games at Washington Nationals Ball Park.	Anacostia River, Washington, D.C.; Safety Zone	All waters of the Anacostia River within a 150 yard radius of the fireworks barge in approximate position latitude 38°52′13″ N., longitude 077°00′16″ W., located near the Washington Nationals Ball Park.
22.	June—last Saturday or July—1st Saturday; July—3rd, 4th or last Saturday or Sunday.	Potomac River, Prince William County, VA; Safety Zone.	All waters of the Potomac River within a 200 yard radius of the fireworks barge in approximate position latitude 38°34′08″ N., longitude 077°15′38″ W., located near Cherry Hill, Virginia.

[All coordinates listed in the Table to § 165.506 reference Datum NAD 1983]

No.	Date	Location	Regulated area
8.	July 4th	Neuse River, New Bern, NC; Safety Zone	All waters of the Neuse River within a 360 yard radius of the fireworks barge in approximate position latitude 35°06′07.1″ N., longitude 077°01′35.8″ W.; located 420 yards north of the New Bern, Twin Span, high-rise bridge.
9.	July 4th	Edenton Bay, Edenton, NC; Safety Zone	All waters within a 300 yard radius of position latitude 36°03′04″ N., longitude 076°36′18″ W., approximately 150 yards south of the entrance to Queen Anne Creek, Edenton, NC.
10.	July 4th November—Saturday following Thanksgiving Day.	Motts Channel, Banks Channel, Wrightsville Beach, NC; Safety Zone.	All waters of Motts Channel within a 500 yard radius of the fireworks launch site in approximate position latitude 34°12′29″ N., longitude 077°48′27″ W., approximately 560 yards south of Sea Path Marina, Wrightsville Beach, NC.
11.	July 4th	Cape Fear River, Southport, NC; Safety Zone	All waters of the Cape Fear River within a 600 yard radius of the fireworks barge in approximate position latitude 33°54′40″ N., longitude 078°01′18″ W., approximately 700 yards south of the waterfront at Southport, NC.
12.	July 4th	Big Foot Slough, Ocracoke, NC; Safety Zone	All waters of Big Foot Slough within a 300 yard radius of the fireworks launch site in approximate position latitude 35°06′54″ N., longitude 075°59′24″ W., approximately 100 yards west of the Silver Lake Entrance Channel at Ocracoke, NC.
13.	August—1st Tuesday	New River, Jacksonville, NC; Safety Zone	All waters of the New River within a 300 yard radius of the fireworks launch site in approximate position latitude 34°44′45″ N., longitude 077°26′18″ W., approximately one half mile south of the Hwy 17 Bridge, Jacksonville, North Carolina.
14.	July 4th	Pantego Creek, Belhaven, NC; Safety Zone	All waters on the Pantego Creek within a 600 foot radius of the launch site on land at position 35°32′35″ N., 076°37′46″ W.
15.	July 4th	Atlantic Intracoastal Waterway, Swansboro, NC; Safety Zone.	All waters of the Atlantic Intracoastal Waterway within a 300 yard radius of approximate position latitude 34°41′02″ N., longitude 077°07′04″ W., located on Pelican Island.
16.	September—4th or last Saturday.	Shallowbag Bay, Manteo, NC; Safety Zone	All waters of Shallowbag Bay within a 200 yard radius of a fireworks barge anchored at latitude 35°54′31″ N., longitude 075°39′42″ W.
17.	May—3rd Saturday	Pasquotank River; Elizabeth City, NC; Safety Zone	All waters of the Pasquotank River within a 300 yard radius of the fireworks barge at latitude 36°17′47″ N., longitude 076°12′17″ W., located north of Cottage Point at the shoreline of the Pasquotank River.
18.	October—2nd Saturday ...	Atlantic Intracoastal Waterway; Bogue Inlet, Swansboro, NC; Safety Zone.	All waters of the Atlantic Intracoastal Waterway within a 300 yard radius of the fireworks launch site at latitude 34°41′02″ N., longitude 077°07′04″ W., located at Bogue Inlet, near Swansboro, NC.

Dated: April 3, 2015.

Stephen P. Metruck,

Rear Admiral, U.S. Coast Guard, Commander, Fifth Coast Guard District.

BILLING CODE 9110–04–P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 117

[Docket No. USCG–2014–0213]

RIN 1625–AA09

Drawbridge Operation Regulation; Coquille River, Bandon, OR

AGENCY: Coast Guard, DHS.

ACTION: Final rule.

SUMMARY: The Coast Guard is changing the operating schedule that governs the U.S. 101 highway drawbridge also known as Bullard's Drawbridge, near Bandon, Oregon. The change will allow the drawbridge to permanently remain in the closed-to-navigation position, no longer opening for vessel traffic. While there is vessel traffic on this waterway, no one has requested a drawbridge opening since 1998. Oregon Department of Transportation (ODOT) owns the bridge and requested to update the operating schedule accordingly.

DATES: This rule is effective May 18, 2015.

ADDRESSES: Documents mentioned in this preamble are part of docket USCG–2014–0213. To view documents mentioned in this preamble as being available in the docket, go to *http://www.regulations.gov,* type the docket number in the ''SEARCH'' box and click ''SEARCH.'' Click on Open Docket Folder on the line associated with this rulemaking. You may also visit the Docket Management Facility in Room W12–140 on the ground floor of the Department of Transportation West Building, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or email Steven M. Fischer, Bridge Administrator, Thirteenth Coast Guard District Bridge Program Office, telephone 206–220–7282; email *d13-pf-d13bridges@uscg.mil.* If you have questions on viewing or submitting material to the docket, call Cheryl Collins, Program Manager, Docket Operations, telephone 202–366–9826.

SUPPLEMENTARY INFORMATION:

Table of Acronyms

CFR Code of Federal Regulations
DHS Department of Homeland Security
FR Federal Register
§ Section Symbol
U.S.C. United States Code

A. Regulatory History and Information

On December 22, 2014, the Coast Guard published a Notice of Proposed Rulemaking (NPRM) entitled ''Drawbridge Operation Regulation; Coquille River, Coos Bay, OR'' in the **Federal Register** (79 FR 76249). We received four comments on the proposed rule but these comments did not address the substance of this rulemaking. No public meeting was requested, and none was held.

B. Basis and Purpose

ODOT owns and operates the US 101 Highway Bridge also known as Bullard's Drawbridge on the Coquille River in Bandon, Oregon. ODOT requested that the drawbridge regulation be amended to allow the bridge to remain in the permanently closed-to-navigation position. ODOT provided the Coast Guard with bridge logs which indicated no request for bridge openings have been received since 1998.

The Coast Guard believes this rule change is reasonable, and will continue to meet the present and future needs of navigation. Based on the records provided by ODOT to the Coast Guard, it is expected that the new rule will have no known impact to navigation or other waterway users.

US 101 Highway Bridge, in the closed-to-navigation position, provides 28.1 feet of vertical clearance at mean high water and 35 feet at low water.

C. Discussion of Proposed Rule

The operating regulations at 33 CFR 117.875 will change the operation of the US 101 Highway Bridge, also known as Bullard's Drawbridge, on the Coquille River in Bandon, Oregon such that it will not be required to open for marine traffic at any time. The change was requested by ODOT, the owner of the bridge, because there have not been any request to open for marine traffic since 1998.

D. Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on these statutes or executive orders.

1. Regulatory Planning and Review

This rule is not a ''significant regulatory action'' under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, Improving Regulation and Regulatory Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of Order 12866 or under section 1 of Executive Order 13563. The Office of Management and Budget has not reviewed it under those Orders. The Coast Guard bases this finding on the fact that the bridge has remained in the closed position for the last 16 years without any impacts to waterway users.

2. Impact on Small Entities

The Regulatory Flexibility Act of 1980 (RFA), 5 U.S.C. 601–612, as amended, requires federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term ''small entities'' comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard received no comments from the Small Business Administration on this rule. The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities. The Coast Guard received no comments on the NPRM for this rule and there is no indication that any small entities will be affected by this rule since the bridge has remained in the closed position for the last 16 years without any impacts to waterway users.

3. Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Public Law 104–121), we want to assist small entities in understanding this rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT**, above.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

4. Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

5. Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

6. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the ''For Further Information Contact'' section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

7. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of

their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of $100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such expenditure, we do discuss the effects of this rule elsewhere in this preamble.

8. Taking of Private Property

This rule would not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

9. Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

10. Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

11. Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

12. Energy Effects

This rule is not a ''significant energy action'' under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use.

13. Technical Standards

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

14. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.lD, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have concluded that this action is one of a category of actions which do not individually or cumulatively have a significant effect on the human environment. This rule simply promulgates the operating regulations or procedures for drawbridges. This rule is categorically excluded, under figure 2–1, paragraph (32)(e), of the Instruction.

Under figure 2–1, paragraph (32)(e), of the Instruction, an environmental analysis checklist and a categorical exclusion determination are not required for this rule.

List of Subjects in 33 CFR Part 117

Bridges.

For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 117 as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

■ 1. The authority citation for part 117 continues to read as follows:

Authority: 33 U.S.C. 499; 33 CFR 1.05–1; Department of Homeland Security Delegation No. 0170.1.

■ 2. Revise § 117.875 to read as follows:

§ 117.875 Coquille River.

The draws of the US 101 highway bridge, mile 3.5 at Bandon, Oregon, need not be opened for the passage of vessels; however, the draws shall be restored to operable condition within 6 months after notification by the District Commander to do so.

Dated: April 2, 2015.

R.T. Gromlich,

Rear Admiral, U.S. Coast Guard, Commander, Thirteenth Coast Guard District.

[FR Doc. 2015–08757 Filed 4–15–15; 8:45 am]

BILLING CODE 9110–04–P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 165

[Docket No. USCG–2015–0236]

RIN 1625–AA00

Safety Zone; Sabine River, Orange, TX

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary safety zone on the navigable waters of the Sabine River in Orange, TX in support of Deep South Racing Association boat races. This temporary safety zone is necessary to protect the surrounding public and vessels from the hazards associated with a boat race competition. Persons and vessels are prohibited from entering into, transiting through, or anchoring within this safety zone unless authorized by the Captain of the Port or his designated representative.

DATES: This rule is effective on May 30 and 31, 2015. This rule will be enforced from 8:30 a.m. until 6:00 p.m. on May 30 and May 31, 2015.

ADDRESSES: Documents mentioned in this preamble are part of docket [USCG–2015–0236]. To view documents mentioned in this preamble as being available in the docket, go to *http://www.regulations.gov,* type the docket number in the ''SEARCH'' box and click ''SEARCH.'' Click on Open Docket Folder on the line associated with this rulemaking. You may also visit the Docket Management Facility in Room W12–140 on the ground floor of the Department of Transportation West Building, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or email Mr. Scott Whalen, U.S. Coast Guard MSU Port Arthur, (409) 719–5086 or email, *scott.k.whalen@uscg.mil.* If you have questions on viewing or submitting material to the docket, call Cheryl Collins, Program Manager, Docket Operations, telephone (202) 366–9826.

SUPPLEMENTARY INFORMATION:

Table of Acronyms

BNM Broadcast Notices to Mariners
DSRA Deep South Racing Association
DHS Department of Homeland Security
FR Federal Register
LNM Local Notice to Mariners
NPRM Notice of Proposed Rulemaking

A. Regulatory History and Information

The Coast Guard is issuing this temporary final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are ''impracticable, unnecessary, or contrary to public interest.'' Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule. The Coast Guard received notice on March 16, 2015 that this event is planned to take

place May 30 and 31, 2015. Upon full review of the event details, the Coast Guard determined that additional safety measures are necessary. Completing the full NPRM process would be impracticable, delaying the effective date for this safety zone. Immediate action is necessary to protect event participants and members of the public from hazards associated with high speed boat races on the waterway. This event is advertised and the local community has planned for this event. Delaying the safety zone may also unnecessarily interfere with the planned event and possible contractual obligations.

The Coast Guard will notify the public and maritime community that the safety zone will be in effect and of its enforcement periods via broadcast notices to mariners (BNM) and will be published in the Local Notice to Mariners (LNM).

B. Basis and Purpose

The Deep South Racing Association (DSRA) is holding a two day watercraft race competition on the Sabine River in Orange, TX on May 30 and 31, 2015. This event poses a hazard to life and property as it involves high speed watercraft racing in a narrow waterway used by other commercial and recreational vessel traffic. Additionally, the race event is likely to attract spectator craft to the area. The Coast Guard determined that a temporary safety zone is needed to protect spectators as well as persons participating in the event. The legal basis and authorities for this rulemaking establishing a safety zone are found in 33 U.S.C. 1231; 50 U.S.C. 191; 33 CFR 1.05–1; 6.04–1, 6.04–6, and 160.5; Department of Homeland Security Delegation No. 0170.1, which collectively authorize the Coast Guard to establish and define regulatory safety zones.

C. Discussion of the Temporary Final Rule

The Coast Guard is establishing a temporary safety zone encompassing all waters of the Sabine River, shoreline to shoreline, adjacent to the Naval Reserve Unit and the Orange public boat ramps located in Orange, TX. The northern boundary is from the end of Navy Pier One at 30°05′50″ N. 93°43′15″ W. then easterly to the rivers eastern shore. The southern boundary is a line shoreline to shoreline at latitude 30°05′33″ N. (NAD83).

This safety zone is needed to protect mariners and event participants from hazards associated with high speed boat races. No person or vessel may enter into or remain in the zone without permission of the Captain of the Port.

D. Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on these statutes and executive orders.

1. Regulatory Planning and Review

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, Improving Regulation and Regulatory Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of Executive Order 12866 or under section 1 of Executive Order 13563. The Office of Management and Budget has not reviewed it under those Orders.

The Coast Guard has determined that this rule is not a significant regulatory action for the following reasons: (1) The rule will be enforced for 9.5 hours each day for two days; (2) scheduled breaks will be provided to allow waiting vessels to transit safely through the affected area; (3) persons and vessels may enter, transit through, anchor in, or remain within the regulated area if they obtain permission from the Captain of the Port or the designated representative; and (4) advance notification will be made to the maritime community via BNM and LNM. Therefore, the Coast Guard enforcement of this safety zone is not a significant regulatory action.

2. Impact on Small Entities

The Regulatory Flexibility Act of 1980 (RFA), 5 U.S.C. 601–612, as amended, requires federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term ‘‘small entities’’ comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. This rule may affect the following entities, some of which might be small entities: the owners or operators of vessels intending to transit through or remain in the safety zone area. The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities for the following reasons: (1) This rule will only be enforced from 8:30 a.m. until 6 p.m. each day that it is effective; (2) during non-enforcement hours all vessels will be allowed to transit through the safety zone without having to obtain permission from the Captain of the Port, Port Arthur or a designated representative; and (3) vessels will be allowed to pass through the zone with permission of the Coast Guard Patrol Commander during scheduled break periods between races and at other times when permitted by the Coast Guard Patrol Commander.

3. Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT**, above.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

4. Collection of Information

This rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

5. Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that Order and determined that this rule does not have implications for federalism.

6. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to

coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

7. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of $100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

8. Taking of Private Property

This rule will not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

9. Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

10. Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

11. Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

12. Energy Effects

This action is not a ''significant energy action'' under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use.

13. Technical Standards

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

14. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.lD, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves a safety zone established for the protection of spectators from the hazards associated with a personal watercraft race competition. This rule is categorically excluded from further review under paragraph 34(g) of Figure 2–1 of the Commandant Instruction. A checklist and categorical exclusion determination will be provided in the docket accessible as indicated under **ADDRESSES**.

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

■ 1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1231; 50 U.S.C. 191; 33 CFR 1.05–1; 6.04–1, 6.04–6, and 160.5; Department of Homeland Security Delegation No. 0170.1.

■ 2. A new temporary section, § 165.T08–0236, is added to read as follows:

§ 165.T08–0236 Safety Zone; Sabine River, Orange, TX.

(a) *Location.* The following area is a safety zone: All waters of the Sabine River, shoreline to shoreline, adjacent to the Orange public boat ramps located in Orange, TX. The northern boundary is from the end of old Navy Pier One at 30°05′50″ N. 93°43′15″ W. then easterly to the rivers eastern shore. The southern boundary is a line shoreline to shoreline at latitude 30°05′33″ N. (NAD83).

(b) *Effective dates and enforcement times.* This rule is effective on May 30 and 31, 2015. This rule will be enforced from 8:30 a.m. until 6:00 p.m. on May 30 and 31, 2015.

(c) *Regulations.* (1) In accordance with the general regulations in § 165.23 of this part, no person or vessel may enter into or remain in the zone without permission of the Captain of the Port.

(2) Persons or vessels requiring entry into or passage through the zone may contact the Captain of the Port, Port Arthur, or a designated representative. They may be contacted on VHF–FM Channels 16, or by phone at (409) 719–5070.

(3) All persons and vessels shall comply with the instructions of the Captain of the Port, Port Arthur and designated on-scene U.S. Coast Guard patrol personnel. On-scene U.S. Coast Guard patrol personnel include commissioned, warrant, and petty officers of the U.S. Coast Guard.

(d) *Information Broadcasts.* The Captain of the Port, Port Arthur or a designated representative will inform the public through broadcast notices to mariners of the enforcement period for the safety zone as well as any changes in the planned schedule.

Dated: March 31, 2015.

R.S. Ogrydziak,

Captain, U.S. Coast Guard, Captain of the Port, Port Arthur.

BILLING CODE 9110–04–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 52

[EPA–R04–OAR–2014–0220; FRL–9926–34–Region 4]

Air Quality Implementation Plan; Florida; Attainment Plan for the Hillsborough Area for the 2008 Lead National Ambient Air Quality Standards

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking final action to approve revisions to the state implementation plan (SIP), submitted by the State of Florida through the Florida Department of Environmental Protection (FL DEP), on June 29, 2012, as amended on June 27, 2013, for the purpose of providing for attainment of the 2008 Lead (Pb) National Ambient Air Quality Standards (NAAQS) in the Hillsborough 2008 Lead nonattainment area (hereafter referred to as the ''Hillsborough Area'' or ''Area''). The Hillsborough Area is comprised of a portion of Hillsborough County in Florida surrounding EnviroFocus Technologies, LLC (hereafter referred to as ''EnviroFocus''). The attainment plan

includes the base year emissions inventory, an analysis of reasonably available control technology (RACT) and reasonably available control measures (RACM), reasonable further progress (RFP) plan, modeling demonstration of lead attainment, and contingency measures for the Hillsborough Area. This action is being taken in accordance with the Clean Air Act (CAA or Act).

DATES: This rule will be effective May 18, 2015.

ADDRESSES: EPA has established a docket for this action under Docket Identification No. EPA–R04–OAR–2014–0220. All documents in the docket are listed on the *www.regulations.gov* Web site. Although listed in the index, some information is not publicly available, *i.e.*, Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through *www.regulations.gov* or in hard copy at the Air Regulatory Management Section (formerly the Regulatory Development Section), Air Planning and Implementation Branch, Air (formerly the Air Planning Branch), Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW., Atlanta, Georgia 30303–8960. EPA requests that if at all possible, you contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to schedule your inspection. Zuri Farngalo may be reached by phone at (404) 562–9152 or via electronic mail at *farngalo.zuri@epa.gov.*

SUPPLEMENTARY INFORMATION:

I. What is the background for this action?

On November 12, 2008 (73 FR 66964), EPA revised the Lead NAAQS, lowering the level from 1.5 micrograms per cubic meter (μg/m³) to 0.15 μg/m³ calculated over a three-month rolling average. EPA established the NAAQS based on significant evidence and numerous health studies demonstrating that serious health effects are associated with exposures to lead emissions.

Following promulgation of a new or revised NAAQS, EPA is required by the CAA to designate areas throughout the United States as attaining or not attaining the NAAQS; this designation process is described in section 107(d)(1) of the CAA. On November 22, 2010 (75 FR 71033), EPA promulgated initial air quality designations for the 2008 Lead NAAQS, which became effective on December 31, 2010, based on air quality monitoring data for calendar years 2007–2009, where there was sufficient data to support a nonattainment designation. Designations for all remaining areas were completed on November 22, 2011 (76 FR 72097), which became effective on December 31, 2011, based on air quality monitoring data for calendar years 2008–2010. Effective December 31, 2010, the Hillsborough Area was designated as nonattainment for the 2008 Lead NAAQS. This designation triggered a requirement for Florida to submit a SIP revision with a plan for how the Area would attain the 2008 Lead NAAQS, as expeditiously as practicable, but no later than December 31, 2015.

FL DEP submitted its 2008 Lead NAAQS attainment SIP for the Hillsborough Area on June 29, 2012, as amended on June 27, 2013, which included the base year emissions inventory and the attainment demonstration. EPA proposed to approve the Hillsborough Area attainment SIP for the 2008 Lead NAAQS on February 5, 2015. EPA's analysis of the submitted attainment demonstration included a review of the pollutant addressed, emissions inventory requirements, modeling, RACT and RACM requirements, RFP plan, and contingency measures for the Hillsborough Area. Refer to EPA's February 5, 2015, proposed rulemaking for a detailed rationale on EPA's analysis of the Hillsborough area attainment demonstration. *See* 80 FR 6485.

II. What is the action EPA is taking?

EPA is taking final action to approve Florida's SIP submittal for the Hillsborough Area, as submitted through FL DEP to EPA on June 29, 2012, as amended on June 27, 2013, for the purpose of demonstrating attainment of the 2008 Lead NAAQS. Florida's lead attainment plan for the Hillsborough Area includes a base year emissions inventory, a modeling demonstration of lead attainment, an analysis of RACM/RACT, a RFP plan, and contingency measures.

EPA has determined that Florida's attainment plan for the 2008 Lead NAAQS for the Hillsborough Area meets the applicable requirements of the CAA. Thus, EPA is taking final action to approve Florida's attainment plan for the Hillsborough Area. EPA's analysis for this final action is discussed in Section IV of EPA's February 5, 2015, proposed rulemaking. *See* 80 FR 6485.

III. Why is EPA taking this action?

EPA has determined that all the criteria for Florida's lead attainment plan for the Hillsborough Area have been met. EPA has determined that Florida's June 29, 2012, SIP submission, as amended on June 27, 2013, meets the applicable requirements of the CAA. Specifically, EPA is taking final action to approve Florida's June 29, 2012, SIP submission (as amended on June 27, 2013), which includes the attainment demonstration, base year emissions inventory, RACM/RACT analysis, contingency measures and RFP plan.

IV. EPA's Response to Comments

EPA received one comment on March 9, 2015, from the Center for Biological Diversity and Center for Environmental Health (hereafter referred to as the ''Commenter''), in response to EPA's proposed rule to approve the attainment demonstration for the Hillsborough Area for the 2008 Lead NAAQS. A summary of the comment and EPA's response is provided below.

Comment: The Commenter mentions that FDEP fails to account for the significant lead air pollution being generated by leaded aviation fuel (''avgas'') from regional airports. Specifically, the Commenter states that that the ''SIP must address the significant contributions of lead air pollution from Hillsborough County's regional aviation airports and include Reasonably Available Control Technology and Reasonably Available Control Measures (''RACT/RACM'') to reduce those lead air pollution threats.''

Response: EPA does not believe that it is necessary for the attainment demonstration for the Hillsborough Area for the 2008 lead NAAQS to regulate the lead emissions resulting from avgas emitted by aircrafts using regional airports that are located near to the nonattainment area. First, although this is not determinative, there are no airports within the 2008 Lead nonattainment boundary for the Hillsborough Area to which RACT/RACM could be applied. Second, and more importantly, available information does not indicate that lead emissions

from nearby airports or from general aviation aircrafts that use them are impacting receptors in the Hillsborough Area. The nonattainment area is about a 1.14 mile radius circle encompassing the EnviroFocus facility, the source that available information indicates is the sole cause of the lead NAAQS violations in this nonattainment area. Prior to making the determination concerning the appropriate boundary for the nonattainment area, EPA reviewed the technical supporting data [1] and considered all the potential sources of lead in Hillsborough County. EPA determined, based on this information that lead emissions from aircraft combusting avgas and using the regional airports did not cause or contribute to the monitored violations of the 2008 Lead NAAQS. Therefore, the designation of the Hillsborough County area excluded those airports. The closest airport where leaded avgas is used, Tampa Executive Airport is located approximately 4 miles outside the designated nonattainment boundary. Monitoring data from other locations confirm that there is a sharp decrease in lead concentrations as the distance from a lead source increases. The available technical data for the Hillsborough Area continues to support the EPA's prior conclusion that the airport sources of lead are located too distant from the area to contribute significantly to receptors in the designated nonattainment area. Consequently, EPA believes that the control measures described in the proposed rule for the EnviroFocus facility should be adequate to bring this area into attainment with the 2008 Lead NAAQS.

V. Final Action

EPA is taking final action to approve Florida's lead attainment plan for the Hillsborough Area. EPA has determined that the SIP meets the applicable requirements of the CAA. Specifically, EPA is taking final action to approve Florida's June 29, 2012, SIP submission (as amended on June 27, 2013), which includes the attainment demonstration, base year emissions inventory, RACM/RACT analysis, contingency measures and RFP plan.

VI. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 *et seq.,* as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a ''major rule'' as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by June 15, 2015. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. *See* section 307(b)(2).

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Lead, Reporting and recordkeeping requirements.

Authority: 42 U.S.C. 7401 *et seq.*

Dated: April 3, 2015.

V. Anne Heard,

Acting Regional Administrator, Region 4.

Therefore, 40 CFR part 52 is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart K—Florida

■ 2. In § 52.520, the table in paragraph (e) is amended by adding entries for ''2008 Lead Attainment Demonstration for the Hillsborough Area'' and ''2008 Lead Attainment Demonstration for Hillsborough Area Amendment'' at the end of the table to read as follows:

[1] The analysis of the technical data supporting the boundary can be found in the 2008 Lead Designation Technical Support Document (TSD) for Florida. *See* EPA–HQ–OAR–2009–0443–0316. This document can also be found in EPA–R04–OAR–2014–0220.

§ 52.520 Identification of plan.

RIN 2070–AK04

Lead-Based Paint Programs; Extension of Renovator Certifications

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Agency is extending the certifications of certain renovators under the Lead Renovation, Repair, and Painting (RRP) rule. In January 2015, the Agency published a proposed rule that would, among other things, change the requirements for the refresher training course that renovators must take to become recertified. EPA is extending certifications of thousands of renovators that will otherwise expire before that rule can be finalized. EPA is taking this action so that, if and when the changes in the proposed rule are finalized, these renovators can take advantage of the changes.

DATES: This final rule is effective on April 16, 2015.

ADDRESSES: The docket for this action, identified by docket identification (ID) number EPA–HQ–OPPT–2014–0304, is available at *http://www.regulations.gov* or at the Office of Pollution Prevention and Toxics Docket (OPPT Docket), Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW., Washington, DC. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566–1744, and the telephone number for the OPPT Docket is (202) 566–0280. Please review the visitor instructions and additional information about the docket available at *http://www.epa.gov/dockets*.

FOR FURTHER INFORMATION CONTACT: *For technical information contact:* Marc Edmonds, National Program Chemicals Division, Office of Pollution Prevention and Toxics (7404M), Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460–0001; telephone number: (202) 566–0758; email address: *edmonds.marc@epa.gov*.

For general information contact: The TSCA-Hotline, ABVI-Goodwill, 422 South Clinton Ave., Rochester, NY 14620; telephone number: (202) 554–1404; email address: *TSCA-Hotline@epa.gov*.

SUPPLEMENTARY INFORMATION:

I. Does this action apply to me?

You may be potentially affected by this action if you operate a training program required to be accredited under 40 CFR 745.225, or if you are an individual who must be certified to conduct renovation activities in accordance with 40 CFR 745.90. This rule applies only in states, territories, and tribal areas that do not have authorized programs pursuant to 40 CFR 745.324. For further information regarding the authorization status of States, territories, and Tribes, contact the National Lead Information Center at 1–800–424–LEAD (5323).

The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Building construction (NAICS code 236), *e.g.,* single-family housing construction, multi-family housing construction, residential remodelers.
- Specialty trade contractors (NAICS code 238), *e.g.,* plumbing, heating, and air-conditioning contractors, painting and wall covering contractors, electrical contractors, finish carpentry contractors, drywall and insulation contractors, siding contractors, tile and terrazzo contractors, glass and glazing contractors.
- Real estate (NAICS code 531), *e.g.,* lessors of residential buildings and dwellings, residential property managers.
- Child day care services (NAICS code 624410).
- Elementary and secondary schools (NAICS code 611110), *e.g.,* elementary schools with kindergarten classrooms.
- Other technical and trade schools (NAICS code 611519), *e.g.,* training providers.

If you have any questions regarding the applicability of this action to a particular entity, consult the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

II. Background

A. What action is the agency taking?

On January 14, 2015, EPA published a proposed rule (Ref. 1) that would, among other things, amend the RRP rule's refresher training requirements (Ref 2). Specifically, EPA proposed to eliminate the hands-on requirement in the refresher training that renovators must take to maintain their certification as required by the RRP rule. This change would make it easier for renovators to take the refresher training, especially renovators who live far from a training facility. Renovators would save time and travel costs by taking the course from a single location, possibly their own home. If taking the training is made easier, EPA believes that more renovators would take the refresher training and become recertified. Having more renovators take the refresher training would lead to a higher number of certified renovators, resulting in a workforce better able to perform renovations in a lead-safe manner.

If the Agency issues a final rule eliminating the hands-on requirement, it would not happen until near the end of 2015. Unfortunately, many renovator certifications will expire before the final rule can be published. In light of this,

EPA is extending certifications of a portion of certified renovators until after the expected publication of the final rule to ensure that the benefit of such elimination, if promulgated, is not denied to renovators who were among the first to take the initial training course. Under today's action, renovators who received certification on or before March 31, 2010, now have until March 31, 2016, to get recertified. Renovators who received certification between April 1, 2010 and March 31, 2011, will have one year added to their 5-year certification. Subsequent certifications for renovators receiving the extension will be five years. These extensions only apply to renovators that fall under EPA's renovation program and not to renovators under authorized state programs.

EPA is creating two sets of extensions for two reasons. First, the Agency does not want to extend the certifications more than is necessary to accommodate the potential finalization of the proposed amendments. Renovator certifications from March 2010 and before need to be extended beyond one year so they will expire after any potential changes are finalized. Second, EPA is extending an additional group of renovator certifications for one year because the Agency does not want all of the extended certifications to expire on the same day. This will prevent hundreds of thousands of renovators from seeking recertification at the same time, which could overwhelm training providers.

EPA specifically requested comment on such an extension of certifications for certain renovators and the Agency received several comments regarding an extension. Of those comments, the majority were in favor of the extension. In supporting the extension of renovator certifications, one commenter stated that it would alleviate burden on contractors that have difficulty finding a training course within a reasonable distance of them. Another commenter stated that the extension will help ensure that as many certified renovators as possible can take advantage of the burden savings associated with removing the hands-on requirement. Other commenters similarly believe that the certifications should be extended to allow renovators to take advantage of any potential changes that may be finalized. EPA agrees with these commenters and has, accordingly, extended certifications for a portion of renovators.

Several commenters who supported the extension stated that EPA should announce the extension immediately, before renovators start taking the refresher training that includes the hands-on learning. One of the commenters urged the Agency to bifurcate the certification extension from the other parts of the proposed rule in order to expedite the extension. EPA agrees that it is important to extend the certifications as soon as possible. In order to expedite the extension, the Agency has finalized it separately from the other possible changes from the proposed rule allowing it to be finalized sooner than if it were part of the larger rule that could not be finalized until later in the year.

One commenter who opposed the extension believes that it will confuse renovators in authorized states because renovators will assume the EPA extension applies to their state's program. To prevent any potential confusion, EPA would like to clarify that this final rule applies only in states where EPA implements the program and not in authorized states.

Some commenters stated that the 5-year renovator certification is too long and therefore should not be extended. The Agency disagrees about extending the certifications. EPA believes that a one-time extension is justified to allow more renovators to realize the benefits of any potential changes. By extending the certifications, EPA believes that more renovators will seek recertification leading to a higher number of certified renovators resulting in a workforce better able to perform renovations in a lead-safe manner. EPA previously explained in the preamble to the RRP rule why the Agency promulgated 5-year renovator certifications (Ref. 2)

As proposed, EPA finds under the Administrative Procedure Act (APA), 5 U.S.C. 553(d)(3), that good cause exists to dispense with the 30-day delay in the effective date of this final rule, for the reasons explained in the proposed rule and in this Unit. The Agency believes it is in the public interest to relieve the certification deadline for the renovators identified in this Unit, so that they may benefit from any upcoming amendments to the refresher training requirements. EPA also believes that such action would relieve a restriction in accordance with 5 U.S.C. 553(d)(1). EPA therefore issues this final rule making this change effective upon publication in the **Federal Register**.

B. What is the agency's authority for taking this action?

This final rule is being issued under the authority of sections 402(a) and 402(c)(3) of the Toxic Substances Control Act (TSCA), 15 U.S.C. 2682(a) and 2682(c)(3).

III. References

The following is a listing of the documents that are specifically referenced in this document. The docket includes these documents and other information considered by EPA, including documents that are referenced within the documents that are included in the docket, even if the referenced document is not physically located in the docket. For assistance in locating these other documents, please consult the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

1. Lead-based Paint Programs; Amendment to Jurisdiction-Specific Certification and Accreditation Requirements and Renovator Refresher Training Requirements. **Federal Register** (80 FR 1873, January 14, 2015) (FRL–9920–85).
2. Lead; Renovation, Repair, and Painting Program; Final Rule. **Federal Register** (73 FR 21692, April 22, 2008) (FRL–8355–7).

IV. Statutory and Executive Order Reviews

A. Executive Order 12866: Regulatory Planning and Review and Executive Order 13563: Improving Regulation and Regulatory Review

This action is not a ''significant regulatory action'' under the terms of Executive Order 12866 (58 FR 51735, October 4, 1993) and was therefore not submitted to the Office of Management and Budget (OMB) for review under Executive Orders 12866 and 13563, entitled ''Improving Regulation and Regulatory Review'' (76 FR 3821, January 21, 2011).

B. Paperwork Reduction Act (PRA)

This action does not impose any new information collection burden under the PRA, 44 U.S.C. 3501 *et seq.,* because it does not create any new reporting or recordkeeping obligations. OMB has previously approved the information collection activities contained in the existing regulations and has assigned OMB control number 2070–0155.

C. Regulatory Flexibility Act (RFA)

I certify that this action will not have a significant economic impact on a substantial number of small entities under the RFA, 5 U.S.C. 601 *et seq.* In making this determination, the impact of concern is any significant adverse economic impact on small entities. An agency may certify that a rule will not have a significant economic impact on a substantial number of small entities if the rule relieves regulatory burden, has no net burden or otherwise has a positive economic effect on the small entities subject to the rule. This rule

extends the certifications for subset of renovators. Those are the only small entities directly subject to this action, and the action has a positive economic effect on them. We have therefore concluded that this action will relieve regulatory burden for all directly regulated small entities.

D. Unfunded Mandates Reform Act (UMRA)

This action does not contain any unfunded mandate as described in UMRA, 2 U.S.C. 1531–1538, and does not significantly or uniquely affect small governments. The action imposes no enforceable duty on any state, local or tribal governments or the private sector.

E. Executive Order 13132: Federalism

This action does not have federalism implications. It will not have substantial direct effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999).

F. Executive Order 13175: Consultation and Coordination With Indian Tribal Governments

This action does not have tribal implications as specified in Executive Order 13175. This final rule will not impose substantial direct compliance costs on Indian tribal governments. Thus, Executive Order 13175 (65 FR 67249, November 9, 2000) does not apply to this action.

G. Executive Order 13045: Protection of Children From Environmental Health Risks and Safety Risks

The EPA interprets Executive Order 13045 (62 FR 19885, April 23, 1997) as applying to those regulatory actions that concern environmental health or safety risks that the EPA has reason to believe may disproportionately affect children, per the definition of ''covered regulatory action'' in section 2–202 of the Executive Order. This action is not subject to Executive Order 13045 because it does not concern an environmental health risk or safety risk.

H. Executive Order 13211: Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution or Use

This action is not subject to Executive Order 13211 (66 FR 28355, May 22, 2001), because it is not a significant regulatory action under Executive Order 12866.

I. National Technology Transfer and Advancement Act (NTTAA)

Because this rulemaking does not involve technical standards, Section 12(d) of NTTAA, 15 U.S.C. 272 note, does not apply to this action.

J. Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations

The EPA believes the human health or environmental risk addressed by this action will not have potential disproportionately high and adverse human health or environmental effects on minority, low-income or indigenous populations as delineated by Executive Order 12898 (59 FR 7629, February 16, 1994).

V. Congressional Review Act (CRA)

This action is subject to the CRA, and the EPA will submit a rule report to each House of the Congress and to the Comptroller General of the United States. This action is not a ''major rule'' as defined by 5 U.S.C. 804(2).

List of Subjects in 40 CFR Part 745

Environmental protection, Lead, Lead-based paint, Renovation.

Dated: April 8, 2015.

Gina McCarthy,

Administrator.

Therefore, 40 CFR chapter I is amended as follows:

PART 745—[AMENDED]

■ 1. The authority citation for part 745 continues to read as follows:

Authority: 15 U.S.C. 2605, 2607, 2681–2692 and 42 U.S.C. 4852d.

■ 2. In § 745.90, revise paragraph (a)(4) to read as follows:

§ 745.90 Renovator certification and dust sampling technician certification.

(a) * * *

(4) To maintain renovator certification or dust sampling technician certification, an individual must complete a renovator or dust sampling technician refresher course accredited by EPA under § 745.225 or by a State or Tribal program that is authorized under subpart Q of this part within 5 years of the date the individual completed the initial course described in paragraph (a)(1) of this section. If the individual does not complete a refresher course within this time, the individual must re-take the initial course to become certified again. Individuals who complete a renovator course accredited by EPA or an EPA authorized program on or before March 31, 2010, must complete a renovator refresher course accredited by EPA or an EPA authorized program on or before March 31, 2016, to maintain renovator certification. Individuals who completed a renovator course accredited by EPA or an EPA authorized program between April 1, 2010 and March 31, 2011, will have one year added to their original 5-year certification.

BILLING CODE 6560–50–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 648

[Docket No. 140117052–4402–02]

RIN 0648–XD874

Fisheries of the Northeastern United States; Summer Flounder Fishery; Quota Transfer

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; quota transfer.

SUMMARY: NMFS announces that the State of North Carolina is transferring a portion of its 2015 commercial summer flounder quota to the Commonwealth of Virginia. These quota adjustments are necessary to comply with the Summer Flounder, Scup, and Black Sea Bass Fishery Management Plan quota transfer provision. This announcement is intended to inform the public of the revised commercial quota for each state involved.

DATES: Effective April 15, 2015, through December 31, 2015.

FOR FURTHER INFORMATION CONTACT: Reid Lichwell, Fishery Management Specialist, 978–281–9112.

SUPPLEMENTARY INFORMATION:

Regulations governing the summer flounder fishery are in 50 CFR 648.100–648.110. These regulations require annual specification of a commercial quota that is apportioned among the coastal states from North Carolina through Maine. The process to set the annual commercial quota and the percent allocated to each state are described in § 648.10(c)(1)(i).

The final rule implementing Amendment 5 to the Summer Flounder, Scup, and Black Sea Bass Fishery Management Plan provided a mechanism for summer flounder quota

to be transferred from one state to another (December 17, 1993; 58 FR 65936). Two or more states, under mutual agreement and with the concurrence of the NMFS Greater Atlantic Regional Administrator, can transfer or combine summer flounder commercial quota under § 648.102(c)(2). The Regional Administrator is required to consider the criteria in § 648.102(c)(2)(i) when evaluating requests for quota transfers or combinations.

North Carolina has agreed to transfer 11,108 lb (5,039 kg) of its 2015 commercial summer flounder quota to Virginia. This transfer was prompted by landings of the F/V *Captain Ed,* a North Carolina vessel that was granted safe harbor in Virginia due to mechanical failure, on March 3, 2015. As a result of these landings, a quota transfer is necessary to account for an increase in Virginia landings that would have otherwise accrued against the North Carolina quota.

The Regional Administrator has determined that the criteria set forth in § 648.102(c)(2)(i) have been met. The transfer is consistent with the criteria because it will not preclude the overall annual quota from being fully harvested, the transfer addresses an unforeseen variation or contingency in the fishery, and the transfer is consistent with the objectives of the FMP and the Magnuson-Stevens Fishery Conservation and Management Act. The revised summer flounder commercial quotas for calendar year 2015 are: Virginia, 2,394,228 lb (1,086,003 kg); and North Carolina, 2,983,583 lb (1,353,330 kg).

Classification

Proposed Rules

Federal Register
Vol. 80, No. 73
Thursday, April 16, 2015

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

FEDERAL RESERVE SYSTEM

12 CFR Part 204

[Docket No. R–1513]

RIN 7100–AE31

Regulation D: Reserve Requirements for Depository Institutions

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Notice of proposed rulemaking; request for public comment.

SUMMARY: The Board is requesting comment on proposed amendments to Regulation D (Reserve Requirements of Depository Institutions) regarding the payment of interest on certain balances maintained at Federal Reserve Banks by or on behalf of eligible institutions. Specifically, the Board proposes to amend Regulation D to permit interest payments on certain balances to be based on a daily rate rather than on a maintenance period average rate. The proposed amendments should help to enhance the role of such rates of interest in moving the federal funds rate into the target range established by the FOMC, particularly on occasions when changes in those rates do not coincide with the beginning of a maintenance period.

DATES: Comments must be received by May 18, 2015.

SUPPLEMENTARY INFORMATION:

I. Statutory and Regulatory Background

For monetary policy purposes, section 19 of the Federal Reserve Act (''the Act'') imposes reserve requirements on certain types of deposits and other liabilities of depository institutions. Regulation D, which implements section 19 of the Act, requires that a depository institution meet reserve requirements by holding cash in its vault, or if vault cash is insufficient, in the form of a balance in an account at a Federal Reserve Bank (''Reserve Bank'').[1] Section 19 also provides that balances maintained by or on behalf of certain institutions in an account at a Reserve Bank may receive earnings to be paid by the Reserve Bank at least once each quarter, at a rate or rates not to exceed the general level of short-term interest rates. Institutions that are eligible to receive earnings on their balances held at Reserve Banks (''eligible institutions'') include the institutions described in section 19(b)(1)(A) of the Act[2] and any trust company, corporation organized under section 25A or having an agreement with the Board under section 25, or any branch or agency of a foreign bank (as defined in section 1(b) of the International Banking Act of 1978).[3] Section 19 also provides that the Board may prescribe regulations concerning the payment of earnings to the depository institutions that maintain balances or on whose behalf balances are maintained, and the responsibilities of depository institutions, Federal Home Loan Banks, and the National Credit Union Administration Central Liquidity Facility with respect to the crediting and distribution of earnings attributable to balances maintained in a Federal Reserve bank by any such entity on behalf of depository institutions.[4]

Regulation D currently requires Reserve Banks to pay interest on balances up to the top of the penalty-free band at a rate of ¼ percent, and on excess balances at a rate of ¼ percent.[5] Regulation D defines ''top of the penalty-free band'' to mean an amount equal to an institution's reserve balance requirement plus an amount that is the greater of 10 percent of the institution's reserve balance requirement or $50,000.[6] Regulation D defines ''excess balances'' to mean the average balance maintained in an account at a Federal Reserve Bank by or on behalf of an institution over a reserve maintenance period (''maintenance period'') that exceeds the top of the penalty-free band.[7] As such, the balances on which interest is currently payable under Regulation D are balances that are defined as maintenance period average balances.

Currently, interest on balances up to the top of the penalty-free band and on excess balances of eligible institutions at Reserve Banks is, in each case, calculated by multiplying the average applicable interest rate over the maintenance period by the amount that the institution maintains, on average, over the maintenance period. If the rate of interest on excess balances were to change at a time other than at the beginning of a maintenance period, the interest on excess balances would be the average interest rate for excess balances over the maintenance period multiplied by the average excess balances maintained over the maintenance period. For example, if the interest rate on excess balances were to increase in the middle of a maintenance period from 25 basis points (¼ percent) to 50 basis points (½ percent), the interest on excess balances for that maintenance period would be the average excess balances maintained over the maintenance period multiplied by the average excess balance rate, *i.e.,* 37.5 basis points. As a result, the full effect of the increase in the excess balance rate

[1] 12 CFR 204.5(a)(1).

[2] Section 19(b)(1)(A) defines ''depository institution'' as any insured bank as defined in section 3 of the Federal Deposit Insurance Act or any bank which is eligible to make application to become an insured bank under section 5 of such Act; any mutual savings bank as defined in section 3 of the Federal Deposit Insurance Act or any bank which is eligible to make application to become an insured bank under section 5 of such Act; any savings bank as defined in section 3 of the Federal Deposit Insurance Act or any bank which is eligible to make application to become an insured bank under section 5 of such Act; any insured credit union as defined in section 101 of the Federal Credit Union Act or any credit union which is an eligible to make application to become an insured credit union pursuant to section 201 of such Act; any member as defined in section 2 of the Federal Home Loan Bank Act; and any savings association (as defined in section 3 of the Federal Deposit Insurance Act) which is an insured depository institution (as defined in such Act) or is eligible to apply to become an insured depository institution under the Federal Deposit Insurance Act. *See* 12 U.S.C. 461(b)(1)(A).

to 50 basis points may not show through to market rates until some number of days following the announcement of the new rate.

II. Summary of Proposal

In General

The Board proposes to amend Regulation D to permit interest payments on certain balances to be based on a daily rate rather than on a maintenance period average rate. The proposed amendments would define an ''IORR[8] rate'' and calculate interest on balances maintained up to the top of the penalty-free band as the average IORR rate over a maintenance period multiplied by the average balances maintained up to the top of the penalty-free band over the maintenance period. The proposed amendments would also define an ''IOER[9] rate'' and, for institutions that maintain balances in excess of the top of the penalty-free band on average over the maintenance period, would calculate interest as daily total balances multiplied by the daily IOER rate, reduced by an adjustment to avoid double payment of interest on balances up to the top of the penalty-free band. The proposed amendments would therefore facilitate the calculation of interest paid at the IOER rate on a daily basis applied to a daily balance, while preserving the calculation of interest paid at the IORR rate as a maintenance period average rate applied to a maintenance period average balance. The proposed amendments should allow the full effect of an increase in the IOER rate to show through to the daily level of short-term market rates when an IOER rate change does not coincide with the beginning of a maintenance period.

The proposed amendments would make other changes to Regulation D to conform certain provisions to current practices as well as to improve organization and make other clarifications. Currently, § 204.10(b)(3) of Regulation D provides for payment of interest on term deposits at any other rate or rates as determined by the Board from time to time, not to exceed the general level of short term interest rates. The proposed amendments would reflect current practices for term deposit offerings by providing that interest on term deposits is either the amount equal to the principal amount of the term deposit multiplied by a rate specified in advance, or multiplied by the rate determined by a term deposit auction. The proposed amendments would also make a conforming change to current § 204.10(d), governing ''excess balance accounts,''[10] to provide for interest on such balances to be paid at the IOER rate.

The proposed amendments would make other changes to improve the organization of the section, including placing provisions generally applicable to payments of interest together into one section (proposed § 204.10(a)). The proposed amendments would also add a new provision to proposed § 204.10(a) specifying that the amount of a balance maintained in a Reserve Bank account is determined at the close of the Reserve Bank's business day. This provision would eliminate potential confusion over which balance (*e.g.,* intra-day balance or end-of-day balance) would be used as the basis for the calculation of interest.

Finally, the proposed amendments would delete the provision currently in § 204.10(b) of Regulation D providing that interest rates are as determined by the Board from time to time. The Board proposes to announce future changes to the IORR rate or the IOER rate, or to the mechanisms for calculating the interest on term deposits, through amendments to Regulation D. The proposed amendments would add § 204.10(f) to Regulation D, providing that generally no public comment will be sought on future changes to such rates or mechanisms, and that the effective date of such future changes will generally not be delayed.

Following the detailed description of the proposal below are numerical examples illustrating the key features of the proposed amendments in cases when the IORR and IOER rates change in the middle of the reserve maintenance period.

Detailed Description of Proposal

1. Proposed Calculation of Interest

Currently, the amount of interest payable on balances maintained at a Reserve Bank by or on behalf of an eligible institution is equal to the sum of IORR and IOER. IORR is currently calculated as the arithmetic average of the daily IORR rates in effect over a maintenance period multiplied by the average level of balances up to the top of the penalty-free band maintained over that maintenance period. IOER is currently calculated as the arithmetic average of the daily IOER rate in effect over a maintenance period multiplied by the institution's average level of excess balances maintained over that maintenance period.

As discussed above, the current methodology for calculating IOER implies that an increase in the IOER rate may not immediately show through fully to short-term market rates in cases when an IOER rate change does not coincide with the beginning of a maintenance period. To address this issue, for institutions that maintain balances on average over the maintenance period in excess of the top of the penalty-free band, the proposed amendments to Regulation D would implement the IOER rate by multiplying the IOER rate in effect each day of the maintenance period by the institution's *total* balances that day, less an adjustment to avoid the double payment of interest on balances maintained up to the top of the penalty-free band. The proposed amendments would make no changes to the calculation of IORR under the current provisions of Regulation D—that is, IORR would continue to be implemented by multiplying the average IORR rate over the maintenance period by the average level of balances up to the top of the penalty-free band maintained over the maintenance period.

The implementation of IOER as set forth in the proposed amendments—that is, calculating IOER based on the daily IOER rate rather than the average of the daily rates—should support the implementation of monetary policy in cases when changes in policy rates are implemented in the middle of a maintenance period. For example, under the proposed amendments, if the Board raised the IOER rate from 25 basis points to 50 basis points in the middle of a maintenance period, eligible institutions would likely base their asset-liability management decisions on the effective IOER rate of 50 basis points for the remainder of that maintenance period.

2. Addressing a Special Case: A Floor on Interest Payments for Institutions That Maintain Balances on Average Over a Maintenance Period in Excess of the Top of the Penalty-Free Band

Under the proposed amendments, an institution's daily pattern of balances maintained over the maintenance period

[8] *I.e.,* ''interest on required reserves.'' ''Required reserves'' is a term that historically referred to the amount that an institution must maintain on average over a maintenance period to satisfy its reserve balance requirement. Because Regulation D currently provides for a penalty-free band around an institution's reserve balance requirement, an institution's balances up to the top of the penalty-free band is the current equivalent of what was previously meant by ''required reserves.''

[9] *I.e.,* ''interest on excess reserves.''

[10] An *excess balance* account as an account at a Reserve Bank that is established by one or more eligible institutions through an agent and in which only excess balances of the participating eligible institutions may at any time be maintained. An excess balance account is not a pass-through account for purposes of this part.'' *See* Regulation D 12 CFR 204.2(aa).

in a Reserve Bank account would determine its IOER. There is a special case, however, in which an institution that maintained positive excess balances on average over a maintenance period could end up receiving less in total interest payments than if it had held balances equal to the top of the penalty-free band on average over the maintenance period. This special case would arise only in those maintenance periods in which a rate change does not coincide with the beginning of a maintenance period and the institution maintains relatively high levels of total balances in its Reserve Bank account on days when the IORR rate and the IOER rate are lower.

To address this special case, the proposed amendments specify a minimum interest payment, or floor, applicable to total interest payments for any institution that maintains balances on average over the maintenance period in excess of the top of the penalty-free band. Specifically, the proposed amendments set the floor for institutions maintaining excess balances [11] at an amount that would be equal to the interest payment that the institution would have received if it had maintained balances up to the top of its penalty-free band on average over the maintenance period. Including the interest payment floor in the proposed amendments for these institutions means that any institution that maintained balances in excess of the top of the penalty-free band on average over the maintenance period, but maintained balances each day of the period in a manner that would cause the special case above to apply, would be assured that it would receive interest payments no lower than the interest payments it would have received if it had maintained balances up to the top of the penalty-free band on average over the maintenance period.

At present and for the foreseeable future, the proposed floor is one that likely will have little practical significance for most institutions or for federal funds market activity. Given the very large quantities of excess balances currently in the banking system, the Board believes that there are very few institutions for which this special case would be relevant. Nonetheless, the inclusion of the interest payment floor in the proposed amendments avoids penalizing an institution that maintained positive excess balances on average over a maintenance period, but nevertheless would receive less in interest under the proposed methodology than it would if it had maintained balances up to the top of the penalty-free band.

3. Proposed Formulas for the Calculation of Interest and Examples

The proposed methodology calculates IOER by multiplying the IOER rate in effect each day of the maintenance period by the institution's total balances that day, less an adjustment to avoid the double payment of interest on balances maintained up to the top of the penalty-free band. Under the proposed methodology, the formulas used in determining interest payments distinguish between two basic cases—one in which institutions maintain, on average over the maintenance period, balances in excess of the top of the penalty-free band, and a second in which the institution maintains, on average over the maintenance period, balances that are equal to or lower than the top of the penalty-free band. In the first case, the proposed methodology would result in calculating the interest on balances in an account at a Reserve Bank as follows:

Equation (1)

$$Interest\ Payment = \overbrace{14 \times \frac{Avg.IORR\ rate}{360} \times BMRBR}^{IORR}$$
$$+ \overbrace{max[0, \sum_{t=1}^{14} \frac{(IOER\ rate_t}{360} \times Total\ Balances_t) - \left(14 \times \frac{Avg.IOER\ rate}{360} \times BMRBR\right)]}^{IOER}$$

Where:

14 = the number of days in a reserve maintenance period
360 = the number of days in the year used to annualize interest
Avg. IORR rate = arithmetic average of the daily IORR rates in effect over a maintenance period
BMRBR = average balances maintained to satisfy a reserve balance requirement (up to the top of the penalty-free band) over a maintenance period
Avg. IOER rate = arithmetic average of the daily IOER rates in effect over a maintenance period
Total Balances = daily total balance held

In the second case, the proposed methodology would result in calculating the interest as follows:

Equation (2)

$$Interest\ Payment = \overbrace{14 \times \frac{Avg.IORR\ rate}{360} \times BMRBR}^{IORR}$$

The following are examples of the application of the key features of the proposed amendments to a case where the IORR and IOER rates change in the middle of a maintenance period. Each of the examples assumes:

- The top of the penalty-free band is $100,000;

[11] Specifically, institutions that maintain balances that are, on average over the maintenance period, in excess of the top of the penalty-free band.

• Balances maintained are the same for each day of the calendar week of the two-week maintenance period. Thus, the average daily balance for each week is equal to the daily amount of balances maintained;

• The IORR and IOER annual rates are set at 0.36 percent in week one and at 0.72 percent in week two; and

• Interest is calculated based on a 360-day year.

As a baseline, Example 1 applies the current methodology for calculating IORR and IOER interest payments for an eligible institution that maintains an average daily balance of $150,000 throughout the maintenance period:

EXAMPLE 1—CURRENT CALCULATION OF IORR AND IOER

Week	Balance	IORR Rate	IOER Rate
1	150,000	0.0036	0.0036
2	150,000	0.0072	0.0072
IORR Payment		21.00	
IOER Payment		10.50	

In Example 1, the institution maintains a balance of $150,000 each day of the maintenance period. IORR is calculated as the average IORR rate (annualized using a 360-day year) over the maintenance period (0.54 percent) multiplied by average balances up to the top of the penalty free band over the maintenance period ($100,000) times the number of days in the maintenance period (14), resulting in an IORR payment of $21.00. IOER is similarly calculated as the average IOER rate (annualized using a 360-day year) over the maintenance period (0.54 percent) multiplied by average excess balances over the maintenance period ($50,000) times the number of days in the maintenance period (14), resulting in an IOER payment of $10.50. The institution thus receives $31.50 in total interest payments for the two week maintenance period.

EXAMPLE 2—PROPOSED AMENDMENTS: WEEK 1 BALANCES = WEEK 2 BALANCES

Week 1	Balance	IORR Rate	IEOR Rate
1	150,000	0.0036	0.0036
2	150,000	0.0072	0.0072
IORR Payment		21.00	
IOER Payment		10.50	

In Example 2, the institution again maintains a balance of $150,000 each day of the maintenance period, but interest payments are calculated according to Equation (1) under the proposed amendments. The calculation of IORR is the same as in Example 1: The average IORR rate over the maintenance period (0.54 percent) multiplied by average balances up to the top of the penalty free band over the maintenance period ($100,000) times the number of days in the maintenance period (14), resulting in an IORR payment of $21.00. However, the calculation of IOER is based on the application of proposed § 204.10(b)(1)(B)(i) and (ii), where the amount of IOER is equal to the IOER rate in effect each day multiplied by the total balances maintained on that day for each day of the maintenance period, reduced by the amount specified in § 204.10(b)(1)(B)(ii). The amount of the reduction prescribed by proposed § 204.10(b)(1)(B)(ii) is equal to the average IOER rate over the maintenance period multiplied by the average balance up to the top of the penalty-free band maintained over the maintenance period. The proposed amendments described in Example 2 yield a total IOER payment of $10.50. Thus, the total interest payments in this case are exactly the same as in Example 1. For any institution that maintains excess balances, this is a general result: If balances are constant across all days of the maintenance period, the proposed methodology generates exactly the same interest payments as the calculation under current provisions of Regulation D.

EXAMPLE 3—PROPOSED AMENDMENTS: WEEK 2 BALANCES EXCEED WEEK 1 BALANCES

Week 1	Balance	IORR Rate	IOER Rate
1	100,000	0.0036	0.0036
2	200,000	0.0072	0.0072
IORR Payment		21.00	
IOER Payment		14.00	

In Example 3, the eligible institution's maintenance of excess balances during the course of the maintenance period is tilted toward Week 2, when the higher IOER rate is in effect. The calculation for IORR under the proposed amendments is unchanged from Example 1 (current methodology), resulting in an IORR payment of $21.00. The calculation for IOER under the proposed amendments, however, results in an IOER payment of $14.00 calculated as follows:

IOER = ($100,000 * 0.0036) * 7/360 + ($200,000 * 0.0072) * 7/360 − (100,000 * 0.0054) * 14/360 [(Daily Balance Week 1 * IOER Week 1) + (Daily Balance Week 2 * IOER Week 2) − (Avg. Required Reserve Balance * Average IOER rate)].

IOER is higher under the proposed amendments as shown in Example 3 ($14.00) than under the current provisions of Regulation D as shown in

Example 1 ($10.50). This illustrates a key feature of the proposed amendments: when an IOER rate change occurs in the middle of a maintenance period, eligible institutions immediately begin receiving interest on balances in excess of the penalty-free band at the new IOER rate. In Example 3, the eligible institution begins earning the higher IOER rate of 0.72 percent as soon as the higher IOER rate becomes effective in the middle of the maintenance period. In contrast, as shown in Example 1, the effective IOER rate on balances in excess of the penalty-free band under the current provisions of Regulation D is 0.54 percent—the average of the IOER rates in weeks 1 and 2. In Example 1, the full effect of the increase in IOER to 72 basis points would not be reflected in interest payments until the beginning of a new maintenance period.

EXAMPLE 4—ROLE OF THE FLOOR ON INTEREST PAYMENTS IN PROPOSED METHODOLOGY

Week 1	Balance	IORR Rate	IOER Rate
1	130,000	0.0036	0.0036
2	80,000	0.0072	0.0072
IORR Payment		21.00	
IOER Payment		0.00	
Memo: IOER Payment (without Floor)		−0.69	

In Examples 2 and 3, the provision in the proposed amendments for a floor on interest payments did not come into play. In Example 4, the institution's average total balances over the period are $105,000 (implying only $5,000 in excess), and the institution ends up holding higher balances during the first week of the maintenance period when the IOER rate is lower. As shown in the Example 4 table above, the institution maintains $130,000 in the first week of the maintenance period and $80,000 in the second week of the maintenance period. Calculating IOER under the proposed amendments would result in a ''pre-floor'' interest payment on excess balances of −$0.69. The negative ''interest payment'' results from the end of period adjustment factor in proposed § 204.10(b)(1)(B)(ii). That adjustment factor is equal to the average IOER rate over the maintenance period multiplied by the average balance up to the top of the penalty-free band maintained over the maintenance period. Since the institution held the majority of its balances that would receive the daily IOER rate when the daily IOER rate was below the average IOER rate, the adjustment factor in proposed § 204.10(b)(1)(B)(ii) was greater than the interest attributable to balances over the top of the penalty-free band in proposed § 204.10(b)(1)(B)(i). With the inclusion in the proposed amendments of the interest payment floor, however, the interest payment on excess balances is revised upwards to 0 and the eligible institution's total interest payment is $21.00—the same as the interest payments the institution would have earned had it held balances on average exactly equal to the top of the penalty-free band ($100,000) over the maintenance period.

EXAMPLE 5—BALANCES EQUAL TO OR LOWER THAN TOP OF PENALTY-FREE BAND

Week 1	Balance	IORR Rate	IOER Rate
1	90,000	0.0036	0.0036
2	106,000	0.0072	0.0072
IORR Payment		20.58	
IOER Payment		0.00	

The first four examples involve eligible institutions that maintained balances, on average over the maintenance period, in excess of the top of their penalty-free bands. Example 5 involves an eligible institution that maintained balances on average over the maintenance period equal to $98,000, slightly lower than the top of the penalty-free band. Under the proposed amendments, the interest calculation method for institutions that hold average balances over the maintenance period equal to or lower than the top of the penalty-free band would not change from the current practice. For these institutions, interest would be calculated by taking the average IORR rate over the maintenance period (0.54 percent) multiplied by average balances up to the top of the penalty free band over the maintenance period ($98,000) times the number of days in the maintenance period (14), resulting in an IORR payment of $20.58. The institution does not hold balances above the top of the penalty-free band and thus would not receive an IOER payment nor would it benefit from holding larger balances on days when the higher IOER rate was in effect.

III. Section by Section Analysis

Section 204.10(a) General

The Board proposes to amend § 204.10(a) to incorporate certain provisions of current § 204.10(b) and to add a new provision describing the amount of a ''balance'' in an account at a Reserve Bank for purposes of the section.

Proposed § 204.10(a)(1) incorporates part of current § 204.10(b)(3) into current § 204.10(a) and provides that, except as provided in § 204.10(c), interest on balances maintained at Reserve Banks by or on behalf of an eligible institution is established by the Board in accordance with this section, at a rate or rates not to exceed the general level of short-term interest rates.

Proposed § 204.10(a)(2) adds a new provision to Regulation D specifying that the amount of a ''balance'' in an account at a Reserve Bank for purposes of § 204.10 is determined at the close of the Reserve Bank's business day.

Proposed § 204.10(a)(3) moves the definition of ''short-term interest rates'' from current § 204.10(b)(3) into proposed § 204.10(a)(3).

Proposed § 204.10(a)(4) moves the provision in current § 204.10(a) regarding other terms and conditions for interest payments as the Board may prescribe into proposed § 204.10(a)(4).

Section 204.10(b) Payment of interest

Proposed § 204.10(b) relates to payments of interest on balances at Reserve Banks: excess balances, balances up to the top of the penalty-free band, and term deposits.

Proposed § 204.10(b)(1) and (2) set forth the amount of interest to be paid on balances of institutions that, on average over the maintenance period, maintain balances in excess of the top of the penalty-free band. These two paragraphs provide for interest at the IORR rate, interest at the IOER rate, the adjustment to interest at the IOER rate, and the minimum interest amount.

Proposed § 204.10(b)(3) provides that interest for institutions that, on average over the maintenance period, maintain balances that are equal to or lower than the top of the penalty-free band is the average IORR rate over the maintenance period multiplied by the average balances maintained over the maintenance period.

Proposed § 204.10(b)(4) provides for interest on term deposits. New § 204.10(b)(4)(A) provides for interest on term deposits at a rate specified in advance by the Board, in light of existing short-term market rates, to maintain the federal funds rate at a level consistent with monetary policy objectives. Section 204.10(b)(4)(B) provides for interest on term deposits at a rate determined by the auction through which such term deposits are offered.

Proposed § 204.10(b)(5) specifies the IORR rate used in proposed § 204.10(b)(1) and (3), and the IOER rate used in proposed § 204.10(b)(1)(B)(i) and (ii).

Section 204.10(c) Pass-Through Balances

Proposed § 204.10(c) sets forth the language of current § 204.10(c), with one change. In the second sentence of proposed § 204.10(c), the word ''shall'' is changed to ''may'' to conform the paragraph with the provisions of § 204.10(b).

Section 204.10(d) Excess Balance Accounts

Proposed § 204.10(d)(5) revises current § 204.10(d)(5) by specifying that interest on excess balance accounts is the amount equal to the IOER rate in effect each day multiplied by the total balances maintained on that day for each day of the maintenance period.

Section 204.10(f) Procedure for Determination of Rates

Proposed § 204.10(f) sets forth a provision not previously appearing in Regulation D governing the procedure for determination of rates. Specifically, proposed § 204.10(f) provides that the Board anticipates that it generally will not seek advance notice, public comment, or delayed effective dates with respect to changes in the rates of interest set forth in § 204.10. Proposed § 204.10(f) also specifies the reasons that the Board generally expects to apply in such cases.

IV. Form of Comment Letters

Comment letters should refer to Docket No. R–1513 and, when possible, should use a standard typeface with a font size of 10 or 12; this will enable the Board to convert text submitted in paper form to machine-readable form through electronic scanning, and will facilitate automated retrieval of comments for review. Comments may be mailed electronically to *regs.comments@federalreserve.gov.*

V. Solicitation of Comments Regarding Use of ''Plain Language''

Section 722 of the Gramm-Leach-Bliley Act of 1999 requires the Board to use ''plain language'' in all proposed and final rules published after January 1, 2000. The Board invites comments on whether the proposed rule is clearly stated and effectively organized, and how the Board might make the proposed text easier to understand.

VI. Initial Regulatory Flexibility Analysis

In accordance with Section 3(a) of the Regulatory Flexibility Act (RFA) (5 U.S.C. 601, *et seq.*), the Board has reviewed the proposed amendments to Regulation D. A final regulatory flexibility analysis will be conducted after consideration of comments received during the public comment period.

1. *Statement of the objectives of the proposal.* The Board is proposing to amend Regulation D in order to facilitate the conduct of monetary policy. Section 19 of the Act was enacted to impose reserve requirements on certain deposits and other liabilities of depository institutions for monetary policy purposes. The Board proposes to amend Regulation D to facilitate the transmission of monetary policy through the rates of interest paid on balances of eligible institutions at Reserve Banks. Specifically, the Board proposes to amend Regulation D to permit interest payments on certain balances to be based on a daily rate rather than on a maintenance period average rate. The proposed amendments should help to enhance the role of such rates of interest in moving the federal funds rate into the target range established by the FOMC.

2. *Small entities affected by the proposal.* The proposal would affect all eligible institutions that maintain balances to satisfy reserve balance requirements or excess balances at a Reserve Bank. The Board estimates that there are currently approximately 8,725 eligible institutions that maintain such balances. The Board estimates that approximately 6,950 of these institutions could be considered small entities with assets of $550 million or less.

3. Other federal rules. The Board believes that no federal rules duplicate, overlap, or conflict with the proposed amendments.

4. *Significant alternatives to the proposed amendments.* The proposed amendments do not impose any burden on depository institutions of any size. The proposed amendments relate to payment of earnings on balances of eligible institutions and do not provide for any new or additional reporting or other obligations.

VI. Paperwork Reduction Act

In accordance with the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3506; 5 CFR part 1320 Appendix A.1), the Board reviewed the proposed rule under the authority delegated to the Board by the Office of Management and Budget (OMB). The proposed rule contains no requirements subject to the PRA.

List of Subjects in 12 CFR Parts 204

Banks, Banking, Reporting and recordkeeping requirements.

Authority and Issuance

For the reasons set forth in the preamble, the Board proposes to amend 12 CFR part 204 as follows:

PART 204—RESERVE REQUIREMENTS OF DEPOSITORY INSTITUTIONS (REGULATION D)

■ 1. The authority citation for part 204 continues to read as follows:

Authority: 12 U.S.C. 248(a), 248(c), 371a, 461, 601, 611, and 3105.

■ 2. Section 204.10 is amended by revising paragraphs (a), (b), (c), and (d)(5), and adding paragraph (f) to read as follows:

§ 204.10 Payment of interest on balances.

(a) *General.* (1) Except as provided in paragraph (c) of this section, interest on balances maintained at Federal Reserve Banks by or on behalf of an eligible institution shall be established by the Board in accordance with this section,

at a rate or rates not to exceed the general level of short-term interest rates.

(2) For purposes of this section, the amount of a ''balance'' in an account maintained by or on behalf of an eligible institution at a Federal Reserve Bank is determined at the close of the Federal Reserve Bank's business day.

(3) For purposes of this section, ''short-term interest rates'' are rates on obligations with maturities of no more than one year, such as the primary credit rate and rates on term federal funds, term repurchase agreements, commercial paper, term Eurodollar deposits, and other similar instruments.

(4) The payment of interest on balances under this section shall be subject to such other terms and conditions as the Board may prescribe.

(b) *Payment of interest.* Interest on balances maintained at Federal Reserve Banks by or on behalf of an eligible institution is established as set forth in paragraphs (b)(1) through (4) of this section. The rates for IORR and IOER are set forth in paragraph (b)(5) of this section.

(1) For institutions that maintain balances that are, on average over the maintenance period, in excess of the top of the penalty-free band, interest is:

(A) The amount equal to the average IORR rate over the maintenance period multiplied by the average balance up to the top of the penalty-free band maintained over the maintenance period; plus

(B)(i) The amount equal to the IOER rate in effect each day multiplied by the total balances maintained on that day for each day of the maintenance period; minus

(ii) The amount equal to the average IOER rate over the maintenance period multiplied by the average balance up to the top of the penalty-free band maintained over the maintenance period.

(2) The interest amount under paragraph (b)(1) of this section shall not be less than an amount equal to the amount specified in paragraph (b)(1)(A) of this section.

(3) For institutions that maintain balances that are, on average over the maintenance period, equal to or lower than the top of the penalty-free band, interest is the amount equal to the average IORR rate over the maintenance period multiplied by the average balance maintained over the maintenance period.

(4) For term deposits, interest is:

(A) The amount equal to the principal amount of the term deposit multiplied by a rate specified in advance by the Board, in light of existing short-term market rates, to maintain the federal funds rate at a level consistent with monetary policy objectives; or

(B) The amount equal to the principal amount of the term deposit multiplied by a rate determined by the auction through which such term deposits are offered.

(5) The rates for IORR and IOER are:

	Rate	Effective
IORR	¼ percent.	
IOER	¼ percent.	

(c) *Pass-through balances.* A pass-through correspondent that is an eligible institution may pass back to its respondent interest paid on balances maintained to satisfy a reserve balance requirement of that respondent. In the case of balances maintained by a pass-through correspondent that is not an eligible institution, a Reserve Bank may pay interest only on the balances maintained to satisfy a reserve balance requirement of one or more respondents up to the top of the penalty-free band, and the correspondent shall pass back to its respondents interest paid on balances in the correspondent's account.

(d) * * *

* * * * *

(5) Interest on balances of eligible institutions maintained in an excess balance account is the amount equal to the IOER rate in effect each day multiplied by the total balances maintained on that day for each day of the maintenance period.

* * * * *

(f) *Procedure for determination of rates.* The Board anticipates that notice and public participation with respect to changes in the rate or rates of interest to be paid under this section will generally be impracticable, unnecessary, contrary to the public interest, or otherwise not required in the public interest, and that there will generally be reason and good cause in the public interest why the effective date should not be deferred for 30 days. The reason or reasons in such cases are generally expected to include that such notice, public participation, or deferment of effective date would prevent the action from becoming effective as promptly as necessary in the public interest, would permit speculators or others to reap unfair profits or to interfere with the Board's actions taken with a view to accommodating commerce and business and with regard to their bearing upon the general credit situation of the country, would provoke other consequences contrary to the public interest, would not aid the persons affected, or would otherwise serve no useful purpose.

By order of the Board of Governors of the Federal Reserve System, April 13, 2015.

Michael Lewandowski,

Associate Secretary of the Board.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

26 CFR Part 1

[REG–143040–14]

RIN 1545–BM59

Reporting for Premium; Basis Reporting by Securities Brokers and Basis Determination for Debt Instruments and Options; Correction

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Correction to a notice of proposed rulemaking by cross-reference to temporary regulations.

SUMMARY: This document contains corrections to a notice of proposed rulemaking by cross-reference to temporary regulations (REG–143040–14) that was published in the **Federal Register** on Friday, March 13, 2015 (80 FR 13292). The IRS is issuing temporary regulations relating to information reporting by brokers for transactions involving debt instruments and options.

DATES: Written or electronic comments and requests for a public hearing for the notice of proposed rulemaking by cross-reference to temporary regulations published at 80 FR 13292, March 13,

2015, are still being accepted and must be received by June 11, 2015.

FOR FURTHER INFORMATION CONTACT: Pamela Lew at (202) 317–7053 (not a toll free number).

SUPPLEMENTARY INFORMATION:

Background

The notice of proposed rulemaking by cross-reference to temporary regulations (REG–143040–14) that is the subject of these corrections is under section 6045 of the Internal Revenue Code.

Need for Correction

As published, the notice of proposed rulemaking by cross-reference to temporary regulations (REG–143040–14) contains errors that may prove to be misleading and are in need of clarification.

Correction of Publication

Accordingly, the notice of proposed rulemaking by cross-reference to temporary regulations (REG–143040–14), that was the subject of FR Doc. 2015–05654, is corrected as follows:

1. On page 13293, in the preamble, first column, the second line of the third paragraph, the language ‘‘contained in section 1.6045A–1 relating ’’ is corrected to read ‘‘contained in § 1.6045A–1 relating’’.

2. On page 13293, in the preamble, third column, the tenth line from the top of the column, the language ‘‘not make the election. The temporary’’ is corrected to read ‘‘not made the election. The temporary’’.

Martin V. Franks,

Chief, Publications and Regulations Branch, Legal Processing Division, Associate Chief Counsel (Procedure and Administration).

Medicaid Program; Mechanized Claims Processing and Information Retrieval Systems (90/10)

AGENCY: Centers for Medicare & Medicaid Services (CMS), HHS.

ACTION: Proposed rule.

SUMMARY: This proposed rule would extend enhanced funding for Medicaid eligibility systems as part of a state's mechanized claims processing system, and would update conditions and standards for such systems, including adding to and updating current Medicaid Management Information Systems (MMIS) conditions and standards. These changes would allow states to improve customer service and support the dynamic nature of Medicaid eligibility, enrollment, and delivery systems.

DATES: To be assured consideration, comments must be received at one of the addresses provided below, no later than 5 p.m. June 15, 2015.

ADDRESSES: In commenting, please refer to file code CMS–2392–P. Because of staff and resource limitations, we cannot accept comments by facsimile (FAX) transmission.

You may submit comments in one of four ways (please choose only one of the ways listed):

1. *Electronically.* You may submit electronic comments on this regulation to *http://www.regulations.gov.* Follow the ‘‘Submit a comment’’ instructions.

2. *By regular mail.* You may mail written comments to the following address ONLY: Centers for Medicare & Medicaid Services, Department of Health and Human Services, Attention: CMS–2392–P, P.O. Box 8016, Baltimore, MD 21244–8016.

Please allow sufficient time for mailed comments to be received before the close of the comment period.

3. *By express or overnight mail.* You may send written comments to the following address ONLY: Centers for Medicare & Medicaid Services, Department of Health and Human Services, Attention: CMS–2392–P, Mail Stop C4–26–05, 7500 Security Boulevard, Baltimore, MD 21244–1850.

4. *By hand or courier.* Alternatively, you may deliver (by hand or courier) your written comments ONLY to the following addresses prior to the close of the comment period:

a. For delivery in Washington, DC— Centers for Medicare & Medicaid Services, Department of Health and Human Services, Room 445–G, Hubert H. Humphrey Building, 200 Independence Avenue SW., Washington, DC 20201.

(Because access to the interior of the Hubert H. Humphrey Building is not readily available to persons without federal government identification, commenters are encouraged to leave their comments in the CMS drop slots located in the main lobby of the building. A stamp-in clock is available for persons wishing to retain a proof of filing by stamping in and retaining an extra copy of the comments being filed.)

b. For delivery in Baltimore, MD— Centers for Medicare & Medicaid Services, Department of Health and Human Services, 7500 Security Boulevard, Baltimore, MD 21244–1850.

If you intend to deliver your comments to the Baltimore address, call telephone number (410) 786–0265 in advance to schedule your arrival with one of our staff members.

Comments erroneously mailed to the addresses indicated as appropriate for hand or courier delivery may be delayed and received after the comment period.

For information on viewing public comments, see the beginning of the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT: Victoria Guarisco (410) 786–0265, for issues related to administrative questions. Carrie Feher (410) 786–8905, for issues related to regulatory impact questions. Denise G. Osborn-Harrison (410) 786–1661 or Martin Rice (410) 786–2417, for general questions.

SUPPLEMENTARY INFORMATION:

Inspection of Public Comments: All comments received before the close of the comment period are available for viewing by the public, including any personally identifiable or confidential business information that is included in a comment. We post all comments received before the close of the comment period on the following Web site as soon as possible after they have been received: *http://www.regulations.gov.* Follow the search instructions on that Web site to view public comments.

Comments received timely will also be available for public inspection as they are received, generally beginning approximately 3 weeks after publication of a document, at the headquarters of the Centers for Medicare & Medicaid Services, 7500 Security Boulevard, Baltimore, Maryland 21244, Monday through Friday of each week from 8:30 a.m. to 4 p.m. To schedule an appointment to view public comments, phone 1–800–743–3951.

I. Executive Summary

A. Purpose

This proposed rule would revise the regulatory definition of Medicaid mechanized claims processing and information retrieval systems to include Medicaid eligibility and enrollment (E&E) systems, which would have the consequence of making available for E&E systems the enhanced federal financial participation (FFP) specified in section 1903(a)(3) of the Social

Security Act (the Act) on an ongoing basis. Enhanced FFP will be available, under certain circumstances, for costs of such systems at a 90 percent federal matching rate for design and development activities, and at a 75 percent federal matching rate for maintenance and operations activities. In addition to lifting the time limit that currently applies to the inclusion of E&E systems in the definition of mechanized claims processing and information retrieval systems, we are proposing changes to the standards and conditions applicable to such systems in order to access enhanced funding. We are also soliciting comment on new approaches to systems development, acquisition approvals and formal certification. Specifically, we are proposing new definitions for ''Commercial Off the Shelf (COTS) software'', ''open source,'' ''proprietary,'' ''shared services,'' and ''MMIS Module.''

B. Summary of the Major Provisions

We are proposing changes to §§ 433.110, 433.111, 433.112, 433.116, 433.119, and 433.120. These changes provide for the 90 percent enhanced FFP for design, development and implementation activities for E&E systems to continue on an ongoing basis. The proposed changes would allow the states to complete fully modernized E&E systems and will support the dynamics of national Medicaid enrollment and delivery system needs. The changes will also set forth additional criteria for the submission, review and approval of Advance Planning Documents (APDs).

In addition, we are proposing changes to provisions within 45 CFR part 95, subpart F, § 95.611. These changes align all Medicaid IT requirements with existing policy for Medicaid Management Information Systems (MMIS) pertaining to prior approvals when states release acquisition solicitation documents or execute contracts above a certain threshold amounts. In addition we propose to amend § 95.611(a)(2) by removing the reference to 45 CFR 1355.52.

C. Summary of Costs and Benefits

Provision description	Total costs	Total benefits
42 CFR part 433	The federal net costs from FY 2016 through 2025 of implementing the proposed regulation on eligibility systems is approximately $3 billion. This includes approximately $5.1 billion in increased federal costs for system design and development, offset by lower anticipated maintenance and operations costs. These costs represent only the federal share. These figures were derived from states' actual system development and maintenance costs as the foundation for projected costs.	We project lower costs over the 10-year budget window due to the increased savings to operating one E&E system and eliminating legacy systems. The costs shift from mostly 90 percent FFP for design, development, and installation to 75 percent FFP for maintenance and operations over time. (federal share only).
42 CFR part 433	The state net costs from FY 2016 through 2025 of implementing the proposed regulation on eligibility systems is approximately −$1.1 billion. This includes approximately $572 million in state costs for system design and development, offset by lower anticipated maintenance and operations costs. These costs represent only the state share.	We project savings for states over the 10-year budget window due to moving away from operating two or more systems, and replacing legacy systems.
45 CFR part 95, subpart F: § 95.611.	This is an administrative change with no associated costs.	This administrative change is expected to result in nominal savings from increased efficiency.

* See section VI. of this proposed rule for the underlying assumptions in support of these totals and further explanation.

II. Background

A. Legislative History and Statutory Authority

Section 1903(a)(3)(A)(i) of the Act provides for federal financial participation (FFP) at the rate of 90 percent for state expenditures for the design, development, or installation of mechanized claims processing and information retrieval systems as the Secretary of the Department of Health and Human Services (the Secretary) determines are likely to provide more efficient, economical and effective administration of the state plan. In addition, section 1903(a)(3)(B) provides for federal financial participation (FFP) at the rate of 75 percent for state expenditures for maintenance and operation of such systems.

In a final rule published October 13, 1989, at 54 FR 41966, CMS revised the definition of a mechanized claims processing and information retrieval system at 42 CFR 433.111(b) to provide that eligibility determination systems would not be considered part of mechanized claims processing and information retrieval systems or enhancements to those systems. As a result, CMS also indicated at 42 CFR 433.112(c) that the enhanced FFP for mechanized claims processing and information retrieval systems in accordance with section 1903(a)(3) of the Act would not be available for eligibility determination systems.

We published a final rule entitled the ''Federal Funding for Medicaid Eligibility Determination and Enrollment Activities'' on April 19, 2011 (76 FR 21949–21975) that temporarily reversed the 1989 rule. We explained that this reversal was in response to changes made by the Affordable Care Act that required sweeping changes in Medicaid eligibility and enrollment systems and removed certain linkages between Medicaid eligibility determinations and eligibility determinations made by other federal-state programs, as well as changes in Medicaid eligibility and business processes that have occurred since our 1989 final rule to integrate eligibility and claims processing systems. The reversal was temporary to address the immediate need for eligibility system redesign to coordinate with the overall claims processing and reporting systems. Specifically, in the April 19, 2011 final rule (75 FR 21950), we included eligibility determination systems in the definition of mechanized claims processing and information retrieval systems in § 433.111(b)(3)(B). We also provided that the enhanced FFP would be available at the 90 percent rate for design, development, installation or enhancement of eligibility and enrollment systems and at the 75 percent rate for maintenance and operations of such systems, to the extent that the eligibility and enrollment systems were developed on or after April 19, 2011, operational by December 31, 2015, and met all standards for such

systems. Under that rule, the 90 percent enhanced matching rate for system development is available through calendar year (CY) 2015 for state expenditures on eligibility and enrollment systems that meet specific standards and conditions, and the 75 percent match for maintenance and operations is available for systems that meet specific standards and conditions before the end of calendar year 2015, as long as those systems are in operation.

In the April 19, 2011 (75 FR 21950) regulation, under the authority of sections 1903(a)(3)(A)(i) and 1903(a)(3)(B) of the Act, we codified the conditions at 42 CFR 433.112(b) that must be met by the states for Medicaid technology investments including traditional claims processing systems, as well as eligibility systems, to be eligible for the enhanced funding match. We also issued sub-regulatory guidance: ''Medicaid IT Supplement Version 1.0'' in April 2011 that outlined in greater detail the seven standards and conditions for enhanced funding.

As explained in more detail below, we are proposing to make permanent the inclusion of eligibility and enrollment systems in the definition of mechanized claims processing and information retrieval systems, and to consequently extend the availability of enhanced FFP. We propose to define a state Medicaid eligibility and enrollment system as the system of software and hardware used to process applications, renewals and updates from Medicaid applicants and beneficiaries. In part, this proposed change reflects a new understanding of the complexity of the required eligibility and enrollment system redesign, and a new appreciation of the need for eligibility and enrollment systems to operate as an integral part of the mechanized claims processing and information retrieval systems using a standard Medicaid information technology architecture.

We previously expected that fundamental changes to state systems would be completed well before December 31, 2015. It is now clear that additional improvements would benefit states and the federal government. It is also clear that such systems are integral to the operation of the state's overall mechanized claims processing and information retrieval systems and must be designed and operated as a coordinated part of such systems. Without recognition as an integral part of such systems, and without ongoing enhanced federal funding, state Medicaid eligibility and enrollment systems are likely to become out of date and would not be able to coordinate with, and further the purposes of, the overall mechanized claims processing and information retrieval systems.

B. Program Affected

Since 2011, CMS has worked with the states on the design, development and implementation of modernized Medicaid and CHIP eligibility and enrollment systems, supported by the enhanced FFP, to achieve the technical functionality necessary for the implementation of the new eligibility and renewal policies on January 1, 2014. In December 2012, we identified critical success factors in order for the states to demonstrate operational readiness, including: Ability to accept a single, streamlined application; ability to convert existing state income standards to modified adjusted gross income (MAGI); ability to convey state-specific eligibility rules to the Federally-Facilitated Marketplace (FFM), as applicable; ability to process applications based on modified adjusted gross income (MAGI) rules; ability to accept and send application files (accounts) to and from the Marketplace; ability to respond to inquiries from the Marketplace on current Medicaid or CHIP coverage; and, ability to verify eligibility based upon electronic data sources (the Federal Data Services Hub or an approved alternative).

The states are in varying stages of completion of their E&E system functionality, with work still ahead to maximize automation, streamline processes, and to migrate non-MAGI Medicaid programs into the new system. In addition, the majority of the states are engaged in system integration with human services programs, further increasing efficiencies and improving the consumer experience for those seeking benefits or services from programs in addition to Medicaid.

III. Provisions of the Proposed Regulations

The proposed regulatory changes in this proposed rule would permanently recognize Medicaid and CHIP eligibility and enrollment systems as an integral part of Medicaid mechanized claims processing and information retrieval systems, and would remove the time limits on the availability of enhanced rates of FFP for qualifying systems.

In addition, we are proposing to strengthen the standards and conditions for qualifying systems. Our purpose in the April 19, 2011 final rule (75 FR 21950) for moving to the standards and conditions-based approach to approving federal funding was intended to foster strong collaboration with the states, streamline the business process between the states and CMS by reducing unnecessary paperwork, and focus attention on the key elements of success for modern systems development and deployment. With the proposed on-going access to enhanced funding for eligibility systems, and in recognition of refinements needed to the standards and conditions that pertain to MMIS and eligibility and enrollment systems, we are proposing new criteria and modifying the existing standards and conditions required for the states to access the enhanced funding and provide greater accountability for the system investment.

These changes will permit states additional time to complete their full system modernization and retire their outdated ''legacy'' systems. In addition, these changes will promote an integrated, enterprise approach to Medicaid information technology. An enterprise approach involves the identification of functionality that can be shared across multiple programs, systems and subsystems. For example, a master person index or provider directory can be built once for multiple uses within the larger Medicaid enterprise. We anticipate that this approach will help drive down potentially redundant IT costs.

Criteria will be set forth stating requirements for APDs and review of the same such as; for both MMIS and E&E systems, the state must identify in an APD its own key personnel (by type and time commitment) assigned to the project to ensure that sufficient state capacity is there to support a successful project outcome. We are proposing that for both MMIS and E&E systems, the state must meet the industry standards and conditions already in place.

We are proposing that states will need to, for both MMIS and E&E systems, develop mitigation plans for all major milestones and functionality that will contain strategies to mitigate the failure to achieve compliance with applicable requirements. For eligibility systems, the state must have delivered acceptable MAGI-based system functionality as demonstrated by performance testing and results based on critical success factors, with limited mitigations and workarounds.

Where applicable, we have proposed additional conditions that align to the best practices outlined in the new U.S. Digital Service Playbook (*https://playbook.cio.gov/*), such as the role of open source development. Other Playbook ideas will be included in sub-regulatory guidance regarding how CMS expects states to implement their Medicaid IT projects.

A. Proposed Amendments to 42 CFR Part 433

We propose to amend § 433.110 by removing paragraphs (a)(2)(ii) and (iii) and paragraph (b). Previously, regulations at § 433.119 indicated that we would review at least once every 3 years each system operation initially approved under § 433.114 and, based on the results of the review, reapprove it for FFP at 75 percent of expenditures if certain standards and conditions were met. The final rule published April 19, 2011 (75 FR 21905) eliminated the requirement for the scheduled triennial review. Through a drafting error in the final rule published on April 19, 2011 (75 FR 21950), the reference to the scheduled triennial performance reviews at 42 CFR 433.110(a)(2)(ii) and (iii) was not deleted as intended, and we are proposing to delete the references here. The Secretary retains authority to perform periodic reviews of systems receiving enhanced FFP to ensure that these systems continue to meet the requirements of section 1903(a)(3) of the Act and that they continue to provide efficient, economical, and effective administration of the plan.

We are also proposing a technical correction to amend § 433.110 by removing the reference to 45 CFR part 74, and replacing the reference with 45 CFR part 92. This proposed change is necessary because 45 CFR part 74 was supplanted by 45 CFR part 92 in September of 2003. Therefore, reference made to 45 CFR part 74 should have been removed at that time.

We are proposing to amend 42 CFR 433.111 to revise the definition of ''mechanized claims processing and information retrieval system'', and provide new definitions for ''Commercial Off the Shelf (COTS) software'', ''open source'', ''proprietary'', ''shared services,'' and ''MMIS Module''. We are proposing to amend 42 CFR 433.112(c) to provide for the 90 percent enhanced FFP for design, development and implementation activities to continue on an on-going basis. Making enhanced E&E system funding available on an on-going basis, as is the case with the 90 percent match for the MMIS systems, would allow the states to complete fully modernized systems and avoid the situation where its ability to serve consumers well is limited by outdated systems. Enhanced funding will also support the dynamic and on-going nature of national Medicaid eligibility, enrollment, delivery system, and program integrity needs. Continued enhanced funding will support the retirement of remaining legacy systems, eliminating ongoing expense for maintaining these outdated systems. It will also achieve additional staffing and technology efficiencies over time by allowing for a more phased and iterative approach to systems development and improvement.

Our 2011 final rule limited the availability of 75 percent enhanced funding for maintenance and operations to those eligibility and enrollment systems that have complied with the standards and conditions in that rule by December 31, 2015. Given our proposed modifications to 42 CFR part 433, subpart C, on-going successful performance, based upon CMS regulatory and sub-regulatory guidance, is a requisite for on-going receipt of the 75 percent FFP for operations and maintenance, including for any eligibility workers (*http://www.medicaid.gov/State-Resource-Center/FAQ-Medicaid-and-CHIP-Affordable-Care-Act-Implementation/Downloads/FAQs-by-Topic-75-25-Eligibility-Systems.pdf*). We intend to work with the states to do regular automated validation of accurate processing and system operations and performance.

B. Technical Changes to 42 CFR Part 433, Subpart C—Mechanized Claims Processing and Information Retrieval Systems

We are authorized under the Act to approve enhanced federal funding for the design, development, and installation and operation and maintenance of such mechanized claims processing and information retrieval systems that are likely to provide more efficient, economical, and effective administration of the Medicaid program and to be compatible with the claims processing and information retrieval systems utilized in the administration of the Medicare program.

We implement this authority in part under regulations at 42 CFR part 433, subpart C. This regulation provides the primary technical and funding requirements and parameters for developing and operating the state MMIS and the state Medicaid eligibility and enrollment systems.

We intend to amend § 433.116, which details how MMIS are initially approved and certified in order to be eligible for the 75 percent FFP for operations. Specifically, we propose that given the modular design approach required by our 2011 regulation, certification should also be available for MMIS modules, rather than only when the entire MMIS system is completed and operational. We have promulgated regulatory guidance at § 433.112(b) that MMIS development be modular. The states are accordingly taking a phased approach, with the procurement of a module or modules occurring at different times.

We believe in the reusability of existing or shared components so in the case that technology products exist that can be used for MMIS or E&E, we want to encourage that by allowing FFP for the developmental costs of integrating existing or shared components as part of the MMIS or E&E systems. We clarify that, while E&E system investments must be approved beforehand in order to be eligible for the enhanced FFP, the MMIS system certification requirements are not applicable at this time.

We will provide a series of artifacts, supporting tools, documentation and diagrams to the states as part of our technical assistance, monitoring and governance of MMIS systems design and development. It is also our intent to work with the states as systems are designed and developed on a continuous basis so that issues and solutions are identified and addressed prior to the certification stage.

We invite comment on our intention to move to a modular certification process for MMIS, based upon the Medicaid Information Technology Architecture (MITA) business processes *http://www.medicaid.gov/Medicaid-CHIP-Program-Information/By-Topics/Data-and-Systems/Medicaid-Information-Technology-Architecture-MITA.html* in order to seek an optimal balance in the use of open source and proprietary commercial off-the-shelf (COTS) software solutions, to further promote reuse, to expand the availability of open source solutions, and to encourage the use of shared services. Modular MMIS certification would allow the states to access the 75 percent FFP for maintenance and operations of the certified module(s) prior to having completed their total MMIS system replacement.

We are also seeking comment on the advantages and disadvantages of certifying MMIS modules, versus whole systems. We believe that certifying MMIS modules will remove the barrier to entry for many small IT solution vendors, increase the availability of certified modules in the market for the states to choose from, and create an incentive for the states to take a modular approach both in IT architecture and in procurement strategy. We are soliciting comments on the opportunities that a modular MMIS certification process may create as well as the challenges that might arise, including defining a finite list of MMIS modules to ensure the appropriate combinations of certification criteria are established.

We also are seeking comments on a model where vendors propose modules

for CMS certification prior to the state installation, unrelated to the question of the state's enhanced match rate for maintenance and operations. We would issue sub-regulatory guidance on how MMIS modules would be defined and how a modular certification process would be implemented.

With regard to all Medicaid IT, we are also seeking comments on how to achieve an effective and efficient balance when approving enhanced FFP for the acquisition of open source and proprietary COTS software and information technology solutions provided in the Medicaid information technology marketplace. 42 U.S.C. 1396b(a)(3)(A), which provides 90 percent FFP for the ''design, development, or installation of such mechanized claims processing and information retrieval systems'' could be interpreted to include use of COTS where that solution would be the more economical and efficient approach. CMS is proposing this approach, acknowledging that it would necessitate an exemption of COTS software (see proposed definition) from 45 CFR 95.617(b) to protect intellectual property. We are seeking comment on the inclusion of COTS software in DDI to further encourage the states to opt for COTS and Software-as-a-Service option, currently matched at 75 percent, rather than ground-up development approaches, which are duplicative and have a potentially much larger total cost over the span of the project. Commenters should take into consideration the costs and benefits to the Medicaid program of any proposed open source or proprietary COTS software solutions, as well as the technological benefits, including requirements for meeting the standards and conditions. Commenters are encouraged to recommend innovative ways to maximize CMS' and the states' ability to share and reuse IT solutions while at the same time ensuring that there are appropriate incentives in the marketplace to provide the best quality and value in IT solutions and services to enhance operation of Medicaid programs nationwide.

Although we would like to encourage the use of COTS software solutions, we are proposing to clarify that states should only claim for the minimum necessary development costs to install and implement COTS. We are seeking to discourage the extra costs of unnecessary customization of COTS software solutions. Thus, we propose to explicitly provide in § 433.112(c)(2) that development costs at the enhanced match rate would only include the minimum necessary to install the COTS software and ensure that other state systems coordinate with the COTS software solution.

Currently, regulations at 45 CFR 95.617(b) provide that the federal government shall have a royalty-free, nonexclusive and irrevocable license to reproduce, publish or otherwise use and to authorize others to use for federal government purposes, software, modifications and documentation that are developed with federal support. We are also seeking comment on requiring that states affirmatively document and make available such software to ensure that others may use it. Commenters should note the infrastructure and resources that would be needed at the state and federal levels to support such a requirement in an effective manner. Commenters should also consider whether public disclosure of some types of Medicaid software systems might compromise enforcement of Medicaid requirements by announcing review strategies.

Consistent with these requirements, and to encourage broader use and reuse of federally funded software, we are also proposing at § 433.112(b)(20) and (21) that software developed with the 90 percent federal match be adequately documented so that it can be operated by contractors and other users, and that states consider strategies to minimize the costs and difficulty of operating the software using alternate hardware or operating systems.

We conduct periodic reviews of the states' MMIS and E&E system functionality and operations. Current regulations at § 433.120 allow for reduction of FFP for system operations from 75 percent to 50 percent if the system fails to meet any or all of the standards and conditions. We are proposing to allow for the FFP reduction to be tailored where appropriate to specific operational expenditures related to the subpar system component rather than only being able to apply it across all operational expenditures. For example, we might reduce the FFP for operational expenditures for a particular sub-system, but not for the whole system. It is conceivable that the FFP reduction could be applied to an increasing percentage of operational expenditures over time as the impact of the system non-compliance grows. We have an established escalation process that includes notice and state appeal rights. We are also proposing to revise current regulations that require the disallowance to be for a minimum of four quarters so that there is no defined timeframe. Furthermore, we propose to remove the restriction on the FFP reduction occurring at least four quarters after the system was initially approved. When providing comments, the states should refer to the definitions found in § 433.111 as they are provided to assist in formulating ideas and suggestions.

C. Proposed Changes to 45 CFR Part 95—General Administration—Grant Programs, Subpart F

In the final rule titled ''State Systems Advance Planning Document (APD) Process'', (75 FR 66319, October 28, 2010), § 95.611 was modified to include an acquisition threshold for prior approval of the state costs at the regular matching rate but noted that equipment or services at the enhanced matching rate necessitated prior approval regardless of the cost. We propose to amend § 95.611 to align all Medicaid IT requirements with existing policy for MMIS regarding prior approvals, such that what is currently acceptable for regular match would be acceptable for enhanced match as well. We propose that if there is already an approved APD, prior approval will be required in order for the state to release acquisition solicitation documents or execute contracts when the contract is anticipated to or will exceed $500,000. For all Medicaid IT acquisition documents, an exemption from prior federal approval shall be assumed in the approval of an APD provided that: The acquisition summary provides sufficient detail to base an exemption request; the acquisition does not deviate from the terms of the exemption; and, the acquisition is not the initial acquisition for a high risk activity, such as software application development. All acquisitions, must comply with the federal provisions contained in § 95.610(c)(1)(viii) and, (c)(2)(vi) or, submit an Acquisition Checklist for prior approval.

For noncompetitive acquisitions, including contract amendments, when the resulting contract is anticipated to exceed $1,000,000, the state will be required to submit a sole source justification in addition to the acquisition document. The sole source justification can be provided as part of the APD.

If the state does not opt for an exemption or submittal of an Acquisition Checklist for the contract, prior to the execution, the state will be required to submit the contract when it is anticipated to exceed the following thresholds, unless specifically exempted by CMS: Software application development—$6,000,000 or more (competitive) and $1,000,000 or more (noncompetitive); Hardware and

Commercial Off-the-Shelf (COTS) software—$20,000,000 or more (competitive) and $1,000,000 or more (noncompetitive); Operations and Software Maintenance acquisitions combined with hardware, COTS or software application development—the thresholds stated in § 95.611(b)(1)(v)(A) and (B) apply.

For contract amendments within the scope of the base contract, unless specifically exempted by the Department, prior to execution of the contract amendment involving contract cost increases which cumulatively exceed 20 percent of the base contract cost.

In addition, we propose to amend § 95.611(a)(2) by removing the reference to 45 CFR 1355.52. This paragraph provides prior approval requirements when states plan to acquire ADP equipment or services with FFP at an enhanced matching rate for the title IV–D, IV–E, and XIX programs, regardless of acquisition costs. We propose to delete the reference to the title IV–E regulation, § 1355.52 because enhanced funding for information systems supporting the title IV–E program expired in 1997.

IV. Collection of Information Requirements

This proposed rule does not contain any new or revised reporting, recordkeeping, or third-party disclosure requirements. Consequently, the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35) and its implementing regulations (5 CFR part 1320) do not apply.

V. Response to Comments

Because of the large number of public comments we normally receive on **Federal Register** documents, we are not able to acknowledge or respond to them individually. We will consider all comments we receive by the date and time specified in the **DATES** section of this preamble, and, when we proceed with a subsequent document, we will respond to the comments in the preamble to that document.

VI. Regulatory Impact Analysis

A. Statement of Need

Experience with the Affordable Care Act implementation has shown that Medicaid eligibility policies and business processes benefit from continued updating and strengthening. System transformations are needed to apply new rules to adjudicate eligibility for the program; enroll millions of newly eligible individuals through multiple channels; renew eligibility for existing enrollees; operate seamlessly with the Health Insurance Marketplaces (''Marketplaces''); participate in a system to verify information from applicants electronically; incorporate a streamlined application used to apply for multiple sources of coverage and financial assistance; and produce notices and communications to applicants and beneficiaries concerning the process, outcomes, and their rights to dispute or appeal.

We wish to ensure that our technology investments result in a high degree of interaction and interoperability in order to maximize value and minimize burden and costs on providers and beneficiaries. Thus, we are committed to providing ongoing 90 percent FFP for design, development, and installation or 75 percent FFP for maintenance and operations of such systems. We have provided that states must commit to a set of standards and conditions in order to receive the enhanced FFP. This enhanced FFP reduces the financial burden on states to 10 percent of the costs compared to the 50 percent financial burden currently in place and ensures that states continue to utilize current technology development and deployment practices and produce reliable business outputs and outcomes.

B. Overall Impact

We have examined the impacts of this rule as required by Executive Order 12866 on Regulatory Planning and Review (September 30, 1993), Executive Order 13563 on Improving Regulation and Regulatory Review (January 18, 2011), the Regulatory Flexibility Act (RFA) (September 19, 1980, Pub. L. 96–354), section 1102(b) of the Act, section 202 of the Unfunded Mandates Reform Act of 1995 (March 22, 1995; Pub. L. 104–4), Executive Order 13132 on Federalism (August 4, 1999) and the Congressional Review Act (5 U.S.C. 804(2)).

Executive Orders 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). Section 3(f) of Executive Order 12866 defines a ''significant regulatory action'' as an action that is likely to result in a rule: (1) (Having an annual effect on the economy of $100 million or more in any 1 year, or adversely and materially affecting a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or state, local or tribal governments or communities (also referred to as ''economically significant''); (2) creating a serious inconsistency or otherwise interfering with an action taken or planned by another agency; (3) materially altering the budgetary impacts of entitlement grants, user fees, or loan programs or the rights and obligations of recipients thereof; or (4) raising novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in the Executive Order.

A regulatory impact analysis (RIA) must be prepared for major rules with economically significant effects ($100 million or more in any 1 year). We estimate that this rulemaking is ''economically significant'' as measured by the $100 million threshold, and hence also a major rule under the Congressional Review Act. Accordingly, we have prepared a Regulatory Impact Analysis that to the best of our ability presents the costs and benefits of the rulemaking.

C. Anticipated Effects

1. While it is difficult to predict state behavior, we believe all states will comply with the standards and conditions proposed in this regulation to receive the 90 percent FFP, and have assumed that for the purpose of these estimates.

In order to meet the requirements of the Affordable Care Act, states, the District of Columbia and the U.S. Territories must build new eligibility and enrollment (E&E) systems or modernize existing E&E systems. Most states have added new functionalities to interface with the Marketplaces and implemented new adaptability standards and conditions (such as incorporation of mandated eligibility categories).

There are currently 9 states that have relatively new E&E systems and do not need replacement of whole systems, but are instead making modular improvements and upgrades. We believe that most states have not had sufficient time to complete the total system replacement for both MAGI and non-MAGI eligibility functionality. We assume that an additional 28 states will quickly move forward to retire their legacy E&E systems with ongoing 90 percent FFP for design and development. Based on previous spending trends, we assume that those 9 states with new systems account for 15 percent of E&E spending and the 28 states that we anticipate retiring their legacy E&E systems account for 55 percent of E&E spending. We believe that by eliminating 28 legacy systems,

we reduce M&O costs by maintaining only one E&E system per state. Eventually, we assume that all states will replace their current E&E legacy system(s) using ongoing 90 percent FFP. To calculate the impact of the regulation, we assumed that new E&E systems on average would cost $50 million over 3 years for each state ($15 million federal costs at 90 percent FFP per year).

States will see a decrease in their net state share due to the enhanced federal match for eligibility systems and states will also realize benefits by putting in place the set of standards and conditions articulated in this proposed regulation.

The state net costs from FY 2016 through 2025 of implementing the proposed regulation on eligibility systems is approximately − $1.1 billion. This includes approximately $572 million in state costs for system design and development, offset by lower anticipated maintenance and operations costs. These costs represent only the state share.

Similar to the federal budget impact, we expect to see higher savings achieved by states over the 10-year budget window due to the increased savings by moving away from operating two or more systems, and replacing legacy systems.

The RFA requires agencies to analyze options for regulatory relief of small entities, if a rule has a significant impact on a substantial number of small entities.

Since this rule would primarily affect states, which are not considered small entities, the Secretary has determined that this proposed rule would not be likely to have a significant economic impact on a substantial number of small entities. Therefore, we have not prepared a regulatory flexibility analysis.

In addition, section 1102(b) of the Act requires us to prepare a regulatory impact analysis if a rule may have a significant impact on the operations of a substantial number of small rural hospitals. This analysis must conform to the provisions of section 603 of the RFA. For purposes of section 1102(b) of the Act, we define a small rural hospital as a hospital that is located outside of a metropolitan statistical area and has fewer than 100 beds. This rule will not have a significant impact on hospitals. Therefore, the Secretary has determined that this proposed rule will not have a significant impact on the operations of a substantial number of small rural hospitals.

Section 202 of the Unfunded Mandates Reform Act of 1995 (UMRA) also requires that agencies assess anticipated costs and benefits before issuing any rule whose mandates require spending in any 1 year of $100 million in 1995 dollars, updated annually for inflation. In 2015, that is approximately $144 million. This rule does not mandate expenditures by the state governments, local governments, tribal governments, or the private sector. This rule provides that states can receive enhanced FFP if states ensure that the mechanized claims processing and information retrieval systems, including those that perform eligibility determination and enrollment activities, as well as the Medicaid portion of integrated eligibility determination systems, meet with certain conditions including migrating to the MITA framework and meeting certain performance requirements. This is a voluntary activity and the rule imposes no substantial mandates on states.

2. The federal net costs from FY 2016 through 2025 of implementing the proposed regulation on eligibility systems is approximately $3 billion. This includes approximately $5.1 billion in increased federal costs for system design and development, offset by lower anticipated maintenance and operations costs. These costs represent only the federal share.

We see lower costs over the 10-year budget window due to the increased savings to operating one E&E system and eliminating legacy systems. The costs shift from mostly 90 percent FFP for design, development, and installation to 75 percent FFP for maintenance and operations over time.

Uncertainty exists because we are unsure of the rate of adoption for states to make the changes in this proposed rule.

We considered a number of ways in which application of the standards and conditions, including increased use of MITA, could result in savings; however, as no states have yet reached MITA maturity, it is difficult to predict the savings that may accrue over any certain timeframe. These areas include the following:

(a) Modular technology solutions: As states, or groups of states, would begin to develop ''modular'' technology solutions, these solutions could be used by others through a ''plug and play'' approach, in which pieces of a new MMIS would not need to be reinvented from scratch every time, but rather, could be incorporated into the MMIS framework.

We assume that savings associated with reusable technology could be achieved in both the development and operation of new systems.

(b) Increased use of industry standards and open source technologies: While HIPAA administrative transaction standards have existed for 8 to 10 years, use of more specific industry standards to build new systems would allow such systems to exchange information seamlessly. We also believe that more open source technology would encourage the development of software solutions that address the needs of a variety of diverse activities—such as eligibility, member enrollment, and pharmacy analysis of drug claims. Software that is sufficiently flexible to meet different needs and perform different functions could result in cost savings, as states are able to use the systems without making major adaptations to them.

(c) Maintenance and operations: As states continue to implement changes, the maintenance and operation costs of new systems should decrease. Less maintenance should be required than that necessary to reengineer special, highly customized systems every time there is a new regulatory or legal requirement.

(d) Reengineering business processes, more web based solutions, service-oriented architecture (SOA): Savings are likely to result from the modular design and operation of systems, combined with use of standardized business processes, as states are being compelled to rethink and streamline processes as a result of greater reliance on technology.

There are uncertainties regarding our assumptions, including state behavior, and the associated cost estimates with respect to states implementing new systems. However, we have based our assumptions on data on states' previous behavior, spending and advance planning documents over the last 4 years. It is important to point out that we believe that systems transformation is necessary to meet the vision of the Affordable Care Act and consequently, these costs provide for efficient systems that in the end would provide for more efficient and effective administration of the state plan.

D. Alternatives Considered

We considered as an alternative to our proposed rule to not continue to provide enhanced match for state eligibility systems builds after December 2015, and to not update federal standards and conditions for Medicaid IT development. We also considered an extension for a 2 or 3 year timeline but deduced that it was both insufficient for states to effectively transition out of their legacy systems and to complete human services integration in the new shared eligibility system. Furthermore,

this assumes that all significant policy changes that trigger the need for IT updates were limited to those in the Affordable Care Act, however systems reforms are an on-going facet of eligibility policy with an accompanying ongoing financial burden. A limited extension would also ignore that states that already modernized and did not replace their systems starting in 2011 will eventually need to do so in order to maintain system integrity and modernity sometime after a two or three year extension. Absent an ongoing extension, states would receive the traditional 50 percent FFP for reasonable administrative expenditures for designing, developing, installing, or enhancing Medicaid eligibility determination systems. Similarly, states would receive 50 percent FFP for expenditures associated with the maintenance and operation of such systems. However, states would have to continue to meet the requirements of federal legislation. Since the Affordable Care Act significantly alters Medicaid eligibility, we believe that treating eligibility and enrollment systems as an integral part of mechanized claims processing system and information retrieval systems is consistent with the federal statute. This would have the effect of continuing the higher federal matching rate, which would provide states additional resources to meet this challenge. In addition, the federal guidance in the form of clearer federal standards and conditions would facilitate the design, development, implementation, and operation of IT and systems projects that fully support the Medicaid program, including the new responsibilities under the Affordable Care Act. Supporting the transformation of Medicaid eligibility and enrollment systems through these enhanced funding and clearer federal guidelines will also reduce duplication of systems and overall system costs.

E. Accounting Statement and Table

Whenever a rule is considered a significant rule under Executive Order 12866, we are required to develop an Accounting Statement. We have prepared an accounting statement showing the classification of the expenditures associated with the provisions of this rule. Tables 1 through 5 provides our best estimate of the net costs as a result of the changes presented in this rule.

TABLE 1—FEDERAL NET COSTS

Category	Estimates	Units		
		Year dollar	Discount rate (%)	Period covered
Annualized Monetized ($million/year)	444.3	2016	7	2016–2025
	363.6	2016	3	2016–2025

TABLE 2—FEDERAL NET COSTS BY FISCAL YEAR

[In millions]

	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	2016–2025
E&E Systems—DDI	1,788	2,192	333	277	184	143	89	47	44	44	5,141
E&E Systems—M&O	(19)	(19)	(95)	(120)	(165)	(298)	(325)	(344)	(360)	(367)	(2112)
Total	1,769	2,173	238	157	19	(155)	(236)	(298)	(315)	(323)	3029

* Numbers in parentheses represent savings to the federal government.

TABLE 3—STATE NET COSTS

Category	Estimates	Units		
		Year dollar	Discount rate (%)	Period covered
Annualized Monetized ($million/year)	−81.2	2016	7	2016–2025
	−99.1	2016	3	2016–2025

TABLE 4—STATE NET COSTS BY FISCAL YEAR

[In millions]

	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	2016–2025

* Numbers in parentheses represent savings to State Governments.

TABLE 5—ESTIMATED NET PRESENT VALUE OF FEDERAL COSTS, FY 2016–2025

[In millions of dollars]

	Discount rate	
	7%	3%
Federal Costs NPV	$3,120.6	$3,101.8
State Costs NPV	−$570.7	−$845.5

F. Conclusion

We considered a number of ways in which application of the standards and conditions, including increased use of MITA, could result in savings. We see increased investments in DDI somewhat offset by lower costs over the 10-year budget window due to the increased savings to operating one E&E system and eliminating legacy systems. The costs shift from mostly 90 percent FFP for design, development, and installation to 75 percent FFP for maintenance and operations over time.

The federal net costs from FY 2016 through 2025 of implementing the proposed regulation on eligibility systems is approximately $3 billion. This includes approximately $5.1 billion in increased federal costs for system design and development, offset by lower anticipated maintenance and operations costs. The state net costs from FY 2016 through 2025 of implementing the proposed regulation on eligibility systems is approximately − $1.1 billion. This includes approximately $572 million in state costs for system design and development, offset by lower anticipated maintenance and operations costs.

There are uncertainties regarding our assumptions, including state behavior, and the associated cost estimates with respect to states implementing new systems. However, we have based our assumptions on data on states' previous behavior, spending and advance planning documents over the last 4 years. It is important to point out that we believe that systems transformation is necessary to meet the vision of the Affordable Care Act and consequently, these costs are necessary and would provide for efficient systems that in the end would provide for more efficient and effective administration of the state plan.

The analysis above, together with the remainder of this preamble, provides a Regulatory Impact Analysis. The reason to refer to other portions of the preamble is that they include sections, such as the statutory authority and purpose that are required but are not normally included in the impact analysis section.

In accordance with the provisions of Executive Order 12866, this regulation was reviewed by the Office of Management and Budget.

List of Subjects

42 CFR Part 433

Administrative practice and procedure, Child support claims, Grant programs-health, Medicaid, Reporting and recordkeeping requirements.

45 CFR Part 95

Claims, Computer technology, Grant programs-health, Grant programs-social programs, Reporting and recordkeeping requirements, Social security.

For the reasons set forth in the preamble, the Centers for Medicare & Medicaid Services proposes to amend 42 CFR chapter IV as set forth below:

PART 433—STATE FISCAL ADMINISTRATION

■ 1. The authority citation for part 433 continues to read as follows:

Authority: Sec. 1102 of the Social Security Act (42 U.S.C. 1302).

§ 433.110 [Amended]

■ 2. In § 433.110—

■ a. Amend paragraph (a)(1) by removing the reference ''45 CFR part 74'' and adding in its place ''45 CFR part 92.''

■ b. Remove paragraphs (a)(2)(ii) and (iii).

■ c. Remove and reserve paragraph (b).

■ 3. Section 433.111 is amended by revising paragraph (b) and adding paragraphs (d) through (h) to read as follows:

§ 433.111 Definitions.

* * * * *

(b) ''Mechanized claims processing and information retrieval system'', or ''system'' means the system of software and hardware used to process claims for medical assistance and to retrieve and produce service utilization and management information required by the Medicaid single state agency and Federal government for program administration and audit purposes.

(1) The system consists of—

(i) Required subsystems specified by the Secretary.

(ii) Required changes to the system or required subsystem that are specified by the Secretary.

(iii) Approved enhancements to the system or subsystem.

(2) A ''Mechanized claims processing and information retrieval system'' may include

(i) An eligibility and enrollment system, or ''E&E system'', used to process initial claims (applications) from Medicaid or CHIP applicants and beneficiaries for eligibility for enrollment in the Medicaid or CHIP programs, as well as change in circumstance updates and renewals; and/or

(ii) A claims system, or MMIS, used to process claims for Medicaid payment from providers of medical care and services furnished to beneficiaries under the medical assistance program.

* * * * *

(d) ''Open source'' means software that can be used freely, changed, and shared (in modified or unmodified form) by anyone. Open source software is distributed under Open Source Initiative-approved licenses that comply with an open source framework that allows for free redistribution, provision of the source code, allowance for modifications and derived works, free and open distribution of licenses without restrictions and licenses that are technology-neutral.

(e) ''Proprietary'' means closed source software licensed under exclusive legal right of the copyright holder with the intent that the licensee is given the right to use the software only under certain conditions, and restricted from other uses, such as modification, sharing, studying, redistribution, or reverse engineering.

(f) ''Shared Services'' means the provision of a service by one part of an organization or group where that service had previously been found in more than one part of the organization or group. Thus the funding and resourcing of the service is shared and the providing department effectively becomes an internal service provider.

(g) ''MMIS Module'' refers to a group of MMIS business processes that can be implemented through a collection of IT functionality.

(h) ''Commercial Off the Shelf (COTS) software'' refers to specialized software designed for specific applications that is available for sale or lease to other users in the commercial marketplace, and that can be used with little or no modification. COTS software does not include software developed specifically for public assistance programs.

■ 4. Section 433.112 is amended by revising paragraphs (b) introductory text, (b)(12), (b)(16), and (c); and, adding paragraphs (b)(17) through (b)(22) to read as follows:

§ 433.112 FFP for design, development, installation or enhancement of mechanized processing and information retrieval systems.

* * * * *

(b) CMS will approve the E&E or claims system described in an APD if certain conditions are met. The conditions that a system, whether a claims or E&E system, must meet are:

* * * * *

(12) The agency ensures alignment with, and incorporation of, industry standards adopted by the Office of the National Coordinator for Health IT in accordance with 45 CFR part 170, subpart B: The HIPAA privacy, security and transaction standards; accessibility standards established under section 508 of the Rehabilitation Act, or standards that provide greater accessibility for individuals with disabilities, and compliance with Federal civil rights laws; standards adopted by the Secretary under section 1104 of the Affordable Care Act; and standards and protocols adopted by the Secretary under section 1561 of the Affordable Care Act.

* * * * *

(16) The system supports seamless coordination and integration with the Marketplace, the Federal Data Services Hub, and allows interoperability with health information exchanges, public health agencies, human services programs, and community organizations providing outreach and enrollment assistance services as applicable.

(17) For eligibility and enrollment systems, the State must have delivered acceptable MAGI-based system functionality, demonstrated by performance testing and results based on critical success factors, with limited mitigations and workarounds.

(18) The State must submit plans that contain strategies for reducing the operational consequences of failure to meet applicable requirements for all major milestones and functionality.

(19) The agency, in writing through the APD, must identify key personnel by type and time commitment assigned to each project.

(20) Systems and MMIS modules developed, installed or improved with 90 percent match must include documentation of components and procedures such that the systems could be operated by a variety of contractors or other users.

(21) For software systems and MMIS modules developed, installed or improved with 90 percent match, the State must consider strategies to minimize the costs and difficulty of operating the software on alternate hardware or operating systems.

(22) Other conditions as required by the Secretary.

(c) (1) FFP is available at 90 percent of a state's expenditures for the design, development, installation or enhancement of an eligibility and enrollment system that meets the requirements of this subpart and only for costs incurred for goods and services provided on or after April 19, 2011.

(2) Design, development, installation or enhancement costs include costs to procure commercial off-the-shelf (COTS) software, but should only include the minimum necessary costs to analyze the suitability of COTS software, install and integrate the COTS software, and modify non-COTS software to ensure coordination of operations. The nature and extent of such costs must be expressly described in the approved APD.

■ 5. Section 433.116 is amended by revising paragraphs (b) and (c) to read as follows:

§ 433.116 FFP for operation of mechanized claims processing and information retrieval systems.

* * * * *

(b) CMS will approve enhanced FFP for system operations if the conditions specified in paragraphs (c) through (i) of this section are met.

(c) The conditions of § 433.112(b)(1) through (22) must be met at the time of approval.

* * * * *

■ 6. Section 433.119 is amended by revising paragraph (a)(1) to read as follows:

§ 433.119 Conditions for reapproval; notice of decision.

(a) * * *

(1) The system meets the requirements of § 433.112(b)(1), (3), (4), and (7) through (22).

* * * * *

■ 7. Section 433.120 is revised to read as follows:

§ 433.120 Procedures for reduction of FFP after reapproval review.

(a) If CMS determines after the reapproval review that the system no longer meets the conditions for reapproval in § 433.119, CMS will reduce FFP for certain expenditures for system operations.

(b) CMS will reduce FFP from 75 percent to 50 percent for expenditures related to the operations of non-compliant functionality or system components.

For the reasons set forth in the preamble, the Department of Health and Human Services proposes to amend 45 CFR part 95 as set forth below:

PART 95—GENERAL ADMINISTRATION—GRANT PROGRAMS (PUBLIC ASSISTANCE, MEDICAL ASSISTANCE AND STATE CHILDREN'S HEALTH INSURANCE PROGRAMS)

■ 8. The authority citation for part 95 continues to read as follows:

Authority: 5 U.S.C. 301, 42 U.S.C. 622(b), 629b(a), 652(a), 652(d), 654A, 671(a), 1302, and 1396a(a).

■ 9. Section 95.611 is amended by revising paragraph (a)(2) to read as follows:

§ 95.611 Prior approval conditions.

(a) * * *

(2) A State shall obtain prior approval from the Department which is reflected in a record, as specified in paragraph (b) of this section, when the State plans to acquire ADP equipment or services with proposed FFP at the enhanced matching rate subject to one of the following:

(i) If authorized by 45 CFR 205.35 and 45 CFR part 307, regardless of the acquisition cost.

(ii) If authorized by 42 CFR part 433, subpart C, if the contract is anticipated to or will exceed $500,000.

* * * * *

Dated: March 11, 2015.

Andrew M. Slavitt,

Acting Administrator, Centers for Medicare & Medicaid Services.

Dated: March 27, 2015.

Sylvia M. Burwell,

Secretary, Department of Health and Human Services.

Notices

Federal Register
Vol. 80, No. 73
Thursday, April 16, 2015

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Forest Service

Tongass Advisory Committee

AGENCY: Forest Service, USDA.

ACTION: Notice of meeting.

SUMMARY: The Tongass Advisory Committee (Committee) will meet in Ketchikan, Alaska. The Committee is established consistent with the Federal Advisory Committee Act of 1972 (5 U.S.C. App. 2). Committee recommendations and advice may directly inform the development of a proposed action for modification of the 2008 Tongass Land Management Plan. The meeting is open to the public. Additional information concerning the Committee, including the meeting summary/minutes, can be found by visiting the Committee's Web site at: *http://www.fs.usda.gov/goto/R10/Tongass/TAC.*

DATES: The meeting will be held on:

- Wednesday, May 6, 2015 from 8:30 a.m. to 5:00 p.m. (AKDT).
- Thursday, May 7, 2015 from 8:30 a.m. to 5:00 p.m. (AKDT).
- Friday, May 8, 2015 from 8:30 a.m. to 4:00 p.m. (AKDT).

All meetings are subject to change and cancellation. For updated status of the meetings prior to attendance, please visit the Web site listed in the **SUMMARY** section, or contact the person listed under **FOR FURTHER INFORMATION CONTACT**.

ADDRESSES: The meetings will be held in the Ted Ferry Civic Center, 888 Venetia Avenue, Ketchikan, AK 99901. Written comments may be submitted as described under **SUPPLEMENTARY INFORMATION**. All comments, including names and addresses when provided, are placed in the record and available for public inspection and copying. The public may inspect comments received at the Tongass National Forest Office. Please call ahead to facilitate entry into the building.

FOR FURTHER INFORMATION CONTACT: Marina Whitacre, Committee Coordinator, by phone at 907–772–5934, or by email at *mwhitacre@fs.fed.us.* Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339 between 8:00 a.m. and 8:00 p.m., Eastern Standard Time, Monday through Friday.

SUPPLEMENTARY INFORMATION: The purpose of the meeting is to:

1. Finish work on the draft package of recommendations;
2. Formally adopt the recommendations to be transmitted to the Secretary of Agriculture;
3. Finalize communications strategy to publicize the recommendations; and
4. Identify near-term implementation next steps and clarify the role of the TAC going forward.

There will be time allotted on the agenda for oral public comment. Those interested can register at the meeting. In addition, written statements may be filed with the Committee's staff before or after the meeting. Written comments may also be submitted by mail to Jason Anderson, Designated Federal Officer, Tongass National Forest, P.O. Box 309, Petersburg, Alaska 99833; or email to *jasonanderson@fs.fed.us,* or facsimile to 907–772–5895. Summary/minutes of the meeting will be posted on the Web site listed above within 45 days after the meeting.

Meeting Accommodations: If you are a person requiring reasonable accommodation, please make requests in advance for sign language interpreting, assistive listening devices or other reasonable accommodation for access to the facility or proceedings by contacting the person listed in the section titled **FOR FURTHER INFORMATION CONTACT**. All reasonable accommodation requests are managed on a case-by-case basis.

Dated: April 8, 2015.

Jason Anderson,

Deputy Forest Supervisor, Tongass National Forest.

BILLING CODE 3411–15–P

DEPARTMENT OF AGRICULTURE

Forest Service

Forest Resource Coordinating Committee

AGENCY: Forest Service, USDA.

ACTION: Notice of meeting.

SUMMARY: The Forest Resource Coordinating Committee (Committee) will meet via teleconference. The Committee is established consistent with the Federal Advisory Committee Act of 1972 (FACA) (5 U.S.C. App. II), and the Food, Conservation, and Energy Act of 2008 (the Act) (Pub. L. 110–246). Additional information concerning the Committee, including the meeting agenda, supporting documents and minutes, can be found by visiting the Committee's Web site at *http://www.fs.fed.us/spf/coop/frcc/.*

DATES: The teleconference will be held on May 20, 2015 from 12:00 p.m. to 1:00 p.m., Eastern Daylight Time (EDT). The meeting is subject to cancellation. For status of the meeting prior to attendance, please contact the person listed under the **FOR FURTHER INFORMATION CONTACT** section.

ADDRESSES: The meeting will be held via teleconference. For anyone who would like to attend the teleconference, please visit the Web site listed in the **SUMMARY** section or contact Andrea Bedell-Loucks at *abloucks@fs.fed.us* for further details. Written comments may be submitted as described under **SUPPLEMENTARY INFORMATION** section. All comments, including names and addresses when provided, are placed in the record and are available for public inspection and copying. The public may inspect comments placed on the Committee's Web site listed above.

FOR FURTHER INFORMATION CONTACT: Andrea Bedell-Loucks, Designated Federal Officer, Cooperative Forestry staff, 202–205–1190. Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339 between 8:00 a.m. and 8:00 p.m., Eastern Standard Time, Monday through Friday.

SUPPLEMENTARY INFORMATION: The purpose of the meeting is to:

1. Finalize recommendations and cover letter, and
2. Report out from team developing outreach packet.

The teleconference is open to the public. However, the public is strongly encouraged to RSVP prior to the teleconference to ensure all related documents are shared with public meeting participants. The agenda will include time for people to make oral statements of three minutes or less. Individuals wishing to make an oral statement should submit a request in writing 10 days before the planned meeting to be scheduled on the agenda. Anyone who would like to bring related matters to the attention of the Committee may file written statements with the Committee staff before or after the meeting. Written comments and time requests for oral comments must be sent to Laurie Schoonhoven, 1400 Independence Avenue SW., Mailstop 1123, Washington, DC 20250 or by email to *lschoonhoven@fs.fed.us.* A summary of the meeting will be posted on the Web site listed above within 21 days after the meeting.

Meeting Accommodations: If you are a person requiring reasonable accommodation, please make requests in advance for sign language interpreting, assistive listening devices or other reasonable accommodation for access to the facility or proceedings by contacting the person listed in the section titled **FOR FURTHER INFORMATION CONTACT**. All reasonable accommodation requests are managed on a case by case basis.

Dated: April 9, 2015.

Patricia Hirami,

Associate Deputy Chief, State and Private Forestry.

DEPARTMENT OF AGRICULTURE

National Agricultural Statistics Service

Notice of Intent To Discontinue the Annual Publication of the Prices Paid Data

AGENCY: National Agricultural Statistics Service, USDA.

ACTION: Notice of intent to discontinue the annual publication of prices paid data in the April *Prices* report. NASS will continue to publish monthly Prices Paid Indexes.

SUMMARY: This notice announces the intention of the National Agricultural Statistics Service (NASS) to discontinue the publication of annual prices paid data. These data include prices paid for fuels, feed, seeds, fertilizer, machinery, and chemicals. These prices were published each year in the April Agricultural *Prices* report. NASS will continue to collect data on prices paid by farmers and use those data to generate the monthly indexes published in the monthly *Prices* report. The Prices Paid surveys and publications are approved under OMB #0535–0003.

FOR FURTHER INFORMATION CONTACT: R. Renee Picanso, Associate Administrator, National Agricultural Statistics Service, U.S. Department of Agriculture, (202) 720–4333, or through the NASS OMB Clearance Officer at *ombofficer@nass.usda.gov.*

SUPPLEMENTARY INFORMATION:

Title: Discontinuation of the Prices Paid Data found in the April 2015 Agricultural *Prices* publication.

OMB Control Numbers: 0535–0003.

Expiration Dates of Approval: May 31, 2016.

Type of Request: To discontinue the publication of data from the Prices Paid Surveys.

Abstract: The primary functions of the National Agricultural Statistics Service include the collection of data and the preparation and issuance of state and national estimates of crop and livestock production, disposition, prices, and environmental and economic factors. On March 11, 2015, NASS announced via agricultural news media, Prices report subscribers and its Web site that it would be modifying the Agricultural Prices program. *www.nass.usda.gov/Newsroom/Notices/03_11_2015a.asp.*

For more information about the NASS Prices program, visit: *www.nass.usda.gov/Surveys/Guide_to_NASS_Surveys/Prices/index.asp*

Agricultural farm input price data for 2014 and prior years are available at *www.nass.usda.gov.*

Timeline: NASS will discontinue this information publication as of April 16, 2015.

Authority: These data were collected under authority of 7 U.S.C. 2204(a) (General Duties of the Secretary of Agriculture). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents.

Estimate of Burden: There will be no change in public reporting burden for this collection of information.

Signed at Washington, DC, April 1, 2015.

Joseph T. Reilly,

Administrator.

[FR Doc. 2015–08785 Filed 4–15–15; 8:45 am]

BILLING CODE 3410–20–P

DEPARTMENT OF AGRICULTURE

National Agricultural Statistics Service

Notice of Intent To Request Revision and Extension of a Currently Approved Information Collection

AGENCY: National Agricultural Statistics Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the intention of the National Agricultural Statistics Service (NASS) to request revision and extension of a currently approved information collection for Field Crops Production. Revision to burden hours will be needed due to changes in the size of the target population, sampling design, the combining of several smaller surveys, and/or changes in questionnaire length.

DATES: Comments on this notice must be received by June 15, 2015 to be assured of consideration.

ADDRESSES: You may submit comments, identified by docket number 0535–0002, by any of the following methods:

- Email: *ombofficer@nass.usda.gov.* Include docket number above in the subject line of the message.
- Efax: (855) 838–6382.
- Mail: Mail any paper, disk, or CD–ROM submissions to: David Hancock, NASS Clearance Officer, U.S. Department of Agriculture, Room 5336 South Building, 1400 Independence Avenue SW., Washington, DC 20250–2024.
- Hand Delivery/Courier: Hand deliver to: David Hancock, NASS Clearance Officer, U.S. Department of Agriculture, Room 5336 South Building, 1400 Independence Avenue SW., Washington, DC 20250–2024.

FOR FURTHER INFORMATION CONTACT: R. Renee Picanso, Associate Administrator, National Agricultural Statistics Service, U.S. Department of Agriculture, (202) 720–4333. Copies of this information collection and related instructions can be obtained without charge from David Hancock, NASS Clearance Officer, at (202) 690–2388 or at *ombofficer@nass.usda.gov.*

SUPPLEMENTARY INFORMATION:

Title: Field Crops Production.

OMB Control Number: 0535–0002.

Expiration Date of Approval: August 31, 2015.

Type of Request: Intent to Seek Approval to Revise and Extend an Information Collection for 3 years.

Abstract: The primary objective of the National Agricultural Statistics Service

is to prepare and issue State and national estimates of crop and livestock production, prices, and disposition. The Field Crops Production Program consists of probability field crops surveys and supplemental panel surveys. The panel surveys capture unique crop characteristics such as the concentration of crops in localized geographical areas. These surveys are extremely valuable for commodities where acreage and yield are published at the county level.

Several of the smaller surveys will be discontinued with this approval. The Alaska Acreage and Production Survey and the Alaska Spring Acreage Survey have been incorporated into the County Estimates Survey and the Quarterly Crops/Stocks surveys. The Sweet Potato Buyers Survey, the Tobacco Forecast Survey, and the Tobacco Buyer Survey have been discontinued, and the data will be collected through the Sweet Potato Price Survey, the Quarterly Crops/Stocks surveys, and the Tobacco Price Inquiry respectively. The total burden has been increased to account for the cover letter and the internet access instruction sheet that will be mailed out to the target samples.

Authority: These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995, Pub. L. 104–13 (44 U.S.C. 3501, *et seq.*) and Office of Management and Budget regulations at 5 CFR part 1320.

NASS also complies with OMB Implementation Guidance, ''Implementation Guidance for Title V of the E-Government Act, Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA),'' **Federal Register**, Vol. 72, No. 115, June 15, 2007, p. 33362.

Estimate of Burden: Public reporting burden for this information collection is based on a group of similar surveys with expected response times of 5–20 minutes and a frequency of 1–40 times per year. Estimated number of responses per respondent is 1.27.

Respondents: Farmers and Ranchers.

Estimated Total Number of Respondents: 626,000.

Estimated Total Annual Burden on Respondents: 194,000 hours.

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, through the use of appropriate automated, electronic, mechanical, technological or other forms of information technology collection methods.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, DC, April 1, 2015.

Joseph T. Reilly,

Administrator.

BILLING CODE 3410–20–P

COMMISSION ON CIVIL RIGHTS

Notice of Public Meeting of the Oklahoma Advisory Committee for a Meeting To Discuss and Vote Upon a Project Proposal Regarding the School to Prison Pipeline in Oklahoma

AGENCY: U.S. Commission on Civil Rights.

ACTION: Notice of meeting.

SUMMARY: Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights (Commission) and the Federal Advisory Committee Act that the Oklahoma Advisory Committee (Committee) will hold a meeting on Friday, May 1, 2015, at 1:30 p.m. CST for the purpose of discussing the potential speakers and logistics for a July meeting on the school to prison pipeline.

Members of the public can listen to the discussion. This meeting is available to the public through the following toll-free call-in number: 888–811–5436, conference ID: 3877995. Any interested member of the public may call this number and listen to the meeting. An open comment period will be provided to allow members of the public to make a statement as time allows. The conference call operator will ask callers to identify themselves, the organization they are affiliated with (if any), and an email address prior to placing callers into the conference room. Callers can expect to incur charges for calls they initiate over wireless lines, and the Commission will not refund any incurred charges. Callers will incur no charge for calls they initiate over land-line connections to the toll-free telephone number. Persons with hearing impairments may also follow the proceedings by first calling the Federal Relay Service at 1–800–977–8339 and providing the Service with the conference call number and conference ID number.

Member of the public are also entitled to submit written comments; the comments must be received in the regional office by April 27, 2015. Written comments may be mailed to the Midwestern Regional Office, U.S. Commission on Civil Rights, 55 W. Monroe St., Suite 410, Chicago, IL 60615. They may also be faxed to the Commission at (312) 353–8324, or emailed to Administrative Assistant, Carolyn Allen at *callen@usccr.gov.* Persons who desire additional information may contact the Midwestern Regional Office at (312) 353–8311.

Records generated from this meeting may be inspected and reproduced at the Midwestern Regional Office, as they become available, both before and after the meeting. Records of the meeting will be available via *www.facadatabase.gov* under the Commission on Civil Rights, Oklahoma Advisory Committee link. Persons interested in the work of this Committee are directed to the Commission's Web site, *http://www.usccr.gov,* or may contact the Midwestern Regional Office at the above email or street address.

Agenda

Welcome and Introductions—3:00 p.m. to 3:05 p.m.; Vicki Limas, Chair

Discussion of Proposal on School to Prison Pipeline in Oklahoma—3:05 p.m. to 3:35 p.m.; Oklahoma Advisory Committee

Planning Next Steps—3:35 p.m. to 4:00 p.m.

Adjournment—4:00 p.m.

DATES: The meeting will be held on Friday, May 1, 2015, at 3:00 p.m.

Public Call Information

Dial: 888–466–4462

Conference ID: 7610695

Dated March 3, 2015.

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Order No. 1976]

Reorganization of Foreign-Trade Zone 80 Under Alternative Site Framework San Antonio, Texas

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a–81u), the Foreign-Trade Zones Board (the Board) adopts the following Order:

Whereas, the Board adopted the alternative site framework (ASF) (15 CFR 400.2(c)) as an option for the establishment or reorganization of zones;

Whereas, the City of San Antonio, grantee of Foreign-Trade Zone 80, submitted an application to the Board (FTZ Docket B–77–2014, docketed October 22, 2014) for authority to reorganize under the ASF with a service area of Bexar County in its entirety and portions of Comal and Guadalupe Counties, Texas, in and adjacent to the San Antonio Customs and Border Protection port of entry, to renumber existing Site 7A as Site 7, to renumber existing Site 7B as Site 11, and FTZ 80's Sites 1 through 11 (as renumbered) would be categorized as magnet sites;

Whereas, notice inviting public comment was given in the **Federal Register** (79 FR 64169, October 28, 2014) and the application has been processed pursuant to the FTZ Act and the Board's regulations; and,

Whereas, the Board adopts the findings and recommendation of the examiner's report, and finds that the requirements of the FTZ Act and the Board's regulations are satisfied;

Now, Therefore, the Board hereby orders:

The application to reorganize FTZ 80 under the ASF is approved, subject to the FTZ Act and the Board's regulations, including § 400.13, to the Board's standard 2,000-acre activation limit for the zone, and to an ASF sunset provision for magnet sites that would terminate authority for Sites 1, 2, 4, 5, 6, 7, 8, 9, 10 and 11 if not activated within five years from the month of approval.

Signed at Washington, DC, this 9th day of April, 2015.

Ronald K. Lorentzen,

Acting Assistant Secretary of Commerce for Enforcement and Compliance, Alternate Chairman, Foreign-Trade Zones Board.

Attest:

Andrew McGilvray,

Executive Secretary.

BILLING CODE 3510–DS–P

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[Order No. 1972]

Reorganization of Foreign-Trade Zone 71 Under Alternative Site Framework Windsor Locks, Connecticut

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a–81u), the Foreign-Trade Zones Board (the Board) adopts the following Order:

Whereas, the Board adopted the alternative site framework (ASF) (15 CFR Sec. 400.2(c)) as an option for the establishment or reorganization of zones;

Whereas, the Economic and Industrial Development Commission of Windsor Locks, grantee of FTZ 71, submitted an application to the Board (FTZ Docket B–73–2014, docketed 10–15–2014) for authority to reorganize under the ASF with a service area of the Counties of Hartford, Middlesex, Windham, Tolland and Litchfield, Connecticut, adjacent to the Hartford Customs and Border Protection port of entry, and FTZ 71's existing Sites 1 and 2 would be categorized as magnet sites;

Whereas, notice inviting public comment was given in the **Federal**

Register (79 FR 62940, 10–21–2014) and the application has been processed pursuant to the FTZ Act and the Board's regulations; and,

Whereas, the Board adopts the findings and recommendations of the examiner's report, and finds that the requirements of the FTZ Act and the Board's regulations are satisfied;

Now, therefore, the Board hereby orders:

The application to reorganize FTZ 71 under the ASF is approved, subject to the FTZ Act and the Board's regulations, including Section 400.13, to the Board's standard 2,000-acre activation limit for the zone, and to an ASF sunset provision for magnet sites that would terminate authority for Site 2 if not activated within five years from the month of approval.

Signed at Washington, DC, this 9th day of April 2015.

Ronald K. Lorentzen,

Acting Assistant Secretary of Commerce, for Enforcement and Compliance Alternate Chairman, Foreign-Trade Zones Board.

Attest:

Andrew McGilvray,

Executive Secretary.

Foreign-Trade Zones Board

[Order No. 1973]

Reorganization of Foreign-Trade Zone 263 Under Alternative Site Framework Lewiston-Auburn, Maine

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a–81u), the Foreign-Trade Zones Board (the Board) adopts the following Order:

Whereas, the Board adopted the alternative site framework (ASF) (15 CFR 400.2(c)) as an option for the establishment or reorganization of zones;

Whereas, the Lewiston-Auburn Economic Growth Council, grantee of FTZ 263, submitted an application to the Board (FTZ Docket B–64–2014, docketed 09–11–2014) for authority to reorganize under the ASF with a service area of the Counties of Androscoggin, Cumberland, and Sagadahoc, Maine, within and adjacent to the Portland Customs and Border Protection port of entry, and FTZ 263's existing Sites 1 and 2 would be categorized as magnet sites;

Whereas, notice inviting public comment was given in the **Federal Register** (79 FR 56057, 09–18–2014) and the application has been processed pursuant to the FTZ Act and the Board's regulations; and,

Whereas, the Board adopts the findings and recommendations of the examiner's report, and finds that the requirements of the FTZ Act and the Board's regulations are satisfied;

Now, therefore, the Board hereby orders:

The application to reorganize FTZ 263 under the ASF is approved, subject to the FTZ Act and the Board's regulations, including Section 400.13, to the Board's standard 2,000-acre activation limit for the zone, and to an ASF sunset provision for magnet sites that would terminate authority for Site 2 if not activated within five years from the month of approval.

Signed at Washington, DC, this 9th day of April 2015.

Ronald K. Lorentzen,

Acting Assistant Secretary of Commerce for Enforcement and Compliance, Alternate Chairman, Foreign-Trade Zones Board.

BILLING CODE 3510–DS–P

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[B–21–2015]

Proposed Foreign-Trade Zone—Western Kentucky Under Alternative Site Framework

An application has been submitted to the Foreign-Trade Zones (FTZ) Board by the Paducah McCracken County Riverport Authority to establish a foreign-trade zone adjacent to the Evansville, Indiana CBP port of entry, under the alternative site framework (ASF) adopted by the FTZ Board (15 CFR 400.2(c)). The ASF is an option for grantees for the establishment or reorganization of zones and can permit significantly greater flexibility in the designation of new ''subzones'' or ''usage-driven'' FTZ sites for operators/users located within a grantee's ''service area'' in the context of the FTZ Board's standard 2,000-acre activation limit for a zone project. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u), and the regulations of the Board (15 CFR part 400). It was formally docketed on April 10, 2015. The applicant is authorized to make the proposal under the Kentucky Revised Statutes, Section 65.530.

The proposed zone would be the third zone for the Evansville CBP port of entry. The existing zones are as follows: FTZ 146, Lawrence County, Illinois (Grantee: Bi-State Authority, Board Order 371, 2/11/1988); and, FTZ 177, Evansville, Indiana (Grantee: Ports of Indiana, Board Order 513, 3/12/1991).

The applicant's proposed service area under the ASF would be portions of McCracken and Livingston Counties. If approved, the applicant would be able to serve sites throughout the service area based on companies' needs for FTZ designation. The applicant has stated that the proposed service area is adjacent to the Evansville Customs and Border Protection port of entry.

The proposed zone would include one ''magnet'' site: Proposed Site 1 (30 acres)—Paducah/McCracken Riverport, 2000 Wayne Sullivan Drive, Paducah, McCracken County.

The application indicates a need for zone services in the Western Kentucky area. Specific production approvals are not being sought at this time. Such requests would be made to the FTZ Board on a case-by-case basis.

In accordance with the FTZ Board's regulations, Elizabeth Whiteman of the FTZ Staff is designated examiner to evaluate and analyze the facts and information presented in the application and case record and to report findings and recommendations to the FTZ Board.

Public comment is invited from interested parties. Submissions shall be addressed to the FTZ Board's Executive Secretary at the address below. The closing period for their receipt is June 15, 2015. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to June 30, 2015.

A copy of the application will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230–0002, and in the ''Reading Room'' section of the FTZ Board's Web site, which is accessible via *www.trade.gov/ftz.*

FOR FURTHER INFORMATION CONTACT: Elizabeth Whiteman at *Elizabeth.Whiteman@trade.gov* or (202) 482–0473.

Dated: April 10, 2015.

Andrew McGilvray,

Executive Secretary.

[A–570–887]

Tetrahydrofurfuryl Alcohol From the People's Republic of China: Continuation of Antidumping Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determinations made by the Department of Commerce (the ''Department'') and the International Trade Commission (the ''ITC'') that revocation of the antidumping duty (''AD'') order on tetrahydrofurfuryl alcohol (''THFA'') from the People's Republic of China (''PRC'') would likely lead to a continuation or recurrence of dumping and material injury to an industry in the United States, the Department is publishing a notice of continuation of the antidumping duty order.

DATES: *Effective Date:* April 16, 2015.

FOR FURTHER INFORMATION CONTACT: Paul Stolz, AD/CVD Operations, Office III, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482–4474.

SUPPLEMENTARY INFORMATION:

Background

On June 18, 2004, the Department published the final determination of sales at less than fair value on THFA from the PRC in the United States.[1] On August 6, 2004, the Department published the AD *Order* with respect to imports of THFA from the PRC.[2]

There have been no administrative reviews since issuance of the AD *Order.* There have been no related findings or rulings (*e.g.,* changed circumstances review, scope ruling, duty absorption review, *etc.*) since issuance of the *Order.* The *Order* remains in effect for all producers and exporters of subject merchandise.

On November 5, 2009, the final results of the first expedited sunset review of THFA published in the **Federal Register.**[3] In the *First Sunset,* the Department found that revocation of the AD *Order* would be likely to lead to continuation or recurrence of dumping.[4] In addition, the ITC determined, pursuant to section 751(c) of the Tariff Act of 1930, as amended (''Act''), that revocation of the AD *Order* would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.[5] Thus, the Department published the notice of continuation of the AD *Order* on December 16, 2009.[6]

On November 3, 2014, the Department initiated the second sunset review of the AD *Order* on THFA from the PRC pursuant to section 751(c) of the Act.[7] As a result of its review, the Department determined that revocation of the antidumping duty order on THFA from the PRC would likely lead to a continuation or recurrence of dumping and, therefore, notified the ITC of the magnitude of the margins likely to prevail should the order be revoked.[8] On April 9, 2015, the ITC published its determination, pursuant to section 751(c) of the Act, that revocation of the antidumping duty order on THFA from the PRC would likely lead to a continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.[9]

Scope of the Order

The product covered by this order is THFA ($C_5H_{10}O_2$). THFA, a primary alcohol, is a clear, water white to pale yellow liquid. THFA is a member of the heterocyclic compounds known as furans and is miscible with water and soluble in many common organic solvents. THFA is currently classifiable in the Harmonized Tariff Schedules of the United States (''HTSUS'') under subheading 2932.13.00.00. Although the HTSUS subheadings are provided for convenience and for customs purposes, the Department's written description of the merchandise subject to the order is dispositive.

Continuation of the Order

As a result of the determinations by the Department and the ITC that revocation of the AD order would likely lead to a continuation or recurrence of dumping and material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act, the Department hereby orders the continuation of the AD *Order* on THFA from the PRC. U.S. Customs and Border Protection will continue to collect AD cash deposits at the rates in effect at the time of entry for all imports of subject merchandise. The effective date of the continuation of the order will be the date of publication in the **Federal Register** of this notice of continuation. Pursuant to section 751(c)(2) of the Act, the Department intends to initiate the next five-year review of the order not later than 30 days prior to the fifth anniversary of the effective date of continuation.

This five-year (''sunset'') review and this notice are in accordance with section 751(c) of the Act and published pursuant to section 777(i)(1) of the Act.

Dated: April 10, 2015.

Ronald K. Lorentzen,

Acting Assistant Secretary for Enforcement and Compliance.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Evaluation of State Coastal Management Programs

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Office for Coastal Management, National Ocean Service, Commerce.

ACTION: Notice of intent to evaluate.

SUMMARY: The NOAA Office for Coastal Management announces its intent to evaluate the performance of the Puerto Rico Coastal Zone Management Program.

Coastal Zone Management Program evaluations are conducted pursuant to section 312 of the Coastal Zone Management Act of 1972, as amended (CZMA) and regulations at 15 CFR part 923, subpart L. The CZMA requires

continuing review of the performance of states and territories with respect to coastal program implementation. Evaluation of a Coastal Management Program requires findings concerning the extent to which a state or territory has met the national objectives, adhered to its Coastal Management Program document approved by the Secretary of Commerce, and adhered to the terms of financial assistance awards funded under the CZMA.

The evaluations will include a public meeting, consideration of written public comments and consultations with interested Federal, state, and local agencies and members of the public. When the evaluation is completed, the Office for Coastal Management will place a notice in the **Federal Register** announcing the availability of the Final Evaluation Findings. Notice is hereby given of the date, local time, and location of the public meeting.

Date and Time: The Puerto Rico Coastal Zone Management Program public meeting will be held on Wednesday, May 13, 2015 at 5:00 p.m. local time at the Environmental Agencies Building, PR–8838 Km. 6.3, El Cinco, Rio Piedras, San Juan, Puerto Rico.

ADDRESSES: Copies of the most recent performance report, as well as the Office for Coastal Management evaluation notification letter to the territory, are available upon request. Written comments from interested parties are encouraged and will be accepted until May 22, 2015. Please direct written comments to Carrie Hall, Evaluator, Planning and Performance Measurement Program, Office for Coastal Management, NOS/NOAA, 1305 East-West Highway, 11th Floor, N/OCM1, Silver Spring, Maryland 20910, or *Carrie.Hall@noaa.gov.*

FOR FURTHER INFORMATION CONTACT: Carrie Hall, Evaluator, Planning and Performance Measurement Program, Office for Coastal Management, NOS/NOAA, 1305 East-West Highway, 11th Floor, N/OCM1, Silver Spring, Maryland 20910, or *Carrie.Hall@noaa.gov.*

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Evaluation of State Coastal Management Programs

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Office for Coastal Management, National Ocean Service, Commerce.

ACTION: Notice of intent to evaluate and notice of availability of final findings.

SUMMARY: The NOAA Office for Coastal Management announces its intent to evaluate the performance of the American Samoa, Ohio, and Virginia Coastal Management Programs.

The Coastal Zone Management Program evaluations will be conducted pursuant to section 312 of the Coastal Zone Management Act of 1972, as amended (CZMA) and regulations at 15 CFR part 923, subpart L. The CZMA requires continuing review of the performance of states with respect to coastal program implementation. Evaluation of a Coastal Management Program requires findings concerning the extent to which a state has met the national objectives, adhered to its Coastal Management Program document approved by the Secretary of Commerce, and adhered to the terms of financial assistance awards funded under the CZMA.

The evaluations will include a public meeting, consideration of written public comments and consultations with interested Federal, state, and local agencies and members of the public. When the evaluation is completed, the Office for Coastal Management will place a notice in the **Federal Register** announcing the availability of the Final Evaluation Findings. Notice is hereby given of the date, local time, and location of the public meeting.

DATES: *Date and Time:* The American Samoa Coastal Management Program public meeting will be held on Wednesday, May 27, 2015 at 5:00 p.m. local time at the North Wing of the Lee Auditorium.

The Ohio Coastal Management Program public meeting will be held on Wednesday, May 20, 2015, at 5:30 p.m. at the Ritter Public Library—Community Meeting Room, 5680 Liberty Avenue, Vermilion, OH 44089.

The Virginia Coastal Management Program public meeting will be held on Tuesday, May 12, 2015 at 5:00 p.m. at the Virginia Department of Environmental Quality, 2nd Floor Training Room, 629 E. Main St., Richmond, VA 23219.

ADDRESSES: Copies of each state's most recent performance report, as well as the Office for Coastal Management evaluation notification letter to the state, are available upon request. Written comments from interested parties regarding these programs are encouraged and will be accepted until June 5, 2015 for the American Samoa Coastal Management Program, May 29, 2015 for the Ohio Coastal Management Program, and May 15, 2015 for the Virginia Coastal Management Program. Please direct written comments to Carrie Hall, Evaluator, Planning and Performance Measurement Program, Office for Coastal Management, NOS/NOAA, 1305 East-West Highway, 11th Floor, N/OCM1, Silver Spring, Maryland 20910, or *Carrie.Hall@noaa.gov.*

SUPPLEMENTARY INFORMATION: Notice is hereby given of the availability of the final evaluation findings for the Connecticut, Massachusetts, and Michigan Coastal Management Programs (CMPs) and Waquoit Bay National Estuarine Research Reserve (NERR). Sections 312 and 315 of the CZMA, as amended, require a continuing review of the performance of coastal states with respect to approval of CMPs and the operation and management of NERRs. The states of Connecticut, Massachusetts, and Michigan were found to be implementing and enforcing their federally approved coastal management programs, addressing the national coastal management objectives identified in CZMA Section 303(2)(A)–(K), and adhering to the programmatic terms of their financial assistance awards. The Waquoit Bay NERR was found to be adhering to programmatic requirements of the NERR System.

Copies of these final evaluation findings may be downloaded at *http://coast.noaa.gov/czm/evaluations/evaluation_findings/index.html* or obtained upon written request from: Carrie Hall, Evaluator, Planning and Performance Measurement Program, Office for Coastal Management, NOS/NOAA, 1305 East-West Highway, 11th Floor, N/OCM1, Silver Spring, Maryland 20910, or *Carrie.Hall@noaa.gov.*

FOR FURTHER INFORMATION CONTACT: Carrie Hall, Evaluator, Planning and Performance Measurement Program, Office for Coastal Management, NOS/NOAA, 1305 East-West Highway, 11th Floor, N/OCM1, Silver Spring, Maryland 20910, or *Carrie.Hall@noaa.gov.*

Evaluation of National Estuarine Research Reserve

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Office for Coastal Management, National Ocean Service, Commerce.

ACTION: Notice of intent to evaluate and notice of availability of final findings.

SUMMARY: The NOAA Office for Coastal Management (OCM) announces its intent to evaluate the performance of the San Francisco Bay National Estuarine Research Reserve.

The National Estuarine Research Reserve evaluation will be conducted pursuant to sections 312 and 315 of the CZMA and regulations at 15 CFR part 921, subpart E and part 923, subpart L. Evaluation of a National Estuarine Research Reserve requires findings concerning the extent to which a state has met the national objectives, adhered to its Reserve final management plan approved by the Secretary of Commerce, and adhered to the terms of financial assistance awards funded under the CZMA.

The evaluation will include a public meeting, consideration of written public comments and consultations with interested Federal, state, and local agencies and members of the public. When the evaluation is completed, OCM will place a notice in the **Federal Register** announcing the availability of the Final Evaluation Findings. Notice is hereby given of the date, local time, and location of the public meeting.

DATE AND TIME: The San Francisco Bay National Estuarine Research Reserve public meeting will be held June 8, 2015, at 4:00 p.m. at the Bay Conference Center, Romberg Tiburon Center, 3152 Paradise Drive, Tiburon, CA 94920.

ADDRESSES: Copies of the reserve's most recent performance report, as well as OCM's evaluation notification letter to the state, are available upon request from OCM. Written comments from interested parties regarding these programs are encouraged and will be accepted until June 19, 2015. Please direct written comments to Carrie Hall, Evaluator, Planning and Performance Measurement Program, Office for Coastal Management, NOS/NOAA, 1305 East-West Highway, 11th Floor, N/OCM1, Silver Spring, Maryland 20910, or *Carrie.Hall@noaa.gov.*

SUPPLEMENTARY INFORMATION: Notice is hereby given of the availability of the final evaluation findings for the Texas Coastal Management Program. Sections 312 and 315 of the CZMA, as amended, require a continuing review of the performance of coastal states with respect to approval of CMPs. The state of Texas was found to be implementing and enforcing its federally approved coastal management program, addressing the national coastal management objectives identified in CZMA Section 303(2)(A)–(K), and adhering to the programmatic terms of financial assistance awards.

Copies of the final evaluation findings may be downloaded at *http://coast.noaa.gov/czm/evaluations/evaluation_findings/index.html* or obtained upon written request from: Carrie Hall, Evaluator, Planning and Performance Measurement Program, Office for Coastal Management, NOS/NOAA, 1305 East-West Highway, 11th Floor, N/OCM1, Silver Spring, Maryland 20910, or *Carrie.Hall@noaa.gov.*

General Advisory Committee and Scientific Advisory Subcommittee to the U.S. Section to the Inter-American Tropical Tuna Commission; Meeting Announcement

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: NMFS announces a public meeting of the Scientific Advisory Subcommittee (SAS) to the U.S. Section to the Inter-American Tropical Tuna Commission (IATTC) on June 2, 2015, and a meeting of the General Advisory Committee (GAC) to the U.S. Section to the IATTC on June 3, 2015. The meeting topics are described under the **SUPPLEMENTARY INFORMATION** section of this notice.

DATES: The meeting of the SAS will be held on June 2, 2015, from 11 a.m. to 5 p.m. PDT (or until business is concluded). The meeting of the GAC will be held on June 3, 2015, from 8:30 a.m. to 5 p.m. PDT (or until business is concluded).

ADDRESSES: Both meetings will be held in the Pacific Conference Room (Room 300) at NMFS, Southwest Fisheries Science Center, 8901 La Jolla Shores Drive, La Jolla, California 92037–1508. Please notify Taylor Debevec if you plan to attend either meeting. The meetings will be accessible by webinar—instructions will be emailed to meeting participants.

FOR FURTHER INFORMATION CONTACT: Taylor Debevec, West Coast Region, NMFS, at *Taylor.Debevec@noaa.gov,* or at (562) 980–4066.

SUPPLEMENTARY INFORMATION:

In accordance with the Tuna Conventions Act, 16 U.S.C. 953, the U.S. Department of State has appointed a General Advisory Committee (GAC) and a Scientific Advisory Subcommittee (SAS) to the U.S. Section to the IATTC. The U.S. Section consists of four U.S. Commissioners to the IATTC and a representative of the Deputy Assistant Secretary of State for Oceans and Fisheries. The GAC and SAS support the U.S. Section to the IATTC in an advisory capacity; in particular, they provide advice on the development of U.S. policies and positions. NMFS West Coast Region provides administrative support for the GAC and SAS in

cooperation with the U.S. Department of State. The meetings of the GAC and SAS are open to the public. The time and manner of public comment will be at the discretion of the chairs for the GAC and SAS.

The 89th meeting of the IATTC, the 31st Meeting of the Parties to the Agreement on the International Dolphin Conservation Program (AIDCP), as well as working group meetings for both the AIDCP and IATTC will be held in Guayaquil, Ecuador, from June 22 to July 3, 2015. For more information on these meeting, please visit the IATTC's Web site: *https://www.iattc.org/MeetingsENG.htm.*

SAS and GAC Meeting Topics

The SAS meeting topics will include, but are not limited to, the following:

(1) Outcomes of the 2015 Scientific Advisory Committee (SAC) to the IATTC (*e.g.,* stock status updates for tuna, tuna-like species, and other species caught in association with those fisheries in the eastern Pacific Ocean);

(2) Issues related to the impact of fishing on non-target species, such as shark, seabirds, sea turtles;

(3) Evaluation of the IATTC staff's recommended conservation measures for 2015;

(4) U.S. proposals for the 89th meeting of the IATTC, and proposals from other IATTC members; and

(5) Other issues as they arise.

The GAC meeting topics will include, but are not limited to, the following:

(1) Outcomes of the 2015 SAC to the IATTC (*e.g.,* stock status updates for tuna, tuna-like species, and other species caught in association with those fisheries in the eastern Pacific Ocean);

(2) Recent U.S. regulations that could affect tuna and tuna-like fisheries in the eastern Pacific Ocean;

(3) The status of U.S legislation to implement the Antigua Convention;

(4) Input from the SAS;

(5) Formulation of advice on issues that may arise at the upcoming 89th meeting of the IATTC, including: IATTC staff's recommended conservation measures, U.S. proposals, and proposals from other IATTC members; and

(6) Other issues as they arise.

Special Accommodations

The meeting location is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Taylor Debevec (see **FOR FURTHER INFORMATION CONTACT**) by May 18, 2015.

Authority: 16 U.S.C. 951 *et seq.*

Dated: April 13, 2015.

North Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The North Pacific Fishery Management Council's (NPFMC) Bering Sea Aleutian Islands (BSAI) Crab Plan Team (CPT) will meet in Anchorage, AK.

DATES: The meeting will be held May 4–7, 2015, from 9 a.m. to 5 p.m.

ADDRESSES: The meeting will be held at the Anchorage Hilton Hotel, 500 W 3rd Avenue, King Salmon/Illiamna Room, Anchorage, AK.

Council address: North Pacific Fishery Management Council, 605 W. 4th Avenue, Suite 306, Anchorage, AK 99501–2252.

FOR FURTHER INFORMATION CONTACT: Sarah Marrinan; telephone: (907) 271–2809.

SUPPLEMENTARY INFORMATION: The Plan Team will review final assessments for Aleutian Island Golden King Crab, Pribilof Island Golden King Crab, and Western Aleutian Red King Crab and recommend Overfishing Levels (OFLs) and Acceptable Biological Catch (ABCs) for these stocks. Model scenarios will be presented for Snow crab, Bristol Bay Red King Crab, Tanner Crab, Saint Matthew Blue King Crab and Pribilof Red King Crab. Additional topics include an update on progress on generic modeling framework for Alaskan crab stocks (GMACs) applications to Bristol Bay Red King Crab, the forthcoming Center for Independent Experts (CIE) review as well as recommendations on the Eastern Bering Sea survey time series, and update on Golden King crab research in the Aleutian Islands and recommendations on 2015 Research Priorities. The Plan Team will also receive a presentation of biological considerations relative to the 10 year crab rationalization program review.

The Agenda is subject to change, and the latest version will be posted at *http://www.npfmc.org/.*

Although non-emergency issues not contained in this agenda may come before these groups for discussion, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Gail Bendixen at (907) 271–2809 at least 7 working days prior to the meeting date.

Dated: April 13, 2015.

DATES: The meeting will be held on Tuesday, May 5, 2015, from 2 p.m. to 5 p.m., via internet webinar.

ADDRESSES: The meeting will be held via webinar with a telephone-only connection option.

Council address: Mid-Atlantic Fishery Management Council, 800 N. State St., Suite 201, Dover, DE 19901; telephone: (302) 674–2331.

FOR FURTHER INFORMATION CONTACT: Christopher M. Moore, Ph.D., Executive Director, Mid-Atlantic Fishery Management Council; telephone: (302) 526–5255. The Council's Web site,

www.mafmc.org will have details on the proposed agenda, webinar access, and briefing materials.

SUPPLEMENTARY INFORMATION: The purpose of this meeting is for the Law Enforcement Committee to discuss enforcement issues related to the Council's Deep Sea Corals Amendment, including the enforceability of current amendment alternatives. Comments and recommendations from the Law Enforcement Committee will be forwarded to the full Council prior to the Council taking final action on the Deep Sea Corals Amendment.

Although non-emergency issues not contained in this agenda may come before this group for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), those issues may not be the subject of formal action during this meeting. Actions will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Webinar and phone connection information, a detailed agenda, and any briefing materials will be posted at *www.mafmc.org* prior to the meeting. Background information and documents for the Deep Sea Corals Amendment can be found at: *http://www.mafmc.org/actions/msb/am16.*

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aid should be directed to M. Jan Saunders, (302) 526–5251, at least 5 days prior to the meeting date.

Dated: April 13, 2015.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648–XD862

Fisheries of the Gulf of Mexico; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 43 assessment webinar for Gulf of Mexico Gray Triggerfish.

SUMMARY: The SEDAR assessment of the Gulf of Mexico Gray Triggerfish will consist of one in-person workshop and a series of webinars. See **SUPPLEMENTARY INFORMATION**.

DATES: The SEDAR Assessment webinar I will be held May 4, 2015 from 9 a.m. to 11 a.m. Eastern Time. The established time may be adjusted as necessary to accommodate the timely completion of discussion relevant to the assessment process. Such adjustments may result in the meeting being extended from, or completed prior to the time established by this notice.

ADDRESSES: The meeting will be held via webinar. The webinar is open to members of the public. Those interested in participating should contact Julie A. Neer at SEDAR (see **FOR FURTHER INFORMATION CONTACT**) to request an invitation providing webinar access information. Please request webinar invitations at least 24 hours in advance of each webinar.

SEDAR address: 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Julie A. Neer, SEDAR Coordinator; phone: (843) 571–4366; email: *Julie.neer@safmc.net.*

SUPPLEMENTARY INFORMATION:

The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data/Assessment Workshop, and (2) a series of webinars. The product of the Data/Assessment Workshop is a report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses, and describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion in the Assessment Process webinars are as follows:

1. Using datasets and initial assessment analysis recommended from the In-person Workshop, panelists will employ assessment models to evaluate stock status, estimate population benchmarks and management criteria, and project future conditions.
2. Panelists will recommend the most appropriate methods and configurations for determining stock status and estimating population parameters.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 10 business days prior to each workshop.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: April 13, 2015.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510–22–P

COMMODITY FUTURES TRADING COMMISSION

Agency Information Collection Activities: Notice of Intent To Renew Collection 3038–0013, Exemptions From Speculative Limits

AGENCY: Commodity Futures Trading Commission.

ACTION: Notice.

SUMMARY: The Commodity Futures Trading Commission (''Commission'' or ''CFTC'') is announcing an opportunity for public comment on the proposed collection of certain information by the agency. Under the Paperwork Reduction Act of 1995 (''PRA''), Federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, and to allow 60 days for public comment in response to the notice. This notice solicits comments on exemptions from speculative limits.

DATES: Comments must be submitted on or before June 15, 2015.

ADDRESSES: You may submit comments, identified by ''Exemptions from Speculative Limits,'' OMB Control No. 3038–0013, by any of the following methods:

• The Agency's Web site, at *http://comments.cftc.gov/.* Follow the instructions for submitting comments through the Web site.

• *Mail:* Christopher Kirkpatrick, Secretary of the Commission, Commodity Futures Trading Commission, Three Lafayette Centre, 1155 21st Street NW., Washington, DC 20581.

• *Hand Delivery/Courier:* Same as Mail, above.

• *Federal eRulemaking Portal: http://www.regulations.gov.* Follow the instructions for submitting comments through the Portal.

Please submit your comments using only one method.

FOR FURTHER INFORMATION CONTACT: Hannah Ropp, Surveillance Analyst, Division of Market Oversight, Commodity Futures Trading Commission, Three Lafayette Centre, 1155 21st Street NW., Washington, DC 20581; phone: (202) 418–5228; fax: (202) 418–5507; email: *hropp@cftc.gov.*

SUPPLEMENTARY INFORMATION: Under the PRA, Federal agencies must obtain approval from the Office of Management and Budget (''OMB'') for each collection of information they conduct or sponsor. ''Collection of information'' is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA, 44 U.S.C. 3506(c)(2)(A), requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, the CFTC is publishing notice of the proposed collection of information listed below.[1]

Title: Exemptions from Speculative Limits (OMB Control No. 3038–0013). This is a request for extension of a currently approved information collection.

Abstract: Section 4a(a) of the Commodity Exchange Act (''Act'') allows the Commission to set speculative limits in any commodity for future delivery in order to prevent excessive speculation. Certain sections of the Act and/or the Commission's regulations allow exemptions from the speculative limits for persons using the market for hedging and, under certain circumstances, for commodity pool operators and similar traders. This information collection contains the recordkeeping and reporting requirements needed to ensure regulatory compliance with Commission rules relating to this issue.

With respect to the following collection of information, the CFTC invites comments on:

• Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have a practical use;

• The accuracy of the Commission's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

• Ways to enhance the quality, usefulness, and clarity of the information to be collected; and

• Ways to minimize the burden of collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology; *e.g.,* permitting electronic submission of responses.

All comments must be submitted in English, or if not, accompanied by an English translation. Comments will be posted as received to *http://www.cftc.gov.* You should submit only information that you wish to make available publicly. If you wish the Commission to consider information that you believe is exempt from disclosure under the Freedom of Information Act, a petition for confidential treatment of the exempt information may be submitted according to the procedures established in § 145.9 of the Commission's regulations.[2]

The Commission reserves the right, but shall have no obligation, to review, pre-screen, filter, redact, refuse or remove any or all of your submission from *http://www.cftc.gov* that it may deem to be inappropriate for publication, such as obscene language. All submissions that have been redacted or removed that contain comments on the merits of the Information Collection Request will be retained in the public comment file and will be considered as required under the Administrative Procedure Act and other applicable laws, and may be accessible under the Freedom of Information Act.

Burden Statement: The respondent burden for this collection is estimated to be 3 hours per response. These estimates include the time to locate the information related to the exemptions and to file necessary exemption paperwork.

Respondents/Affected Entities: Swap Dealers, Large Traders, and other entities affected by Rules 1.47 and 1.48 and part 150 of the Commission's regulations.

Estimated number of respondents: 9.

Estimated total annual burden on respondents: 48 hours.

Frequency of collection: 1–2 reports annually.

There are no capital costs or operating and maintenance costs associated with this collection.

Authority: 44 U.S.C. 3501 *et seq.*

Dated: April 10, 2015.

Christopher J. Kirkpatrick,

Secretary of the Commission.

[FR Doc. 2015–08706 Filed 4–15–15; 8:45 am]

BILLING CODE 6351–01–P

[1] This notice does not solicit comment on the proposed amendments to this collection that may result from the proposal titled Position Limits for Derivatives (78 FR 75680, Dec. 12, 2013). Comments on the Paperwork Reduction Act implications of the Position Limits for Derivatives proposal were solicited through the proposal itself, the comment period for which (as extended and reopened) closed on March 30, 2015.

DEPARTMENT OF EDUCATION

Applications for New Awards; State Tribal Education Partnership Program

AGENCY: Office of Elementary and Secondary Education, Department of Education

ACTION: Notice.

Overview Information

State Tribal Education Partnership Program (STEP) Notice inviting applications for new awards for fiscal year (FY) 2015.

Catalog of Federal Domestic Assistance (CFDA) Number: 84.415A.

DATES:

Applications Available: April 16, 2015.

Date of Pre-Application Webinar: April 30, 2015.

Deadline for Notice of Intent to Apply: May 21, 2015.

Deadline for Transmittal of Applications: June 15, 2015.

Deadline for Intergovernmental Review: August 14, 2015.

Deadline for Submission of Final Agreement: March 31, 2016.

Full Text of Announcement

I. Funding Opportunity Description

Purposes of Program: The purposes of this program are to: (1) Promote increased collaboration between tribal education agencies (TEAs) and the State educational agencies (SEAs) and local educational agencies (LEAs) that serve students from the affected tribes; and (2) build the capacity of TEAs to conduct certain administrative functions under certain Elementary and Secondary Education Act of 1965 (ESEA) formula grant programs for eligible schools, as determined by the TEA, SEA, and LEA.

Priorities: These priorities are from the notice of final priorities, requirements, definitions, and selection criteria for this program (NFP), published in the **Federal Register** on March 4, 2015 (80 FR 11550).

Absolute Priorities: For FY 2015 and any subsequent year in which we make awards based on the list of unfunded applicants from this competition, these priorities are absolute priorities. Under 34 CFR 75.105(c)(3) we consider only applications that meet these priorities.

These priorities are:

Priority 1—Established TEAs.

To meet this priority, a TEA must be an established TEA.

Priority 2—TEAs with Limited Prior Experience.

To meet this priority, a TEA with limited prior experience is, for any STEP competition, a TEA that does not meet the definition of an ''established TEA.''

Requirements: Applicants must meet the following requirements from the NFP:

Schools and ESEA Formula Grant Programs Included in Project:

(a) *Schools.* (1) Projects must include at least two eligible schools, at least one of which must be a public school.

(2) All schools included in the project must receive services or funds for the specific ESEA formula grant program(s) selected by the applicant.

(3) For projects that include one or more tribally controlled schools—

(i) The applicant TEA must include in its application evidence that it submitted a copy of the application to BIE; and

(ii) If the proposed project includes SEA-type functions with regard to the tribally controlled school, the TEA may be required by BIE to enter into an agreement with BIE, to be submitted to the Department at the same time as the final agreement.

(b) *ESEA Formula Grant Programs.* Projects must include at least one ESEA formula grant program that is State-administered.

Preliminary Agreement: An applicant must submit with its application for funding a signed preliminary agreement among the TEA, SEA, and LEA. Letters of support from an SEA or LEA will not meet this requirement and will not be accepted as a substitute.

The preliminary agreement must include:

(a) An explanation of how the parties will work collaboratively to:

(1) Administer selected ESEA formula grant programs in eligible schools; and

(2) Cooperate on administering other educational programs or services as agreed to by the parties.

(b) The primary ESEA formula grant program(s) for which the TEA will assume SEA-type or LEA-type administrative functions;

(c) A description of the primary SEA-type or LEA-type administrative functions that the TEA will assume;

(d) The training and other activities that the SEA or LEA, as appropriate, will provide for the TEA to gain the knowledge and skills needed to administer ESEA formula programs;

(e) The assistance that the TEA will provide to the SEA or LEA, as appropriate, to facilitate the project, such as cultural competence training;

(f) A statement concerning student data that—

(1) Acknowledges that access by the TEA to data on students who are tribal members is important to building the capacity of the TEA, and, depending on the project design, may be one of the factors the Secretary considers in determining whether a grantee has made substantial progress in achieving the goals and objectives of the project for the purpose of making continuation awards; and

(2) Commits the parties to making their best efforts to:

(i) Participate in training and technical assistance, provided by or through the Department, on the requirements of section 444 of the General Education Provisions Act (commonly referred to as the Family Educational Rights and Privacy Act, or FERPA) and on the possible ways in which the TEA could be provided access to tribal student data consistent with FERPA; and

(ii) Reach agreement on and include as part of the Final Agreement to be submitted during year 1 of the grant, a provision on data sharing that is consistent with FERPA, if data sharing is required by the project design;

(g) The names of at least one LEA and two or more eligible schools, at least one of which must be a public school, that are expected to participate in the project;

(h) An explanation of how the STEP funds will be used to build on existing activities or add new activities rather than replace tribal or other funds; and

(i) Signatures of the authorized representatives of the TEA, SEA, participating LEA(s), and any BIE-funded tribally controlled school that is included in the project.

Final Agreement: Each grantee must submit to the Department a final agreement by March 31, 2016. The final agreement must contain:

(a) All of the elements from the preliminary agreement, in final form;

(b) A timetable for accomplishing each of the objectives and activities that the parties will undertake;

(c) Goals of the project and measureable objectives towards reaching the goals; and

(d) The actions that the parties will take to sustain the relationships and activities established in the agreement after the project ends.

ISDEAA Hiring Preference:

(a) Awards that are primarily for the benefit of Indians are subject to the provisions of section 7(b) of the Indian Self-Determination and Education Assistance Act (Pub. L. 93–638). That section requires that, to the greatest extent feasible, a grantee—

(1) Give to Indians preferences and opportunities for training and employment in connection with the administration of the grant; and

(2) Give to Indian organizations and to Indian-owned economic enterprises, as defined in section 3 of the Indian Financing Act of 1974 (25 U.S.C. 1452(e)), preference in the award of contracts in connection with the administration of the grant.

(b) For purposes of this section, an Indian is a member of any federally recognized Indian tribe.

Definitions: The following definitions are from the NFP and apply to this competition:

Cultural competency means the use of culturally responsive education that takes into account a student's own cultural experiences, creates connections between home and school experiences, and uses the cultural

knowledge, prior experiences, and learning styles of diverse students to make learning more appropriate and effective.

Eligible Indian tribe means a federally recognized or a State-recognized tribe.

Eligible school means a school that is included in the applicant's preliminary and final agreements, and that is:

(a) A public school, including a public charter school, or

(b) A BIE-funded tribally controlled school.

Established TEA means, for purposes of this competition, a TEA that:

(a) Previously received a STEP grant, or

(b) Has an existing prior relationship with an SEA or LEA as evidenced by a prior written agreement between the TEA and SEA or LEA, and meets two or more of the following criteria:

(i) Has an existing tribal education code;

(ii) Has administered at least one education program (for example, a tribally operated preschool or afterschool program) within the past five years; or

(iii) Has administered at least one Federal, State, local, or private grant within the past five years.

ESEA formula grant program means one of the following programs authorized under the ESEA, for which SEAs or LEAs receive formula funding:

(a) Improving Academic Achievement of the Disadvantaged (title I, part A);

(b) School Improvement Grants (section 1003(g));

(c) Migrant Education (title I, part C);

(d) Neglected and Delinquent State Grants (title I, part D);

(e) Improving Teacher Quality State Grants (title II, part A);

(f) English Learner Education State Grants (title III, part A);

(g) 21st Century Community Learning Centers (title IV, part B); and

(h) Indian Education Formula Grants (title VII, part A).

Note: State-administered ESEA formula grant programs are the programs identified in paragraphs (a)–(g) of the definition of *ESEA formula grant program.* If an applicant chooses the Indian Education Formula Grants program (title VII, part A), which makes direct grants to LEAs, it must also choose at least one State-administered program listed in (a)–(g), as required by paragraph (b) of *Schools and ESEA Formula Grant Programs Included in Project,* in the *Requirements* section of this notice. Applicants can still choose SEA- or LEA-type functions for the State-administered ESEA formula grant.

LEA-type function means the type of activity that LEAs typically conduct, such as direct provision of educational services to students, grant implementation, school district curriculum development, staff professional development pursuant to State guidelines, and data submissions.

SEA-type function means the type of activity that SEAs typically conduct, such as overall education policy development, supervision and monitoring of school districts, provision of technical assistance to districts, statewide curriculum development, collecting and analyzing performance data, and evaluating programs.

Tribal educational agency (TEA) means the agency, department, or instrumentality of an eligible Indian tribe that is primarily responsible for supporting tribal students' elementary and secondary education, which may include early learning.

Program Authority: 20 U.S.C. 7451(a)(4).

Applicable Regulations: (a) The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 75, 77, 79, 81, 82, 84, 86, 97, 98, and 99. (b) The OMB Guidelines to Agencies on Government-wide Debarment and Suspension (Non-procurement) in 2 CFR part 180, as adopted and amended as regulations of the Department in 2 CFR part 3485. (c) The Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards in 2 CFR part 200, as adopted and amended in 2 CFR part 3474. (d) The NFP published in the **Federal Register** on March 4, 2015 (80 FR 11550).

Note: The regulations in 34 CFR part 79 apply to all applicants except federally recognized Indian tribes.

II. Award Information

Type of Award: Discretionary grants.

Estimated Available Funds: $1,950,000.

Contingent upon the availability of funds and the quality of applications, we may make additional awards in FY 2016 from the list of unfunded applicants from this competition.

Estimated Range of Awards: Awards for a single TEA range from $150,000 to $330,000; awards for a consortium of TEAs range from $300,000 to $500,000.

Estimated Average Size of Awards: $390,000.

Maximum Award: We will reject any application from a single TEA that proposes a budget exceeding $330,000 for a single budget period of 12 months, or from a consortium of TEAs that proposes a budget exceeding $500,000 for a single budget period of 12 months. The Assistant Secretary for Elementary and Secondary Education may change the maximum amount through a notice published in the **Federal Register**.

Estimated Number of Awards: 4–6.

Note: The Department is not bound by any estimates in this notice.

Project Period: Up to 48 months.

III. Eligibility Information

1. *Eligible Applicants:* (a) A TEA that is from an eligible Indian tribe and authorized by its tribe to administer this program; or (b) a consortium of such TEAs.

To be eligible for an award, an applicant must include, as a part of its application, certification by the eligible Indian tribe that the applicant is the agency, department, or instrumentality of the eligible Indian tribe that is primarily responsible for supporting the elementary and secondary education of the tribe's students.

2. *Cost Sharing or Matching:* This program does not require cost sharing or matching.

3. *Other:* (a) To be eligible for an award, a TEA must submit a preliminary agreement, signed by an SEA and at least one LEA, with its application.

(b) Projects funded under this competition must budget funds for a representative from the TEA, a representative from the SEA, and a representative from at least one LEA to attend a two-day Project Director's meeting in the Washington, DC area during each year of the project period.

IV. Application and Submission Information

1. *Address to Request Application Package:* Shahla Ortega, U.S. Department of Education, Office of Indian Education, 400 Maryland Avenue SW., Room 3W223, Washington, DC 20202. Telephone: (202) 453–5602 or by email: *shahla.ortega@ed.gov.*

To obtain a copy of the application package via the Internet, use the following address: *http://www2.ed.gov/programs/step/index.html.*

If you use a telecommunications device for the deaf (TDD) or a text telephone (TTY), call the Federal Relay Service (FRS), toll free, at 1–800–877–8339.

Individuals with disabilities can obtain a copy of the application package in an accessible format (*e.g.,* braille, large print, audiotape, or compact disc) by contacting the program contact person listed in this section.

2. *Content and Form of Application Submission:* Requirements concerning the content of an application, together with the forms you must submit, are in the application package for this competition.

Notice of Intent to Apply: The Department will be able to review grant applications more efficiently if we know the approximate number of applicants that intend to apply. Therefore, the Assistant Secretary strongly encourages each potential applicant to notify us of their intent to submit an application for funding no later than May 21, 2015. To do so, please email *shahla.ortega@ed.gov* with the subject line ''Intent to Apply,'' and include the following information:

1. Applicant's name, mailing address, and phone number;
2. Contact person's name and email address;
3. Name of SEA; and
4. Whether the applicant intends to apply as a single TEA or a consortium of TEAs.

Applicants that do not submit a notice of intent to apply may still apply for funding; applicants that do submit a notice of intent to apply are not bound to apply or bound by the information provided.

Pre-Application Webinar: The Department intends to hold a pre-application webinar designed to provide technical assistance to interested applicants. Information about webinar times and instructions for registering are on the Department Web site at *http://www2.ed.gov/programs/STEP/index.html.*

Page Limit: The project narrative (Part IV) is where you, the applicant, address the selection criteria that reviewers use to evaluate your application. You must limit the project narrative to no more than 50 pages, using the following standards:

- A ''page'' is 8.5″ x 11″, on one side only, with 1'' margins at the top, bottom, and both sides.
- Double space (no more than three lines per vertical inch) all text in the application narrative, including titles, headings, footnotes, quotations, references, and captions, as well as all text in charts, tables, figures, and graphs.
- Use a font that is either 12 point or larger or no smaller than 10 pitch (characters per inch).
- Use one of the following fonts: Times New Roman, Courier, Courier New, or Arial. An application submitted in any other font (including Times Roman or Arial Narrow) will not be accepted.

We will reject your application if you exceed the page limit.

3. *Submission Dates and Times:*

Applications Available: April 16, 2015.

Date of Pre-Application Webinar: April 30, 2015.

Deadline for Notice of Intent to Apply: May 21, 2015.

Deadline for Transmittal of Applications: June 15, 2015.

Deadline for Submission of Final Agreement: March 31, 2016.

Applications for grants under this competition must be submitted electronically using the Grants.gov Apply site (Grants.gov). For information (including dates and times) about how to submit your application electronically, or in paper format by mail or hand delivery if you qualify for an exception to the electronic submission requirement, please refer to section IV. 7. *Other Submission Requirements* of this notice.

We do not consider an application that does not comply with the deadline requirements.

Individuals with disabilities who need an accommodation or auxiliary aid in connection with the application process should contact the person listed under **FOR FURTHER INFORMATION CONTACT** in section VII of this notice. If the Department provides an accommodation or auxiliary aid to an individual with a disability in connection with the application process, the individual's application remains subject to all other requirements and limitations in this notice.

Deadline for Intergovernmental Review: August 14, 2015.

4. *Intergovernmental Review:* This program is subject to Executive Order 12372 and the regulations in 34 CFR part 79. Information about Intergovernmental Review of Federal Programs under Executive Order 12372 is in the application package for this competition.

5. *Funding Restrictions:* We reference regulations outlining funding restrictions in the *Applicable Regulations* section of this notice.

6. *Data Universal Numbering System Number, Taxpayer Identification Number, and System for Award Management:* To do business with the Department of Education, you must—

a. Have a Data Universal Numbering System (DUNS) number and a Taxpayer Identification Number (TIN);

b. Register both your DUNS number and TIN with the System for Award Management (SAM) (formerly the Central Contractor Registry (CCR)), the Government's primary registrant database;

c. Provide your DUNS number and TIN on your application; and

d. Maintain an active SAM registration with current information while your application is under review by the Department and, if you are awarded a grant, during the project period.

You can obtain a DUNS number from Dun and Bradstreet. A DUNS number can be created within one to two business days.

If you are a corporate entity, agency, institution, or organization, you can obtain a TIN from the Internal Revenue Service. If you are an individual, you can obtain a TIN from the Internal Revenue Service or the Social Security Administration. If you need a new TIN, please allow two to five weeks for your TIN to become active.

The SAM registration process can take approximately seven business days, but may take upwards of several weeks, depending on the completeness and accuracy of the data entered into the SAM database by an entity. Thus, if you think you might want to apply for Federal financial assistance under a program administered by the Department, please allow sufficient time to obtain and register your DUNS number and TIN. We strongly recommend that you register early.

Note: Once your SAM registration is active, you will need to allow 24 to 48 hours for the information to be available in Grants.gov and before you can submit an application through Grants.gov.

If you are currently registered with SAM, you may not need to make any changes. However, please make certain that the TIN associated with your DUNS number is correct. Also note that you will need to update your registration annually. This may take three or more business days.

Information about SAM is available at *www.SAM.gov.* To further assist you with obtaining and registering your DUNS number and TIN in SAM or updating your existing SAM account, we have prepared a SAM.gov Tip Sheet, which you can find at: *http://www2.ed.gov/fund/grant/apply/sam-faqs.html.*

In addition, if you are submitting your application via Grants.gov, you must (1) be designated by your organization as an Authorized Organization Representative (AOR); and (2) register yourself with Grants.gov as an AOR. Details on these steps are outlined at the following Grants.gov Web page: *www.grants.gov/web/grants/register.html.*

7. *Other Submission Requirements:* Applications for grants under this competition must be submitted electronically unless you qualify for an exception to this requirement in accordance with the instructions in this section.

a. *Electronic Submission of Applications.*

Applications for grants under STEP, CFDA number 84.415A, must be submitted electronically using the Governmentwide Grants.gov Apply site at *www.Grants.gov.* Through this site, you will be able to download a copy of the application package, complete it offline, and then upload and submit your application. You may not email an electronic copy of a grant application to us.

We will reject your application if you submit it in paper format unless, as described elsewhere in this section, you qualify for one of the exceptions to the electronic submission requirement *and* submit, no later than two weeks before the application deadline date, a written statement to the Department that you qualify for one of these exceptions. Further information regarding calculation of the date that is two weeks before the application deadline date is provided later in this section under *Exception to Electronic Submission Requirement.*

You may access the electronic grant application for STEP at *www.Grants.gov.* You must search for the downloadable application package for this program by the CFDA number. Do not include the CFDA number's alpha suffix in your search (*e.g.,* search for 84.415, not 84.415A).

Please note the following:

• When you enter the Grants.gov site, you will find information about submitting an application electronically through the site, as well as the hours of operation.

• Applications received by Grants.gov are date and time stamped. Your application must be fully uploaded and submitted and must be date and time stamped by the Grants.gov system no later than 4:30:00 p.m., Washington, DC time, on the application deadline date. Except as otherwise noted in this section, we will not accept your application if it is received—that is, date and time stamped by the Grants.gov system—after 4:30:00 p.m., Washington, DC time, on the application deadline date. We do not consider an application that does not comply with the deadline requirements. When we retrieve your application from Grants.gov, we will notify you if we are rejecting your application because it was date and time stamped by the Grants.gov system after 4:30:00 p.m., Washington, DC time, on the application deadline date.

• The amount of time it can take to upload an application will vary depending on a variety of factors, including the size of the application and the speed of your Internet connection. Therefore, we strongly recommend that you do not wait until the application deadline date to begin the submission process through Grants.gov.

• You should review and follow the Education Submission Procedures for submitting an application through Grants.gov that are included in the application package for this program to ensure that you submit your application in a timely manner to the Grants.gov system. You can also find the Education Submission Procedures pertaining to Grants.gov under News and Events on the Department's G5 system home page at *www.G5.gov.*

• You will not receive additional point value because you submit your application in electronic format, nor will we penalize you if you qualify for an exception to the electronic submission requirement, as described elsewhere in this section, and submit your application in paper format.

• You must submit all documents electronically, including all information you typically provide on the following forms: the Application for Federal Assistance (SF 424), the Department of Education Supplemental Information for SF 424, Budget Information—Non-Construction Programs (ED 524), and all necessary assurances and certifications.

• You must upload any narrative sections and all other attachments to your application as files in a PDF (Portable Document) read-only, non-modifiable format. Do not upload an interactive or fillable PDF file. If you upload a file type other than a read-only, non-modifiable PDF or submit a password-protected file, we will not review that material.

• Your electronic application must comply with any page-limit requirements described in this notice.

• After you electronically submit your application, you will receive from Grants.gov an automatic notification of receipt that contains a Grants.gov tracking number. (This notification indicates receipt by Grants.gov only, not receipt by the Department.) The Department then will retrieve your application from Grants.gov and send a second notification to you by email. This second notification indicates that the Department has received your application and has assigned your application a PR/Award number (an ED-specified identifying number unique to your application).

• We may request that you provide us original signatures on forms at a later date.

Application Deadline Date Extension in Case of Technical Issues with the Grants.gov System: If you are experiencing problems submitting your application through Grants.gov, please contact the Grants.gov Support Desk, toll free, at 1–800–518–4726. You must obtain a Grants.gov Support Desk Case Number and must keep a record of it.

If you are prevented from electronically submitting your application on the application deadline date because of technical problems with the Grants.gov system, we will grant you an extension until 4:30:00 p.m., Washington, DC time, the following business day to enable you to transmit your application electronically or by hand delivery. You also may mail your application by following the mailing instructions described elsewhere in this notice.

If you submit an application after 4:30:00 p.m., Washington, DC time, on the application deadline date, please contact the person listed under **FOR FURTHER INFORMATION CONTACT** in section VII of this notice and provide an explanation of the technical problem you experienced with Grants.gov, along with the Grants.gov Support Desk Case Number. We will accept your application if we can confirm that a technical problem occurred with the Grants.gov system and that that problem affected your ability to submit your application by 4:30:00 p.m., Washington, DC time, on the application deadline date. The Department will contact you after a determination is made on whether your application will be accepted.

Note: The extensions to which we refer in this section apply only to the unavailability of, or technical problems with, the Grants.gov system. We will not grant you an extension if you failed to fully register to submit your application to Grants.gov before the application deadline date and time or if the technical problem you experienced is unrelated to the Grants.gov system.

Exception to Electronic Submission Requirement: You qualify for an exception to the electronic submission requirement, and may submit your application in paper format, if you are unable to submit an application through the Grants.gov system because—

• You do not have access to the Internet; or

• You do not have the capacity to upload large documents to the Grants.gov system;

and

• No later than two weeks before the application deadline date (14 calendar days or, if the fourteenth calendar day before the application deadline date falls on a Federal holiday, the next business day following the Federal holiday), you mail or fax a written statement to the Department, explaining which of the two grounds for an exception prevents you from using the Internet to submit your application.

If you mail your written statement to the Department, it must be postmarked no later than two weeks before the application deadline date. If you fax your written statement to the Department, we must receive the faxed statement no later than two weeks before the application deadline date.

Address and mail or fax your statement to: Shahla Ortega, U.S. Department of Education, 400 Maryland Avenue SW., Room 3W223, Washington, DC 20202. FAX: (202) 401–0606.

Your paper application must be submitted in accordance with the mail or hand delivery instructions described in this notice.

b. *Submission of Paper Applications by Mail.*

If you qualify for an exception to the electronic submission requirement, you may mail (through the U.S. Postal Service or a commercial carrier) your application to the Department. You must mail the original and two copies of your application, on or before the application deadline date, to the Department at the following address: U.S. Department of Education, Application Control Center, Attention: (CFDA Number 84.415A), LBJ Basement Level 1, 400 Maryland Avenue SW., Washington, DC 20202–4260.

You must show proof of mailing consisting of one of the following:

(1) A legibly dated U.S. Postal Service postmark.

(2) A legible mail receipt with the date of mailing stamped by the U.S. Postal Service.

(3) A dated shipping label, invoice, or receipt from a commercial carrier.

(4) Any other proof of mailing acceptable to the Secretary of the U.S. Department of Education.

If you mail your application through the U.S. Postal Service, we do not accept either of the following as proof of mailing:

(1) A private metered postmark.

(2) A mail receipt that is not dated by the U.S. Postal Service.

If your application is postmarked after the application deadline date, we will not consider your application.

Note: The U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, you should check with your local post office.

c. *Submission of Paper Applications by Hand Delivery.*

If you qualify for an exception to the electronic submission requirement, you (or a courier service) may deliver your paper application to the Department by hand. You must deliver the original and two copies of your application by hand, on or before the application deadline date, to the Department at the following address: U.S. Department of Education, Application Control Center, Attention: (CFDA Number 84.415A), 550 12th Street SW., Room 7039, Potomac Center Plaza, Washington, DC 20202–4260.

The Application Control Center accepts hand deliveries daily between 8:00 a.m. and 4:30:00 p.m., Washington, DC time, except Saturdays, Sundays, and Federal holidays.

Note for Mail or Hand Delivery of Paper Applications: If you mail or hand deliver your application to the Department—

(1) You must indicate on the envelope and—if not provided by the Department—in Item 11 of the SF 424 the CFDA number, including suffix letter, if any, of the competition under which you are submitting your application; and

(2) The Application Control Center will mail to you a notification of receipt of your grant application. If you do not receive this notification within 15 business days from the application deadline date, you should call the U.S. Department of Education Application Control Center at (202) 245–6288.

V. Application Review Information

1. *Selection Criteria:* The selection criteria for this competition are from the NFP and from 34 CFR 75.210. We will award up to 100 points to an application under the selection criteria; the total possible points for each selection criterion are noted in parentheses.

a. *Need for Project* (Maximum 5 points). In determining the need for the proposed project, the Secretary considers the extent to which the goals and objectives in the preliminary agreement, including the TEA capacity-building activities, address identified educational needs of the Indian students to be served.

b. *Quality of the Project Design* (Maximum 35 points). In determining the quality of project design, the Secretary considers the following factors:

(i) The extent to which the proposed project would recognize and support tribal sovereignty. (5 points)

(ii) The extent to which the preliminary agreement defines goals, objectives, and outcomes of the proposed project that are likely to be achieved by the end of the project period. (10 points)

(iii) The extent to which the proposed project would build relationships and better communication among the TEA, SEA, and LEA, as well as families and communities, to the benefit of Indian students in the selected schools, including by enhancing the cultural competency of SEA and LEA staff. (10 points)

(iv) The extent to which the proposed project would enhance the capacity of the TEA to administer ESEA formula grants during the grant period and beyond. (10 points)

c. *Adequacy of Resources* (Maximum 5 points). In determining the adequacy of resources, the Secretary considers the extent to which the TEA has established, prior to developing the preliminary agreement, a relationship with either the SEA or an LEA that will enhance the likelihood of the project's success.

d. *Quality of the Management Plan* (Maximum 25 points). In determining the quality of the management plan for the proposed project, the Secretary considers:

(i) The adequacy of the management plan to achieve the objectives of the proposed project on time and within budget, including clearly defined responsibilities, timelines, and milestones for accomplishing project tasks. (10 points)

(ii) The adequacy of procedures for ensuring feedback and continuous improvement in the operation of the proposed project. (5 points)

(iii) How the applicant will ensure that a diversity of perspectives are brought to bear in the operation of the proposed project, including those of parents, teachers, the business community, a variety of disciplinary and professional fields, recipients or beneficiaries of the services, or others, as appropriate. (10 points)

Note: In addressing the third subpart of the Quality of the Management Plan selection criteria, applicants may want to consider describing the involvement of the SEA and LEA in the project, in addition to the input of other affected groups, as appropriate.

e. *Quality of Project Personnel* (Maximum 15 points). In determining the quality of project personnel, the Secretary considers the extent to which the applicant encourages applications for employment from persons who are members of groups that have traditionally been underrepresented based on race, color, national origin, gender, age, or disability. In addition, the Secretary considers:

(i) The extent to which the proposed project director has experience in education and in administering Federal grants. (5 points)

(ii) The qualifications, including relevant training and experience, of key project personnel. (5 points)

(iii) The extent to which the training or professional development services to be provided by the proposed project are of sufficient quality, intensity, and duration to lead to improvements in

practice among the recipients of those services. (5 points)

Note: Please note that section 7(b) of the Indian Self-Determination and Education Assistance Act requires that to the greatest extent feasible, a grantee must give to Indians preference and opportunities in connection with the administration of the grant, and give Indian organizations and Indian-owned economic enterprises, as defined in section 3 of the Indian Financing Act of 1974 (25 U.S.C. 1452(e)), preference in the award of contracts in connection with the administration of the grant.

In addressing the third subpart of the Quality of Project Personnel selection criterion, applicants may want to consider including the context of training or professional development among all three entities—TEA, SEA, and LEA. For example, the SEA or LEA could provide training to TEA staff with regard to Federal grant administration, and the TEA could provide training to SEA and LEA staff with regard to cultural competence.

f. *Quality of Project Evaluation* (Maximum 15 points). In determining the quality of the evaluation, the Secretary considers the following factors:

(i) The extent to which the methods of evaluation are thorough, feasible, and appropriate to the goals, objectives, and outcomes of the proposed project. (5 points)

(ii) The extent to which the methods of evaluation provide for examining the effectiveness of project implementation strategies. (5 points)

(iii) The extent to which the methods of evaluation will provide performance feedback and permit periodic assessment of progress toward achieving intended outcomes. (5 points)

2. *Review and Selection Process:* We remind potential applicants that in reviewing applications in any discretionary grant competition, the Secretary may consider, under 34 CFR 75.217(d)(3), the past performance of the applicant in carrying out a previous award, such as the applicant's use of funds, achievement of project objectives, and compliance with grant conditions. The Secretary may also consider whether the applicant failed to submit a timely performance report or submitted a report of unacceptable quality.

In addition, in making a competitive grant award, the Secretary also requires various assurances including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department of Education (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

3. *Special Conditions:* Under 2 CFR 3474.10, the Secretary may impose special conditions and, in appropriate circumstances, high-risk conditions on a grant if the applicant or grantee is not financially stable; has a history of unsatisfactory performance; has a financial or other management system that does not meet the standards in 2 CFR part 200, subpart D; has not fulfilled the conditions of a prior grant; or is otherwise not responsible.

VI. Award Administration Information

1. *Award Notices:* If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN); or we may send you an email containing a link to access an electronic version of your GAN. We may notify you informally, also.

If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting:* (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to *www.ed.gov/fund/grant/apply/appforms/appforms.html.*

4. *Performance Measures:* The Department has established the following Government Performance and Results Act of 1993 (GPRA) performance measures:

(1) Number of TEA grantees that report increased collaboration among TEAs, SEAs, and LEAs.

(2) The number of SEA-type and LEA-type administrative functions for which the TEA grantees have assumed responsibility.

These measures constitute the Department's indicators of success for this program. Consequently, we advise an applicant for a grant under this program to give careful consideration to these measures in developing the proposed project and identifying the method of evaluation. Each grantee will be required to provide, in its annual performance and final reports, data about its progress in meeting these measures.

5. *Continuation Awards:* In making a continuation award under 34 CFR 75.253, the Secretary considers, among other things: whether a grantee has made substantial progress in achieving the goals and objectives of the project; whether the grantee has expended funds in a manner that is consistent with its approved application and budget; and, if the Secretary has established performance measurement requirements, the performance targets in the grantee's approved application. In making a continuation grant, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

VII. Agency Contact

FOR FURTHER INFORMATION CONTACT: Shahla Ortega, U.S. Department of Education, 400 Maryland Avenue SW., Room 3W223, Washington, DC 20202–6450. Telephone: (202) 453–5602 or by email: *shahla.ortega@ed.gov.*

If you use a TDD or a TTY, call the FRS, toll free, at 1–800–877–8339.

VIII. Other Information

Accessible Format: Individuals with disabilities can obtain this document and a copy of the application package in an accessible format (*e.g.*, braille, large print, audiotape, or compact disc) on request to the program contact person listed under **FOR FURTHER INFORMATION CONTACT** in section VII of this notice.

Electronic Access to This Document: The official version of this document is the document published in the **Federal Register**. Free Internet access to the official edition of the **Federal Register** and the Code of Federal Regulations is available via the Federal Digital System

at: *www.gpo.gov/fdsys.* At this site you can view this document, as well as all other documents of this Department published in the **Federal Register**, in text or Adobe Portable Document Format (PDF). To use PDF you must have Adobe Acrobat Reader, which is available free at the site.

You may also access documents of the Department published in the **Federal Register** by using the article search feature at: *www.federalregister.gov.* Specifically, through the advanced search feature at this site, you can limit your search to documents published by the Department.

Dated: April 10, 2015.

Deborah S. Delisle,

Assistant Secretary for Elementary and Secondary Education.

BILLING CODE 4000–01–P

DEPARTMENT OF ENERGY

Methane Hydrate Advisory Committee

AGENCY: Office of Fossil Energy, Department of Energy.

ACTION: Notice of open meeting.

SUMMARY: This notice announces a meeting of the Methane Hydrate Advisory Committee. The Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat.770) requires that notice of these meetings be announced in the **Federal Register**.

DATES: Thursday, May 7, 2015, 12:45 p.m. to 1:00 p.m. (EDT)—Registration, 1:00 p.m. to 3:00 p.m. (EDT)—Meeting.

ADDRESSES: U.S. Department of Energy, Forrestal Building, Room 3G–043, 1000 Independence Ave. SW., Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT: Lou Capitanio, U.S. Department of Energy, Office of Oil and Natural Gas, 1000 Independence Avenue SW., Washington, DC 20585. *Phone:* (202) 586–5098.

SUPPLEMENTARY INFORMATION:

Purpose of the Committee: The purpose of the Methane Hydrate Advisory Committee is to provide advice on potential applications of methane hydrate to the Secretary of Energy, and assist in developing recommendations and priorities for the Department of Energy's Methane Hydrate Research and Development Program.

Tentative Agenda: The agenda will include: Welcome and Introduction by the Designated Federal Officer; Committee Business; Report by the Chair regarding recommendations to the Secretary; Update on gas hydrate research activity including FY 2015 research initiatives and plans; Alaska update; Advisory Committee Discussion; and Public Comments, if any.

Public Participation: The meeting is open to the public. The Designated Federal Officer and the Chair of the Committee will conduct the meeting to facilitate the orderly conduct of business. If you would like to file a written statement with the Committee, you may do so either before or after the meeting. If you would like to make oral statements regarding any of the items on the agenda, you should contact Lou Capitanio at the phone number listed above and provide your name, organization, citizenship, and contact information. Anyone attending the meeting will be required to present government-issued identification. Space is limited. You must make your request for an oral statement at least five business days prior to the meeting, and reasonable provisions will be made to include the presentation on the agenda. Public comment will follow the three-minute rule.

Minutes: The minutes of this meeting will be available for public review and copying within 60 days at the following Web site: *http://energy.gov/fe/services/advisory-committees/methane-hydrate-advisory-committee.*

Issued at Washington, DC, on April 10, 2015.

LaTanya R. Butler,

Deputy Committee Management Officer.

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

[FE Docket No. 15–33–LNG]

Bear Head LNG Corporation and Bear Head LNG (USA), LLC; Application for Long-Term, Multi-Contract Authorization To Export Domestically Produced Natural Gas Through Canada to Non-Free Trade Agreement Countries After Liquefaction for a 25-Year Term

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice of receipt of an application (Application), filed on February 25, 2015, by Bear Head LNG Corporation and Bear Head LNG (USA), LLC (collectively, Bear Head),[1] requesting long-term, multi-contract authorization to export domestically produced natural gas as follows: (i) To export the natural gas by pipeline to Canada at the United States-Canada border (at a point near Calais, Maine, and St. Stephen, New Brunswick, respectively) on the Maritimes & Northeast (M&N) Pipeline in a volume of 440 billion cubic feet per year (Bcf/yr), or approximately 1.2 Bcf per day (Bcf/d); [2] (ii) to use approximately 42.4 Bcf/yr of the U.S.-sourced natural gas as feedstock in a Canadian natural gas liquefaction and export facility currently being developed by Bear Head within the Point Tupper/Bear Head Industrial Park near the town of Port Hawksbury, on the Straight of Canso, in Richmond County, Cape Breton, Nova Scotia, Canada (Project); [3] and (iii) to export a portion of the U.S.-sourced natural gas in the form of LNG in a volume equivalent to approximately 397.6 Bcf/yr of natural gas (1.1 Bcf/d) by vessel from Nova Scotia, Canada, to one or more countries with which the United States does not have a free trade agreement (FTA) requiring national treatment for trade in natural gas and with which trade is not prohibited by U.S. law or policy (non-FTA countries).[4] Only Bear Head's proposed export of LNG produced from U.S-sourced natural gas to non-FTA countries is subject to this Notice. Bear Head states that its proposed Project and LNG exports will not involve the construction of any facilities in the

[1] Bear Head states that Bear Head Corp. is a Canadian company incorporated pursuant to the laws of Nova Scotia, and that Bear Head (USA) is a Delaware limited liability company. Both have their principal place of business in Houston, Texas, and both are wholly-owned indirect subsidiaries of Liquefied Natural Gas Limited, a publicly listed Australian company based in Perth, Australia.

[2] Bear Head refers to this requested authorization as the ''NG Authorization.'' Bear Head states that the M&N Pipeline is operated by Maritimes & Northeast Pipeline, L.L.C. in the United States and by its Canadian pipeline affiliate, Maritimes & Northeast Pipeline Limited Partnership, in Canada.

[3] *See* Application at 1 n.3 (''approximately 42.4 Bcf/y of the natural gas volume proposed to be exported will be consumed in Canada and not exported as LNG [liquefied natural gas]''); *id.* at 12 (description of project).

[4] In the Application, Bear Head also requests authorization to export U.S.-sourced LNG to any nation that currently has, or in the future may enter into, a FTA requiring national treatment for trade in natural gas (FTA countries). DOE/FE will review Bear Head's request for a FTA export authorization separately pursuant to NGA § 3(c), 15 U.S.C. 717b(c). Additionally, on January 23, 2015, Bear Head filed a separate application with DOE/FE requesting authorization to access certain Canadian natural gas supplies, in a volume up to 250 Bcf/yr, that it states must flow through the United States due to the configuration of existing North American pipeline infrastructure. Application at 2–3 n.7. Bear Head refers to this requested authorization as the ''Canadian NG authorization.'' *Id.* That application is pending before DOE/FE in FE Docket No. 15–14–NG, and is the subject of a notice being published in the **Federal Register** concurrently with this Notice.

United States giving rise to cognizable effects under the National Environmental Policy Act (NEPA), 42 U.S.C. 4321, *et seq.,* but may require modification and expansion of the M&N Pipeline system, which Bear Head expects will interconnect with the Project's proposed pipeline header near Goldboro, Nova Scotia, for the delivery of natural gas feedstock to the Project.[5] Bear Head requests the authorization for a 25-year term to commence on the earlier of the date of first export or 10 years from the date the authorization is granted. Bear Head seeks to export this LNG on its own behalf and as agent for other entities who hold title to the LNG at the time of export. The Application was filed under section 3 of the Natural Gas Act (NGA). Additional details can be found in Bear Head's Application, posted on the DOE/FE Web site at: *https://cms.doe.gov/sites/prod/files/2015/04/f21/15_33_lng_fta_nfta.pdf.*

Protests, motions to intervene, notices of intervention, and written comments are invited.

DATES: Protests, motions to intervene or notices of intervention, as applicable, requests for additional procedures, and written comments are to be filed using procedures detailed in the Public Comment Procedures section no later than 4:30 p.m., Eastern time, June 15, 2015.

ADDRESSES:

Electronic Filing of Comments Using Online Form: http://www.energy.gov/node/1044731/.

Electronic Filing of Protests, Motions To Intervene, and Notices of Intervention: fergas@hq.doe.gov.

Regular Mail: U.S. Department of Energy (FE–34), Office of Oil and Gas Global Security and Supply, Office of Fossil Energy, P.O. Box 44375, Washington, DC 20026–4375.

Hand Delivery or Private Delivery Services (e.g., FedEx, UPS, etc.): U.S. Department of Energy (FE–34), Office of Oil and Gas Global Security and Supply, Office of Fossil Energy, Forrestal Building, Room 3E–042, 1000 Independence Avenue SW., Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT:

Larine Moore or Benjamin Nussdorf, U.S. Department of Energy (FE–34), Office of Oil and Gas Global Security and Supply, Office of Fossil Energy, Forrestal Building, Room 3E–042, 1000 Independence Avenue SW., Washington, DC 20585, (202) 586–9478; (202) 586–7991.

Edward Myers or Cassandra Bernstein, U.S. Department of Energy (GC–76), Office of the Assistant General Counsel for Electricity and Fossil Energy, Forrestal Building, 1000 Independence Avenue SW., Washington, DC 20585, (202) 586–3397; (202) 586–9793.

SUPPLEMENTARY INFORMATION:

DOE/FE Evaluation

The Application will be reviewed pursuant to section 3(a) of the NGA, 15 U.S.C. 717b(a), and DOE will consider any issues required by law or policy. To the extent determined to be relevant, these issues will include the domestic need for the natural gas proposed to be exported, the adequacy of domestic natural gas supply, U.S. energy security, and the cumulative impact of the requested authorization and any other LNG export application(s) previously approved on domestic natural gas supply and demand fundamentals. DOE may also consider other factors bearing on the public interest, including the impact of the proposed exports on the U.S. economy (including GDP, consumers, and industry), job creation, the U.S. balance of trade and international considerations; and whether the authorization is consistent with DOE's policy of promoting competition in the marketplace by allowing commercial parties to freely negotiate their own trade arrangements.

Additionally, DOE will consider the following environmental documents:

- *Addendum to Environmental Review Documents Concerning Exports of Natural Gas From the United States,* 79 FR 48132 (Aug. 15, 2014);[6] and
- *Life Cycle Greenhouse Gas Perspective on Exporting Liquefied Natural Gas From the United States,* 79 FR 32260 (June 4, 2014).[7]

Parties that may oppose this Application should address these issues in their comments and/or protests, as well as other issues deemed relevant to the Application.

NEPA requires DOE to give appropriate consideration to the environmental effects of its proposed decisions. No final decision will be issued in this proceeding until DOE has met its environmental responsibilities.

Public Comment Procedures

In response to this Notice, any person may file a protest, comments, or a motion to intervene or notice of intervention, as applicable. Due to the complexity of the issues raised by the Applicant, interested parties will be provided 60 days from the date of publication of this Notice in which to submit their comments, protests, motions to intervene, or notices of intervention.

Any person wishing to become a party to the proceeding must file a motion to intervene or notice of intervention. The filing of comments or a protest with respect to the Application will not serve to make the commenter or protestant a party to the proceeding, although protests and comments received from persons who are not parties will be considered in determining the appropriate action to be taken on the Application. All protests, comments, motions to intervene, or notices of intervention must meet the requirements specified by the regulations in 10 CFR part 590, as supplemented below.

Comments may be submitted using one of the following supplemental methods: (1) Submitting the comments using the online form at *http://www.energy.gov/node/1044731/*; (2) mailing an original and three paper copies of the comments to the Office of Oil and Gas Global Security and Supply at the address listed in **ADDRESSES**; or (3) hand delivering an original and three paper copies of the comments to the Office of Oil and Gas Global Security and Supply at the address listed in **ADDRESSES**. For administrative efficiency, DOE/FE prefers comments to be filed electronically using the online form (method 1). However, for those commenters lacking access to the Internet, comments may be filed in hard copy using one of the other two methods identified above. All filings must include a reference to FE Docket No. 15–33–LNG.

Protests, motions to intervene, and notices of intervention (including those consolidated with comments) may be submitted using one of the following supplemental methods: (1) Emailing the filing to *fergas@hq.doe.gov,* with FE Docket No. 15–33–LNG in the title line; (2) mailing an original and three paper copies of the filing to the Office of Oil and Gas Global Security and Supply at the address listed in **ADDRESSES**; or (3) hand delivering an original and three paper copies of the filing to the Office of Oil and Gas Global Supply at the address listed in **ADDRESSES**. All filings must include a reference to FE Docket No. 15–33–LNG. **Please note:** If submitting a filing via email, please include all related documents and attachments (*e.g.,* exhibits) in the original email correspondence. Please

[5] *See* Application at 4–5 & n.18.

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

Environmental Management Site-Specific Advisory Board, Oak Ridge Reservation

AGENCY: Department of Energy.

ACTION: Notice of open meeting.

SUMMARY: This notice announces a meeting of the Environmental Management Site-Specific Advisory Board (EM SSAB), Oak Ridge Reservation. The Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770) requires that public notice of this meeting be announced in the **Federal Register**.

DATES: Wednesday, May 13, 2015, 6:00 p.m.

ADDRESSES: Shoney's Restaurant Meeting Room, 204 S. Illinois Ave., Oak Ridge, Tennessee 37830.

FOR FURTHER INFORMATION CONTACT: Melyssa P. Noe, Federal Coordinator, Department of Energy Oak Ridge Operations Office, P.O. Box 2001, EM–90, Oak Ridge, TN 37831. Phone (865) 241–3315; Fax (865) 576–0956 or email: *noemp@emor.doe.gov* or check the Web site at *http://energy.gov/orem/services/community-engagement/oak-ridge-site-specific-advisory-board.*

SUPPLEMENTARY INFORMATION:

Purpose of the Board: The purpose of the Board is to make recommendations to DOE–EM and site management in the areas of environmental restoration, waste management, and related activities.

Tentative Agenda:

- Welcome and Announcements
- City of Oak Ridge Perspectives on the Oak Ridge Environmental Management Program
- Public Comment Period
- Call for Additions to the Agenda
- Other Business
- Adjourn

Public Participation: The EM SSAB, Oak Ridge, welcomes the attendance of the public at its advisory committee meetings and will make every effort to accommodate persons with physical disabilities or special needs. If you require special accommodations due to a disability, please contact Melyssa P. Noe at least seven days in advance of the meeting at the phone number listed above. Written statements may be filed with the Board either before or after the meeting. Individuals who wish to make oral statements pertaining to the agenda item should contact Melyssa P. Noe at the address or telephone number listed above. Requests must be received five days prior to the meeting and reasonable provision will be made to include the presentation in the agenda. The Deputy Designated Federal Officer is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Individuals wishing to make public comments will be provided a maximum of five minutes to present their comments.

Minutes: Minutes will be available by writing or calling Melyssa P. Noe at the address and phone number listed above. Minutes will also be available at the following Web site: *http://energy.gov/orem/services/community-engagement/oak-ridge-site-specific-advisory-board.*

Issued at Washington, DC, on April 10, 2015.

LaTanya R. Butler,

Deputy Committee Management Officer.

DEPARTMENT OF ENERGY

[FE Docket No. 15–14–NG]

Bear Head LNG Corporation and Bear Head LNG (USA), LLC; Application for Long-Term, Multi-Contract Authorization To Import Natural Gas From, for Subsequent Export to, Canada for a 25-Year Term

AGENCY: Office of Fossil Energy, DOE.

ACTION: Notice of application.

SUMMARY: The Office of Fossil Energy (FE) of the Department of Energy (DOE) gives notice of receipt of an application (Application), filed on January 23, 2015, by Bear Head LNG Corporation and Bear Head LNG (USA), LLC (collectively, Bear Head),[1] requesting long-term, multi-contract authorization to import up to 250 billion cubic feet per year (Bcf/yr) of natural gas (approximately 0.7 Bcf per day (Bcf/d)) by pipeline from Canada, for subsequent export by pipeline to Canada, for a 25-year term to commence on the earlier of the date of first export or 10 years from the date the authorization is granted. Bear Head states that this requested authorization is necessary to access Canadian gas supplies that must be imported by pipeline from Canada to the United States to reach demand markets in Nova Scotia through the Maritimes & Northeast (M&N) Pipeline. Bear Head further states that this Application is being filed with DOE/FE in connection with the development of a proposed Canadian natural gas liquefaction and export facility currently being developed by Bear Head within the Point Tupper/Bear Head Industrial Park near the town of Port Hawksbury, on the Straight of Canso, in Richmond County, Cape Breton, Nova Scotia, Canada (Project). Bear Head states that the Canadian natural gas subject to the requested authorization will be used as feedstock for the production of liquefied natural gas (LNG) at the Project.[2] Bear

[1] Bear Head states that Bear Head Corp. is a Canadian company incorporated pursuant to the laws of Nova Scotia, and that Bear Head (USA) is a Delaware limited liability company. Both have their principal place of business in Houston, Texas, and both are wholly-owned indirect subsidiaries of Liquefied Natural Gas Limited, a publicly listed Australian company based in Perth, Australia.

[2] *See* Application at 6. On February 25, 2015, Bear Head filed a separate application with DOE/FE requesting long-term, multi-contract

Head seeks to import and export this Canadian natural gas on its own behalf and as agent for other entities who hold title to the LNG at the time of export. The Application was filed under section 3 of the Natural Gas Act (NGA). Additional details can be found in Bear Head's Application, posted on the DOE/FE Web site at: *http://energy.gov/sites/prod/files/2015/01/f19/15_14_ng_Bear_Head.pdf*.

Protests, motions to intervene, notices of intervention, and written comments are invited.

DATES: Protests, motions to intervene or notices of intervention, as applicable, requests for additional procedures, and written comments are to be filed using procedures detailed in the Public Comment Procedures section no later than 4:30 p.m., Eastern time, June 15, 2015.

ADDRESSES:

Electronic Filing of Comments Using Online Form: http://www.energy.gov/node/1045041/.

Electronic Filing of Protests, Motions to Intervene, and Notices of Intervention: fergas@hq.doe.gov.

Regular Mail: U.S. Department of Energy (FE–34), Office of Oil and Gas Global Security and Supply, Office of Fossil Energy, P.O. Box 44375, Washington, DC 20026–4375.

Hand Delivery or Private Delivery Services (e.g., FedEx, UPS, etc.): U.S. Department of Energy (FE–34), Office of Oil and Gas Global Security and Supply, Office of Fossil Energy, Forrestal Building, Room 3E–042, 1000 Independence Avenue SW., Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT:

Larine Moore or Benjamin Nussdorf, U.S. Department of Energy (FE–34), Office of Oil and Gas Global Security and Supply, Office of Fossil Energy, Forrestal Building, Room 3E–042, 1000 Independence Avenue SW., Washington, DC 20585, (202) 586–9478; (202) 586–7991.

Edward Myers or Cassandra Bernstein, U.S. Department of Energy (GC–76), Office of the Assistant General Counsel for Electricity and Fossil Energy, Forrestal Building, 1000 Independence Avenue SW., Washington, DC 20585, (202) 586–3397; (202) 586–9793.

SUPPLEMENTARY INFORMATION:

DOE/FE Evaluation

Bear Head asserts that DOE/FE should grant the requested authorization under section 3(c) of the NGA, 15 U.S.C. 717b(c), because Canada is a nation with which the United States has a FTA requiring national treatment for trade in natural gas.[3] According to Bear Head, however, ''[t]he Project is proposed for the purpose of exporting North American LNG to foreign markets.''[4] Therefore, DOE/FE requests comment on whether section 3(c) of the NGA or section 3(a) of the NGA, 15 U.S.C. 717b(a), provides the appropriate standard for review of the Application. Parties that may oppose this Application may address this issue in their comments and/or protests, as well as any other issues deemed relevant to the Application.

Public Comment Procedures

In response to this Notice, any person may file a protest, comments, or a motion to intervene or notice of intervention, as applicable. Due to the complexity of the issues raised by the Applicant, interested parties will be provided 60 days from the date of publication of this Notice in which to submit their comments, protests, motions to intervene, or notices of intervention.

Any person wishing to become a party to the proceeding must file a motion to intervene or notice of intervention. The filing of comments or a protest with respect to the Application will not serve to make the commenter or protestant a party to the proceeding, although protests and comments received from persons who are not parties will be considered in determining the appropriate action to be taken on the Application. All protests, comments, motions to intervene, or notices of intervention must meet the requirements specified by the regulations in 10 CFR part 590, as supplemented below.

Comments may be submitted using one of the following supplemental methods: (1) Submitting the comments using the online form at *http://www.energy.gov/node/1045041/*; (2) mailing an original and three paper copies of the comments to the Office of Oil and Gas Global Security and Supply at the address listed in **ADDRESSES**; or (3) hand delivering an original and three paper copies of the comments to the Office of Oil and Gas Global Security and Supply at the address listed in **ADDRESSES**. For administrative efficiency, DOE/FE prefers comments to be filed electronically using the online form (method 1). However, for those commenters lacking access to the Internet, comments may be filed in hard copy using one of the other two methods identified above. All filings must include a reference to FE Docket No. 15–14–NG.

Protests, motions to intervene, and notices of intervention (including those consolidated with comments) may be submitted using one of the following supplemental methods: (1) Emailing the filing to *fergas@hq.doe.gov,* with FE Docket No. 15–14–NG in the title line; (2) mailing an original and three paper copies of the filing to the Office of Oil and Gas Global Security and Supply at the address listed in **ADDRESSES**; or (3) hand delivering an original and three paper copies of the filing to the Office of Oil and Gas Global Supply at the address listed in **ADDRESSES**. All filings must include a reference to FE Docket No. 15–14–NG. PLEASE NOTE: If submitting a filing via email, please include all related documents and attachments (*e.g.,* exhibits) in the original email correspondence. Please do not include any active hyperlinks or password protection in any of the documents or attachments related to the filing. All electronic filings submitted to DOE must follow these guidelines to ensure that all documents are filed in a timely manner. Any hardcopy filing submitted greater than 50 pages in length must also include, at the time of the filing, a digital copy on disk of the entire submission.

A decisional record on the Application will be developed through responses to this notice by parties, including the parties' written comments and replies thereto. Additional procedures will be used as necessary to achieve a complete understanding of the facts and issues. If an additional procedure is scheduled, notice will be provided to all parties. If no party requests additional procedures, a final Opinion and Order may be issued based on the official record, including the Application and responses filed by parties pursuant to this notice, in accordance with 10 CFR 590.316.

---

authorization to export domestically produced natural gas as follows: (i) To export the natural gas by pipeline to Canada at the United States-Canada border (at a point near Calais, Maine, and St. Stephen, New Brunswick, respectively) on the M&N Pipeline in a volume of 440 Bcf/yr of natural gas (1.2 Bcf/d); (ii) to use approximately 42.4 Bcf/yr of the U.S.-sourced natural gas as feedstock in the Project; and (iii) to export a portion of the U.S.-sourced natural gas in the form of LNG in a volume equivalent to approximately 397.6 Bcf/yr of natural gas (1.1 Bcf/d) by vessel from Nova Scotia, Canada, to one or more countries with which the United States does not have a free trade agreement (FTA) requiring national treatment for trade in natural gas and with which trade is not prohibited by U.S. law or policy (non-FTA countries). That application is pending before DOE/FE in FE Docket No. 15–33–LNG, and is the subject of a notice being published in the **Federal Register** concurrently with this Notice. *See also infra* at 3 (DOE/FE Evaluation).

[3] *See* Application at 2–3.

[4] *Id.* at 4–5; *see also id.* at 2 n.6 (''Once constructed, the Project will be capable of receiving, processing and liquefying natural gas . . . and loading LNG onto ocean-going vessels for delivery to export markets.''). *See also supra* at 2 n.2.

The Application is available for inspection and copying in the Division of Natural Gas Regulatory Activities docket room, Room 3E–042, 1000 Independence Avenue SW., Washington, DC 20585. The docket room is open between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, except Federal holidays. The Application and any filed protests, motions to intervene or notice of interventions, and comments will also be available electronically by going to the following DOE/FE Web address: *http://www.fe.doe.gov/programs/gasregulation/index.html.*

Issued in Washington, DC, on April 10, 2015.

John A. Anderson,

Director, Office of Oil and Gas Global Security and Supply, Office of Oil and Natural Gas.

BILLING CODE 6450–01–P

DEPARTMENT OF ENERGY

Environmental Management Site-Specific Advisory Board, Northern New Mexico

AGENCY: Department of Energy.

ACTION: Notice of open meeting.

SUMMARY: This notice announces a combined meeting of the Environmental Monitoring and Remediation Committee and Waste Management Committee of the Environmental Management Site-Specific Advisory Board (EM SSAB), Northern New Mexico (known locally as the Northern New Mexico Citizens' Advisory Board [NNMCAB]). The Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770) requires that public notice of this meeting be announced in the **Federal Register**.

DATES: Wednesday, May 13, 2015, 2:00 p.m.–4:00 p.m.

ADDRESSES: NNMCAB Office, 94 Cities of Gold Road, Santa Fe, NM 87506.

FOR FURTHER INFORMATION CONTACT: Menice Santistevan, Northern New Mexico Citizens' Advisory Board, 94 Cities of Gold Road, Santa Fe, NM 87506. Phone (505) 995–0393; Fax (505) 989–1752 or Email: *menice.santistevan@nnsa.doe.gov.*

SUPPLEMENTARY INFORMATION:

Purpose of the Board: The purpose of the Board is to make recommendations to DOE–EM and site management in the areas of environmental restoration, waste management, and related activities.

Purpose of the Environmental Monitoring and Remediation Committee (EM&R): The EM&R Committee provides a citizens' perspective to NNMCAB on current and future environmental remediation activities resulting from historical Los Alamos National Laboratory (LANL) operations and, in particular, issues pertaining to groundwater, surface water and work required under the New Mexico Environment Department Order on Consent. The EM&R Committee will keep abreast of DOE–EM and site programs and plans. The committee will work with the NNMCAB to provide assistance in determining priorities and the best use of limited funds and time. Formal recommendations will be proposed when needed and, after consideration and approval by the full NNMCAB, may be sent to DOE–EM for action.

Purpose of the Waste Management (WM) Committee: The WM Committee reviews policies, practices and procedures, existing and proposed, so as to provide recommendations, advice, suggestions and opinions to the NNMCAB regarding waste management operations at the Los Alamos site.

Tentative Agenda:

- Call to Order and Introductions
- Approval of Agenda
- Approval of Minutes from April 8, 2015
- Old Business
  - Consideration and Action on Draft Recommendation 2015–04 ''Fiscal Year 2017 Project Prioritization''
- New Business
- Update from Executive Committee
- Update from DOE
- Presentation by DOE
  - ''Groundwater Periodic Monitoring Reports''
- Public Comment Period
- Adjourn

Public Participation: The NNMCAB's Committees welcome the attendance of the public at their combined committee meeting and will make every effort to accommodate persons with physical disabilities or special needs. If you require special accommodations due to a disability, please contact Menice Santistevan at least seven days in advance of the meeting at the telephone number listed above. Written statements may be filed with the Committees either before or after the meeting. Individuals who wish to make oral statements pertaining to agenda items should contact Menice Santistevan at the address or telephone number listed above. Requests must be received five days prior to the meeting and reasonable provision will be made to include the presentation in the agenda. The Deputy Designated Federal Officer is empowered to conduct the meeting in a fashion that will facilitate the orderly conduct of business. Individuals wishing to make public comments will be provided a maximum of five minutes to present their comments.

Minutes: Minutes will be available by writing or calling Menice Santistevan at the address or phone number listed above. Minutes and other Board documents are on the Internet at: *http://www.nnmcab.energy.gov/.*

Issued at Washington, DC, on April 10, 2015.

Federal Energy Regulatory Commission

[Docket No. EL15–56–000]

City of Burbank, California; City of Glendale, California v. Los Angeles Department of Water and Power; Notice of Complaint

Take notice that on April 3, 2015, pursuant to sections 211A, 212, 307, 308, and 309 of the Federal Power Act (FPA), 16 U.S.C. 824i, 824j–k, 825f, 825g, and 825h and Rule 206 of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedure, 18 CFR 385.206, the City of Burbank California and the City of Glendale, California (Complainants) filed a formal complaint against the City of Los Angeles, California's Department of Water and Power (Respondent), alleging, that the Respondent's modified transmission tariff fails to meet the comparability and non-discrimination requirements of the FPA section 211A, as more fully explained in the complaint.

The Complainants certifies that a copy of the complaint was served on the Respondents.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainants.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the ''eFiling'' link at *http://www.ferc.gov.* Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

This filing is accessible on-line at *http://www.ferc.gov,* using the ''eLibrary'' link and is available for electronic review in the Commission's Public Reference Room in Washington, DC. There is an ''eSubscription'' link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email *FERCOnlineSupport@ferc.gov,* or call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Comment Date: 5:00 p.m. Eastern Time on April 23, 2015.

Dated: April 6, 2015.

Kimberly D. Bose,

Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. NJ15–12–000]

Oncor Electric Delivery Company LLC; Notice of Filing

Take notice that on April 6, 2015, Oncor Electric Delivery Company LLC submitted its tariff filing per 35.28(e): Oncor Tex-La Tariff Rate Changes, Effective March 20, 2015.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the ''eFiling'' link at *http://www.ferc.gov.* Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

This filing is accessible on-line at *http://www.ferc.gov,* using the ''eLibrary'' link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an ''eSubscription'' link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email *FERCOnlineSupport@ferc.gov,* or call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Comment Date: 5:00 p.m. Eastern Time on April 27, 2015.

Dated: April 9, 2015.

Nathaniel J. Davis, Sr.,

Deputy Secretary.

Combined Notice of Filings #1

Take notice that the Commission received the following electric corporate filings:

Docket Numbers: EC15–118–000.
Applicants: Rising Tree Wind Farm LLC, Rising Tree Wind Farm II LLC.
Description: Application for Authorization for Disposition of Jurisdictional Facilities and Request for Expedited Action of Rising Tree Wind Farm LLC, et. al.
Filed Date: 4/10/15.
Accession Number: 20150410–5153.
Comments Due: 5 p.m. ET 5/1/15.

Docket Numbers: EC15–119–000.
Applicants: American Transmission Company LLC.
Description: Application for Authority to Acquire Transmission Facilities of American Transmission Company LLC.
Filed Date: 4/10/15.
Accession Number: 20150410–5208.
Comments Due: 5 p.m. ET 5/1/15.

Take notice that the Commission received the following electric rate filings:

Docket Numbers: ER10–2570–017.
Applicants: Shady Hills Power Company, L.L.C.
Description: Amendment to December 16, 2014 Triennial Market Power Analysis of Shady Hills Power Company, L.L.C.
Filed Date: 4/3/15.
Accession Number: 20150403–5071.
Comments Due: 5 p.m. ET 4/24/15.

Docket Numbers: ER14–2956–006.
Applicants: Hoopeston Wind, LLC.
Description: Notice of Non-Material Change in Status of Hoopeston Wind, LLC.
Filed Date: 4/10/15.
Accession Number: 20150410–5121.
Comments Due: 5 p.m. ET 5/1/15.

Docket Numbers: ER15–527–001.
Applicants: PJM Interconnection, L.L.C.
Description: Compliance filing per 35: Errata to Compliance Filing in Docket No. ER15–527–000 to be effective 2/2/2015.
Filed Date: 4/10/15.
Accession Number: 20150410–5150.
Comments Due: 5 p.m. ET 5/1/15

Docket Numbers: ER15–1487–000.
Applicants: PJM Interconnection, L.L.C., Virginia Electric and Power Company.
Description: Section 205(d) rate filing per 35.13(a)(2)(iii): Dominion submits revisions to OATT Att H–16A re: prepayments to be effective 1/1/2014.
Filed Date: 4/9/15.
Accession Number: 20150409–5180.
Comments Due: 5 p.m. ET 4/30/15.

Docket Numbers: ER15–1488–000.
Applicants: PJM Interconnection, L.L.C., PPL Electric Utilities Corporation.
Description: Section 205(d) rate filing per 35.13(a)(2)(iii): PPL submits revisions to OATT Attachment H–8G re PBOP expense to be effective 6/1/2015.
Filed Date: 4/9/15.
Accession Number: 20150409–5196.
Comments Due: 5 p.m. ET 4/30/15.

Docket Numbers: ER15–1489–000.
Applicants: PacifiCorp.
Description: Section 205(d) rate filing per 35.13(a)(2)(iii): BPA Construction Agreement (Summer Lake CB & SCADA) to be effective 6/9/2015.
Filed Date: 4/9/15.
Accession Number: 20150409–5206.
Comments Due: 5 p.m. ET 4/30/15.

Docket Numbers: ER15–1490–000.
Applicants: Midcontinent Independent System Operator, Inc.
Description: Section 205(d) rate filing per 35.13(a)(2)(iii): 2015–04–10_Attachment O Reconciliation Filing to be effective 6/1/2015.

Applicants: ISO New England Inc., New England Power Pool Participants Committee.

Description: Section 205(d) rate filing per 35.13(a)(2)(iii): FAP to be effective 6/12/2015.

Filed Date: 4/10/15.

Accession Number: 20150410–5182.

Comments Due: 5 p.m. ET 5/1/15.

Docket Numbers: ER15–1494–000.

Applicants: Convergent Energy and Power LLC.

Description: Initial rate filing per 35.12 Petition for Acceptance of Initial Tariff, Waivers and Blanket Authority to be effective 6/15/2015.

Filed Date: 4/10/15.

Accession Number: 20150410–5197.

Comments Due: 5 p.m. ET 5/1/15.

Docket Numbers: ER15–1495–000.

Applicants: Alabama Power Company.

Description: Section 205(d) rate filing per 35.13(a)(2)(iii): Clay Solar LGIA Filing to be effective 3/27/2015.

Filed Date: 4/10/15.

Accession Number: 20150410–5253.

Comments Due: 5 p.m. ET 5/1/15.

The filings are accessible in the Commission's eLibrary system by clicking on the links or querying the docket number.

Any person desiring to intervene or protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Regulations (18 CFR 385.211 and 385.214) on or before 5:00 p.m. Eastern time on the specified comment date. Protests may be considered, but intervention is necessary to become a party to the proceeding.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: *http://www.ferc.gov/docs-filing/efiling/filing-req.pdf.* For other information, call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Dated: April 10, 2015.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Notice of Availability of the Draft Environmental Impact Statement for the Proposed Lake Charles Liquefaction Project

Trunkline Gas Company, LLC	Docket Nos. CP14–119–000.
Lake Charles LNG Company, LLC	CP14–120–000.
Lake Charles LNG Export Company, LLC	CP14–122–000.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared a draft environmental impact statement (EIS) for the Lake Charles Liquefaction Project, proposed by Trunkline Gas Company, LLC (Trunkline), Lake Charles LNG Company, LLC, and Lake Charles LNG Export Company, LLC in the above-referenced dockets. Trunkline requests authorization to construct, install, and operate new natural gas pipeline and compression facilities and meter stations; modify certain existing pipeline facilities; modify certain compressor and meter stations; and abandon one compressor unit in the states of Arkansas, Mississippi, and Louisiana (collectively referred to as the Non-Liquefaction Facilities). Lake Charles LNG Company, LLC and Lake Charles LNG Export Company, LLC (collectively referred to as Lake Charles LNG) jointly request authorization to site, construct, and operate new liquefaction facilities adjacent to an existing liquefied natural gas (LNG) terminal located in Calcasieu Parish, Louisiana, and to construct and operate certain facility modifications at the existing LNG terminal. The new liquefaction facilities would have a design production capacity of 16.45 million metric tons of LNG per annum.

Lake Charles LNG Company, LLC also requests authorization to abandon certain terminal facilities previously certificated under the Natural Gas Act (NGA) section 7; abandon services provided under its existing FERC Gas Tariff and Certificates of Public Convenience and Necessity; cancel its FERC Gas Tariff, including all rate schedules therein; and convert such certificated facilities and operation under NGA section 3, so that the entirety of the company's facilities and operations are authorized solely under NGA section 3.

The draft EIS assesses the potential environmental effects of construction and operation of the Lake Charles Liquefaction Project in accordance with the requirements of the National Environmental Policy Act. The FERC staff concludes that approval of the proposed project would have some adverse environmental impacts; however, most of these impacts would be reduced to less-than-significant levels with the implementation of Lake Charles LNG's and Trunkline's proposed mitigation and the additional measures recommended in the draft EIS.

The U.S. Army Corps of Engineers, U.S. Coast Guard, U.S. Department of Energy, U.S. Fish and Wildlife Service, and U.S. Department of Transportation participated as cooperating agencies in the preparation of the draft EIS. Cooperating agencies have jurisdiction by law or special expertise with respect to resources potentially affected by a proposal and participate in the National Environmental Policy Act analysis. Although the cooperating agencies provided input on the conclusions and recommendations presented in the draft EIS, the agencies will present their own conclusions and recommendations in their respective records of decision or determinations for the project.

The draft EIS addresses the potential environmental effects of the construction, modification, and operation of the following project facilities:

- Three liquefaction trains, each with a production capacity sufficient to produce 5.48 million metric tons per annum of LNG for export (each train would contain metering and gas treatment facilities, liquefaction and refrigerant units, safety and control systems, and associated infrastructure);
- modifications and upgrades at the existing LNG terminal;
- about 0.5 mile of 48-inch-diameter feed gas line to supply natural gas to the liquefaction facility from existing gas transmission pipelines;
- approximately 17.9 miles of 24- and 42-inch-diameter natural gas pipeline;
- a new 98,685 horsepower (hp) compressor station;
- abandonment of a 3,000-hp compressor unit, installation of a 15,002-hp unit, and piping modifications at one existing compressor station;
- modification of station piping at three other existing compressor stations;
- five new meter stations and modifications and upgrades of five existing meter stations;
- modification of certain existing pipeline facilities; and

• construction of miscellaneous auxiliary and appurtenant facilities.

The FERC staff mailed copies of the draft EIS to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners; other interested individuals and non-governmental organizations; newspapers and libraries in the project area; and parties to this proceeding. Paper copy versions of this EIS were mailed to those specifically requesting them; all others received a compact disk version. In addition, the draft EIS is available for public viewing on the FERC's Web site (*www.ferc.gov*) using the eLibrary link. A limited number of hardcopies are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street NE., Room 2A, Washington, DC 20426, (202) 502–8371.

Any person wishing to comment on the draft EIS may do so. To ensure consideration of your comments on the proposal in the final EIS, it is important that the Commission receive your comments on or before June 1, 2015.

For your convenience, there are four methods you can use to submit your comments to the Commission. In all instances, please reference the project docket number(s) (CP14–119–000, CP14–120–000, and CP14–122–000) with your submission. The Commission encourages electronic filing of comments and has expert staff available to assist you at (202) 502–8258 or *efiling@ferc.gov*.

(1) You can file your comments electronically using the eComment feature on the Commission's Web site (*www.ferc.gov*) under the link to *Documents and Filings*. This is an easy method for submitting brief, text-only comments on a project.

(2) You can file your comments electronically by using the eFiling feature on the Commission's Web site (*www.ferc.gov*) under the link to *Documents and Filings*. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on ''*eRegister*.'' If you are filing a comment on a particular project, please select ''Comment on a Filing'' as the filing type.

(3) You can file a paper copy of your comments by mailing them to the following address: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Room 1A, Washington, DC 20426.

(4) In lieu of sending written or electronic comments, the Commission invites you to attend a public comment meeting its staff will conduct in the project area to receive comments on the draft EIS. We encourage interested groups and individuals to attend and present oral comments on the draft EIS. A transcript of the meeting will be available for review in eLibrary under the project docket numbers. The meeting will begin at 7:00 p.m. and is scheduled as follows:

Date	Location
May 7, 2015 ...	Holiday Inn Lake Charles—W. Sulphur, 330 Arena Road, Sulphur, Louisiana 70665, (337) 527–0858.

Any person seeking to become a party to the proceeding must file a motion to intervene pursuant to Rule 214 of the Commission's Rules of Practice and Procedures (Title 18 Code of Federal Regulations Part 385.214).[1] Only intervenors have the right to seek rehearing of the Commission's decision. The Commission grants affected landowners and others with environmental concerns intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding that no other party can adequately represent. Simply filing environmental comments will not give you intervenor status, but you do not need intervenor status to have your comments considered.

Questions?

Additional information about the project is available from the Commission's Office of External Affairs, at (866) 208–FERC, or on the FERC Web site (*www.ferc.gov*) using the eLibrary link. Click on the eLibrary link, click on ''General Search,'' and enter the docket number(s) excluding the last three digits in the Docket Number field (*i.e.,* CP14–119, CP14–120, and CP14–122). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at *FercOnlineSupport@ferc.gov* or toll free at (866) 208–3676; for TTY, contact (202) 502–8659. The eLibrary link also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription that allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to *www.ferc.gov/docs-filing/esubscription.asp.*

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. EL15–59–000]

Navopache Electric Cooperative, Inc.; Notice of Petition for Declaratory Order

Take notice that on April 8, 2015, pursuant to Rule 207 of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedure, 18 CFR 385.207, Navopache Electric Cooperative, Inc. (Navopache), filed a petition for declaratory order requesting that the Commission confirm Navopache's rights to purchase power and energy to serve its customer from suppliers other than the Public Service Company of New Mexico without anticompetitive limitations on the amount of such purchases, all as more fully explained in the petition.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. Anyone filing a motion to intervene or protest must serve a copy of that document on the Petitioner.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the ''eFiling'' link at *http://www.ferc.gov*. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

This filing is accessible on-line at *http://www.ferc.gov*, using the ''eLibrary'' link and is available for review in the Commission's Public

Reference Room in Washington, DC. There is an ''eSubscription'' link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email *FERCOnlineSupport@ferc.gov*, or call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Comment Date: 5:00 p.m. Eastern time on May 8, 2015.

Dated: April 10, 2015.

Kimberly D. Bose,

Secretary.

BILLING CODE 6717–01–P

ENVIRONMENTAL PROTECTION AGENCY

[FRL–9926–37–OEI; EPA–HQ–OEI–2014–0758]

Establishment of a New System of Records Notice for the Emergency Management Portal—Field Readiness Application (EMP–FR)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The U.S. Environmental Protection Agency's (EPA) Office of Solid Waste and Emergency Response (OSWER), Office of Emergency Management (OEM) is giving notice that it proposes to create a new system of records pursuant to the provisions of the Privacy Act of 1974 (5 U.S.C. 552a). The EPA is implementing the Emergency Management Portal—Field Readiness Application (EMP–FR) which will contain information used by the Agency to (1) track and manage training and certifications for Agency emergency management and response personnel and those subject to Agency safety, health, and environmental management training and medical monitoring requirements; (2) contact EPA staff who are members of the Response Support Corps (RSC) in off-hours when they are needed to be sent to an emergency response incident or to contact an emergency point of contact in case of injury to the RSC member while working at an incident; and (3) respond to requests for statistical compilations of such information made by the Office of Management and Budget, the Department of Labor and the Department of Homeland Security.

DATES: Persons wishing to comment on this system of records notice must do so by May 26, 2015.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–HQ–OEI–2014–0758, by one of the following methods:

- *www.regulations.gov:* Follow the online instructions for submitting comments.
- *Email: oei.docket@epa.gov.*
- *Fax:* 202–566–1752.
- *Mail:* OEI Docket, Environmental Protection Agency, Mailcode: 2822T, 1200 Pennsylvania Ave. NW., Washington, DC 20460.
- *Hand Delivery:* OEI Docket, EPA/DC, WJC West Building, Room 3334, 1301 Constitution Ave. NW., Washington, DC 20460. Such deliveries are only accepted during the Docket's normal hours of operation, and special arrangements should be made for deliveries of boxed information.

Instructions: Direct your comments to Docket ID No. EPA–HQ–OEI–2014–0758. The EPA's policy is that all comments received will be included in the public docket without change and may be made available online at *www.regulations.gov,* including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information for which disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through *www.regulations.gov.* The *www.regulations.gov* Web site is an ''anonymous access'' system, which means the EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an email comment directly to the EPA without going through *www.regulations.gov* your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, the EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD–ROM you submit. If the EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, the EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses. For additional information about the EPA's public docket visit the EPA Docket Center homepage at *http://www.epa.gov/epahome/dockets.htm.*

Docket: All documents in the docket are listed in the *www.regulations.gov* index. Although listed in the index, some information is not publicly available, *e.g.,* CBI or other information for which disclosure is restricted by statute. Certain other material, such as copyrighted material, will be publicly available only in hard copy. Publicly available docket materials are available either electronically at *www.regulations.gov* or in hard copy at the OEI Docket, EPA/DC, WJC West Building, Room 3334, 1301 Constitution Ave. NW., Washington, DC 20460. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday excluding legal holidays. The telephone number for the Public Reading Room is (202) 566–1744, and the telephone number for the OEI Docket is (202) 566–1752.

FOR FURTHER INFORMATION CONTACT: Joan Karrie, Office of Solid Waste, Office of Emergency Management, Resource Management Division, USEPA Headquarters, MC 5104A, WJC North Building, 1200 Pennsylvania Ave. NW., Washington, DC 20460, telephone number (202) 564–9469.

SUPPLEMENTARY INFORMATION:

General Information

EPA plans to create a Privacy Act system of records for the Emergency Management Portal—Field Readiness Application (EMP–FR). EMP–FR will be

used to track various items of concern to OEM, the Agency's Emergency Management and Response community; and the Agency's Safety, Health and Environmental Management community.

EMP–FR contains training and certification records for EPA employees (training taken, training required, certifications received and certifications required.) Additional fields for Response Support Corps (RSC) members include emergency response experience and workgroup membership. RSC members may also have entered personal and emergency contact name and address information (home address; personal email; home and cell phone numbers; emergency contact name, relationship and phone numbers). As this information is retrievable using search criteria that identifies an individual, including the person's name, email address and EPA LAN user ID, it is considered non-sensitive personally identifiable information (PII).

As specified by law and an EPA Order, the Agency's Occupational Medical Surveillance Program (OMSP) provides for baseline, exit and periodic health evaluations to ensure, to the extent feasible, that EPA employees subject to extraordinary physical demands or hazardous exposures have not suffered adverse health effects. The employee data about this program that are managed in EMP–FR include only the date that an occupational medical review was conducted and the date by which the next review is required. No specifics of employee health, exposures, or other medical confidential information are included in EMP–FR.

The EMP–FR application is owned and managed by the EPA's Office of Solid Waste and Emergency Response (OSWER), Office of Emergency Management (OEM). It is hosted by the Office of Environmental Information (OEI), Office of Technology Operations and Planning (OTOP), National Computer Center (NCC) located at Research Triangle Park, NC. EMP–FR is accessible through the Internet, with identity and access management handled by OEI's Web Application Management software.

EMP–FR is available to all EPA employees by default, although targeted to the Emergency Management and Health and Safety personnel in particular. Internal and external trusted partners can be given access with the consent of an EPA point of contact. Each employee can see and edit his/her own record. Supervisors can view records of their employees. Emergency Management and Safety and Health program managers and, according to stated protocols, other EPA employees and their delegates may be given rights to manage/edit other employee records as required. Access to the parallel reporting software, the Emergency Management Business Intelligence (EMBI)—FR tool, is managed separately but with similar protocols.

Dated: April 8, 2015.

Ann Dunkin,

Chief Information Officer.

EPA–70

SYSTEM NAME:

Emergency Management Portal—Field Readiness Application (EMP—FR)

SYSTEM LOCATION:

The system is located at the EPA's Office of Environmental Information, Office of Technology Operations and Planning, National Computing Center, Research Triangle Park, NC 27711.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

This system covers current and former EPA employees, grantees, interns and staff of other federal agencies posted at the EPA who are members of the emergency management and response community and/or who are subject to the EPA's health and safety training requirements. The emergency management and response community includes on scene coordinators, removal managers, RSC members and coordinators and other field personnel. Other EPA employees that are subject to health and safety training requirements include inspectors, special agents and enforcement officers.

CATEGORIES OF RECORDS COVERED BY THE SYSTEM:

- Personal and emergency contact information for the EPA RSC volunteers:
  - Home address, personal email, home and cell phone numbers as well as emergency contact name, relationship and phone numbers.
- Certification and training information for emergency response personnel and members of the EPA's health and safety community; Incident Command System training and certifications for the response personnel; health and safety training and certifications required for other EPA personnel:
  - Training taken, training required, certifications received and certifications required.
  - For RSC members, additional fields include emergency response experience and workgroup membership.
- As specified by law and EPA Order, the Agency's Occupational Medical Surveillance Program (OMSP) provides for baseline, exit and periodic health evaluations to ensure, to the extent feasible, that EPA employees subject to extraordinary physical demands or hazardous exposures have not suffered adverse health effects. The employee data about this program that are managed in EMP–FR include only the date that an occupational medical review was conducted and the date by which the next review is required. No specifics of employee health, exposures, or other medical confidential information are included in EMP–FR.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

CERCLA section 105 (National contingency plan; preparation, contents, etc.); EPCRA section 305 (Emergency training and review of emergency systems); EPA Order 1440.2 (partial list: Occupational Safety and Health Act of 1970 and E.O. 12196, Occupational Health and Safety Programs for Federal Employees); EPA Order 1460.1 (partial list: *29 U.S.C. 655, section 6,* and *29 U.S.C. 668, section 19,* Occupational Safety and Health Act of 1970 and *section 501* of the Rehabilitation Act of 1973, as amended). Purposes(s): Personal and Emergency Contact Information is used by line supervisors and managers of the RSC Program (1) to contact the RSC member in off-hours when he/she is needed to deploy to an incident and (2) in case of injury to the RSC member while deployed at an incident. Emergency planning, management and response-related training and certification information is used by individuals and managers of the various emergency management and response programs across the Agency to track required emergency response training.

Safety and health-related training and certification information is used by individuals and managers of the safety, health and environmental management program across the Agency to track required safety, health and environmental management training and medical monitoring data.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS, AND PURPOSES OF SUCH USES:

General routine uses A, D, E, F, G, H, K and L apply to this system. Records may also be disclosed to home-agency supervisors of non-EPA federal employees.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

- Storage: Data are stored on in a computer database on a database server.
- Retrievability: Personally identifiable information (PII) can be

retrieved by name and EPA personnel identification number. Searches by training or certification name can also be used to access user records.

- Safeguards: Access to EMP by external trusted partners, such as state employees, other federal employees and contractors as well as internal contractors, grantees, interns and non-EPA federal employees must be requested through OEI's Web Access Management process and must be approved by the requestor's EPA point of contact. In addition, requestor's EPA point of contact must explain and approve all read/edit access to the EMP–FR application. Access is then granted via the EMP Help Desk data managers. Those with edit rights to profiles other than their own, have rights granted individually through the EMP Help Desk in accordance with procedures determined by the various field readiness user community program managers such as the RSC project manager; the National Incident Management System project manager and the Safety, Health and Environmental Management Division of the Office of Administration and Resources Management. Access to the personal and emergency contact information is limited to the person himself/herself; the person's supervisor, as listed in EMP–FR; and the person's organizational RSC Coordinators and their specific designees. This access is managed through the standard EMP database security and policies.
- Retention and Disposal: An EMP–FR records schedule is currently under development.

System Manager(s) and Address: Christopher Burgess, Office of Solid Waste and Emergency Response, Office of Emergency Management, Resource Management Division, USEPA, MC 5104A, WJC North, 1200 Pennsylvania Avenue NW., Washington, DC 20460.

Notification Procedure: Any individual who wants to know whether this system of records contains a record about him or her, who wants access to his or her record, or who wants to contest the contents of a record, should make a written request to the EPA Freedom of Information Act Office, Attn: Privacy Act Officer, MC 2822T, 1200 Pennsylvania Avenue NW., Washington, DC 20460.

Record Access Procedure: Individuals seeking access to information in this system of records about themselves are required to provide adequate identification (*e.g.* driver's license, military identification card, employee badge or identification card and, if necessary, proof of authority). Additional identity verification procedures may be required, as warranted. Requests must meet the requirements of EPA regulations that implement the Privacy Act of 1974, at 40 CFR part 16.

Contesting Record Procedure: Requests for correction or amendment must identify the record to be changed and the corrective action sought. Complete EPA Privacy Act procedures are described in EPA's Privacy Act regulations at 40 CFR part 16.

Record Source Categories: Information will come from the individual, from program managers such as OARM/SHEMD and OSWER/OEM/PROD, and from training rosters.

System Exempted from Certain Provisions of the Act: None.

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

[EPA–HQ–OPP–2010–0014; FRL–9925–44]

Product Cancellation Order for Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's order for the cancellations, voluntarily requested by the registrants and accepted by the Agency, of the products listed in Table 1 of Unit III., pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). Any distribution, sale, or use of the products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

DATES: The cancellations are effective April 16, 2015.

FOR FURTHER INFORMATION CONTACT: Janeese Hackley, Pesticide Re-Evaluation Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460–0001; telephone number: (703) 605–1523; email address: *hackley.janeese@epa.gov.*

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action.

B. How can I get copies of this document and other related information?

The docket for this action, identified by docket identification (ID) number EPA–HQ–OPP–2010–0014, is available at *http://www.regulations.gov* or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW., Washington, DC 20460–0001. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566–1744, and the telephone number for the OPP Docket is (703) 305–5805. Please review the visitor instructions and additional information about the docket available at *http://www.epa.gov/dockets.*

II. What is the Agency's authority for taking this action?

Section 6(f)(1) of FIFRA (7 U.S.C. 136d(f)(1)) provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the EPA Administrator may approve such a request.

III. What action is the Agency taking?

This notice announces the cancellation, as requested by registrants, of products registered under FIFRA section 3 (7 U.S.C. 136a). These registrations are listed in sequence by registration number in Table 1 of this unit.

TABLE 1—PRODUCT CANCELLATIONS

EPA registration No.	Product name	Chemical name
060061–00139	Kop-Coat Cooper Treat 80	Copper carbonate, basic.
CA–050009	Deadline Bullets	Metaldehyde.
CA–890001	Durham Metaldehyde Granules 7.5	Metaldehyde.
KY–100002	Dual Magnum Herbicide	S-Metolachlor.
KY–110032	Ridomil Gold SL	Metalaxyl-M.
MI–100003	Scholar SC	Fludioxonil.
OR–030002	Warrior Insecticide with Zeon Technology	Lambda-cyhalothrin.
OR–060010	Mocap EC Nematicide-Insecticide	Ethoprop.
OR–060024	Mocap EC Nematicide-Insecticide	Ethoprop.
OR–080027	Axiom DF Herbicide	Metribuzin and Flufenacet.
OR–090003	Mocap EC Nematicide-Insecticide	Ethoprop.
WA–000037	Wakil XL	Fludioxonil, Metalaxyl-M and Cymoxanil.
WA–100007	Graduate SC	Fludioxonil.

Table 2 of this unit includes the names and addresses of record for all registrants of the products in Table 1 of this unit, in sequence by EPA company number. This number corresponds to the first part of the EPA registration numbers of the products listed in Table 1 of this unit.

TABLE 2—REGISTRANTS OF CANCELLED PRODUCTS

EPA company No.	Company name and address
60061	Kop-Coat, Inc., 3020 William Pitt Way, Pittsburg, PA 15238.
CA–050009 and CA–890001	Amvac Chemical Corporation, 4695 MacArthur Court, Suite 1200, Newport Beach, CA 92660–1706.
KY–100002, KY–110032, MI–100003, OR–030002, WA–000037, WA–100007.	Syngenta Crop Protection, LLC, 410 Swing Road, P.O. Box 18300, Greensboro, NC 27419–8300.
OR–060010, OR–060024, OR–080027, OR–090003	Bayer CropScience LP, 2 T.W. Alexander Drive, P.O. Box 12014, Research Triangle Park, NC 27709.

This cancellation order follows a notice of receipt of voluntary cancellation requests received from the registrants that issued in the **Federal Register** of June 11, 2014 (79 FR 33550) (FRL–9911–36)), and a correction notice issued in the **Federal Register** of July 16, 2014 (79 FR 41551) (FRL–9913–20) that removed two products that were inadvertently listed in the June 11, 2014 document. In the June 2014 document, EPA indicated that it would issue an order implementing the cancellations, unless the Agency received substantive comments within the 180-day comment period that would merit its further review of these requests, or unless the registrants withdrew their requests.

IV. Summary of Public Comments Received and Agency Response to Comments

The comment period closed on December 8, 2014. EPA received one comment. The comment did not contain information about any specific product cancellation request. For this reason, the Agency does not believe that the comment submitted during the comment period merits further review or a denial of the request for voluntary cancellation.

Further, the registrants did not withdraw their requests.

V. Cancellation Order

Pursuant to FIFRA section 6(f) (7 U.S.C. 136d(f)), EPA hereby approves the requested cancellations of the registrations identified in Table 1 of Unit III. Accordingly, the Agency hereby orders that the product registrations identified in Table 1 of Unit III. are canceled. The effective date of the cancellations that are the subject of this order is April 16, 2015. Any distribution, sale, or use of existing stocks of the products identified in Table 1 of Unit III. in a manner inconsistent with any of the provisions for disposition of existing stocks set forth in Unit VI. will be a violation of FIFRA.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. The existing stocks provisions for the products subject to this order are as follows.

The registrants may continue to sell and distribute existing stocks of products listed in Table 1 of Unit III. until April 18, 2016, which is 1 year after the publication of the Cancellation Order in the **Federal Register**. Thereafter, the registrants are prohibited from selling or distributing products listed in Table 1 of Unit III. except for export in accordance with FIFRA section 17 (7 U.S.C. 136o), or proper disposal. Persons other than the registrants may sell, distribute, or use existing stocks of products listed in Table 1 of Unit III. until existing stocks are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products.

Authority: 7 U.S.C. 136 *et seq.*

Dated: April 3, 2015.

Michael Goodis,

Acting Director, Pesticide Re-Evaluation Division, Office of Pesticide Programs.

BILLING CODE 6560–50–P

FEDERAL COMMUNICATIONS COMMISSION

[3060–1004]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501–3520), the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before June 15, 2015. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Benish Shah, FCC, via email *PRA@fcc.gov* and to *Benish.Shah@fcc.gov.*

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact *Benish.Shah@fcc.gov,* (202) 418–7866.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–1004.

Title: Commission's Rules to Ensure Compatibility with Enhanced 911 Emergency Calling Systems

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 235 respondents; 565 responses.

Estimated Time per Response: 3.8 hours.

Frequency of Response: One time and then quarterly.

Obligation to Respond: Mandatory. Statutory authority for this collection of information is contained in 47 U.S.C. 1, 4(i), 201, 303, 309 and 332 of the Communications Act of 1934, as amended.

Total Annual Burden: 2,145 hours.

Total Annual Cost: N/A.

Privacy Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Needs and Uses: The existing information collection is based on the Commission's regulatory authority pursuant to its regulatory responsibilities under the Omnibus Budget Reconciliation Act of 1993 (''OBRA–1993''), which added Section 309(j) to the Communications Act of 1934. Given that delays in compliance could impact the delivery of safety-of-life services to the public, it is imperative that the CMRS carriers be brought into compliance, required in the various orders, and that the reports and compliance plans be timely submitted by the carriers.

Federal Communications Commission.

Marlene H. Dortch,

Secretary, Office of the Secretary, Office of the Managing Director.

BILLING CODE 6712–01–P

FEDERAL DEPOSIT INSURANCE CORPORATION

Notice to All Interested Parties of the Termination of the Receivership of 10014, Ameribank, Inc., Northfork, West Virginia

NOTICE IS HEREBY GIVEN that the Federal Deposit Insurance Corporation (''FDIC'') as Receiver for Ameribank, Inc., Northfork, West Virginia (''the Receiver'') intends to terminate its receivership for said institution. The FDIC was appointed receiver of Ameribank, Inc. on September 19, 2008. The liquidation of the receivership assets has been completed. To the extent permitted by available funds and in accordance with law, the Receiver will be making a final dividend payment to proven creditors.

On April 10, 2015, the FDIC published its Notice to All Interested Parties of the Termination of the Receivership of Ameribank, Inc., in the **Federal Register** (80 FR 19319). In that Notice, the location of Ameribank, Inc., was incorrectly identified as Northfolk, West Virginia. This Notice is to correct that error.

Based upon the foregoing, the Receiver has determined that the continued existence of the receivership will serve no useful purpose. Consequently, notice is given that the receivership shall be terminated, to be effective no sooner than thirty days after the date of this Notice. If any person wishes to comment concerning the termination of the receivership, such comment must be made in writing and sent within thirty days of the date of this Notice to: Federal Deposit Insurance Corporation, Division of Resolutions and Receiverships, Attention: Receivership Oversight Department 32.1, 1601 Bryan Street, Dallas, TX 75201.

No comments concerning the termination of this receivership will be considered which are not sent within this time frame.

Dated: April 13, 2015.

Federal Deposit Insurance Corporation.

Robert E. Feldman,

Executive Secretary.

FEDERAL ELECTION COMMISSION

Sunshine Act Meeting

AGENCY: Federal Election Commission.

DATE AND TIME: *Tuesday, April 21, 2015 at 10:00 a.m. and its Continuation on Thursday, April 23, 2015 at the Conclusion of the Open Meeting.*

PLACE: 999 E Street NW., Washington, DC.

STATUS: This meeting will be closed to the public.

ITEMS TO BE DISCUSSED: Compliance matters pursuant to 52 U.S.C. 30109 (formerly 2 U.S.C. 437g). Matters concerning participation in civil actions or proceedings or arbitration. Information the premature disclosure of which would be likely to have a considerable adverse effect on the implementation of a proposed Commission action.

BILLING CODE 4163–19–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Proposed Information Collection Activity; Comment Request

Proposed Projects: Immediate Disaster Case Management Intake Assessment (hardcopy and electronic versions).

Title: Immediate Disaster Case Management Intake Assessment.

OMB No.: 0970–NEW.

Description: Section 426 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (Stafford Act), as amended, 42 U.S.C. 5189d authorizes the Federal Emergency Management Agency (FEMA) and the U.S. Department of Health Services' Administration for Children and Families (ACF) to provide Immediate Disaster Case Management (IDCM) services under the federal Disaster Case Management Program (DCMP).

The use of the Electronic Case Management Record System (ECMRS) is aligned with Executive Order of the President 13589 and the memorandum to the Heads of Executive Departments and Agencies M–12–12 from the Office of Management and Budget to ''Promote Efficient Spending to Support Agency Operations.''

The primary purpose of the information collection pertains to ACF/OHSEPR's initiative to improve the intake process and delivery of case management services to individuals and households impacted by a disaster. Further, the information collection will be used to support ACF/OHSEPR's goal to quickly identify critical gaps, resources, needs, and services to support State, local and non-profit capacity for disaster case management and to augment and build capacity where none exists. All information gathered will be exclusively used to inform the delivery of disaster case management services and programmatic strategies and improvements.

Respondents: Individuals impacted by a disaster.

ANNUAL BURDEN ESTIMATES

Instrument	Number of respondents	Number of responses per respondent	Burden hours per response	Total burden hours
IDCM Intake Assessment	3,500	1	40	2,333

Estimated Total Annual Burden Hours: 2,333 hours or 140,000 minutes

In compliance with the requirements of Section 506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Administration for Children and Families is soliciting public comment on the specific aspects of the

information collection described above. Copies of the proposed collection of information can be obtained and comments may be forwarded by writing to the Administration for Children and Families, Office of Planning, Research and Evaluation, 370 L'Enfant Promenade SW., Washington, DC 20447, Attn: ACF Reports Clearance Officer. Email address: *infocollection@acf.hhs.gov.* All requests should be identified by the title of the information collection.

The Department specifically requests comments on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted within 60 days of this publication.

Robert Sargis,

Reports Clearance Officer.

BILLING CODE 4184–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. FDA–2011–N–0672]

Agency Information Collection Activities; Submission for Office of Management and Budget Review; Comment Request; Prominent and Conspicuous Mark of Manufacturers on Single-Use Devices

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing that a proposed collection of information has been submitted to the Office of Management and Budget (OMB) for review and clearance under the Paperwork Reduction Act of 1995.

DATES: Fax written comments on the collection of information by May 18, 2015.

ADDRESSES: To ensure that comments on the information collection are received, OMB recommends that written comments be faxed to the Office of Information and Regulatory Affairs, OMB, Attn: FDA Desk Officer, FAX: 202–395–7285, or emailed to *oira_submission@omb.eop.gov.* All comments should be identified with the OMB control number 0910–0577. Also include the FDA docket number found in brackets in the heading of this document.

FOR FURTHER INFORMATION CONTACT: FDA PRA Staff, Office of Operations, Food and Drug Administration, 8455 Colesville Rd., COLE–14526, Silver Spring, MD 20993–0002, *PRAStaff@fda.hhs.gov.*

SUPPLEMENTARY INFORMATION: In compliance with 44 U.S.C. 3507, FDA has submitted the following proposed collection of information to OMB for review and clearance.

Prominent and Conspicuous Mark of Manufacturers On Single-Use Devices (OMB Control Number 0910–0577)—Extension

Section 502 of the Federal Food, Drug, and Cosmetic Act (the FD&C Act) (21 U.S.C. 352), among other things, establishes requirements that the label or labeling of a medical device must meet so that it is not misbranded and subject to regulatory action. Section 301 of the Medical Device User Fee and Modernization Act of 2002 (Pub. L. 107–250) amended section 502 of the FD&C Act to add section 502(u) to require devices (both new and reprocessed) to bear prominently and conspicuously the name of the manufacturer, a generally recognized abbreviation of such name, or a unique and generally recognized symbol identifying the manufacturer.

Section 2(c) of the Medical Device User Fee Stabilization Act of 2005 (Pub. L. 109–43) amends section 502(u) of the FD&C Act by limiting the provision to reprocessed single-use devices (SUDs) and the manufacturers who reprocess them. Under the amended provision, if the original SUD or an attachment to it prominently and conspicuously bears the name of the manufacturer, then the reprocessor of the SUD is required to identify itself by name, abbreviation, or symbol in a prominent and conspicuous manner on the device or attachment to the device. If the original SUD does not prominently and conspicuously bear the name of the manufacturer, the manufacturer who reprocesses the SUD for reuse may identify itself using a detachable label that is intended to be affixed to the patient record.

The requirements of section 502(u) of the FD&C Act impose a minimal burden on industry. This section of the FD&C Act only requires the manufacturer, packer, or distributor of a device to include their name and address on the labeling of a device. This information is readily available to the establishment and easily supplied. From its registration and premarket submission database, FDA estimates that there are 67 establishments that distribute approximately 427 reprocessed SUDs. Each response is anticipated to take 0.1 hours (6 minutes) resulting in a total burden to industry of 43 hours.

In the **Federal Register** of December 30, 2014 (79 FR 78445), FDA published a 60-day notice requesting public comment on the proposed collection of information. No comments were received.

FDA estimates the burden of this collection of information as follows:

TABLE 1—ESTIMATED ANNUAL THIRD-PARTY DISCLOSURE BURDEN [1] [2]

Type of respondent	Number of respondents	Number of disclosures per respondent	Total annual disclosures	Average burden per disclosure	Total hours
Establishments listing fewer than 10 SUDs	58	2	116	0.1 (6 minutes)	12
Establishments listing 10 or more SUDs	9	34	306	0.1 (6 minutes)	31
Total					43

[1] There are no capital costs or operating and maintenance costs associated with this collection of information.

[2] Numbers have been rounded.

Dated: April 13, 2015.

Leslie Kux,

Associate Commissioner for Policy.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. FDA–2011–N–0449]

Agency Information Collection Activities; Proposed Collection; Comment Request; Sun Protection Factor Labeling and Testing Requirements and Drug Facts Labeling for Over-the-Counter Sunscreen Drug Products

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing an opportunity for public comment on the proposed collection of certain information by the Agency. Under the Paperwork Reduction Act of 1995 (the PRA), Federal Agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, and to allow 60 days for public comment in response to the notice. This notice solicits comments on Sun Protection Factor (SPF) labeling and testing requirements for over-the-counter (OTC) sunscreen products containing specified ingredients and marketed without approved applications, and on compliance with Drug Facts labeling requirements for all OTC sunscreen products.

DATES: Submit either electronic or written comments on the collection of information by June 15, 2015.

ADDRESSES: Submit electronic comments on the collection of information to *http://www.regulations.gov.* Submit written comments on the collection of information to the Division of Dockets Management (HFA–305), Food and Drug Administration, 5630 Fishers Lane, Rm. 1061, Rockville, MD 20852. All comments should be identified with the docket number found in brackets in the heading of this document.

FOR FURTHER INFORMATION CONTACT: FDA PRA Staff, Office of Operations, Food and Drug Administration, 8455 Colesville Rd., COLE–14526, Silver Spring, MD 20993–0002, *PRAStaff@fda.hhs.gov.*

SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501–3520), Federal Agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. ''Collection of information'' is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes Agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires Federal Agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, FDA is publishing notice of the proposed collection of information set forth in this document.

With respect to the following collection of information, FDA invites comments on these topics: (1) Whether the proposed collection of information is necessary for the proper performance of FDA's functions, including whether the information will have practical utility; (2) the accuracy of FDA's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques, when appropriate, and other forms of information technology.

SPF Labeling and Testing Requirements for OTC Sunscreen Products Containing Specified Active Ingredients and Marketed Without Approved Applications, and Drug Facts Labeling for All OTC Sunscreen Products—21 CFR 201.327(a)(1) and (i), 21 CFR 201.66(c) and (d) (OMB Control Number 0910–0717)—Extension

In the **Federal Register** of June 17, 2011 (76 FR 35620) we published a final rule establishing labeling and effectiveness testing requirements for certain OTC sunscreen products containing specified active ingredients without approved applications (2011 sunscreen final rule; § 201.327 (21 CFR 201.327)). In addition to establishing testing requirements, this sunscreen final rule lifts the delay of implementation of the prior 1999 sunscreen final rule (published May 21, 1999, at 64 FR 27666 and stayed December 31, 2001, 66 FR 67485) from complying with the 1999 labeling final rule (published March 17, 1999, 64 FR 13254) in which we amended our regulations governing requirements for human drug products to establish standardized format and content requirements for the labeling of all marketed OTC drug products in part 201 (21 CFR part 201). Specifically, the 1999 labeling final rule added new § 201.66 to part 201. Section 201.66 sets content and format requirements for the Drug Facts portion of labels on OTC drug products. We specifically exempted OTC sunscreen products from complying with the 1999 labeling final rule until we lifted the stay of the 1999 sunscreen final rule. The 2011 sunscreen final rule became effective December 17, 2012, for sunscreen products with annual sales of $25,000 or more and December 17, 2013, for sunscreen products with annual sales of less than $25,000 when we published an extension date notice on May 11, 2012 (77 FR 27591).

SPF Labeling and Testing for OTC Sunscreens Containing Specified Active Ingredients and Marketed Without Approved Applications

In the **Federal Register** of June 17, 2011 (76 FR 35678), we published a 60-day notice requesting public comment on the proposed collection of information in regard to SPF labeling and testing requirements for OTC sunscreen products containing specified ingredients and marketed without approved applications. In that notice, we stated that § 201.327 (a)(1) requires the principal display panel (PDP) labeling of a sunscreen covered by the 2011 final rule to include the SPF value determined by conducting the SPF test outlined in § 201.327(i). Therefore, this provision results in information collection with a third-party disclosure burden for manufacturers of OTC sunscreens covered by the rule. We determined that products need only complete the testing and labeling required by the rule one time, and then continue to utilize the resultant labeling (third-party disclosure) going forward without additional burden. This one-time testing would need to be conducted within the first 3 years after publication of the 2011 final rule for all OTC sunscreens covered by that rule. We determined that the third-party disclosure burden by manufacturers of OTC sunscreens covered by the rule was based on an estimate: (1) Of the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing each collection of information; (2) on the

conduct of SPF testing based on the estimated number of existing formulations; (3) of the time to relabel currently marketed OTC sunscreens containing specified ingredients and marketed without approved applications; and (4) on testing and labeling of new products introduced each year. The estimate for this burden in the 2011 60-day PRA notice was a total of 30,066 hours in years one and two and a total burden of 966 in each subsequent year.

All currently marketed OTC sunscreen drug products are required at this time to be in compliance with the SPF labeling requirements specified by the 2011 final rule. However, our original estimate included the burden of new products introduced each year. We estimated that as many as 60 new OTC sunscreen products stock keeping units (SKUs) may be introduced each year which will have to be tested and labeled with the SPF value determined in the test. We estimated that the 60 new sunscreen SKUs represent 39 new formulations. The burden for testing and labeling these formulations was estimated at 30 hours per year.

We have received no further comments on our estimate of burden for the collection of this information other than two comments (FDA–2011–N–0449–0002 and FDA–2011–N–0449–0003). These comments were already addressed in FDA's notice of ''Information Collection Activities; Submission for Office of Management and Budget Review; Comment Request; Sun Protection Factor Labeling and Testing Requirements and Drug Facts Labeling for Over-the Counter Sunscreen Drug Products'' published on May 9, 2012 (77 FR 27230).

We estimate the burden of this collection of information as follows:

TABLE 1—ESTIMATED ANNUAL THIRD-PARTY DISCLOSURE BURDEN [1]

Activity	Number of respondents	Number of disclosures per respondent	Total annual disclosures	Average burden per disclosure	Total hours
Conduct SPF testing in accordance with § 201.327(i) for new sunscreens.	20	1.95	39	24	936
Create PDP labeling in accordance with § 201.327(a)(1) for new sunscreen SKUs.	20	3	60	0.5 (30 min.)	30
Total					966

[1] There are no capital costs or operating and maintenance costs associated with this collection of information.

Drug Facts Labeling for OTC Sunscreens

Because the 2011 final rule also lifts the delay of implementation of the Drug Facts regulations (§ 201.66) for OTC sunscreens, the rule also modifies the information collection associated with § 201.66 (currently approved under OMB control number 0910–0340) and adds an additional third-party disclosure burden resulting from requiring OTC sunscreen products to comply with Drug Facts regulations. In the **Federal Register** of March 17, 1999 (64 FR 13254), we amended our regulations governing requirements for human drug products to establish standardized format and content requirements for the labeling of all marketed OTC drug products, codified in § 201.66 (the 1999 Drug Facts labeling final rule). Section 201.66 sets requirements for the Drug Facts portion of labels on OTC drug products, requiring such labeling to include uniform headings and subheadings, presented in a standardized order, with minimum standards for type size and other graphical features. Therefore, currently marketed OTC sunscreen products will incur a one-time burden to comply with the requirements in § 201.66(c) and (d). The burden was estimated in the 60-day PRA notice published in the **Federal Register** of June 17, 2011 (76 FR 35678) as 43,200 hours for existing sunscreen SKUs and 720 hours for new sunscreen SKUs.

The compliance dates for the 2011 final rule lifting the delay of the § 201.66 labeling implementation data for OTC sunscreen products were December 17, 2012, for sunscreen products with annual sales of $25,000 or more and December 17, 2013, for sunscreen products with annual sales of less than $25,000, respectively, when we published an extension date notice on May 11, 2012 (77 FR 27591). All currently marketed sunscreen products are, therefore, already required to be in compliance with the Drug Facts labeling requirements in § 201.66 and will incur no further burden in the 1999 labeling final rule. However, new OTC sunscreen drug products will be subject to a one-time burden to comply with Drug Facts labeling requirements in § 201.66. In the 2011 60-day PRA, we estimated that as many as 60 new product SKUs marketed each year will have to comply with Drug Facts regulations. We estimated that these 60 SKUs would be marketed by 30 manufacturers. We estimated that approximately 12 hours would be spent on each label, based on the most recent estimate used for other OTC drug products to comply with the Drug Facts labeling final rule, including public comments received on this estimate in 2010 that addressed sunscreens. This is equal to 720 hours annually (60 SKUs × 12 hours/SKU). We stated that we do not expect any OTC sunscreens to apply for exemptions or deferrals of the Drug Facts regulations in § 201.66(e). However, we took this into consideration in 2013 and estimated the burden for an exemption or deferral by considering the number of exemptions or deferrals we have received since publication of the 1999 final rule (one response) and estimating that a request for deferral or exemption would require 24 hours to complete. Multiplying the annual frequency of response (0.125) by the number of hours per response (24) gives a total response time for requesting an exemption or deferral equal to 3 hours.

We estimate the burden of this collection of information as follows:

TABLE 2—ESTIMATED ANNUAL THIRD-PARTY DISCLOSURE BURDEN [1]

Activity	Number of respondents	Number of disclosures per respondent	Total annual disclosures	Average burden per disclosure	Total hours
Format labeling in accordance with § 201.66(c) and (d) for new sunscreen SKUs	20	3	60	12	720
Request for Drug Facts exemption or deferral § 201.66(e)	1	0.125	0.125	24	3
Total					723

[1] There are no capital costs or operating and maintenance costs associated with this collection of information.

Dated: April 13, 2015.

BILLING CODE 4164–01–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Agency Information Collection Activities: Proposed Collection: Public Comment Request

AGENCY: Health Resources and Services Administration, HHS.

ACTION: Notice.

SUMMARY: In compliance with the requirement for opportunity for public comment on proposed data collection projects (section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995), the Health Resources and Services Administration (HRSA) announces plans to submit an Information Collection Request (ICR), described below, to the Office of Management and Budget (OMB). Prior to submitting the ICR to OMB, HRSA seeks comments from the public regarding the burden estimate, below, or any other aspect of the ICR.

DATES: Comments on this Information Collection Request must be received no later than June 15, 2015.

ADDRESSES: Submit your comments to *paperwork@hrsa.gov* or mail the HRSA Information Collection Clearance Officer, Room 10C–03, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the data collection plans and draft instruments, email *paperwork@hrsa.gov* or call the HRSA Information Collection Clearance Officer at (301) 443–1984.

SUPPLEMENTARY INFORMATION: When submitting comments or requesting information, please include the information request collection title for reference.

Information Collection Request Title: Maternal, Infant, and Childhood Home Visiting (Home Visiting) Program fiscal year (FY) 2015, FY2016, FY2017 Non-Competing Continuation Progress Report for Formula Grant.

OMB No. 0915–0355—Extension.

Abstract: The Maternal, Infant, and Early Childhood Home Visiting (Home Visiting) Program, administered by the Health Resources and Services Administration (HRSA), in close partnership with the Administration for Children and Families (ACF), supports voluntary, evidence-based home visiting services during pregnancy and to parents with young children up to kindergarten entry. The purpose of this formula grant program is to support the delivery of coordinated and comprehensive voluntary early childhood home visiting program services and effective implementation of high-quality evidence-based practices. Fifty states, the District of Columbia, 5 territories, and eligible nonprofit organizations are eligible for formula grants and submit non-competing continuation progress reports annually. There are 56 jurisdictions/entities eligible for formula awards, and 56 formula awards are issued annually.

Need and Proposed Use of the Information: This information collection is needed for grantees to report progress under the Home Visiting Program annually. On March 23, 2010, the President signed into law the Patient Protection and Affordable Care Act (ACA). Section 2951 of the ACA amended title V of the Social Security Act by adding a new section, 511, which authorized the Home Visiting Program (*http://frwebgate.access.gpo.gov/cgi-bin/getdoc.cgi?dbname=111_cong_bills&docid=f:h3590enr.txt.pdf*, pages 216–225). Congress extended funding for the Home Visiting Program by the Protecting Access to Medicare Act of 2014 (Pub. L. 113–93). A portion of funding provided under this program is awarded to participating states, jurisdictions, and entities by formula.

The information collected will be used to review grantee progress on proposed project plans to assess whether the project is performing adequately to achieve the goals and objectives that were previously approved. This report will also provide implementation plans for the upcoming year, to permit assessment of whether the plan is consistent with the grant as approved, and is expected to, will result in, implementation of a high-quality project that will complement the Home Visiting Program as a whole. Progress Reports are submitted through the Electronic Handbooks. Failure to collect this information would impair federal monitoring and oversight of the use of grant funds in keeping with legislative and policy requirements. Grantees are required to provide a performance narrative with the following sections: Project identifier information; accomplishments and barriers; Home Visiting Program goals and objectives; update on the Home Visiting Program promising approach; implementation of the Home Visiting Program in targeted at-risk communities; progress toward meeting legislatively-mandated reporting on benchmark areas; home visiting quality improvement efforts; and updates on the administration of the Home Visiting Program.

Likely Respondents: Grantees with Home Visiting Formula Awards Awarded in Federal FY 2013–FY 2017.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the

information. The total annual burden hours estimated for this Information Collection Request are summarized in the table below.

Total Estimated Annualized burden hours:

The burden estimates presented in the table below are based on consultations with a few states on the guidance. Grantees receive a new formula grant annually and are expected to report on progress annually, so the expectation is that grantees would submit non-competing continuation progress reports four times between federal FY 2015 and FY 2018. Only seven grantees are currently implementing a promising approach and require an annual update on the promising approach.

Information collection	Number of respondents	Number of responses per respondent	Total responses	Hours per response	Total burden hours
Formula Grant Award	56	1	56	42	2,352
Total	56	1	56	42	2,352

HRSA specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency's functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Jackie Painter,

Director, Division of the Executive Secretariat.

BILLING CODE 4165–15–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Health Resources and Services Administration

Agency Information Collection Activities: Proposed Collection: Public Comment Request

AGENCY: Health Resources and Services Administration, HHS.

ACTION: Notice.

SUMMARY: In compliance with the requirement for opportunity for public comment on proposed data collection projects (section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995), the Health Resources and Services Administration (HRSA) announces plans to submit an Information Collection Request (ICR), described below, to the Office of Management and Budget (OMB). Prior to submitting the ICR to OMB, HRSA seeks comments from the public regarding the burden estimate, below, or any other aspect of the ICR.

DATES: Comments on this Information Collection Request must be received no later than June 15, 2015.

ADDRESSES: Submit your comments to *paperwork@hrsa.gov* or mail the HRSA Information Collection Clearance Officer, Room 10C–03, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the data collection plans and draft instruments, email *paperwork@hrsa.gov* or call the HRSA Information Collection Clearance Officer at (301) 443–1984.

SUPPLEMENTARY INFORMATION: When submitting comments or requesting information, please include the information request collection title for reference.

Information Collection Request Title: Maternal, Infant, and Childhood Home Visiting (Home Visiting) Program fiscal year (FY) 2012–FY 2017 Non-Competing Continuation Progress Report for Competitive Grants.

OMB No. 0915–0356—Extension.

Abstract: The Maternal, Infant, and Early Childhood Home Visiting (Home Visiting) Program, administered by HRSA in close partnership with the Administration for Children and Families (ACF), supports voluntary, evidence-based home visiting services during pregnancy and to parents with young children up to kindergarten entry. Competitive grants support the efforts of states and entities that have previously received formula-based Home Visiting awards and that have made significant progress towards a high-quality home visiting program or embedding their home visiting program into a comprehensive, high-quality early childhood system. Fifty states, the District of Columbia (DC), 5 territories, and eligible nonprofit organizations are eligible for competitive grants and must submit non-competing continuation progress reports annually.[1] There are currently 41 entities that have been awarded competitive grants. Some entities have been awarded more than one competitive grant.

Need and Proposed Use of the Information: This information collection is needed for grant recipients to report progress under the Home Visiting Program annually. On March 23, 2010, the President signed into law the Patient Protection and Affordable Care Act (ACA). Section 2951 of the ACA amended title V of the Social Security Act by adding a new section 511, which authorized the Home Visiting Program (*http://frwebgate.access.gpo.gov/cgi-bin/getdoc.cgi?dbname=111_cong_bills&docid=f:h3590enr.txt.pdf,* pages 216–225). Funding for the Home Visiting program was extended by the Protecting Access to Medicare Act of 2014 (Pub. L. 113–93). A portion of funding made available under this program is awarded to participating states and eligible entities competitively.

The information collected will be used to review grantee progress on proposed project plans so as to assess whether the grantee is performing adequately to achieve the goals and objectives that were previously approved. This report will also provide implementation plans for the upcoming year, which will be assessed for consistency with the approved grant and assist the grantee in achieving implementation of a high-quality project that will complement the Home Visiting Program as a whole. Failure to collect this information could impair federal monitoring and oversight of the use of grant funds by grantees in keeping with legal and policy requirements. Grantees are required to provide a performance narrative with the following sections: Project identifier information, accomplishments and barriers; state home visiting program goals and objectives; update on the state home visiting program promising approach and evaluations conducted under the competitive grant; implementation of

[1] In the event of a new, 1-year Funding Opportunity Announcement for the competitive grant program, the application for new grant funds may be permitted by HRSA to replace a non-competing continuation progress report.

the state home visiting program in targeted at-risk communities; progress toward meeting legislatively-mandated reporting on benchmark areas; state home visiting quality improvement efforts; and updates on the administration of state home visiting program.

Since federal fiscal year 2011, 48 eligible entities have received competitive grant awards. Some grantees have been awarded up to three competitive grants to date. Grantees of the competitive grant program need to complete annual reports in order to comply with legal and policy reporting requirements.

Likely Respondents: Grantees with Home Visiting Competitive Awards Awarded in Federal FY 2013–FY 2017.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this Information Collection Request are summarized in the table below.

TOTAL ESTIMATED ANNUALIZED BURDEN HOURS

Summary progress on the following activities	Number of respondents	Number of responses per respondent	Total responses	Hours per response	Total burden hours
Home Visiting Competitive Grant Progress Report—FY 2012, FY 2013, FY 2014	37	1	37	25	925
Home Visiting Competitive Grant Progress Report—FY 2015	32	1	35	25	875
Home Visiting Competitive Grant Progress Report—FY 2016 FY 2017	47	2	94	25	2350
Total	116	4	166	75	4150

HRSA specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency's functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

Jackie Painter,

Director, Division of the Executive Secretariat.

BILLING CODE 4165–15–P

DEPARTMENT OF HOMELAND SECURITY

U.S. Customs and Border Protection

[1651–0111]

Agency Information Collection Activities: Arrival and Departure Record (Forms I–94 and I–94W) and Electronic System for Travel Authorization

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: 30-Day notice and request for comments; Extension and revision of an existing collection of information.

SUMMARY: U.S. Customs and Border Protection (CBP) of the Department of Homeland Security will be submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act: CBP Form I–94 (Arrival/Departure Record), CBP Form I–94W (Nonimmigrant Visa Waiver Arrival/Departure), and the Electronic System for Travel Authorization (ESTA). This is a proposed extension of an information collection that was previously approved. CBP is proposing that this information collection be extended with a change to the burden hours and a revision to the information collected. This document is published to obtain comments from the public and affected agencies.

DATES: Written comments should be received on or before May 18, 2015 to be assured of consideration.

ADDRESSES: Interested persons are invited to submit written comments on this proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget. Comments should be addressed to the OMB Desk Officer for Customs and Border Protection, Department of Homeland Security, and sent via electronic mail to *oira_submission@omb.eop.gov* or faxed to (202) 395–5806.

FOR FURTHER INFORMATION CONTACT: Requests for additional information should be directed to Tracey Denning, U.S. Customs and Border Protection, Regulations and Rulings, Office of International Trade, 90 K Street NE., 10th Floor, Washington, DC 20229–1177, at 202–325–0265.

SUPPLEMENTARY INFORMATION: This proposed information collection was previously published in the **Federal Register** (79 FR 73096) on December 9, 2014, allowing for a 60-day comment period. This notice allows for an additional 30 days for public comments. This process is conducted in accordance with 5 CFR 1320.10. CBP invites the general public and other Federal agencies to comment on proposed and/or continuing information collections pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104–13; 44 U.S.C. 3507). The comments should address: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimates of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden, including the use of automated collection techniques or the use of other forms of information technology; and (e) the annual costs to respondents or record keepers from the collection of information (total capital/startup costs and operations and maintenance costs). The comments that are submitted will be summarized and

included in the CBP request for OMB approval. All comments will become a matter of public record. In this document, CBP is soliciting comments concerning the following information collection:

Title: Arrival and Departure Record, Nonimmigrant Visa Waiver Arrival/Departure, and Electronic System for Travel Authorization (ESTA).

OMB Number: 1651–0111.

Form Numbers: I–94 and I–94W.

Abstract:

Background

CBP Forms I–94 (Arrival/Departure Record) and I–94W (Nonimmigrant Visa Waiver Arrival/Departure Record) are used to document a traveler's admission into the United States. These forms are filled out by aliens and are used to collect information on citizenship, residency, passport, and contact information. The data elements collected on these forms enable the DHS to perform its mission related to the screening of alien visitors for potential risks to national security, and the determination of admissibility to the United States. The Electronic System for Travel Authorization (ESTA) applies to aliens traveling to the United States under the Visa Waiver Program (VWP) and requires that VWP travelers provide information electronically to CBP before embarking on travel to the United States. Travelers who are entering under the VWP in the air or sea environment, and who have a travel authorization obtained through ESTA, are not required to complete the paper Form I–94W.

Pursuant to an interim final rule published on March 27, 2013 in the **Federal Register** (78 FR 18457) related to Form I–94, CBP has partially automated the Form I–94 process. CBP now gathers data previously collected on the paper Form I–94 from existing automated sources in lieu of requiring passengers arriving by air or sea to submit a paper I–94 upon arrival. Passengers can access and print their electronic I–94 via the Web site at *www.cbp.gov/I94.*

ESTA can be accessed at: *https://esta.cbp.dhs.gov.* Samples of CBP Forms I–94 and I–94W can be viewed at: *http://www.cbp.gov/document/forms/form-i-94-arrivaldeparture-record* and *http://www.cbp.gov/document/forms/form-i-94w-visa-waiver-arrivaldeparture-record.*

Recent and Proposed Changes

In response to the increasing concerns regarding national security, DHS used the emergency Paperwork Reduction Act process to strengthen the security of the VWP by adding data elements to ESTA and to Form I–94W. DHS determined that the addition of these new data elements improves the Department's ability to screen prospective VWP travelers while more accurately and effectively identifying those who pose a security risk to the United States and facilitates adjudication of ESTA applications.

The following data elements are either new elements that were approved in the emergency PRA submission or data elements that were collected previously that were changed from ''optional'' to ''mandatory'' on the ESTA application:

1. Other Names or Aliases	Mandatory.
2. Other Country of Citizenship	Mandatory.
3. If yes, passport number on additional citizenship passport	Optional.
4. Home Address	Mandatory.
5. Parents' Names	Mandatory.
6. Current or Previous Job Title	Optional.
7. Current or Previous Employer Name	Mandatory.
8. Current or Previous Employer Address	Mandatory.
9. Current or Previous Employer Telephone number	Optional.
10. Primary Email	Mandatory—was optional.
11. Primary Telephone Number	Mandatory—was optional.
12. U.S. Point of Contact Name	Mandatory.
13. U.S. Point of Contact Address	Mandatory.
14. U.S. Point of Contact Email	Mandatory.
15. U.S. Point of Contact Phone	Mandatory.
16. City of Birth	Mandatory.
17. National Identification Number	Mandatory.
18. Emergency Point of Contact Information Name	Mandatory.
19. Emergency Point of Contact Information Email	Mandatory.
20. Emergency Point of Contact Information Phone	Mandatory.
22. Do you have a current or previous employer?	Mandatory.
21. Is your travel to the U.S. occurring in transit to another country?	Mandatory.

For the following ''mandatory'' fields ESTA applicants are permitted to enter ''unknown,'' if they do not have or know the information, without impeding the submission of their ESTA application: City of Birth, Parents' Names, National Identification Number, Emergency Contact Information, U.S. Point of Contact information, and Employer Address.

In accordance with guidance from the Centers for Disease Control and Prevention, CBP also proposes to revise the current question about diseases on ESTA and on Form I–94W as follows:

Currently approved question:

Do you have a physical or mental disorder; or are you a drug abuser or addict; or currently have any of the following diseases:

- Chancroid
- Gonorrhea
- Granuloma inguinale
- Leprosy, infectious
- Lymphogranuloma venereum
- Syphilis, infectious
- Active Tuberculosis

Proposed new question:

Do you have a physical or mental disorder; or are you a drug abuser or addict; or do you currently have any of the following diseases (communicable diseases are specified pursuant to section 361(b) of the Public Health Service Act):

- Cholera
- Diphtheria
- Tuberculosis, infectious
- Plague
- Smallpox
- Yellow Fever
- Viral Hemorrhagic Fevers, including Ebola, Lassa, Marburg, Crimean-Congo
- Severe acute respiratory illnesses capable of transmission to other persons and likely to cause mortality.

Current Actions: This submission is being made to extend the expiration date with a change to the burden hours

based on updated estimates of the numbers of respondents. Specifically, the number of respondents for the I–94 Web site was decreased by 1,188,899 from 5,047,681 to 3,858,782; the number of respondents for the ESTA burden was increased by 920,000 from 22,090,000 to 23,010,000; and the number of respondents paying the ESTA fee was increased by 747,000 from 18,183,000 to 18,930,000.

There is also a proposed change to the question about diseases on ESTA and on Form I–94W as described in the Abstract section of this document. There are no changes to the information collected on Form I–94, or the I–94 Web site.

Type of Review: Extension (with change).

Affected Public: Individuals, Carriers, and the Travel and Tourism Industry.

Form I–94 (Arrival and Departure Record)

Estimated Number of Respondents: 4,387,550.

Estimated Time per Response: 8 minutes.

Estimated Burden Hours: 583,544.

Estimated Annual Cost to Public: $26,325,300.

I–94 Web Site

Estimated Number of Respondents: 3,858,782.

Estimated Time per Response: 4 minutes.

Estimated Annual Burden Hours: 254,679.

Form I–94W (Nonimmigrant Visa Waiver Arrival/Departure)

Estimated Number of Respondents: 941,291.

Estimated Time per Response: 13 minutes.

Estimated Annual Burden Hours: 204,260.

Estimated Annual Cost to the Public: $5,647,746.

Electronic System for Travel Authorization (ESTA)

Estimated Number of Respondents: 23,010,000.

Estimated Time per Response: 20 minutes.

Estimated Total Annual Burden Hours: 7,662,330.

Estimated Annual Cost to the Public: $265,020,000.

Dated: April 13, 2015,

Tracey Denning,

Agency Clearance Officer, U.S. Customs and Border Protection.

BILLING CODE 9111–14–P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[LLNM006200 L99110000.EK0000 XXX L4053RV]

Revision of Approved Information Collection; OMB Control No. 1004–0179

AGENCY: Bureau of Land Management, Interior.

ACTION: 60-Day notice and request for comments.

SUMMARY: In compliance with the Paperwork Reduction Act, the Bureau of Land Management (BLM) invites public comment, and announces that it intends to request that the Office of Management and Budget (OMB) renew and revise control number 1004–0179, ''Helium Contracts.'' This request is prompted by the need to update the control number in response to legislation.

DATES: Please submit comments on the proposed information collection by June 15, 2015.

ADDRESSES: Comments may be submitted by mail, fax, or electronic mail.

Mail: U.S. Department of the Interior, Bureau of Land Management, 1849 C Street NW., Room 2134LM, Attention: Jean Sonneman, Washington, DC 20240.

Fax: to Jean Sonneman at 202–245–0050.

Electronic mail: jesonnem@blm.gov.

Please indicate ''Attn: 1004–0179'' regardless of the form of your comments.

FOR FURTHER INFORMATION CONTACT: Robert Jolley, at 806–356–1002. Persons who use a telecommunication device for the deaf may call the Federal Information Relay Service (FIRS) at 1–800–877–8339, to leave a message for Mr. Jolley. The FIRS is available 24 hours a day, 7 days a week. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: OMB regulations at 5 CFR part 1320, which implement provisions of the Paperwork Reduction Act, 44 U.S.C. 3501–3521, require that interested members of the public and affected agencies be given an opportunity to comment on information collection and recordkeeping activities (see 5 CFR 1320.8 (d) and 1320.12(a)). This notice identifies an information collection that the BLM plans to submit to OMB for approval. The Paperwork Reduction Act provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

The BLM will request a 3-year term of approval for this information collection activity. Comments are invited on: (1) The need for the collection of information for the performance of the functions of the agency; (2) the accuracy of the agency's burden estimates; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the information collection burden on respondents, such as use of automated means of collection of the information. A summary of the public comments will accompany our submission of the information collection requests to OMB.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

The following information pertains to this request:

Title: Helium Contracts (43 CFR part 3195).

OMB Control Number: 1004–0179.

Summary: At present, control number 1004–0179 (expiration date: April 30, 2017) enables the BLM to monitor purchases and sales of helium from the Federal Helium Reserve. This information collection activity is in accordance with the BLM's authority to implement in-kind sales of helium in accordance with 43 CFR part 3195. The BLM intends to seek OMB clearance to revise and extend this ongoing collection of information for another 3 years. The requested revision will be the addition of a new form (''Refined Helium Deliveries Detail'') that will replace the existing non-form activity titled ''Sales Reports.''

In addition, the BLM intends to seek OMB clearance to add information collection activities that are necessary for the implementation of the Helium Stewardship Act of 2013 (Act or 2013 Act), Public Law 113–40 (127 Stat. 534, codified at 50 U.S.C. 167–167q). Section 5(b)(8) of the 2013 Act amends 50 U.S.C. 167d, and establishes the following additional terms and conditions of Federal helium sales that necessitate new information collection activities:

- Parties to a helium storage contract with the BLM must disclose:

(1) The volumes and associated prices in dollars per thousand cubic feet (Mcf) in purchase and sales transactions in the

United States involving at least 15 million standard cubic feet of crude or pure helium;

(2) The volumes and associated costs in dollars per Mcf of converting crude helium into pure helium; and

(3) Refinery operational capacity, future operational capacity, and excess refining capacity in Mcf; and

• Refiners of crude helium that enter into ''tolling agreements'' must submit a Tolling Occurrence Report to the BLM whenever they enter into such tolling agreements. (''Tolling agreements'' refers to the helium industry's practice of processing or refining another party's helium at an agreed upon price. While refiners can purchase, access, and refine their own helium, non-refiners rely upon the refiners to process and refine the helium that they have purchased—this process is called tolling.)

Frequency of Collection: Quarterly for the Refined Helium Deliveries Detail; annually for the Calculation of Excess Refining Capacity and Refiners' Annual Tolling Report; and ''on occasion'' for the Refiners' Tolling Occurrence Report.

Forms:

Refined Helium Deliveries Detail;

Calculation of Excess Refining Capacity;

Refiners' Annual Tolling Report; and

Refiners' Tolling Occurrence Report.

Description of Respondents: Suppliers, purchasers, and refiners of Federal helium.

Estimated Annual Responses: 60.

Estimated Annual Burden Hours: 110.

Estimated Annual Non-Hour Costs: None.

The estimated annual burdens of these revised and new collection activities are itemized in the following table:

A. Type of response	B. Frequency	C. Number of respondents	D. Number of responses	E. Hours per response	F. Total hours (column D x column E)
Refined Helium Deliveries Detail	Quarterly	10	40	1	40
Calculation of Excess Refining Capacity	Annually	4	4	8	32
Refiners' Annual Tolling Report	Annually	4	4	8	32
Refiners' Tolling Occurrence Report	On occasion	4	12	0.5	6
Totals		22	60		110

Public Land Order No. 7834; Withdrawal of Public Lands, North and Middle Fork of the American River, California

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order withdraws 6,737.42 acres of public lands from location and entry under the United States mining laws for 20 years on behalf of the Bureau of Land Management to protect and preserve the riparian areas, wildlife habitat, scenic quality, and high recreational values of lands within the North and Middle Fork of the American River and to provide protection of lands associated with the congressionally designated Auburn Dam Reclamation Project Area pending a decision on future development of the site. The lands, which are located in El Dorado and Placer Counties, California, will remain open to leasing under the mineral and geothermal leasing laws.

DATES: *Effective Date:* April 16, 2015.

FOR FURTHER INFORMATION CONTACT: Jodi Lawson, Bureau of Land Management Mother Lode Field Office, 916–941–3139, or write: Field Manager, BLM Mother Lode Field Office, 5152 Hillsdale Circle, El Dorado Hills, California 95762. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339 to contact the above individual. The FIRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The Bureau of Land Management will manage the lands to protect the unique natural, scenic, cultural, and recreational values along the North and Middle Fork of the American River.

Order

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714, it is ordered as follows:

1. Subject to valid existing rights, the following described public lands are hereby withdrawn from location and entry under the United States mining laws, but not the mineral or geothermal leasing laws, to protect the unique natural, scenic, cultural, and recreational values along the North and Middle Fork of the American River and to provide protection of lands associated with the congressionally designated Auburn Dam Reclamation Project pending a decision on future development of the site:

Notice of Filing of Plats of Survey, New Mexico

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Filing of Plats of Survey.

SUMMARY: The plats of survey described below are scheduled to be officially filed in the New Mexico State Office, Bureau of Land Management, Santa Fe, New Mexico, thirty (30) calendar days from the date of this publication.

FOR FURTHER INFORMATION CONTACT: These plats will be available for inspection in the New Mexico State Office, Bureau of Land Management, 301 Dinosaur Trail, Santa Fe, New Mexico. Copies may be obtained from this office upon payment. Contact Carlos Martinez at 505–954–2096, or by email at *cjjmarti@blm.gov,* for assistance. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339 to contact the above individual during normal business hours.

SUPPLEMENTARY INFORMATION:

New Mexico Principal Meridian, New Mexico (NM)

The plat, in two sheets, representing the dependent resurvey in Township 22 South, Range 8 East, of the New Mexico Principal Meridian, accepted April 2, 2015 for Group, 1150, NM.

The plat, representing the retracement and dependent resurvey in Township 16 South, Range 21 West, of the New Mexico Principal Meridian, accepted March 11, 2015, for Group 1157, NM.

The Indian Meridian, Oklahoma (OK)

The plat representing the dependent resurvey and survey in Township 10 North, Range 25 East, of the Indian Meridian, accepted April 2, 2015, for Group 221 OK. These plats are scheduled for official filing 30 days from the notice of publication in the **Federal Register**, as provided for in the BLM Manual Section 2097—Opening Orders. Notice from this office will be provided as to the date of said publication. If a protest against a survey, in accordance with 43 CFR 4.450–2, of the above plats is received prior to the date of official filing, the filing will be stayed pending consideration of the protest.

A plat will not be officially filed until the day after all protests have been dismissed and become final or appeals from the dismissal affirmed.

A person or party who wishes to protest against any of these surveys must file a written protest with the Bureau of Land Management New Mexico State Director stating that they wish to protest.

A statement of reasons for a protest may be filed with the Notice of Protest to the State Director or the statement of reasons must be filed with the State Director within thirty (30) days after the protest is filed.

Robert A. Casias,

Acting Branch Chief, Cadastral Survey.

Meeting of the California Desert District Advisory Council

SUMMARY: Notice is hereby given, in accordance with Public Laws 92–463 and 94–579, that the California Desert District Advisory Council (DAC) to the Bureau of Land Management (BLM), U.S. Department of the Interior, will meet in formal session on Saturday, May 9, 2015, from 9 a.m. to 4:30 p.m. at the University of California Riverside Extension Building, Conference Rooms D–E, located at 1200 University Avenue, Riverside, CA. A Friday, May 8, 2015 resource area field trip is not scheduled. Agenda for the Saturday meeting will include updates by council members, the BLM California Desert District Manager, five Field Managers, and council subgroups. The focus topic for the meeting will be the West Mojave (WEMO) Planning Area Route Network Project. Final agenda items for the public meeting will be posted on the DAC Web page at *http://www.blm.gov/ca/st/en/info/rac/dac.html* when finalized.

FOR FURTHER INFORMATION CONTACT: Stephen Razo, BLM California Desert District External Affairs, (951) 697–5217. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339 to contact the above individual during normal business hours. The FIRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individuals. You will receive a reply during normal hours.

SUPPLEMENTARY INFORMATION: All DAC meetings are open to the public. Public comment for items not on the agenda will be scheduled at the beginning of the meeting Saturday morning. Time for public comment is made available by the council chairman during the presentation of various agenda items, and is scheduled at the end of the meeting for topics not on the agenda.

While the Saturday meeting is tentatively scheduled from 9 a.m. to 4:30 p.m., the meeting could conclude prior to 4:30 p.m. should the council conclude its presentations and discussions. Therefore, members of the public interested in a particular agenda item or discussion should schedule their arrival accordingly.

Written comments may be filed in advance of the meeting for the

California Desert District Advisory Council, c/o Bureau of Land Management, External Affairs, 22835 Calle San Juan de Los Lagos, Moreno Valley, CA 92553. Written comments also are accepted at the time of the meeting and, if copies are provided to the recorder, will be incorporated into the minutes.

Dated: April 7, 2015.

Teresa A. Raml,

California Desert District Manager.

BILLING CODE 4310–40–P

INTERNATIONAL TRADE COMMISSION

[USITC SE–15–013]

Sunshine Act Meeting

AGENCY HOLDING THE MEETING: United States International Trade Commission.

TIME AND DATE: April 23, 2015 at 11:00 a.m.

PLACE: Room 101, 500 E Street SW., Washington, DC 20436, Telephone: (202) 205–2000.

STATUS: Open to the public.

MATTERS TO BE CONSIDERED:

1. Agendas for future meetings: none
2. Minutes
3. Ratification List
4. Vote in Inv. Nos. 701–TA–531–533 and 731–TA–1270–1273 (Preliminary) (Polyethylene Terephthalate Resin (''PET Resin'') from Canada, China, India, and Oman). The Commission is currently scheduled to complete and file its determination on April 24, 2015; views of the Commission are currently scheduled to be completed and filed on May 1, 2015.
5. Outstanding action jackets: none

In accordance with Commission policy, subject matter listed above, not disposed of at the scheduled meeting, may be carried over to the agenda of the following meeting.

By order of the Commission.

Dated: April 14, 2015.

William R. Bishop,

Supervisory Hearings and Information Officer.

BILLING CODE 7020–02–P

DEPARTMENT OF LABOR

Employment and Training Administration

Comment Request for Information Collection for 1205–0179: Unemployment Compensation for Federal Employees Handbook No. 391, Extension Without Revision

AGENCY: Employment and Training Administration (ETA), Labor.

ACTION: Notice.

SUMMARY: The Department of Labor (Department), as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 [44 U.S.C. 3506(c)(2)(A)]. This program helps ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

Currently, ETA is soliciting comments concerning the collection of data about Unemployment Compensation for Federal Employees which expires October 31, 2015.

DATES: Written comments must be submitted to the office listed in the addresses section below on or before June 15, 2015.

ADDRESSES: Send written comments to Stephanie Garcia, Office of Unemployment Insurance, Room S–4524, Employment and Training Administration, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, DC 20210. Telephone number: 202–693–3207 (this is not a toll-free number). Individuals with hearing or speech impairments may access the telephone number above via TTY by calling the toll-free Federal Information Relay Service at 1–877–889–5627 (TTY/TDD). Email: *garcia.stephanie@dol.gov*. To obtain a copy of the proposed information collection request (ICR), please contact the person listed above.

SUPPLEMENTARY INFORMATION:

I. Background

Chapter 5 U.S.C. 8506 states that ''Each agency of the United States and each wholly or partially owned instrumentality of the United States shall make available to State agencies which have agreements, or to the Secretary of Labor, as the case may be, such information concerning the Federal service and Federal wages of a Federal employee as the Secretary considers practicable and necessary for the determination of the entitlement of the Federal employee to compensation under this subchapter.'' The information shall include the findings of the employing agency concerning:

(1) Whether or not the Federal employee has performed Federal service;

(2) The periods of Federal service;

(3) The amount of Federal wages; and

(4) The reasons for termination of Federal service.

The law (5 U.S.C. 8501, *et seq.*) requires State Workforce Agencies (SWA's) to administer the Unemployment Compensation for Federal Employees (UCFE) program in accordance with the same terms and provisions of the paying State's unemployment insurance law which apply to unemployed claimants who worked in the private sector. SWA's must be able to obtain certain information (wage, separation data) about each claimant filing claims for UCFE benefits to enable them to determine his/her eligibility for benefits. The Department of Labor has prescribed forms to enable SWAs to obtain this necessary information from the individual's Federal employing agency. Each of these forms is essential to the UCFE claims process and the frequency of use varies depending upon the circumstances involved. The UCFE forms are: ETA–931, ETA–931A, ETA–933, ETA–934, and ETA–935.

II. Review Focus

The Department is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- enhance the quality, utility, and clarity of the information to be collected; and
- minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submissions of responses.

III. Current Actions

Type of Review: Extension without revision.

Title: Unemployment Compensation for Federal Employees Handbook No. 391.

OMB Number: 1205–0179.

Affected Public: State Workforce Agency.

Estimated Total Annual Respondents: 53.

Estimated Total Annual Responses: 151,050.

Estimated Total Annual Burden Hours: 15,024.

Total Estimated Annual Other Cost Burden: 0.

Form	Annual frequency	Total responses	Average time per response (minutes)	Burden (hours)
ETA–931	1	77,000	5	6,416
ETA–931A	1	24,000	5	2,000
ETA–935	1	38,500	9	5,775
ETA–933	1	3,850	5	320
ETA–934	1	7,700	4	513
Totals	5	151,050		15,024

We will summarize and/or include in the request for OMB approval of the ICR, comments received in response to this comment request; they will also become a matter of public record.

Portia Wu,

Assistant Secretary for Employment and Training, Labor.

[FR Doc. 2015–08725 Filed 4–15–15; 8:45 am]

BILLING CODE 4510–FW–P

NATIONAL SCIENCE FOUNDATION

Request of Recommendations for Membership for Directorate and Office Advisory Committees

ACTION: Notice.

SUMMARY: The National Science Foundation (NSF) requests recommendations for membership on its scientific and technical Federal advisory committees. Recommendations should consist of the submitting person's or organization's name and affiliation, the name of the recommended individual, the recommended individual's curriculum vita, an expression of the individual's interest in serving, and the following recommended individual's contact information: Employment address, telephone number, FAX number, and email address. Self recommendations are accepted. If you would like to make a membership recommendation for any of the NSF scientific and technical Federal advisory committees, please send your recommendation to the appropriate committee contact person listed in the chart below.

ADDRESSES: The mailing address for the National Science Foundation is 4201 Wilson Boulevard, Arlington, VA 22230.

Web links to individual committee information may be found on the NSF Web site: *NSF Advisory Committees.*

SUPPLEMENTARY INFORMATION: Each Directorate and Office has an external advisory committee that typically meets twice a year to review and provide advice on program management; discusses current issues; and reviews and provides advice on the impact of policies, programs, and activities in the disciplines and fields encompassed by the Directorate or Office. In addition to Directorate and Office advisory committees, NSF has several committees that provide advice and recommendations on specific topics including: Astronomy and astrophysics; environmental research and education; equal opportunities in science and engineering; advanced cyberinfrastructure; international science and engineering; and business and operations.

A primary consideration when formulating committee membership is recognized knowledge, expertise, or demonstrated ability [1]. Other factors that may be considered are balance among diverse institutions, regions, and groups underrepresented in science, technology, engineering, and mathematics. Committee members serve for varying term lengths, depending on the nature of the individual committee. Although we welcome the recommendations we receive, we regret that NSF will not be able to acknowledge or respond positively to each person who contacts NSF or has been recommended. NSF intends to publish a similar notice to this on an annual basis. NSF will keep recommendations active for 12 months from the date of receipt.

The chart below is a listing of the committees seeking recommendations for membership. Recommendations should be sent to the contact person identified below. The chart contains Web addresses where additional information about individual committees are available.

BILLING CODE 7555–01–P

NUCLEAR REGULATORY COMMISSION

[NRC–2014–0178]

Standard Review Plan for Conventional Uranium Mills and Heap Leach Facilities

AGENCY: Nuclear Regulatory Commission.

ACTION: Draft NUREG; reopening of public comment period.

SUMMARY: On December 18, 2014, the U.S. Nuclear Regulatory Commission (NRC) published a request for public comment on draft NUREG–2126, ''Standard Review Plan for Conventional Uranium Mills and Heap Leach Facilities.'' The public comment period closed on March 18, 2015. The NRC has decided to reopen the public comment period on this document until June 18, 2015, to allow more time for members of the public to develop and submit their comments.

DATES: The comment period for draft NUREG–2126, ''Standard Review Plan for Conventional Uranium Mills and Heap Leach Facilities,'' published on December 18, 2014 (79 FR 75597), has been reopened. Comments should be filed no later than June 18, 2015. Comments received after this date will be considered, if it is practical to do so, but the Commission is able to ensure consideration only for comments received on or before this date.

ADDRESSES: You may submit comments by any of the following methods (unless this document describes a different method for submitting comments on a specific subject):

• Federal Rulemaking Web site: Go to *http://www.regulations.gov* and search for Docket ID NRC–2014–0178. Address questions about NRC dockets to Carol Gallagher; telephone: 301–415–3463; email: *Carol.Gallagher@nrc.gov.* For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

• Mail comments to: Cindy Bladey, Chief, Rules, Announcements, and Directives Branch (RADB), Office of Administration, Mail Stop: OWFN–12–H08, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001.

For additional direction on obtaining information and submitting comments, see ''Obtaining Information and Submitting Comments'' in the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT: Douglas T. Mandeville, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone: 301–415–0724, email: *Douglas.Mandeville@nrc.gov.*

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC–2014–0178 when contacting the NRC about the availability of information for this action. You may obtain publicly-available information related to this action by any of the following methods:

• Federal rulemaking Web site: Go to *http://www.regulations.gov* and search for Docket ID NRC–2014–0178.

• NRC's Agencywide Documents Access and Management System (ADAMS): You may obtain publicly-available documents online in the ADAMS Public Documents collection at *http://www.nrc.gov/reading-rm/adams.html.* To begin the search, select ''*ADAMS Public Documents*'' and then select ''*Begin Web-based ADAMS Search.*'' For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to *pdr.resource@nrc.gov.* Draft NUREG–2126, ''Standard Review Plan for Conventional Uranium Mills and Heap Leach Facilities,'' is available in ADAMS under Accession No. ML14325A634.

• NRC's PDR: You may examine and purchase copies of public documents at the NRC's PDR, Room O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

B. Submitting Comments

Please include Docket ID NRC–2014–0178 in the subject line of your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at *http://www.regulations.gov* as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment

submissions available to the public or entering the comment into ADAMS.

II. Discussion

On December 18, 2014, the NRC published a request for public comment on draft NUREG–2126, ''Standard Review Plan for Conventional Uranium Mills and Heap Leach Facilities.'' Pursuant to the provisions of part 40 of Title 10 of the *Code of Federal Regulations,* (10 CFR), ''Domestic Licensing of Source Material,'' an NRC materials license is required to conduct uranium recovery activities by conventional mill or heap leach techniques. Applicants for a new license and operators seeking an amendment or renewal of an existing license are required to provide detailed information on the facilities, equipment, and procedures to be used in the proposed activities. This information is used by the NRC staff to determine whether the proposed activities will be protective of public health and safety and the environment. Each section in draft NUREG–2126 provides guidance on what information is to be reviewed, the basis for the review, how the NRC staff review is to be accomplished, what the staff will find acceptable in a demonstration of compliance with applicable regulations, and the evaluation criteria for determining compliance with the applicable regulations. Draft NUREG–2126 is intended to improve the understanding of the NRC staff's review process by interested members of the public and the uranium recovery industry. Any interested party may submit comments on draft NUREG–2126 for consideration by the NRC staff. The public comment period closed on March 18, 2015. The National Mining Association (NMA) submitted a letter on February 26, 2015 (ADAMS Accession No. ML15062A629), requesting a 90-day extension of the public comment period on this document. Additionally, the State of Utah submitted a letter on March 16, 2015 requesting a 60-day extension of the public comment period on this document (ADAMS Accession No. ML15082A286). The Commission may grant, in its discretion, the additional reasonable opportunity for the submission of comments. In the present case, as the request for an extension from NMA points out, there are two notable current **Federal Register** notices on this general subject matter that have been noticed for public comment, including the present document, as well as the Environmental Protection Agency's (EPA) proposed 40 CFR part 192 rulemaking. The State of Utah cites its current workload and role in regulating the only operating conventional uranium mill in the United States as reasons for extending the comment period. As such, these factors justify the Commission granting additional reasonable opportunity for the submission of comments. The NRC has decided to reopen the public comment period on this document until June 18, 2015, to allow more time for members of the public to develop and submit their comments.

Dated at Rockville, Maryland, this 8th day of April 2015.

For the Nuclear Regulatory Commission.

Andrew Persinko,

Deputy Director, Division of Decommissioning, Uranium Recovery and Waste Programs, Office of Nuclear Material Safety and Safeguards.

[FR Doc. 2015–08797 Filed 4–15–15; 8:45 am]

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[NRC–2015–0091]

Quality Group Classifications and Standards for Water-, Steam-, and Radioactive-Waste-Containing Components of Nuclear Power Plants

AGENCY: Nuclear Regulatory Commission.

ACTION: Draft regulatory guide; request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing for public comment draft regulatory guide (DG) DG–1314, ''Quality Group Classifications and Standards for Water-, Steam-, and Radioactive-Waste-Containing Components of Nuclear Power Plants.'' This guidance has been revised to update references to related NRC guidance, to incorporate lessons learned from recent NRC reviews and regulatory activities, and to align the format and content of the guide with the current program guidance for regulatory guides (RGs) which was developed since Revision 4 of RG 1.26 was issued.

DATES: Submit comments by June 15, 2015. Comments received after this date will be considered if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date. Although a time limit is given, comments and suggestions in connection with items for inclusion in guides currently being developed or improvements in all published guides are encouraged at any time.

ADDRESSES: You may submit comments by any of the following methods (unless this document describes a different method for submitting comments on a specified subject):

• *Federal Rulemaking Web site:* Go to *http://www.regulations.gov* and search for Docket ID NRC–2015–0091. Address questions about NRC dockets to Carol Gallagher; telephone: 301–415–3463; email: *Carol.Gallagher@nrc.gov.* For technical questions, contact the individual(s) listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

• Mail comments to: Cindy Bladey, Office of Administration, Mail Stop: O12H08M, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001.

For additional direction on accessing information and submitting comments, see ''Obtaining Information and Submitting Comments'' in the **SUPPLEMENTARY INFORMATION** section of this document.

FOR FURTHER INFORMATION CONTACT: Sardar Ahmed, telephone: 301–415–2836, email: *Sardar.Ahmed@nrc.gov* or Stephen Burton, telephone: 301–415–7000, email: *Stephen.Burton@nrc.gov.* Both are staff of the U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001.

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC–2015–0091 when contacting the NRC about the availability of information regarding this document. You may obtain pubically-available information related to this document, by any of the following methods:

• *Federal Rulemaking Web site:* Go to *http://www.regulations.gov* and search for Docket ID NRC–2015–0091.

• *NRC's Agencywide Documents Access and Management System (ADAMS)*: You may obtain publicly-available documents online in the ADAMS Public Documents collection at *http://www.nrc.gov/reading-rm/adams.html.* To begin the search, select ''*ADAMS Public Documents*'' and then select ''*Begin Web-based ADAMS Search.*'' For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to *pdr.resource@nrc.gov.* The ADAMS accession number for each document referenced (if it available in ADAMS) is provided the first time that a document is referenced. The DG is electronically available in ADAMS under Accession No. ML14356A249.

• NRC's PDR: You may examine and purchase copies of public documents at the NRC's PDR, Room O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

B. Submitting Comments

Please include Docket ID NRC–2015–0091 in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC posts all comment submissions at *http://www.regulations.gov* as well as entering the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment submissions into ADAMS.

II. Additional Information

The NRC is issuing for public comment a DG in the NRC's ''Regulatory Guide'' series. This series was developed to describe and make available to the public such information as methods that are acceptable to the NRC staff for implementing specific parts of the NRC's regulations, techniques that the staff uses in evaluating specific problems or postulated accidents, and data that the staff needs in its review of applications for permits and licenses.

The DG, entitled, ''Quality Group Classifications and Standards for Water-, Steam-, and Radioactive-Waste-Containing Components of Nuclear Power Plants,'' is temporarily identified by its task number, DG–1314. This DG–1314 is proposed revision 5 of RG 1.26. The guide describes a quality classification system related to specified national standards that may be used to determine quality standards acceptable to the staff of the NRC for satisfying General Design Criterion 1, ''Quality Standards and Records,'' as set forth in appendix A, ''General Design Criteria for Nuclear Power Plants,'' to part 50 of Title 10 of the *Code of Federal Regulations* (10 CFR), ''Licensing of Production and Utilization Facilities,'' for components containing water, steam, or radioactive material in light-water-cooled nuclear power plants.

This guidance has been revised to update references to related guidance, to incorporate lessons learned from recent reviews and regulatory activities, and to align the format and content of the guide with the current program guidance for regulatory guides since Revision 4 of RG 1.26 was issued.

III. Backfitting and Issue Finality

This draft regulatory guide may be used by applicants for construction permits and operating licenses under 10 CFR part 50, and early site permits, standard design certifications, standard design approvals, and combined licenses under 10 CFR part 52. Holders of construction permits, operating licenses, early site permits, standard design approvals, and combined licenses, and applicants for standard design certifications after the NRC issues a final design certification rule may also use the guidance in this draft regualtory guide, if finalized.

This DG, if finalized, would not constitute backfitting as defined in 10 CFR 50.109 (the Backfit Rule) and would not otherwise be inconsistent with the issue finality provisions in 10 CFR part 52. As discussed in the ''Implementation'' section of this DG, the NRC has no current intention to impose this DG on current holders of operating licenses or combined licenses.

This DG, if finalized, may be applied to applications for operating licenses and combined licenses docketed by the NRC as of the date of issuance of the final RG, as well as future applications for operating licenses and combined licenses submitted after the issuance of the RG. Such action does not constitute backfitting as defined in 10 CFR 50.109(a)(1) or is otherwise inconsistent with the applicable issue finality provision in 10 CFR part 52, inasmuch as such applicants or potential applicants, with exceptions not applicable here, are not within the scope of entities protected by the Backfit Rule or the relevant issue finality provisions in part 52.

The exceptions to the general principle are applicable whenever an applicant references a part 52 license (*e.g.*, an early site permit) and/or NRC's regulatory approval (*e.g.*, a design certification rule) with specified issue finality provisions. The staff does not, at this time, intend to impose the positions represented in this regulatory guide in a manner that is inconsistent with any of the issue finality provisions applicable to early site permits (10 CFR 52.39), design certifications (10 CFR 52.63), or combined license applications referencing an early site permit (10 CFR 52.83). If, in the future, the staff seeks to impose a position in this regulatory guide in a manner which does not provide issue finality as described in the applicable issue finality provision, then the staff must make address the criteria for avoiding issue finality as described applicable issue finality provision.

Dated at Rockville, Maryland, this 10th day of April 2015.

For the Nuclear Regulatory Commission.

Thomas H. Boyce,

Chief, Regulatory Guidance and Generic Issues Branch, Division of Engineering, Office of Nuclear Regulatory Research.

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50–295 and 50–304; NRC–2015–0087]

ZionSolutions, LLC, Zion Nuclear Power Station, Units 1 and 2

AGENCY: Nuclear Regulatory Commission.

ACTION: Exemption; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing an exemption from certain emergency planning requirements in response to a June 20, 2012, request from Zion*Solutions,* LLC. The requirements were part of a final rule that the NRC issued on November 23, 2011.

DATES: April 16, 2015.

ADDRESSES: Please refer to Docket ID NRC–2015–0087 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

• *Federal Rulemaking Web site:* Go to *http://www.regulations.gov* and search for Docket ID NRC–2015–0087. Address questions about NRC dockets to Carol Gallagher; telephone: 301–415–3463; email: *Carol.Gallagher@nrc.gov.* For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

• *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at *http://www.nrc.gov/reading-rm/*

adams.html. To begin the search, select ''*ADAMS Public Documents''* and then select ''*Begin Web-based ADAMS Search.''* For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to *pdr.resource@nrc.gov.* The ADAMS accession number for each document referenced (if it available in ADAMS) is provided the first time that a document is referenced.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT: John B. Hickman, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington DC 20555–0001; telephone: 301–415–3017, email: *John.Hickman@nrc.gov.*

I. Background

Zion Nuclear Power Station (ZNPS) Units 1 and 2 were permanently shut down in February 1998, for economic reasons, and the licensee placed the plant in SAFSTOR. The licensee isolated the spent fuel pool (SFP) within its Fuel Building and established a spent fuel pool nuclear island with SFP-dedicated support systems. In 1999, the NRC issued an exemption from certain requirements in part 50 of Title 10 of the *Code of Federal Regulations* (10 CFR), for the ZNPS licensee to discontinue offsite emergency planning activities and to reduce the scope of onsite emergency planning. In September 2010, the licensed ownership, management authorities, and decommissioning trust fund of the permanently shut down facility was transferred to ZionSolutions (ZS), a subsidiary of EnergySolutions, for the purpose of completing all decommissioning activities with the end goal of full site restoration. Active decommissioning is currently underway.

The NRC's emergency planning (EP) regulations provide in part that no initial operating license for a nuclear power reactor will be issued unless a finding is made by the NRC that there is reasonable assurance that adequate protective measures can and will be taken in the event of a radiological emergency. Additionally, the NRC's EP regulations establishe minimum requirements for emergency plans for use in attaining an acceptable state of emergency preparedness.

On November 23, 2011 (76 FR 72560), the NRC issued a Final Rule amending certain EP requirements for licensees of nuclear power and non-power reactors. The Final EP Rule was effective on December 23, 2011.

The Final EP Rule modified or added several EP requirements in 10 CFR part 50, including changes in 10 CFR 50.47, 10 CFR 50.54, and appendix E. The Final EP Rule codified certain voluntary protective measures contained in NRC Bulletin 2005–02, ''Emergency Preparedness and Response Actions for Security-Based Events,'' and made generically applicable requirements similar to those previously imposed by NRC Order EA–02–026, ''Order for Interim Safeguards and Security Compensatory Measures,'' dated February 25, 2002.

In addition, the Final EP Rule amended other licensee emergency plan requirements to: (1) Enhance the ability of licensees in preparing and in taking certain protective actions in the event of a radiological emergency; (2) address, in part, security issues identified after the terrorist events of September 11, 2001; (3) clarify regulations to effect consistent emergency plan implementation among licensees; and (4) modify certain EP requirements to be more effective and efficient.

II. Request/Action

By letter dated June 20, 2012, (ADAMS Accession No. ML12173A316) ZS, submitted a request for exemption, ''Request for Exemption to Revised Emergency Planning Rule,'' from specific emergency planning requirements of 10 CFR part 50 for the ZNPS.

III. Discussion

Pursuant to 10 CFR 50.12, the Commission may, upon application by any interested person or upon its own initiative, grant exemptions from the requirements of 10 CFR part 50 when (1) the exemptions are authorized by law, will not present an undue risk to public health or safety, and are consistent with the common defense and security; and (2) when special circumstances are present.

The NRC staff reviewed the licensee's request and determined that exemptions should be granted, or continue to be granted, from the following requirements: the requirement: ''*arrangements to accommodate State and local staff at the licensee's Emergency Operations Facility have been made''* of 10 CFR 50.47(b)(3); the requirement: ''*and State and local response plans call for reliance on information provided by facility licensees for determinations of minimum initial offsite response measures''* of 10 CFR 50.47(b)(4); the requirements of 10 CFR 50.47(b)(10); the requirement, ''*and onsite protective actions during hostile action''* of 10 CFR part 50, appendix E.IV.1; the requirement of 10 CFR part 50, appendix E, section IV.2; the requirements of 10 CFR part 50, appendix E, section IV.3; the requirements of 10 CFR part 50, appendix E, section IV.4; the requirements of 10 CFR part 50, appendix E, section IV.5; the requirements of 10 CFR part 50, appendix E, section IV.6; the requirement: ''*offsite''* of 10 CFR part 50, appendix E, section IV.A.4; the requirements: ''*By June 23, 2014,''* and ''*a description of the''* and ''*including hostile action at the site. For purposes of this appendix, ''hostile action'' is defined as an act directed toward a nuclear power plant or its personnel that includes the use of violent force to destroy equipment, take hostages, and/or intimidate the licensee to achieve an end. This includes attack by air, land, or water using guns, explosives, projectiles, vehicles, or other devices used to deliver destructive force''* of 10 CFR part 50, appendix E, section IV.A.7; the requirement of 10 CFR part 50, appendix E, section IV.A.9; the requirements: ''*and outside,''* and ''*and offsite,* and ''*By June 20, 2012, for nuclear power reactor licensees, these action levels must include hostile action that may adversely affect the nuclear power plant''* of 10 CFR part 50, appendix E, section IV.B.1; the requirements, ''*By June 20, 2012,''* and ''*within 15 minutes''* and ''*to protect public health and safety provided that any delay in declaration does not deny the State and local authorities the opportunity to implement measures necessary to protect the public health and safety''* of 10 CFR part 50, appendix E, section IV.C.2; the requirements, ''*within 15 minutes''* and ''*The licensee shall demonstrate that the appropriate governmental authorities have the capability to make a public alerting and notification decision promptly on being informed by the licensee of an emergency condition. Prior to initial operation greater than 5 percent of rated thermal power of the first reactor at the site, each nuclear power reactor licensee shall demonstrate that administrative and physical means have been established for alerting and providing prompt instructions to the public with the plume exposure pathway EPZ. The design objective of the prompt public alert and notification system shall be to have the capability to essentially complete the initial alerting and notification of the public within the plume exposure pathway EPZ within*

about 15 minutes. The use of this alerting and notification capability will range from immediate alerting and notification of the public (within 15 minutes of the time that State and local officials are notified that a situation exists requiring urgent action) to the more likely events where there is substantial time available for the appropriate governmental authorities to make a judgment whether or not to activate the public alert and notification system. The alerting and notification capability shall additionally include administrative and physical means for a backup method of public alerting and notification capable of being used in the event the primary method of alerting and notification is unavailable during an emergency to alert or notify all or portions of the plume exposure pathway EPZ population. The backup method shall have the capability to alert and notify the public within the plume exposure pathway EPZ, but does not need to meet the 15 minute design objective for the primary prompt public alert and notification system. When there is a decision to activate the alert and notification system, the appropriate governmental authorities will determine whether to activate the entire alert and notification system simultaneously or in a graduated or staged manner. The responsibility for activating such a public alert and notification system shall remain with the appropriate governmental authorities'' of 10 CFR part 50, appendix E, section IV.D.3; the requirements of 10 CFR part 50, appendix E, section IV.D.4; the requirement: ''*and an emergency operations facility''* of 10 CFR part 50, appendix E, section IV.E.8.a.(i); the requirement: of 10 CFR part 50, appendix E, section IV.E.8.a.(ii); the requirements of 10 CFR part 50, appendix E, section IV.E.8.b; the requirements of 10 CFR part 50, appendix E, section IV.E.8.c; the requirements of 10 CFR part 50, appendix E, section IV.E.8.d; the requirement of 10 CFR part 50, appendix E, section IV.E.8.e; the requirements of 10 CFR part 50, appendix E, section IV.F.2.a; the requirements: ''*Nuclear power reactor licensees shall submit exercise scenarios under § 50.4 at least 60 days before use in an exercise required by this paragraph 2.b. The exercise may be included in the full participation biennial exercise required by paragraph 2.c. of this section''* and the requirements ''*and offsite''* and *''(Technical Support Center (TSC), Operations Support Center (OSC), and the Emergency Operations Facility (EOF))''* of 10 CFR part 50, appendix E, section IV.F.2.b; the requirements of 10 CFR part 50, appendix E, section IV.F.2.c; the requirements of 10 CFR part 50, appendix E, section IV.F.2.d; the requirement: ''*Such scenarios for nuclear power reactor licensees must include a wide spectrum of radiological releases and events, including hostile action''* of 10 CFR part 50, appendix E, section IV.F.2.i; the requirements of 10 CFR part 50, appendix E, section IV.F.2.j; and the requirement of 10 CFR part 50, appendix E, section IV.I.

The exemption request was reviewed against the acceptance criteria included in 10 CFR 50.47, appendix E to 10 CFR part 50, 10 CFR 72.32 and Interim Staff Guidance—16. The review considered the permanently shut-down and defueled status of the reactor, and the low likelihood of any credible accident resulting in radiological releases requiring offsite protective measures. These evaluations were supported by the previously documented licensee and staff accident analyses. The staff concludes that the Defueled Station Emergency Plan for ZNPS provides: (1) An adequate basis for an acceptable state of emergency preparedness, and (2) in conjunction with arrangements made with offsite response agencies, provides reasonable assurance that adequate protective measures can and will be taken in the event of a radiological emergency at the ZNPS Site.

The Commission has concluded that the licensee's request for an exemption from certain requirements of 10 CFR 50.47(b) and 10 CFR part 50, appendix E, section IV as specified above are acceptable in view of the greatly reduced offsite radiological consequences associated with the current plant status as permanently shut-down.

The NRC has determined that other requirements from which ZS requested exemptions were not applicable to the ZNPS or are being met by the ZNPS Defueled Station Emergency Plan or an exemption was not appropriate. Therefore, an exemption was not necessary or was denied for those requirements. Additional information regarding the staff's evaluation is documented in a Safety Evaluation Report (ADAMS Accession No. ML14272A315).

A. Exemption Is Authorized by Law

The NRC has found that ZS meets the criteria for an exemption in § 50.12. The NRC has determined that granting the exemption will not result in a violation of the Atomic Energy Act of 1954, as amended, or the Commission's regulations. Therefore, the exemption is authorized by law.

B. The Exemption Presents No Undue Risk to Public Health and Safety and Is Consistent With the Common Defense and Security

As noted in Section II, ''*Request/Action,''* above, ZS's compliance with the EP requirements in effect before the effective date of the Final EP Rule demonstrated reasonable assurance of adequate protection of the public health and safety and common defense and security. In the Safety Evaluation Report, the NRC staff explains that ZS's implementation of the ZNPS Defueled Station Emergency Plan, with the exemptions, will continue to provide this reasonable assurance of adequate protection. Thus, granting the exemptions will not present an undue risk to public health or safety and is not inconsistent with the common defense and security.

C. Special Circumstances Are Present

For the Commission to grant an exemption, special circumstances must exist. Under § 50.12(a)(2)(ii), special circumstances are present when [a]pplication of the regulation in the particular circumstances would not serve the underlying purpose of the rule or is not necessary to achieve the underlying purpose of the rule. These special circumstances exist here. The NRC has determined that ZS's compliance with the regulations listed above is not necessary for the licensee to demonstrate that, under its emergency plan, there is reasonable assurance that adequate protective measures can and will be taken in the event of a radiological emergency. Consequently, special circumstances are present because requiring ZS to comply with the regulations listed above is not necessary to achieve the underlying purpose of the EP regulations.

D. Environmental Considerations

Pursuant to 10 CFR 51.21, 51.32, and 51.35, an environmental assessment and finding of no significant impact related to this exemption was published in the **Federal Register.** Based upon the environmental assessment, the Commission has determined that issuance of this exemption will not have a significant effect on the quality of the human environment.

IV. Conclusion

The NRC staff reviewed the licensee's submittals and concludes that the licensee's request for an exemption from certain requirements in 10 CFR 50.47(b) and appendix E to 10 CFR part 50 as

specified above are acceptable in view of the greatly reduced offsite radiological consequences associated with the current plant status as permanently shut down.

The Commission has determined that, pursuant to 10 CFR 50.12, the exemptions are authorized by law, will not present an undue risk to the public health and safety, are consistent with the common defense and security, and special circumstances are present in that compliance with the specified regulations is not necessary for reasonable assurance that adequate protective measures can and will be taken in the event of a radiological emergency at the ZNPS facility based on its permanently shut down condition.

This exemption is effective upon issuance.

Dated at Rockville, Maryland, this 30th day of March 2015.

For the Nuclear Regulatory Commission.

Larry W. Camper,

Director, Division of Decommissioning, Uranium Recovery and Waste Programs, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7590–01–P

POSTAL SERVICE

Temporary Emergency Committee of the Board of Governors; Sunshine Act Meeting

DATE AND TIME: April 14, 2015, at 3 p.m.

PLACE: San Mateo, CA, via Teleconference.

STATUS: *Committee Votes to Change Time and Place of its meeting scheduled for April 13 and 14, 2015:* By telephone vote on April 8, 2015, members of the Temporary Emergency Committee of the Board of Governors of the United States Postal Service met and voted unanimously to cancel its closed meeting session scheduled for April 13, 2015 in San Mateo, CA, and to begin its closed meeting session scheduled for April 14, 2015 at 3:00 p.m., rather than the previously announced time of 8:30 a.m. Moreover, it voted unanimously to hold the April 14, 2015, meeting in San Mateo, CA via teleconference. The Committee determined that no earlier public notice was possible.

Matters To Be Considered

Tuesday, April 14, 2015, at 3:00 p.m.

1. Strategic Issues.
2. Financial Matters.
3. Pricing.
4. Governors' Executive Session—Discussion of prior agenda items and Board governance.

GENERAL COUNSEL CERTIFICATION: The General Counsel of the United States Postal Service has certified that the meeting may be closed under the Government in the Sunshine Act.

CONTACT PERSON FOR MORE INFORMATION: Requests for information about the meeting should be addressed to the Secretary of the Board, Julie S. Moore, at 202–268–4800.

Julie S. Moore,

Secretary, Board of Governors.

BILLING CODE 7710–12–P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–74704; File No. SR–NYSEMKT–2014–86]

Self-Regulatory Organizations; NYSE MKT LLC.; Notice of Designation of Longer Period for Commission Action on Proceedings to Determine Whether to Approve or Disapprove Proposed Rule Change to Remove the Exchange's Quote Mitigation Plan as Provided by Exchange Rule 970.1NY

April 10, 2015.

I. Introduction

On October 2, 2014, NYSE MKT LLC (''NYSE MKT'' or ''Exchange'') filed with the Securities and Exchange Commission (''Commission''), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (''Act'') [1] and Rule 19b–4 thereunder,[2] a proposed rule change to remove the Exchange's quote mitigation plan as provided by NYSE MKT Rule 970.1NY. The proposed rule change was published for comment in the **Federal Register** on October 21, 2014.[3] On December 2, 2014, the Commission extended the time period in which to either approve the proposal, disapprove the proposal, or to institute proceedings to determine whether to approve or disapprove the proposal, to January 19, 2015.[4] On January 16, 2015, the Commission instituted proceedings to determine whether to approve or disapprove the proposal.[5] The Commission received 2 comment letters in further support of the proposal from NYSE MKT.[6]

Section 19(b)(2) of the Act [7] provides that, after initiating disapproval proceedings, the Commission shall issue an order approving or disapproving the proposed rule change not later than 180 days after the date of publication of notice of filing of the proposed rule change.[8] The Commission may extend the period for issuing an order approving or disapproving the proposed rule change, however, by not more than 60 days if the Commission determines that a longer period is appropriate and publishes the reasons for such determination.[9] The proposed rule change was published for notice and comment in the **Federal Register** on October 21, 2014. April 19, 2015, is 180 days from that date, and June 18, 2015, is 240 days from that date.

The Commission finds it appropriate to designate a longer period within which to issue an order approving or disapproving the proposed rule change so that it has sufficient time to consider the proposal, and the issues raised in NYSE MKT's comment letters.

Accordingly, the Commission, pursuant to Section 19(b)(2) of the Act,[10] designates June 18, 2015 as the date by which the Commission shall either approve or disapprove the proposed rule change (File No. SR–NYSEMKT–2014–86).

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[11]

Brent J. Fields,

Secretary.

SECURITIES AND EXCHANGE COMMISSION

Submission for OMB Review; Comment Request

Upon Written Request, Copy Available From: Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE., Washington, DC 20549–2736.

Extension:

Rules 8b–1 to 8b–33, SEC File No. 270–135, OMB Control No. 3235–0176.

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission (the ''Commission'') has submitted to the Office of Management and Budget (''OMB'') a request for extension of the previously approved collection of information discussed below.

Rules 8b–1 to 8b–33 (17 CFR 270.8b–1 to 8b–33) under the Investment Company Act of 1940 (15 U.S.C. 80a–1 *et seq.*) (''Investment Company Act'') set forth the procedures for preparing and filing a registration statement under the Investment Company Act. These procedures are intended to facilitate the registration process. These rules generally do not require respondents to report information.[1]

The Commission believes that it is appropriate to estimate the total respondent burden associated with preparing each registration statement form rather than attempt to isolate the impact of the procedural instructions under Section 8(b) of the Investment Company Act, which impose burdens only in the context of the preparation of the various registration statement forms. Accordingly, the Commission is not submitting a separate burden estimate for rules 8b–1 through 8b–33, but instead will include the burden for these rules in its estimates of burden for each of the registration forms under the Investment Company Act. The Commission is, however, submitting an hourly burden estimate of one hour for administrative purposes.

The collection of information under rules 8b–1 to 8b–33 is mandatory. The information provided under rules 8b–1 to 8b–33 is not kept confidential. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The public may view the background documentation for this information collection at the following Web site, *www.reginfo.gov.* Comments should be directed to: (i) Desk Officer for the Securities and Exchange Commission, Office of Information and Regulatory Affairs, Office of Management and Budget, Room 10102, New Executive Office Building, Washington, DC 20503, or by sending an email to: *Shagufta_Ahmed@omb.eop.gov;* and (ii) Pamela Dyson, Director/Chief Information Officer, Securities and Exchange Commission, c/o Remi Pavlik-Simon, 100 F Street NE., Washington, DC 20549 or send an email to: *PRA_Mailbox@sec.gov.* Comments must be submitted to OMB within 30 days of this notice.

[1] Although the rules under Section 8(b) of the Investment Company Act are generally procedural in nature, two of the rules require respondents to disclose some limited information. Rule 8b–3 (17 CFR 270.8b–3) provides that whenever a registration form requires the title of securities to be stated, the registrant must indicate the type and general character of the securities to be issued. Rule 8b–22 (17 CFR 270.8b–22) provides that if the existence of control is open to reasonable doubt, the registrant may disclaim the existence of control, but it must state the material facts pertinent to the possible existence of control. The information required by both of these rules is necessary to ensure that investors have clear and complete information upon which to base an investment decision.

Dated: April 10, 2015.

Brent J. Fields,

Secretary.

BILLING CODE 8011–01–P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–74707; File No. SR–EDGA–2015–16]

Self-Regulatory Organizations; EDGA Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change Related to Fees for Use of EDGA Exchange, Inc.

April 10, 2015.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the ''Act''),[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on April 1, 2015, EDGA Exchange, Inc. (the ''Exchange'' or ''EDGA'') filed with the Securities and Exchange Commission (''Commission'') the proposed rule change as described in Items I, II and III below, which Items have been prepared by the Exchange. The Exchange has designated the proposed rule change as one establishing or changing a member due, fee, or other charge imposed by the Exchange under Section 19(b)(3)(A)(ii) of the Act[3] and Rule 19b–4(f)(2) thereunder,[4] which renders the proposed rule change effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange filed a proposal to amend its fees and rebates applicable to Members[5] of the Exchange pursuant to EDGA Rule 15.1(a) and (c) (''Fee Schedule'') to: (i) Amend the fees charged for and description of the logical ports[6] offered; (ii) amend the criteria for the MidPoint Discretionary Order Add Volume Tier; and (iii) make a series of immaterial, non-substantive changes.

The text of the proposed rule change is available at the Exchange's Web site at *www.batstrading.com,* at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to: (i) Amend the fees charged for and description of the logical ports offered; (ii) amend the criteria for the MidPoint Discretionary Order Add Volume Tier; and (iii) make a series of immaterial, non-substantive changes.

Logical Ports

Currently, the Exchange maintains logical ports for order entry, drop copies, testing, and market data for which it currently charges $500 per month per port, with the first two (2) ports provided free of charge. Ports used to request a re-transmission of market data from the Exchange are also provided free of charge.

In early 2014, the Exchange and its affiliate, EDGA Exchange, Inc.

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b–4.

[3] 15 U.S.C. 78s(b)(3)(A)(ii).

[4] 17 CFR 240.19b–4(f)(2).

[5] The term ''Member'' is defined as ''any registered broker or dealer, or any person associated with a registered broker or dealer, that has been admitted to membership in the Exchange. A Member will have the status of a ''member'' of the Exchange as that term is defined in Section 3(a)(3) of the Act.'' *See* Exchange Rule 1.5(n).

[6] A logical port is commonly referred to as a TCP/IP port, and represents a port established by the Exchange within the Exchange's system for trading and billing purposes. Each logical port established is specific to a Member or non-member and grants that Member or non-member the ability to operate a specific application, such as FIX order entry or Multicast PITCH data receipt.

(''EDGA''), received approval to effect a merger (the ''Merger'') of the Exchange's parent company, Direct Edge Holdings LLC, with BATS Global Markets, Inc., the parent of BZX and BYX (together with BZX, EDGA, and EDGX, the ''BGM Affiliated Exchanges'').[7] In the context of the Merger, the BGM Affiliated Exchanges are working to align certain system and regulatory functionality, retaining only intended differences between the BGM Affiliated Exchanges. This includes migrating the BGM Affiliated Exchanges, which are currently located in different data centers, into a single data center. As part of the data center migration, the operation and categorization of logical ports provided to access the Exchange would be identical to those utilized to access BZX and BYX. Therefore, the Exchange proposes to harmonize its description of logical ports within its Fee Schedule to align with the descriptions included in the BZX and BYX fee schedules.[8] As a result, the Exchange also proposes to no longer provide free of charge: (i) The first two (2) logical ports per month; and (ii) ports used to request a re-transmission of market data from the Exchange. The Exchange communicated to Members and non-Members of [sic] these changes via a trading notice issued on October 7, 2014.[9]

First, the Exchange proposes to harmonize its description of logical ports within its Fee Schedule to align with the descriptions included in the BZX and BYX fee schedules. As part of the data center migration discussed above, the operation and categorization of ports provided to access the Exchange would be identical to those utilized to access BZX and BYX. Currently, the Exchange charges direct session logical ports fees of $500 per month and separately categorizes those ports as FIX, EDGE XPRS (HPI–API), Data, DROP, EdgeRisk. To harmonize the description of the logical ports offered with those of BZX and BYX, the Exchange proposes to no longer individually list the available ports (other than Multicast PITCH Spin Server and GRP ports described below) as all of the above are encompassed under the term logical ports. In addition, EdgeRisk ports will also no longer be separately listed within in [sic] the Fee Schedule. EdgeRisk ports enable Members, and non-Member service bureaus that act as conduits for orders entered by Members that are their customers, access to a System[10] test environment through which they can test their automated systems that integrate with the Exchange.[11] Under BATS technology, Members and non-Members would no longer need a dedicated port to access the Exchange's test environment as they would be able to utilize any of their existing ports to do so. Therefore, the Exchange proposes to not individually list EdgeRisk as a separate logical port.

Second, other than no longer providing certain ports free of charge as described below, the Exchange does not propose to amend the monthly fee [sic] logical port fees. All logical ports will continue to be subject to a fee of $500 per month per port. In addition, logical port fees proposed above would be limited to logical ports in the Exchange's primary data center and no logical port fees would be assessed for redundant secondary data center ports. In addition, the Exchange also proposes to no longer provide the first two (2) logical ports free of charge. The Exchange, like BZX and BYX, will assess the monthly per logical port fees for all of a Member and non-Member's logical ports.

Currently, the Exchange provides ports used to request a retransmission of data free of charge. Going forward, the Exchange would no longer offer such ports free of charge, as proposed below. There are currently two types of logical ports used to request and receive a retransmission of data from the Exchange,[12] Multicast PITCH Spin Server Ports and Multicast PITCH GRP Ports. The Exchange's Multicast PITCH data feed is available from two primary feeds, identified as the ''A feed'' and the ''C feed'', which contain the same information but differ only in the way such feeds are received. The Exchange also offers two redundant fees, identified as the ''B feed'' and the ''D feed.''

The Exchange proposes to offer Multicast PITCH Spin Server Ports for a fee of $500 per month for a set of primary ports (A or C feed) and Multicast PITCH GRP Ports for a fee of $500 per month for a primary port (A or C feed). The Exchange will continue to offer for free the ports necessary to receive the Exchange's redundant Multicast ''B feed'' and ''D feed'', as well as all ports made available in the Exchange's secondary data center. Accordingly, this proposal only applies to ports used to receive an Exchange primary Multicast PITCH feeds at the Exchange's primary data center. The proposed fees for Multicast PITCH Spin Server Ports and GRP Ports are identical to those charged by BZX and BYX.

Lastly, the Exchange proposes to rename this section of its Fee Schedule entitled ''Port Fees'' as ''Logical Port Fees.''

MidPoint Discretionary Order Add Volume Tier

The Exchange proposes to amend the criteria for the MidPoint Discretionary Order Add Volume Tier. Under the tier, a Member qualifies for a reduced fee of $0.0003 per share where that Member: (i) Adds an ADV of at least 0.25% of the TCV including non-displayed orders that add liquidity; and (ii) adds or removes an ADV of at least 1,500,000 shares yielding fee codes DM or DT. Fee code DM is applied to Non-Displayed orders that add liquidity using MidPoint Discretionary orders[13] and fee code DT is applied to Non-Displayed orders that remove liquidity using MidPoint Discretionary Orders. Orders that yield fee code DM or fee code DT that do not meet to the criteria of the MidPoint Discretionary Order Add Volume Tier are charged a fee of $0.00050 per share. The Exchange now proposes to decrease the ADV requirement to require that a Member add an ADV of at least 0.20%, rather than 0.25%, of the TCV including non-displayed orders that add liquidity. Easing the criteria of the MidPoint Discretionary Order Add Volume Tier is intended to further incentive Members to submit an increased number of MidPoint Discretionary orders to the Exchange, thereby increasing the liquidity on the Exchange at the midpoint of the National Best Bid or Offer (''NBBO'').

Non-Substantive Changes

The Exchange also proposes to make a series of immaterial, non-substantive

[8] The Exchange notes that EDGA intends to file a proposal very similar to this proposal that will align its logical port fees across each of the BGM Affiliated Exchanges. The Exchange also notes that BZX and BYX also intend to file a proposal to increase its port fees from $400 per month per port to $500 per month per port as well as to change references to ''GRP Ports'' to ''Multicast PITCH GRP Ports''.

[9] *See* BATS Global Markets Access Fee Changes for 2015, *available at http://cdn.batstrading.com/resources/fee_schedule/2015/BATS-Global-Markets-Access-Services-Fee-Changes-for-2015.pdf* (issued October 7, 2014).

[10] The term ''System'' is defined in Rule 1.5(cc).

[11] *See* Securities Exchange Act Release Nos. 69670 (May 30, 2013), 78 FR 33871 (June 5, 2013) (SR–EDGX–2013–18); *and* 69669 (May 30, 2013), 78 FR 33880 (June 5, 2013) (SR–EDGA–2013–14).

[12] FIX and BOE ports are the only ports that may be used to send orders and related instructions to the Exchange. All other port types, including the Multicast PITCH Spin Server Port and GRP Port, permit Members and non-members to receive information from the Exchange.

[13] *See* Exchange Rule 11.8(e) for a description of MidPoint Discretionary orders.

changes to its Fee Schedule. None of the changes proposed are intended to amend any fee or rebate. These changes are:

- Remove the word ''the'' from the description of fee code D;
- Remove the word ''the'' from the description of fee code RN;
- Amend the Market Data Section to add a colon after BATS One Feed℠; and
- Add a colon after Licensing and Continuing Education.

Implementation Date

The Exchange proposes to implement these amendments to its Fee Schedule on April 1, 2015.

2. *Statutory Basis*

The Exchange believes that the proposed rule change is consistent with the objectives of Section 6 of the Act,[14] in general, and furthers the objectives of Section 6(b)(4),[15] in particular, as it is designed to provide for the equitable allocation of reasonable dues, fees and other charges among its Members and other persons using its facilities. The Exchange also notes that it operates in a highly-competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive. The proposed rule change reflects a competitive pricing structure designed to incent market participants to direct their order flow to the Exchange. The Exchange believes that the proposed rates are equitable and non-discriminatory in that they apply uniformly to all Members. The Exchange believes the fees and credits remain competitive with those charged by other venues and therefore continue to be reasonable and equitably allocated to Members.

Logical Ports

The Exchange believes that the proposed rule change is consistent with Section 6(b)(4) of the Act,[16] in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and other persons using any facility or system which the Exchange operates or controls. The Exchange notes that its proposed changes, combined with the planned filings for EDGA, BZX and BYX,[17] would allow the BGM Affiliated Exchanges to provide consistent logical port offerings across each of the BGM Affiliated Exchanges. Consistent offerings, in turn, will simplify the connectivity requirements for Members of the Exchange that are also participants on EDGA, BZX and/or BYX. The proposed rule change would result in greater uniformity and less burdensome and more efficient understanding of Exchange connectivity requirements.

The Exchange also believes that no longer providing the first two (2) logical ports for free as well as ports used to request a retransmission of market data also represents an equitable allocation of reasonable dues, fees and other charges. The Exchange operates in a highly competitive market in which exchanges offer connectivity services as a means to facilitate the trading activities of members and other participants. Accordingly, fees charged for connectivity are constrained by the active competition for the order flow of such participants as well as demand for market data from the Exchange. If a particular exchange charges excessive fees for connectivity, affected members will opt to terminate their connectivity arrangements with that exchange, and adopt a possible range of alternative strategies, including routing to the applicable exchange through another participant or market center or taking that exchange's data indirectly. Accordingly, the exchange charging excessive fees would stand to lose not only connectivity revenues but also revenues associated with the execution of orders routed to it by affected members, and, to the extent applicable, market data revenues. The Exchange believes that this competitive dynamic imposes powerful restraints on the ability of any exchange to charge unreasonable fees for connectivity. Lastly, the Exchange believe its proposed fees are reasonable because the Nasdaq Stock Market LLC (''Nasdaq'') and the NYSE Arca, Inc. (''NYSE Arca'') do not provide logical ports or ports used for the retransmission of market data free of charge.[18]

The Exchange believes that its proposed changes to logical port fees are reasonable in light of the benefits to Exchange participants of direct market access and receipt of data. In addition, the Exchange believes that its fees are equitably allocated among Exchange constituents based upon the number of access ports that they require to receive data from the Exchange. Further, the Exchange believes that its fees are not unreasonably discriminatory because all market participants are charged standard fees for port usage. The Exchange notes that it believes its prior fee structure, under which two ports were provided free of charge, was reasonable, equitably allocated and not unreasonably discriminatory because it was available to all market participants and was intended to encourage Members and non-members to connect to the Exchange. However, by moving towards a more uniform approach to port descriptions and charges across the BGM Affiliated Exchanges, the Exchange believes that its fees are even more equitably allocated and nondiscriminatory. The Exchange also believes that its fees for access services will enable it to better cover its infrastructure costs and to improve its market technology and services.

Lastly, the Exchange also believes that the proposed amendments to its fee schedule are non-discriminatory because they will apply uniformly to all Members. All Members that voluntarily select various service options will be charged the same amount for the same services. All Members have the option to select any connectivity option, and there is no differentiation among Members with regard to the fees charged for the services offered by the Exchange.

MidPoint Discretionary Order Add Volume Tier

The Exchange believes amending the criteria for the MidPoint Discretionary Order Add Volume Tier represents an equitable allocation of reasonable dues, fees, and other charges among Members and other persons using its facilities because it is designed to further incentivize Members to increase their use of MidPoint Discretionary orders on EDGA. MidPoint Discretionary Orders increase displayed liquidity on the Exchange while also enhancing execution opportunities at the mid-point of the NBBO. Promotion of displayed liquidity at the NBBO enhances market quality for all Members. Members utilizing MidPoint Discretionary orders provide liquidity at the midpoint of the NBBO increasing the potential for an order to receive price improvement, and easing the tier's criteria so that Members may be eligible for a decreased fee is a reasonable means by which to encourage the use of such orders. In addition, the Exchange believes that by encouraging the use of MidPoint Discretionary orders by easing the tier's criteria, Members seeking price improvement would be more motivated to direct their orders to EDGA because they would have a heightened expectation of the availability of

[14] 15 U.S.C. 78f.

[15] 15 U.S.C. 78f(b)(4).

[16] 15 U.S.C. 78f(b)(4).

[17] *See* supra note 8.

[18] *See* Nasdaq Rule 7015 (providing no FIX or non-Trading FIX ports free of charge) *and* the NYSE Arca fee schedule *available at https://www.nyse.com/publicdocs/nyse/markets/nyse-arca/NYSE_Arca_Marketplace_Fees.pdf* (dated February 26, 2105).

liquidity at the midpoint of the NBBO. The Exchange also believes that the proposed addition of the MidPoint Discretionary Order Add Volume Tier is non-discriminatory because it will be available to all Members.

Non-Substantive Changes

The Exchange believes that the non-substantive clarifying changes to its Fee Schedule are reasonable because none of the proposed changes are designed to amend any fee, nor alter the manner in which it assesses fees or calculates rebates. These non-substantive changes to the Fee Schedule are intended to make the Fee Schedule clearer and less confusing for investors and eliminate potential investor confusion, thereby removing impediments to and perfecting the mechanism of a free and open market and a national market system, and, in general, protecting investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange believes its proposed amendments to its Fee Schedule would not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange does not believe that the proposed change represents a significant departure from previous pricing offered by the Exchange or pricing offered by the Exchange's competitors. Additionally, Members may opt to disfavor the Exchange's pricing if they believe that alternatives offer them better value. Accordingly, the Exchange does not believe that the proposed change will impair the ability of Members or competing venues to maintain their competitive standing in the financial markets.

Logical Ports

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange notes that, other than no longer providing two (2) ports or ports used for the retransmission of market data for free each month, it does not proposes to alter the fees charged from their current levels. As discussed above, the Exchange believes that fees for connectivity are constrained by the robust competition for order flow among exchanges and non-exchange markets. Further, excessive fees for connectivity, including logical port fees, would serve to impair an exchange's ability to compete for order flow rather than burdening competition. In addition, allowing the Exchange to implement substantively identical logical port fees across each of the BGM Affiliated Exchanges does not present any competitive issues, but rather is designed to provide greater harmonization among Exchange, BYX, BZX, and EDGA. Lastly, the Exchange believes the proposal to no longer provide two (2) ports or ports used for the retransmission of market data for free each month would enhance intermarket competition because Nasdaq and NYSE Arca do not provide logical ports or ports used for the retransmission of market data free of charge.[19] The Exchange also does not believe the proposed rule change would impact intramarket competition as it would apply to all Members and non-Members equally.

MidPoint Discretionary Order Add Volume Tier

The Exchange believes that its proposal to ease the criteria for the MidPoint Discretionary Order Add Volume Tier would increase intermarket competition because it would further incentivize Members to send an increased amount MidPoint Discretionary orders to the Exchange in order to qualify for the tier's decreased fee. The Exchange believes that its proposal would neither increase nor decrease intramarket competition because the MidPoint Discretionary Order Add Volume Tier would apply uniformly to all Members and the ability of some Members to meet the tier would only benefit other Members by contributing to increased liquidity at the midpoint of the NBBO and better market quality at the Exchange.

Non-Substantive Changes

The Exchange believes that the non-substantive changes to the Fee Schedule will not affect intermarket nor intramarket competition because none of these changes are designed to amend any fee or alter the manner in which the Exchange assesses fees or calculates rebates.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from Members or other interested parties.

[19] *Id.*

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act[20] and paragraph (f) of Rule 19b–4 thereunder.[21] At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (*http://www.sec.gov/rules/sro.shtml*); or
- Send an email to *rule-comments@sec.gov.* Please include File Number SR–EDGA–2015–16 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE., Washington, DC 20549–1090.

All submissions should refer to File Number SR–EDGA–2015–16. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (*http://www.sec.gov/rules/sro.shtml).* Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for Web site viewing and printing in the Commission's Public Reference Room, 100 F Street NE., Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for

[20] 15 U.S.C. 78s(b)(3)(A).

[21] 17 CFR 240.19b–4(f).

inspection and copying at the principal office of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR–EDGA–2015–16, and should be submitted on or before May 7, 2015

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[22]

Brent J. Fields,

Secretary.

[FR Doc. 2015–08701 Filed 4–15–15; 8:45 am]

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–74705; File No. SR–NYSEArca–2014–117]

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Designation of Longer Period for Commission Action on Proceedings To Determine Whether To Approve or Disapprove Proposed Rule Change To Remove the Exchange's Quote Mitigation Plan as Provided by Commentary .03 to Exchange Rule 6.86

April 10, 2015.

I. Introduction

On October 2, 2014, NYSE Arca, Inc. (''NYSE Arca'' or ''Exchange'') filed with the Securities and Exchange Commission (''Commission''), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (''Act'') [1] and Rule 19b–4 thereunder,[2] a proposed rule change to remove the Exchange's quote mitigation plan as provided by Commentary .03 to NYSE Arca Rule 6.86. The proposed rule change was published for comment in the **Federal Register** on October 21, 2014.[3] On December 2, 2014, the Commission extended the time period in which to either approve the proposal, disapprove the proposal, or to institute proceedings to determine whether to approve or disapprove the proposal, to January 19, 2015.[4] On January 16, 2015, the Commission instituted proceedings to determine whether to approve or disapprove the proposal.[5] The Commission received 2 comment letters in further support of the proposal from NYSE Arca.[6]

Section 19(b)(2) of the Act [7] provides that, after initiating disapproval proceedings, the Commission shall issue an order approving or disapproving the proposed rule change not later than 180 days after the date of publication of notice of filing of the proposed rule change.[8] The Commission may extend the period for issuing an order approving or disapproving the proposed rule change, however, by not more than 60 days if the Commission determines that a longer period is appropriate and publishes the reasons for such determination.[9] The proposed rule change was published for notice and comment in the **Federal Register** on October 21, 2014. April 19, 2015, is 180 days from that date, and June 18, 2015, is 240 days from that date.

The Commission finds it appropriate to designate a longer period within which to issue an order approving or disapproving the proposed rule change so that it has sufficient time to consider the proposal, and the issues raised in NYSE Arca's comment letters.

Accordingly, the Commission, pursuant to Section 19(b)(2) of the Act,[10] designates June 18, 2015 as the date by which the Commission shall either approve or disapprove the proposed rule change (File No. SR–NYSEArca–2014–117).

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[11]

Brent J. Fields,

Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–74703; File No. SR–BYX–2015–21]

Self-Regulatory Organizations; BATS Y-Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change Related to Fees for Use of BATS Y-Exchange, Inc.

April 10, 2015.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (''Act''),[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on April 1, 2015, BATS Y-Exchange, Inc. (the ''Exchange'' or ''BYX'') filed with the Securities and Exchange Commission (''SEC'' or ''Commission'') the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Exchange has designated the proposed rule change as one establishing or changing a member due, fee, or other charge imposed by the Exchange under Section 19(b)(3)(A)(ii) of the Act [3] and Rule 19b–4(f)(2) thereunder,[4] which renders the proposed rule change effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange filed a proposal to amend the fee schedule applicable to Members [5] and non-members of the Exchange pursuant to BYX Rules 15.1(a) and (c). Changes to the fee schedule pursuant to this proposal are effective upon filing.

The text of the proposed rule change is available at the Exchange's Web site at *www.batstrading.com,* at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b–4.

[3] 15 U.S.C. 78s(b)(3)(A)(ii).

[4] 17 CFR 240.19b–4(f)(2).

[5] The term ''Member'' is defined as ''any registered broker or dealer that has been admitted to membership in the Exchange.'' *See* Exchange Rule 1.5(n).

any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend the fees charged for and description of the logical ports[6] offered by the Exchange.

Currently, the Exchange maintains logical ports for order entry, drop copies and the receipt of market data for which it currently charges $400 per month per port with the exception of Multicast PITCH Spin Server Ports and GRP Ports.[7] Multicast PITCH Spin Server Ports and GRP Ports are used to request and receive a retransmission of data from the Exchange's Multicast PITCH data feed. The Exchange does charge $400 per month for such ports, however, the Exchange separately delineates such fees because of various details related to the use of such ports. Specifically, Multicast PITCH Spin Server Ports are offered as a complete set, including one logical port for each channel of the Exchange's Multicast PITCH data feed, and can be taken for either of the Exchange's primary Multicast PITCH data feeds.[8] Similarly, Multicast PITCH GRP Ports can be taken for either of the Exchange's primary Multicast PITCH data feeds. The Exchange offers Multicast PITCH Spin Server Ports for a fee of $400 per month for a set of primary ports (A or C feed) and Multicast PITCH GRP Ports for a fee of $400 per month per primary port (A or C feed). The Exchange offers and will continue to offer for free the ports necessary to receive the Exchange's redundant Multicast ''B feed'' and ''D feed'', as well as all ports made available in the Exchange's secondary data center.

In early 2014, the Exchange and its affiliate, BATS Exchange, Inc. (''BZX''), received approval to effect a merger (the ''Merger'') of the Exchange's parent company, BATS Global Markets, Inc., with Direct Edge Holdings LLC, the indirect parent of EDGX and EDGA (together with the Exchange, BZX and EDGX, the ''BGM Affiliated Exchanges'').[9] In the context of the Merger, the BGM Affiliated Exchanges are working to align certain system and regulatory functionality, retaining only intended differences between the BGM Affiliated Exchanges. This includes migrating the BGM Affiliated Exchanges, which are currently located in different data centers, into a single data center. As part of the data center migration and the integration of the BGM Affiliated Exchanges, the Exchange is proposing to increase the fees charged from $400 per month to $500 per month for all categories of logical ports, including sets of Multicast PITCH Spin Server Ports for the A feed and the C feed, individual GRP Ports for the A feed and the C feed, and all other logical ports. The Exchange notes that EDGA and EDGX currently charge $500 per month for most logical ports.[10] The Exchange communicated to Members and non-Members regarding these changes via a trading notice issued on October 7, 2014.[11]

In addition to increasing the port fees charged by the Exchange, the Exchange proposes to add the words ''Multicast PITCH'' before GRP Ports to mirror the description of fees for Multicast PITCH Spin Server Ports. As noted above, the separate fees for Spin Server Ports and GRP Ports both relate to the Exchange's Multicast PITCH data feed.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the objectives of Section 6 of the Act,[12] in general, and furthers the objectives of Section 6(b)(4),[13] in particular, as it is designed to provide for the equitable allocation of reasonable dues, fees and other charges among its Members and other persons using its facilities. The Exchange also notes that it operates in a highly-competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive. The Exchange believes that the proposed rates are equitable and non-discriminatory in that they apply uniformly to all Members.

The Exchange believes that the proposed rule change is consistent with Section 6(b)(4) of the Act,[14] in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and other persons using any facility or system which the Exchange operates or controls. The Exchange notes that its proposed changes, combined with the planned filings for EDGA, EDGX and BZX,[15] would allow the BGM Affiliated Exchanges to provide consistent logical port offerings across each of the BGM Affiliated Exchanges. Consistent offerings, in turn, will simplify the connectivity requirements for Members of the Exchange that are also participants on EDGA, BZX and/or BYX [sic]. The proposed rule change would result in greater uniformity and less burdensome and more efficient understanding of Exchange connectivity requirements.

The Exchange believes that the increase of fees for logical ports represents an equitable allocation of reasonable dues, fees and other charges. The Exchange operates in a highly competitive market in which exchanges offer connectivity services as a means to facilitate the trading activities of members and other participants. Accordingly, fees charged for connectivity are constrained by the active competition for the order flow of such participants as well as demand for market data from the Exchange. If a particular exchange charges excessive fees for connectivity, affected members will opt to terminate their connectivity arrangements with that exchange, and adopt a possible range of alternative strategies, including routing to the applicable exchange through another participant or market center or taking that exchange's data indirectly. Accordingly, the exchange charging excessive fees would stand to lose not only connectivity revenues but also

[6] A logical port is commonly referred to as a TCP/IP port, and represents a port established by the Exchange within the Exchange's system for trading and billing purposes. Each logical port established is specific to a Member or non-member and grants that Member or non-member the ability to operate a specific application, such as FIX order entry or Multicast PITCH data receipt.

[7] FIX and BOE ports are the only ports that may be used to send orders and related instructions to the Exchange. All other port types, including the Multicast PITCH Spin Server Port and GRP Port, permit Members and non-members to receive information from the Exchange.

[8] The Exchange's primary Multicast PITCH data feeds are identified as the ''A feed'' and the ''C feed'' and contain the same information. The A feed and the C feed differ only in the way such feeds are received. The Exchange also offers two redundant feeds, identified as the ''B feed'' and the ''D feed''.

[9] *See* Securities Exchange Act Release No. 71375 (January 23, 2014), 79 FR 4771 (January 29, 2014) (SR–BATS–2013–059; SR–BYX–2013–039).

[10] The Exchange notes that BZX intends to file a proposal very similar to this proposal that will align its logical port fees across each of the BGM Affiliated Exchanges. The Exchange also notes that EDGA and EDGX also intend to file a proposal to charge $500 per month for all types of logical ports as well as to change the descriptions used for logical port fees to mirror the descriptions used by the Exchange and BZX.

[11] *See* BATS Global Markets Access Fee Changes for 2015, *available at http://cdn.batstrading.com/resources/fee_schedule/2015/BATS-Global-Markets-Access-Services-Fee-Changes-for-2015.pdf* (issued October 7, 2014).

[12] 15 U.S.C. 78f.

[13] 15 U.S.C. 78f(b)(4).

[14] 15 U.S.C. 78f(b)(4).

[15] *See* supra note 10.

revenues associated with the execution of orders routed to it by affected members, and, to the extent applicable, market data revenues. The Exchange believes that this competitive dynamic imposes powerful restraints on the ability of any exchange to charge unreasonable fees for connectivity. Lastly, the Exchange believe [sic] its proposed fees are reasonable because the Nasdaq Stock Market LLC (''Nasdaq'') and the NYSE Arca, Inc. (''NYSE Arca'') charge comparable rates for logical ports to access such markets.[16] As noted above, EDGA and EDGX also charge the same rate for access to most logical ports.

The Exchange believes that its proposed changes to logical port fees are reasonable in light of the benefits to Exchange participants of direct market access and receipt of data. In addition, the Exchange believes that its fees are equitably allocated among Exchange constituents based upon the number of access ports that they require to access and receive data from the Exchange. The Exchange also believes that its fees for access services will enable it to better cover its infrastructure costs and to improve its market technology and services.

Lastly, the Exchange also believes that the proposed amendments to its fee schedule are non-discriminatory because they will apply uniformly to all Members. All Members that voluntarily select various service options will be charged the same amount for the same services. All Members have the option to select any connectivity option, and there is no differentiation among Members with regard to the fees charged for the services offered by the Exchange.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe its proposed amendments to its fee schedule would impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange does not believe that the proposed change to logical port fees represents a significant departure from previous pricing offered by the Exchange or pricing offered by the Exchange's competitors. Additionally, Members may opt to disfavor the Exchange's pricing if they believe that alternatives offer them better value. Accordingly, the Exchange does not believe that the proposed change will impair the ability of Members or competing venues to maintain their competitive standing in the financial markets.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act[17] and paragraph (f) of Rule 19b–4 thereunder.[18] At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (*http://www.sec.gov/rules/sro.shtml*); or
- Send an email to *rule-comments@sec.gov.* Please include File Number SR–BYX–2015–21 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE., Washington, DC 20549–1090.

All submissions should refer to File Number SR–BYX–2015–21. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (*http://www.sec.gov/rules/sro.shtml*). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for Web site viewing and printing in the Commission's Public Reference Room, 100 F Street NE., Washington, DC 20549 on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of such filing also will be available for inspection and copying at the principal offices of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR–BYX–2015–21, and should be submitted on or before May 7, 2015.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[19]

Brent J. Fields,

Secretary.

BILLING CODE 8011–01–P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–74706; File No. SR–ISE–2015–11]

Self-Regulatory Organizations; International Securities Exchange, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend the Schedule of Fees

April 10, 2015.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the ''Act''),[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on March 26, 2015, the International Securities Exchange, LLC (the ''Exchange'' or the ''ISE'') filed with the Securities and Exchange Commission the proposed rule change, as described in Items I, II, and III below, which items have been prepared by the self-regulatory

---

[16] *See* Nasdaq Rule 7015 (providing no FIX or non-Trading FIX ports free of charge) *and* the NYSE Arca fee schedule *available at https://www.nyse.com/publicdocs/nyse/markets/nyse-arca/NYSE_Arca_Marketplace_Fees.pdf* (dated February 26, 2015). The Exchange recognizes that some participants may be charged the lower rate of $200 per month to the extent such participants maintain a low number of ports with NYSE Arca. The Exchange nonetheless believes that its proposed fees are comparable despite the fact that it does not proposed [sic] a lower fee for such participants.

organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of the Substance of the Proposed Rule Change

The ISE proposes to amend the Schedule of Fees to introduce a Member Order Routing Program. The text of the proposed rule change is available on the Exchange's Web site (*http://www.ise.com*), at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections A, B and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to amend the Schedule of Fees to introduce a Member Order Routing Program (''MORP'') that will provide enhanced rebates to order routing firms that select the Exchange as the default routing destination (as described below) for unsolicited Crossing Orders.[3] The MORP is intended to compete with similar programs offered by competitor options exchanges. The Exchange designates this filing to become effective on April 1, 2015.[4]

MORP Qualifications

To be eligible to participate in MORP, an Electronic Access Member (''EAM'') must: (1) Provide to its clients, systems that enable the electronic routing of option orders to all of the U.S. options exchanges, including ISE; (2) interface with ISE to access the Exchange's electronic options trading platform; (3) offer to its clients a customized interface and routing functionality such that ISE will be the default destination for all unsolicited Crossing Orders entered by the EAM,[5] provided that market conditions allow the Crossing Order to be executed on ISE; (4) configure its own option order routing functionality such that ISE will be the default destination for all unsolicited Crossing Orders, provided that market conditions allow the Crossing Order to be executed on ISE, with respect to all option orders as to which the EAM has routing discretion; and (5) ensure that the default routing functionality permits users submitting option orders through such system to manually override the ISE as the default destination on an order-by-order basis.[6]

EAMs that wish to participate in the program must certify that they meet the above MORP requirements, in writing, on a monthly basis and in a form to be determined by the Exchange. The relevant notice must be provided by the last business day of the month for members to be eligible to participate in the MORP effective the first business day of the following month.[7]

Rebate for Unsolicited Crossing Orders

An EAM that is MORP eligible will receive a rebate for all unsolicited Crossing Orders of $0.05 per originating contract side, provided that the member executes a minimum average daily volume (''ADV'') in unsolicited Crossing Orders of at least 30,000 originating contract sides. This rebate is increased to $0.07 per originating contract side, provided that the member executes a higher ADV in unsolicited Crossing Orders of 100,000 originating contract sides. The rebate for the highest tier achieved will be applied retroactively to all eligible contracts traded in a given month. As is ISE's current practice with respect to ADV calculations, any day that the Exchange is not open for the entire trading day may be excluded from such calculation; provided that the Exchange will only remove the day for members that would have a lower ADV with the day included. The Exchange will provide a notice, and post it on the Exchange's Web site, to inform members of any day that is to be excluded from its ADV calculations in connection with this proposed rule change.

Facilitation and Solicitation Break-Up Rebate

In addition, any EAM that qualifies for the MORP rebate by executing an ADV of 30,000 originating contract sides or more will also be eligible for increased Facilitation and Solicitation break-up rebates. Currently, the Exchange provides a Facilitation and Solicitation break-up rebate of $0.15 per contract for regular and complex orders in Select Symbols. This rebate applies to all Non-ISE Market Maker,[8] Firm Proprietary [9]/Broker-Dealer,[10] Professional Customer,[11] and Priority Customer [12] orders submitted to the Facilitation and Solicited Order Mechanisms that do not trade with their contra order, except when those orders trade against pre-existing orders and quotes on the Exchange's order books. For MORP eligible members that execute a qualifying ADV in unsolicited Crossing Orders of at least 30,000 originating contract sides, the Exchange now proposes to increase this Facilitation and Solicitation break-up rebate to $0.35 per contract for regular and complex orders in Select Symbols. In addition, the Exchange proposes to adopt a Facilitation and Solicitation break-up rebate in Non-Select Symbols and FX option classes specifically for members that meet the MORP qualifications described above. The rebate in Non-Select Symbols will be $0.15 per contract for regular orders and $0.80 per contract for complex orders. For FX option classes, the rebate will be $0.15 per contract for both regular and complex orders. With this proposed

[3] A '' Crossing Order'' is an order executed in the Exchange's Facilitation Mechanism, Solicited Order Mechanism, Price Improvement Mechanism (''PIM'') or submitted as a Qualified Contingent Cross (''QCC'') order. For purposes of the fee schedule, orders executed in the Block Order Mechanism are also considered Crossing Orders.

Solicited Crossing Orders will not qualify for MORP as they are already eligible for the QCC and Solicitation Rebate. *See* Schedule of Fees, Section IV.A.

[4] The Exchange notes that members must opt in to MORP by March 31, 2015 to be eligible to participate in the program on April 1, 2015. *See* note 7 *infra.*

[5] An unsolicited Crossing Order is a Crossing Order entered by a member that has not solicited the contra side of the trade.

[6] The Exchange notes that these requirements are based, in part, on similar programs offered by other options exchanges. *See* notes 15 and 19 infra and accompanying text.

[7] Members must provide this notice by March 31, 2015 to be eligible to participate in MORP when the program becomes effective on April 1, 2015.

[8] A ''Non-ISE Market Maker'' is a market maker as defined in Section 3(a)(38) of the Securities Exchange Act of 1934, as amended, registered in the same options class on another options exchange.

[9] A ''Firm Proprietary'' order is an order submitted by a member for its own proprietary account.

[10] A ''Broker-Dealer'' order is an order submitted by a member for a broker-dealer account that is not its own proprietary account.

[11] A ''Professional Customer'' is a person or entity that is not a broker/dealer and is not a Priority Customer.

[12] A ''Priority Customer'' is a person or entity that is not a broker/dealer in securities, and does not place more than 390 orders in listed options per day on average during a calendar month for its own beneficial account(s), as defined in Rule 100(a)(37A).

change, the Exchange notes that eligible members will receive the same break-up rebates for their Facilitation and Solicitation orders as they currently do for orders submitted to the PIM.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,[13] in general, and Section 6(b)(4) of the Act,[14] in particular, in that it is designed to provide for the equitable allocation of reasonable dues, fees, and other charges among its members and other persons using its facilities.

The Exchange proposes to provide the MORP rebate and higher break-up rebates to EAMs that connect directly to the Exchange and provide their clients with order routing functionality that includes all U.S. options exchanges, including ISE. Order routing firms are already provided enhanced rebates by some of the Exchange's competitors, including, for example, NYSE Amex Options (''Amex''), which provides volume based rebates to members that provide access and connectivity to their market.[15] The Exchange believes that it is appropriate at this time to offer a similar rebate to order routing firms on ISE in order to compete with these programs on other options markets.

The Exchange believes the proposed fee program is reasonable and equitable because it is designed to encourage order routing firms to execute additional unsolicited Crossing Order volume on the ISE. The Exchange notes that it currently offers other incentive programs to promote and encourage growth in specific business areas, including, for example, rebates for Market Makers that routinely quote at the national best bid or offer,[16] and volume-based Priority Customer complex order rebates.[17] The proposed rule change is targeted towards Crossing Orders, and, in particular, unsolicited Crossing Orders, which is yet another segment of order flow that the Exchange seeks to encourage members to execute on ISE. The Exchange believes that it is reasonable and equitable to tailor the proposed rule change to unsolicited Crossing Orders. ISE already charges fees and provides rebates for non-Crossing Orders that are effective in attracting that order flow to the Exchange. In addition, solicited Crossing Orders already benefit from the QCC and Solicitation Rebate, which applies to all QCC and/or other solicited Crossing Orders, including solicited orders executed in the Solicitation, Facilitation or Price Improvement Mechanisms. The Exchange believes that the QCC and Solicitation Rebate has proven to be an effective incentive for members to send solicited crosses to the ISE. The proposed rule change would supplement this incentive by encouraging eligible firms to send unsolicited Crossing Orders to the Exchange as well, which will benefit all market participants on ISE by creating additional liquidity and increased opportunity to trade on the Exchange.

The Exchange notes that the proposed MORP rebate levels are within the range of rebates currently offered by Amex, whose market access and connectivity subsidy ranges from $0.04 per contract to $0.08 per contract based on a member's volume tier.[18] In addition, the Exchange notes that the proposed Facilitation and Solicitation break-up rebates are equivalent to break-up rebates already provided for PIM orders traded on ISE.

As a condition for participating in MORP, an EAM must configure its option order routing functionality so that ISE will be the default destination for all unsolicited Crossing Orders, and must offer to its clients a customized interface and routing functionality that similarly defaults such orders to ISE. Defaulting to ISE will not be required if market conditions do not allow the Crossing Order to be executed on the Exchange. In addition, MORP eligible firms must allow users to manually override ISE as the default order routing destination on an order-by-order basis. The Exchange believes that these proposed requirements are reasonable and equitable as they protect investors, while allowing member firms to qualify for enhanced rebates that reduce their trading costs on ISE. Furthermore, the Exchange notes that members that set ISE as their default routing destination will not be relieved of complying with their best execution obligations. If, based on its regular best execution analysis, a MORP eligible member determines that the routing functionality described above would conflict with its duty of best execution, such member may discontinue participation in the program. The Exchange believes that the safeguards described above will ensure that client orders are appropriately protected under MORP. In this regard, the Exchange notes that the proposed protections mirror protections previously adopted by NASDAQ OMX PHLX, LLC (''Phlx''), where a similar program was introduced in 2007.[19]

Finally, the Exchange believes that the proposed program is both equitable and not unfairly discriminatory because any qualifying EAM that offers market access and connectivity to the Exchange will be able to participate in the program on an equal and non-discriminatory basis. While there will be two tiers of MORP rebates, the sole basis for differentiation among the tiers will be participant volume in unsolicited Crossing Orders.[20] The Exchange believes that it is equitable and not unfairly discriminatory to provide higher rebates to members that execute a higher volume of order flow on ISE. With respect to break-up rebates, the Exchange notes that all members that qualify for a MORP rebate will also receive enhanced break-up rebates.

B. Self-Regulatory Organization's Statement on Burden on Competition

In accordance with Section 6(b)(8) of the Act,[21] the Exchange does not believe that the proposed rule change will impose any burden on intermarket or intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act. To the contrary, the Exchange believes that the proposed rule change evidences the strength of competition in the options industry. Specifically, the Exchange believes that the proposed fee change will enhance the competeviness of the ISE relative to other options exchanges, such as Amex, that offer similar programs under their respective fee schedules. In doing so, eligible order routing firms will benefit from an innovative program that reduces trading costs by providing a valuable rebate for their unsolicited Crossing Orders. The Exchange operates in a highly competitive market in which market participants can readily direct their order flow to competing venues. In such an environment, the Exchange must continually review, and consider adjusting, its fees and rebates to remain competitive with other exchanges. For the reasons described above, the

[13] 15 U.S.C. 78f.

[14] 15 U.S.C. 78f(b)(4).

[15] *See* Securities Exchange Act Release No. 71532 (February 12, 2014), 79 FR 9563 (February 19, 2014) (SR–NYSEMKT–2014–12).

[16] *See* Schedule of Fees, Section I, Regular Order Fees and Rebates, Market Maker Plus.

[17] *See* Schedule of Fees, Section II, Complex Order Fees and Rebates.

[20] As explained above, the proposed rule change is targeted towards unsolicited Crossing Orders as this is the segment of order flow that the Exchange is seeking to encourage members to execute on ISE. The Exchange does not believe that this is unfairly discriminatory as all MORP eligible members can achieve the applicable rebates by executing unsolicited Crossing Orders on the ISE.

[21] 15 U.S.C. 78f(b)(8).

Exchange believes that the proposed fee changes reflect this competitive environment.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act [22] and subparagraph (f)(2) of Rule 19b–4 thereunder,[23] because it establishes a due, fee, or other charge imposed by ISE.

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (*http://www.sec.gov/rules/sro.shtml*); or
- Send an email to *rule-comments@sec.gov.* Please include File Number SR–ISE–2015–11 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE., Washington, DC 20549–1090.

All submissions should refer to File Number SR–ISE–2015–11. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (*http://www.sec.gov/rules/sro.shtml*). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for Web site viewing and printing in the Commission's Public Reference Room, 100 F Street NE., Washington, DC 20549 on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of such filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR–ISE–2015–11, and should be submitted on or before May 7, 2015.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[24]

Brent J. Fields,

Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–74712; File No. SR–DTC–2015–01]

Self-Regulatory Organizations; The Depository Trust Company; Order Approving Proposed Rule Change To Discontinue the Prospectus Repository System Service

April 10, 2015.

I. Introduction

On February 13, 2015, The Depository Trust Company (''DTC'') filed with the Securities and Exchange Commission (''Commission'') proposed rule change SR–DTC–2015–01 (''Proposed Rule Change'') pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (''Act'') [1] and Rule 19b–4 thereunder.[2] The Proposed Rule Change was published for comment in the *Federal Registrar* on March 2, 2015.[3] The Commission did not receive any comments on the Proposed Rule Change. This order approves the Proposed Rule Change.

II. Description

DTC filed the Proposed Rule Change to discontinue DTC's Prospectus Repository System (''PRS'') and its Terms of Use (''Terms of Use''), as discussed below.

DTC launched PRS in 2003 to provide DTC participants (''Participants'') and DTC-authorized third parties (collectively, ''Users'') [4] access to prospectuses and official statements relating to new issues of corporate and municipal securities (''Documents'').[5] Today, however, there are few Users of PRS because many of the Documents provided through PRS are publicly available. As such, DTC states that it is not worth the cost of maintaining PRS and, thus, will discontinue it.

III. Discussion

Section 19(b)(2)(C) of the Act [6] directs the Commission to approve a proposed rule change of a self-regulatory organization if it finds that such proposed rule change is consistent with the requirements of the Act and rules and regulations thereunder applicable to such organization. Section 17A(b)(3)(F) of the Act requires, among other things, that the rules of a clearing agency be designed to promote the prompt and accurate clearance and settlement of securities transactions.[7]

The Commission finds the Proposed Rule Change consistent with the Act. More specifically, the Commission finds that the Proposed Rule Change is consistent with Section 17A(b)(3)(F) of the Act.[8] By eliminating a service that is not economically efficient to maintain or central to DTC's core clearing business, DTC can better allocate its economic resources to support the safeguarding of securities or funds in its

[8] *Id.*

custody or control, and promote the prompt and accurate clearance and settlement of securities transactions.

IV. Conclusion

On the basis of the foregoing, the Commission finds that the Proposed Rule Change is consistent with the requirements of the Act and in particular with the requirements of Section 17A of the Act[9] and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that proposed rule change SR–DTC–2015–01 be, and hereby is, *approved.*[10]

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[11]

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–74709; File No. SR–CBOE–2015–036]

Self-Regulatory Organizations; Chicago Board Options Exchange, Incorporated; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend the Fees Schedule

April 10, 2015.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the ''Act''),[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on March 31, 2015, Chicago Board Options Exchange, Incorporated (the ''Exchange'' or ''CBOE'') filed with the Securities and Exchange Commission (the ''Commission'') the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend its Fees Schedule. The text of the proposed rule change is available on the Exchange's Web site (*http://www.cboe.com/AboutCBOE/CBOELegalRegulatoryHome.aspx*), at the Exchange's Office of the Secretary, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Fees Schedule, effective April 1, 2015. Specifically, the Exchange proposes to amend its fees for the Russell 2000 Index (''RUT''). As of April 1, 2015, RUT will be listed exclusively on CBOE and C2 Options Exchange Incorporated (''C2''). As such, the Exchange proposes to make certain conforming changes to its Fees Schedule.

By way of background, a specific set of proprietary products had been commonly listed out in the Fees Schedule as being included or excluded from a variety of programs, qualification calculations and transactions fees. In lieu of listing out these products in various sections of the Fees Schedule, the Exchange recently adopted the term ''Underlying Symbol List A,'' to represent these products.[3] Currently, Underlying Symbol List A is defined in Footnote 34 and represents the following proprietary products: OEX, XEO, SPX (including SPXw), SPXpm, SRO, VIX, VXST, VOLATILITY INDEXES and binary options The Exchange notes that the reason the products in Underlying Symbol List A are often collectively included or excluded from certain programs, qualification calculations and transactions fees is because the Exchange has expended considerable resources developing and maintaining its proprietary, exclusively-listed products. Similar to the products currently represented by ''Underlying Symbol List A,'' RUT will no longer be listed on any other exchange (other than C2). As such, the Exchange proposes to exclude or include RUT in the same programs as the other products in Underlying Symbol List A (except as otherwise noted below), as well as add RUT to the definition of Underlying Symbol List A in Footnote 34. Specifically, like the other products in Underlying Symbol List A, the Exchange proposes to except RUT from the Liquidity Provider Sliding Scale, the Marketing Fee, the Clearing Trading Permit Holder Fee Cap (''Fee Cap'') and exemption from fees for facilitation orders, and the Order Router Subsidy (ORS) and Complex Order Router Subsidy (CORS) Programs. Like all other products in Underlying Symbol List A (with the exception of SROs), the Exchange proposes to apply to RUT the CBOE Proprietary Products Sliding Scale. Unlike the products in Underlying Symbol List A, the Exchange does intend to keep RUT volume in the calculation of qualifying volume for the rebate of Floor Broker Trading Permit fees.

Next, as the Exchange proposes to include RUT in Underlying Symbol List A, the reference to RUT in the ''Index Options Rate Table—All Index Products Excluding Underlying Symbol List A'' table will be deleted and new references to RUT, where applicable, will be added to the ''Specified Proprietary Index Options Rate Table—Underlying Symbol List A'' table. Additionally, the Exchange will add ''RUT'' to the list of products excluded from the Customer section of the Index Options Rate Table. The Exchange also proposes to spell out and add a separate row for the remaining products of Underlying Symbol List A for Broker-Dealers, Non-Trading Permit Holder Market-Makers, Professionals/Voluntary Professionals and Joint Back Offices (''JBOs'') transaction fees.

The Exchange also proposes to amend certain transaction fees for RUT options. Currently, Clearing Trading Permit Holder proprietary (''F'' origin code) and Non-Trading Permit Holder Affiliate (''L'' origin code) RUT transactions are assessed $0.35 per contract for electronic transactions and $0.20 per contract for both manual and Automated Improvement Mechanism (''AIM'') transactions. The Exchange proposes to assess a $0.25 per contract transaction fee for all Clearing Trading Permit Holder and Non-Trading Permit Holder Affiliate transactions, which is the same fee amount assessed to Clearing Trading Permit Holder

---

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b–4.

[3] *See* Securities Exchange Act Release No. 73832 (December 12, 2014), 79 FR 243 (December 18, 2014) (SR–CBOE–2014–092).

proprietary and Non-Trading Permit Holder Affiliate transactions for all products in Underlying Symbol List A.[4] Next, the Exchange notes that currently, RUT is subject to the Liquidity Provider Sliding Scale, which provides for reduced transaction fees for Market-Makers that reach certain volume thresholds in all underlying symbols excluding Underlying Symbol List A and mini-options. As mentioned above, the Liquidity Provider Sliding Scale will no longer apply to RUT as RUT will now be exclusively listed on CBOE (and C2) and part of Underlying Symbol List A. As such, the Exchange proposes to assess Market-Makers $0.20 per contract for all RUT transactions, which is also the same fee amount as applies to Market-Makers for all products in Underlying Symbol List A.

The Exchange also proposes to amend the AIM transaction RUT fees for Broker-Dealers, Non-Trading Permit Holder Market-Makers, Professionals/Voluntary Professionals and Joint Back Offices (''JBOs''). Currently, the Exchange assesses these market participants $0.20 per contract for AIM Agency/Primary transactions and $0.05 per contract for AIM Contra transactions. The Exchange proposes to charge all RUT AIM transactions $0.25 per contract. The current fees of $0.65 per contract for Broker-Dealer, Non-Trading Permit Holder Market-Maker, and JBO electronic RUT transactions and $0.25 per contract for manual transactions are not changing. Currently, Customer transactions are assessed $0.18 per contract for all RUT orders other than AIM Contra orders. AIM Contra transactions are currently assessed $0.05 per contract. The Exchange proposes to increase the AIM Contra fee to $0.18 per contract, so that all Customer transactions will be assessed the same rate (*i.e.,* $0.18). The Exchange notes that Customer AIM orders (both AIM Agency/Primary and Contra) for other Underlying Symbol List A products are also charged the same amount(s) as apply to Customer non-AIM transactions for each respective product.

The Exchange also proposes to apply to RUT, like the other products in Underlying Symbol List A, the Floor Brokerage Fee of $0.04 per contract ($0.02 per contract for crossed orders) (the Floor Brokerage Fee applies only to Floor Brokers, and only for open outcry trading).

Currently, the Exchange assesses an Index License Surcharge for RUT of $0.30 per contract for all non-customer orders. The Exchange now proposes to increase the RUT Surcharge from $0.30 to 0.45 per contract in order to recoup the increased costs associated with the RUT license. The Exchange will still be subsidizing the costs of the RUT license.

Footnote 25, which governs rebates on Floor Broker Trading Permits, currently provides that any Floor Broker that executes a certain average of customer open-outcry contracts per day over the course of a calendar month in all underlying symbols excluding Underlying Symbol List A, DJX, XSP, XSPAM, mini-options and subcabinet trades, will receive a rebate on that Floor Broker's Trading Permit Holder's Floor Broker Trading Permit Fees. The Exchange notes that although RUT is being added to ''Underlying Symbol List A'', it wishes to continue to include RUT in the calculation of the qualifying volume for the rebate of Floor Broker Trading Permit fees. As such, the Exchange seeks to explicitly note in Footnote 25 that RUT will be included in the calculation, notwithstanding its inclusion in Underlying Symbol List A. The Exchange wishes to continue to encourage Floor Brokers to execute open-outcry trades in RUT options and believes that continuing to include RUT in the qualifying volume will provide such incentive. Additionally, the Exchange notes that as discussed above, Floor Brokers will now be assessed floor brokerage fees for RUT, which had not been assessed to them previously.

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the ''Act'') the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.[5] Specifically, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5) [6] requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitation transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.

Additionally, the Exchange believes the proposed rule change is consistent with Section 6(b)(4) of the Act,[7] which requires that Exchange rules provide for the equitable allocation of reasonable dues, fees, and other charges among its Trading Permit Holders and other persons using its facilities.

Particularly, the Exchange believes it is reasonable to charge different fee amounts to different user types in the manner proposed because the proposed fees are consistent with the price differentiation that exists today for other proprietary products. The Exchange also believes that the proposed fee amounts for RUT orders are reasonable because the proposed fee amounts are within the range of amounts assessed for the Exchange's other proprietary products.[8]

The Exchange believes that it is equitable and not unfairly discriminatory to assess lower fees to Customers as compared to other market participants because Customer order flow enhances liquidity on the Exchange for the benefit of all market participants. Specifically, Customer liquidity benefits all market participants by providing more trading opportunities, which attracts Market-Makers. An increase in the activity of these market participants in turn facilitates tighter spreads, which may cause an additional corresponding increase in order flow from other market participants. The fees offered to Customers are intended to attract more Customer trading volume to the Exchange. Moreover, the options industry has a long history of providing preferential pricing to Customers, and the Exchange's current Fees Schedule currently does so in many places, as do the fees structures of many other exchanges. Finally, all fee amounts listed as applying to Customers will be applied equally to all Customers (meaning that all Customers will be assessed the same amount).

The Exchange believes that it is equitable and not unfairly discriminatory to, assess lower fees to Market-Makers as compared to other market participants other than Customers because Market-Makers, unlike other market participants, take on a number of obligations, including quoting obligations, that other market participants do not have. Further, these lower fees offered to Market-Makers are intended to incent Market-Makers to quote and trade more on the Exchange, thereby providing more trading opportunities for all market

[4] The $0.25 per contract fee for Clearing Trading Permit Holders and Non-Trading Permit Holder Affiliates is subject to the applicability of the CBOE Proprietary Products Sliding Scale.

[5] 15 U.S.C. 78f(b).

[6] 15 U.S.C. 78f(b)(5).

[7] 15 U.S.C. 78f(b)(4).

[8] *See* CBOE Fees Schedule, Specified Proprietary Index Options Rate Table.

participants. Additionally, the proposed fee for Market-Makers will be applied equally to all Market-Makers (meaning that all Market-Makers will be assessed the same amount). This concept also applies to orders from all other origins. It should also be noted that all fee amounts described herein are intended to attract greater order flow to the Exchange in RUT, which should therefore serve to benefit all Exchange market participants. Similarly, it is equitable and not unfairly discriminatory to assess lower fees to Clearing Trading Permit Holder Proprietary orders than those of other market participants (except Customers and Market-Makers) because Clearing Trading Permit Holders also have a number of obligations (such as membership with the Options Clearing Corporation), significant regulatory burdens, and financial obligations, that other market participants do not need to take on. The Exchange also notes that the RUT fee amounts for each separate type of market participant will be assessed equally to all such market participants (*i.e.* all Broker-Dealer orders will be assessed the same amount, all Joint Back-Office orders will be assessed the same amount, etc.).

The Exchange believes the proposed changes to AIM transaction fees for Brokers Dealers, Non-Trading Permit Holder Market-Makers, Professionals/Voluntary Professionals, JBOs and Customers are reasonable because the amounts are still lower than assessed for AIM transactions in other proprietary products.[9] The Exchange believes it's equitable and not unfairly discriminatory to assess lower fees for AIM executions as compared to electronic executions because AIM is a price-improvement mechanism, which the Exchange wishes to encourage and support.

Assessing the Floor Brokerage Fee of $0.04 per contract for non-crossed orders and $0.02 per contract for crossed orders to Floor Brokers (and not other market participants) trading RUT orders is equitable and not unfairly discriminatory because only Floor Brokers are statutorily capable of representing orders in the trading crowd, for which they charge a commission. Moreover, this fee is already assessed, in the same amounts, to the other products in Underlying Symbol List A.

Increasing the Index License Surcharge Fee from $0.30 to $0.45 per contract to RUT transactions is reasonable because the Exchange still pays more for the RUT license than the amount of the proposed RUT Index License Surcharge Fee (meaning that the Exchange will be subsidizing the costs of the RUT license). This increase is equitable and not unfairly discriminatory because the increased amount will be assessed to all market participants to whom the RUT Surcharge applies. Not applying the RUT Index License Surcharge Fee to Customer orders is equitable and not unfairly discriminatory because this is designed to attract Customer RUT orders, which increases liquidity and provides greater trading opportunities to all market participants.

Excepting RUT from the Liquidity Provider Sliding Scale, the Marketing Fee, the Fee Cap, and the exemption from fees for facilitation orders is reasonable because other Underlying Symbol List A products (*i.e.,* other products that are exclusively-listed) are excepted from those same items. This is equitable and not unfairly discriminatory for the same reason; it seems equitable to except RUT from items on the Fees Schedule from which other proprietary products are also excepted.

Applying to RUT the CBOE Proprietary Products Sliding Scale is reasonable because it also applies to other Underlying Symbol List A products. This is equitable and not unfairly discriminatory for the same reason; it seems equitable to apply to RUT the same items on the Fees Schedule that apply to Underlying Symbol List A options classes (*i.e.,* proprietary options classes that are not listed on other exchanges).

The Exchange believes it's reasonable, equitable and not unfairly discriminatory to continue to include RUT in the calculation of the qualifying volume for the Floor Broker Trading Permit Fees rebate because the Exchange wishes to support and encourage open-outcry trading of RUT, which allows for price improvement and has a number of positive impacts on the market system.

Finally, the Exchange believes the proposed change to relocate the RUT fees from the ''Index Options Rate Table- All Index Products Excluding Underlying Symbol List A'' to the ''Specified Proprietary Index Options Rate Table- Underlying Symbol List A'' and make other technical conforming changes to the Fees Schedule makes clear to market participants that RUT is now part of Underlying Symbol List A and reduces potential confusion as to which Rate Table applies. The alleviation of potential confusion will remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule changes will impose any burden on competition that are not necessary or appropriate in furtherance of the purposes of the Act. The Exchange does not believe that the proposed rule change will impose any burden on intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act because, while different fees are assessed to different market participants in some circumstances, these different market participants have different obligations and different circumstances as discussed above. For example, Market-Makers have quoting obligations that other market participants do not have.

The Exchange does not believe that the proposed rule changes will impose any burden on intermarket competition that is not necessary or appropriate in furtherance of the purposes of the Act because RUT will now be exclusively listed on CBOE (and C2). To the extent that the proposed changes make CBOE a more attractive marketplace for market participants at other exchanges, such market participants are welcome to become CBOE market participants.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act[10] and paragraph (f) of Rule 19b–4[11] thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule

[9] *Id.*

[11] 17 CFR 240.19b–4(f).

change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (*http://www.sec.gov/rules/sro.shtml*); or
- Send an email to *rule-comments@sec.gov. Please include File Number SR–CBOE–2015–036 on the subject line.*

Paper Comments

- Send paper comments in triplicate to Brent J. Fields, Secretary, Securities and Exchange Commission, 100 F Street NE., Washington, DC 20549–1090.

All submissions should refer to File Number SR–CBOE–2015–036. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (*http://www.sec.gov/rules/sro.shtml*). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for Web site viewing and printing in the Commission's Public Reference Room, 100 F Street NE., Washington, DC 20549 on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR–CBOE–2015–036 and should be submitted on or before May 7, 2015.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[12]

Brent J. Fields,

Secretary.

BILLING CODE 8011–01–P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–74701; File No. SR–NYSEArca–2015–18]

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Filing of Proposed Rule Change Relating to Listing and Trading under NYSE Arca Equities Rule 5.2(j)(3), Commentary .02 of Shares of the Vanguard Tax-Exempt Bond Index Fund

April 10, 2015.

Pursuant to Section 19(b)(1)[1] of the Securities Exchange Act of 1934 (''Act'')[2] and Rule 19b–4 thereunder,[3] notice is hereby given that on April 6, 2015, NYSE Arca, Inc. (''NYSE Arca'' or ''Exchange'') filed with the Securities and Exchange Commission (''Commission'') the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to list and trade under NYSE Arca Equities Rule 5.2(j)(3), Commentary .02, the shares of the Vanguard Tax-Exempt Bond Index Fund. The text of the proposed rule change is available on the Exchange's Web site at *www.nyse.com,* at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to list and trade shares (''Shares'') of the Vanguard Tax-Exempt Bond Index Fund's ETF share class (''Fund'') under NYSE Arca Equities Rule 5.2(j)(3), Commentary .02, which governs the listing and trading of Investment Company Units (''Units'') based on fixed income securities indexes.[4] The Fund is a series of the Vanguard Municipal Bond Funds Trust (''Trust'').[5] The Vanguard Group, Inc.

[4] The Commission previously has approved proposed rule changes relating to listing and trading on the Exchange of Units based on municipal bond indexes. *See* Securities Exchange Act Release Nos. 67985 (October 4, 2012), 77 FR 61804 (October 11, 2012) (SR–NYSEArca–2012–92) (order approving proposed rule change relating to the listing and trading of iShares 2018 S&P AMT-Free Municipal Series and iShares 2019 S&P AMT-Free Municipal Series under NYSE Arca Equities Rule 5.2(j)(3), Commentary .02); 67729 (August 24, 2012), 77 FR 52776 (August 30, 2012) (SR–NYSEArca–2012–92) (notice of proposed rule change relating to the listing and trading of iShares 2018 S&P AMT-Free Municipal Series and iShares 2019 S&P AMT-Free Municipal Series under NYSE Arca Equities Rule 5.2(j)(3), Commentary .02); 71232 (January 3, 2014), 79 FR 1662 (January 9, 2014) (SR–NYSEArca–2013–118) (order approving listing and trading of shares of the Market Vectors Short High-Yield Municipal Index ETF under NYSE Arca Equities Rule 5.2(j)(3), Commentary .02); 72523, (July 2, 2014), 79 FR 39016 (July 9, 2014) (SR–NYSEArca–2014–37) (order approving proposed rule change relating to the listing and trading of iShares 2020 S&P AMT-Free Municipal Series under NYSE Arca Equities Rule 5.2(j)(3), Commentary .02); 72172 (May 15, 2014), 79 FR 29241 (May 21, 2014) (SR–NYSEArca–2014–37) (notice of proposed rule change relating to the listing and trading of iShares 2020 S&P AMT-Free Municipal Series under NYSE Arca Equities Rule 5.2(j)(3), Commentary .02). The Commission also has issued a notice of filing and immediate effectiveness of a proposed rule change relating to listing and trading on the Exchange of shares of the iShares Taxable Municipal Bond Fund. *See* Securities Exchange Act Release No. 63176 (October 25, 2010), 75 FR 66815 (October 29, 2010) (SR–NYSEArca–2010–94). The Commission has approved for Exchange listing and trading of shares of two actively managed funds of the PIMCO ETF Trust that principally hold municipal bonds. *See* Securities Exchange Act Release No. 60981 (November 10, 2009), 74 FR 59594 (November 18, 2009) (SR–NYSEArca–2009–79) (order approving listing and trading of shares of the PIMCO Short-Term Municipal Bond Strategy Fund and PIMCO Intermediate Municipal Bond Strategy Fund). The Commission also has approved listing and trading on the Exchange of shares of the SPDR® Nuveen S&P High Yield Municipal Bond Fund under Commentary .02 of NYSE Arca Equities Rule 5.2(j)(3). *See* Securities Exchange Act Release No. 63881 (February 9, 2011), 76 FR 9065 (February 16, 2011) (SR–NYSEArca–2010–120).

[5] On January 6, 2015, the Trust filed a registration statement on Form N–1A under the Securities Act

Continued

will be the investment adviser to the Fund (''Adviser'').

State Street Bank and Trust Company will serve as custodian for the Fund. Vanguard Marketing Corporation will be the distributor (''Distributor'') for the Fund's Shares.

Principal Investments

According to the Registration Statement, the Fund will seek to track the performance of a benchmark index that measures the investment-grade segment of the U.S. municipal bond market. The Fund will invest by sampling its benchmark index, meaning that it holds a range of securities that, in the aggregate, approximates the full index in terms of key risk factors and other characteristics. All of the Fund's investments will be selected through the sampling process, and, under normal circumstances [6], at least 80% of the Fund's assets will be invested in securities held in its benchmark index. Under normal circumstances, at least 80% of the Fund's income will be exempt from federal income taxes.

The Fund has proposed to use the Standard & Poor's National AMT-Free Municipal Bond Index (''Index'') as its benchmark index.[7] The Index includes municipal bonds from issuers that are primarily state or local governments or agencies whose interest is exempt from U.S. federal income taxes and the federal alternative minimum tax (AMT). To be eligible for inclusion in the Index, each bond must have a rating of at least investment-grade, as determined by a nationally recognized statistical rating organization (*e.g.,* at least BBB- by Fitch Ratings, Inc.); be denominated in U.S. dollars; and have a minimum par amount of $25 million. In addition, to be included in the Index, each bond must have a minimum term to maturity and/or pre-refunded or call date greater than or equal to one calendar month. The following bond types are specifically excluded from the Index: bonds subject to the AMT; commercial paper; derivative securities (inverse floaters, forwards, swaps); housing bonds; insured conduit bonds where the obligor is a for-profit institution; non-insured conduit bonds; non-rated bonds; notes; taxable municipals; tobacco bonds; and variable rate debt. Each bond in the Index must be a constituent of a deal where the deal's original offering amount was at least $100 million. Index constituents normally undergo a review and rebalancing once a month. At each monthly rebalancing, no one issuer can represent more than 25% of the weight of the Index; and individual issuers that represent at least 5% of the weight of the Index cannot account for more than 50% of the weight of the Index in the aggregate.

Non-Principal Investments

While under normal circumstances, at least 80% of the Fund's assets will be invested in securities held in its benchmark index, as described above, the Fund may invest up to 20% of its assets in other securities and financial instruments, as described below.

According to the Registration Statement, up to 20% of the Fund's assets may be used to purchase nonpublic, investment-grade securities, generally referred to as 144A securities, as well as smaller public issues or medium-term notes not included in its benchmark index because of the small size of the issue. The vast majority of these securities will have characteristics and risks similar to those in the benchmark index. Subject to the same 20% limit, the Fund may also purchase other investments that are outside of its benchmark index or may hold bonds that, when acquired, were included in the benchmark index but subsequently were removed.

The Fund may invest in U.S. Treasury futures contracts, exchange-traded and over-the-counter (''OTC'') options on such futures contracts, exchange-traded and OTC fixed income options, centrally cleared and non-centrally cleared interest rate swaps, centrally cleared and non-centrally cleared total return swaps, and centrally cleared and non-centrally cleared credit default swaps.

The Fund may invest in non-investment-grade securities, also referred to as ''high-yield securities'' or ''junk bonds'', which are debt securities that are rated lower than the four highest rating categories by a nationally recognized statistical rating organization (*e.g.,* lower than Baa3/P–2 by Moody's Investors Service, Inc. (Moody's), or below BBB–/A–2 by Standard & Poor's) or, if unrated, are determined to be of comparable quality by the Adviser.

The Fund may invest in variable and floating rate securities, which are debt securities that provide for periodic adjustments in the interest rate paid on the security. Variable rate securities provide for a specified periodic adjustment in the interest rate, while floating rate securities have interest rates that change whenever there is a change in a designated benchmark rate or the issuer's credit quality.

The Fund may purchase shares of exchange-traded funds (''ETFs'') [8], including ETF shares issued by other Vanguard funds.

The Fund may invest in hybrid instruments.[9]

In addition to the municipal securities referenced in the ''Principal Investments'' section above, the Fund may invest in other municipal securities, which are debt obligations issued by states, municipalities, U.S. jurisdictions or territories, and other political subdivisions and by agencies, authorities, and instrumentalities of states and multistate agencies or authorities (collectively, municipalities). Municipal securities also include a variety of structures geared toward accommodating municipal-issuer short-term cash flow requirements. These structures include, but are not limited to, general market notes, commercial paper, put bonds, and variable-rate demand obligations (''VRDOs'').

The Fund may invest in Build America Bonds.

The Fund may purchase certain variable-rate demand-preferred securities (''VRDPs'') issued by closed-end municipal bond funds, which, in turn, invest primarily in portfolios of tax-exempt municipal bonds. The Fund

of 1933 (15 U.S.C. 77a) (''1933 Act'') and the Investment Company Act of 1940 *(''1940 Act'')* (15 U.S.C. 80a–1) (File *Nos.* 2–57689 and 811–02687) (the ''Registration Statement''). The description of the operation of the Trust and the Fund herein is based, in part, on the Registration Statement. In addition, the Commission has issued an order granting certain exemptive relief to the Trust under the 1940 Act. *See* Investment Company Act Release No. 27773 (April 2, 2007) (File No. 812–13336) (''Exemptive Order'').

[6] The term ''under normal circumstances'' includes, but is not limited to, the absence of extreme volatility or trading halts in the fixed income markets or the financial markets generally; operational issues causing dissemination of inaccurate market information; or force majeure type events such as systems failure, natural or man-made disaster, act of God, armed conflict, act of terrorism, riot or labor disruption or any similar intervening circumstance.

[7] S&P Dow Jones Indices (''S&P'') is the ''Index Provider'' with respect to the Index. The Index Provider is not a broker-dealer or affiliated with a broker-dealer and has implemented procedures designed to prevent the use and dissemination of material, non-public information regarding the Index.

[8] For purposes of this filing, ETFs include Investment Company Units (as described in NYSE Arca Equities Rule 5.2(j)(3)); Portfolio Depositary Receipts (as described in NYSE Arca Equities Rule 8.100); and Managed Fund Shares (as described in NYSE Arca Equities Rule 8.600). The ETFs all will be listed and traded in the U.S. on national securities exchanges. While the Fund may invest in inverse ETFs, the Fund will not invest in leveraged or inverse leveraged ETFs (*e.g.,* 2X or 3X).

[9] According to the Registration Statement, a hybrid instrument is an interest in an issuer that combines the characteristics of an equity security, a debt security, a commodity, and/or a derivative. Examples of hybrid instruments include exchange-traded or OTC convertible securities, contingent convertible securities; trust-preferred securities, and commodity-linked bonds.

may invest in securities issued by single-state or national closed-end municipal bond funds. VRDPs are issued by closed-end funds to leverage returns for common shareholders.

The Fund may participate in tender option bond programs, which are a type of municipal bond derivative structure, which is taxed as a partnership for federal income tax purposes. These programs provide for tax-exempt income at a variable rate. In such programs, high-quality longer-term municipal bonds are held inside a trust and varying economic interests in the bonds are created and sold to investors.

Investment Restrictions

The Fund may invest in other investment companies to the extent permitted by applicable law or Commission exemption and consistent with Section 12(d)(1) of the 1940 Act.

The Fund may hold up to an aggregate amount of 15% of its net assets in illiquid assets (calculated at the time of investment), including Rule 144A securities deemed illiquid by the Adviser, in accordance with Commission guidance.[10] The Fund will monitor its portfolio liquidity on an ongoing basis to determine whether, in light of current circumstances, an adequate level of liquidity is being maintained, and will consider taking appropriate steps in order to maintain adequate liquidity if, through a change in values, net assets, or other circumstances, more than 15% of the Fund's net assets are held in illiquid securities. Illiquid securities include securities subject to contractual or other restrictions on resale and other instruments that lack readily available markets as determined in accordance with Commission staff guidance.[11]

The Fund is classified as diversified within the meaning of the 1940 Act.[12]

The Fund intends to maintain the required level of diversification and otherwise conduct its operations so as to qualify as a ''regulated investment company'' for purposes of the Internal Revenue Code of 1986.[13]

The Exchange is submitting this proposed rule change because the Index for the Fund does not meet all of the ''generic'' listing requirements of Commentary .02(a) to NYSE Arca Equities Rule 5.2(j)(3) applicable to the listing of Units based on fixed income securities indexes. The Index meets all such requirements except for those set forth in Commentary .02(a)(2).[14] Specifically, as of February 7, 2015, 33.69% of the weight of the Index components have a minimum original principal amount outstanding of $100 million or more.

As of February 7, 2015, 98.72% of the weight of the Index components was composed of individual maturities that were part of an entire municipal bond offering with a minimum original principal amount outstanding of $100 million or more for all maturities of the offering. In addition, the total dollar amount outstanding of issues in the Index was approximately $2.424 billion and the average dollar amount outstanding of issues in the Index was approximately $60 million. Further, the most heavily weighted component represents 0.27% of the weight of the Index and the five most heavily weighted components represent 0.96% of the weight of the Index.[15] In addition, the average daily notional trading volume for Index components for the period from January 2, 2014 to December 31, 2014 was $1,272,356,609 and the sum of the notional trading volumes for the same period was $318,089,152,147.

Therefore, the Exchange believes that, notwithstanding that the Index does not satisfy the criterion in NYSE Arca Equities Rule 5.2(j)(3), Commentary .02 (a)(2), the Index is sufficiently broad-based to deter potential manipulation, given that it is composed of approximately 10,015 issues and 969 unique issuers. In addition, the Index securities are sufficiently liquid to deter potential manipulation in that a substantial portion (98.72%) of the Index weight is composed of maturities that are part of an entire municipal bond offering with a minimum original principal amount outstanding of $100 million or more, and in view of the substantial total dollar amount outstanding and the average dollar amount outstanding of Index issues, as referenced above.

Purchase and Issuance of Shares in Creation Units

The Fund will issue and sell Shares only in ''Creation Units'' through the Distributor, without a sales load, at its net asset value (''NAV'') next determined after receipt of an order in proper form on any business day.

The consideration for purchase of a Creation Unit from the Fund generally will consist of the in-kind deposit of a designated portfolio of securities (Deposit Securities) and an amount of cash (''Cash Component'') consisting of a purchase balancing amount and a transaction fee (both described in the following paragraphs). Together, the Deposit Securities and the Cash Component constitute the ''Fund Deposit''.

The purchase balancing amount is an amount equal to the difference between the NAV of a Creation Unit and the market value of the Deposit Securities (Deposit Amount). It ensures that the NAV of a Fund Deposit (not including the transaction fee) is identical to the NAV of the Creation Unit it is used to purchase. If the purchase balancing amount is a positive number (*i.e.,* the NAV per Creation Unit exceeds the market value of the Deposit Securities), then that amount will be paid by the purchaser to the Fund in cash. If the purchase balancing amount is a negative number (*i.e.,* the NAV per Creation Unit is less than the market value of the Deposit Securities), then that amount will be paid by the Fund to the purchaser in cash (except as offset by the transaction fee).

Vanguard, through the National Securities Clearing Corporation (''NSCC''), will make available after the close of each business day a list of the names and the number of shares of each Deposit Security to be included in the next business day's Fund Deposit for the Fund (subject to possible amendment or correction). The Fund reserves the right

[10] Several factors considered in monitoring illiquidity determinations include the valuation of a security; the availability of qualified institutional buyers, brokers, and dealers that trade in the security; and the availability of information about the security's issuer.

[11] The Commission has stated that long-standing Commission guidelines have required open-end funds to hold no more than 15% of their net assets in illiquid securities and other illiquid assets. *See* Investment Company Act Release No. 28193 (March 11, 2008), 73 FR 14618 (March 18, 2008), footnote 34. *See also,* Investment Company Act Release No. 5847 (October 21, 1969), 35 FR 19989 (December 31, 1970) (Statement Regarding ''Restricted Securities''); Investment Company Act Release No. 18612 (March 12, 1992), 57 FR 9828 (March 20, 1992) (Revisions of Guidelines to Form N–1A). A fund's portfolio security is illiquid if it cannot be disposed of in the ordinary course of business within seven days at approximately the value ascribed to it by the fund. *See* Investment Company Act Release No. 14983 (March 12, 1986), 51 FR 9773 (March 21, 1986) (adopting amendments to Rule 2a–7 under the 1940 Act); Investment Company Act Release No. 17452 (April 23, 1990), 55 FR 17933 (April 30, 1990) (adopting Rule 144A under the 1933 Act).

[12] The diversification standard is set forth in Section 5(b)(1) of the 1940 Act.

[13] 26 U.S.C. 851.

[14] Commentary .02(a)(2) to NYSE Arca Equities Rule 5.2(j)(3) provides that components that in the aggregate account for at least 75% of the weight of the index or portfolio each shall have a minimum original principal amount outstanding of $100 million or more.

[15] Commentary .02(a)(4) to NYSE Arca Equities Rule 5.2(j)(3) provides that no component fixed-income security (excluding Treasury Securities and GSE Securities, as defined therein) shall represent more than 30% of the weight of the index or portfolio, and the five most heavily weighted component fixed-income securities in the index or portfolio shall not in the aggregate account for more than 65% of the weight of the index or portfolio.

to accept a nonconforming Fund Deposit.

The identity and number of shares of the Deposit Securities required for a Fund Deposit may change from one day to another to reflect rebalancing adjustments, corporate actions, and interest payments on underlying bonds or to respond to adjustments to the weighting or composition of the component securities of the Index.

In addition, the Fund reserves the right to permit or require the substitution of an amount of cash—referred to as ''cash-in-lieu''—to be added to the Cash Component to replace any Deposit Security. This might occur, for example, if a Deposit Security is not available in sufficient quantity for delivery, is not eligible for transfer through the applicable clearance and settlement system, or is not eligible for trading by an ''Authorized Participant'' or the investor for which an Authorized Participant is acting.

To initiate a purchase order for a Creation Unit, an Authorized Participant must submit an order in proper form to the Distributor and such order must be received by the Distributor prior to the closing time of regular trading of the New York Stock Exchange (''NYSE'') (Closing Time) (ordinarily 4 p.m. Eastern time) to receive that day's NAV. Authorized Participants must transmit orders using a transmission method acceptable to the Distributor pursuant to procedures set forth in the ''Participant Agreement''.

Redemption of Shares in Creation Units

Redemption orders must be placed by an Authorized Participant. Shares may be redeemed only in Creation Units.

Unless cash redemptions are available or specified for the Fund, an investor tendering a Creation Unit generally will receive redemption proceeds consisting of (1) a basket of ''Redemption Securities''; plus (2) a redemption balancing amount in cash equal to the difference between (x) the NAV of the Creation Unit being redeemed, as next determined after receipt of a request in proper form, and (y) the value of the Redemption Securities; less (3) a transaction fee. If the Redemption Securities have a value greater than the NAV of a Creation Unit, the redeeming investor will pay the redemption balancing amount in cash to the Fund rather than receive such amount from the Fund.

Vanguard, through the NSCC, will make available after the close of each business day a list of the names and the number of shares of each Redemption Security to be included in the next business day's redemption basket for the Fund (subject to possible amendment or correction). The basket of Redemption Securities provided to an investor redeeming a Creation Unit may not be identical to the basket of Deposit Securities required of an investor purchasing a Creation Unit. If the Fund and a redeeming investor mutually agree, the Fund may provide the investor with a basket of Redemption Securities that differs from the composition of the redemption basket published through the NSCC.

The Fund reserves the right to deliver cash in lieu of any Redemption Security for the same reason it might accept cash in lieu of a Deposit Security, or if the Fund could not lawfully deliver the security or could not do so without first registering such security under federal or state law.

If an Authorized Participant, or a redeeming investor acting through an Authorized Participant, is subject to a legal restriction with respect to a particular security included in the basket of Redemption Securities, such investor may be paid an equivalent amount of cash in lieu of the security.

The right of redemption may be suspended or the date of payment postponed with respect to the Fund (1) for any period during which the NYSE or the Exchange is closed (other than customary weekend and holiday closings), (2) for any period during which trading on the NYSE or the Exchange is suspended or restricted, (3) for any period during which an emergency exists as a result of which disposal of the Fund's portfolio securities or determination of its NAV is not reasonably practical, or (4) in such other circumstances as the Commission permits.

A creation and redemption transaction fee will be imposed to offset transfer and other transaction costs that may be incurred by the Fund.

The Exchange represents that: (1) Except for Commentary .02(a)(2) to NYSE Arca Equities Rule 5.2(j)(3), the Shares of the Fund currently satisfy all of the generic listing standards under NYSE Arca Equities Rule 5.2(j)(3); (2) the continued listing standards under NYSE Arca Equities Rules 5.2(j)(3) and 5.5(g)(2) applicable to Units shall apply to the Shares; and (3) the Trust is required to comply with Rule 10A–3 under the Act [16] for the initial and continued listing of the Shares. In addition, the Exchange represents that the Shares will comply with all other requirements applicable to Units including, but not limited to, requirements relating to the dissemination of key information such as the value of the Index and the applicable Intraday Indicative Value (''IIV''),[17] rules governing the trading of equity securities, trading hours, trading halts, surveillance, and the Information Bulletin to Equity Trading Permit Holders (''ETP Holders''), as set forth in Exchange rules applicable to Units and prior Commission orders approving the generic listing rules applicable to the listing and trading of Units.[18]

The current value of the Index will be widely disseminated by one or more major market data vendors at least once per day, as required by NYSE Arca Equities Rule 5.2(j)(3), Commentary .02 (b)(ii). The IIV for Shares of the Fund will be disseminated by one or more major market data vendors, updated at least every 15 seconds during the Exchange's Core Trading Session, as required by NYSE Arca Equities Rule 5.2(j)(3), Commentary .02(c).

The Index value, calculated and disseminated at least once daily, as well as the components of the Index and their percentage weighting, will be available from major market data vendors. In addition, as disclosed in the Registration Statement, the portfolio of securities held by the Fund will be disclosed monthly on the Fund's Web site at *www.vanguard.com.*

2. Statutory Basis

The basis under the Act for this proposed rule change is the requirement under Section 6(b)(5)[19] that an exchange have rules that are designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to, and perfect the mechanism of a free and open market and, in general, to protect investors and the public interest.

The Exchange believes that the proposed rule change is designed to prevent fraudulent and manipulative acts and practices in that the Shares will

[16] 17 CFR 240.10A–3.

[17] The IIV will be widely disseminated by one or more major market data vendors at least every 15 seconds during the Exchange's Core Trading Session of 9:30 a.m. to 4:00 p.m., Eastern time. Currently, it is the Exchange's understanding that several major market data vendors display and/or make widely available IIVs *taken from* the Consolidated Tape Association (''CTA'') or other data feeds.

[18] *See, e.g.,* Securities Exchange Act Release Nos. 55783 (May 17, 2007), 72 FR 29194 (May 24, 2007) (SR–NYSEArca–2007–36) (order approving NYSE Arca generic listing standards for Units based on a fixed income index); 44551 (July 12, 2001), 66 FR 37716 (July 19, 2001) (SR–PCX–2001–14) (order approving generic listing standards for Units and Portfolio Depositary Receipts); 41983 (October 6, 1999), 64 FR 56008 (October 15, 1999) (SR–PCX–98–29) (order approving rules for listing and trading of Units).

[19] 15 U.S.C. 78f(b)(5).

be listed and traded on the Exchange pursuant to the initial and continued listing criteria in NYSE Arca Equities Rule 5.2(j)(3). The Exchange represents that trading in the Shares will be subject to the existing trading surveillances, administered by the Financial Industry Regulatory Authority (''FINRA'') on behalf of the Exchange, which are designed to detect violations of Exchange rules and applicable federal securities laws.[20] The Exchange represents that these procedures are adequate to properly monitor Exchange trading of the Shares in all trading sessions and to deter and detect violations of Exchange rules and federal securities laws applicable to trading on the Exchange. The surveillances referred to above generally focus on detecting securities trading outside their normal patterns, which could be indicative of manipulative or other violative activity. When such situations are detected, surveillance analysis follows and investigations are opened, where appropriate, to review the behavior of all relevant parties for all relevant trading violations. FINRA, on behalf of the Exchange, will communicate as needed regarding trading in the Shares with other markets that are members of the Intermarket Surveillance Group (''ISG'') or with which the Exchange has in place a comprehensive surveillance sharing agreement. FINRA also can access data obtained from the Municipal Securities Rulemaking Board relating to municipal bond trading activity for surveillance purposes in connection with trading in the Shares. The Index Provider is not a broker-dealer or affiliated with a broker-dealer and has implemented procedures designed to prevent the use and dissemination of material, non-public information regarding the Index. As of February 7, 2015, there were approximately 10,015 issues in the Index. The Index meets all such requirements except for those set forth in Commentary .02(a)(2).[21] Specifically, as of February 7, 2015, 33.69% of the weight of the Index components have a minimum original principal amount outstanding of $100 million or more.

As of February 7, 2015, 98.72% of the weight of the Index components was composed of individual maturities that were part of an entire municipal bond offering with a minimum original principal amount outstanding of $100 million or more for all maturities of the offering. In addition, the total dollar amount outstanding of issues in the Index was approximately $2.424 billion and the average dollar amount outstanding of issues in the Index was approximately $60 million. Further, the most heavily weighted component represents 0.27% of the weight of the Index and the five most heavily weighted components represent 0.96% of the weight of the Index.[22] Therefore, the Exchange believes that, notwithstanding that the Index does not satisfy the criterion in NYSE Arca Equities Rule 5.2(j)(3), Commentary .02 (a)(2), the Index is sufficiently broad-based to deter potential manipulation, given that it is composed of approximately 10,015 issues and 969 unique issuers. The Index securities are sufficiently liquid to deter potential manipulation in that a substantial portion (98.72%) of the Index weight is composed of maturities that are part of an entire municipal bond offering with a minimum original principal amount outstanding of $100 million or more, and in view of the substantial total dollar amount outstanding and the average dollar amount outstanding of Index issues, as referenced above. In addition, the average daily notional trading volume for Index components for the period from January 2, 2014 to December 31, 2014 was $1,272,356,609 and the sum of the notional trading volumes for the same period was $318,089,152,147.

The Index value, calculated and disseminated at least once daily, as well as the components of the Index and their respective percentage weightings, will be available from major market data vendors. In addition, as disclosed in the Registration Statement, the portfolio of securities held by the Fund will be disclosed on the Fund's Web site. The IIV for Shares of the Fund will be disseminated by one or more major market data vendors, updated at least every 15 seconds during the Exchange's Core Trading Session. The Adviser represents that, within a single municipal bond issuer, separate issues by the same issuer are also likely to trade similarly to one another. In addition, the Adviser represents that individual CUSIPs within the Index that share characteristics with other CUSIPs have a high yield to maturity correlation, and frequently have a correlation of one or close to one.

The proposed rule change is designed to promote just and equitable principles of trade and to protect investors and the public interest. In addition, a large amount of information is publicly available regarding the Fund and the Shares, thereby promoting market transparency. As disclosed in the Registration Statement, the Fund's portfolio holdings will be periodically disclosed on the Fund's Web site. Moreover, the IIV will be widely disseminated by one or more major market data vendors at least every 15 seconds during the Exchange's Core Trading Session. The current value of the Index will be disseminated by one or more major market data vendors at least once per day. Information regarding market price and trading volume of the Shares will be continually available on a real-time basis throughout the day on brokers' computer screens and other electronic services, and quotation and last sale information will be available via the CTA high-speed line. The Web site for the Fund will include the prospectus for the Fund and additional data relating to NAV and other applicable quantitative information. Moreover, prior to the commencement of trading, the Exchange will inform its ETP Holders in an Information Bulletin of the special characteristics and risks associated with trading the Shares. If the Exchange becomes aware that the NAV is not being disseminated to all market participants at the same time, it will halt trading in the Shares until such time as the NAV is available to all market participants. With respect to trading halts, the Exchange may consider all relevant factors in exercising its discretion to halt or suspend trading in the Shares of the Fund. Trading also may be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in the Shares inadvisable. If the IIV or the Index values are not being disseminated as required, the Corporation may halt trading during the day in which the interruption to the dissemination of the applicable IIV or Index value occurs. If the interruption to the dissemination of the applicable IIV or Index value persists past the trading day in which it occurred, the Corporation will halt trading. Trading in Shares of the Fund will be halted if the circuit breaker parameters in NYSE Arca Equities Rule 7.12 have been reached or because of market conditions or for reasons that, in the view of the Exchange, make trading in the Shares inadvisable, and trading in the Shares will be subject to NYSE Arca Equities Rule 7.34, which sets forth circumstances under which Shares of the Fund may be halted. In addition, investors will have ready access to information regarding the IIV, and

[20] FINRA surveils trading on the Exchange pursuant to a regulatory services agreement. The Exchange is responsible for FINRA's performance under this regulatory services agreement.

[21] *See* note 14, *supra.*

[22] *See* note 15, *supra.*

quotation and last sale information for the Shares.

The proposed rule change is designed to perfect the mechanism of a free and open market and, in general, to protect investors and the public interest in that it will facilitate the listing and trading of an additional type of exchange-traded product that invests principally in municipal securities and that will enhance competition among market participants, to the benefit of investors and the marketplace. As noted above, the Exchange has in place surveillance procedures relating to trading in the Shares and may obtain information via ISG from other exchanges that are members of ISG or with which the Exchange has entered into a comprehensive surveillance sharing agreement. In addition, investors will have ready access to information regarding the IIV and quotation and last sale information for the Shares.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Act. The Exchange notes that the proposed rule change will facilitate the listing and trading of an additional type of exchange-traded product that invests principally in municipal securities and that will enhance competition among market participants, to the benefit of investors and the marketplace.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or up to 90 days (i) as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve or disapprove the proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (*http://www.sec.gov/rules/sro.shtml*); or
- Send an email to *rule-comments@sec.gov*. Please include File Number SR–NYSEArca–2015–18 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE., Washington, DC 20549–1090.

All submissions should refer to File Number SR–NYSEArca–2015–18. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (*http://www.sec.gov/rules/sro.shtml*). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for Web site viewing and printing in the Commission's Public Reference Room, 100 F Street NE., Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of such filing also will be available for inspection and copying at the principal offices of the Exchange and on its Internet Web site at *www.nyse.com*. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR–NYSEArca–2015–18, and should be submitted on or before May 7, 2015.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[23]

Brent J. Fields,

Secretary.

BILLING CODE 8011–01–P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–74713; File No. SR–OCC–2014–811]

Self-Regulatory Organizations; The Options Clearing Corporation; Notice of Filing of Amendment No. 2 to an Advance Notice Concerning the Monthly Resizing of the Clearing Fund and the Addition of Financial Resources

April 10, 2015.

Pursuant to section 806(e)(1) of title VIII of the Dodd-Frank Wall Street Reform and Consumer Protection Act, entitled the Payment, Clearing, and Settlement Supervision Act of 2010[1] (''Payment, Clearing and Settlement Supervision Act'') and Rule 19b–4(n)(1)(i) under the Securities Exchange Act of 1934 (''Exchange Act''),[2] notice is hereby given that on March 4, 2015, The Options Clearing Corporation (''OCC'') filed with the Securities and Exchange Commission (''Commission'') Amendment no. 2 to the advance notice (''Amendment No. 2'') as described in Items I, II and III below, which Items have been prepared by OCC. On December 1, 2014, OCC originally filed the advance notice with the Commission. On December 16, 2014, OCC filed Amendment No.1 to the advance notice (''Amendment No. 1''), which amended and replaced, in its entirety, the advance notice as originally filed on December 1, 2014.[3] Amendment No. 1 to the advance notice was published for comment in the **Federal Register** on January 26, 2015.[4]

---

[23] 17 CFR 200.30–3(a)(12).

[1] 12 U.S.C. 5465(e)(1).

[2] 17 CFR 240.19b–4(n)(1)(i).

[3] In Amendment No. 1, OCC amended the advance notice to include the Monthly Clearing Fund Sizing Procedure and the Financial Resource Monitoring and Call Procedure as exhibits to the filing, both defined hereinafter, as Exhibit 5A and Exhibit 5B, respectively. OCC has requested confidential treatment for Exhibit 5A, Exhibit 5B, and Exhibit 5C, referred to hereinafter, pursuant to Exchange Act Rule 24b–2.

[4] Securities Exchange Act Release No. 74091 (January 20, 2015), 80 FR 4001 (January 26, 2015) (File No. SR–OCC–2014–811). OCC also filed the proposal contained in the advance notice, and Amendment No. 1 thereto, as a proposed rule change, and subsequent amendment no. 1 thereto, under section 19(b)(1) of the Exchange Act and Rule 19b–4 thereunder. *See* Securities Exchange Act

The Commission did not receive any comments on Amendment No. 1 to the advance notice. Amendment No. 2 to the advance notice amends and replaces, in its entirety, Amendment No. 1 to the advance notice. The Commission is publishing this notice to solicit comments on Amendment No. 2 from interested persons.

I. Clearing Agency's Statement of the Terms of Substance of the Advance Notice

This advance notice is filed by OCC in connection with OCC's proposal to establish procedures regarding the monthly resizing of its Clearing Fund and the addition of financial resources through intra-day margin calls and/or an intra-month increase of the Clearing Fund to ensure that it maintains adequate financial resources in the event of a default of a Clearing Member or group of affiliated Clearing Members presenting the largest exposure to OCC.

This Amendment No. 2 to SR–OCC–2014–811 (SR–OCC–2014–811 is hereinafter defined as the ''Filing'') amends and replaces in its entirety the Filing as originally submitted on December 1, 2014, and amended on December 16, 2014. The purpose of this Amendment No. 2 is to clarify the operation of a Margin Call Event in the period of time between the calculation of the next month's Clearing Fund Sizing and the collection of the funds pursuant to the Clearing Fund Sizing. Specifically, the amendment clarifies that: (i) Funds deposited by a clearing member pursuant to a Margin Call Event are considered in aggregate with other funds remaining on deposit with OCC by the same Clearing Member pursuant to a separate Margin Call Event within the same monthly period, as applicable; and (ii) funds deposited by a clearing member pursuant to a Margin Call Event(s) may not be withdrawn until OCC collects all funds to satisfy the next regular monthly Clearing Fund resizing. OCC is also proposing amendments that clarify the definition of ''Financial Resources'' within the Filing. A restated description of the purpose of the proposed rule change is below. In addition, conforming changes were made to Exhibit 5B, the Financial Resources Monitoring and Call Procedure, which is attached hereto. Further, OCC is proposing to add the Clearing Fund Intra-Month Re-Sizing Procedure, as Exhibit 5C to the Filing, through this Amendment No. 2. The Clearing Fund Intra-Month Re-Sizing Procedure would provide additional clarity regarding the resizing process discussed above.

Release No. 73853 (December 16, 2014), 79 FR 76417 (December 22, 2014) (File No. SR–OCC–2014–22). The Commission did not receive any comments on the proposed rule change.

II. Clearing Agency's Statement of the Purpose of, and Statutory Basis for, the Advance Notice

In its filing with the Commission, OCC included statements concerning the purpose of and basis for the advance notice and discussed any comments it received on the advance notice. The text of these statements may be examined at the places specified in Item IV below. OCC has prepared summaries, set forth in sections (A) and (B) below, of the most significant aspects of these statements.

(A) Clearing Agency's Statement on Comments on the Advance Notice Received From Members, Participants or Others

Written comments on the advance notice were not and are not intended to be solicited with respect to the advance notice and none have been received.

(B) Advance Notices Filed Pursuant to Section 806(e) of the Payment, Clearing and Settlement Supervision Act

The proposed change would establish new procedures regarding the monthly resizing of the Clearing Fund and the addition of financial resources through intra-day margin calls and/or an intra-month increase of the Clearing Fund to ensure that OCC maintains adequate Financial Resources in the event of a default of a Clearing Member or group of affiliated Clearing Members presenting the largest exposure to OCC.

Purpose of the Proposed Change

The proposed change is intended to describe the situations in which OCC would exercise authority under its Rules to ensure that it maintains adequate Financial Resources [5] in the event that stress tests reveal a default of the Clearing Member or Clearing Member Group [6] presenting the largest exposure would threaten the then-current Financial Resources. This proposed change would establish procedures governing: (i) OCC's resizing of the Clearing Fund on a monthly basis pursuant to Rule 1001(a) (the ''Monthly Clearing Fund Sizing Procedure''); and (ii) the addition of Financial Resources through an intra-day margin call on one or more Clearing Members under Rule 609 and, if necessary, an intra-month increase of the Clearing Fund pursuant to Rule 1001(a) (the ''Financial Resource Monitoring and Call Procedure'').[7] The Monthly Clearing Fund Sizing Procedure would permit OCC to determine the size of the Clearing Fund by relying on a broader range of sound risk management practices than those historically used under Rule 1001(a).[8] The Financial Resource Monitoring and Call Procedure would require OCC to collect additional Financial Resources in certain circumstances, establish how OCC calculates and collects such resources and provide the timing by which such resources would be required to be deposited by Clearing Members.

Background

OCC monitors the sufficiency of the Clearing Fund on a daily basis but, prior to emergency action taken on October 15, 2014,[9] OCC had no express authority to increase the size of the Clearing Fund on an intra-month basis.[10] During ordinary course daily monitoring on October 15, 2014, and as a result of increased volatility in the financial markets in October 2014, OCC determined that the Financial Resources needed to cover the potential loss associated with a default of the Clearing Member or Clearing Member Group presenting the largest exposure could

[5] ''Financial Resources'' means, with respect to a projected loss attributable to a particular Clearing Member or Clearing Member Group, as defined below, the sum of the margin deposits (less any excess margin a Clearing Member or Clearing Member Group may have on deposit at OCC) and deposits in lieu of margin in respect of such Clearing Members' or Clearing Member Groups' accounts, and the value of OCC's Clearing Fund, including both the Base Amount, as defined below, and the prudential margin of safety, as discussed below.

[6] ''Clearing Member Group'' means a Clearing Member and any affiliated entities that control, are controlled by or are under common control with such Clearing Member. *See* OCC By-Laws, Article I, sections 1.C.(15) and 1.M(11).

[7] This advance notice filing has also been filed as a proposed rule change (SR–OCC–2014–22).

[8] The procedures described herein would be in effect until the development of a new standard Clearing Fund sizing methodology. Following such development, which will include a quantitative approach to calculating the ''prudential margin of safety,'' as discussed below, OCC will file a separate rule change and advance notice with the Commission that will include a description of the new methodology as well as a revised Monthly Clearing Fund Sizing Procedure.

[9] On October 16, 2014, OCC filed an emergency notice with the Commission to suspend the effectiveness of the second sentence of Rule 1001(a). *See* Securities Exchange Act Release No. 73579 (November 12, 2014), 79 FR 68747 (November 18, 2014) (SR–OCC–2014–807). On November 13, 2014, OCC filed SR–OCC–2014–21 with the Commission to delete the second sentence of Rule 1001(a), preserving the suspended effectiveness of that sentence until such time as the Commission approves or disapproves SR–OCC–2014–21. *See* Securities Exchange Act Release No. 73685 (November 25, 2014), 79 FR 71479 (December 2, 2014), (SR–OCC–2014–21).

[10] *See* OCC Rule 1001(a).

have exceeded the Financial Resources then available to apply to such a default.

To permit OCC to increase the size of its Clearing Fund prior to the next monthly resizing that was scheduled to take place on the first business day of November 2014, OCC's Executive Chairman, on October 15, 2014, exercised certain emergency powers as set forth in Article IX, section 14 of OCC's By-Laws [11] to waive the effectiveness of the second sentence of Rule 1001(a), which states that OCC will adjust the size of the Clearing Fund monthly and that any resizing will be based on data from the preceding month. OCC then filed an emergency notice with the Commission pursuant to section 806(e)(2) of the Payment, Clearing and Settlement Supervision Act of 2010 [12] and increased the Clearing Fund size for the remainder of October 2014 as otherwise provided for in the first sentence of Rule 1001(a).[13]

Clearing Members were informed of the action taken by the Executive Chairman [14] and the amount of their additional Clearing Fund requirements, which were met without incident. As a result of these actions, OCC's Clearing Fund for October 2014 was increased by $1.8 billion. In continued reliance on the emergency rule waiver and in accordance with the first sentence of Rule 1001(a), OCC set the November 2014 Clearing Fund size at $7.8 billion, which included an amount determined by OCC to be sufficient to protect OCC against loss under simulated default scenarios (*i.e.,* $6 billion), plus a prudential margin of safety (the additional $1.8 billion collected in October).[15] All required contributions to the November 2014 Clearing Fund were met by affected Clearing Members.

Under Article IX, section 14(c), absent the submission of a proposed rule change to the Commission seeking approval of OCC's waiver of the provisions of the second sentence of Rule 1001(a), such waiver would not be permitted to continue for more than thirty calendar days from the date thereof.[16] Accordingly, on November 13, 2014, OCC submitted SR–OCC–2014–21 to delete the second sentence of Rule 1001(a) and, by the terms of Article IX, section 14(c), preserve the suspended effectiveness of the second sentence of Rule 1001(a) beyond thirty calendar days.[17]

SR–OCC–2014–21 was submitted in part to permit OCC to determine the size of its Clearing Fund by relying on a broader range of sound risk management practices than considered in basing such size on the average daily calculations under Rule 1001(a) that are performed during the preceding calendar month. The Monthly Clearing Fund Sizing Procedure, as described below, is based on such broader risk management practices and establishes the procedures OCC would use to determine the size of the Clearing Fund on a monthly basis. Similarly, SR–OCC–2014–21 was submitted in part to permit OCC to resize the Clearing Fund more frequently than monthly when the circumstances warrant an increase of the Clearing Fund. The Financial Resource Monitoring and Call Procedure, as described below, establishes the procedures that OCC would use to add Financial Resources through an intra-day margin call on one or more Clearing Members under Rule 609 and, if necessary, an intra-month increase of the Clearing Fund pursuant to Rule 1001(a).[18]

Monthly Clearing Fund Sizing Procedure

Under the Monthly Clearing Fund Sizing Procedure, OCC would continue to calculate the size of the Clearing Fund based on its daily stress test exposures under simulated default scenarios as described in the first sentence of Rule 1001(a) and resize the Clearing Fund on the first business day of each month. However, instead of resizing the Clearing Fund based on the average of the daily calculations during the preceding calendar month, as stated in the suspended second sentence of Rule 1001, OCC would resize the Clearing Fund so that it is the sum of: (i) An amount equal to the peak five-day rolling average of Clearing Fund draws observed over the preceding three calendar months of daily idiosyncratic default and minor systemic default scenario calculations based on OCC's daily Monte Carlo simulations (''Base Amount'') and (ii) a prudential margin of safety determined by OCC and currently set at $1.8 billion.[19]

OCC believes that the proposed Monthly Clearing Fund Sizing Procedure provides a sound and prudent approach to ensure that the Financial Resources are adequate to protect against the largest risk of loss presented by the default of a Clearing Member or Clearing Member Group. By virtue of using only the peak five-day rolling average and by extending the look-back period, the proposed Monthly Clearing Fund Sizing Procedure is both more responsive to sudden increases in exposure and less susceptible to recently observed decreases in exposure that would reduce the overall sizing of the Clearing Fund, thus mitigating procyclicality.[20] Furthermore, the prudential margin of safety provides an additional buffer to absorb potential future exposures not previously observed during the look-back period. The proposed Monthly Clearing Fund Sizing Procedure would be supplemented by the Financial Resource Monitoring and Call Procedure, described below, to provide further assurance that the Financial Resources are adequate to protect against such risk of loss.

Financial Resource Monitoring and Call Procedure

Under the Financial Resource Monitoring and Call Procedure, OCC would use the same daily idiosyncratic default calculation as under the Monthly Clearing Fund Sizing Procedure to monitor daily the adequacy of the Financial Resources to withstand a default by the Clearing Member or Clearing Member Group presenting the largest exposure under

---

[11] OCC also has submitted an advance notice that would provide greater detail concerning conditions under which OCC would increase the size of the Clearing Fund intra-month. The change would permit an intra-month increase in the event that the five-day rolling average of projected draws are 150% or more of the Clearing Fund's then current size. *See* Securities Exchange Act Release No. 72804 (August 11, 2014), 79 FR 48276 (August 15, 2014) (SR–OCC–2014–804).

[13] *See supra,* note 10.

[14] *See* Information Memorandum #35397, dated October 16, 2014, available on OCC's Web site, *http://www.theocc.com/clearing/clearing-infomemos/infomemos1.jsp.* Clearing members also were informed that a prudential margin of safety of $1.8 billion would be retained until a new Clearing Fund sizing formula has been approved and implemented.

[15] *See* Information Memorandum #35507, dated October 31, 2014, available on OCC's Web site, *http://www.theocc.com/clearing/clearing-infomemos/infomemos1.jsp.*

[16] *See* OCC By-Laws, Article IX, section 14(c).

[17] *See supra,* note 10. OCC also submitted this proposed rule change to the Commodity Futures Trading Commission.

[18] As noted in SR–OCC–2014–21, OCC would use its intra-month resizing authority only to increase the size of the Clearing Fund where appropriate, not to decrease the size of the Clearing Fund.

[19] On a daily basis, OCC computes its exposure under the idiosyncratic and minor systemic events. The greater of these two exposures is that day's ''peak exposure.'' To calculate the ''rolling five day average'' OCC computes the average of the peak exposure for each consecutive five-day period observed over the prior three-month period. To determine the Base Amount, OCC would use the largest five-day rolling average observed over the past three-months. This methodology was used to determine the Base Amount of the Clearing Fund for November 2014 and December 2014.

[20] Considering only the peak exposures is a more conservative methodology that gives greater weighting to sudden increases in exposure experienced by Clearing Members, thus enhancing the responsiveness of the procedure to such sudden increases. By using a longer look-back period, the methodology would respond more slowly to recently observed decreases in peak exposures.

extreme but plausible market conditions.[21] If such a daily idiosyncratic default calculation projected a draw on the Clearing Fund (a ''Projected Draw'') that is at least 75% of the Clearing Fund maintained by OCC, OCC would be required to issue an intra-day margin call pursuant to Rule 609 against the Clearing Member or Clearing Member Group that caused such a draw (''Margin Call Event'').[22] Subject to a limitation described below, the amount of the margin call would be the difference between the Projected Draw and the Base Clearing Fund (''Exceedance Above Base Amount''). In the case of a Clearing Member Group that causes the Exceedance Above Base Amount, the Exceedance Above Base Amount would be pro-rated among the individual Clearing Members that compose the Clearing Member Group based on each individual Clearing Member's proportionate share of the ''total risk'' for such Clearing Member Group as defined in Rule 1001(b), *i.e.,* the margin requirement with respect to all accounts of the Clearing Member Group exclusive of the net asset value of the positions in such accounts aggregated across all such accounts. However, in the case of an individual Clearing Member or a Clearing Member Group, the margin call would be subject to a limitation under which it could not exceed the lower [23] of: (a) $500 million, or (b) 100% of a Clearing Member's net capital. Such limitation would be measured in aggregate with any funds remaining on deposit with OCC deposited by the same Clearing Member pursuant to a Margin Call Event within the same monthly period, as applicable, until collection of all funds to satisfy the next regular monthly Clearing Fund resizing (the ''500/100 Limitation'').[24]

Upon satisfaction of the margin call, OCC would use its authority under Rule 608 to preclude the withdrawal of such additional margin amount until it collects all of the funds determined by the next Monthly Clearing Fund Sizing Procedure. Based on three years of back testing data, OCC determined that it would have had Margin Call Events in 10 of the months during this time period. For each of these months, the maximum call amount would have been equal to $500 million, with one exception in which the maximum call amount for the month was $7.7 million.[25] After giving effect to the intra-day margin calls, *i.e.,* by increasing the Financial Resources by $500 million, there was only one Margin Call Event where there was an observed stress test exceedance of the Financial Resources.

To address this one observed instance, the Financial Resource Monitoring and Call Procedure also would require OCC to increase the size of the Clearing Fund (''Clearing Fund Intra-month Increase Event'') if a Projected Draw exceeds 90% of the Clearing Fund, after applying any funds then on deposit with OCC from the applicable Clearing Member or Clearing Member Group pursuant to a Margin Call Event. The amount of such increase (''Clearing Fund Increase'') would be the greater of: (a) $1 billion; or (b) 125% of the difference between (i) the Projected Draw, as reduced by the deposits resulting from the Margin Call Event and (ii) the Clearing Fund. Each Clearing Member's proportionate share of the Clearing Fund Increase would equal its proportionate share of the variable portion of the Clearing Fund for the month in question as calculated pursuant to Rule 1001(b). OCC would notify the Risk Committee of the Board of Directors (the ''Risk Committee''), Clearing Members and appropriate regulatory authorities of the Clearing Fund Increase on the business day on which the Clearing Fund Intra-month Increase Event occurred. This ensures that OCC management maintains authority to address any potential Financial Resource deficiencies when compared to its Projected Draw estimates. The Risk Committee would then determine whether the Clearing Fund Increase was sufficient, and would retain authority to increase the Clearing Fund Increase or the margin call made pursuant to a Margin Call Event in its discretion. Clearing Members would be required to meet the call for additional Clearing Fund assets by 9:00 a.m. CT on the second business day following the Clearing Fund Intra-Month Increase Event. OCC believes that this collection process ensures additional Clearing Fund assets are promptly deposited by Clearing Members following notice of a Clearing Fund Increase, while also providing Clearing Members with a reasonable period of time to source such assets. Based on OCC's back testing results, after giving effect to the intra-day margin call in response to a Margin Call Event plus the prudential margin of safety, the Financial Resources would have been sufficient upon implementing the one instance of a Clearing Fund Intra-month Increase Event.

OCC believes the Financial Resource Monitoring and Call Procedure strikes a prudent balance between mutualizing the burden of requiring additional Financial Resources and requiring the Clearing Member or Clearing Member Group causing the increased exposure to bear such burden. As noted above, in the event of a Margin Call Event, OCC limits the margin call until collection of all funds to satisfy the next regular monthly resizing to an aggregate of $500 million, or 100% of a Clearing Member's net capital in order to avoid putting an undue liquidity strain on any one Clearing Member. However, where a Projected Draw exceeds 90% of OCC's Clearing Fund, OCC must act to ensure that it has sufficient Financial Resources, and determined that it should mutualize the burden of the additional Financial Resources at this threshold through a Clearing Fund Increase. OCC believes that this balance would provide OCC with sufficient Financial Resources without increasing the likelihood that its procedures would, based solely on stress testing results, cause a liquidity strain on any on Clearing Member that could result in such member's default.

The following examples illustrate the manner in which the Financial Resource Monitoring and Call Procedure would be applied. All assume that the Clearing Fund size is $7.8 billion, $6 billion of which is the Base Amount and $1.8 billion of which is the prudential margin of safety. The 75% threshold in these examples is $5.85 billion.

[21] Since the minor systemic default scenario contemplates two Clearing Members' simultaneously defaulting and OCC maintains Financial Resources sufficient to cover a default by a Clearing Member or Clearing Member Group representing the greatest exposure to OCC, OCC does not use the minor systemic default scenario to determine the adequacy of the Financial Resources under the Financial Resource Monitoring and Call Procedure.

[22] Rule 609 authorizes OCC to require the deposit of additional margin in any account at any time during any business day by any Clearing Member for, *inter alia,* the protection of OCC, other Clearing Members or the general public. Clearing Members must meet a required deposit of intra-day margin in immediately available funds at a time prescribed by OCC or within one hour of OCC's issuance of debit settlement instructions against the bank account(s) of the applicable Clearing Member(s), thereby ensuring the prompt deposit of additional Financial Resources.

[23] ''Capping'' the intra-day margin call avoids placing a ''liquidity squeeze'' on the subject Clearing Member(s) based on exposures presented by a hypothetical stress test, which would have the potential for causing a default on the intra-day margin call. Back testing results determined that such calls would have been made against Clearing Members that are large, well-capitalized firms, with more than sufficient resources to satisfy the call for additional margin with the proposed limitations.

[24] The Risk Committee would be notified, and could take action to address potential Financial Resource deficiencies, in the event that a Projected Draw resulted in a Margin Call Event and as a result of the 500/100 Limitation the margin call was less than the Exceedance Above Base Amount, but the Projected Draw was not so large as to result in an increase in the Clearing Fund as discussed below.

[25] The back testing analysis performed assumed a single Clearing Member caused the exceedance.

Example 1: Single CM

Under OCC's stress testing the Projected Draw attributable to Clearing Member ABC, a Clearing Member with no affiliated Clearing Members and net capital of $500 million, is $6.4 billion, or 82% of the Clearing Fund. OCC would make a margin call for $400 million, which represents the Exceedance Above Base Amount. In this case the 500/100 Limitation would not be applicable because the Exceedance Above Base Amount is less than $500 million and 100% of the Clearing Member's net capital. The Clearing Member would be required to meet the $400 million call within one hour unless OCC prescribed a different time, and OCC would retain the $400 million until collection of all the funds to satisfy the next monthly Clearing Fund sizing calculation.

If, on a different day within the same month, CM ABC's Projected Draw minus the $400 million already deposited with OCC results in an Exceedance above Base Amount, another Margin Call Event would be triggered, with the amount currently deposited with OCC applying toward the 500/100 Limitation.

Example 2: Clearing Member Group

Under OCC's stress testing the Projected Draw attributable to Clearing Member Group DEF, comprised of two Clearing Members each with net capital of $800 million, is $6.2 billion, or 79% of OCC's Clearing Fund. OCC would initiate a margin call on Clearing Member Group DEF for $200 million. The call would be allocated to the two Clearing Members that compose the Clearing Member Group based on each Clearing Member's risk margin allocation. In this case the 500/100 Limitation would not be applicable because the Exceedance Above Base Amount is less than $500 million and 100% of net capital. The margin call would be required to be met within one hour of the call unless OCC prescribed a different time. For example, in the case where one Clearing Member accounts for 75% of the risk margin for the Clearing Member Group, that Clearing Member would be allocated $150 million of the call and the other Clearing Member, accounting for 25% of the risk margin for the Clearing Member Group, would be allocated $50 million of the call. The funds would remain deposited with OCC until collection of all the funds to satisfy the next monthly Clearing Fund sizing calculation.

Example 3: Clearing Member Group With $500 Million Cap

Under OCC's stress testing the Projected Draw attributable to Clearing Member Group GHI, comprised of two Clearing Members each with net capital of $800 million, is $6.8 billion, or 87% of the Clearing Fund. The Exceedance Above Base Amount would be $800 million, allocated to the two Clearing Members that compose the Clearing Member Group based on each Clearing Member's risk margin allocation. Using the 75/25 risk margin allocation from Example 2, one Clearing Member would be allocated $600 million and the other Clearing Member would be allocated $200 million. The first Clearing Member would be required to deposit $500 million with OCC, which is the lowest of $500 million, that member's net capital, or that member's share of the Exceedance Above Base Amount, and the other Clearing Member would be required to deposit $200 million with OCC. After collecting the additional margin, OCC would determine whether the Projected Draw would exceed 90% of the Clearing Fund after reducing the Projected Draw by the additional margin. This calculation would divide a Projected Draw of $6.1 billion, which is the original Projected Draw of $6.8 billion reduced by the additional margin, by the Clearing Fund of $7.8 billion. The resulting percentage of 78% would be below the 90% threshold, and accordingly there would not be a Clearing Fund Intra-month Increase Event.

Example 4: Margin Call and Increase in Size of Clearing Fund

Under OCC's stress testing the Projected Draw attributable to Clearing Member JKL, a Clearing Member with no affiliated Clearing Members and net capital of $600 million, is $10.0 billion, or 128% of the Clearing Fund. OCC would make a margin call for $500 million, which represents the lowest of the Exceedance Above Base Amount, $500 million and 100% of net capital. The Clearing Member would be required to meet the $500 million call within one hour unless OCC prescribed a different time, and OCC would retain the $500 million until collection of all the funds to satisfy the next monthly Clearing Fund sizing calculation. After collecting the additional margin, OCC would determine whether the Projected Draw would exceed 90% of the Clearing Fund after reducing the Projected Draw by the additional margin. This calculation would divide a Projected Draw of $9.5 billion, which is the original Projected Draw of $10 billion reduced by the additional margin, by the Clearing Fund of $7.8 billion. The resulting percentage of 122%, while lower, would still exceed the 90% threshold, and accordingly OCC would declare a Clearing Fund Intra-month Increase Event. To calculate the Clearing Fund Increase, OCC would first determine the difference between the modified Projected Draw ($9.5 billion) and the Clearing Fund ($7.8 billion), which in this case would be $1.7 billion, OCC would then multiply this by 1.25, resulting in $2.125 billion. Because this amount is greater than $1 billion, the Clearing Fund Increase would be $2.125 billion and a modified Clearing Fund of OCC totaling $9.925 billion ($425 million in excess of the modified Projected Draw of $9.5 billion).

Consistency With the Payment, Clearing and Settlement Supervision Act

OCC believes that the proposed change regarding the establishment of the Monthly Clearing Fund Sizing Procedure and Financial Resource Monitoring and Call Procedure described above is consistent with section 805(b)(1) of the Payment, Clearing and Settlement Supervision Act[26] because the proposed procedures will promote robust risk management by setting forth a process in order to ensure that OCC maintains adequate Financial Resources in the event of a default of a Clearing Member or Clearing Member Group presenting the largest exposure to OCC. The proposed change regarding the establishment of these procedures is also consistent with section 806(e)(2) of the Payment, Clearing and Settlement Supervision Act, upon which OCC relied in originally suspending the effectiveness of the second sentence of Rule 1001(a) and increasing the size of the Clearing Fund on October 15, 2014, because it allows OCC to continue to provide its services in a safe and sound manner.[27]

Anticipated Effect on and Management of Risk

OCC believes that the proposed change will reduce OCC's overall level of risk because the proposed change makes it less likely that OCC's Clearing Fund would be insufficient should OCC need to use its Clearing Fund to manage a Clearing Member or Clearing Member Group default. The Monthly Clearing Fund Sizing Procedure would permit OCC to determine the size of its Clearing Fund by relying on a broader range of sound risk management practices than

[26] 12 U.S.C. 5464(b)(1).

[27] 12 U.S.C. 5464(e)(2); *see* SR–OCC–2014–807, *supra*, note 8.

those considered in the suspended second sentence of Rule 1001(a). OCC believes that using the peak five-day rolling average of Clearing Fund draws observed over a three-month period will result in a monthly resizing of the Clearing Fund that will better reflect the risks posed by sudden increases in exposure experienced by Clearing Members. OCC also believes that the proposed prudential margin of safety will provide an additional buffer to protect against exposures not reflected in the three-month look-back period. The Financial Resource Monitoring and Call Procedure would enable OCC to minimize losses in the event of a default of a Clearing Member or Clearing Member Group presenting the largest exposure to OCC, by allowing it the flexibility to obtain additional Financial Resources either through an intra-day margin call or an intra-month increase in the size of the Clearing Fund, which would ensure that the clearance and settlement of transactions in options and other contracts occurs without interruption. Accordingly, OCC believes that the proposed changes would reduce risks to OCC and its participants. Moreover, and for the same reasons, the proposed change will facilitate OCC's ability to manage risk.

III. Date of Effectiveness of the Advance Notice and Timing for Commission Action

The advance notice may be implemented if the Commission does not object to the advance notice within 60 days of the later of (i) the date that the advance notice was filed with the Commission or (ii) the date that any additional information requested by the Commission is received. OCC shall not implement the advance notice if the Commission has any objection to the advance notice.

The Commission may extend the period for review by an additional 60 days if the advance notice raises novel or complex issues, subject to the Commission providing OCC with prompt written notice of the extension. An advance notice may be implemented in less than 60 days from the date the advance notice is filed, or the date further information requested by the Commission is received, if the Commission notifies OCC in writing that it does not object to the advance notice and authorizes OCC to implement the advance notice on an earlier date, subject to any conditions imposed by the Commission.

The clearing agency shall post notice on its Web site of proposed changes that are implemented.

The proposal shall not take effect until all regulatory actions required with respect to the proposal are completed.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (*http://www.sec.gov/rules/sro.shtml*); or
- Send an email to *rule-comments@sec.gov*. Please include File Number SR–OCC–2014–811 on the subject line.

Paper Comments

- Send paper comments in triplicate to Brent J. Fields, Secretary, Securities and Exchange Commission, 100 F Street NE., Washington, DC 20549–1090.

All submissions should refer to File Number SR–OCC–2014–811. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (*http://www.sec.gov/rules/sro.shtml*). Copies of the submission, all subsequent amendments, all written statements with respect to the advance notice that are filed with the Commission, and all written communications relating to the advance notice between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for Web site viewing and printing in the Commission's Public Reference Room, 100 F Street NE., Washington, DC 20549 on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of OCC and on OCC's Web site at *http://www.theocc.com/components/docs/legal/rules_and_bylaws/sr_occ_14_811.pdf*. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR–OCC–2014–811 and should be submitted on or before May 7, 2015.

By the Commission.

Brent J. Fields,

Secretary.

[FR Doc. 2015–08712 Filed 4–15–15; 8:45 am]

BILLING CODE 8011–01–P

SECURITIES AND EXCHANGE COMMISSION

[Investment Company Act Release No. 31549; File No. 812–14357]

Dreyfus TMT Opportunities Fund, Inc., et al.; Notice of Application

April 7, 2015.

AGENCY: Securities and Exchange Commission ("Commission").

ACTION: Notice of an application under section 6(c) of the Investment Company Act of 1940 ("Act") for an exemption from section 19(b) of the Act and rule 19b–1 under the Act.

APPLICANTS: Dreyfus TMT Opportunities Fund, Inc. ("TMT Fund") and The Dreyfus Corporation ("Dreyfus" and, together with TMT Fund, the "Applicants").

SUMMARY OF APPLICATION: Applicants request an order to permit certain registered closed-end investment companies to make periodic distributions of long-term capital gains with respect to their outstanding common stock as frequently as twelve times in any one taxable year, and as frequently as distributions are specified by or in accordance with the terms of any outstanding preferred stock that such investment companies may issue.

DATES: *Filing Dates:* The application was filed on September 5, 2014 and amended on February 18, 2015.

HEARING OR NOTIFICATION OF HEARING: An order granting the application will be issued unless the Commission orders a hearing. Interested persons may request a hearing by writing to the Commission's Secretary and serving applicants with a copy of the request, personally or by mail. Hearing requests should be received by the Commission by 5:30 p.m. on May 4, 2015, and should be accompanied by proof of service on applicants, in the form of an affidavit or, for lawyers, a certificate of service. Pursuant to Rule 0–5 under the Act, hearing requests should state the nature of the writer's interest, any facts bearing upon the desirability of a hearing on the matter, the reason for the request, and the issues contested. Persons who wish to be notified of a hearing may request notification by writing to the Commission's Secretary.

ADDRESSES: The Commission: Brent J. Fields, Secretary, U.S. Securities and

Exchange Commission, 100 F Street NE., Washington, DC 20549–1090. Applicants: Jeff S. Prusnofsky, Esq., The Dreyfus Corporation, 200 Park Avenue, New York, NY 10166; and David Stephens, Esq., Stroock & Stroock & Lavan LLP, 180 Maiden Lane, New York, NY 10038.

FOR FURTHER INFORMATION CONTACT: Anil K. Abraham, Senior Special Counsel, at (202) 551–2614, or Daniele Marchesani, Branch Chief, at (202) 551–6821 (Division of Investment Management, Chief Counsel's Office).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained via the Commission's Web site by searching for the file number, or for an applicant using the Company name box, at *http://www.sec.gov/search/search.htm,* or by calling (202) 551–8090.

Applicants' Representations

1. TMT Fund is a corporation newly organized under the laws of Maryland and is a non-diversified, closed-end management investment company registered with the Commission under the Act.[1] TMT Fund's investment objective is to seek total return consisting of current income, current gains, and long-term capital appreciation. TMT Fund intends to apply for listing of its shares of common stock on the New York Stock Exchange (''NYSE''), a national securities exchange (as defined in Section 2(a)(26) of the Act). The Funds may incur leverage through the issuance of preferred stock and debt securities, by entering into a credit agreement, or otherwise as permitted by applicable law. Applicants believe that investors in closed-end funds may prefer an investment vehicle that provides regular current income through fixed distribution policies that would be available through a Distribution Policy (as defined below).

2. Dreyfus, a corporation organized under the laws of the State of New York, is a wholly owned subsidiary of the Bank of New York Mellon, a global financial services company. Dreyfus is registered as an investment adviser under the Investment Advisers Act of 1940 (the ''Advisers Act'') and will serve as investment adviser to TMT Fund. Each Adviser to a Fund will be registered as an investment adviser under the Advisers Act. The portfolio of a Fund may be managed by one or more investment sub-advisers or investment managers (each, a ''Future Sub-Adviser''). Any Future Sub-Adviser will be registered under the Advisers Act or not subject to registration.

3. Applicants state that prior to a Fund's implementing a Distribution Policy in reliance on the order, the board of directors or trustees of each Fund (the ''Board''), including a majority of the directors or trustees who are not ''interested persons'' of the Fund, as defined in section 2(a)(19) of the Act (the ''Independent Board Members''), will request, and the Adviser will provide, such information as is reasonably necessary to make an informed determination of whether the Board should adopt a proposed Distribution Policy. In particular, the Board and the Independent Board Members will review information regarding the purpose and terms of the Distribution Policy; the likely effects of the Distribution Policy on the Fund's long-term total return (in relation to market price and its net asset value per share of common stock (''NAV'')); the expected relationship between the Fund's distribution rate on its shares of common stock under the Distribution Policy and the Fund's total return (in relation to NAV); whether the rate of distribution would exceed such Fund's expected total return in relation to its NAV; and any foreseeable material effects of the Distribution Policy on the Fund's long-term total return (in relation to market price and NAV). The Independent Board Members also will consider what conflicts of interest the Adviser and the affiliated persons of the Adviser and the Fund might have with respect to the adoption or implementation of the Distribution Policy. Applicants state that, only after considering such information will the Board, including the Independent Board Members, of each Fund approve a Distribution Policy and in connection with such approval will determine that the Distribution Policy is consistent with the Fund's investment objectives and in the best interests of the holders of the Fund's common stock.

4. Applicants state that the purpose of a Distribution Policy, generally, would be to permit a Fund to distribute periodically, over the course of each year, an amount closely approximating the total taxable income of such Fund during the year through distributions in relatively equal amounts (plus any required special distributions) that are composed of payments received from portfolio companies, supplemental amounts generally representing realized capital gains, or, possibly, returns of capital that may represent unrealized capital gains. Under the Distribution Policy of a Fund, such Fund would distribute periodically (as frequently as twelve times in any taxable year) to its respective common stockholders a fixed percentage of the market price of such Fund's common stock at a particular point in time or a fixed percentage of NAV at a particular time or a fixed amount per share of common stock, any of which may be adjusted from time to time. It is anticipated that under a Distribution Policy, the minimum annual distribution rate with respect to such Fund's common stock would be independent of the Fund's performance during any particular period but would be expected to correlate with the Fund's performance over time. Except for extraordinary distributions and potential increases or decreases in the final dividend periods in light of a Fund's performance for the entire calendar year and to enable the Fund to comply with the distribution requirements of Subchapter M of the Internal Revenue Code (''Code'') for the calendar year, each distribution on the Fund's common stock would be at the stated rate then in effect. The Board will periodically review the amount of potential distributions in light of the investment experience of the Fund, and may modify or terminate a Distribution Policy at any time.

5. Applicants state that prior to the implementation of a Distribution Policy for any Fund in reliance on the order, the Board of such Fund will have adopted policies and procedures under rule 38a–1 under the Act that: (i) Are reasonably designed to ensure that all notices required to be sent to the Fund's stockholders pursuant to section 19(a) of the Act, rule 19a–1 thereunder and condition 4 below (each a ''19(a) Notice'') include the disclosure required by rule 19a–1 under the Act and by condition 2(a) below, and that all other written communications by the Fund or its agents regarding distributions under the Distribution Policy include the disclosure required by condition 3(a)

[1] The existing registered closed-end investment company that currently intends to rely on the order has been named as an applicant. Applicants request that the order also apply to each other registered closed-end investment company advised or to be advised in the future by Dreyfus or by an entity controlling, controlled by, or under common control (within the meaning of section 2(a)(9) of the Act) with Dreyfus (including any successor in interest) (each such entity, including Dreyfus, the ''Adviser'') that in the future seeks to rely on the order (such investment companies, together with TMT Fund, are collectively the ''Funds'' and, individually, a ''Fund''). Any Fund that may rely on the order in the future (each, a ''Future Fund'') will comply with the terms and conditions of the application. A successor in interest is limited to entities that result from a reorganization into another jurisdiction or a change in the type of business organization.

below; and (ii) require the Fund to keep records that demonstrate its compliance with all of the conditions of the order and that are necessary for such Fund to form the basis for, or demonstrate the calculation of, the amounts disclosed in its 19(a) Notices.

Applicants' Legal Analysis

1. Section 19(b) of the Act generally makes it unlawful for any registered investment company to make long-term capital gains distributions more than once every twelve months. Rule 19b–1 limits the number of capital gains dividends, as defined in section 852(b)(3)(C) of the Code (''distributions''), that a fund may make with respect to any one taxable year to one, plus a supplemental distribution made pursuant to section 855 of the Code not exceeding 10% of the total amount distributed for the year, plus one additional capital gain dividend made in whole or in part to avoid the excise tax under section 4982 of the Code.

2. Section 6(c) of the Act provides, in relevant part, that the Commission may exempt any person or transaction from any provision of the Act to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

3. Applicants state that one of the concerns leading to the enactment of section 19(b) and adoption of rule 19b–1 was that stockholders might be unable to distinguish between frequent distributions of capital gains and dividends from investment income. Applicants state, however, that rule 19a–1 effectively addresses this concern by requiring that distributions (or the confirmation of the reinvestment thereof) estimated to be sourced in part from capital gains or capital be accompanied by a separate statement showing the sources of the distribution (*e.g.,* estimated net income, net short-term capital gains, net long-term capital gains and/or return of capital). Applicants state that the same information will be included in the Funds' annual reports to stockholders and on the Internal Revenue Service Form 1099 DIV, which will be sent to each common and preferred stockholder who received distributions during a particular year.

4. Applicants further state that each Fund will make the additional disclosures required by the conditions set forth below, and each Fund will adopt compliance policies and procedures in accordance with rule 38a–1 under the Act to ensure that all required 19(a) Notices and disclosures are sent to stockholders. Applicants state that the information required by section 19(a), rule 19a–1, the Distribution Policy, the policies and procedures under rule 38a–1 noted above, and the conditions listed below will help ensure that each Fund's stockholders are provided sufficient information to understand that their periodic distributions are not tied to a Fund's net investment income (which for this purpose is the Fund's taxable income other than from capital gains) and realized capital gains to date, and may not represent yield or investment return. Accordingly, applicants assert that continuing to subject the Funds to section 19(b) and rule 19b–1 would afford stockholders no extra protection.

5. Applicants note that section 19(b) and rule 19b–1 also were intended to prevent certain improper sales practices, including, in particular, the practice of urging an investor to purchase shares of a fund on the basis of an upcoming capital gains dividend (''selling the dividend''), where the dividend would result in an immediate corresponding reduction in NAV and would be in effect a taxable return of the investor's capital. Applicants submit that the ''selling the dividend'' concern should not apply to closed-end investment companies, such as the Funds, that do not continuously distribute shares. According to applicants, if the underlying concern extends to secondary market purchases of shares of closed-end funds that are subject to a large upcoming capital gains dividend, adoption of a periodic distribution plan actually helps minimize the concern by avoiding, through periodic distributions, any buildup of large end-of-the-year distributions.

6. Applicants also note that the common stock of closed-end funds often trades in the marketplace at a discount to such funds' NAV. Applicants believe that this discount may be reduced if the Funds are permitted to pay relatively frequent dividends on their common stock at a consistent rate, whether or not those dividends contain an element of long-term capital gains.

7. Applicants assert that the application of rule 19b–1 to a Distribution Policy actually could have an inappropriate influence on portfolio management decisions. Applicants state that, in the absence of an exemption from rule 19b–1, the adoption of a periodic distribution plan imposes pressure on management (i) not to realize any net long-term capital gains until the point in the year that the fund can pay all of its remaining distributions in accordance with rule 19b–1, and (ii) not to realize any long-term capital gains during any particular year in excess of the amount of the aggregate pay-out for the year (since as a practical matter excess gains must be distributed and accordingly would not be available to satisfy pay-out requirements in following years), notwithstanding that purely investment considerations might favor realization of long-term gains at different times or in different amounts. Applicants assert that by limiting the number of long-term capital gain dividends that a Fund may make with respect to any one year, rule 19b–1 may prevent the normal and efficient operation of a periodic distribution plan whenever that Fund's realized net long-term capital gains in any year exceed the total of the periodic distributions that may include such capital gains under the rule.

8. Applicants also assert that rule 19b–1 may force fixed regular periodic distributions under a periodic distribution plan to be funded with returns of capital [2] (to the extent net investment income and realized short-term capital gains are insufficient to fund the distribution), even though realized net long-term capital gains otherwise would be available. To distribute all of a Fund's long-term capital gains within the limits in rule 19b–1, a Fund may be required to make total distributions in excess of the annual amount called for by its periodic distribution plan, or to retain and pay taxes on the excess amount. Applicants assert that the requested order would minimize these anomalous effects of rule 19b–1 by enabling the Funds to realize long-term capital gains as often as investment considerations dictate without fear of violating rule 19b–1.

9. Applicants state that Revenue Ruling 89–81 under the Code requires that a fund that seeks to qualify as a regulated investment company under the Code and that has both common stock and preferred stock outstanding designate the types of income, *e.g.,* investment income and capital gains, in the same proportion as the total distributions distributed to each class for the tax year. To satisfy the proportionate designation requirements of Revenue Ruling 89–81, whenever a fund has realized a long-term capital gain with respect to a given tax year, the fund must designate the required proportionate share of such capital gain to be included in common and preferred stock dividends. Applicants state that

[2] Returns of capital as used in the application means return of capital for financial accounting purposes and not for tax accounting purposes.

although rule 19b–1 allows a fund some flexibility with respect to the frequency of capital gains distributions, a fund might use all of the exceptions available under the rule for a tax year and still need to distribute additional capital gains allocated to the preferred stock to comply with Revenue Ruling 89–81.

10. Applicants assert that the potential abuses addressed by section 19(b) and rule 19b–1 do not arise with respect to preferred stock issued by a closed-end fund. Applicants assert that such distributions are either fixed or determined in periodic auctions by reference to short-term interest rates rather than by reference to performance of the issuer, and Revenue Ruling 89–81 determines the proportion of such distributions that are comprised of long-term capital gains.

11. Applicants also submit that the ''selling the dividend'' concern is not applicable to preferred stock, which entitles a holder to no more than a specified periodic dividend at a fixed rate or the rate determined by the market, and, like a debt security, is priced based upon its liquidation preference, dividend rate, credit quality, and frequency of payment. Applicants state that investors buy preferred stock for the purpose of receiving payments at the frequency bargained for, and do not expect the liquidation value of their shares to change.

12. Applicants request an order under section 6(c) of the Act granting an exemption from the provisions of section 19(b) of the Act and rule 19b–1 thereunder to permit each Fund to distribute periodic capital gain dividends (as defined in section 852(b)(3)(C) of the Code) as frequently as twelve times in any one taxable year in respect of its common stock and as often as specified by, or determined in accordance with the terms of, any preferred stock issued by the Fund.

Applicants' Conditions

Applicants agree that, with respect to each Fund seeking to rely on the order, the order will be subject to the following conditions:

1. Compliance Review and Reporting

The Fund's chief compliance officer will: (a) Report to the Fund's Board, no less frequently than once every three months or at the next regularly scheduled quarterly Board meeting, whether (i) the Fund and its Adviser have complied with the conditions of the order, and (ii) a material compliance matter (as defined in rule 38a–1(e)(2) under the Act) has occurred with respect to such conditions; and (b) review the adequacy of the policies and procedures adopted by the Board no less frequently than annually.

2. Disclosures to Fund Stockholders

(a) Each 19(a) Notice disseminated to the holders of the Fund's common stock, in addition to the information required by section 19(a) and rule 19a–1:

(i) Will provide, in a tabular or graphical format:

(1) The amount of the distribution, on a per share of common stock basis, together with the amounts of such distribution amount, on a per share of common stock basis and as a percentage of such distribution amount, from estimated: (A) Net investment income; (B) net realized short-term capital gains; (C) net realized long-term capital gains; and (D) return of capital or other capital source;

(2) the fiscal year-to-date cumulative amount of distributions, on a per share of common stock basis, together with the amounts of such cumulative amount, on a per share of common stock basis and as a percentage of such cumulative amount of distributions, from estimated: (A) Net investment income; (B) net realized short-term capital gains; (C) net realized long-term capital gains; and (D) return of capital or other capital source;

(3) the average annual total return in relation to the change in NAV for the 5-year period (or, if the Fund's history of operations is less than five years, the time period commencing immediately following the Fund's first public offering) ending on the last day of the month ended immediately prior to the most recent distribution record date compared to the current fiscal period's annualized distribution rate expressed as a percentage of NAV as of the last day of the month prior to the most recent distribution record date; and

(4) the cumulative total return in relation to the change in NAV from the last completed fiscal year to the last day of the month prior to the most recent distribution record date compared to the fiscal year-to-date cumulative distribution rate expressed as a percentage of NAV as of the last day of the month prior to the most recent distribution record date.

Such disclosure shall be made in a type size at least as large and as prominent as the estimate of the sources of the current distribution; and

(ii) Will include the following disclosure:

(1) ''You should not draw any conclusions about the Fund's investment performance from the amount of this distribution or from the terms of the Fund's Distribution Policy'';

(2) ''The Fund estimates that it has distributed more than its income and net realized capital gains; therefore, a portion of your distribution may be a return of capital. A return of capital may occur, for example, when some or all of the money that you invested in the Fund is paid back to you. A return of capital distribution does not necessarily reflect the Fund's investment performance and should not be confused with 'yield' or 'income' '' [3]; and

(3) ''The amounts and sources of distributions reported in this 19(a) Notice are only estimates and are not being provided for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund's investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. The Fund will send you a Form 1099–DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes.'' Such disclosure shall be made in a type size at least as large as and as prominent as any other information in the 19(a) Notice and placed on the same page in close proximity to the amount and the sources of the distribution.

(b) On the inside front cover of each report to stockholders under rule 30e–1 under the Act, the Fund will:

(i) Describe the terms of the Distribution Policy (including the fixed amount or fixed percentage of the distributions and the frequency of the distributions);

(ii) include the disclosure required by condition 2(a)(ii)(1) above;

(iii) state, if applicable, that the Distribution Policy provides that the Board may amend or terminate the Distribution Policy at any time without prior notice to Fund stockholders; and

(iv) describe any reasonably foreseeable circumstances that might cause the Fund to terminate the Distribution Policy and any reasonably foreseeable consequences of such termination.

(c) Each report provided to stockholders under rule 30e–1 under the Act and each prospectus filed with the Commission on Form N–2 under the Act, will provide the Fund's total return in relation to changes in NAV in the financial highlights table and in any discussion about the Fund's total return.

[3] The disclosure in condition 2(a)(ii)(2) will be included only if the current distribution or the fiscal year-to-date cumulative distributions are estimated to include a return of capital.

3. Disclosure to Stockholders, Prospective Stockholders and Third Parties

(a) The Fund will include the information contained in the relevant 19(a) Notice, including the disclosure required by condition 2(a)(ii) above, in any written communication (other than a communication on Form 1099) about the Distribution Policy or distributions under the Distribution Policy by the Fund, or agents that the Fund has authorized to make such communication on the Fund's behalf, to any Fund stockholder, prospective stockholder or third-party information provider;

(b) The Fund will issue, contemporaneously with the issuance of any 19(a) Notice, a press release containing the information in the 19(a) Notice and will file with the Commission the information contained in such 19(a) Notice, including the disclosure required by condition 2(a)(ii) above, as an exhibit to its next filed Form N–CSR; and

(c) The Fund will post prominently a statement on its (or the Adviser's) Web site containing the information in each 19(a) Notice, including the disclosure required by condition 2(a)(ii) above, and will maintain such information on such Web site for at least 24 months.

4. Delivery of 19(a) Notices to Beneficial Owners

If a broker, dealer, bank or other person (''financial intermediary'') holds common stock issued by the Fund in nominee name, or otherwise, on behalf of a beneficial owner, the Fund: (a) Will request that the financial intermediary, or its agent, forward the 19(a) Notice to all beneficial owners of the Fund's stock held through such financial intermediary; (b) will provide, in a timely manner, to the financial intermediary, or its agent, enough copies of the 19(a) Notice assembled in the form and at the place that the financial intermediary, or its agent, reasonably requests to facilitate the financial intermediary's sending of the 19(a) Notice to each beneficial owner of the Fund's stock; and (c) upon the request of any financial intermediary, or its agent, that receives copies of the 19(a) Notice, will pay the financial intermediary, or its agent, the reasonable expenses of sending the 19(a) Notice to such beneficial owners.

5. Additional Board Determinations for Funds Whose Common Stock Trades at a Premium

If:

(a) The Fund's common stock has traded on the stock exchange that they primarily trade on at the time in question at an average premium to NAV equal to or greater than 10%, as determined on the basis of the average of the discount or premium to NAV of the Fund's shares of common stock as of the close of each trading day over a 12-week rolling period (each such 12-week rolling period ending on the last trading day of each week); and

(b) The Fund's annualized distribution rate for such 12-week rolling period, expressed as a percentage of NAV as of the ending date of such 12-week rolling period, is greater than the Fund's average annual total return in relation to the change in NAV over the 2-year period ending on the last day of such 12-week rolling period; then:

(i) At the earlier of the next regularly scheduled meeting or within four months of the last day of such 12-week rolling period, the Board, including a majority of the Independent Board Members:

(1) Will request and evaluate, and the Fund's Adviser will furnish, such information as may be reasonably necessary to make an informed determination of whether the Distribution Policy should be continued or continued after amendment;

(2) will determine whether continuation, or continuation after amendment, of the Distribution Policy is consistent with the Fund's investment objective(s) and policies and is in the best interests of the Fund and its stockholders, after considering the information in condition 5(b)(i)(1) above; including, without limitation:

(A) Whether the Distribution Policy is accomplishing its purpose(s);

(B) the reasonably foreseeable material effects of the Distribution Policy on the Fund's long-term total return in relation to the market price and NAV of the Fund's common stock; and

(C) the Fund's current distribution rate, as described in condition 5(b) above, compared with the Fund's average annual taxable income or total return over the 2-year period, as described in condition 5(b), or such longer period as the Board deems appropriate; and

(3) based upon that determination, will approve or disapprove the continuation, or continuation after amendment, of the Distribution Policy; and

(ii) The Board will record the information considered by it, including its consideration of the factors listed in condition 5(b)(i)(2) above, and the basis for its approval or disapproval of the continuation, or continuation after amendment, of the Distribution Policy in its meeting minutes, which must be made and preserved for a period of not less than six years from the date of such meeting, the first two years in an easily accessible place.

6. Public Offerings

The Fund will not make a public offering of the Fund's common stock other than:

(a) A rights offering below NAV to holders of the Fund's common stock;

(b) an offering in connection with a dividend reinvestment plan, merger, consolidation, acquisition, spin-off or reorganization of the Fund; or

(c) an offering other than an offering described in conditions 6(a) and 6(b) above, provided that, with respect to such other offering:

(i) The Fund's annualized distribution rate for the six months ending on the last day of the month ended immediately prior to the most recent distribution record date,[4] expressed as a percentage of NAV as of such date, is no more than 1 percentage point greater than the Fund's average annual total return for the 5-year period ending on such date;[5] and

(ii) the transmittal letter accompanying any registration statement filed with the Commission in connection with such offering discloses that the Fund has received an order under section 19(b) to permit it to make periodic distributions of long-term capital gains with respect to its shares of common stock as frequently as twelve times each year, and as frequently as distributions are specified by or determined in accordance with the terms of any outstanding shares of preferred stock as such Fund may issue.

7. Amendments to Rule 19b–1

The requested order will expire on the effective date of any amendment to rule 19b–1 that provides relief permitting certain closed-end investment companies to make periodic distributions of long-term capital gains with respect to their outstanding common stock as frequently as twelve times each year.

For the Commission, by the Division of Investment Management, under delegated authority.

Brent J. Fields,

Secretary.

SECURITIES AND EXCHANGE COMMISSION

Submission for OMB Review; Comment Request

Upon Written Request Copies Available From: Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE., Washington, DC 20549–2736.

Extension:

Form 10–Q. SEC File No. 270–49, OMB Control No. 3235–0070.

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission (''Commission'') has submitted to the Office of Management and Budget this request for extension of the previously approved collection of information discussed below.

Form 10–Q (17 CFR 249.308a) is filed by issuers of securities to satisfy their quarterly reporting obligations pursuant to Sections 13(a) or 15(d) of the Exchange Act (''Exchange Act'')(15 U.S.C. 78m and 78o(d)). The information provided by Form 10–Q is intended to help ensure the adequacy of information available to investors about an issuer. Form 10–Q takes approximately 187.43 hours per response to prepare. Approximately 22,907 Forms 10–Q are filed with the Commission annually. We estimate that 75% of the approximately 187.43 hours per response (140.57 hours) is prepared by the company for an annual reporting burden of 3,220,037 hours (140.57 hours per response × 22,907 responses).

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid control number.

The public may view the background documentation for this information collection at the following Web site, *www.reginfo.gov* . Comments should be directed to: (i) Desk Officer for the Securities and Exchange Commission, Office of Information and Regulatory Affairs, Office of Management and Budget, Room 10102, New Executive Office Building, Washington, DC 20503, or by sending an email to: *Shagufta_Ahmed@omb.eop.gov;* and (ii) Pamela Dyson, Director/Chief Information Officer, Securities and Exchange Commission, c/o Remi Pavlik-Simon, 100 F Street NE., Washington, DC 20549 or send an email to: *PRA_Mailbox@sec.gov.* Comments must be submitted to OMB within 30 days of this notice.

Dated: April 10, 2015.

Brent J. Fields,

Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–74702; File No. SR–BATS–2015–31]

Self-Regulatory Organizations; BATS Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change to Amend Rule 11.23, ''Auctions''

April 10, 2015.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (''Act''),[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on April 1, 2015, BATS Exchange, Inc. (the ''Exchange'' or ''BATS'') filed with the Securities and Exchange Commission (''SEC'' or ''Commission'') the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Exchange has designated this proposal as a ''non-controversial'' proposed rule change pursuant to Section 19(b)(3)(A) of the Act[3] and Rule 19b–4(f)(6) thereunder,[4] which renders it effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange filed a proposal to amend Rule 11.23, entitled ''Auctions.''

The text of the proposed rule change is available at the Exchange's Web site at *www.batstrading.com,* at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to make several changes to Rule 11.23 in order to improve the Exchange auction process. Specifically, the Exchange is proposing to make several minor changes to Rule 11.23, which include: (i) To eliminate from each of the Opening Auction, Closing Auction, IPO and Halt Auction, and Volatility Closing Auction the language stating that an auction will occur at the price of the Volume Based Tie Breaker (or ''VBTB''),[5] Final Last Sale Eligible Trade,[6] or issuing price, as applicable, where no limit orders from one or both sides would participate in the auction; (ii) to amend the definition of Volume Based Tie Breaker; (iii) to amend the definition of Reference Price Range;[7] (iv) to amend the definition of Late-Limit-On-Close[8] (''LLOC'') and Late-Limit-On-Open[9] (''LLOO''); and (v) to make a non-substantive change to delete the definitions of ZBB,[10] ZBO,[11] and ZBBO.[12]

Limit Order Participation

Currently, each of Rules 11.23(b)(2)(B), (c)(2)(B), (d)(2)(C), and (e)(2)(B) contain language that provides an alternate price at which an auction will occur where no limit orders from one or both sides (the buy side, the sell side, or both the buy and sell side) would otherwise participate in an auction (an ''Alternate Price''). For Opening and Closing Auctions the Alternate Price is the Volume Based Tie Breaker; for Halt and Volatility Closing Auctions the Alternate Price is the Final Last Sale Eligible Trade; and for IPO Auctions the Alternate Price is the issuing price. While the Exchange added the Alternate Price requirement in order to ensure that, for auctions with minimal liquidity, either limit orders were participating in the auction and would aid in price discovery or that the auction would occur at a pre-determined price, this protection has,

[12] *Id.*

based on analysis by the Exchange and feedback from issuers and market participants, resulted in orders not receiving executions in auctions that would have otherwise occurred at prices that would have been acceptable to both parties to the execution that did not occur. To illustrate this point, the Exchange presents the following example: At the time that an Opening Auction is occurring, there is no ZBBO and the NBBO is $9.90 × $10.10. In this situation, the Volume Based Tie Breaker would be the midpoint of the NBBO,[13] which would be $10.00.[14] Based on a Volume Based Tie Breaker of $10.00, the Collar Price Range [15] would be $9.00 to $11.00 (the range from 0.90*VBTB to 1.10*VBTB). In this example, there are only two orders on the Auction Book [16] for the security: A Limit-On-Open[17] buy order for 100 shares with a limit price of $9.99 and a Market-On-Open [18] sell order for 100 shares. Without the requirement that the auction occur at the Alternate Price where a limit order from both sides does not participate in the auction, there would have been an execution of 100 shares in the Opening Auction at $9.99.[19] However, because there would be no limit orders on the sell side that would participate in the Opening Auction, under current functionality the Opening Auction would be forced to occur at the Volume Based Tie Breaker, which is $10.00. However, because the limit price of the Limit-On-Open buy order is $9.99, no execution will occur, both orders will be cancelled, and trading will transition into Regular Trading Hours.[20] This example is identical to how a Closing Auction would occur and is nearly identical to examples of how the Alternate Price could affect other auctions.

The Exchange is proposing to eliminate the language that provides an Alternate Price at which an auction will occur where no limit orders from one or both sides (the buy side, the sell side, or both the buy and sell side) would otherwise participate in an auction. As proposed, the example constructed above would result in an execution of 100 shares at $9.99, which would represent a full execution for both orders. It's worth noting that the Limit-On-Open order could have been priced as low as $9.00 (the low end of the Collar Price Range) and the auction would have occurred at the price of the Limit-On-Open order. The Exchange originally added the language that it is proposing to delete as part of a proposal to eliminate the possibility that a single, non-marketable limit order could affect the price at which an auction occurred.[21, 22] The resulting rule text, however, took the solution beyond merely preventing a single limit order from determining the price at which an auction would occur and instead provided that limit interest on both sides must participate in an auction or the auction would be forced to occur at an Alternate Price. The Exchange now believes, however, that the current rule text adopted the wrong approach to solving the problem described above, which has resulted in the unnecessary prevention of certain otherwise marketable limit orders, such as the $9.99 Limit On Open order from the example above, from executing in auctions on the Exchange. Further, the Exchange also believes that the current rule text creates an overly restrictive collar on market orders entered to participate in auctions under the conditions described above: where no limit orders participate on one or both sides of the market, a market order can never be priced more aggressively than the Alternate Price. The Exchange believes that the rule text results in the treatment of market orders that differs from the general understanding of how market orders are priced and, as mentioned above, the Exchange has received feedback from market participants and issuers indicating an agreement with this belief. The proposed amendments would result in market orders being treated in a manner similar to aggressively priced limit orders, which is more in line with the generally understood definition of a market order. This feedback from stakeholders along with an internal review of auctions occurring on the Exchange that arrived at similar conclusions have led the Exchange to believe that allowing market orders to execute at any point within the Collar Price Range regardless of whether any limit interest would participate in the auction will allow executions to occur in the auctions at prices that are more reflective of market conditions at the time of the auction by allowing marketable limit orders priced within the Collar Price Range to interact with contra-side market orders. The Exchange notes that both market and limit orders will still have several protections in place as auctions can only occur within the Collar Price Range and the protections afforded under the Exchange's clearly erroneous rules in BATS Rule 11.17 also apply to executions that occur in an auction.

Volume Based Tie Breaker

Currently, the term ''Volume Based Tie Breaker'' shall mean the midpoint of the ZBBO for a particular security. In the event that there is either no ZBB or

[13] *See* supra note 4 [sic]. By definition, where there is no ZBBO, the Volume Based Tie Breaker will be the midpoint of the NBBO.

[14] The Exchange notes that it is proposing to amend the definition of Volume Based Tie Breaker, as further described below, but none of the proposed changes would affect the outcome of this example.

[15] *See* BATS Rule 11.23(a)(6). By definition, for Opening Auctions where the Volume Based Tie Breaker is $25.00 or less, the Collar Price Range shall be the range from 10% below the VBTB to 10% above the VBTB, which would be $9.00 to $11.00 in the example above.

[16] As defined in BATS Rule 11.23(a)(1).

[17] As defined in BATS Rule 11.23(a)(14).

[18] As defined in BATS Rule 11.23(a)(16).

[19] Absent the existing Alternate Price language, the price of the Opening Auction in the above described example would be determined by the first two sentences of BATS Rule 11.23(b)(2)(B), which provide the following: ''The Opening Auction price will be established by determining the price level within the Collar Price Range that maximizes the number of shares executed between the Continuous Book and Auction Book in the Opening Auction. In the event of a volume based tie at multiple price levels, the Opening Auction price will be the price closest to the Volume Based Tie Breaker.'' In the example described above, there would be an equal number of shares that could be executed at every price level from $9.00 to $9.99, however the price of the auction would be $9.99 because that is the price level at which there is a volume based tie that is closest to the Volume Based Tie Breaker. Such language is currently the basis for determining the price of every auction that occurs on the exchange except in those instances that there is no limit interest participating in one or both sides or no auction occurs (noting that the Opening and Closing Auctions both use VBTB, while Halt and Volatility Closing Auctions use the Final Last Sale Eligible Trade and IPO Auctions use the issue price for resolving ties at multiple price levels). Further, in the event that there is no limit interest that would participate on either side of an auction (*i.e.* only market interest on both sides), such language would create the same auction price (the Alternate Price) as the language that the Exchange is proposing to delete because there would be a tie at every price level within the Collar Price Range, meaning that the price would default to the Alternate Price.

[20] As defined in BATS Rule 1.5(w).

[21] *See* Securities Exchange Act Release No. 68788 (January 31, 2013), 78 FR 8640 (February 6, 2013) (SR–BATS–2012–046) (the ''Filing''). On pages 7 and 8 of the Filing, the Exchange provides: ''Where no limit orders from either or both sides would participate in the auction, the Exchange is proposing that the auction will occur at the price of the Default Price. By providing that the auction price will be the Default Price where no limit orders from one or both sides would participate in an Exchange Auction, this proposed language [sic] would aid in price discovery and help to prevent erroneous executions by ensuring that a single limit order on one side of an auction that might not even participate in the Exchange Auction cannot on its own determine the auction price.''

[22] Prior to the changes implemented upon approval of the Filing, the language for Opening and Closing Auctions that preceded the current Alternate Price language read as follows: ''In the event that at the time of the [auction] there are no limit orders on both the Continuous Book and the Auction Book, the [auction] will occur at the price of the Final Last Sale Eligible Trade.'' For IPO and Halt Auctions, the language read as follows: ''In the event that there are no limit orders among the Eligible Auction Orders for a [auction], the [auction] will occur at the [Alternate Price].

ZBO for the security, the NBBO will be used if there is at least one limit order on either the Continuous Book[23] or the Auction Book. In the event that there is also no NBB or NBO for the security or no limit orders on the Continuous Book and the Auction Book, the price of the Final Last Sale Eligible Trade will be used.

The Exchange is proposing to eliminate the concept of ZBBO from the definition of Volume Based Tie Breaker. Specifically, the Exchange is proposing to amend the definition such that the Volume Based Tie Breaker will either be the midpoint of the NBBO or the price of the Final Last Sale Eligible Trade.

The Exchange is also proposing to validate a NBBO prior to using the midpoint of that NBBO as the Volume Based Tie Breaker. Specifically, the Exchange is proposing to validate that a NBBO is sufficiently tight to use the NBBO as a basis for establishing the Volume Based Tie Breaker as follows: A NBBO is a valid NBBO where (i) there is both a NBB and NBO for the security; (ii) the NBBO is not crossed; and (iii) the midpoint of the NBBO is less than the Maximum Percentage away from both the NBB and the NBO. The Maximum Percentage will be determined by the Exchange and will be published in a circular distributed to Members with reasonable advance notice prior to initial implementation and any change thereto. The Exchange will retain discretion to set and adjust the Maximum Percentage as it deems appropriate, but notes that the Maximum Percentage will never exceed the clearly erroneous thresholds from BATS Rule 11.17 based on the price of the security and that it will communicate any changes to the Maximum Percentage via circular to Members. The Exchange has monitored its auction process historically and believes that the initial levels that it sets for the Maximum Percentage will be appropriate. The Exchange does not anticipate adjusting the Maximum Percentage on a regular basis, however it will continue to monitor its auction process going forward and believes that retaining the discretion to increase or decrease the Maximum Percentage in order to adjust the threshold for what it believes to be a sufficiently narrow NBBO to choose a reasonable Volume Based Tie Breaker will allow it the administrative flexibility to make adjustments that will ensure sufficient protections for all participants in auctions on the Exchange. The Exchange notes that it will not apply separate standards for the Maximum Percentage on a security by security basis. Further, this discretion applies to only one of three factors in determining whether a NBBO is a Valid NBBO and where the NBBO is determined not to be a Valid NBBO, the Volume Based Tie Breaker will still be based on market conditions: the Final Last Sale Eligible Trade will be used instead of the midpoint of the NBBO. As part of this proposal, the Exchange would also eliminate the rule text requiring that there be a limit order on either the Continuous Book or the Auction Book for the midpoint of the NBBO to be used as the Volume Based Tie Breaker.

Reference Price Range

Currently, the term Reference Price Range means the range from the ZBB to the ZBO for a particular security. In the event that there is either no ZBB or ZBO for the security, the NBBO will be used if there is at least one limit order on either the Continuous Book or the Auction Book. In the event that there is also either no NBB or NBO for the security or no limit orders on the Continuous Book and the Auction Book, the price of the Final Last Sale Eligible Trade will be used.

The Exchange is proposing to amend the definition of Reference Price Range in order to eliminate the concept of ZBBO from the calculation of the Reference Price Range. Specifically, the Exchange is proposing to amend the definition such that the Reference Price Range will either be the range from the NBB to the NBO for a particular security or the price of the Final Last Sale Eligible Trade. As part of this proposal, the Exchange would also eliminate the rule text requiring that there be a limit order on either the Continuous Book or the Auction Book for the Reference Price Range to be the range from the NBB to the NBO.

LLOC and LLOO

The Exchange is proposing to amend the definition of LLOC and LLOO orders to eliminate the use of ZBBO in pricing the orders. Currently, the Exchange first looks to the ZBBO to determine the most aggressive price that LLOC and LLOO orders can be priced and, where there is no ZBB or ZBO, the Exchange instead looks to the NBB or NBO, respectively. Where there is no NBB or NBO, the Exchange allows the LLOC or LLOO bid or offer, respectively, to be priced at its entered limit price. The Exchange is proposing to eliminate the ZBBO component of the process and instead to either restrict an order's price based on the NBBO or, absent either a NBB or NBO, to allow a bid or offer, respectively, to be priced at its entered limit price. As part of these proposed changes, the Exchange is also proposing to add language to make clear that a LLOC or LLOO bid will only be priced as aggressively as the NBB, even if there is no NBO and that an offer will only be priced as aggressively as the NBO, even if there is no NBB. Currently, the rule states that if there is no NBBO, the LLOC or LLOO will assume its entered limit price. The Exchange is proposing to make clear that where there is no NBB, a LLOC or LLOO bid will assume its entered limit price and where there is no NBO, a LLOC or LLOO offer will assume its entered limit price. A LLOC or LLOO bid will not assume its entered price only because there is no NBO and a LLOC or LLOO offer will not assume its entered price only because there is no NBB. This is consistent with existing behavior and is merely intended to provide additional clarity about how LLOC and LLOO orders are priced.

ZBBO

In conjunction with the changes proposed above, the Exchange is also proposing to delete Rule 11.23(a)(24) which defines the terms ZBB, ZBO, and ZBBO because the Exchange is also proposing to delete each reference to ZBB, ZBO, and ZBBO in its rules and the definition is no longer necessary.

2. *Statutory Basis*

The Exchange believes that the rule change proposed in this submission is consistent with the requirements of the Act and the rules and regulations thereunder that are applicable to a national securities exchange, and, in particular, with the requirements of Section 6(b) of the Act.[24] Specifically, the proposed change is consistent with Section 6(b)(5) of the Act,[25] because it would promote just and equitable principles of trade, remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, protect investors and the public interest. Generally, the Exchange believes that the proposed changes will improve the price discovery process for securities listed on the Exchange along with those additional benefits enumerated below.

Limit Order Participation

The Exchange believes that the proposed amendments to each of the Opening Auction, Closing Auction, IPO and Halt Auction, and Volatility Closing Auction would promote just and equitable principles of trade, remove

[23] As defined in BATS Rule 11.23(a)(7).

[24] 15 U.S.C. 78f(b).

[25] 15 U.S.C. 78f(b)(5).

impediments to and perfect the mechanism of a free and open market and a national market system and, in general, protect investors and the public interest in that it would eliminate a protection from the auction process that, as described above, was more restrictive than anticipated. As stated above, the current implementation that provides that an auction must occur at an Alternate Price where there would not be limit order participation on both sides of an auction was intended to eliminate the possibility that a single, non-marketable limit order could affect the price at which an auction occurred.[26] However, as illustrated by the examples above, the current rule text went beyond merely preventing a single limit order from determining the price at which an auction would occur and instead provided that limit interest on both sides must participate in an auction or the auction would be forced to occur at an Alternative Price. The Exchange now believes, however, that the current rule text adopted the wrong approach to solving the problem described above, which has resulted in the unnecessary prevention of certain otherwise marketable limit orders, such as the $9.99 Limit On Open order from the example above, from executing in auctions on the Exchange. Further, the Exchange also believes that the current rule text creates an overly restrictive collar on market orders entered to participate in auctions under the conditions described above: where no limit orders participate on one or both sides of the market, a market order can never be priced more aggressively than the Alternate Price. The Exchange believes that the rule text results in the treatment of market orders that differs from the general understanding of how market orders are priced and, as mentioned above, the Exchange has received feedback from market participants and issuers indicating an agreement with this belief. As such, the Exchange believes that the proposal would promote just and equitable principles of trade, remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, protect investors and the public interest by allowing executions to occur in auctions at prices that are more reflective of market conditions at the time of the auction by allowing marketable limit orders priced within the Collar Price Range to interact with contra-side market orders. The Exchange emphasizes that it is not proposing to allow market orders to participate in its auctions without any price protections. Rather, the Exchange is proposing to treat market orders in its auctions in a manner broadly consistent with the rules of other exchanges.[27] The Exchange believes that the Collar Price Range, which is based on the clearly erroneous standards in BATS Rule 11.17, and the clearly erroneous process in BATS Rule 11.17, which applies to executions in the auctions and could be used to cancel any executions to which it applies, provide sufficient protections against executions in the auctions occurring at extreme prices. As such, the Exchange believes that a better characterization is that the Exchange is proposing to treat market orders in a manner more similar to aggressively priced limit orders, which is more in line with the generally understood meaning of a market order. With this in mind, the Exchange believes that the proposed amendments to eliminate the Alternate Price where there would not be limit order participation on both sides of an auction would promote just and equitable principles of trade, remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, protect investors and the public interest.

[26] *See* supra notes 21 and 22.

[27] *See* NYSE Arca, Inc. (''Arca'') Rule 7.35 and NASDAQ Stock Market LLC (''Nasdaq'') Rules 4752, 4753, and 4754. While each of the exchanges have very diverse rules governing auctions/crosses on their respective venues, neither Arca nor Nasdaq have a comparable requirement that unless limit interest from both sides would participate in the auction, the auction will occur at a default price. As such, the Exchange believes that elimination of the requirement is broadly consistent with the rules of other exchanges.

Volume Based Tie Breaker

The Exchange believes that the proposed amendments to the Volume Based Tie Breaker would promote just and equitable principles of trade, remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, protect investors and the public interest in that it would ensure that the Volume Based Tie Breaker would be calculated using a full picture of the market in a particular security by looking to the NBBO instead of the ZBBO, regardless of whether there are any limit orders on the Continuous Book or Auction Book. Because the NBBO by definition accounts for the ZBBO, the NBBO will always be equal to or tighter than the ZBBO, which the Exchange believes creates a Volume Based Tie Breaker that better reflects current market conditions. Further to this point, the Exchange believes that creating a process to validate the NBBO or, where the NBBO is not valid, to use the Final Last Sale Eligible Trade will promote just and equitable principles of trade, remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, protect investors and the public interest in that it will ensure that the NBBO is sufficiently tight to guarantee that the midpoint of the NBBO would be a meaningful and accurate Volume Based Tie Breaker.

Reference Price Range

The Exchange believes that the proposed amendments to the definition of Reference Price Range would promote just and equitable principles of trade, remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, protect investors and the public interest in that it would ensure that the Reference Price Range would be calculated using a full picture of the market in a particular security by looking to the NBBO instead of the ZBBO, regardless of whether there are any limit orders on the Continuous Book or Auction Book. Because the NBBO by definition accounts for the ZBBO, the NBBO will always be equal to or tighter than the ZBBO, which the Exchange believes creates a Reference Price Range that better reflects current market conditions.

LLOC and LLOO

The Exchange believes that the proposed amendments to the definition of LLOC and LLOO would promote just and equitable principles of trade, remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, protect investors and the public interest in that it would ensure that the LLOC and LLOO orders would be priced using a full picture of the market in a particular security by looking to the NBBO instead of the ZBBO. Because the NBBO by definition accounts for the ZBBO, the NBBO will always be equal to or tighter than the ZBBO, which the Exchange believes provides a better basis by which to price a LLOC or LLOO order because it better reflects current market conditions. The Exchange also believes that the clarifying changes to the definitions of LLOC and LLOO explained above will contribute to the protection of investors and the public interest by making the functionality of LLOC and LLOO orders as clear as possible.

ZBBO

The Exchange believes that the non-substantive proposal to delete the

definitions of ZBB, ZBO, and ZBBO, as discussed above, will contribute to the protection of investors and the public interest by eliminating the definition of a term that is no longer used in the Exchange's Rules which will make the Exchange's Rules easier to understand and help to avoid confusion.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the act. To the contrary, allowing the Exchange to make the above proposed modifications to Rule 11.23 in order to allow an auction to occur at a price that is not the Alternate Price where there isn't limit interest on both sides (Limit Order Participation), to eliminate the use of ZBB, ZBO, and ZBBO from the auction process (Volume Based Tie Breaker, Reference Price Range, LLOC and LLOO, and ZBBO), to validate the NBBO before using it to establish the Volume Based Tie Breaker (Volume Based Tie Breaker), and to eliminate the requirement that there be at least one limit order on either the Continuous Book or the Auction Book in order to use the NBBO for the Volume Based Tie Breaker or the Reference Price (Volume Based Tie Breaker and Reference Price) will, in the aggregate, allow the Exchange to better compete with other exchanges as a listing venue by improving the Exchange's auction process by allowing more executions to occur at more reasonable prices that are based on market-wide pricing. As mentioned above, the Exchange has received feedback from market participants and issuers alike regarding these issues and the proposed amendments will both address this feedback and improve the Exchange's auction process, allowing it to better compete as both a listing and execution venue.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange has not solicited, and does not intend to solicit, comments on the proposed rule change. The Exchange has, however, as described above, received unsolicited comments from both Members and issuers that helped lead to the changes proposed herein.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange has filed the proposed rule change pursuant to Section 19(b)(3)(A)(iii) of the Act [28] and Rule 19b–4(f)(6) thereunder.[29] Because the proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative prior to 30 days from the date on which it was filed, or such shorter time as the Commission may designate, if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act [30] and Rule 19b–4(f)(6) thereunder.[31]

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (*http://www.sec.gov/rules/sro.shtml*); or
- Send an email to *rule-comments@sec.gov.* Please include File Number SR–BATS–2015–31 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE., Washington, DC 20549–1090.

All submissions should refer to File Number SR–BATS–2015–31. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (*http://www.sec.gov/rules/sro.shtml*). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for Web site viewing and printing in the Commission's Public Reference Room, 100 F Street NE., Washington, DC 20549 on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of such filing also will be available for inspection and copying at the principal offices of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR–BATS–2015–31, and should be submitted on or before May 7, 2015.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.[32]

Brent J. Fields,

Secretary.

BILLING CODE 8011–01–P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–74708; File No. SR–EDGX–2015–16]

Self-Regulatory Organizations; EDGX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change Related to Fees for Use of EDGX Exchange, Inc.

April 10, 2015.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"),[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on April 1,

---

[28] 15 U.S.C. 78s(b)(3)(A)(iii).

[29] 17 CFR 240.19b–4(f)(6).

[30] 15 U.S.C. 78s(b)(3)(A).

[31] 17 CFR 240.19b–4(f)(6). In addition, Rule 19b–4(f)(6)(iii) requires the Exchange to give the Commission written notice of the Exchange's intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

[32] 17 CFR 200.30–3(a)(12).

[1] 15 U.S.C. 78s(b)(1).

[2] 17 CFR 240.19b–4.

2015, EDGX Exchange, Inc. (the ''Exchange'' or ''EDGX'') filed with the Securities and Exchange Commission (''Commission'') the proposed rule change as described in Items I, II and III below, which Items have been prepared by the Exchange. The Exchange has designated the proposed rule change as one establishing or changing a member due, fee, or other charge imposed by the Exchange under section 19(b)(3)(A)(ii) of the Act[3] and Rule 19b–4(f)(2) thereunder,[4] which renders the proposed rule change effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange filed a proposal to amend its fees and rebates applicable to Members[5] of the Exchange pursuant to EDGX Rule 15.1(a) and (c) (''Fee Schedule'') to: (i) Amend the fees charged for and description of the logical ports[6] offered; and (ii) make a series of immaterial, non-substantive changes.

The text of the proposed rule change is available at the Exchange's Web site at *www.batstrading.com,* at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to: (i) Amend the fees charged for and description of the logical ports offered; and (ii) make a series of immaterial, non-substantive changes.

Logical Ports

Currently, the Exchange maintains logical ports for order entry, drop copies, testing, and market data for which it currently charges $500 per month per port, with the first two (2) ports provided free of charge. Ports used to request a re-transmission of market data from the Exchange are also provided free of charge.

In early 2014, the Exchange and its affiliate, EDGA Exchange, Inc. (''EDGA''), received approval to effect a merger (the ''Merger'') of the Exchange's parent company, Direct Edge Holdings LLC, with BATS Global Markets, Inc., the parent of BZX and BYX (together with BZX, EDGA, and EDGX, the ''BGM Affiliated Exchanges'').[7] In the context of the Merger, the BGM Affiliated Exchanges are working to align certain system and regulatory functionality, retaining only intended differences between the BGM Affiliated Exchanges. This includes migrating the BGM Affiliated Exchanges, which are currently located in different data centers, into a single data center. As part of the data center migration, the operation and categorization of logical ports provided to access the Exchange would be identical to those utilized to access BZX and BYX. Therefore, the Exchange proposes to harmonize its description of logical ports within its Fee Schedule to align with the descriptions included in the BZX and BYX fee schedules.[8] As a result, the Exchange also proposes to no longer provide free of charge: (i) The first two (2) logical ports per month; and (ii) ports used to request a re-transmission of market data from the Exchange. The Exchange communicated to Members and non-Members of [sic] these changes via a trading notice issued on October 7, 2014.[9]

First, the Exchange proposes to harmonize its description of logical ports within its Fee Schedule to align with the descriptions included in the BZX and BYX fee schedules. As part of the data center migration discussed above, the operation and categorization of ports provided to access the Exchange would be identical to those utilized to access BZX and BYX. Currently, the Exchange charges direct session logical ports fees of $500 per month and separately categorizes those ports as FIX, EDGE XPRS (HPI–API), Data, DROP, EdgeRisk. To harmonize the description of the logical ports offered with those of BZX and BYX, the Exchange proposes to no longer individually list the available ports (other than Multicast PITCH Spin Server and GRP ports described below) as all of the above are encompassed under the term logical ports. In addition, EdgeRisk ports will also no longer be separately listed within in [sic] the Fee Schedule. EdgeRisk ports enable Members, and non-Member service bureaus that act as conduits for orders entered by Members that are their customers, access to a System[10] test environment through which they can test their automated systems that integrate with the Exchange.[11] Under BATS technology, Members and non-Members would no longer need a dedicated port to access the Exchange's test environment as they would be able to utilize any of their existing ports to do so. Therefore, the Exchange proposes to not individually list EdgeRisk as a separate logical port.

Second, other than no longer providing certain ports free of charge as described below, the Exchange does not propose to amend the monthly fee [sic] logical port fees. All logical ports will continue to be subject to a fee of $500 per month per port. In addition, logical port fees proposed above would be limited to logical ports in the Exchange's primary data center and no logical port fees would be assessed for redundant secondary data center ports. In addition, the Exchange also proposes to no longer provide the first two (2) logical ports free of charge. The Exchange, like BZX and BYX, will assess the monthly per logical port fees

[3] 15 U.S.C. 78s(b)(3)(A)(ii).

[4] 17 CFR 240.19b–4(f)(2).

[5] The term ''Member'' is defined as ''any registered broker or dealer, or any person associated with a registered broker or dealer, that has been admitted to membership in the Exchange. A Member will have the status of a ''member'' of the Exchange as that term is defined in Section 3(a)(3) of the Act.'' *See* Exchange Rule 1.5(n).

[6] A logical port is commonly referred to as a TCP/IP port, and represents a port established by the Exchange within the Exchange's system for trading and billing purposes. Each logical port established is specific to a Member or non-member and grants that Member or non-member the ability to operate a specific application, such as FIX order entry or Multicast PITCH data receipt.

[7] *See* Securities Exchange Act Release No. 71449 (January 30, 2014), 79 FR 6961 (February 5, 2014) (SR–EDGX–2013–043; SR–EDGA–2013–034).

[8] The Exchange notes that EDGA intends to file a proposal very similar to this proposal that will align its logical port fees across each of the BGM Affiliated Exchanges. The Exchange also notes that BZX and BYX also intend to file a proposal to increase its port fees from $400 per month per port to $500 per month per port as well as to change references to ''GRP Ports'' to ''Multicast PITCH GRP Ports''.

[9] *See* BATS Global Markets Access Fee Changes for 2015, *available at http://cdn.batstrading.com/resources/fee_schedule/2015/BATS-Global-Markets-Access-Services-Fee-Changes-for-2015.pdf* (issued October 7, 2014).

[10] The term ''System'' is defined in Rule 1.5(cc).

[11] *See* Securities Exchange Act Release Nos. 69670 (May 30, 2013), 78 FR 33871 (June 5, 2013) (SR–EDGX–2013–18); *and* 69669 (May 30, 2013), 78 FR 33880 (June 5, 2013) (SR–EDGA–2013–14).

for all of a Member and non-Member's logical ports.

Currently, the Exchange provides ports used to request a retransmission of data free of charge. Going forward, the Exchange would no longer offer such ports free of charge, as proposed below. There are currently two types of logical ports used to request and receive a retransmission of data from the Exchange,[12] Multicast PITCH Spin Server Ports and Multicast PITCH GRP Ports. The Exchange's Multicast PITCH data feed is available from two primary feeds, identified as the ''A feed'' and the ''C feed'', which contain the same information but differ only in the way such feeds are received. The Exchange also offers two redundant fees, identified as the ''B feed'' and the ''D feed.''

The Exchange proposes to offer Multicast PITCH Spin Server Ports for a fee of $500 per month for a set of primary ports (A or C feed) and Multicast PITCH GRP Ports for a fee of $500 per month for a primary port (A or C feed). The Exchange will continue to offer for free the ports necessary to receive the Exchange's redundant Multicast ''B feed'' and ''D feed'', as well as all ports made available in the Exchange's secondary data center. Accordingly, this proposal only applies to ports used to receive an Exchange primary Multicast PITCH feeds at the Exchange's primary data center. The proposed fees for Multicast PITCH Spin Server Ports and GRP Ports are identical to those charged by BZX and BYX.

Lastly, the Exchange proposes to rename this section of its Fee Schedule entitled ''Port Fees'' as ''Logical Port Fees.''

Non-Substantive Changes

The Exchange also proposes to make a series of immaterial, non-substantive changes to its Fee Schedule. None of the changes proposed are intended to amend any fee or rebate. These changes are:

- Remove the word ''the'' from the description of fee code D;
- Remove the word ''the'' from the description of fee code RN;
- Amend footnote 2 to add a colon after Tape B Step Up Tier;
- Amend the Market Data Section to add a colon after BATS One Feed℠;
- Add a colon after ConnectEdge; and
- Add a colon after Licensing and Continuing Education.

Implementation Date

The Exchange proposes to implement these amendments to its Fee Schedule on April 1, 2015.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the objectives of Section 6 of the Act,[13] in general, and furthers the objectives of Section 6(b)(4),[14] in particular, as it is designed to provide for the equitable allocation of reasonable dues, fees and other charges among its Members and other persons using its facilities. The Exchange also notes that it operates in a highly-competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive. The proposed rule change reflects a competitive pricing structure designed to incent market participants to direct their order flow to the Exchange. The Exchange believes that the proposed rates are equitable and non-discriminatory in that they apply uniformly to all Members. The Exchange believes the fees and credits remain competitive with those charged by other venues and therefore continue to be reasonable and equitably allocated to Members.

Logical Ports

The Exchange believes that the proposed rule change is consistent with Section 6(b)(4) of the Act,[15] in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and other persons using any facility or system which the Exchange operates or controls. The Exchange notes that its proposed changes, combined with the planned filings for EDGA, BZX and BYX,[16] would allow the BGM Affiliated Exchanges to provide consistent logical port offerings across each of the BGM Affiliated Exchanges. Consistent offerings, in turn, will simplify the connectivity requirements for Members of the Exchange that are also participants on EDGA, BZX and/or BYX. The proposed rule change would result in greater uniformity and less burdensome and more efficient understanding of Exchange connectivity requirements.

The Exchange also believes that no longer providing the first two (2) logical ports for free as well as ports used to request a retransmission of market data also represents an equitable allocation of reasonable dues, fees and other charges. The Exchange operates in a highly competitive market in which exchanges offer connectivity services as a means to facilitate the trading activities of members and other participants. Accordingly, fees charged for connectivity are constrained by the active competition for the order flow of such participants as well as demand for market data from the Exchange. If a particular exchange charges excessive fees for connectivity, affected members will opt to terminate their connectivity arrangements with that exchange, and adopt a possible range of alternative strategies, including routing to the applicable exchange through another participant or market center or taking that exchange's data indirectly. Accordingly, the exchange charging excessive fees would stand to lose not only connectivity revenues but also revenues associated with the execution of orders routed to it by affected members, and, to the extent applicable, market data revenues. The Exchange believes that this competitive dynamic imposes powerful restraints on the ability of any exchange to charge unreasonable fees for connectivity. Lastly, the Exchange believe its proposed fees are reasonable because the Nasdaq Stock Market LLC (''Nasdaq'') and the NYSE Arca, Inc. (''NYSE Arca'') do not provide logical ports or ports used for the retransmission of market data free of charge.[17]

The Exchange believes that its proposed changes to logical port fees are reasonable in light of the benefits to Exchange participants of direct market access and receipt of data. In addition, the Exchange believes that its fees are equitably allocated among Exchange constituents based upon the number of access ports that they require to receive data from the Exchange. Further, the Exchange believes that its fees are not unreasonably discriminatory because all market participants are charged standard fees for port usage. The Exchange notes that it believes its prior fee structure, under which two ports were provided free of charge, was reasonable, equitably allocated and not unreasonably discriminatory because it was available to all market participants and was intended to encourage Members and non-members to connect to the Exchange. However, by moving towards a more uniform approach to

[12] FIX and BOE ports are the only ports that may be used to send orders and related instructions to the Exchange. All other port types, including the Multicast PITCH Spin Server Port and GRP Port, permit Members and non-members to receive information from the Exchange.

[13] 15 U.S.C. 78f.

[14] 15 U.S.C. 78f(b)(4).

[15] 15 U.S.C. 78f(b)(4).

[16] *See* supra note 8.

[17] *See* Nasdaq Rule 7015 (providing no FIX or non-Trading FIX ports free of charge) *and* the NYSE Arca fee schedule *available at https://www.nyse.com/publicdocs/nyse/markets/nyse-arca/NYSE_Arca_Marketplace_Fees.pdf* (dated February 26, 2105).

port descriptions and charges across the BGM Affiliated Exchanges, the Exchange believes that its fees are even more equitably allocated and nondiscriminatory. The Exchange also believes that its fees for access services will enable it to better cover its infrastructure costs and to improve its market technology and services.

Lastly, the Exchange also believes that the proposed amendments to its fee schedule are non-discriminatory because they will apply uniformly to all Members. All Members that voluntarily select various service options will be charged the same amount for the same services. All Members have the option to select any connectivity option, and there is no differentiation among Members with regard to the fees charged for the services offered by the Exchange.

Non-Substantive Changes

The Exchange believes that the non-substantive clarifying changes to its Fee Schedule are equitable, reasonable, and non-discriminatory because none of the proposed changes are designed to amend any fee, nor alter the manner in which it assesses fees or calculates rebates. These non-substantive changes to the Fee Schedule are intended to make the Fee Schedule clearer and less confusing for investors and eliminate potential investor confusion, thereby removing impediments to and perfecting the mechanism of a free and open market and a national market system, and, in general, protecting investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange believes its proposed amendments to its Fee Schedule would not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange does not believe that the proposed change represents a significant departure from previous pricing offered by the Exchange or pricing offered by the Exchange's competitors. Additionally, Members may opt to disfavor the Exchange's pricing if they believe that alternatives offer them better value. Accordingly, the Exchange does not believe that the proposed change will impair the ability of Members or competing venues to maintain their competitive standing in the financial markets.

Logical Ports

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange notes that, other than no longer providing two (2) ports or ports used for the retransmission of market data for free each month, it does not proposes to alter the fees charged from their current levels. As discussed above, the Exchange believes that fees for connectivity are constrained by the robust competition for order flow among exchanges and non-exchange markets. Further, excessive fees for connectivity, including logical port fees, would serve to impair an exchange's ability to compete for order flow rather than burdening competition. In addition, allowing the Exchange to implement substantively identical logical port fees across each of the BGM Affiliated Exchanges does not present any competitive issues, but rather is designed to provide greater harmonization among Exchange, BYX, BZX, and EDGA. Lastly, the Exchange believes the proposal to no longer provide two (2) ports or ports used for the retransmission of market data for free each month would enhance intermarket competition because Nasdaq and NYSE Arca do not provide logical ports or ports used for the retransmission of market data free of charge.[18] The Exchange also does not believe the proposed rule change would impact intramarket competition as it would apply to all Members and non-Members equally.

Non-Substantive Changes

The Exchange believes that the non-substantive changes to the Fee Schedule will not affect intermarket nor intramarket competition because none of these changes are designed to amend any fee or alter the manner in which the Exchange assesses fees or calculates rebates.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from Members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act[19] and paragraph (f) of Rule 19b–4 thereunder.[20] At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (*http://www.sec.gov/rules/sro.shtml*); or
- Send an email to *rule-comments@sec.gov.* Please include File Number SR–EDGX–2015–16 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE., Washington, DC 20549–1090.

All submissions should refer to File Number SR–EDGX–2015–16. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (*http://www.sec.gov/rules/sro.shtml).* Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for Web site viewing and printing in the Commission's Public Reference Room, 100 F Street NE., Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR–EDGX–

Foreign Affairs Policy Board Meeting Notice

AGENCY: Department of State.

Closed Meeting

In accordance with the Federal Advisory Committee Act, 5 U.S.C. App., the Department of State announces a meeting of the Foreign Affairs Policy Board to take place on April 30, 2015, at the Department of State, Washington, DC.

The Foreign Affairs Policy Board reviews and assesses: (1) Global threats and opportunities; (2) trends that implicate core national security interests; (3) tools and capacities of the civilian foreign affairs agencies; and (4) priorities and strategic frameworks for U.S. foreign policy. Pursuant to section 10(d) of the Federal Advisory Committee Act, 5 U.S.C. App section 10(d), and 5 U.S.C. 552b(c)(1), it has been determined that this meeting will be closed to the public as the Board will be reviewing and discussing matters properly classified in accordance with Executive Order 13526.

For more information, contact Gloria Lee at (202) 647–1965.

Dated: April 13, 2015.

Andrew McCracken,

Designated Federal Officer.

[FR Doc. 2015–08864 Filed 4–15–15; 8:45 am]

BILLING CODE 4710–10–P

DEPARTMENT OF STATE

[Public Notice 9098]

In the Matter of the Designation of Ali Ouni Harzi Also Known as Ali Harzi Also Known as Ali Bin Al-tahar Bin Al-falah Al-ouni Al-Harzi as a Specially Designated Global Terrorist Pursuant to Section 1(b) of Executive Order 13224, as Amended

Acting under the authority of and in accordance with section 1(b) of Executive Order 13224 of September 23, 2001, as amended by Executive Order 13268 of July 2, 2002, and Executive Order 13284 of January 23, 2003, I hereby determine that the individual known as Ali Ouni Harzi, also known as Ali Harzi, also known as Ali Bin Al-tahar Bin Al-falah Al-ouni Al-Harzi, committed, or poses a significant risk of committing, acts of terrorism that threaten the security of U.S. nationals or the national security, foreign policy, or economy of the United States.

Consistent with the determination in section 10 of Executive Order 13224 that ''prior notice to persons determined to be subject to the Order who might have a constitutional presence in the United States would render ineffectual the blocking and other measures authorized in the Order because of the ability to transfer funds instantaneously,'' I determine that no prior notice needs to be provided to any person subject to this determination who might have a constitutional presence in the United States, because to do so would render ineffectual the measures authorized in the Order.

This notice shall be published in the **Federal Register**.

Dated: March 30, 2015.

John F. Kerry,

Secretary of State.

BILLING CODE 4710–10–P

DEPARTMENT OF STATE

[Public Notice: 9095]

Provision of Certain Temporary and Limited Sanctions Relief Under the National Defense Authorization Act for Fiscal Year 2012 in Order To Continue Implementing the Joint Plan of Action of November 24, 2013 Between the P5+1 and the Islamic Republic of Iran, as Extended Through June 30, 2015

AGENCY: Department of State.

ACTION: Notice.

SUMMARY: On November 24, 2013, the United States and its partners in the P5+1—France, the United Kingdom, Russia, China, and Germany—reached an initial understanding with Iran, outlined in a Joint Plan of Action (JPOA),that halts progress on its nuclear program and rolls it back in key respects. In return, the P5+1 committed to provide limited, temporary, and targeted sanctions relief to Iran.

The JPOA was renewed by mutual consent of the P5+1 and Iran on July 19, 2014, and again on November 24, 2014, extending the temporary sanctions relief provided under the JPOA to cover the period beginning on November 24, 2014, and ending June 30, 2015 (the Extended JPOA Period), in order to continue negotiations aimed at achieving a long-term comprehensive solution to ensure that Iran's nuclear program will be exclusively peaceful.

This Notice outlines the U.S. Government (USG) actions taken to extend certain sanctions relief under the National Defense Authorization Act for Fiscal Year 2012 as part of this understanding.

DATES: *Effective Date:* The effective dates of these waiver actions are as described in the determinations set forth below.

FOR FURTHER INFORMATION CONTACT: On general issues: Paul Pavwoski, Office of Economic Sanctions Policy and Implementation, Department of State, Telephone: (202) 647–8836.

SUPPLEMENTARY INFORMATION: The U.S. government has executed temporary, partial waivers of certain sanctions under the National Defense Authorization Act for Fiscal Year 2012 (NDAA), in order to continue implementing the sanctions relief under the JPOA. All U.S. sanctions not explicitly waived or suspended pursuant to the JPOA as extended remain fully in force, including sanctions on transactions with individuals and entities on the SDN List unless otherwise specified.

Furthermore, U.S. persons and foreign entities owned or controlled by U.S. persons (''U.S.-owned or -controlled foreign entities'') continue to be generally prohibited from conducting transactions with Iran, including any transactions of the types permitted pursuant to the JPOA as extended, unless licensed to do so by OFAC. The U.S. government will continue to enforce U.S. sanctions laws and regulations against those who engage in sanctionable activities that are not covered by the suspensions and temporary waivers issued pursuant to the JPOA as extended.

Sanctions suspended under the NDAA are scheduled to resume on July 1, 2015 unless further action is taken by the P5+1 and Iran and subsequent waivers are issued by the U.S. government. Companies engaging in activities covered by the temporary sanctions relief described in this notice should expect sanctions to apply to any activities that extend beyond the current end date of the Extended JPOA Period, June 30, 2015. The temporary suspension of sanctions applies only to activities that begin and end during the period January 20, 2014 to June 30, 2015.

[21] 17 CFR 200.30–3(a)(12).

The Secretary of State took the following actions:

Acting under the authorities vested in me as Secretary of State, including through the applicable delegations of authority, I hereby make the following determinations and certifications:

Pursuant to section 1245(d)(5) of the National Defense Authorization Act for Fiscal Year 2012, I determine that it is in the national security interest of the United States to waive the imposition of sanctions under Section 1245(d)(1) with respect to:

(1) Foreign financial institutions under the primary jurisdiction of China, India, Japan, the Republic of Korea, the authorities on Taiwan, and Turkey, subject to the following conditions:

a. This waiver shall apply to a financial transaction only for trade in goods and services between Iran and the country with primary jurisdiction over the foreign financial institution involved in the financial transaction (but shall not apply to any transaction for the sale, supply, or transfer to Iran of precious metals involving funds credited to an account described in paragraph (b));

b. any funds owed to Iran as a result of such trade shall be credited to an account located in the country with primary jurisdiction over the foreign financial institution involved in the financial transaction; and

c. with the exception that certain foreign financial institutions notified directly in writing by the U.S. Government may engage in financial transactions with the Central Bank of Iran in connection with the repatriation of revenues and the establishment of a financial channel, to the extent specifically provided for in the Joint Plan of Action of November 24, 2013, as extended; and

(2) foreign financial institutions under the primary jurisdiction of Switzerland that are notified directly in writing by the U.S. Government, to the extent necessary for such foreign financial institutions to engage in financial transactions with the Central Bank of Iran: (i) Within the scope of the waiver of Sections 1245(a)(1) and 1245(c) of the Iran Freedom and Counter-Proliferation Act of 2012 (subtitle D of title XXI of Public Law 112–239, 22 U.S.C. 8801 *et seq.*) (IFCA) issued on November 25, 2014 and any extension of that waiver; and (ii) in connection with the repatriation of revenues and the establishment of a financial channel as specifically provided for in the Joint Plan of Action of November 24, 2013, as extended.

(3) Foreign financial institutions under the primary jurisdiction of Oman that are notified directly in writing by the U.S. Government, to the extent necessary for such foreign financial institutions to engage in financial transactions with the Central Bank of Iran in connection with the repatriation of revenues and the establishment of a financial channel as specifically provided for in the Joint Plan of Action of November 24, 2013, as extended; and

(4) Foreign financial institutions under the primary jurisdiction of South Africa subject to the following conditions:

a. This waiver shall apply to a financial transaction only for trade in goods and services between Iran and South Africa (but shall not apply to any transaction for the purchase of crude oil from Iran or any transaction for the sale, supply, or transfer to Iran of precious metals involving funds credited to an account described in paragraph (b));

b. any funds owed to Iran as a result of such trade shall be credited to an account located in South Africa; and

c. with the exception of certain foreign financial institutions notified directly in writing by the U.S. government to the extent necessary for such financial institutions to engage in financial transactions with the Central Bank of Iran within the scope of the waiver of Sections 1245(a)(1) and 1245(c) of IFCA issued on November 25, 2014 and any extension of that waiver.

This waiver shall take effect upon their transmittal to Congress.

(Signed John F. Kerry, Secretary of State)

Therefore, these sanctions have been waived as described in the determinations above. Relevant agencies and instrumentalities of the United States Government shall take all appropriate measures within their authority to carry out the provisions of this notice.

Dated: April 6, 2015.

Kurt W. Tong,

Acting Assistant Secretary for Economic and Business Affairs.

BILLING CODE 4710–07–P

DEPARTMENT OF STATE

[Public Notice: 9094]

Industry Advisory Group; Notice of Open Meeting

The Industry Advisory Group (IAG) of the Bureau of Overseas Buildings Operations (OBO) will meet on Thursday, May 7 from 10:00 a.m. until 12:00 p.m. Eastern Daylight Time. The meeting is open to the public and will be held in the Loy Henderson Conference Room of the U.S. Department of State, located at 2201 C Street NW., (entrance on 23rd Street) Washington, DC. For logistical and security reasons, the public must enter and exit the building using only the 23rd Street entrance.

This committee serves the U.S. government in a solely advisory capacity concerning industry and academia's latest concepts, methods, best practices, innovations, and ideas related to OBO's mission to provide safe, secure, and functional facilities that represent the U.S. government to the host nation and support our staff in the achievement of U.S. foreign policy objectives. These facilities should represent American values and the best in American architecture, engineering, technology, sustainability, art, culture, and construction execution.

The majority of the meeting will be devoted to an exchange of ideas between the Department's senior management and IAG representatives, with reasonable time provided for members of the public to provide comment.

Admittance to the State Department building will be by means of a pre-arranged clearance list. To register for the meeting, please visit the OBO Web site at *http://overseasbuildings.state.gov/* for the registration page by Friday, April 24. In order to register, you must provide the following information: first and last name, company/firm name, date of birth, country of citizenship, and the number and issuing country/state associated with a valid government-issued ID (*i.e.,* U.S. government ID, U.S. military ID, passport, or driver's license). Requests for reasonable accommodation should also be sent to the same email address by April 24. The public may attend this meeting as seating capacity allows. Requests made after that date will be considered, but may not be able to be fulfilled.

Personal data is requested pursuant to Pub. L. 99–399 (Omnibus Diplomatic Security and Antiterrorism Act of 1986), as amended; Pub. L. 107–56 (USA PATRIOT Act); and E.O. 13356. The purpose of the collection is to validate the identity of individuals who enter Department facilities. The data will be entered into the Visitor Access Control System (VACS–D) database.

Please see the Security Records System of Records Notice (State-36) at *http://www.state.gov/documents/organization/103419.pdf* for additional information.

Please contact Christy Foushee at *FousheeCT@state.gov* or (703) 875–4131 with any questions.

Dated: April 1, 2015.

Lydia Muniz,

Director, U.S. Department of State, Bureau of Overseas Buildings Operations.

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

[Docket No. DOT–OST–2015–0083]; [OMB No. 2105–0551]

RIN 2105–ADO4

Application to Renew Information Collection Request

AGENCY: Office of the Secretary, Department of Transportation (Department).

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35, as amended) this notice announces the Department's intention to apply to the Office of Management and Budget (OMB) to renew approval of the information collection request (ICR) OMB No. 2105–0551, ''Reporting Requirements for Disability-Related Complaints.''

DATES: Comments on this notice must be received by June 15, 2015.

ADDRESSES: You may submit comments [identified by Docket No. DOT–OST–2015–0083] through one of the following methods:

- *Federal eRulemaking Portal: http://www.regulations.gov.* Follow the online instructions for submitting comments.
- *Fax:* 1–202–493–2251
- *Mail:* Docket Management Facility, U.S. Department of Transportation, 1200 New Jersey Avenue SE., Washington, DC 20590.
- *Hand Delivery:* West Building, Ground Floor, Rm. W–12–140, 1200 New Jersey Ave. SE., Washington, DC 20590–0001 (between 9 a.m. and 5 p.m. EST, Monday through Friday, except on Federal holidays).

FOR FURTHER INFORMATION CONTACT: Maegan Johnson, Office of the General Counsel, Office of the Secretary, U.S. Department of Transportation, 1200 New Jersey Avenue SE., Washington, DC 20590, 202–366–9342 (Voice), 202–366–7152 (Fax), or *maegan.johnson@dot.gov* (Email). Arrangements to receive this document in an alternative format may be made by contacting the above-named individuals.

SUPPLEMENTARY INFORMATION:

Title: Reporting Requirements for Disability-Related Complaints

OMB Control Number: 2105–0551

Type of Request: Renewal of Information Collection Request

Background: On July 8, 2003, the Office of the Secretary published a final rule that requires most certificated U.S. and foreign air carriers operating to, from and within the U.S. that conduct passenger-carrying service utilizing at least one large aircraft to record complaints that they receive alleging inadequate accessibility or discrimination on the basis of disability. The carriers must also categorize these complaints according to the type of disability and nature of complaint, prepare a summary report annually of the complaints received during the preceding calendar year, submit the report to the Department's Aviation Consumer Protection Division, and retain copies of correspondence and records of action taken on the reported complaints for three years. The rule requires carriers to submit their annual report via the World Wide Web except if the carrier can demonstrate an undue burden by doing so and receives permission from the Department to submit it in an alternative manner. The first required report covered disability-related complaints received by carriers during calendar year 2004, which was due to the Department on January 31, 2005. Carriers have been required to submit all subsequent reports on the last Monday in January for the prior calendar year.

Respondents: Certificated U.S. and foreign air carriers operating to, from, and within the United States that conduct passenger-carrying service with at least one large aircraft.

Requirements	Number of respondents	Frequency (per year)	Estimated annual burden (per respondent)	Estimated total annual burden (all respondents)
Record an Categorize Complaints Received	175	0 to 5,000	0 to 1,250 hours	6,900 hours
Prepare and Submit Annual Report	175	1	.5 hour	87.5 hours
Retain Correspondences and Record of Action Taken	175	0 to 5,000	1 hour	175 hours

Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (b) the accuracy of the Department's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology. All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Issued in Washington, DC on April 9, 2015.

Blane A. Workie,

Assistant General Counsel for Aviation Enforcement and Proceedings.

[FR Doc. 2015–08738 Filed 4–15–15; 08:45 am]

BILLING CODE 4910–9X–P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Consensus Standards, Light-Sport Aircraft

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of availability; request for comments.

SUMMARY: This notice announces the availability of eleven revised consensus standards relating to the provisions of the Sport Pilot and Light-Sport Aircraft rule issued July 16, 2004, and effective September 1, 2004. ASTM International Committee F37 on Light Sport Aircraft developed the revised standards with Federal Aviation Administration (FAA) participation. By this notice, the FAA finds the revised standards acceptable for certification of the specified aircraft under the provisions of the Sport Pilot and Light-Sport Aircraft rule.

DATES: Comments must be received on or before June 15, 2015.

ADDRESSES: Mail comments to: Federal Aviation Administration, Small Airplane Directorate, Programs and Procedures Branch, ACE–114,

Attention: Terry Chasteen, Room 301, 901 Locust, Kansas City, Missouri 64106. Comments may also be emailed to: *9-ACE-AVR-LSA-Comments@faa.gov.* Specify the standard being addressed by ASTM designation and title. Mark all comments: Consensus Standards Comments.

FOR FURTHER INFORMATION CONTACT: Terry Chasteen, Light-Sport Aircraft Program Manager, Programs and Procedures Branch (ACE–114), Small Airplane Directorate, Aircraft Certification Service, Federal Aviation Administration, 901 Locust, Room 301, Kansas City, Missouri 64106; telephone (816) 329–4147; email: *terry.chasteen@faa.gov.*

SUPPLEMENTARY INFORMATION: This notice announces the availability of eleven revised consensus standards that supersede previously accepted consensus standards relating to the provisions of the Sport Pilot and Light-Sport Aircraft rule. ASTM International Committee F37 on Light-Sport Aircraft developed the revised standards. The FAA expects a suitable consensus standard to be reviewed periodically. The review cycle will result in a standard revision or reapproval. A standard is revised to make changes to its technical content or is reapproved to indicate a review cycle has been completed with no technical changes. A standard is issued under a fixed designation (*e.g.,* F2245); the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision. A number in parentheses following the year of original adoption or revision indicates the year of last reapproval. For example, F2242–05 (2013) designates a standard that was originally adopted (or revised) in 2005 and reapproved in 2013. A superscript epsilon (ε) indicates an editorial change since the last revision or reapproval. A notice of availability (NOA) will only be issued for new or revised standards. Reapproved standards issued with no technical changes or standards issued with editorial changes only (*i.e.,* superscript epsilon [ε]) are considered accepted by the FAA without need for an NOA.

Comments Invited: Interested persons are invited to submit such written data, views, or arguments, as they may desire. Communications should identify the consensus standard number and be submitted to the address specified above. All communications received on or before the closing date for comments will be forwarded to ASTM International Committee F37 for consideration. The standard may be changed in light of the comments received. The FAA will address all comments received during the recurring review of the consensus standard and will participate in the consensus standard revision process.

Background: Under the provisions of the Sport Pilot and Light-Sport Aircraft rule, and revised Office of Management and Budget (OMB) Circular A–119, ''Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity Assessment Activities'', dated February 10, 1998, industry and the FAA have been working with ASTM International to develop consensus standards for light-sport aircraft. These consensus standards satisfy the FAA's goal for airworthiness certification and a verifiable minimum safety level for light-sport aircraft. Instead of developing airworthiness standards through the rulemaking process, the FAA participates as a member of Committee F37 in developing these standards. The use of the consensus standard process assures government and industry discussion and agreement on appropriate standards for the required level of safety.

Comments on Previous Notices of Availability

In the Notice of Availability (NOA) issued on February 21, 2014, and published in the **Federal Register** on February 27, 2014 the FAA asked for public comments on the new and revised consensus standards accepted by that NOA. The comment period closed on April 28, 2014. No public comments were received regarding the standards accepted by this NOA.

Consensus Standards in This Notice of Availability

The FAA has reviewed the standards presented in this NOA for compliance with the regulatory requirements of the rule. Any light-sport aircraft issued a special light-sport airworthiness certificate, which has been designed, manufactured, operated and maintained, in accordance with this and previously accepted ASTM consensus standards provides the public with the appropriate level of safety established under the regulations. Manufacturers who choose to produce these aircraft and certificate these aircraft under 14 CFR 21.190 or 21.191 are subject to the applicable consensus standard requirements. The FAA maintains a listing of all accepted standards on the FAA Web site.

The Revised Consensus Standard and Effective Period of Use

The following previously accepted consensus standards have been revised, and this NOA is accepting the later revision. Either the previous revision or the later revision may be used for the initial certification of special light-sport aircraft until October 15, 2015. This overlapping period of time will allow aircraft that have started the initial certification process using the previous revision level to complete that process. After October 15, 2015, manufacturers must use the later revision and must identify the later revision in the Statement of Compliance for initial certification of special light-sport aircraft unless the FAA publishes a specific notification otherwise. The following Consensus Standards may not be used after October 15, 2015:

ASTM Designation F2241–13, titled: Standard Specification for Continued Airworthiness System for Powered Parachute Aircraft
ASTM Designation F2244–13, titled: Standard Specification for Design and Performance Requirements for Powered Parachute Aircraft
ASTM Designation F2245–13b, titled: Standard Specification for Design and Performance of a Light Sport Airplane
ASTM Designation F2352–11, titled: Standard Specification for Design and Performance of Light Sport Gyroplane Aircraft
ASTM Designation F2355–13, titled: Standard Specification for Design and Performance Requirements for Lighter-Than-Air Light Sport Aircraft
ASTM Designation F2415–09, titled: Standard Practice for Continued Airworthiness System for Light Sport Gyroplane Aircraft
ASTM Designation F2564–13, titled: Standard Specification for Design and Performance of a Light Sport Glider
ASTM Designation F2746–12, titled: Standard Specification for Pilot's Operating Handbook (POH) for Light Sport Airplane
ASTM Designation F2840–11, titled: Standard Practice for Design and Manufacture of Electric Propulsion Units for Light Sport Aircraft
ASTM Designation F2930–13, titled: Standard Guide for Compliance with Light Sport Aircraft Standards

The following previously accepted consensus standard has been revised, and this NOA is accepting the later revision. Either the previous revision or the later revision may be used for the initial certification of special light-sport aircraft until October 14, 2016. This overlapping period of time will allow aircraft that have started the initial

certification process using the previous revision level to complete that process. After October 14, 2016, manufacturers must use the later revision and must identify the later revision in the Statement of Compliance for initial certification of special light-sport aircraft unless the FAA publishes a specific notification otherwise. The following Consensus Standard may not be used after October 14, 2016:

ASTM Designation F2972–12, titled: Standard Specification for Light Sport Aircraft Manufacturer's Quality Assurance System

The Consensus Standards

The FAA finds the following revised consensus standards acceptable for certification of the specified aircraft under the provisions of the Sport Pilot and Light-Sport Aircraft rule. The following consensus standards become effective April 16, 2015 and may be used unless the FAA publishes a specific notification otherwise:

ASTM Designation F2241–14, titled: Standard Specification for Continued Airworthiness System for Powered Parachute Aircraft

ASTM Designation F2244–14, titled: Standard Specification for Design and Performance Requirements for Powered Parachute Aircraft

ASTM Designation F2245–14, titled: Standard Specification for Design and Performance of a Light Sport Airplane

ASTM Designation F2352–14, titled: Standard Specification for Design and Performance of Light Sport Gyroplane Aircraft

ASTM Designation F2355–14, titled: Standard Specification for Design and Performance Requirements for Lighter-Than-Air Light Sport Aircraft

ASTM Designation F2415–14, titled: Standard Practice for Continued Airworthiness System for Light Sport Gyroplane Aircraft

ASTM Designation F2564–14, titled: Standard Specification for Design and Performance of a Light Sport Glider

ASTM Designation F2746–14, titled: Standard Specification for Pilot's Operating Handbook (POH) for Light Sport Airplane

ASTM Designation F2840–14, titled: Standard Practice for Design and Manufacture of Electric Propulsion Units for Light Sport Aircraft

ASTM Designation F2930–14a, titled: Standard Guide for Compliance with Light Sport Aircraft Standards

ASTM Designation F2972–14ε[1], titled: Standard Specification for Light Sport Aircraft Manufacturer's Quality Assurance System

Availability

ASTM International, 100 Barr Harbor Drive, Post Office Box C700, West Conshohocken, PA 19428–2959 copyrights these consensus standards. Individual reprints of a standard (single or multiple copies, or special compilations and other related technical information) may be obtained by contacting ASTM at this address, or at (610) 832–9585 (phone), (610) 832–9555 (fax), through *service@astm.org* (email), or through the ASTM Web site at *www.astm.org.* To inquire about standard content and/or membership or about ASTM International Offices abroad, contact Christine DeJong, Staff Manager for Committee F37 on Light-Sport Aircraft: (610) 832–9736, *cdejong@astm.org.*

Issued in Kansas City, Missouri, on March 27, 2015.

Pat Mullen,

Acting Manager, Small Airplane Directorate, Aircraft Certification Service.

BILLING CODE 4910–13–P

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket No. FMCSA–2013–0275]

Hours of Service of Drivers: U.S. Department of Defense (DOD); Application for Renewal of Exemption

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of application for exemption; request for comments.

SUMMARY: FMCSA announces that it has received an application from the U.S. Department of Defense (DOD) Military Surface Deployment and Distribution Command (SDDC) for a renewal of its exemption from the minimum 30-minute rest break provision of the Agency's hours-of-service (HOS) regulations for commercial motor vehicle (CMV) drivers. SDDC currently holds an exemption for the period October 22, 2013, through October 21, 2015. The exemption renewal would allow these drivers to use 30 minutes or more of attendance time to meet the HOS rest break requirements, provided they do not perform any other work during the break. FMCSA requests public comment on SDDC's application for renewal of the exemption.

DATES: If granted, this exemption would be effective from October 22, 2015, through October 21, 2017. Comments must be received on or before May 18, 2015.

ADDRESSES: You may submit comments bearing the Federal Docket Management System (FDMS) Docket ID FMCSA–2013–0275 using any of the following methods:

- *Federal eRulemaking Portal:* Go to *www.regulations.gov.* Follow the on-line instructions for submitting comments.
- *Mail:* Docket Management Facility; U.S. Department of Transportation, 1200 New Jersey Avenue SE., West Building Ground Floor, Room W12–140, Washington, DC 20590–0001.
- *Hand Delivery or Courier:* West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC, between 9 a.m. and 5 p.m., ET, Monday through Friday, except Federal Holidays.
- *Fax:* 1–202–493–2251.

Each submission must include the Agency name and the docket number for this notice. Note that DOT posts all comments received without change to *www.regulations.gov,* including any personal information included in a comment. Please see the *Privacy Act* heading below.

Docket: For access to the docket to read background documents or comments, go to *www.regulations.gov* at any time or visit Room W12–140 on the ground level of the West Building, 1200 New Jersey Avenue SE., Washington, DC, between 9 a.m. and 5 p.m., ET, Monday through Friday, except Federal holidays. The online FDMS is available 24 hours each day, 365 days each year. If you want acknowledgment that we received your comments, please include a self-addressed, stamped envelope or postcard or print the acknowledgment page that appears after submitting comments on-line.

Privacy Act: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to *www.regulations.gov,* as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at *www.dot.gov/privacy.*

FOR FURTHER INFORMATION CONTACT: For information concerning this notice contact Ms. Pearlie Robinson, Driver and Carrier Operations Division; Office of Carrier, Driver and Vehicle Safety Standards, FMCSA; Telephone: 202–366–4325. Email: *MCPSD@dot.gov.* If you have questions on viewing or submitting material to the docket, contact Docket Services, telephone (202) 366–9826.

SUPPLEMENTARY INFORMATION:

Background

FMCSA has authority under 49 U.S.C. 31136(e) and 31315 to grant exemptions from certain parts of the Federal Motor Carrier Safety Regulations. FMCSA must publish a notice of each exemption request in the **Federal Register** (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the information relevant to the application, including any safety analyses that have been conducted. The Agency must also provide an opportunity for public comment on the request.

The Agency reviews safety analyses and public comments submitted, and determines whether granting the exemption would likely achieve a level of safety equivalent to, or greater than, the level that would be achieved by the current regulation (49 CFR 381.305). The decision of the Agency must be published in the **Federal Register** (49 CFR 381.315(b)) with the reasons for denying or granting the application and, if granted, the name of the person or class of persons receiving the exemption, and the regulatory provision from which the exemption is granted. The notice must also specify the effective period and explain the terms and conditions of the exemption. The exemption may be renewed (49 CFR 381.300(b)).

Request for Exemption Renewal

On December 27, 2011 (76 FR 81133), FMCSA published a final rule amending its HOS regulations for drivers of property-carrying CMVs. The final rule adopted several changes to the HOS regulations including a new provision requiring drivers to take a rest break of at least 30 minutes during the work day under certain circumstances.

FMCSA did not specify when drivers must take the break, but the rule requires that they wait no longer than 8 hours after the last off-duty period of 30 minutes or more to take it if they want to drive a CMV. Drivers who already take shorter breaks during the work day could comply with the rule by extending one of those breaks to 30 minutes. The new requirement took effect on July 1, 2013.

The SDDC manages the motor carrier industry contracts for the DOD. Certain motor carriers under contract to the SDDC provide protective services while transporting weapons, munitions, and sensitive/classified cargo.

SDDC's initial exemption application for relief from the HOS rest break requirement was submitted in 2013; a copy of the application is in the docket identified at the beginning of this notice. That 2013 application describes fully the nature of the operations of SDDC's contracted drivers. The exemption was granted on October 28, 2013 (78 FR 64265).

SDDC requests a renewal of its limited exemption from the HOS regulation pertaining to rest breaks [49 CFR 395.3(a)(3)(ii)] to allow SDDC-contracted drivers providing dual driver-protective services to be treated the same as drivers transporting explosives. As provided in § 395.1(q), operators of CMVs carrying Division 1.1, 1.2, or 1.3 explosives subject to the requirement for a minimum 30-minute rest break in § 395.3(a)(3)(ii) may use 30 minutes or more of ''attendance time'' to meet the requirement for a rest break. SDDC believes that shipments moved under the requested exemption would achieve a level of safety and security that is at least equivalent to what would be obtained by following the normal break requirements in § 395.3(a)(3)(ii).

Method To Ensure an Equivalent or Greater Level of Safety

SDDC states that it requires continuous attendance and surveillance of such shipments until they reach their final destination. SDDC states that it has instituted several technical and administrative controls to ensure the efficient transportation of cargo requiring protective services, controls that would remain in effect under the requested exemption. They include the following:

- Conducting review of carrier compliance requirements and procedures for moving hazardous cargo.
- Evaluating carrier authority to operate on United States roadways.
- Evaluating carrier compliance with the Federal Motor Carrier Safety Administration's Compliance Safety Accountability program Safety Measurement System standards.
- Providing over-the-road vehicle surveillance.
- Inspecting carrier facilities and corporate headquarters for compliance with DOD and DOT standards.

Further details regarding SDDC's safety controls can be found in its application for exemption. The application can be accessed in the docket identified at the beginning of this notice. SDDC asserts that granting the exemption would allow driver teams to manage their enroute rest periods efficiently and also perform mandated shipment security surveillance, resulting in both safe driving performance and greater security of cargo during long-distance trips.

SDDC anticipates no safety impacts from this exemption and believes that its contract employee drivers should be allowed to follow the requirements in § 395.1(q) when transporting shipments of sensitive DOD cargo. SDDC believes that shipments made under the requested exemption would achieve a level of safety and security that is at least equivalent to that which would be obtained by following the normal break requirement in § 395.3(a)(3)(ii).

SDDC indicated that approximately 1,942 power units and 3,000 drivers would be covered by the exemption. The proposed exemption would be effective for 2 years, the maximum period allowed by § 381.300. SDDC reported two crashes in 2014 in which drivers were cited. Neither crash was connected to fatigue that was related to the 30 minute break.

Terms of the Exemption

1. Drivers authorized by SDDC to utilize the exemption, if granted, must have a copy of the exemption document in their possession while operating under the terms of the exemption. The exemption document must be presented to law enforcement officials upon request.

2. All motor carriers operating under this exemption must have a ''Satisfactory'' safety rating with FMCSA, or be ''unrated;'' motor carriers with ''Conditional'' or ''Unsatisfactory'' FMCSA safety ratings are prohibited from using this exemption.

3. Motor carriers operating under this exemption must have Safety Measurement System (SMS) scores that are all below FMCSA's intervention thresholds, as displayed at *http://ai.fmcsa.dot.gov/sms/*.

Period of the Exemption

The requested exemption from the requirements of 49 CFR 395.3(a)(3)(ii) would be effective from 12:01 a.m., October 22, 2015, through 11:59 p.m., October 21, 2017.

Extent of the Exemption

The exemption would be restricted to SDDC's contract driver-employees transporting security-sensitive materials. This exemption would be limited to the provisions of 49 CFR 395.3(a)(3)(ii) to allow contract driver-employees transporting security-sensitive materials to be treated the same as drivers transporting explosives, as provided in § 395.1(q). These drivers would be required to comply with all other applicable provisions of the FMCSRs.

Preemption

During the periods this exemption would be in effect, no State shall enforce any law or regulation that

conflicts with or is inconsistent with this exemption with respect to a firm or person operating under the exemption.

Notification to FMCSA

The SDDC would be required to notify FMCSA within 5 business days of any accident (as defined in 49 CFR 390.5), involving any of the motor carrier's CMVs operating under the terms of this exemption. The notification must include the following information:

a. Date of the accident,

b. City or town, and State, in which the accident occurred, or closest to the accident scene,

c. Driver's name and driver's license number and State of issuance

d. Vehicle number and State license plate number,

e. Number of individuals suffering physical injury,

f. Number of fatalities,

g. The police-reported cause of the accident,

h. Whether the driver was cited for violation of any traffic laws or motor carrier safety regulations, and

i. The driver's total driving time and total on-duty time period prior to the accident.

Reports filed under this provision would be emailed to *MCPSD@DOT.GOV*.

Termination

The FMCSA does not believe the drivers covered by this exemption, if granted, will experience any deterioration of their safety record. However, should this occur, FMCSA will take all steps necessary to protect the public interest, including revocation or restriction of the exemption. The FMCSA will immediately revoke or restrict the exemption for failure to comply with its terms and conditions.

Request for Comments

In accordance with 49 U.S.C. 31136(e) and 31315(b)(4), FMCSA requests public comment on the SDDC's application for an exemption from certain provisions of the HOS rules in 49 CFR part 395. The Agency will consider all comments received by close of business on May 18, 2015. Comments will be available for examination in the docket at the location listed under the **ADDRESSES** section of this notice. The Agency will consider to the extent practicable comments received in the public docket after the closing date of the comment period.

Issued on: April 10, 2015.

Larry W. Minor,

Associate Administrator for Policy.

Federal Motor Carrier Safety Administration

[Docket No. FMCSA–2008–0398; FMCSA–2011–0024; FMCSA–2011–0057; FMCSA–2013–0022]

Qualification of Drivers; Exemption Applications; Vision

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of renewal of exemptions; request for comments.

SUMMARY: FMCSA announces its decision to renew the exemptions from the vision requirement in the Federal Motor Carrier Safety Regulations for 13 individuals. FMCSA has statutory authority to exempt individuals from the vision requirement if the exemptions granted will not compromise safety. The Agency has concluded that granting these exemption renewals will provide a level of safety that is equivalent to or greater than the level of safety maintained without the exemptions for these commercial motor vehicle (CMV) drivers.

DATES: This decision is effective May 19, 2015. Comments must be received on or before May 18, 2015.

ADDRESSES: You may submit comments bearing the Federal Docket Management System (FDMS) numbers: Docket No. [Docket No. FMCSA–2008–0398; FMCSA–2011–0024; FMCSA–2011–0057; FMCSA–2013–0022], using any of the following methods:

- *Federal eRulemaking Portal:* Go to *http://www.regulations.gov.* Follow the on-line instructions for submitting comments.
- *Mail:* Docket Management Facility; U.S. Department of Transportation, 1200 New Jersey Avenue SE., West Building Ground Floor, Room W12–140, Washington, DC 20590–0001.
- *Hand Delivery or Courier:* West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.
- *Fax:* 1–202–493–2251.

Instructions: Each submission must include the Agency name and the docket number for this notice. Note that DOT posts all comments received without change to *http://www.regulations.gov*, including any personal information included in a comment. Please see the Privacy Act heading below.

Docket: For access to the docket to read background documents or comments, go to *http://www.regulations.gov* at any time or Room W12–140 on the ground level of the West Building, 1200 New Jersey Avenue SE., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The Federal Docket Management System (FDMS) is available 24 hours each day, 365 days each year. If you want acknowledgment that we received your comments, please include a self-addressed, stamped envelope or postcard or print the acknowledgement page that appears after submitting comments on-line.

Privacy Act: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to *www.regulations.gov*, as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at *www.dot.gov/privacy*.

FOR FURTHER INFORMATION CONTACT: Charles A. Horan, III, Director, Carrier, Driver and Vehicle Safety Standards, 202–366–4001, *fmcsamedical@dot.gov*, FMCSA, Department of Transportation, 1200 New Jersey Avenue SE., Room W64–224, Washington, DC 20590–0001. Office hours are from 8:30 a.m. to 5 p.m. Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

I. Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may renew an exemption from the vision requirements in 49 CFR 391.41(b)(10), which applies to drivers of CMVs in interstate commerce, for a two-year period if it finds ''such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption.'' The procedures for requesting an exemption (including renewals) are set out in 49 CFR part 381.

II. Exemption Decision

This notice addresses 13 individuals who have requested renewal of their exemptions in accordance with FMCSA procedures. FMCSA has evaluated these 13 applications for renewal on their merits and decided to extend each exemption for a renewable two-year period. They are:

Luis A. Bejarano (AZ), Richard T. Berendt (OH), James O. Cook (GA), Alfred D. Hewitt (IL), Wesley J. Jenkins (NV), Mark A. Kleinow (IA), Kevin R. Lambert (NC), James P. Lanigan (OH), Nusret Odzakovic (FL),

Raymond J. Paiz (CA), Scott W. Schilling (ND), Randy E. Sims (WA), Mark E. Studer (KS).

The exemptions are extended subject to the following conditions: (1) That each individual has a physical examination every year (a) by an ophthalmologist or optometrist who attests that the vision in the better eye continues to meet the requirements in 49 CFR 391.41(b)(10), and (b) by a medical examiner who attests that the individual is otherwise physically qualified under 49 CFR 391.41; (2) that each individual provides a copy of the ophthalmologist's or optometrist's report to the medical examiner at the time of the annual medical examination; and (3) that each individual provide a copy of the annual medical certification to the employer for retention in the driver's qualification file and retains a copy of the certification on his/her person while driving for presentation to a duly authorized Federal, State, or local enforcement official. Each exemption will be valid for two years unless rescinded earlier by FMCSA. The exemption will be rescinded if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315.

III. Basis for Renewing Exemptions

Under 49 U.S.C. 31315(b)(1), an exemption may be granted for no longer than two years from its approval date and may be renewed upon application for additional two year periods. In accordance with 49 U.S.C. 31136(e) and 31315, each of the 13 applicants has satisfied the entry conditions for obtaining an exemption from the vision requirements (74 FR 7097; 74 FR 15584; 76 FR 15361; 76 FR 17481; 76 FR 18824; 76 FR 28125; 76 FR 29024; 78 FR 12815; 78 FR 16761; 78 FR 22602; 78 FR 24300; 79 FR 24298). Each of these 13 applicants has requested renewal of the exemption and has submitted evidence showing that the vision in the better eye continues to meet the requirement specified at 49 CFR 391.41(b)(10) and that the vision impairment is stable. In addition, a review of each record of safety while driving with the respective vision deficiencies over the past two years indicates each applicant continues to meet the vision exemption requirements.

These factors provide an adequate basis for predicting each driver's ability to continue to drive safely in interstate commerce. Therefore, FMCSA concludes that extending the exemption for each renewal applicant for a period of two years is likely to achieve a level of safety equal to that existing without the exemption.

IV. Public Participation and Request for Comments

FMCSA encourages you to participate by submitting comments and related materials.

Submitting Comments

If you submit a comment, please include the docket number for this notice (FMCSA–2008–0398; FMCSA–2011–0024; FMCSA–2011–0057; FMCSA–2013–0022), indicate the specific section of this document to which each comment applies, and provide a reason for each suggestion or recommendation. You may submit your comments and material online or by fax, mail, or hand delivery, but please use only one of these means. FMCSA recommends that you include your name and a mailing address, an email address, or a phone number in the body of your document so the Agency can contact you if it has questions regarding your submission.

To submit your comment online, got to *http://www.regulations.gov* and put the docket number, ''FMCSA–2008–0398; FMCSA–2011–0024; FMCSA–2011–0057; FMCSA–2013–0022'' in the ''Keyword'' box, and click ''Search.'' When the new screen appears, click on ''Comment Now!'' button and type your comment into the text box in the following screen. Choose whether you are submitting your comment as an individual or on behalf of a third party and then submit. If you submit your comments by mail or hand delivery, submit them in an unbound format, no larger than 8½ by 11 inches, suitable for copying and electronic filing. If you submit comments by mail and would like to know that they reached the facility, please enclose a stamped, self-addressed postcard or envelope. FMCSA will consider all comments and material received during the comment period and may change this notice based on your comments.

Viewing Comments and Documents

To view comments, as well as any documents mentioned in this preamble as being available in the docket, go to *http://www.regulations.gov* and in the search box insert the docket number, ''FMCSA–2008–0398; FMCSA–2011–0024; FMCSA–2011–0057; FMCSA–2013–0022'' in the ''Keyword'' box and click ''Search.'' Next, click ''Open Docket Folder'' button choose the document listed to review. If you do not have access to the Internet, you may view the docket online by visiting the Docket Management Facility in Room W12–140 on the ground floor of the DOT West Building, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., e.t., Monday through Friday, except Federal holidays.

Issued on: April 10, 2015.

SUPPLEMENTARY INFORMATION:

I. Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may renew an exemption from the vision requirements in 49 CFR 391.41(b)(10), which applies to drivers of CMVs in interstate commerce, for a two-year period if it finds ''such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption.'' The procedures for requesting an exemption (including renewals) are set out in 49 CFR part 381.

II. Exemption Decision

This notice addresses 5 individuals who have requested renewal of their exemptions in accordance with FMCSA procedures. FMCSA has evaluated these 5 applications for renewal on their merits and decided to extend each exemption for a renewable two-year period. They are: Jo E. Cunningham (IN), Dolan A. Gonzalez, Jr. (FL), Paul Harpin (AZ), Donald G. Reed (FL), Randy T. Richardson (KS).

The exemptions are extended subject to the following conditions: (1) That each individual has a physical examination every year (a) by an ophthalmologist or optometrist who attests that the vision in the better eye continues to meet the requirements in 49 CFR 391.41(b)(10), and (b) by a medical examiner who attests that the individual is otherwise physically qualified under 49 CFR 391.41; (2) that each individual provides a copy of the ophthalmologist's or optometrist's report to the medical examiner at the time of the annual medical examination; and (3) that each individual provide a copy of the annual medical certification to the employer for retention in the driver's qualification file and retains a copy of the certification on his/her person while driving for presentation to a duly authorized Federal, State, or local enforcement official. Each exemption will be valid for two years unless rescinded earlier by FMCSA. The exemption will be rescinded if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315.

III. Basis for Renewing Exemptions

Under 49 U.S.C. 31315(b)(1), an exemption may be granted for no longer than two years from its approval date and may be renewed upon application for additional two year periods. In accordance with 49 U.S.C. 31136(e) and 31315, each of the 5 applicants has satisfied the entry conditions for obtaining an exemption from the vision requirements (78 FR 16912; 78 FR 29431). Each of these 5 applicants has requested renewal of the exemption and has submitted evidence showing that the vision in the better eye continues to meet the requirement specified at 49 CFR 391.41(b)(10) and that the vision impairment is stable. In addition, a review of each record of safety while driving with the respective vision deficiencies over the past two years indicates each applicant continues to meet the vision exemption requirements.

These factors provide an adequate basis for predicting each driver's ability to continue to drive safely in interstate commerce. Therefore, FMCSA concludes that extending the exemption for each renewal applicant for a period of two years is likely to achieve a level of safety equal to that existing without the exemption.

IV. Public Participation and Request for Comments

FMCSA encourages you to participate by submitting comments and related materials.

Submitting Comments

If you submit a comment, please include the docket number for this notice (FMCSA–2013–0024), indicate the specific section of this document to which each comment applies, and provide a reason for each suggestion or recommendation. You may submit your comments and material online or by fax, mail, or hand delivery, but please use only one of these means. FMCSA recommends that you include your name and a mailing address, an email address, or a phone number in the body of your document so the Agency can contact you if it has questions regarding your submission.

To submit your comment online, go to *http://www.regulations.gov* and put the docket number, ''FMCSA–2013–0024'' in the ''Keyword'' box, and click ''Search.'' When the new screen appears, click on ''Comment Now!'' button and type your comment into the text box in the following screen. Choose whether you are submitting your comment as an individual or on behalf of a third party and then submit. If you submit your comments by mail or hand delivery, submit them in an unbound format, no larger than 8½ by 11 inches, suitable for copying and electronic filing. If you submit comments by mail and would like to know that they reached the facility, please enclose a stamped, self-addressed postcard or envelope. FMCSA will consider all comments and material received during the comment period and may change this notice based on your comments.

Viewing Comments and Documents

To view comments, as well as any documents mentioned in this preamble as being available in the docket, go to *http://www.regulations.gov* and in the search box insert the docket number, ''FMCSA–2013–0024'' in the ''Keyword'' box and click ''Search.'' Next, click ''Open Docket Folder''

button choose the document listed to review. If you do not have access to the Internet, you may view the docket online by visiting the Docket Management Facility in Room W12–140 on the ground floor of the DOT West Building, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., e.t., Monday through Friday, except Federal holidays.

Issued on: April 10, 2015.

BILLING CODE 4910–EX–P

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket No. FMCSA–2012–0032]

Commercial Driver's License Standards: Application for Renewal of Exemption; Daimler Trucks North America (Daimler)

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of application for renewal of exemption; request for comments.

SUMMARY: FMCSA announces that Daimler Trucks North America (Daimler) has requested the renewal of an exemption from the requirement for a commercial driver's license (CDL) for one commercial motor vehicle (CMV) driver, Sven Ennerst, who holds a German commercial license. The renewal would allow Mr. Ennerst to continue to test-drive Daimler vehicles on U.S. roads to better understand product requirements for these systems in ''real world'' environments, and verify results. Daimler believes that German regulations ensure that holders of a German commercial license will likely achieve a level of safety equal to or greater than that of drivers who hold a U.S. CDL.

DATES: Comments must be received on or before May 18, 2015. Proposed effective dates of the exemption renewal are July 22, 2015 through July 22, 2017.

ADDRESSES: You may submit comments identified by Federal Docket Management System Number FMCSA–2012–0032 by any of the following methods:

- *Federal eRulemaking Portal: www.regulations.gov.* Follow the online instructions for submitting comments.
- *Fax:* 1–202–493–2251.
- *Mail:* Docket Management Facility, U.S. Department of Transportation, 1200 New Jersey Avenue SE., West Building, Ground Floor, Room W12–140, Washington, DC 20590–0001.
- *Hand Delivery or Courier:* West Building, Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., between 9 a.m. and 5 p.m. E.T., Monday through Friday, except Federal holidays.

Instructions: All submissions must include the Agency name and docket number. For detailed instructions on submitting comments and additional information on the exemption process, see the *Public Participation* heading below. Note that all comments received will be posted without change to *www.regulations.gov,* including any personal information provided. Please see the *Privacy Act* heading below.

Docket: For access to the docket to read background documents or comments received, go to *www.regulations.gov* at any time and in the box labeled ''SEARCH for'' enter FMCSA–2012–0032 and click on the tab labeled ''SEARCH.''

Privacy Act: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to *www.regulations.gov,* as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at *www.dot.gov/privacy.*

Public Participation: The Federal eRulemaking Portal is available 24 hours each day, 365 days each year. You can get electronic submission and retrieval help and guidelines under the ''help'' section of the Federal eRulemaking Portal Web site. If you want us to notify you that we received your comments, please include a self-addressed, stamped envelope or postcard, or print the acknowledgement page that appears after submitting comments online.

FOR FURTHER INFORMATION CONTACT: Mr. Richard Clemente, FMCSA Driver and Carrier Operations Division; Office of Carrier, Driver and Vehicle Safety Standards; Telephone: 202–366–4325. Email: *MCPSD@dot.gov.*

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may renew an exemption from the CDL requirements of 49 CFR 383.23 for a maximum 2-year period if it finds ''such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption.'' The procedures for requesting an exemption (including renewals) are prescribed in 49 CFR part 381. The Agency must also provide an opportunity for public comment on the request.

The Agency reviews the safety analyses and the public comments, and determines whether granting the exemption renewal would likely achieve a level of safety equivalent to, or greater than, the level that would be achieved by the current regulation (49 CFR 381.305). The decision of the Agency must be published in the **Federal Register** (49 CFR 381.315(b)) with the reason for granting or denying the exemption renewal, and, if granted, the specific person or class of persons receiving the exemption, and the regulatory provision or provisions from which exemption is granted. The notice must specify the effective period of the exemption (up to 2 years), and explain the terms and conditions of the exemption. The exemption may be renewed (49 CFR 381.300(b)).

Daimler Application for Exemption Renewal

Daimler has applied for a 2-year renewal of an exemption for one of its engineers from 49 CFR 383.23, which prescribes licensing requirements for drivers operating CMVs in interstate or intrastate commerce. This driver, Sven Ennerst, holds a valid German commercial license but is unable to obtain a CDL in any of the U.S. States due to residency requirements. A copy of the request for renewal, dated February 18, 2015, is in the docket identified at the beginning of this notice.

FMCSA initially granted an exemption to Mr. Ennerst on July 22, 2014 (79 FR 42626). This exemption was effective July 22, 2014 and expires July 22, 2015. Detailed information about the qualifications and experience of Mr. Ennerst was provided by Daimler in its original application, a copy of which is in the docket referenced above. Renewal of the exemption will enable Mr. Ennerst to operate CMVs in interstate or intrastate commerce to support Daimler field tests designed to meet future vehicle safety and environmental requirements and to develop improved safety and emission technologies. According to Daimler, Mr. Ennerst will typically drive for no more than 6 hours per day for 2 consecutive days, and 10 percent of the test driving will be on two-lane State highways, while 90 percent will be on interstate highways. The driving will consist of no more than 200 miles per day, for a total of 400 miles during a two-day period on a quarterly basis. He will in all cases be accompanied by a holder of a U.S. CDL who is familiar with the routes to be

traveled. Daimler requests that the exemption renewal cover a two-year period.

Daimler has explained in prior exemption requests that the German knowledge and skills tests and training program ensure that Daimler's drivers operating under the exemption will achieve a level of safety that is equivalent to, or greater than, the level of safety obtained by complying with the U.S. requirement for a CDL.

Method To Ensure an Equivalent or Greater Level of Safety

FMCSA has previously determined that the process for obtaining a German commercial license is comparable to, or as effective as, the requirements of Part 383, and adequately assesses the driver's ability to operate CMVs in the U.S. In the past 2 years, FMCSA has published several similar Daimler exemption requests, most recently a notice granting a 2-year exemption to Daimler driver Dr. Wolfgang Bernhard (79 FR 51641, August 29, 2014).

Request for Comments

In accordance with 49 U.S.C. 31136(e) and 31315(b)(4), FMCSA requests public comment on Daimler's request for a renewal of Mr. Ennerst's exemption from 49 CFR 383.23. The Agency will consider all comments received by close of business on May 18, 2015.

FMCSA will review all comments received by this date and determine whether renewal of the exemption is consistent with the requirements of 49 U.S.C. 31136(e) and 31315. As indicated above, on prior occasions, the Agency determined that providing an exemption for other Daimler drivers does not compromise the level of safety that would exist if the exemption were not granted. These prior FMCSA decisions were based on careful consideration of the comments received, and on the merits of each driver's demonstrated knowledge and skills about the safe operation of CMVs.

Issued on: April 8, 2015.

Larry W. Minor,

Associate Administrator for Policy.

BILLING CODE 4910–EX–P

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket No. FMCSA–2014–0301]

Qualification of Drivers; Exemption Applications; Vision

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of final disposition.

SUMMARY: FMCSA announces its decision to exempt 23 individuals from the vision requirement in the Federal Motor Carrier Safety Regulations (FMCSRs). They are unable to meet the vision requirement in one eye for various reasons. The exemptions will enable these individuals to operate commercial motor vehicles (CMVs) in interstate commerce without meeting the prescribed vision requirement in one eye. The Agency has concluded that granting these exemptions will provide a level of safety that is equivalent to or greater than the level of safety maintained without the exemptions for these CMV drivers.

DATES: The exemptions were granted March 7, 2015. The exemptions expire on March 7, 2017.

FOR FURTHER INFORMATION CONTACT: Charles A. Horan, III, Director, Carrier, Driver and Vehicle Safety Standards, (202) 366–4001, *fmcsamedical@dot.gov,* FMCSA, Department of Transportation, 1200 New Jersey Avenue SE., Room W64–224, Washington, DC 20590–0001. Office hours are from 8:30 a.m. to 5 p.m., Monday through Friday, except Federal holidays. If you have questions on viewing or submitting material to the docket, contact Docket Services, telephone (202) 366–9826.

SUPPLEMENTARY INFORMATION:

I. Electronic Access

You may see all the comments online through the Federal Document Management System (FDMS) at *http://www.regulations.gov.*

Docket: For access to the docket to read background documents or comments, go to *http://www.regulations.gov* and/or Room W12–140 on the ground level of the West Building, 1200 New Jersey Avenue SE., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

Privacy Act: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to *www.regulations.gov,* as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at *www.dot.gov/privacy.*

II. Background

On February 4, 2015, FMCSA published a notice of receipt of exemption applications from certain individuals, and requested comments from the public (80 FR 6162). That notice listed 23 applicants' case histories. The 23 individuals applied for exemptions from the vision requirement in 49 CFR 391.41(b)(10), for drivers who operate CMVs in interstate commerce.

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption for a 2-year period if it finds ''such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption.'' The statute also allows the Agency to renew exemptions at the end of the 2-year period. Accordingly, FMCSA has evaluated the 23 applications on their merits and made a determination to grant exemptions to each of them.

III. Vision and Driving Experience of the Applicants

The vision requirement in the FMCSRs provides:

A person is physically qualified to drive a commercial motor vehicle if that person has distant visual acuity of at least 20/40 (Snellen) in each eye without corrective lenses or visual acuity separately corrected to 20/40 (Snellen) or better with corrective lenses, distant binocular acuity of a least 20/40 (Snellen) in both eyes with or without corrective lenses, field of vision of at least 70° in the horizontal meridian in each eye, and the ability to recognize the colors of traffic signals and devices showing red, green, and amber (49 CFR 391.41(b)(10)).

FMCSA recognizes that some drivers do not meet the vision requirement but have adapted their driving to accommodate their vision limitation and demonstrated their ability to drive safely. The 23 exemption applicants listed in this notice are in this category. They are unable to meet the vision requirement in one eye for various reasons, including optic nerve damage, neuropathy due to meningitis, retinal detachment, phthisical cornea, amblyopia, macular scarring, retinal scarring, central retinal artery obstruction, corneal scar, conjunctional cyst, strabismic amblyopia, complete loss of vision, chorioretinal scarring, prosthetic eye, and central retinal vein occlusion. In most cases, their eye conditions were not recently developed.

Sixteen of the applicants were either born with their vision impairments or have had them since childhood.

The seven individuals that sustained their vision conditions as adults have had it for a range of three to 22 years.

Although each applicant has one eye which does not meet the vision requirement in 49 CFR 391.41(b)(10), each has at least 20/40 corrected vision in the other eye, and in a doctor's opinion, has sufficient vision to perform all the tasks necessary to operate a CMV. Doctors' opinions are supported by the applicants' possession of valid commercial driver's licenses (CDLs) or non-CDLs to operate CMVs. Before issuing CDLs, States subject drivers to knowledge and skills tests designed to evaluate their qualifications to operate a CMV.

All of these applicants satisfied the testing requirements for their State of residence. By meeting State licensing requirements, the applicants demonstrated their ability to operate a CMV, with their limited vision, to the satisfaction of the State.

While possessing a valid CDL or non-CDL, these 23 drivers have been authorized to drive a CMV in intrastate commerce, even though their vision disqualified them from driving in interstate commerce. They have driven CMVs with their limited vision in careers ranging from two to 35 years. In the past three years, none of drivers were involved in crashes and none were convicted of moving violations in a CMV.

The qualifications, experience, and medical condition of each applicant were stated and discussed in detail in the February 4, 2015 notice (80 FR 6162).

IV. Basis for Exemption Determination

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the vision requirement in 49 CFR 391.41(b)(10) if the exemption is likely to achieve an equivalent or greater level of safety than would be achieved without the exemption. Without the exemption, applicants will continue to be restricted to intrastate driving. With the exemption, applicants can drive in interstate commerce. Thus, our analysis focuses on whether an equal or greater level of safety is likely to be achieved by permitting each of these drivers to drive in interstate commerce as opposed to restricting him or her to driving in intrastate commerce.

To evaluate the effect of these exemptions on safety, FMCSA considered the medical reports about the applicants' vision as well as their driving records and experience with the vision deficiency.

To qualify for an exemption from the vision requirement, FMCSA requires a person to present verifiable evidence that he/she has driven a commercial vehicle safely with the vision deficiency for the past 3 years. Recent driving performance is especially important in evaluating future safety, according to several research studies designed to correlate past and future driving performance. Results of these studies support the principle that the best predictor of future performance by a driver is his/her past record of crashes and traffic violations. Copies of the studies may be found at Docket Number FMCSA–1998–3637.

FMCSA believes it can properly apply the principle to monocular drivers, because data from the Federal Highway Administration's (FHWA) former waiver study program clearly demonstrate the driving performance of experienced monocular drivers in the program is better than that of all CMV drivers collectively (See 61 FR 13338, 13345, March 26, 1996). The fact that experienced monocular drivers demonstrated safe driving records in the waiver program supports a conclusion that other monocular drivers, meeting the same qualifying conditions as those required by the waiver program, are also likely to have adapted to their vision deficiency and will continue to operate safely.

The first major research correlating past and future performance was done in England by Greenwood and Yule in 1920. Subsequent studies, building on that model, concluded that crash rates for the same individual exposed to certain risks for two different time periods vary only slightly (See Bates and Neyman, University of California Publications in Statistics, April 1952). Other studies demonstrated theories of predicting crash proneness from crash history coupled with other factors. These factors—such as age, sex, geographic location, mileage driven and conviction history—are used every day by insurance companies and motor vehicle bureaus to predict the probability of an individual experiencing future crashes (See Weber, Donald C., ''Accident Rate Potential: An Application of Multiple Regression Analysis of a Poisson Process,'' Journal of American Statistical Association, June 1971). A 1964 California Driver Record Study prepared by the California Department of Motor Vehicles concluded that the best overall crash predictor for both concurrent and nonconcurrent events is the number of single convictions. This study used 3 consecutive years of data, comparing the experiences of drivers in the first 2 years with their experiences in the final year.

Applying principles from these studies to the past 3-year record of the 23 applicants, no drivers were involved in crashes, and none were convicted of moving violations in a CMV. All the applicants achieved a record of safety while driving with their vision impairment, demonstrating the likelihood that they have adapted their driving skills to accommodate their condition. As the applicants' ample driving histories with their vision deficiencies are good predictors of future performance, FMCSA concludes their ability to drive safely can be projected into the future.

We believe that the applicants' intrastate driving experience and history provide an adequate basis for predicting their ability to drive safely in interstate commerce. Intrastate driving, like interstate operations, involves substantial driving on highways on the interstate system and on other roads built to interstate standards. Moreover, driving in congested urban areas exposes the driver to more pedestrian and vehicular traffic than exists on interstate highways. Faster reaction to traffic and traffic signals is generally required because distances between them are more compact. These conditions tax visual capacity and driver response just as intensely as interstate driving conditions. The veteran drivers in this proceeding have operated CMVs safely under those conditions for at least 3 years, most for much longer. Their experience and driving records lead us to believe that each applicant is capable of operating in interstate commerce as safely as he/she has been performing in intrastate commerce. Consequently, FMCSA finds that exempting these applicants from the vision requirement in 49 CFR 391.41(b)(10) is likely to achieve a level of safety equal to that existing without the exemption. For this reason, the Agency is granting the exemptions for the 2-year period allowed by 49 U.S.C. 31136(e) and 31315 to the 23 applicants listed in the notice of February 4, 2015 (80 FR 6162).

We recognize that the vision of an applicant may change and affect his/her ability to operate a CMV as safely as in the past. As a condition of the exemption, therefore, FMCSA will impose requirements on the 23 individuals consistent with the grandfathering provisions applied to drivers who participated in the Agency's vision waiver program.

Those requirements are found at 49 CFR 391.64(b) and include the

following: (1) That each individual be physically examined every year (a) by an ophthalmologist or optometrist who attests that the vision in the better eye continues to meet the requirement in 49 CFR 391.41(b)(10) and (b) by a medical examiner who attests that the individual is otherwise physically qualified under 49 CFR 391.41; (2) that each individual provide a copy of the ophthalmologist's or optometrist's report to the medical examiner at the time of the annual medical examination; and (3) that each individual provide a copy of the annual medical certification to the employer for retention in the driver's qualification file, or keep a copy in his/her driver's qualification file if he/she is self-employed. The driver must have a copy of the certification when driving, for presentation to a duly authorized Federal, State, or local enforcement official.

V. Discussion of Comments

FMCSA received two comments in this proceeding. The comments are discussed below.

Danielle Snyder is in favor of granting all drivers listed on the notice an exemption from the vision standard.

Alycia Chase's AP Government class at West Bloomfield High School in West Bloomfield, MI is not in favor of granting the exemptions due to their perceived risks to the public. As stated in this notice, FMCSA has determined that granting these drivers an exemption from the vision standard ''would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption.''

VI. Conclusion

Based upon its evaluation of the 23 exemption applications, FMCSA exempts the following drivers from the vision requirement in 49 CFR 391.41(b)(10), subject to the requirements cited above (49 CFR 391.64(b)):

Jason P. Atwater (UT), Barry W. Borger (PA), William W. Dugger (KY), Steven D. Ellsworth (IL), Travis B. Giest (ID), Arlan T. Hrubes (WY), Abdalla M. Jalili (IL), David M. Krause (WI), Stephen C. Martin (PA), Troy L. McCord (TX), Ronald M. Metzger (NY), Gerald D. Milner, Jr. (IL), Ali Nimer (IL), Richard A. Pierce (MO), Richard D. Pontious (OH), Richard P. Rebel (ND), Kevin L. Riddle (FL), Mustafa Shahadeh (OH), Charles P. Smith (MO), Timothy R. Tedford (IL), Sean E. Twohig (NY), Melvin L. Vaughn (WI), Rick L. Wood (PA).

In accordance with 49 U.S.C. 31136(e) and 31315, each exemption will be valid for 2 years unless revoked earlier by FMCSA. The exemption will be revoked if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136 and 31315.

If the exemption is still effective at the end of the 2-year period, the person may apply to FMCSA for a renewal under procedures in effect at that time.

Issued on: April 10, 2015.

Federal Transit Administration

[Docket No. FTA–2014–0018]

Bus and Bus Facilities Formula Program: Guidance and Application Instructions

AGENCY: Federal Transit Administration (FTA), DOT.

ACTION: Notice of availability of final circular.

SUMMARY: The Federal Transit Administration (FTA) has placed in the docket and on its Web site, guidance in the form of a circular, to assist recipients in their implementation of the Section 5339 Bus and Bus Facilities Formula Program (Bus Program). The purpose of this circular is to provide recipients of FTA financial assistance with instructions and guidance on program administration and the grant application process. This circular is a result of the new Bus Program enacted through the Moving Ahead for Progress in the 21st Century Act (MAP–21).

DATES: The final circular becomes effective May 18, 2015.

FOR FURTHER INFORMATION CONTACT: For program matters, Sam Snead, Office of Transit Programs, (202) 366–1089 or *samuel.snead@dot.gov*. For legal matters, Michelle Hershman, Office of Chief Counsel, (202–493–0197) or *michelle.hershman@dot.gov*. Office hours are from 8:30 a.m. to 5:00 p.m., Monday through Friday, except Federal holidays.

II. Overview

The Moving Ahead for Progress in the 21st Century Act (MAP–21, Pub. L. 112–141), signed into law on July 6, 2012, establishes the Section 5339 Bus and Bus Facilities Formula program (Section 5339 or Bus Program), replacing some of the elements of the Bus and Bus Facilities discretionary program (formerly 49 U.S.C. 5309(b)(3) under the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users Act of 2005 (SAFETEA–LU)). The Section 5309 Bus and Bus Facilities Program under SAFETEA–LU provided discretionary funds for capital bus and bus facility grants, which from 2010–2012, were primarily used in support of the U.S. Department of Transportation's (U.S. DOT) State of Good Repair, Bus Livability, Veterans Transportation and Community Living, and Clean Fuels initiatives. In addition, SAFETEA–LU allocated funds under this program for Ferry Boat Systems, Fuel Cell Bus, and the Bus Testing program. The new Section 5339 Bus Program provides funding to replace, rehabilitate, and purchase buses and related equipment as well as to construct bus-related facilities.

The FTA is implementing new circular 5100.1, ''Bus and Bus Facilities Program: Guidance and Application Instructions,'' in order to provide grantees with guidance for applying for funding under the Bus Program. In addition, the circular addresses the requirements that must be met in the application for Section 5339 program assistance.

On July 30, 2014, FTA issued a notice of availability of the proposed circular in the **Federal Register** (79 FR 44241) and requested public comment on the proposed circular. The comment period closed on September 29, 2014. The FTA received comments from 76 entities, including trade associations, State DOTs, metropolitan planning organizations, public transportation providers, and individuals. This notice addresses comments received and explains changes FTA made to the proposed circular in response to comments.

This document does not include the revised circular; however, an electronic

version is available on FTA's Web site, at *www.fta.dot.gov.* Paper copies may be obtained by contacting FTA's Administrative Services Help Desk, at (202) 366–4865.

III. Chapter-by-Chapter Analysis

A. General Comments

This section addresses comments that were not directed at specific chapters, but to the circular as a whole.

Two commenters recommended that FTA provide flexibility to recipients of FTA funds whenever the statute can accommodate such flexibility. With regards to this circular, one of the commenters asserted that flexibility was necessary so that small transit systems are not burdened with requirements applicable to large systems. In response, most of the FTA programs authorized by Congress do not provide for varying program requirements based on the size of the public transportation provider. Certainly where such flexibility exists, FTA grants that flexibility. The same commenter noted the length of the proposed circular in relation to the length of the statutory provision and suggested that FTA streamline the guidance document to focus on issues specific to Section 5339 and make greater use of cross references to other FTA guidance documents. In response, FTA notes the purpose of the document is to provide detailed guidance in order to address all of the legal provisions required in delivering an FTA program. The content contained within the circular ensures grantees fully understand the requirements of Section 5339.

Another commenter urged FTA to use consistent language and definitions throughout its regulatory documents. The FTA has updated this circular to be as consistent and uniform as possible with other circulars.

A few commenters recommended FTA add language to the ''Purpose'' section to clarify its understanding of the intended purpose of the Section 5339 program. In response, FTA notes that the purpose of the circular and the Bus and Bus Facilities formula program is clearly stated on the cover page of the circular.

B. Chapter I—Introduction and Background

Chapter I of the circular is an introductory chapter that covers general information about FTA and its authorizing legislation, provides a brief history of the Bus Program, includes definitions applicable to the Bus Program and defines terms applicable across all FTA programs. Where appropriate, we have used the same definitions found in rulemakings or other circulars to ensure consistency.

The FTA received six comments on this chapter, five of which related to definitions and one which related to fleet management plans. One commenter indicated that the term ''original useful life'' is not defined in the circular or any other FTA documents and could be interpreted as a minimum useful life, an economic useful life or a service life. The commenter stated that the distinction between a minimum useful life and a service life is critical in determining if an activity can be eligible as an overhaul. The FTA has amended the circular to reflect the terminology, ''minimum useful life,'' and notes the definition of overhaul is identical to the definition of overhaul in Circular 9030.1E, Urbanized Area Formula Program: Program Guidance and Application Instructions. One commenter recommended incorporating the definition of ''rehabilitation'' from the proposed Section 5337 State of Good Repair Grants Program Circular (5300.1) into the final version of this circular. In response, FTA has defined ''rehabilitate'' in section 4 of Chapter 1 to mean rebuild of a revenue vehicle to the original specifications of the manufacturer. Further, given FTA's response to comments regarding the eligibility of mid-life overhaul activities, which is explained in more detail in the Chapter 3 analysis in this notice, FTA has expanded the definition of rehabilitate to include mid-life overhaul activities. This definition specifically relates to the Bus and Bus Facilities Program as the definition in FTA Circular 5300.1 ''State of Good Repair Grants Program: Guidance and Application Instructions,'' pertains mostly to fixed guideway transit projects.

Two commenters suggested revising the definition of ''Clean Fuel Bus'' to incorporate hydraulic hybrid technology and other eligible vehicle technologies. In response, FTA notes that the definition included in the proposed circular mirrors the statutory language used by Congress in creating the program (see, 49 U.S.C. 5308 [Repealed]) and includes ''other low or zero emissions technology'' which is expansive enough to cover hydraulic hybrid and other technologies. The FTA also notes that as most transit vehicles are already eligible for a Federal match greater than 80 percent because of their Americans with Disabilities Act (ADA) and Clean Air Act (CAA) compliance, the specific inclusion of the other technologies is not going to qualify recipients for a greater FTA match beyond the existing ceiling.

One commenter questioned the efficiency of requiring both the Fleet Management Plan and Reporting and the Transit Asset Management (TAM) Plans and Reporting. The commenter suggested FTA consider consolidating the Fleet Management Plan and Reporting under the Transit Asset Management Plans and Reporting to avoid redundancy. In response, FTA recognizes that some of the information gathered for the Fleet Management Plan may be useful when reporting to the National Transit Database for Transit Asset Management and recognizes that the requirements for the TAM plans and reporting are being promulgated through a rule-making. Therefore, FTA is unable to consolidate them at this time, nor does it see these requirements as redundant, but rather as complementary. We will continue to review these processes for the possibility of streamlining.

C. Chapter II—Program Overview

Chapter II covers general information about the Bus Program, including program administration, eligibility and oversight. Chapter II clarifies that FTA will only apportion Bus Program funds for urbanized areas (UZA) to the State and to designated recipients that operate or allocate funding to fixed-route bus operators. There are no other eligible direct recipients for the Bus Program under MAP–21. This section also describes the process for allocating funds to subrecipients and discusses pass-through arrangements whereby a State or designated recipient may pass its Bus Program grant funds through to a subrecipient to carry out the project agreed to in the grant. Unlike supplemental agreements between a designated recipient, direct recipient, and FTA, a pass-through arrangement to a subrecipient does not relieve the designated recipient of its responsibilities to carry out the terms and conditions of the grant agreement.

The FTA received 18 comments on this chapter, 10 of which related to recipient eligibility and the designated recipient's role in program administration for this program.

Several of the commenters expressed concerns that only States and designated recipients can apply for funds under the Section 5339 program and suggested FTA broaden eligibility to include fixed route bus operators that are not designated recipients. A few commenters suggested that the existing procedure for Section 5307 which involves designated recipients for a metropolitan area and public transit

agencies executing supplemental agreements to permit public transit agencies to apply directly to FTA and assume all responsibilities under a grant agreement with FTA be followed under Section 5339 to relieve the administration burden on designated recipients. Another commenter suggested that FTA exercise its administrative authority to interpret eligible recipients similar to the former Section 5308 Clean Fuels program. In response, FTA notes that the statutory language in Section 5339(c) clearly states that ''eligible recipients in this section are designated recipients that operate fixed route bus service or that allocate funding to fixed route bus operators'' and thus, FTA has no flexibility in its interpretation of eligible recipients for Section 5339.

A few of the commenters indicated that FTA should revise Chapter II to clarify that Section 5339 funds may be used for bus facilities and vehicles that do not run in fixed-route service. In response, FTA has revised Chapter II to clarify that recipient eligibility does not limit Section 5339 funds to fixed route projects. Thus, capital projects in support of demand response services are eligible under the Bus Program.

Two commenters asked FTA to revise Chapter II to allow a Governor to transfer the funds allocated to the State for use in the UZAs of less than 200,000 in population to the Section 5307 program. The transfer provision found at Section 5339(e)(1) allows the Governor to transfer the ''National Distribution'' funds to supplement the State's Section 5311 rural apportionment or to any urbanized area's Section 5307 apportionment, but does not permit the transfer requested by commenters. The law is explicit regarding the transfer requirements of this program, and FTA has no discretion in adding additional transfer provisions.

One commenter asked FTA to clarify that cooperative planning agreements between the Section 5339 designated recipient and subrecipients developed in compliance with Federal planning regulations (23 CFR 450, Subpart C) and that specify the role of each agency in allocating Section 5339 funds will satisfy FTA's requirement for a written agreement. The FTA agrees that the suggested cooperative planning agreement is an example of a written agreement.

One commenter asked for clarification regarding whether the State may delegate Section 5339 project selection for small urbanized area funds to regional or local agencies as long as the State retains final approval of the program of projects. In response, FTA notes that States are responsible for administration of this program for small urban and rural areas. If they choose to delegate the responsibility to make recommendations for funding, that is allowable. However, the State must ensure that the funds are used in small UZAs and the State must monitor the use of the funds.

In response to the section on FTA oversight, one commenter asserted that triennial reviews should not apply to Section 5339 designated recipients that allocate funds to fixed route bus operators but do not operate bus service themselves. The FTA notes that recipients may be subject to a Triennial, State Management, or other regularly scheduled comprehensive review to evaluate their performance. Oversight reviews of recipient performance allow FTA to determine if the recipient is complying with the certifications it has made. To further this effort, FTA's oversight reviews programs have been augmented to incorporate questions pertaining to how designated recipients administer this program. In addition, FTA is working within its existing oversight programs to recognize where direct recipients of Section 5307 funding, who may be receiving direct oversight from FTA, may be subrecipients under the Section 5339 program. As a result, FTA will look to designated recipients for the overall administration of the program pursuant to its management plan, but will not require duplicative oversight. As appropriate, it is recommended that designated recipients review the results of subrecipients' past oversight reviews.

The FTA received six comments on section 7 of this chapter related to the Bus Program's relationship to other programs. A few commenters expressed concern that language in this section of the proposed circular regarding Section 5339 eligibility guidelines could thwart the ability of a State to effectively transfer the funds for use in the Section 5311(c) rural program. In response, FTA notes that funds available under the National Distribution allocation may be transferred from Section 5339 to Section 5311 for administrative purposes, but if the funds are transferred, they must be used for eligible bus and bus facilities capital projects.

One commenter supported FTA's clarification in this section regarding identifying ways in which the Section 5339 funds relate to other FTA programs, specifically as outlined under 49 U.S.C. 5309. Specifically, the commenter stated that this clarification offers public transit agencies some flexibility in developing financing packages for large capital projects.

Though most comments related to bus overhauls were submitted in relation to Chapter III of the proposed circular, one commenter noted in response to this section that bus overhauls are listed as eligible capital expenses in FTA Circular 9030.1E (page IV–2), which determines projects eligible for funding through Section 5307, and FTA Circular 9040.1G (page III–8), which lists eligible capital expenses under Section 5311. The commenter asked FTA to clarify whether its intent is to encourage applicants to use Sections 5307 and 5311 to obtain funding for engine overhauls instead of Section 5339. In response, recipients are eligible to utilize these other programs to support engine overhauls. However, as noted in the next section in response to comments, FTA has also expanded eligibility under the Section 5339 program to include engine overhaul activities, which is described in Chapter III.

D. Chapter III—General Program Information

In this Chapter information is provided regarding the availability of funding and addresses general project and program eligibility. The FTA received a number of comments on this chapter, many of which related to FTA's proposed exclusion of midlife overhauls from the list of eligible capital projects in section 5 of this chapter.

Several commenters expressed concern that not enough Section 5339 funds would be available to rural transit agencies based on the apportionment calculations for the Bus Program detailed in Chapter III of the proposed circular. Specifically, commenters asserted that the Section 5339 funds should be allocated based on need rather than population. One commenter asked that FTA revise section 1 to state that the National Distribution set aside funds should be the only Section 5339 funds available to rural transit operators. Any change to the National Distribution set aside would require legislative action. The FTA notes that Section 5336 lists how the apportionment of all FTA formula programs must be allocated. Therefore, FTA does not have the discretion to change the formula allocations for Section 5339. The same commenter asked FTA to revise section 3 to make Section 5339 funding available for the same amount of time as Sections 5307 and 5311 funds. In response, to ensure timely obligation of funds and for consistency with the Section 5309 and 5337 programs as well as the former Bus and Bus Facilities program, FTA has established the period of availability to

be 4 years—the year of apportionment plus 3 additional years.

A few commenters recommended revising section 4 to expand the Governor's ability to transfer funds to Section 5311 projects. One commenter suggested the transfer should be mandated based on vehicle replacement needs rather than Governor's discretion. FTA notes that the law does not stipulate that Governors must prioritize vehicle replacements before expansions and facilities. Therefore, FTA has no authority to mandate funding priority as it relates to types of projects or intended recipients (*e.g.* rural).

Two commenters asked FTA to allow designated recipients other than States to transfer apportionments to Section 5307 to be used for eligible Bus Program activities and to allow Section 5307 direct recipients to apply directly to FTA for their allocation in order to eliminate unreimbursed costs of full grant administration. As noted previously, the only transfer provision allowed under this section is for the National Distribution allocation, which is provided to the States. Therefore, FTA notes that only States can transfer 5339 funds, and even then it is limited to the amounts available under the National Distribution allocation. Therefore, FTA does not have the discretion to allow other recipients to transfer funds. Furthermore, a set aside was not provided for administrative funds for this program.

In regards to midlife overhauls, the circular proposed that rebuilds are eligible but overhauls and preventive maintenance are not. The majority of the commenters recommended that overhauls be expressly included in the list of eligible capital projects.

A few commenters recommended that FTA allow bus overhauls to be considered as an eligible capital expense under Section 5339 by specifically listing it as one of the capital projects eligible in section 5 with the caveat that it is the sole preventive maintenance activity allowed under Section 5339. One commenter asserted that FTA has no statutory authority to make preventive maintenance ineligible under Section 5339. A few commenters stated that the definitions for overhaul and rebuild in the proposed circular mischaracterize overhauls as a preventive maintenance activity and asserted that midlife overhauls extend far beyond those areas covered by manufacturers' recommended maintenance procedures. Several commenters asserted that MAP–21 defines Section 5339 project eligibility to include both bus rehabilitation and bus replacement/purchases, without distinguishing between mid-life overhauls and rebuilds in further defining rehabilitation.

A few commenters expressed concern that FTA's position on mid-life overhaul eligibility could reverse the positive trend of clean fuel technologies. Without Federal dollars available for mid-life energy storage replacement and upgrades, financially-strapped transit agencies may not choose to buy hybrid and electric drive buses.

In response to the myriad of comments related to bus overhauls, FTA has revised the circular to include bus overhauls as an eligible capital project, specifically as an eligible rehabilitation activity. For rolling stock to be overhauled, it must have accumulated at least 40 percent of its useful life. It is important to note that overhauls are the only preventive maintenance capital expenses allowed in the Section 5339 program. The FTA has also notes that the overhaul eligibility is in addition to eligibility of rehabilitation which is defined as ''rehabilitate'' in section 4 of Chapter I.

One commenter encouraged FTA to continue to allow the use of Federal funds for public artwork that enhances a transit facility or has historical meaning to the local region. In response, MAP–21 specifically repealed the eligibility of public artwork in public transportation projects. However, art can be integrated into facility design, landscaping, and historic preservation, and funded as a capital expense. Art also can be integrated through the use of floor or wall tiles that contain artist-designed and fabricated elements, use of color, use of materials, lighting, and in the overall design of a facility. In addition, eligible capital projects include incidental expenses related to acquisition or construction, including design costs. Therefore, the incidental costs of incorporating art into facilities and including an artist on a design team continue to be eligible expenses. Procuring sculptures or other items not integral to the facility is no longer an eligible expense.

The FTA received several comments on the proposed elimination of ''intercity bus stations and terminals'' from the list of eligible projects contained in the proposed circular. Two commenters indicated that ''intercity bus stations and terminals'' is the only category of eligible projects which appears in Circular 9300.1B, but does not appear in draft Circular 5100.1A few commenters suggested that FTA revise section 5 to specify that intercity bus stations and terminals are eligible for funding as joint development improvements. Other commenters suggested FTA revise section 6 to ensure that joint development improvements may include intercity bus stations and terminals, including the outfitting of those stations and terminals. In response, FTA notes that intercity facilities are an eligible activity under the Section 5339 program as part of a joint development project. The FTA has revised section 6 to ensure joint development improvements expressly include intercity facilities. For more information on the eligibility of intercity facility joint development projects see FTA Circular 7050.1 ''Federal Transit Administration Guidance on Joint Development,'' pages I–3 section f., III–5 section 2, and III–7 section 4.

A few of the commenters indicated that the new ''fair share of revenue'' threshold detailed in FTA Circular 7050.1 makes use of Section 5339 funds difficult, if not impossible, because there would be no way for intercity bus operators to make the required payments. Specifically, the commenters asked FTA to ensure that the ''fair share of revenue'' threshold (page VI–4, section 5 of FTA Circular 7050.1) does not apply to intercity bus stations or terminals; and request FTA to use the ''publicly operated projects exception'' for such facilities so that the amount of revenue generated is less than the amount of the FTA investment. Chapter III of FTA Circular 7050.1 states that community service or publicly operated facilities can have a fair share of revenue less than the required federal threshold, but it must be based on actual revenue. In response, FTA concurs that in accordance with FTA Circular 7050.1, any intercity bus project that is within, or physically part of, a ''publicly operated'' facility (as in most cases), can have a fair share of revenue less than the federal threshold requirements (see FTA Circular 7050.1 ''Federal Transit Administration Guidance on Joint Development,'' page III–6 for additional information on FTA's fair share of revenue requirements).

One commenter stated that the proposed guidance appears to exclude as an eligible expense the procurement of replacement or expansion vans used in revenue service and related maintenance and administrative facilities, including specialized vans and related facilities used to provide ADA complementary paratransit service. The proposed circular specified the eligibility of Section 5339 Program funds for the acquisition of ''buses'' for fleet and service expansion and for bus maintenance and administrative facilities, consistent with the statutory language. The list of eligible projects in both the proposed and final circular are

intended to be illustrative. Although the proposed guidance also included a more general statement that allowed the use of Section 5339 Program funds for the ''acquisition of replacement vehicles,'' the eligibility to fund the procurement of vans to replace those that have reached or exceeded their useful life was not clearly defined. Another commenter recommended that the procurement of expansion or replacement vans and related maintenance and administrative facilities used by vans in revenue service (including those used in ADA required complementary service) be considered eligible expenses. In response, FTA notes that the procurement of expansion or replacement vans and related maintenance and administrative facilities used by vans in revenue service is an eligible activity under Section 5339. Therefore the eligible capital project language of the circular has been adjusted to include these activities.

Two commenters asked FTA to revise the definition of eligible capital projects in section 5 to expressly state that use of Section 5339 funds is not limited to projects undertaken on fixed routes. The FTA notes that the list of eligible capital projects did not expressly limit Section 5339 funds to fixed route bus purchases. However, FTA is amending the circular to clarify that eligible projects as authorized in Section 5339(a)(1) and (2) are not limited to fixed route only. The reference to fixed route only applies to determining recipient eligibility of Section 5339 program funds.

One commenter sought clarification regarding whether general administrative expenses that a designated recipient incurs are eligible as an indirect cost. The FTA notes that only project administrative costs are allowable, not program administrative costs. The same commenter suggested that FTA include the federal share for project administration costs. The Federal share of project administrative costs is 80 percent since it is considered a capital expense.

One commenter sought clarification regarding whether eligible capital projects includes only expansion of existing services or whether Section 5339 funds can be used to fund new vehicles for new transportation services. The FTA notes that Section 5339 funds can be used for both the expansion of existing services and to fund vehicles for implementation of new transportation services.

One commenter indicated that section 5 is missing information on the percent of eligible costs based on the different possible types of bus operating contracts. Specifically, the commenter asserted that the circular should contain a schedule similar to Exhibit IV–1 in Circular 9030.1E, showing for various contract types the percentage presumed to be eligible without requiring further documentation. In response, FTA notes that only some categories of capital cost of contracting are eligible for Section 5339 funding; specifically contract types that include preventative maintenance are not eligible. Therefore, FTA has updated information on capital cost of contracting in section 5 and included Exhibit III–1: ''Percent of Contract Allowed for Capital Assistance Without Further Justification.''

Section 10 proposed additional sources of local share that recipients may use as part of local match for a capital project. Two commenters expressed appreciation for FTA's provision of clear instructions regarding how the use of Transportation Development Credits (toll credits) should be indicated in a grant application.

Regarding local match, one commenter suggested that FTA allow the guaranteed annual savings of an energy savings performance contract (ESPC) to be used to offset the local match. Grantees interested in ESPC as match should contact their FTA regional office for additional information.

One commenter suggested that the circular should state that for ADA or CAA activities the federal share may not exceed those applicable shares. Specifically, the commenter stated that the circular should not remove a recipient's flexibility to not go above 80 percent Federal share for a project. The FTA notes that there is no loss in flexibility. While recipients must meet certain percentages of local match as a statutory requirement, it is a local decision as to whether to provide overmatch. Another commenter sought clarification regarding whether grantees will need to itemize those components of the vehicles (*i.e.* the lift at 90 percent and the bus itself at 80 percent) or use the 85 percent Federal share for ADA and CAA compliant vehicles. In response, the purpose of the 85 percent was to codify the previously used application of 83 percent, which was set by FTA for administrative purposes. Recipients may use the 85 percent Federal share for ADA/CAA compliant vehicles. In cases where the grantee is replacing just a piece of equipment for purposes of complying with one or both of these acts, the grantee can itemize that individual piece of equipment for 90 percent.

One commenter asserted that the match requirement should be eliminated on all formula grants and only required on competitive grants. 49 U.S.C. Chapter 53 requires a local match for all FTA formula funded projects. The FTA does not have any discretion to relax this requirement.

One commenter sought clarification regarding Section 5323(i)(2), which permits recipients to count as local match amounts that are expended by a private provider of the public transportation by vanpool for the acquisition of rolling stock to be used by the provider in the recipient's service area. The proposed circular elaborates further by observing that the effect of this provision is to allow revenues received in the operation of public transportation service by vanpool that exceed operating expenses to be re-invested in capital equipment and to be counted towards a recipient's local match requirement under a capital cost of contracting grant agreement. The FTA's policy on vanpool provisions was addressed in the FY 2015 Annual Apportionment notice. However, FTA has responded to the specific questions raised by the commenter in previous correspondence as the comments were specific to the commenter rather than FTA's vanpool policy.

E. Chapter IV—Planning and Program Development

In this chapter, FTA proposed guidance on metropolitan and statewide planning requirements. The chapter also addresses programming guidelines, environmental considerations, transfer provisions, and capital project requirements. One commenter expressed appreciation for the language FTA included in the proposed circular regarding the Governor's ability to allocate formula fund apportionments to small UZAs located within or designated as Transportation Management Areas (TMAs) that are different from the allocations FTA publishes. However, the commenter would like FTA to return to pre-MAP–21 practices to make it clear that apportionments for these TMA small urbanized areas must be allocated to these areas. In response, FTA notes that MAP–21 mandated that States and the designated recipients have the discretion as to how these funds are distributed. A change to have apportionments to go directly to small urbanized areas would require a change in the law. Therefore, such a change cannot be included in this circular. Pursuant to section 5336(e), the Governor exercises the authority to allocate section 5339 formula

apportionments to all small UZAs within the State—including those that lie within the planning areas of MPOs serving TMAs. Federal law clearly states that it is up to the State to determine the distribution method for section 5339 funds among small UZAs, and inclusion of small UZAs within the planning area of an MPO that serves a transportation management area (TMA) does not change the status of those small UZAs. They are still small UZAs and subject to the Governor's allocation. As for the funding apportioned by formula, for small UZAs, the Governor has flexibility to allocate the funds among the small UZAs to meet the capital bus needs in those areas.

Regarding FTA's proposal that Section 5339 recipients develop a program of projects (POP), two commenters asserted that MAP–21 does not specifically require a ''program of projects'' to be submitted to the Secretary for the 5339 program and would like FTA to relax the requirements for the POP. The same commenters also recommended that FTA consider adding language to the circular that allows FTA to approve whole categories of projects immediately upon filing of the POP by a grantee. The FTA notes that Section 5339(b) requires that recipients comply with Section 5307 grant requirements, and the program of projects is a requirement at 49 U.S.C. 5307(b). Further, given the statutory provision relates to recipients, FTA expects recipients to be applying on behalf subrecipients, and therefore the grant should be accompanied by a POP. Another commenter sought clarification on how the designated recipient is to notify FTA prior to making revisions to the POP. The circular instructs designated recipients to work with their FTA regional office when developing the POP. This is consistent with other FTA program circulars, particularly for programs that require POPs.

In the proposed circular, FTA provided guidance on FTA's useful life policy. One commenter recommended that FTA increase the asset limit for useful life determinations to 50 percent of the asset's original value. Revisiting the standards would require extensive research and is beyond the scope of this program circular; thus, FTA cannot address this cross-cutting issue in this circular.

Another commenter urged FTA to continue the exemption of Section 5311 operators from the rolling stock spare ratio of 20 percent. Furthermore, the commenter asked FTA to adopt an exemption for contingency fleets from the spare ratio calculation and allow vehicles that still have a federal interest or useful life be an eligible vehicle for contingency fleets. These comments are outside the scope of this particular circular as they are cross-cutting issues that apply to other FTA programs. However, recipients are reminded that the rolling stock spare ratio policy only applies to fleets of 50 or more vehicles.

One commenter asserted that FTA's proposed guidance to competitively procure rebuilding work from the private sector would restrict a transit agency's ability to use its staff and would also create conflicts with labor unions. The commenter recommended that FTA allow subrecipients that have a qualified labor force to use that labor force for vehicle rebuilds instead of procuring the service from the private sector. The commenter also sought clarification regarding what may constitute a ''mitigating circumstance'' and what FTA would consider an interference with ''normal maintenance activities'' if rebuild work is done in-house. In addition, the commenter recommended that FTA specify in its final guidance that overhaul and rebuild work conducted by in-house labor are eligible expenses. Overhaul and rebuild work conducted by in-house labor are eligible expenses. The circular does not restrict the use of a qualified labor force for vehicle rebuilds and overhauls. The use of a grantee's own labor force to accomplish a capital project is force account labor and is eligible under the program. See the current version of circular 5010 for more information and force account requirements for capital projects. Please note that force account requirements do not apply to overhaul activities as those projects are considered to be preventive maintenance.

Finally, one commenter requested clarification in response to FTA's proposal in section 7 of this chapter indicating that Section 5339 funds are not available to be transferred between FHWA and FTA for transit or highway projects. Section 5334(i) of title 49, U.S.C. provides that FHWA funds used for transit projects may be transferred to FTA, and FTA funds used for highway projects shall be transferred to FHWA for program administration. Since funds available under Section 5339 are not available for highway projects, they may not be transferred to FHWA.

F. Chapter V—Program Management and Administrative Requirements

This chapter outlines the requirements to which Section 5339 recipients must certify compliance, including legal, technical, and financial capacity. Recipients (including subrecipients and contractors) of Section 5339 program funds are required by statute to submit data to the National Transit Database (NTD).

One commenter asserted that NTD reporting requirements should not apply to Section 5339 recipients that are not providers of public transportation or are not also recipients of Section 5307 or Section 5311 funds. Two commenters recommended that the section on NTD reporting include language that confirms that if Section 5339 funds are awarded by the State to a Section 5307 recipient (*i.e.,* the Section 5307 recipient becomes a subrecipient of the State under the Section 5339 program), the Section 5307 recipient retains all NTD reporting obligations, including reporting for the Section 5339 funds. The commenters also recommended that FTA consider revising the reporting requirements for the Section 5311 program such that NTD reporting is rolled up at the State level and individual subrecipient reporting ends. The same commenters also expressed concerned that the proposed circular includes language that requires recipients or beneficiaries of Section 5339 funding to file monthly safety and security reports in the NTD system that contain increased reporting obligations. Although NTD reporting requirements dictate that certain grantees report, monthly safety and security reports are not required under the 5339 Program.

One commenter asked FTA to increase the limit for small purchases to $150,000 as is currently proposed in the Office of Management and Budget (OMB) Super Circular in order to allow agencies the opportunity to purchase one or two vehicles without having to complete an onerous competitive procurement for small purchases. On December 26, 2013, OMB issued final guidance 2 CFR part 200 ''Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards'' also known as the ''Super Circular.'' 78 FR 78590. The guidance, which will take effect with new grants obligated on or after December 26, 2014, will supersede and apply in lieu of the common grant rule (49 CFR parts 18 and 19), and will change the simplified acquisition threshold from $100,000 to $150,000 to match the Federal Acquisition Regulation. See 2 CFR 200.88. We have amended the circular to reflect this change.

G. Chapter VI—State and Program Management Plans

This chapter begins by providing a general overview of State and Program Management Plans (SMP and PMP)

which are intended to facilitate both recipient management and FTA oversight by documenting the State's and designated recipient's procedures and policies for administering the Section 5339 program. One commenter expressed concern that FTA is proposing a PMP for a program that does not warrant this high level of management. The commenter strongly suggested the FTA reconsider the requirement for a PMP. In response, FTA notes that a PMP or SMP, for the case of a State recipient, is required for any program in which the recipient will be managing subrecipients, as it facilitates both recipient management and FTA oversight by documenting the designated recipient's procedures and policies for administering the Section 5339 program. The primary purpose of the PMP/SMP is to serve as the basis for FTA to perform recipient-level management reviews of the program, and to provide public information on the recipient's administration of the Section 5339 program. It may also be used internally by the recipient as a program guide for local project applicants.

One commenter sought clarification regarding whether a PMP is required from a single designated recipient within a large Urbanized Area. If there is only one designated recipient, then a PMP is not required. However, if the designated recipient is managing and overseeing multiple subrecipients, then a PMP is required.

H. Chapter VII—Other Provisions

This chapter describes cross-cutting Federal requirements that apply to the Section 5339 Program. The FTA did not receive any substantive comments on this chapter and did not make any substantive edits.

I. Appendices

The appendices include instructions for preparing a grant application and a budget, an application checklist, and several forms and representative documents that recipients will need when applying for Section 5339 funds. One commenter recommended including a sample sub-agreement between designated recipients and potential subrecipients. The FTA notes that the designated recipient must still manage the grant in TEAM. The FTA has no role in the relationship between subrecipients and designated recipients other than determining if the subrecipient is eligible for FTA funding. Therefore, there is not a ''one-size fits all'' sample agreement between subrecipients and designated recipients.

Therese M. McMillan,

Acting Administrator.

BILLING CODE P

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. NHTSA–2015–0015; Notice 1]

Continental Tire the Americas, LLC, Receipt of Petition for Decision of Inconsequential Noncompliance

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

ACTION: Receipt of petition.

SUMMARY: Continental Tire the Americas, LLC, (CTA), has determined that certain Continental replacement passenger car tires do not fully comply with paragraph S5.5(f) of Federal Motor Vehicle Safety Standard (FMVSS) No. 139, *New Pneumatic Radial Tires for Light Vehicles.* CTA has filed an appropriate report dated January 7, 2015, pursuant to 49 CFR part 573, *Defect and Noncompliance Responsibility and Reports.*

DATES: The closing date for comments on the petition is May 18, 2015.

ADDRESSES: Interested persons are invited to submit written data, views, and arguments on this petition. Comments must refer to the docket and notice number cited at the beginning of this notice and submitted by any of the following methods:

- Mail: Send comments by mail addressed to: U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC 20590.
- Hand Deliver: Deliver comments by hand to: U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC 20590. The Docket Section is open on weekdays from 10 a.m. to 5 p.m. except Federal Holidays.
- Electronically: Submit comments electronically by: Logging onto the Federal Docket Management System (FDMS) Web site at *http://www.regulations.gov/.* Follow the online instructions for submitting comments. Comments may also be faxed to (202) 493–2251.

Comments must be written in the English language, and be no greater than 15 pages in length, although there is no limit to the length of necessary attachments to the comments. If comments are submitted in hard copy form, please ensure that two copies are provided. If you wish to receive confirmation that your comments were received, please enclose a stamped, self-addressed postcard with the comments. Note that all comments received will be posted without change to *http://www.regulations.gov*, including any personal information provided.

Documents submitted to a docket may be viewed by anyone at the address and times given above. The documents may also be viewed on the Internet at *http://www.regulations.gov* by following the online instructions for accessing the dockets. DOT's complete Privacy Act Statement is available for review in the **Federal Register** published on April 11, 2000, (65 FR 19477–78).

The petition, supporting materials, and all comments received before the close of business on the closing date indicated below will be filed and will be considered. All comments and supporting materials received after the closing date will also be filed and will be considered to the extent possible. When the petition is granted or denied, notice of the decision will be published in the **Federal Register** pursuant to the authority indicated below.

SUPPLEMENTARY INFORMATION:

I. CTA's Petition: Pursuant to 49 U.S.C. 30118(d) and 30120(h) (see implementing rule at 49 CFR part 556), CTA submitted a petition for an exemption from the notification and remedy requirements of 49 U.S.C. Chapter 301 on the basis that this noncompliance is inconsequential to motor vehicle safety.

This notice of receipt of CTA's petition is published under 49 U.S.C. 30118 and 30120 and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

II. Tires Involved: Affected are approximately 116,500 Continental ExtremeContact DWS size 225/45R17 91W, Continental ExtremeContact DW size 225/45R17 91W and General G-Max AS–03 size 225/45R17 91W passenger car tires.

III. Noncompliance: CTA explains that the noncompliance is that due to mold labeling errors, the sidewall markings on the subject tires do not correctly describe the actual number of plies in the tread area of the tires as required by paragraph S5.5(f) of FMVSS No. 139. Specifically, the Continental ExtremeContact DWS size 225/45R17 91W tires were manufactured with

''Tread 4 Plies: 1 Polyester + 2 Steel + 1 Polyamide.'' The correct labeling and stamping should have been ''Tread 5 Plies: 1 Polyester + 2 Steel + 2 Polyamide.'' The Continental ExtremeContact DW size 225/45R17 91W tires were manufactured with ''Tread 4 Plies: 1 Polyester + 2 Steel + 1 Polyamide.'' The correct labeling and stamping should have been ''Tread 5 Plies: 1 Polyester + 2 Steel + 2 Polyamide.'' The General G-Max AS–03 size 225/45R17 91W tires were manufactured with ''Plies: Tread: 1 Polyester + 2 Steel + 1 Polyamide.'' The correct labeling and stamping should have been ''Plies: Tread: 1 Polyester + 2 Steel + 2 Polyamide.''

IV. Rule Text: Paragraph S5.5 of FMVSS No. 110 requires in pertinent part:

S5.5 Tire Markings. Except as specified in paragraphs (a) through (i) of S5.5, each tire must be marked on each sidewall with the information specified in S5.5(a) through (d) and on one sidewall with the information specified in S5.5(e) through (i) according to the phase-in schedule specified in S7 of this standard . . .

(f) The actual number of plies in the sidewall, and the actual number of plies in the tread area, if different;

V. Summary of CTA's Analyses: CTA stated its belief that the subject noncompliance is inconsequential to motor vehicle safety for the following reasons:

(A) CTA believes that the mislabeling of the number of plies on the subject tires has no impact on the operational performance of the subject tires or on the safety of vehicles on which these tires are to be mounted. CTA states that the subject tires also meet or exceed all of the performance requirements specified by FMVSS No. 139.

(B) CTA states that they are unaware of any accidents or injuries that have occurred as a result of this noncompliance.

(C) CTA states that NHTSA has previously granted similar petitions for Inconsequential Noncompliance's in the past.

CTA has additionally informed NHTSA that it has corrected the subject noncompliance.

In summation, CTA believes that the described noncompliance of the subject tires is inconsequential to motor vehicle safety, and that its petition, to exempt CTA from providing recall notification of noncompliance as required by 49 U.S.C. 30118 and remedying the recall noncompliance as required by 49 U.S.C. 30120 should be granted.

NHTSA notes that the statutory provisions (49 U.S.C. 30118(d) and 30120(h)) that permit manufacturers to file petitions for a determination of inconsequentiality allow NHTSA to exempt manufacturers only from the duties found in sections 30118 and 30120, respectively, to notify owners, purchasers, and dealers of a defect or noncompliance and to remedy the defect or noncompliance. Therefore, any decision on this petition only applies to the subject tires that CTA no longer controlled at the time it determined that the noncompliance existed. However, any decision on this petition does not relieve equipment distributors and dealers of the prohibitions on the sale, offer for sale, or introduction or delivery for introduction into interstate commerce of the noncompliant tires under their control after CTA notified them that the subject noncompliance existed.

Authority: (49 U.S.C. 30118, 30120: delegations of authority at 49 CFR 1.95 and 501.8).

Jeffrey Giuseppe,

Director, Office of Vehicle Safety Compiance.

[Docket No. NHTSA–2015–0029; Notice 1]

Mercedes-Benz USA, LLC, Receipt of Petition for Decision of Inconsequential Noncompliance

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

ACTION: Receipt of petition.

SUMMARY: Mercedes-Benz USA, LLC, (MBUSA) on behalf of itself and its parent company Daimler AG (DAG), collectively referred to as ''Mercedes'' has determined that certain model year (MY) 2015 Mercedes-Benz C-Class (205 Platform) passenger vehicles do not fully comply with paragraph S10.18.4 of Federal Motor Vehicle Safety Standard (FMVSS) No. 108, *Lamps, Reflective Devices, and Associated Equipment.* Mercedes has filed an appropriate report dated February 9, 2015, pursuant to 49 CFR part 573, *Defect and Noncompliance Responsibility and Reports.*

DATES: The closing date for comments on the petition is May 18, 2015.

ADDRESSES: Interested persons are invited to submit written data, views, and arguments on this petition. Comments must refer to the docket and notice number cited at the beginning of this notice and submitted by any of the following methods:

- *Mail:* Send comments by mail addressed to: U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC 20590.
- *Hand Deliver:* Deliver comments by hand to: U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC 20590. The Docket Section is open on weekdays from 10 a.m. to 5 p.m. except Federal Holidays.
- *Electronically:* Submit comments electronically by: logging onto the Federal Docket Management System (FDMS) Web site at *http://www.regulations.gov/.* Follow the online instructions for submitting comments. Comments may also be faxed to (202) 493–2251.

If you wish to receive confirmation that your comments were received, please enclose a stamped, self-addressed postcard with the comments. Note that all comments received will be posted without change to *http://www.regulations.gov,* including any personal information provided.

Documents submitted to the docket may be viewed by anyone at the address and times given above. The documents may also be viewed on the Internet at *http://www.regulations.gov* by following the online instructions for accessing the dockets. DOT's complete Privacy Act Statement is available for review in the **Federal Register** published on April 11, 2000, (65 FR 19477–78).

The petition, supporting materials, and all comments received before the close of business on the closing date indicated below will be filed and will be considered. All comments and supporting materials received after the closing date will also be filed and will be considered to the extent possible. When the petition is granted or denied, notice of the decision will be published in the **Federal Register** pursuant to the authority indicated below.

SUPPLEMENTARY INFORMATION:

I. *Mercedes' Petition:* Pursuant to 49 U.S.C. 30118(d) and 30120(h) (see implementing rule at 49 CFR part 556), Mercedes submitted a petition for an exemption from the notification and remedy requirements of 49 U.S.C.

Chapter 301 on the basis that this noncompliance is inconsequential to motor vehicle safety.

This notice of receipt of MBUSA's petition is published under 49 U.S.C. 30118 and 30120 and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

II. *Vehicles Involved:* Affected are approximately 9,137 MY 2015 Mercedes-Benz C-Class (205 Platform) passenger cars manufactured between June 18, 2014 through September 5, 2015 at Mercedes' Tuscaloosa, Alabama plant.

III. *Noncompliance:* Mercedes explains that the subject vehicles were manufactured with horizontal adjustment-visually aimed headlamps that have a lower beam and a horizontal adjustment mechanism that was not made inoperative at the factory. Specifically, the horizontal adjustment screw was not properly sealed off with non-removable sealing caps as necessary to fully meet the requirements of paragraph S10.18.4 of FMVSS No. 108.

Rule Text: Paragraph S10.18.4 of FMVSS No. 108 requires in pertinent part:

S10.18.4 *Horizontal adjustment-visually aimed headlamp.* A visually/optically amiable headlamp that has a lower beam must not have a horizontal adjustment mechanism unless such mechanism meets the requirements of this standard for on vehicle aiming as specified in S10.18.8.

V. *Summary of MBUSA's Analyses:* Mercedes stated its belief that the subject noncompliance is inconsequential to motor vehicle safety for the following reasons:

(A) Mercedes believes that new manufacturing methods, including the use of optical image processing to adjust the horizontal and the vertical illumination levels of headlamps in addition to the reduction in assembly tolerances for headlamp assemblies has resulted in optimal headlamp adjustments on vehicles leaving their manufacturing plants. As a result, on-vehicle aiming devices are no longer common in the industry. Mercedes believes that this has led to the elimination of the need for horizontal headlamp adjustment on in-use vehicles. Regarding the subject vehicles, Mercedes says there is generally no need for customers or repair shops to adjust the horizontal aim of headlamps.

(B) Mercedes states that they have only received five customer complaints in the United States, relating to alleged headlamp mis-aiming in the subject vehicles. None of the complaints relate to horizontal mis-aiming of the headlamps. In all instances customers brought their vehicles in for service by Mercedes repair shops, who know how to perform a headlamp readjustment properly, without using the horizontal adjustment screw.

(C) Mercedes' says they provide service instructions to U.S. repair shops that specify that horizontal headlamp adjustment is not permitted and do not even mention that a horizontal headlamp adjustment screw even exists. Similarly, the vehicle owner's manual does not include information about performing headlamp illumination adjustment. Thus, since the horizontal headlamp screw's existence is not mentioned in any sales or service instructions or manuals, use of the screw by the customer or repair facilities would be extremely unlikely.

(D) Mercedes also stated that even if the screw were to be used, such adjustment would result in only minimal differences in illumination levels compared to the original levels because it provides only a minimal range of adjustment. Mercedes elaborated by stating that when the horizontal adjustment screw is turned to the far left or far right end-position, only a few measuring points are slightly above or below the FMVSS No. 108 required levels. Specifically, when the horizontal adjustment screw is turned to the maximum left end-position ($-2.8°$), only 4 out of 24 measuring points are above (3) or under (1) the required illumination levels. And when the horizontal adjustment screw is turned to the maximum right end-position ($+3.2°$), only 2 out of 24 measuring points are under the required illumination levels. Thus, the difference between these worst-case levels and the required minimum or maximum levels are very small. According to Mercedes' headlamp development engineers, a difference of 300 cd [candela] is unlikely to be noticed by a driver and would not affect oncoming traffic or visibility in any material way. In addition, the subject headlamps rely on a reflection-based system which Mercedes' believes leads to less glare then projection-based system.

Mercedes has additionally informed NHTSA that it has corrected the subject noncompliance.

In summation, Mercedes believes that the described noncompliance of the subject vehicles is inconsequential to motor vehicle safety, and that its petition, to exempt Mercedes from providing recall notification of noncompliance as required by 49 U.S.C. 30118 and remedying the recall noncompliance as required by 49 U.S.C. 30120 should be granted.

NHTSA notes that the statutory provisions (49 U.S.C. 30118(d) and 30120(h)) that permit manufacturers to file petitions for a determination of inconsequentiality allow NHTSA to exempt manufacturers only from the duties found in sections 30118 and 30120, respectively, to notify owners, purchasers, and dealers of a defect or noncompliance and to remedy the defect or noncompliance. Therefore, any decision on this petition only applies to the subject vehicles that Mercedes no longer controlled at the time it determined that the noncompliance existed. However, any decision on this petition does not relieve vehicle distributors and dealers of the prohibitions on the sale, offer for sale, or introduction or delivery for introduction into interstate commerce of the noncompliant vehicles under their control after Mercedes notified them that the subject noncompliance existed.

Authority: (49 U.S.C. 30118, 30120: delegations of authority at 49 CFR 1.95 and 501.8).

Workforce Innovation and Opportunity Act; Joint Rule for Unified and Combined State Plans, Performance Accountability, and the One-Stop System Joint Provisions; Notice of Proposed Rulemaking

AGENCY: Office of Career, Technical, and Adult Education, Rehabilitation Services Administration, Education; Employment and Training Administration (ETA), Labor.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: The Departments of Education (ED) and Labor (DOL) are proposing, through this Notice of Proposed Rulemaking (NPRM), to implement jointly-administered activities authorized by title I of the Workforce Innovation and Opportunity Act (WIOA). Through these regulations, the Departments propose to implement job training system reforms and strengthen the nation's workforce development system to put Americans back to work and make the United States more competitive in the 21st Century. This joint proposed rule provides guidance for State and local workforce development systems that increase the skill and credential attainment, employment, retention, and earnings of participants, especially those with significant barriers to employment, thereby improving the quality of the workforce, reducing welfare dependency, and enhancing the productivity and competitiveness of the nation.

WIOA strengthened the alignment of the workforce development system's six core programs by imposing unified strategic planning requirements, common performance accountability measures, and requirements governing the one-stop delivery system. In so doing, WIOA placed heightened emphasis on coordination and collaboration at the Federal, State, and local levels to ensure a streamlined and coordinated service delivery system for job seekers, including those with disabilities, and employers. To that end, the Departments of Education and Labor propose to issue this joint NPRM to implement jointly-administered activities under title I of WIOA. These regulations lay the foundation, through coordination and collaboration at the Federal level, for implementing the vision and goals of WIOA.

In addition to this joint NPRM, the Departments have proposed separate NPRMs to implement program-specific requirements of WIOA that fall under each Department's purview. The Department of Labor is proposing a NPRM governing program-specific requirements under titles I and III of WIOA. The Department of Education is proposing three NPRMs: one implementing program-specific requirements of the Adult Education and Family Literacy Act (AEFLA), as reauthorized by title II of WIOA; and two NPRMs implementing all program-specific requirements for all programs authorized under the Rehabilitation Act of 1973, as amended by title IV of WIOA. The Department-specific NPRMs have been simultaneously published in this issue of the **Federal Register**. Developing and issuing all five WIOA NPRMs in a coordinated manner reinforces WIOA's heightened emphasis on collaboration to ensure an integrated and seamless service delivery system for job seekers and employers.

DATES: To be ensured consideration, comments must be submitted in writing on or before June 15, 2015.

ADDRESSES: You may submit comments, identified by docket number ETA–2015–0002, for Regulatory Information Number (RIN) 1205–AB74 and/or 1830–AA21, by one of the following methods:

Federal e-Rulemaking Portal: http://www.regulations.gov. Follow the Web site instructions for submitting comments.

Mail and hand delivery/courier: Written comments, disk, and CD–ROM submissions may be mailed to Adele Gagliardi, Administrator, Office of Policy Development and Research, U.S. Department of Labor, 200 Constitution Avenue NW., Room N–5641, Washington, DC 20210.

Instructions: Label all submissions with ''RIN 1205–AB74'' and/or ''RIN 1830–AA21.'' Please submit your comments by only one method. Please be advised that the Departments will post all comments received that are related to this NPRM on *http://www.regulations.gov* without making any change to the comments or redacting any information. The *http://www.regulations.gov* Web site is the Federal eRulemaking portal and all comments posted there are available and accessible to the public. Therefore, the Departments recommend that commenters remove personal information such as Social Security Numbers, personal addresses, telephone numbers, and email addresses included in their comments as such information may become easily available to the public via the *http://www.regulations.gov* Web site. It is the responsibility of the commenter to safeguard personal information.

Also, please note that due to security concerns, postal mail delivery in Washington, DC may be delayed. Therefore, the Departments encourage the public to submit comments on *http://www.regulations.gov*.

Docket: All comments on this proposed rule will be available on the *http://www.regulations.gov* Web site and can be found using RIN 1205–AB74 or RIN 1830–AA21. The Departments also will make all the comments it receives available for public inspection by appointment during normal business hours at the above addresses. If you need assistance to review the comments, the Departments will provide appropriate aids such as readers or print magnifiers. The Departments will make copies of this proposed rule available, upon request, in large print and electronic file on computer disk. To schedule an appointment to review the comments and/or obtain the proposed rule in an alternative format, contact the Office of Policy Development and Research (ETA) at (202) 693–3700 (this is not a toll-free number). You may also contact these offices at the addresses listed below.

Comments under the Paperwork Reduction Act: In addition to filing comments with ETA or the Department of Education, persons wishing to comment on the information collection aspects of this rule may send comments to: Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for DOL–ETA, Office of Management and Budget, Room 10235, 725 17th Street NW., Washington, DC 20503, Fax: 202–395–6881 (this is not a toll-free number), email: *OIRA_submission@omb.eop.gov*.

FOR FURTHER INFORMATION CONTACT:

DOL: Adele Gagliardi, Administrator, Office of Policy and Research (OPDR), U.S. Department of Labor, Employment and Training Administration, 200 Constitution Avenue NW., Room N–5641, Washington, DC 20210, Telephone: (202) 693–3700 (voice) (this is not a toll-free number) or 1–800–326–2577 (TDD).

ED: Lekesha Campbell, U.S. Department of Education, OCTAE, 400 Maryland Avenue SW., Room 11–145, PCP, Washington, DC 20202–7240, Telephone: (202) 245–7808; Janet LaBreck, U.S. Department of Education, RSA, 400 Maryland Avenue SW., Room 5086 PCP, Washington, DC 20202–2800, Telephone: (202) 245–7408.

I. Executive Summary

President Barack Obama signed WIOA into law on July 22, 2014. WIOA is landmark legislation designed to strengthen and improve our nation's public workforce system and help put Americans, especially youth and those with significant barriers to employment, back to work. WIOA supports innovative strategies to keep pace with changing economic conditions and seeks to improve coordination between the core WIOA and other Federal programs that support employment services, workforce development, adult education and literacy, and vocational rehabilitation activities.

In WIOA, Congress directed the Departments of Education and Labor to issue an NPRM to implement new statutory requirements to ensure that the workforce system operates as a comprehensive, integrated, and streamlined system to provide pathways to prosperity for those it serves and continuously improve the quality and performance of its services. Therefore, the Departments of Labor and Education are issuing this joint NPRM to implement jointly-administered activities authorized under title I of WIOA, specifically those related to the Unified and Combined State Plans, performance accountability, and the one-stop system.

The Departments of Education and Labor are publishing this joint NPRM to implement those provisions of WIOA that affect all of the WIOA core programs (titles I–IV) and which will be jointly administered by both Departments. In addition to this joint NPRM, the Departments are publishing separately four agency-specific NPRMs that implement the provisions of WIOA that are administered separately by the Departments—one published by the Department of Labor implementing the agency-specific provisions of title I, and three published by the Department of Education implementing the agency-specific provisions of titles II and IV. Readers should note that there are a number of cross-references in this joint NPRM to the agency-specific NPRMs. Finally, this NPRM has been structured so that the proposed Code of Federal Regulations (CFR) parts will align with the CFR parts in the agency-specific regulations once all of the proposed rules have been finalized.

WRIS—Wage Record Interchange System

III. Background

On July 22, 2014, President Obama signed WIOA, the first legislative reform of the public workforce system in more than 15 years, which passed Congress by a wide bipartisan majority. WIOA supersedes the Workforce Investment Act of 1998 (WIA) and amends the Wagner-Peyser Act and the Rehabilitation Act of 1973. WIOA reaffirms the role of the customer-focused one-stop delivery system, a cornerstone of the public workforce development system, and enhances and increases coordination among several key employment, education, and training programs.

WIOA presents an extraordinary opportunity for the workforce system to accelerate its transformational efforts and demonstrate its ability to improve job and career options for our citizens through an integrated, job-driven public workforce system that links diverse talent to our nation's businesses. It supports the development of strong, vibrant regional economies where businesses thrive and people want to live and work.

Most provisions in titles I–III of WIOA take effect on July 1, 2015, the first full

program year after enactment; however, the new State Plans and performance accountability system take effect July 1, 2016. Title IV took effect upon enactment.

WIOA is designed to help job seekers access employment, education, training, and support services to succeed in the labor market and to match employers with the skilled workers they need to compete in the global economy. WIOA has six main purposes: (1) Increasing access to and opportunities for the employment, education, training, and support services that individuals, particularly those with barriers to employment, need to succeed in the labor market; (2) supporting the alignment of workforce investment, education, and economic development systems in support of a comprehensive, accessible, and high-quality workforce development system; (3) improving the quality and labor market relevance of workforce investment, education, and economic development efforts; (4) promoting improvement in the structure and delivery of services; (5) increasing the prosperity of workers and employers, the economic growth of communities, regions and States, and the global competitiveness of the United States; and (6) providing workforce investment activities, through workforce development systems, that increase employment, retention, and earnings of participants and that increase post-secondary credential attainment and, as a result, improve the quality of the workforce, reduce welfare dependency, increase economic self-sufficiency, meet skill requirements of employers, and enhance productivity and competitiveness of the nation.

WIOA offers an opportunity to continue to modernize the workforce system, and achieve key hallmarks of a strong workforce system: A customer-centered system, where the needs of business and workers drive workforce solutions; a system where one-stop career centers and partners provide excellent customer service to job seekers and businesses, and where the workforce system supports strong regional economies.

To achieve these goals, WIOA requires an integrated approach to the implementation, administration, service delivery, and evaluation of the services provided under the core programs at the Federal, State, and local levels. The core programs consist of: (1) The adult, dislocated worker, and youth formula programs administered by DOL under title I of WIOA; (2) the AEFLA program administered by ED under title II of WIOA; (3) the Wagner-Peyser Act employment services program administered by DOL under title III of WIOA; and (4) the vocational rehabilitation program administered by ED under title IV of WIOA. Integration of the core programs essential to the effective operation of the workforce development system is achieved through the development of a Unified or Combined State Plan, the implementation of a common performance accountability system, and the design of the one-stop service delivery system. Under a Unified or Combined State Plan every State collaborates across the core programs (adult, dislocated worker, and youth; Wagner-Peyser; AEFLA; and Vocational Rehabilitation) and one-stop partner programs and other partners at the local and State levels to create a single unified and integrated strategic State Plan. States govern the core programs as one system assessing strategic needs and aligning them with service strategies to ensure the workforce system is designed to meet those needs. States use the certification process and competition to help achieve this vision and ensure continuous improvement.

State and Local Boards, one-stop center operators and partners must increase coordination of programs and resources to support a comprehensive system providing integrated seamless services to all job seekers and workers and effective strategies that meet businesses' workforce needs across the business life cycle. The Departments will work with State and Local Boards, one-stop center operators and partners to achieve an integrated data system for the core programs and other programs to ensure interoperability and the accurate and standardized collection of program and participant information. Integrated data systems will allow for unified and streamlined intake, case management and service delivery; minimize the duplication of data; ensure consistently defined and applied data elements; facilitate compliance with performance reporting and evaluation requirements; and provide meaningful information about core program participation to inform operations.

To facilitate the integration of the core programs, the Departments of Labor and Education have jointly developed this NPRM to implement the jointly-administered activities authorized under title I of WIOA, specifically those related to the Unified and Combined State Plan, performance accountability, and one-stop requirements. In so doing, the Departments agreed, for purposes of this NPRM, that the joint regulations would be identical across all core programs in order to ensure consistency. However, we recognize that some of the proposed regulations may not be applicable for a particular core program. For example, proposed provisions related to local areas would not be applicable to the Vocational Rehabilitation program because it operates solely at a State level.

Furthermore, various provisions of these proposed regulations reference joint guidance that the Departments plan to develop in the near future. The guidance may include: (1) Procedural requirements, such as how to submit a State Plan to the Department of Labor; (2) interpretative rules; and (3) the information that will be collected by the Departments pursuant to the Paperwork Reduction Act (PRA) information collection process, which includes an opportunity for public comment.

Legal Basis

On July 22, 2014, the President signed WIOA (Pub. L. 113–128) into law. WIOA repeals WIA (29 U.S.C. 2801 *et seq.*). As a result, the WIA regulations no longer reflect current law, thus necessitating this NPRM for jointly-administered activities. Furthermore, sec. 503(f) of WIOA requires the Departments of Education and Labor to issue NPRMs and then final rules that implement the changes made by WIOA. To that end, the Departments of Labor and Education are issuing this joint NPRM to implement jointly-administered activities authorized under title I of WIOA. The Departments of Labor and Education will each issue separate NPRMs, simultaneously with this joint NPRM, to implement program-specific requirements imposed by WIOA.

IV. Section-by-Section Discussion of Proposed Regulations

A. Unified and Combined State Plans Under Title I of the Workforce Innovation and Opportunity Act (20 CFR Part 676; 34 CFR Part 361, Subpart D; 34 CFR Part 463, Subpart H)

WIOA requires the Governor of each State to submit a Unified or Combined State Plan to the Secretary of DOL that outlines a 4-year strategy for the State's workforce development system. States must have approved State Plans in place to receive funding for the six core programs under WIOA—the adult, dislocated worker, and youth programs (title I of WIOA); the AEFLA program (title II of WIOA); the Wagner-Peyser Act employment services program (title III of WIOA); and the Vocational Rehabilitation program under title I of the Rehabilitation Act of 1973 (title IV of WIOA). Previously, WIA gave States the option of submitting a plan similar

to the Combined State Plans (referred to as Unified Plans in WIA).

WIOA reforms State Plan requirements to foster better alignment of Federal investments in job training, to integrate service delivery across programs, and to ensure that the workforce system is job-driven and matches employers with skilled individuals. At a minimum, States must submit a Unified State Plan, which encompasses the six core programs under WIOA. States are strongly encouraged to submit a Combined State Plan, which includes the six core programs of the Unified State Plan, plus one or more optional programs, as described at § 676.140. Coordination across multiple Federal programs provides a wider range of coordinated and streamlined services to the customer.

One of WIOA's principal areas of reform is to require States to plan across the programs and include this planning process in the Unified or Combined State Plans, which promotes a shared understanding of the workforce needs of a State and a comprehensive strategy for addressing those needs. Unified or combined planning can support better alignment of resources, increased coordination among programs, and improved efficiency in service delivery.

This proposed part describes the submission process and content requirements for the Unified and Combined State Plans under WIOA. The major content areas of the Unified or Combined State Plan include strategic and operational planning elements. Strategic planning elements include State analyses of economic and workforce factors, an assessment of workforce development activities, formulation of the State's vision and goals for preparing an educated and skilled workforce that meets the needs of employers, and a strategy to achieve the vision and goals. Operational planning elements include State strategy implementation, State operating systems and policies, program-specific requirements, assurances, and additional requirements imposed by the Secretaries of Labor or Education, or other Secretaries, as appropriate.

WIOA separates the strategic and operational plan elements to facilitate cross-program strategic planning. The separation of strategic elements allows the State to develop a vision for its entire system and identify the operational elements across the programs that support the system-wide vision. The plan requirements also require the use of economic and labor market information to ensure that the Governor's vision and the State's strategies are based on a thorough understanding of the economic opportunities and workforce needs of the State. This will align the best interests of job seekers and employers with the economic future of the State.

The proposed regulations also describe the Unified or Combined State Plan modification requirements and the deadlines for the Unified or Combined State Plan, depending on which option the State elects. Given the multi-year life of the plan, States are required to revisit regularly strategies to ensure the plan remains responsive to economic conditions and labor market needs.

State Workforce Development Boards are responsible for the development, implementation, and modification of the plan, and for convening of all relevant programs, required partners, and stakeholders. The Governor must ensure that the Unified or Combined State Plan is developed in a transparent manner and in consultation with representatives of Local Boards and chief elected officials (CEOs), businesses, representatives of labor organizations, community-based organizations (CBOs), adult and youth education and workforce development providers, institutions of higher education, disability service entities, youth-serving programs, and other stakeholders with an interest in the services provided by the six core programs and any optional program included in a Combined Plan, as well as the general public, including individuals with disabilities.

As part of the PRA process for information collections, the Unified or Combined State Plan information collection instrument and submission requirements will be published in the **Federal Register** pending completion of Office of Management and Budget (OMB) review. Additionally, DOL and ED will issue joint planning guidance to assist States in implementing the planning requirements for both the Unified and Combined State Plans. Additional guidance related to Combined State Plans may also be jointly issued in partnership with other Secretaries as necessary to clarify requirements for optional programs. Currently, the Departments issue State planning guidance separately to explain the Administration's priorities in relation to the planning requirements, explaining such requirements where necessary, submission procedures, and other matters. Jointly issued guidance would best meet the needs of State planning processes and submission requirements for WIOA.

The Departments note that titles I, II, and the Rehabilitation Act of 1973 as amended by title IV of WIOA appear to raise inconsistencies regarding the applicability of certain jointly-administered requirements as they relate to the outlying areas—American Samoa, Guam, the U.S. Virgin Islands, and the Northern Mariana Islands. The apparent inconsistencies are grounded in the fact that WIOA and the Rehabilitation Act contain two differing definitions of ''State.'' Specifically, sec. 3(56) of WIOA defines ''State,'' for purposes of programs funded under title I of WIOA, as the 50 States, the District of Columbia, and Puerto Rico; the outlying areas are defined separately in sec. 3(45) as described above, and include Palau in certain circumstances. On the other hand, title IV, which amended the Rehabilitation Act of 1973, defines ''State'' at sec. 7(34) as the 50 States, the District of Columbia, Puerto Rico, American Samoa, Guam, the U.S. Virgin Islands, and the Northern Mariana Islands, thereby defining any of the outlying areas as a State for purposes of programs funded under title IV of WIOA. Title II of WIOA does not separately define either ''State'' or ''outlying area,'' but defines ''eligible agency'' at sec. 203(3) to mean ''the sole entity or agency in a State or outlying area responsible for administering or supervising policy for adult education and literacy activities in the State or outlying area . . .'' These differences in definitions raise potential inconsistencies in the applicability of certain jointly-administered requirements for purposes of the outlying areas, such as those related to the requirements in secs. 102 and 103 of WIOA, which require States to submit a Unified or Combined State Plan to receive funding. Given the differing definitions, WIOA appears to be inconsistent across the core programs as to whether an outlying area must submit a Unified or Combined State Plan to receive funding.

WIOA sec. 102(a) requires that, in order for a State to be eligible to receive allotments for the core programs, the State must submit a Unified State Plan. Read in isolation, sec. 102(a) does not appear to require that outlying areas submit a Unified State Plan as a prerequisite to receiving funds for the core programs.

However, several other provisions in title I of WIOA create uncertainty on this point. Sections 126 (youth formula program) and 131 (adult and dislocated worker formula programs) require States to meet the requirements of secs. 102 or 103 to receive a formula allotment under title I, while those same sections require outlying areas to comply with the requirements of title I, without elaboration, to receive an allotment

under title I. The requirement in WIOA secs. 126 and 131 that outlying areas must comply with the requirements of title I implies—but is not clear—that they must submit a Unified State Plan. Between the clear language in sec. 102 and the failure of secs. 126 and 131 to reference secs. 102 and 103, WIOA title I is unclear if outlying areas are required to submit a Unified State Plan to receive funding under title I.

Under title II of WIOA, which reauthorizes AEFLA, sec. 211(b)(1) states that eligible agencies shall be awarded a grant to carry out their adult education program if they have a Unified State Plan approved under sec. 102. Section 211(c)(1) includes similar language with regard to sec. 102 of WIOA when it describes the amounts to be allotted to eligible agencies. As noted above, WIOA sec. 203 defines an eligible agency as the agency in the State or outlying area (as those terms are defined in sec. 3 of WIOA) responsible for administering the adult education program in the State or outlying area. Thus, a plain reading of secs. 211(b)(1) and 211(c)(1) is that both States and outlying areas must have an approved Unified State Plan to be eligible to receive title II funds. WIOA sec. 221(1) reinforces this reading by requiring each eligible agency to develop, implement, and monitor the relevant portions of the Unified State Plan.

However, WIOA sec. 224 only requires each State that wants funds under title II for any fiscal year to submit a Unified State Plan in accordance with sec. 102. In other words, sec. 224 does not mention eligible agencies or outlying areas, as is done in other provisions throughout title II. Of additional note is that separate from the requirements of WIOA, the Department of Education has permitted outlying areas administering AEFLA-funded programs to include AEFLA in an application for Consolidated Grants to Insular Areas (Consolidated Grant), in accordance with 48 U.S.C. 1469a. Consolidated Grant applications are submitted in lieu of any other State plan that is required under the programs included in the consolidation. Finally, sec. 101(a)(1) of the Rehabilitation Act of 1973, as amended by title IV of WIOA, requires a State—the definition of which includes outlying areas as described above—to submit a Unified State Plan in accordance with sec. 102 of WIOA in order to be eligible to receive Vocational Rehabilitation Services funds. This provision, unlike the similar provisions in WIOA titles I and II discussed above, is clear that the submission of a Unified State Plan is a prerequisite to receiving funding.

Given these differences and potential inconsistencies, there are two possible options with regard to outlying areas. The first option is to require the outlying areas to submit a Unified or Combined State Plan as a prerequisite to receiving funding for the core programs. Under this option, the outlying areas would receive their funding through the relevant statutory and regulatory processes for all core programs as would be applicable to any State. While this option is consistent with WIOA's goal of creating a more integrated, streamlined system and treats all grantees similarly, the Departments understand that the Unified or Combined State Plan requirements could pose additional burden on the outlying areas that may not exist for other States in terms of size, capacity, and resources. If the Departments were to adopt this option, the Department of Education would have, as an additional consideration, the implications of the Consolidated Grant application process as an option for the outlying areas to apply for AEFLA funds.

The second option would be not to require the outlying areas to submit a complete Unified or Combined State Plan as a prerequisite to receiving funding for the core programs. Under this option, the Departments would continue to award funds to the outlying areas under WIOA as they have in the past. For example, under this option the Department of Labor would continue to require the outlying areas to submit a plan as part of the competitive grant competition required by WIOA sec. 127(b)(1)(B). On the other hand, the Department of Education would require the outlying areas to submit a Unified or Combined State Plan, in accordance with secs. 102 and 103 of WIOA, for both the AEFLA and Vocational Rehabilitation Services programs. Under this option, outlying areas administering AEFLA would also still have the option to submit a Consolidated Grant to Insular Areas in lieu of the Unified or Combined State Plan under WIOA. While this option may be consistent with current practice for each program and most in line with the plain meaning of each of the relevant programmatic requirements under WIOA, it may not as effectively promote the collaborative, integrated purposes of WIOA among the core programs. In addition, this option imposes differing requirements for the core programs administered by the outlying areas, thereby causing potential confusion during the implementation process. Moreover, this option could result in the Vocational Rehabilitation Services program being the only component on a Unified or Combined State Plan, which would render the Unified or Combined State Plan requirements meaningless.

The Departments specifically request comments on the options proposed above, as well as any additional options, and which option the Departments should adopt.

In the section-by-section discussions of each proposed Unified and Combined State Plan provision below, the heading references the proposed DOL CFR part and section number. However, the Department of Education proposes in this joint NPRM identical provisions at 34 CFR part 361, subpart D (under its State Vocational Rehabilitation Services Program regulations) and at 34 CFR part 463, subpart H (under a new CFR part for AEFLA regulations). For purposes of brevity, the section-by-section discussions for each Department's provisions appear only once—in conjunction with the DOL section number—and constitute the Departments' collective explanation and rationale for each proposed provision.

§ 676.100 What are the purposes of the Unified and Combined State Plans?

Proposed § 676.100 describes the principal purposes of the Unified and Combined State Plans, which communicate the State's vision for the State workforce system and serve as a vehicle for aligning and integrating the State workforce system across Federal programs.

Proposed § 676.100(a) explains that the Unified or Combined State Plan serves as the vehicle for the State to outline its vision of the workforce development system and how the State will achieve WIOA's goals.

Proposed § 676.100(b) explains that the Unified or Combined State Plan serves as a 4-year plan for how the State will align and integrate the workforce development system.

Proposed § 676.100(b)(1)–(4) explain how the strategies articulated in the Plan support the State's vision and overarching goals. The goals of the 4-year Unified and Combined State Plans are to align and integrate Federal education, employment, and training programs; guide investments to ensure that training and services are meeting the needs of employers and job seekers; apply consistent job-driven training strategies across all relevant Federal programs; and engage economic, education, and workforce partners in improving the workforce development system.

§ 676.105 What are the general requirements for the Unified State Plan?

Proposed § 676.105 describes the general requirements for the Unified State Plan that apply to all six core programs. These requirements set the foundation for WIOA implementation by fostering strategic alignment, improving service integration, and ensuring that the workforce system is industry-relevant, responds to the economic needs of the State, and matches employers with skilled workers. The Departments envision a plan that describes how the State will develop and implement a unified, integrated program rather than a plan that separately discusses the State's approach to operating each program individually.

Proposed § 676.105(a) explains that Unified State Plans must be submitted in accordance with § 676.130 and that the Secretaries of Labor and Education will issue joint planning guidance, as discussed above, with instructions to States on how to submit Unified State Plans.

Proposed § 676.105(b) implements WIOA's statutory requirements in sec. 102(a), and requires that the State submit the Unified State Plan to the Secretary of Labor to receive funding for the workforce development system's six core programs.

Proposed § 676.105(c) requires, in accordance with sec. 102(a) of WIOA, that the State outline its 4-year strategy for WIOA's core programs and meet the requirements of WIOA sec. 102(b). This section further explains that the Secretaries of Labor and Education will jointly issue planning guidance, which will include additional requirements with which the State's plan must comply.

Proposed § 676.105(d), which implements sec. 102(b) of WIOA, describes the content required to be included in the Unified State Plan. The proposed regulation includes major structural elements rather than repeating all the statutory State planning requirements. States still must comply with each of the statutory requirements, regardless of whether they are repeated in regulation.

Proposed §§ 676.105(d)(1)–(3) implement the key WIOA statutory requirements found in sec. 102(b)(1), (b)(1)(E), and (b)(2), respectively. The plan contains two major content areas—strategic elements and operational planning elements. Strategic planning elements include State analyses of economic and workforce factors, an assessment of workforce development activities, formulation of the State's vision and goals for preparing an educated and skilled workforce that meets the needs of employers, and a strategy to achieve the vision and goals. Operational planning elements include State strategy implementation, State operating systems and policies, program-specific requirements, assurances, and other requirements imposed by the Secretaries of Labor or Education. Additional explanations and clarifications of assurances and plan requirements will be contained in the subsequently issued joint planning guidance. The plan requirements also emphasize the use of economic and labor market information to ensure that the Governor's vision and State strategies are based on a thorough understanding of the economic opportunities and workforce needs of the State, to align the best interests of job seekers and employers with the economic future of the State.

Finally, proposed § 676.105(d)(3)(v), as allowed by WIOA sec. 102(b)(2)(C)(viii), requires the State Plan to include any additional operational planning elements as the Secretaries determine are necessary. These additional elements will be included in the joint planning guidance.

§ 676.110 What are the program-specific requirements in the Unified State Plan for the adult, dislocated worker and youth workforce investment activities in Workforce Innovation and Opportunity Act title I?

§ 676.115 What are the program-specific requirements in the Unified State Plan for the Adult Education and Family Literacy Act program in Workforce Innovation and Opportunity Act title II?

§ 676.120 What are the program-specific requirements in the Unified State Plan for the Wagner-Peyser Act Employment Services programs as amended by title III of the Workforce Innovation and Opportunity Act?

§ 676.125 What are the program-specific requirements in the Unified State Plan for the State Vocational Rehabilitation Program in title IV of WIOA?

States are required to develop a unified or combined plan as described in § 676.105. While States must address general common planning requirements, States must also ensure that their planning process and plan content adhere to the legal requirements for each of the six core programs that remains unique to each program, as required by sec. 102(b)(2)(D) of WIOA.

Proposed § 676.110, implementing WIOA sec. 102(b)(2)(d)(i), describes the additional requirements to which the adult, dislocated worker, and youth programs are subject.

Proposed § 676.115 explains the additional requirements to which the AEFLA program is subject.

Proposed paragraph (a) contains three specific program requirements. First, subparagraph (1) restates the statutory requirement that the eligible agency must align its adult education content standards with its State-adopted challenging academic content standards under the Elementary and Secondary Education Act of 1965, as amended, and further establishes that the eligible agency must have completed that alignment by July 1, 2016. Establishing the July 1, 2016, date will ensure that all States are positioned to work toward full implementation of rigorous standards in the first year of the Unified State Plan and promote consistency across States. Second, subparagraph (2) addresses the general requirement that States, in the Unified State Plan, describe the methods and factors the State will use to distribute funds under the core programs. The regulation clarifies and reinforces requirements in title II that the eligible agency must compete title II funds, award multi-year grants, and provide direct and equitable access to funds using the same grant or contract announcement and application procedure. Adding the provisions found in sec. 231 of WIOA to this subparagraph is intended to clarify the requirements related to the distribution of AEFLA funds that must be incorporated into the Unified State Plan. Third, subparagraph (3) addresses the requirement that the State describe how it will integrate workforce and education data on core programs, unemployment programs and education through post-secondary education. The regulation requires that for title II, a State must include in the Unified State Plan how it will ensure interoperability of data systems in the reporting of core indicators and performance reports required to be submitted by the State. This regulation is intended to support the work of eligible agencies participating in State Longitudinal Data Systems initiatives and Workforce Data Quality initiatives and otherwise support the concepts of interoperability that will allow efficient reporting of performance under WIOA.

Proposed § 676.120, consistent with sec. 102(b)(2)(D)(iv), requires States to include any information the Secretary of Labor determines is necessary to administer the Employment Services Program. This additional information will be provided in the jointly issued planning guidance.

Proposed § 676.125 explains the additional requirements to which the State Vocational Rehabilitation program is subject. Specifically, States must submit a Vocational Rehabilitation Services portion, which complies with all State plan requirements set forth in sec. 101(a) of the Rehabilitation Act of 1973, as amended by WIOA, as part of the Unified State Plan. The Commissioner of the Rehabilitation Services Administration of ED is responsible for approving the Vocational Rehabilitation Services portion of the Unified State Plan.

In addition to the specific elements required by WIOA, the Unified State Plans must include any additional program specific aspects as required by sec. 102(b)(2)(C)(viii).

§ 676.130 What is the submission and approval process of the Unified State Plan?

In order to facilitate the State strategic planning process, and concurrent review by the relevant Federal program offices, the Unified State Plan must be submitted to the Secretary of Labor, according to the procedures established in this section, and as clarified and explained through joint planning guidance. Proposed § 676.130(d), discussed below, outlines the procedures the Secretary of Labor will follow upon receipt of a Unified State Plan. Proposed § 676.130 also describes the requirements for transparency, public comment, and submission, as well as the terms for approval.

Proposed § 676.130(a) requires that the Unified State Plan be submitted in accordance with the procedures set out in the joint planning guidance, as previously discussed, issued by the Secretaries of Labor and Education and the procedures outlined in sec. 102(c) of WIOA.

Proposed §§ 676.130(b)(1) and (2) reiterate the requirement at sec. 102(c)(1) of WIOA regarding the deadlines for submitting the initial and subsequent Unified State Plans to the Secretary of Labor. The Secretary will develop a process for submission of Unified State Plans to ensure that ED receives the entire Unified State Plan submission concurrently. Based on this timeline, States are required to submit their first Unified State Plan on March 3, 2016. The Departments anticipate that the second Unified State Plans will need to be submitted 4 years after the first plan, in roughly the spring of 2020. The official submission dates for the Plans will be announced in the joint planning guidance.

Proposed paragraph (b)(3) clarifies that, consistent with current practice for many of the core programs, a PY runs from July 1 through June 30 of any year. This clarification is particularly important, in this context, for the Vocational Rehabilitation program since that program operates on a Federal fiscal year and will continue to do so, in accordance with title I of the Rehabilitation Act of 1973, despite the fact that the Vocational Rehabilitation Services portion of the Unified State Plan will align, for submission purposes, with the other partners on a PY basis.

Proposed § 676.130(c) requires that the State ensure that the Unified State Plan is developed and drafted as part of a transparent process.

Proposed § 676.130(c)(1) implements WIOA's Sunshine Provision at sec. 101(g), which the Departments have interpreted to require that the State provide an opportunity for comment by the general public and by representatives of Local Boards, CEOs, businesses, representatives of labor organizations, CBOs, adult education providers, institutions of higher education, and other stakeholders with an interest in the services provided by the six core programs, including individuals with disabilities. This opportunity for comment provides interested stakeholders with a means to participate actively and effectively in the development of the plan in a transparent manner.

Proposed § 676.130(c)(2) reiterates WIOA's Sunshine Provision's requirement at WIOA sec. 101(g) that the State Board make information regarding Unified State Planning publicly available to the public through regularly occurring open meetings. In addition, this section requires that the Unified State Plan describe the State's process and public comment period.

Proposed § 676.130(d) implements WIOA sec. 102(c)(2)(A) which requires the Secretary of Labor to provide the entire Unified State Plan to the Secretary of Education for review pursuant to the submission process described in § 676.130(b). Because content pertaining to each of the six core programs will be integrated throughout the Unified State Plan, it will be more efficient and effective to provide both Secretaries the opportunity to review the entirety of a State's plan rather than trying to break out the portions of the plan pertaining to the specific programs. This joint review process supports the purposes of the Unified State Plan in fostering program integration and alignment.

Proposed §§ 676.130(e)–(g), implementing WIOA sec. 102(c)(2)(B), pertain to the approval of the Unified State Plan.

Proposed § 676.130(e) implements WIOA's statutory requirement that the Unified State Plan is subject to the approval of the Secretary of Labor and the Secretary of Education. WIOA requires both Secretaries to approve the Unified State Plan to ensure cross-program alignment, integration, and collaboration between the programs administered by the two Departments.

Proposed § 676.130(f) implements WIOA's statutory requirement that the Commissioner of the Rehabilitation Services Administration approve the vocational rehabilitation services portion of the Unified State Plan before the Secretaries of Labor and Education approve the Unified State Plan.

Proposed § 676.130(g) implements WIOA's statutory requirement that the Unified State Plan must be reviewed and approved by the Secretaries of Labor and Education within 90 days of receipt. The Secretary of Labor will develop a process for submission of Unified State Plans to ensure that the Secretary of Education receives the entire Unified State Plan submission concurrently. The section further states that in order to disapprove a Unified State Plan either the Secretary of Labor or the Secretary of Education must find, in writing, that the Plan is inconsistent with a core program requirement, is inconsistent with Unified State Plan requirements under WIOA sec. 102, is incomplete, or that the plan does not provide sufficient information to make the findings described in proposed §§ 676.130(g)(1)–(2).

Proposed § 676.130(h) implements WIOA sec. 102(c)(2)(B), which provides that if one of the Secretaries does not affirmatively make the determination described in §§ 676.130(g)(1)–(3) within 90 days of receipt, the Unified State Plan will be considered approved.

§ 676.135 What are the requirements for modification of the Unified State Plan?

Given the multi-year life of the Unified State Plan, States must revisit regularly State Plan strategies and recalibrate these strategies to respond to the changing economic conditions and workforce needs of the State. At a minimum, a State is required to submit modifications to its Unified State Plan at the end of the first 2-year period of any 4-year plan and also under specific circumstances, examples of which have been included in this section. States may also choose to submit a State Plan modification at any time during the life of the plan. Proposed § 676.135 further describes the requirements for

submission and approval of Unified State Plan modifications, which are subject to the same public review and comment requirements and approval process as the full Unified State Plan submissions.

Proposed § 676.135(a) reiterates WIOA's statutory authority in sec. 102(c)(3)(B), which allows the Governor to submit a modification of the Unified State Plan at any time during the 4-year period of the Unified State Plan.

Proposed § 676.135(b)(1) implements the statutory requirement in WIOA sec. 102(c)(3)(A), requiring the Governor to submit a Unified State Plan modification at the end of the first 2-year period of any 4-year State Plan.

In addition to the statutory mandate to modify the Plan, proposed §§ 676.135(b)(2)–(3) require that the Governor modify the Unified State Plan when changes in Federal or State law or policy substantially affect the strategies, goals, and priorities upon which the Unified State Plan is based or when there are substantial changes in the State's workforce investment system. In order for the plan to both effectively govern the State's implementation and operation of the core programs and effectively serve the State's workforce and employers, the plan must be consistent with relevant laws and policies.

Proposed § 676.135(c) requires that modifications to the Unified State Plan be subject to the same public review and comment requirements for submitting a Unified State Plan described at proposed § 676.130(c). This requirement ensures transparency in the process of developing the Unified State Plan modification. The Unified State Plan modification must describe the State's process and timeline for ensuring public comment.

Proposed § 676.135(d), implementing WIOA sec. 102(c)(3)(B), requires Unified State Plan modifications to be subject to the same approval process as the original Unified State Plan submission. Modifications must be approved by both the Secretary of Labor and the Secretary of Education within 90 days of receipt, in accordance with the standards described at § 676.130, which also includes the approval process for the Vocational Rehabilitation Services portion of the State plan.

§ 676.140 What are the general requirements for submitting a Combined State Plan?

States have the option to submit a Combined State Plan that goes beyond the core programs of a Unified State Plan to include at least one optional, additional Federal workforce, educational, or social service program from the programs identified in sec. 103(a)(2) of WIOA. Generally, the requirements for a Combined State Plan include the requirements for the Unified State Plan as well as the program-specific requirements for any optional programs that are included in the Combined State Plan. To expand the benefits of cross-program strategic planning, increase alignment among State programs, and improve service integration, States are strongly encouraged to submit Combined State Plans.

Proposed § 676.140, which implements sec. 103(a) and (b) of WIOA, authorizes the submission of a Combined State Plan, lists the optional programs that a State may include, and describes the requirements of the combined plan.

Proposed § 676.140(a) allows a State to submit a Combined State Plan in lieu of a Unified State Plan. Proposed § 676.140(b), implementing WIOA sec. 103(b)(2), clarifies that, if a State submits a Combined State Plan that is approved, the State is not required to submit any other plan in order to receive the funds to operate the programs covered by the combined plan. The Combined State Plan takes the place of the individual State Plans for the optional programs that are covered by the plan and replaces the Unified State Plan. In this way, the Combined State Plan is meant to reduce the burden for States and promote integrated planning across State programs. One proposed exception to this rule, for the optional program, employment and training activities carried out under the Community Services Block Grant (CSBG) Act (42 U.S.C. 9901 *et seq.*), is described below under proposed § 676.140(h).

The 4-year cycle, with a 2-year modification, for the Combined State Plan is inconsistent with the planning cycles for the plans governing the optional programs. The Departments seek comment on how to address this issue and reduce the burden of managing multiple cycles. Specifically, the Departments request comment on how to treat the plan for an optional program whose planning cycle is longer than 2 years, whose planning cycle is less than 2 years, and whose planning process includes intra-cycle modifications of the plan. Similarly, the Departments request comments on how best to treat the plan for an optional program that is reauthorized or otherwise significantly amended during the 4-year or 2-year cycle of a Combined State Plan, including a change to the optional program's planning cycle.

Proposed § 676.140(c) requires that the Combined State Plan be submitted to the appropriate Secretary for approval in accordance with the procedures described in proposed § 676.143(a).

Proposed § 676.140(d) reiterates the requirement that the Combined State Plan include all of the core programs, and at least one of the optional programs described in WIOA sec. 103(a)(2).

Proposed §§ 676.140(d)(1)–(11) identify the programs that a State may include in the Combined State Plan. These are Federal programs that offer educational, training, employment, or supportive services to populations that may overlap with those core programs serve. By expanding the State's cross-program planning beyond the core programs to include one or more of the optional programs the State will further improve strategic alignment and service integration for job seekers and employers.

Proposed §§ 676.140(e)(1)–(4) generally describe what must be included in the Combined State Plan. It is important to note that the portions of the Combined State Plan covering the core programs must include all of the required contents of the Unified State Plan, while the portions of the Combined State Plan covering optional programs must include the information for a plan or application as required by the laws authorizing and governing the optional programs, as well as common planning requirements (both strategic and operational) described in sec. 102(b) of WIOA, and as clarified and explained in the joint planning guidance for all included optional programs. This provision implements sec. 103(b)(1) of WIOA.

Proposed § 676.140(f) clarifies that although the optional programs listed in sec. 103(a)(2) of WIOA are included in the Combined State Plan, those programs are subject to the requirements of the applicable Federal law, regulations, and program-specific requirements governing those programs. A program's inclusion in the Combined State Plan does not negate a State's duty to comply with all of the relevant laws and regulations, procedures, and any other requirements imposed by the agency or organization administering or governing that program.

Proposed § 676.140(g), consistent with sec. 103(d)(2) of WIOA, explains that the term ''appropriate secretary'' when used in relation to the optional programs refers to the head of the Federal agency overseeing the program.

Proposed § 676.140(h) indicates that States that elect to include employment and training activities carried out under

the CSBG Act (42 U.S.C. 9901 *et seq.*) under a Combined State Plan would submit all other required elements of a complete CSBG State Plan directly to the Federal agency that administers the program, according to the requirements of Federal law and regulations. Because employment and training activities are only a subset of the broad range of anti-poverty activities and other requirements addressed in the overall CSBG plan, States would not be required to include these program-specific elements of a complete CSBG State Plan in the WIOA Combined State Plan.

§ 676.143 What is the submission and approval process of the Combined State Plan?

In order to facilitate the State's strategic planning process, and concurrent review by the relevant Federal program offices, the Combined State Plan must be submitted in accordance with jointly-issued planning guidelines issued by the Secretaries of Labor and Education and any program-specific requirements of each optional program that a State includes.

Proposed § 676.143 implements WIOA's statutory requirements for submitting a Combined State Plan. These are similar to the requirements for submitting a Unified State Plan, with added considerations for review and approval by the Federal agencies that oversee the optional Combined State Plan programs.

Proposed § 676.143(a) requires the Combined State Plan to be submitted in accordance with the requirements in § 676.143 and joint planning guidelines issued by the Secretaries of DOL and ED.

Proposed § 676.143(b) requires the State to submit, to all Secretaries whose programs are included in the Combined State Plan, in accordance with the procedures described in the joint planning guidance described in § 676.143(a), any plan documents, application, form, or similar documents that are required by the optional Combined State Plan programs or activities in order to receive Federal funding for that program. Though the Combined State Plan takes the place of the individual State Plans for the optional programs or activities included in the Combined State Plan, the State must still comply with the submission requirements for approval of Federal funding under the optional programs.

Proposed § 676.143(c) requires that the Combined State Plan be approved or disapproved in accordance with the requirements of sec. 103(c) of WIOA. This section requires that only the Secretary tasked with administering the relevant optional program review and approve that portion of the Combined State Plan. Accordingly, proposed § 676.143(c)(1) implements sec. 103(c)(3)(A) of WIOA, describing the approval process by the Secretaries of Labor and Education for those parts of the Combined State Plan that cover the core programs, while proposed § 676.143(c)(2) implements sec. 103(c)(3)(B) of WIOA, describing the approval process by the appropriate secretary for the optional programs included in the Combined State Plan.

Proposed § 676.143(d) implements WIOA's standards for the Secretaries of Labor, Education, or other appropriate secretary to determine if a Combined State Plan should be approved or disapproved, or otherwise deemed complete. These standards are similar to the standards for disapproving a Unified State Plan, with considerations for the requirements of the optional Combined State Plan programs and activities. Proposed §§ 676.143(d)(1)–(3) state that the plan may not be approved if the relevant Secretary determines, in writing, within the relevant review period that: the plan is inconsistent with the requirements of the core programs or one or more of the optional programs included; does not meet the criteria for the core programs or one or more of the optional programs included; or is considered incomplete or insufficient to make an approval determination.

Under this section, the appropriate Secretary reviewing his or her portion of the Combined State Plan is not required to take any action or make any determination to approve/disapprove a plan beyond what is required or permitted under the law governing that program. For example, if the appropriate Secretary is only authorized to determine if a plan is complete, as part of the Combined State Plan approval process that Secretary would not also be required to make the additional determinations described in § 676.143(d) in order to approve or disapprove that portion of the plan.

Proposed § 676.143(e) implements the requirement in WIOA sec. 103(c)(3) that, unless the relevant Secretary makes the determination described in § 676.143(d), the relevant portion of the plan will be deemed approved.

Proposed § 676.143(f) requires a State, with respect to the core programs, and a program under the Carl D. Perkins Career and Technical Education Act of 2006, to reach an agreement with the appropriate Secretaries regarding State performance measures or State performance accountability measures, as the case may be, including levels of performance. The plan may not be approved if an agreement as to these measures is not reached and included in the plan. Performance requirements for the Carl D. Perkins Career and Technical Education Act of 2006 continue to apply.

§ 676.145 What are the requirements for modifications of the Combined State Plan?

Section 103 of WIOA provides for the modification process for parts of the Combined State Plan. Proposed § 676.145 applies to the Combined State Plans the same requirements for modifications as Unified State Plans, with added requirements for the additional Federal programs included in the Combined State Plan. For the additional program and activities that are not part of the Unified State Plan, the State may elect to modify the Combined State Plan according to WIOA sec. 102(c)(3).

Proposed § 676.145(a) requires modification of the Combined State Plan for the core programs at the end of the first 2-year period of any 4-year Combined State Plan. This proposed regulation subjects the core programs in the Combined State Plan to the modification requirements described at § 676.135 for Unified State Plans, ensuring that all State plans governing the core programs are treated equally. Additionally, this proposed regulation requires the State Workforce Development Board to review the Combined State Plan, and the Governor to submit a modification to the Combined State Plans to ensure that the Plan remains responsive to changes in labor market and economic conditions and to other factors that impact the strategies described in the Combined State Plan.

Proposed § 676.145(b), similar to the Unified State Plan provision, allows States to modify a Combined State Plan, at any time during the 4-year period of the Plan and requires modifications as described in § 676.145(a).

Proposed § 676.145(c)(1) allows the State, at its discretion, to apply the modification requirements in § 676.135 to the optional programs and activities included in the Combined State Plan.

Proposed § 676.145(c)(2) requires the State to submit, in accordance with the submission requirements described in § 676.143, any modification, amendment, or revision required by Federal law for the optional programs included in the Combined State Plan. However, the State is required to submit the modification, amendment, or revision for approval only to the

Secretary overseeing the program if the modification, amendment, or revision affects the administration of that particular program and has no impact on the Combined State Plan as a whole or the integration and administration of the core and optional programs at the State level. In this case, the State may submit its modification, amendment, or revision in accordance with the procedures and requirements applicable to the particular program.

In addition, if the program-specific requirements change by law for an optional Combined State Plan program, the State may choose to either: (1) Modify the Combined State Plan or (2) remove the program from the Combined State Plan and submit a separate plan to the Federal agency that oversees that program, in accordance with the new Federal law authorizing the optional program and other applicable legal requirements for such program. Since Combined State Plan programs are optionally included by the State in a Plan, the State may also choose to exclude them at a later date. A State also may amend its Combined State Plan to add an optional program or activity described in § 676.140(d), provided that it meets the requirements of WIOA and the optional program or activity.

Proposed § 676.145(d) requires the modifications of Combined State Plans to be subject to public review and comment as described in proposed § 676.130(c) or in program-specific requirements of each optional program included by the State. The Combined State Plan modification process must comply with the transparency requirements for the six core programs in the Combined State Plan. The Departments seek comment on how to streamline the public review and comment process for Combined State Plan modifications; whether it is advisable to limit the comment process to significant or substantial modifications to the common planning elements; and, if so, how the Departments might define significant or substantial changes.

Proposed § 676.145(e) requires that modifications of the portions of the Combined State Plan that pertain to the core programs must be approved by the Secretaries of Labor and Education according to the approval standards described in § 676.143.

Proposed § 676.145(f) requires that modifications of the Combined State Plan for the programs or activities described in § 676.140(d) be approved by the appropriate Secretary if the modification, amendment, or revision affects the administration of only that particular optional program and has no impact on the Combined State Plan as a whole or the integration and administration of the core and optional programs at the State level.

B. Performance Accountability Under Title I of the Workforce Innovation and Opportunity Act (20 CFR Part 677; 34 CFR Part 361, Subpart E; 34 CFR Part 463, Subpart I)

1. Introduction

Section 116 of the Workforce Innovation and Opportunity Act (WIOA) establishes performance accountability indicators and performance reporting requirements to assess the effectiveness of States and local areas in achieving positive outcomes for individuals served by the core programs. The core programs are defined in sec. 116(b)(3)(A)(ii) of WIOA to include the adult, dislocated worker, and youth programs under title I of WIOA, the AEFLA programs under title II; the Employment Services authorized by the Wagner-Peyser program under the Wagner-Peyser Act as amended by title III (''Employment Services''); and the Vocational Rehabilitation program under the Rehabilitation Act of 1973, as amended by title IV.

With a few exceptions, including the local accountability system under sec. 116(c) of WIOA, the performance accountability requirements apply across all of the core programs. It is instructive to note that sec. 116 is located in the statute under subtitle A, which is System Alignment. This is an historic opportunity to align definitions, streamline performance indicators, and integrate reporting for each of the core programs to the extent practicable, while implementing program-specific requirements. Through these proposed joint regulations, the Departments are laying the foundation for the establishment of a performance accountability system that serves all core programs and their targeted populations in a manner that is customer-focused and that supports an integrated service design and delivery model. In addition, WIOA requires additional programs, including Job Corps, Native American programs, the Migrant and Seasonal Farmworker programs, and the YouthBuild program, to use the same performance accountability indicators as the core programs, as provided in 29 CFR part 686 and 29 CFR part 684. This will better align both the core programs and other education and training programs across the workforce system. Further, DOL plans to include other workforce programs under its purview in this streamlining effort, including the Jobs for Veterans State Grants (JVSG) program as authorized by the Jobs for Veterans Act, other formula and applicable competitive grant programs administered by DOL.

As with the planning requirements discussed previously, the differing definitions of ''State'' raise potential inconsistencies as to the applicability of the performance accountability system requirements of sec. 116 of WIOA for purposes of the outlying areas and their administration of the core programs. Section 116, which consistently references States, establishes a common performance system to measure the effectiveness of the States and local areas in achieving positive outcomes for participants in the core programs. However, sec. 116 does not specifically reference the outlying areas. Sections 126 and 131 of WIOA require that outlying areas comply with all of the requirements of title I as a prerequisite to their receipt of title I funds, although neither section specifically references the requirements of sec. 116. The silence in sec. 116 is especially important with regard to the core programs funded under title I of WIOA, and administered by the Department of Labor, since sec. 3 defines the terms ''State'' and ''outlying area'' separately. Reading title I, and sec. 116 specifically, in isolation, suggests that the performance system does not apply to the outlying areas.

Unlike the title I programs, the Adult Education and Vocational Rehabilitation programs under titles II and IV, respectively, clearly require the outlying areas to comply with the performance accountability system requirements of sec. 116 of WIOA. Section 212 applies the performance provisions in sec. 116 to all of the programs and activities authorized in title II, which includes the adult education programs and activities administered by the eligible agencies in the outlying areas. Additionally, sec. 106 of the Rehabilitation Act, as amended by title IV of WIOA, requires that States—which includes the outlying areas—comply with the performance accountability system requirements of sec. 116 of WIOA.

Given the use of the term ''State'' in sec. 116 and the differing definitions for that term for the various core programs, ambiguity exists within WIOA as to the applicability of the performance accountability system requirements with regard to the core programs administered by the Department of Labor under title I of WIOA. Nevertheless, WIOA is clear that the core programs funded under titles II and IV are subject to these requirements. For this reason, there are two options to

resolve this potential inconsistency, thereby ensuring that the performance of the core programs in the outlying areas can be measured to ensure programmatic effectiveness.

The first option would be to subject the title I WIOA core programs administered by the outlying areas to the sec. 116 performance system, as WIOA requires of the core programs funded under titles II and IV. The second option would be not to apply the performance accountability system requirements of sec. 116 of the title I WIOA programs administered by the outlying areas, since title I is less clear in the applicability of these requirements to the outlying areas, while requiring the outlying areas administering the Adult Education and Vocational Rehabilitation Services programs, funded under titles II and IV respectively, to comply with the sec. 116 requirements since these titles clearly require such compliance. This option, while perhaps most in line with the plain meaning of the relevant statutory provisions, is contrary to the purpose of WIOA generally and the performance accountability system established in sec. 116 specifically. Moreover, this option would treat the various core programs differently, thereby causing potential confusion during implementation and could result in disparate treatment with regard to sanctions.

The Departments specifically request comments on the options proposed above, as well as any additional options, and which option the Departments should adopt.

In the section-by-section discussions of each proposed performance accountability provision below, the heading references the proposed DOL CFR part and section number. However, the Department of Education proposes in this joint NPRM identical provisions at 34 CFR part 361, subpart E (under its State Vocational Rehabilitation Services Program regulations) and at 34 CFR part 463, subpart I (under a new CFR part for AEFLA regulations). For purposes of brevity, the section-by-section discussions for each Department's provisions appear only once—in conjunction with the DOL section number—and constitute the Departments' collective explanation and rationale for each proposed provision.

§ 677.150 What definitions apply to Workforce Innovation and Opportunity Act performance measurements and reporting requirements?

Proposed § 677.150 defines key performance-related terms which States must use in their reporting on performance calculations. The Departments propose these definitions to facilitate consistent reporting across the States. Under WIA, States created differing definitions of key terms for performance reporting, which resulted in inconsistent reporting and prevented the Departments from fully evaluating the effectiveness of its workforce and educational programs.

The definitions the Departments are proposing in these regulations are sufficiently broad to apply across core programs and other programs authorized by this statute, to create an integrated performance accountability system, and to support clarity and alignment of performance metrics and comparability among the programs and States.

Proposed § 677.150 defines participant, reportable individual, and exit.

Proposed § 677.150(a) proposes a definition of ''participant'' across the core programs because participants are specifically identified in the statute as included in performance calculations. The definition of participant establishes a common point of measurement at which an individual is meaningfully engaged in a core program. This measurement point takes into consideration the unique purposes and characteristics of each program and the ways in which an individual may access, and ultimately engage in, services in each of the core programs. The proposed definition does not attempt to define the activities leading up to participation in the same way across all of the core programs, but instead seeks to establish a common point in service design and delivery that an individual reaches regardless of the program in which he or she is enrolled. In each program, an individual must meet a specific programmatic threshold at which he or she begins receiving services regardless of the program. The proposed definition takes into account the unique processes of each program to meet such thresholds and, thus, participant is defined in a manner that works across the core programs. The proposal defines participant as a reportable individual who has received staff-assisted services after satisfying all applicable programmatic requirements for the provision of services, such as the eligibility determination. This proposed definition establishes a common approach to establishing a minimum participation threshold that is appropriate to the services provided by each program. This approach also ensures consistent definition of participant within each program. This definition excludes self-service individuals because they have minimal interaction with the program and minimal resources are spent on their behalf. Such individuals are reportable, as defined below, because they have contact with the system but are not participants and, thus, are not included in performance calculations.

Specifically for Wagner-Peyser Employment Services, only those reportable individuals who received staff-assisted services would be included in performance calculations. For WIOA adults, reportable individuals who receive staff assisted services would be considered participants and, thus, be included in performance calculations. For WIOA dislocated workers, reportable individuals who are determined eligible and receive a staff-assisted service would be considered participants and, thus, be included in performance calculations. For WIOA youth, reportable individuals who are determined eligible, receive an assessment, and receive a program element (a staff-assisted service) would be considered participants and, thus, be included in performance calculations. For the AEFLA program, reportable individuals who have been determined eligible and who have completed at least 12 contact hours in an adult education and literacy activity under AEFLA would be considered participants and, thus, be included in performance calculations. For the Vocational Rehabilitation program, reportable individuals who have been determined eligible for services and who have an approved and signed Individualized Plan for Employment (IPE) that outlines the services that the individual will receive would be considered participants and, thus, be included in performance calculations.

Proposed § 677.150(b) defines ''reportable individual'' as an individual who meets specific core program criteria for reporting such as the provision of identifying information or a level of service receipt that is below the staff-assisted level, which will be further explained in guidance issued by DOL and ED. This approach would allow for counting self-service system utilization or those who received only informational services/activities as well as other services that may occur prior to an individual meeting all of the established benchmarks for participation.

These definitions are critical for determining who is subject to performance calculations. All individuals receiving staff-assisted services through WIOA workforce system core programs would be reported under a single count of program

participants and would be subject to performance calculations. It is important to note that this differs from ETA's current approach for the Employment Services' under WIA reporting whereby self-service individuals are included in performance calculations. In contrast, under these proposed regulations all self-service and information-only individuals would be subjected to reportable counts and other associated information, but not performance calculations for the primary indicators of performance. This proposed approach also would address the current inconsistency in reporting based on various co-enrollment strategies.

The Departments are seeking feedback regarding this proposed approach, specifically for the WIOA title I and III programs, on the appropriate point of receipt of staff-assisted services, which has not been a commonly defined point under WIA. A stronger delineation of that measurement point, which would be the same for the Wagner-Peyser Employment Services, WIOA adults, and WIOA dislocated workers, would enhance comparability across States.

Proposed § 677.150(c) defines the term ''exit'' for the purposes of a uniform performance accountability system for the core programs under WIOA, as well as applicable non-core programs as established through regulation or guidance. Several of the primary indicators of performance for performance accountability require measuring participants' progress after they have exited from the program. One consistent definition of exit would facilitate this calculation and will allow the Departments to make meaningful comparisons across the States. For the core programs, excluding Vocational Rehabilitation, the Departments propose defining ''exit'' as the last date of service. The last date of service means the individual has not received any services for 90 days and there are no future services planned. For the purpose of this definition, ''service'' does *not* include self-service, information-only activities, or follow-up services. Therefore, in order to determine whether or not an individual has exited, States will retroactively determine if 90 days have passed with no further service and no further services scheduled.

The proposed definition of ''exit'' for the Vocational Rehabilitation program is similar in that it marks the point at which the individual no longer is engaged with the program and there is no ongoing relationship between the individual and the program. However, the proposed definition takes into account specific programmatic requirements. Under the Vocational Rehabilitation program, an individual would be determined to have exited the program on the date the individual's case is closed in accordance with Vocational Rehabilitation program requirements. Even with this programmatic distinction, the calculations would be essentially the same as with the other core programs because in all instances the ''exit'' count would capture all individuals who are no longer active participants in any of the core programs. In addition, the Departments exclude from the definition of ''exit,'' for purposes of the Vocational Rehabilitation program, those individuals who have achieved a supported employment outcome at a subminimum wage. This proposed provision is necessary to implement WIOA's heightened emphasis on competitive integrated employment.

The Departments considered various approaches to defining ''exit'' across the programs. The proposed definition introduces common language that is broad enough to apply to all of the core programs, but also accommodates statutory requirements specific to the Vocational Rehabilitation program as implemented in 34 CFR 361.43 and 361.56.

The Departments seek comments on whether an individual's continued use of self-service offerings should extend the individual's exit date, or if a participant should be considered as having exited after the final staff-assisted service. The self-service component is limited to WIOA title I programs and the Wagner-Peyser Employment Services.

WIOA sec. 116(d)(2)(I) requires States to report on the number of participants who are enrolled in more than one WIOA core program. Therefore, the Departments are also considering the value of a cross-program definition of exit, sometimes called a common exit, that is based upon the last staff-assisted service from all core programs rather than a program exit. The current proposed definition of ''exit'' is program specific so if an individual was receiving services from more than one program, that individual could have multiple ''exits.'' The current proposed definition would allow programs to capture all exit-based participant outcomes in a reporting period regardless of whether the participant continued to receive services from other core programs. The Departments have considered a common exit-based definition that requires an individual to have completed all programs in order to officially exit from the system. Such a definition would emphasize the importance of an individual receiving and completing all partner program services necessary to ensure a successful attachment to the labor market. It is, however, largely dependent on the ability of States to exchange data effectively and efficiently across State agencies in order to determine outcomes for each of the programs. The Departments are seeking comments on the costs and benefits of taking a program-exit approach or a common exit approach in defining ''exit.''

2. Subpart A—State Indicators of Performance for Core Programs

§ 677.155 What are the primary indicators of performance under the Workforce Innovation and Opportunity Act?

Proposed § 677.155 identifies the primary indicators of performance that States must include in their Unified or Combined State Plans. The primary indicators are applied in numerous places across all of the WIOA proposed regulations. Though the indicators may appear under other components of the regulations the indicators are aligned and the same and do not vary across the regulations. The Departments have considered a variety of approaches to define the primary indicators of performance, which will be applied to each of the core programs outlined in sec. 116(b)(3)(A)(ii) of WIOA. Specifically, these indicators will apply to the core programs administered by ED's Office of Career, Technical, and Adult Education, ED's Rehabilitation Services Administration, and DOL's ETA. WIOA presents new opportunities for system alignment through performance accountability. The ED and DOL envision a performance system whereby all programs' primary performance metrics share a common language that supports comparability and facilitates enhanced consumer choice and better programmatic decision-making.

Proposed § 677.155(a)(1) identifies the six primary indicators that will be applied to the core programs identified in sec. 116(b)(3)(A)(ii) of WIOA. The DOL is also planning to leverage these indicators to streamline reporting for other DOL programs, such as the JVSG program, and other discretionary grant programs. To that end, the Departments invite comments specific to this issue.

Proposed § 677.155(a)(1)(i) implements the first statutory performance indicator in sec. 116(b)(2)(A)(i)(I) of WIOA and requires States to report on the percentage of participants in unsubsidized

employment in the second quarter after exit from the program. This statutory language requires States to measure the employment rate of participants in the second quarter after exit from the program. In contrast, WIA's first indicator of performance required States to report on an ''entered employment rate.'' The WIA indicator measured individuals who were unemployed at the time of entry into the program and after receiving services, obtained employment, thus allowing the Departments to evaluate whether the WIA services were effective in helping unemployed individuals obtain employment. The proposed WIOA indicator is different from WIA's ''entered employment rate'' indicator in two ways: (1) The time period for measurement in WIOA is the second quarter after exit instead of the first quarter; and (2) the statutory language under WIOA does not specify that the indicator is to measure entry into employment. The Departments plan to calculate both an ''employment rate'' for all participants in the program regardless of employment status at program entry and an ''entered employment rate'' for participants who were unemployed at the time of program entry. The Departments seek public comment on whether and how to collect information on the quality of employment and how WIOA's programs help employed and underemployed individuals find new or better jobs.

Proposed § 677.155(a)(1)(ii) implements WIOA's second statutory primary indicator of performance and is similar to the first, except that the time period for measurement is the fourth quarter after exit. This statutory language requires States to measure the employment rate of participants in the fourth quarter after exit from the program without regard to whether those participants were employed in the second quarter after exit from the program. Under WIA, this indicator is a retention measure that analyzes whether individuals who were employed in the first quarter after exiting from WIA services were still employed in the second and third quarters. As a retention measure such as the approach under WIA, this indicator would have counted participants who were employed in the second quarter after exit and measured of this group, who were still employed in the fourth quarter after exit from the program. The Departments seek comment on the advantages and disadvantages of collecting or reporting the employment retention rate in addition to the employer rate.

Proposed § 677.155(a)(1)(iii) implements WIOA's third statutory indicator found at sec. 116(b)(2)(A)(i)(III) and measures participants' median earnings in the second quarter after exit. This indicator measures median earnings at the same time frame as the first indicator measures the employment rate of participants. The use of a median is a shift from the use of an average under WIA and is based on the language provided in WIOA.

Proposed § 677.155(a)(1)(iv) implements WIOA's fourth statutory indicator and measures post-secondary credential attainment and high school completion of program participants during participation in the program or within 1 year after exit. The proposed regulation defines this measure with the same language as the statute and includes the statutory language limiting participants who obtain a secondary school diploma or its equivalent to be included in the percentage counted as meeting the criterion only if the participant is employed or is enrolled in an education or training program leading to a recognized post-secondary credential within 1 year after exit from the program. The Departments specifically seek comment on clarifications that will be necessary to implement this indicator.

Proposed § 677.155(a)(1)(v) measures the percentage of participants who, during a PY, are in education or training programs that lead to a recognized post-secondary credential or employment, and who are achieving measurable skill gains, which the Departments are defining as documented academic, technical, occupational or other forms of progress, toward the credential or employment.

The Departments are considering using this indicator to measure interim progress of participants who may be enrolled in education or training services for a specified reporting period. For example, if a participant is enrolled in a 4-year registered apprenticeship program, the indicator would track the skills the participant gains throughout the reporting period, not just at the end of the 4-year training program. For low-skilled adults, this proposed indicator provides an opportunity to track progress in reading, writing, mathematics, and English proficiency while they are participating in an adult education program prior to completing the high school credential and entering post-secondary education or training or employment. The measurable skill gains indicator will encourage local adult education programs to serve all low-skilled adults as Congress intended. Another example pertains to a participant who is training for multiple fields in the YouthBuild program. Such an individual may be pursuing certifications that require several years of experience, specific study hours, and demonstration of skills and knowledge prior to the final certification exam. The measurable skill gains indicator would capture documented progress on interim milestones leading up to the final certification. The measurable skill gains indicator is intended to capture important progressions through pathways that offer different services based on program purposes and participant needs and can help fulfill the Departments' vision of creating a workforce system that serves a diverse set of individuals with a range of services tailored to individual needs and goals.

In using this indicator as a measure of interim progress of participants, the Departments are considering how States can document progression during participation in an education or training program in a standardized way. Documented progress could include such measures as:

(1) The achievement of at least one educational functioning level of a participant in an education program that provides instruction below the post-secondary level;

(2) attainment of a high school diploma or its equivalent;

(3) a transcript or report card for either secondary or post-secondary education for 1 academic year (or 24 credit hours) that shows a participant is achieving the State unit's policies for academic standards;

(4) a satisfactory or better progress report, towards established milestones from an employer who is providing training (*e.g.,* completion of on-the-job training (OJT), completion of 1 year of an apprenticeship program);

(5) the successful completion of an exam that is required for a particular occupation, progress in attaining technical or occupational skills as evidenced by trade-related benchmarks such as knowledge-based exams; and

(6) measurable observable performance based on industry standards.

The Departments seek comments on the proposed indicator and request comments on the ways States can measure and document participants' measurable skill gains in a standardized way, including whether time intervals are required and what time intervals might be. The Departments also seek comments on whether the performance targets for this indicator should be set at the indicator (*i.e.,* measurable skill

gains) or documented progress measure (*e.g.,* attainment of high school diploma) level.

Proposed § 677.155(a)(1)(vi) implements the sixth statutory primary indicator related to effectiveness in serving employers. Under WIOA, the Departments are required to consult with stakeholders and receive public comment on proposed approaches to defining the indicator. As part of this requirement, the Departments have already sought public input on performance indicators generally and on the business indicators specifically through several avenues, including a town-hall meeting that addressed all of the primary indicators, a town-hall meeting convened with employers, numerous town-halls and webinars on WIOA across the country, and consultations with State Administrators for the AEFLA and Vocational Rehabilitation (VR) stakeholders. Because the Departments have not previously used this indicator, it is important to hear from States and stakeholders on what they consider core functions of their services to employers in order to best determine how to understand and measure the effectiveness of the services provided. Additionally, it is critical to hear from employers on the attributes of services that they find effective. In drafting the potential proposals described below, the Departments consulted with a wide range of representatives to develop the indicators of effectiveness in serving employers as required by WIOA sec. 116(b)(2)(A)(i)(VI). See WIOA sec. 116(b)(A)(2)(iv) and 116(b)(4)(B).

Based on the consultations, the Departments have established several potential approaches to measuring the effectiveness of serving employers, including potential measures that could be used. One of the Departments' principal concerns in crafting a final definition of this indicator is minimizing burden that measuring this indicator will impose on employers in order to avoid discouraging employer engagement with the workforce and education systems. The Departments value the interaction of employers with the workforce and education systems and do not want to impose any barriers to that interaction. With this in mind, the Departments' proposed approaches aim to minimize employer burden while still attempting to measure the effectiveness of how the Departments' programs serve employers.

One approach to measure this indicator is to measure employee retention rates tied to the employment they obtained after receiving WIOA services. Under this approach, States would be required to use wage records to identify whether or not a participant matched the same Federal employer identification number (FEIN) in the second and fourth quarters. This approach has the lowest burden on employers, as it requires no action from the employer. Under this approach, WIOA's services are effectively serving an employer if that employer hires a WIOA participant and the participant is still employed by that employer in the fourth quarter (up to a year) after program exit. The Departments would be interested in specific comments around the feasibility of this, and if it measures the systems' effectiveness in serving employers.

Another potential way to define this indicator would measure the repeat/retention rates for employers' use of the core programs. The Departments seek comments around this approach, including how States could capture this data, the feasibility of capturing and reporting this data, and if this indicator would measure the efficacy of the services provided to employers.

The Departments are also considering using the number or percent of employers that are using the core program services out of all employers represented in an area or State served by the system (*i.e.,* employers served) as a measure of the effectiveness of serving employers. Employer usage may reflect the effectiveness of the system's ability to reach out to employers, convey the services the core programs provide, and meet employers' needs. The Departments seek comment on the feasibility of capturing this data accurately, the validity of such an approach in measuring effectiveness of program services, and the usefulness of this approach in managing employer services.

The Departments are proposing to look at this as a shared indicator across programs, as many employers are served by multiple programs. Another approach could be to apply this measure to individual core programs. The Departments seek comment on the relative merits of each approach. The Departments also seek comment about whether a single metric for this indicator would sufficiently capture effectiveness in serving employers or if this indicator should encompass a combination of metrics, including how these metrics could most effectively be combined.

Understanding that an array of programs provide services to employers, the Departments seek public comment on additional ways to measure the core programs' effectiveness in serving employers.

Proposed § 677.155(b) applies the six indicators outlined in proposed § 677.155(a)(1) to the adult and dislocated worker programs under title I of WIOA, the AEFLA program under title II of WIOA, and the Vocational Rehabilitation program as amended by title IV of WIOA.

Proposed § 677.155(c) applies the primary indicators of performance in proposed §§ 677.155(a)(1)(i)–(iii) and (vi) that States must include in their Unified or Combined State Plans for the Employment Services as amended by WIOA title III. Those indicators of performance which apply to the Employment Services are: (1) The percentage of program participants who are in unsubsidized employment during the second quarter after exit from the program; (2) the percentage of program participants who are in unsubsidized employment during the fourth quarter after exit from the program; (3) the median earnings of program participants who are in unsubsidized employment during the second quarter after exit; and (4) the effectiveness in serving employers. The Departments also seeks comments on how to best measure the Wagner-Peyser Employment Services' effectiveness in serving employers.

Proposed § 677.155(d)(1)–(6) identifies the primary indicators of performance that States must to address in their Unified or Combined State Plans for the youth program under WIOA title I. The youth indicators apply universally to the youth workforce investment program and, therefore, apply to in-school and out-of-school youth as defined in WIOA sec. 129(a)(1)(B) and (C).

Proposed § 677.155(d)(1) implements the first statutory indicator for youth, which measures the percentage of program participants who are in education or training activities, or in unsubsidized employment, during the second quarter after exit from the program. Under WIA, States report on a placement rate, which measures a youth's placement in either education or employment, after exiting from the program. The WIOA indicator differs from WIA's placement rate in three ways. First, the time period for measurement in WIOA is the second quarter after exit instead of the first quarter after exit. Second, the placement rate under WIA only allowed post-secondary education to be reported; whereas, under WIOA, any education, including secondary and post-secondary, is reported. Third, the placement measure under WIA excluded those youth who were enrolled in post-secondary education, employed, or in the military at the time

of participation; WIOA's indicators do not make these exclusions. WIA's measure provided insight into how many youth came to a program not enrolled in post-secondary education, employed, or in the military, and then after receiving services, obtained employment or were placed into post-secondary education or training program. Under WIOA, this indicator does not provide for this exclusion and the Departments' proposed indicator measures placement in the second quarter after exit of all participants.

Proposed § 677.155(d)(2) implements the second statutory indicator that applies to the WIOA youth program under title I. This indicator under sec. 116 of WIOA is similar to the first indicator in that it is the percentage of program participants who are in an education or training program or in unsubsidized employment in the fourth quarter after exit. The Departments propose that this indicator measure whether a participant is in education, training or unsubsidized employment in the fourth quarter.

Proposed § 677.155(d)(3) implements the third statutory indicator that applies to the youth program under WIOA title I. This indicator measures median earnings in the second quarter after participants exit from the program. States must report the median point for earnings for all program participants in unsubsidized employment in the second quarter after exit. This indicator measures earnings in the second quarter after exit, which is the same time frame in which the States will measure if program participants are in education or training activities or unsubsidized employment.

Proposed § 677.155(d)(4) implements the fourth statutory indicator and measures post-secondary credential attainment and high school completion of program participants who have exited from the youth program under WIOA title I. The language of the proposed regulation is the same as the indicator in § 677.155(a)(1)(iv). The Departments have provided an in-depth explanation of this in the preamble for § 677.155(a)(1)(iv) and therefore, refer readers to this section for more information on this definition.

Proposed § 677.155(d)(5) implements the fifth statutory indicator and pertains to measurable skill gains. The language of the proposed regulation is the same as the indicator in § 677.155(a)(1)(v). The Departments have provided an in-depth explanation of this in the preamble for § 677.155(a)(1)(v) and refers readers to this section for more information on this definition.

Proposed § 677.155(d)(6) implements the sixth statutory indicator and is the same language for the indicator in § 677.155(a)(1)(vi). The Departments have provided an in-depth explanation of this in the preamble for § 677.155(a)(1)(v) and refers readers to this section for more information on this definition.

§ 677.160 What information is required for State performance reports?

Proposed § 677.160 identifies the information States are statutorily required to report in the State performance report under WIOA sec. 116(d)(2). The Departments agree that integrated performance reports would facilitate assessment of WIOA performance across programs. The proposed regulation reorganizes in a more user-friendly format the WIOA statutory requirements for the State performance reports.

Section 116(d)(1) of WIOA requires the Departments to provide a performance reporting template for each of the performance reports required in secs. 116(d)(2)–(4) of WIOA. The Departments will seek public comment on the reporting templates through the PRA process. In developing these report templates, the Departments will seek to maximize the value of the templates for workers, job seekers, employers, local elected officials, State officials, Federal policy-makers, and other key stakeholders, and seek feedback on the formats that will be most useful for each audience through the PRA process. The Departments will seek to align performance reports to the extent possible while maximizing the value of each report for its primary audience, in order to have comparable reporting elements across all core programs in keeping with the shared statutory performance requirements. Aligning the reports and performance definitions will create a performance accountability system that is easier to understand and assess the effectiveness of States in achieving positive outcomes for individuals served by these programs.

Proposed § 677.160(a) implements the reporting provisions of WIOA sec. 116(d)(2) for the State performance reports.

Proposed § 677.160(a)(1) requires States to report the number of participants served and the number of participants who exited from each of the core programs identified in WIOA sec. 116(b)(3)(A)(ii).

Proposed § 677.160(a)(1)(i)–(ii) implements WIOA's statutory requirement that the States include a count of the number of participants and exiters served that are individuals with barriers to employment, disaggregated by those barriers as defined in WIOA sec. 3(24) and that are co-enrolled in any of the programs in WIOA sec. 116(b)(3)(A)(ii) in the State performance report. Additional reporting information required under WIOA sec. 116(d)(2) in regard to participants and exiters are age, sex, and race and ethnicity. The provisions of the statute are clear in what is required and the Departments have proposed rule text to coincide with the statutory language.

Proposed § 677.160(a)(2) implements WIOA's statutory requirement that States include the levels achieved for the primary indicators of performance listed in § 677.155 in the performance report. This section also requires that the States' performance report include disaggregated levels for individuals with barriers to employment as defined in WIOA sec. 3(24), as well as age, sex, race, and ethnicity as required by sec. 116(d)(2) of WIOA.

Proposed § 677.160(a)(3)–(7) implements WIOA's statutory requirement that States report information on career and training services including: (1) Participant and exiter counts by career and training services, (2) the performance levels achieved for the primary indicators consistent with § 677.155 for career and training services, (3) the percentage of participants who are placed into training-related employment, (4) the amount of funds spent on each type of career and training service, and (5) the average cost per participant for participants who received career and training services.

The Departments propose that these requirements are applied based on the applicable services provided by a core program. For example, the Employment Services do not provide training services and as such would not be required to report on training related information—they would only report on the applicable career services that they provide. Similarly, the AEFLA program also only provides certain career services, through the one-stop delivery system, and as such, reporting would only be required with respect to applicable career services that the program provides. Requiring programs to report on services they do not provide would create an additional and unnecessary reporting burden. This interpretation is in line with sec. 504 of WIOA, which requires the Departments to simplify and reduce reporting burdens. (Further information on the career and training services is found at 20 CFR 680.150 and 680.200.) Additionally, the Departments interpret these provisions as prospective

provisions that do not require retroactive collection of information.

Proposed § 677.160(a)(3) implements the requirement for core programs to report on the number of participants and exiters in a program who received career and training services. Other than the proposed limitation that this be reported by a program based on the applicable services it provides, the statutory language is clear in the requirement and propose to implement as stated.

Proposed § 677.160(a)(4) requires States to provide information on the performance levels achieved for the primary indicators consistent with § 677.155 for career and training services for the most recent program year and the 3 preceding program years, as applicable to the program providing services. The Departments interpret this provision to apply to the core programs only with respect to the applicable services they provide and have more fully discussed this rationale above.

Proposed § 677.160(a)(5) requires States to include the percent of participants in a WIOA title I program who obtained unsubsidized employment related to the training received. This provision implements WIOA's statutory requirement that States report on training-related employment. WIOA sec. 116(d)(2)(G) requires States to report on the participants in programs ''authorized under this subtitle.'' Section 116 is in subtitle A, which does not authorize any programs under WIOA. Therefore, the Departments interpret this provision of WIOA to mean that States must report on core programs authorized by title I.

Proposed §§ 677.160(a)(6) and (a)(7) require States to report on the amount of funds spent on each type of career and training service as well as the average cost per participant for participants receiving career and training services for the most recent program year and the 3 preceding program years. The Departments interpret this provision to apply to the core programs only with respect to the applicable services they provide as discussed above.

Proposed § 677.160(a)(8) implements WIOA's statutory requirement that States report on the percent of the State's annual allotment under WIOA sec. 132(b) that the State spent on administrative costs.

Proposed § 677.160(a)(9) implements the WIOA statutory allowance for the collection of information that facilitates comparisons of programs with programs in other States. The Departments are considering collecting a variety of supplemental information such as outcomes for Unemployment Insurance claimants, reportable individuals, and other subgroups served by the core programs, as well as additional outcomes, such as entered employment (the number of individuals who were unemployed when coming into a program and obtained employment following program exit) or employment retention (the number of people who were employed in a quarter that remained employed in subsequent quarters) and information about participants enrolled in education or training programs that do not lead to a recognized post-secondary credential as potential performance information for inclusion in the State annual report narratives. The Departments are also considering the addition of a supplemental customer service measure, which would assess the quality of services provided to American Job Center customers. This measure would not be a primary indicator of performance, but would be used as a tool for tracking the quality of the customer experience. The Departments seek comment on how to structure such a measure (*e.g.,* using the net promoter score) and whether the inclusion of such a measure would be valuable.

Proposed § 677.160(a)(10) implements WIOA's requirement that if at least one local area within a State is implementing a Pay-for-Performance contract strategy, the States' title I programs must provide a State narrative report that contains the performance reporting requirements regarding pay-for-performance contracting strategies, including the performance of service providers entering into contracts for pay-for-performance strategies and evaluation of the design of the programs and the performance strategies. Additionally, this provision requires the evaluation of program design and activities that require narrative in order to meet the requirements of the provision. The Departments interpret this provision to only apply to title I programs and only to apply to those States in which Pay-for-Performance contracting strategies are being implemented. Pay-for-performance contracting provisions are only included in the title I programs. Requiring programs to report on services and contracting mechanisms they do not provide or employ would create an additional and unnecessary reporting burden. This interpretation is in line with sec. 504 of WIOA, which requires the Departments to simplify and reduce reporting burdens.

Proposed § 677.160(b) requires States to comply with WIOA sec. 116(d)(6)(C). This section of WIOA prohibits the disaggregation of data for a category in the State performance report if the number of participants in that category is insufficient to yield statistically reliable information or when the results would reveal personally identifiable information about a participant. As written, WIOA sec. 116(d)(2) requires the performance report to be subject to WIOA sec. 116(d)(5)(C). However, this section refers to Data Validation, and the Departments interpret this reference to require States to comply with sec. 116(d)(6)(C) which ensures the Departments receive statistically reliable information and protects participants' privacy. The Departments will issue guidance on these issues.

Proposed § 677.160(c) requires that the State performance report include a mechanism for electronic access to the State's local area and eligible training provider (ETP) performance reports. This provision does not require the State to submit the actual local area and ETP performance reports with their State report.

Proposed § 677.160(d) proposes that the Departments will require compliance with these requirements in sec. 116 of WIOA as explained through joint guidance. The Departments may request information on reportable individuals for the purpose of understanding the number of individuals who are accessing services, including self-services and information-only services, and for other purposes, including costs.

§ 677.165 May a State require additional indicators of performance?

Proposed § 677.165 is updated to reflect WIOA citations. The provision of additional performance indicators proposed by the State remains unchanged.

§ 677.170 How are State adjusted levels of performance for primary indicators established?

Proposed § 677.170 outlines the process that will be followed and the factors that will be considered in determining adjusted levels of performance.

Proposed § 677.170(a)(1) implements the requirement in sec. 116(b)(3)(A)(iii) that States provide expected levels of performance in the Unified or Combined State Plan for the first 2 years of the plan. Proposed § 677.170(a)(2) requires the State to submit expected levels for the third and fourth year before the start of the third PY covered by the Unified or Combined State Plan. This requirement is needed to implement the statutory requirement in WIOA sec. 116(b)(3)(A)(iv)(II) that the

State reach agreement with the Secretaries on the negotiated levels of performance before the start of the third PY.

Proposed § 677.170(b) requires that the Secretaries will reach agreement with the States on negotiated levels of performance based on the factors in sec. 116(b)(3)(A)(v) of WIOA, and proposed § 677.170(c) provides that the Secretaries will disseminate a statistical adjustment model that will be used to make the adjustments in the State adjusted levels of performance for actual economic condition and characteristics of participants including the factors required by WIOA sec. 116(b)(3)(A)(viii). The statistical adjustment model must be developed after consultation with specified stakeholder groups, including appropriate external experts. The Departments request comment on whether any additional factors beyond those in the statute should be considered in developing the model, and the best approach to updating the model as necessary.

Proposed § 677.170(d)(1) provides for the application of the model to the primary indicators for the core programs based on the availability of data to sufficiently populate the model. For example, baseline data will be required to populate the model. None of the core programs will have this data for the new indicators of performance, such as the measurable skill gains indicator, until after States have begun reporting data for the indicator.

Proposed §§ 677.170(d)(2)–(3) provide our interpretation that the model will be applied twice in the PY. Specifically, the model will generate an estimate of expected performance to serve as a framework for negotiating performance targets for the upcoming PY; the model will also be applied at the end of the PY to adjust expectations for performance levels based on actual circumstances. This interpretation is required by WIOA sec. 116(b)(3)(A)(vii), which states that the negotiated levels will be revised based on the model. This approach is similar to that utilized under WIA's predecessor, the Job Training Partnership Act (JTPA), which applied an objective statistical model in order to develop targets and then updated the model based on actual circumstances at the end of a PY. Under JTPA, models were established for each required indicator and sec. 116 of WIOA intends a similar process.

Proposed § 677.170(e) requires compliance with these requirements from sec. 116 of WIOA as explained in joint guidance issued by DOL and ED for subsequent programmatic guidance to be issued for programs concerning the model, and its application.

§ 677.175 What responsibility do States have to use quarterly wage record information for performance accountability?

Proposed § 677.175 implements the requirement in sec. 116(i)(2) of WIOA, that States use quarterly wage records, consistent with State law, to measure State and local progress on the performance accountability measures.

The use of quarterly wage records is essential to achieve full accountability under the WIOA performance accountability system to identify high performing States and localities, and, if necessary, to provide technical assistance to help improve performance or sanction low performing States and localities. Matching participant social security numbers against quarterly wage record information is the most effective means by which timely and accurate data can be made available to the system.

Proposed § 677.175(a) requires States to use quarterly wage record information to measure States' and local areas' progress on the adjusted levels of performance for the primary indicators of performance. WIOA sec. 116(i)(2) requires the Secretary of Labor to make arrangements, consistent with State law, to ensure that the wage records of any State are available to other States to carry out the State plan or to complete the 116(d) annual report. Proposed § 677.175(a), therefore, expressly authorizes the use of participants' social security numbers to measure participants' progress through quarterly wage records.

Section 136(f)(2) of WIA required the Secretary of Labor to make arrangements to ensure that wage records of each State are available to any other State. Under this requirement, the Secretary worked with the States to create the Wage Record Interchange System (WRIS) and WRIS2. WRIS and WRIS 2 are automated networks that allow participating States to query the wage records of other participating States for the purpose of assessing and reporting on State and local employment, training, and education program performance. WRIS 2 allows States to share information for the purposes of reporting on outcomes for employment, training, and education programs and currently has approximately 36 States participating. WRIS was narrower and only allowed for reporting on outcomes for employment and training programs; there are currently 50 States participating in WRIS. These data sharing agreements greatly increased accuracy in States' performance reporting and helped the Departments evaluate the effectiveness of educational and training programs. Given that WIOA expands the common performance measures and common reporting standards across all WIOA programs, including employment, education and training programs, the Departments intend to engage in a renegotiation of WRIS data sharing agreements with States, which will allow States to conduct interstate wage matches for all WIOA programs.

Proposed § 677.175(b) defines quarterly wage record information as the intra and interstate wages paid to an individual, the social security number of the individual, and the name, address, State, and the FEIN of the employer paying the wages to the individual. This definition clarifies that the Departments interpret WIOA's reference to quarterly wage records in sec. 116(i)(2) to mean all of the wages an individual earned in any State. In today's economy, WIOA participants may receive services in one State and have work, or have wages reported, in another State. Therefore, in defining ''quarterly wage records'' as the interstate and intrastate wages, the Departments hope to encourage States to conduct interstate wage queries to accurately report on an individual's wages after participating in a WIOA program.

3. Subpart B—Sanctions for State Performance and the Provision of Technical Assistance

§ 677.180 What State actions are subject to a financial sanction under Workforce Innovation and Opportunity Act sec. 116?

Proposed § 677.180 outlines performance and reporting requirements that are subject to sanctions under sec. 116(f) of WIOA.

Proposed § 677.180(a) provides that only the failure to submit the State annual performance reports required under sec. 116(d)(2) of WIOA is sanctionable. Section 116(f)(1)(B) of WIOA requires the Departments to assess a sanction if ''a State fails to submit a report under subsection (d) for any PY.'' There are three reports required under sec. 116(d): the State annual performance reports, the local area performance reports, and the ETP performance reports. However, of these, only the State annual performance reports must be submitted by the State to the Secretary of Labor and the Secretary of Education.

Proposed § 677.180(b) implements the requirement in sec. 116(f)(1) of WIOA

that sanctions for performance failure be based on the primary indicators of performance at § 677.155 of this part for the core programs: the adult, dislocated worker, and youth programs under WIOA title I, the AEFLA programs under title II, the program under the Employment Services authorized by the Wagner-Peyser Act, as amended by title III, and the Vocational Rehabilitation program under the Rehabilitation Act of 1973, as amended by title IV.

§ 677.185 When are sanctions applied for failure to report?

Proposed § 677.185 outlines the circumstances under which a State may be sanctioned for failure to report under sec. 116(f)(1)(B) of WIOA.

Under proposed § 677.185(a)(1), it would be a failure to report if a State submits its annual performance reports on any date later than the date for submission set in guidance. The Departments propose to deem any late submission a failure to report because the Departments are concerned that setting the date for reporting failure at some later time would effectively extend the deadline for submission of the reports. The date for submission will be set in guidance by the Departments. In addition, under § 677.185(a)(2), the Departments propose that it would be a failure to report if the State submits a report on a timely basis, but the report is incomplete, including failure to include a mechanism to access the local area performance reports and ETP performance reports. This proposal is based on the Departments' concern that if only timeliness is required, States could not be sanctioned for submitting reports that do not meet statutory requirements for reporting elements. If a State fails to submit a State annual performance report, it will be subject to a 5 percent sanction of the Governor's Reserve allotment as discussed in § 677.195 of this part.

Proposed § 677.185(b) outlines the exceptional circumstances that would exempt a State from sanction in the case of failure to report under WIOA sec. 116(f)(1)(B). The statute provides that a failure to report can be excused by either Secretary in the case of exceptional circumstances but does not define these circumstances. This proposal provides a non-exclusive list of exceptional circumstances beyond the State's control that would be likely to cause a significant disruption in the State's ability to submit timely, accurate, and complete performance reports. Reporting challenges that are routine or predictable would not qualify, because the statute requires the exception to be based on circumstances that are exceptional.

Under proposed § 677.185(c)(1), the Departments would require States to notify the Secretary of Education or Labor of exceptional circumstances as soon as possible but no later than 30 days prior to the established deadline for the State annual reports to request an extension to the reporting deadline. This minimum 30-day period for notification would provide the Secretaries with adequate opportunity to review the extension request and assess whether the circumstances underlying the request fit within the statutory exception.

Proposed § 677.185(c)(2) deals with circumstances where an exceptional circumstance arises less than 30 days before the reporting deadline. Under this proposal, the Secretaries will review the request under guidance that the Departments will issue to deal with procedures for extension requests with less than 30 days' notice.

§ 677.190 When are sanctions applied for failure to achieve adjusted levels of performance?

Proposed § 677.190 explains how States will be assessed for performance failure and when such failures will result in a financial sanction. Though the Departments have referenced other non-core programs in previous sections, performance success or failure will be based solely on the six core programs consistent with sec. 116(b)(2) and (f)(1) of WIOA.

Proposed § 677.190(a) explains, consistent with § 677.170, that the statistical adjustment model will be applied at the end of a PY to adjust expected levels of performance based on actual economic conditions experienced and the characteristics of participants.

Proposed § 677.190(b) clarifies that a determination that a State has failed performance will be based on the performance levels achieved after the application of the statistical adjustment model, pursuant to WIOA sec. 116(f)(1) which states that sanctions must be assessed if a State fails to meet adjusted levels of performance. In addition, this proposed section restates statutory language that requires the Secretary of Labor or Education to provide technical assistance, as appropriate, to include assistance with the development of a performance improvement plan in any year when a State fails to meet the adjusted levels of performance.

Proposed § 677.190(c) outlines the three criteria that will be used to assess a State's performance at the end of a PY: An overall State program score, an overall State indicator score, and individual indicator scores. The overall State program score would be an average score based on the percent of the State adjusted goal achieved on each of the six primary indicators for a core program. The overall State indicator score would be based on an average score of the percent of the State adjusted goal achieved across core programs on each of the six primary indicators. The individual indicator scores would be based on the percent of the State adjusted goal achieved on any single primary indicator for each of the six core programs.

Table 1 below illustrates the manner in which each State is proposed to be assessed using the overall State program score and the overall State indicator score. Under this proposal, a failing average program score for any core program, a failing average indicator score for any indicator across programs, or a failing score on any individual indicator for each of the core programs would be a performance failure under sec. 116(f)(1) of WIOA. The Departments propose this approach because it provides accountability for all programs and all measures. For example, a State that on average falls below its median earnings target threshold across all programs would be subject to sanctions even if its performance on other indicators is satisfactory. The Departments seek comment on whether to use a weighted average or a straight average for purposes of each overall indicator score.

Table 1. State Program Score and State Indicator Scores

Indicator/Program	Title II Adult Education	Title IV Rehabilitative Services	Title I Adults	Title I Dislocated Workers	Title I Youth	Title III Wagner - Peyser	Average Indicator Score
Employment 2nd Quarter After Exit							1
Employment 4th Quarter After Exit							2
Median Earnings 2nd Quarter After Exit							3
Credential Attainment Rate							4
Measurable Skill Gains							5
Effectiveness in Serving Employers							6
Average Program Score	7	8	9	10	11	12	-

As shown in Table 1, there are a total of 12 scores on which a State will be assessed for the proposed overall State indicator score and overall State program score criteria proposed. The first six averages on which a State is assessed are the average indicator scores across the core programs. The second six averages on which a State is assessed are the average program scores across each of the six indicators. The first six scores will be the average of the core programs' percent achieved against their adjusted goals on the first indicator (employment in the second quarter after exit). The second six scores are the average of the core programs' percent achieved against their adjusted goals on the second indicator (employment in the fourth quarter after exit). For the Employment Services, the Departments propose to exclude indicators four and five because WIOA exempts the Employment Services from these indicators. Therefore, the Departments propose that the program score for the Employment Services be comprised of the total average score of the percent achieved by the States' Employment Services against their targets for indicators one, two, three, and six only. In addition, the Departments propose to phase in the inclusion of the measurable skills gain and effectiveness in serving employers indicators.

Proposed § 677.190(d) establishes two thresholds for performance failure. The first threshold at proposed § 677.190(d)(1) is 90 percent for each of the overall State program scores and the overall State indicator scores. The Departments are considering potentially setting this threshold higher to emphasize the importance of performance success and would be interested in specific comments on the established levels for success/failure in assessing performance under WIOA for the core programs. The second threshold in proposed § 677.190(d)(2) establishes a minimum threshold of 50 percent for the individual indicator scores. The Departments consider this minimum threshold of performance critical for the purpose of underscoring the need to achieve and maintain successful performance with respect to each individual performance indicator, regardless of average performance across performance indicators and across core programs. The Departments seek comment on the implications of the proposed methodology, including the three criteria and associated thresholds for failure established under this proposed regulation (*i.e.,* the overall State indicator score [90 percent of adjusted goal], the overall State program score [90 percent of adjusted goal], and the individual indicator scores [50 percent of adjusted goal]).

The Departments also request comments generally on how to define ''fails to meet the State adjusted levels of performance'' and specifically on the methods described above.

The Departments seek comment on the specific timelines for reporting outcomes on the core indicators of performance as well as the timing for using the annual State report to determine success or failure against adjusted levels of performance. Under WIA's performance accountability provisions, titles I and II use the performance information reported in the State's annual reports. Under WIA, these data have a built-in time-lag. WIOA establishes an employment indicator that extends the time-lag even further. The fourth quarter employment indicator would not be available until six quarters after a participant has exited. Given the inherent lag, by statutory definition, in the indicators, the Departments seek comment on the specific operational timelines for determining which performance outcomes to use for assessing performance. Specifically, the Departments seek comment on which State report should be the first annual State report used to assess performance against the State's adjusted levels of

performance. In the event of performance failure in the first year, the Departments are seeking comment on when the performance improvement plan should be developed and, in the event there is performance failure in the second consecutive year, when the financial sanction should be applied. To the extent possible, the Departments would like to tie ultimate imposition of financial sanction with the performance improvement plan process, such that States have the chance to avoid financial sanction if they successfully execute the reforms included in their performance improvement plan. The Departments welcome comment on how best to accomplish this goal.

In addition to timelines for calculating a State's performance against its adjusted levels of performance, the Departments seek comment on the timelines for implementing the full accountability system to include determining performance failure for sanctions. Because WIOA introduces new indicators on which no historical data exist, there is a need to establish baseline benchmarks from which to establish adjusted levels of performance under WIOA. For this reason, the Departments seek comment on the transition timing of the performance accountability system as WIOA is implemented.

Proposed § 677.190(e) outlines the statutory process under which performance failure by any State for 2 consecutive years will result in a performance sanction.

§ 677.195 What should States expect when a sanction is applied to the Governor's Reserve Allotment?

Proposed § 677.195 explains what will occur when a sanction is applied to the Governor's Reserve for failure to report or failure to meet adjusted levels of performance. It clarifies that the sanction will be 5 percent of the amount that could otherwise be reserved by the Governor. Section 116(f)(1)(B) of WIOA provides that ''the percentage of each amount that would . . . be reserved by the Governor under section 128(a) [Governor's Reserve fund] . . . shall be reduced by five percentage points.''

This provision is ambiguous and could be interpreted to require a percentage point reduction in the overall State allotment that could otherwise be reserved by the Governor. For example, under a percentage point-based interpretation, if the total State allotment was one million dollars, and the Governor could reserve 15 percentage points of the State allotment for a total of $150,000 reserved, the reduced amount of the Governor's Reserve after a sanction of five percentage points would be 10 percent of the State allotment (*i.e.,* $100,000).

The better reading is that the maximum amount that could otherwise be reserved would be reduced by 5 percent. For example, under this scenario, if the State allotment was one million dollars, and without a sanction the Governor could reserve $150,000, the amount of the Governor's Reserve after sanctions would be 95 percent of the amount that could otherwise be reserved (*i.e.,* $142,500), or in other words, the $150,000 reserve less the 5 percent sanction. This is a better reading because a reading that required a reduction of percentage points of the overall allotment, rather than the percentage reserved by the Governor, would be unnecessarily punitive and inconsistent with the overall intent of WIOA. The Departments are further concerned that such an extreme reduction would frustrate the State's ability to take actions to improve performance or submit timely, complete, and accurate performance reports in the future.

Proposed § 677.195(b) clarifies that if, in the same PY, a State fails under proposed § 677.195(a)(1), failure to report in any given PY, and fails under proposed § 677.190(a)(2), failure to meet adjusted levels of performance for 2 consecutive program years, then sanctions in the amount of 5 percent will be applied for each of these failures. The maximum sanction therefore that could be applied to a State in any given PY is 10 percent of the maximum available amount of the Governor's Reserve allotment—for failure to submit a performance report and for failure to meet adjusted levels of performance for 2 consecutive program years. The Departments are seeking comment on this interpretation of the language under WIOA sec. 116(f), as well as the implications of this proposed regulation. The Departments also note that the application of sanctions against the Governor's Reserve does not preclude the Departments from pursuing other avenues of enforcement as permitted under applicable laws.

Proposed § 677.195(c) clarifies the statutory requirement in sec. 116(f)(1)(B) of WIOA that a sanction be applied until such a time as the Secretaries of Education and Labor determine that performance levels have been met and the State annual performance reports have been submitted. The immediately following PY is the first point at which the Departments could reasonably determine that a State that has previously failed performance has met adjusted levels of performance because the statistical adjustment model is only applied at the beginning and the end of the year and not at the time of the quarterly reports. The Departments interpret this statutory provision to mean that the reduction continues for the entire PY with no earn-back potential. This interpretation is consistent with the imposition of a sanction. If a State could earn its full reserve allotment even if it submitted its State annual performance report 6 months after the deadline, reporting deadlines would be undermined and there would be little incentive for timely reporting. In addition, appropriations law prevents us from redistributing funds in a later PY. Finally, the proposal clarifies that the State will continue to have a sanction at the reduced amount of the total allotment of the Governor's Reserve in successive PYs if they continue to fail to meet expected levels of performance, or fail to report.

All performance reports required under sec. 116(d) of WIOA, are critically important for accountability purposes; however, as discussed above for proposed § 677.180, because the State annual performance reports are the only of these reports submitted by the State to the Departments, they are the only reports that are subject to sanctions. All required reports must be provided on a timely basis irrespective of the applicability of sanctions.

Proposed § 677.195(d) identifies that a State may request a review of any sanction DOL imposes in accordance with the provisions outlined in 20 CFR 683.800.

The Departments also request comments on the specific approach outlined above, as well as generally on (1) how to define ''fails to meet the State adjusted levels of performance,'' and (2) how to operationalize the Departments' approach to applying sanctions for both failure to submit a performance report and performance failure (*i.e.,* a maximum sanction of 10 percent), including when sanctions should be applied. The Departments are considering whether failure to submit a performance report would automatically constitute failure to meet State adjusted levels of performance, resulting in the maximum sanction of 10 percent (5 percent for failure to submit a performance report and 5 percent for failure to meet State adjusted levels of performance). In order to encourage States to submit the performance report and avoid the maximum potential sanction, the Departments are considering a definition of performance failure that would provide a final deadline for the States to submit their performance data and avoid a sanction

for failure to meet the State's adjusted levels of performance.

§ 677.200 What other administrative actions will be applied to States' performance requirements?

Proposed § 677.200 outlines the circumstances under which a State will be subject to additional administrative actions when determined to be at risk due to low performance on an individual primary indicator.

Proposed § 677.200(a) identifies the circumstances under which administrative actions would be triggered outside of the sanctions process. While States' performance on the primary indicators will be aggregated into an overall program score and overall indicator score to assess performance failure, the individual indicators will be assessed, as explained in guidance, in order to establish whether a program's performance is at risk. While sanctions are based on performance and reporting failures, the Departments want to foster a workforce system that is focused on achieving success, not just avoiding failure. Early intervention in the event of performance problems is necessary for States to achieve successful outcomes. Accordingly, to assist the States in performing well for all one-stop customers, the Departments propose alternate administrative actions for performance issues that do not rise to the level of sanctionable failure.

Under proposed § 677.200(b) if a single primary indicator for a State's programs is determined to be at risk, as explained in guidance issued by DOL or ED, the State must develop and submit a performance risk plan to outline the primary reasons for low performance and the steps they are taking to improve performance and ameliorate the risk for that indicator or indicators. This will require States to take a proactive approach to addressing performance concerns before they rise to the level of failure. The Departments propose that the levels set for administrative actions will be explained in guidance so that the Departments can adjust the levels as needed as the Departments gain programmatic experience with the new WIOA performance measures. As these levels will not be the subject of financial sanctions but are instead within the Departments' general monitoring responsibilities, the inclusion of the levels in regulation is not required.

4. Subpart C—Local Performance Accountability for Workforce Innovation and Opportunity Act Title I Programs

§ 677.205 What performance indicators apply to local areas?

Proposed §§ 677.205(a) and (b) implement sec. 116(c) of WIOA and clarify that for the core programs under title I of WIOA each local workforce area will be subject to the same primary indicators as States, although Governors may elect to apply additional performance indicators to local areas. Proposed § 677.205(c) outlines and explains that local area reports are required to be reported on the standard template that the Departments will provide under WIOA sec. 116(d)(1); be made available to the public on an annual basis, including by electronic means; and must include, at a minimum, the local areas' performance levels achieved with respect to the primary indicators under § 677.155 as well as additional information States are required to report under WIOA sec. 116(d)(3). This section largely summarizes statutory language in WIOA and establishes the proposed framework for guidelines and instructions that the Departments plan to issue later to implement and carry out the performance reporting requirements of WIOA sec. 116. In addition, proposed § 677.205(c) requires the State to provide electronic links to the local area performance report as part of its annual State performance report. The Departments propose this requirement because while WIOA sec. 116(d)(6)(B) requires the State to make the local report publicly available, sec. 116(d)(6)(D) requires the Secretaries to disseminate these reports to Congress. The proposal will enable the Departments to fulfill this statutory requirement.

Proposed §§ 677.205(d) and (e) outline the minimum required information to be provided in those reports consistent with sec. 116(d)(3) of WIOA. Under proposed § 677.205(d), the local area reports must contain information on actual performance levels achieved (consistent with § 677.175, regarding the use and aggregation of interstate and intrastate wage records) on the primary indicators as outlined in § 677.155. Under proposed § 677.205(e), States must also make available performance information for their local areas for the adult, dislocated worker, and youth programs under WIOA title I consistent with § 677.160(a). States are also required to make available information on the percentage of a local area's allotment under WIOA sec. 128(b) and 133(b) that the local areas spent on administrative costs as well as any other information that may be proposed in guidance from the Secretary of Labor to facilitate comparisons of programs, with other programs in local areas or planning regions as deemed appropriate.

Proposed § 677.205(f) reiterates that States are responsible for compliance with any associated guidance, including the use of the performance reporting template, issued by the Secretary of Labor for compliance with local area performance reporting requirements.

§ 677.210 How are local performance levels established?

Proposed § 677.210 describes the process to be utilized to establish local performance targets prior to the start of a PY and, subsequently, to establish performance levels based on actual circumstances at the conclusion of a PY. The proposed process is similar to the proposed language for establishing State performance levels, including the negotiations process, which is proposed to be developed and disseminated by the Governor and conducted with the Local Boards and CEOs.

Proposed § 677.210(a) implements the requirements of sec. 116(b)(3)(A)(viii) of WIOA to apply a statistical adjustment model in the establishment of local area adjusted levels of performance. It requires the Departments to run the model at the beginning of a PY and at the end of the PY to revise adjusted levels of performance based on actual conditions experienced and the characteristics of participants.

Proposed § 677.210(b)–(c) requires that the Governor, Local Board, and CEO reach agreement on local targets and adjusted levels of performance based on a negotiations process prior to the start of a PY. The Governor is to establish a negotiations process and disseminate it to all of the Local Boards and CEOs.

Proposed § 677.210(d) states that Local Boards have the authority to establish performance targets for service providers in a local area. Setting performance targets will help local areas in evaluating the performance of service providers, managing programs at the local level, and determining whether to maintain or change providers. This also allows locals some flexibility in the way they structure their service delivery design while taking into account the performance requirements for a local area. The Departments suggest that the local area should consider its negotiated local performance levels, the services to be provided by each provider, and populations the service provider is

intended to serve in developing these targets. Targets may vary by provider and may be different from the local area's performance measures.

5. Subpart D—Incentives and Sanctions for Local Performance for Workforce Innovation and Opportunity Act Title I Programs

§ 677.215 Under what circumstances are local areas eligible for State Incentive Grants?

Proposed § 677.215 outlines the circumstances in which a local area is eligible for an incentive grant.

Proposed § 677.215(a) implements sec. 116(h) of WIOA and explains that the Governor is not required, but is allowed to use non-Federal funds to create incentives for Local Boards to implement pay-for-performance contract strategies for the delivery of training services described in sec. 134(c)(3) and sec. 129(c)(2) of WIOA in the local areas served by the Local Boards.

Proposed § 677.215(b) maintains that pay-for-performance contract strategies must be implemented in accordance with 20 CFR 683.500 through 683.530 and § 677.160.

§ 677.220 Under what circumstances may a corrective action or sanction be applied to local areas for poor performance?

Proposed § 677.220(a) explains the circumstances under which local areas must receive technical assistance under WIOA sec. 116(g) for failure to meet levels of performance. In accordance with WIOA, the proposed rule would require that local areas must receive technical assistance and may be subject to a performance improvement plan for failure to achieve adjusted levels of performance established with the State for primary performance indicators in the adult, dislocated worker, or youth programs authorized under title I of WIOA in any PY. The Governor, or his/her designee, or upon request of the Governor, the Secretary of Labor, must provide technical assistance, which may include assistance in the development of a performance improvement plan or a modified local or regional plan, to the local area in the first year of failure to meet levels on the required performance indicators. In requesting assistance from the Secretary of Labor, the Governor's request should include the factors that impede the provision of successful technical assistance at the State level, because the State is generally in the best position to address failure to meet the performance levels it negotiated with the local area. The Departments further clarify that a State must establish the threshold for failure for a local area to meet levels of performance prior to negotiating local area adjusted levels of performance. A local area cannot accurately negotiate adjusted levels of performance without having an understanding of what the State will consider failure.

Proposed paragraph (b), in accordance with WIOA, outlines the required corrective actions for local areas that continue to fail to meet performance indicators for 3 consecutive years. A local area that failed to meet adjusted levels of performance on required performance indicators for a third consecutive year is subject to reorganization, which would include the certification of a new Board, the exclusion of underperforming service providers or partners, and other actions the Governor deems appropriate. The Departments request comments regarding what other actions should be considered in this circumstance.

§ 677.225 Under what circumstances may local areas appeal a reorganization plan?

Proposed § 677.225 implements sec. 116(g)(2)(B) of WIOA and outlines when a local area and CEO may appeal a reorganization plan executed by the Governor.

Proposed § 677.225(a) explains that the Local Board and CEO for a local area subject to a reorganization plan under WIOA sec. 116(g)(2)(A) may appeal to the Governor to rescind or revise a reorganization plan no later than 30 days after receiving notice of the reorganization plan. The Governor must make a final decision 30 days after receipt of an appeal.

Proposed § 677.225(b) implements the statutory requirement that if the Local Board and CEO wish to appeal the final decision of the Governor, they must make an appeal to the Secretary of Labor no later than 30 days after receiving the final decision from the Governor. The Departments propose to require that any appeal to the Governor under proposed § 677.225(a) or the Secretary of Labor under proposed § 677.225(b) must be submitted jointly by the Local Board and the CEO. The Departments propose this interpretation because the statute uses the conjunctive ''and'' in stating that the Local Board and the CEO may appeal. In addition, this interpretation has the benefit of requiring review only in circumstances where the Local Board and CEO are in agreement that the reorganization plan should be appealed and will conserve government resources in cases where either the Local Board or CEO agrees with the Governor's decision. This approach also avoids duplication and inefficiency that would be engendered by providing an opportunity for the Local Board and the CEO to appeal separately.

Proposed §§ 677.225(c)–(d) implement statutory requirements that the Secretary must make a final decision regarding an appeal within 30 days of receipt of the appeal and that a reorganization decision made by the Governor is effective at the time it is issued and remains in effect unless and until such time that the Secretary of Labor rescinds or revises the reorganization plan on appeal.

6. Subpart E—Eligible Training Provider Performance for Workforce Innovation and Opportunity Act Title I Programs

§ 677.230 What information is required for the eligible training provider performance reports?

Proposed § 677.230 implements the requirements of sec. 116(d)(4) of WIOA, which requires annual ETP performance reports. The ETP performance reports provide critical information, including the employment, earnings, and credentials obtained by individuals in the programs of study eligible to receive funding under the adult and dislocated worker formula programs under title I–B of WIOA. This information will be of significant benefit in assisting WIOA participants and members of the general public in identifying effective training programs and providers. The information will also benefit providers by widely disseminating information about their programs and potentially as a tool to enhance their programs.

The Departments are seeking comment on how the Departments may best support ETPs in meeting the requirements of this section as well as how to make the ETP reports a useful tool for WIOA participants, ETPs, interested stakeholders, and the general public.

This proposed regulation, in conjunction with proposed § 680.400 through 680.530, establishes the minimum requirements for performance information to be provided in the ETP performance reports.

Proposed § 677.230(a) requires that States make publicly available and publish in the standard template disseminated by the Departments under ETP performance reports under WIOA sec. 116(d)(4), including by electronic means, the ETP reports for those ETPs who provide services under sec. 122 of WIOA, which is further discussed in 20 CFR 680.500.

Consistent with proposed § 680.470, and as provided below in proposed paragraph (b) of the section, States are

only required to provide performance information on registered apprenticeship programs if these programs voluntarily submit performance information. DOL is considering ways to support interested registered apprenticeship programs in the collection and dissemination of performance data. The Department seeks comment on ways to support registered apprenticeship programs that are interested in providing performance information, and what that information might look like.

Proposed § 677.230(a)(1) outlines the minimum participant performance information that is required to be made available under the statutory provisions in sec. 116(d)(4) of WIOA. ETP performance reports must include performance information on the total number of participants who receive training services under the adult and dislocated worker programs of WIOA title I for the most recent PY of performance as well as the three preceding PYs. The ETP reports must provide disaggregated counts of participants in the adult and dislocated worker programs with respect to barriers to employment, age, sex, and race and ethnicity.

Additionally, the ETP performance reports must include counts of participants disaggregated by type of training entity for the adult and dislocated worker programs for the most recent PY and three preceding PYs. The Departments interpret this requirement to be applicable only in prospective years; this would not apply retroactively and would not require ETPs to provide information for these reports in years prior to being established as an ETP in the performance reports. Any data provided for initial eligibility determinations should be done consistent with established parameters under 20 CFR part 680, subpart E.

Proposed § 677.230(a)(2) outlines the minimum exit-based performance information that is required to be made available under the statutory provisions in sec. 116(d)(4) of WIOA. At a minimum, the ETP performance reports must contain the number of participants who exit from a program of study, and the total number of participants who exited, disaggregated by type of training entity for a PY and the three preceding PYs.

Proposed § 677.230(a)(3) identifies additional requirements that the ETP performance reports contain performance information on the average cost-per-participant for participants who received training services and disaggregated by type of training entity for the PY and three preceding PYs. The Departments interpret this requirement to be applicable only in prospective years; this would not apply retroactively, and does not require ETPs to provide information for these reports in years prior to being established as an ETP. The Departments seek comment on the best way to calculate cost-per-participant. Any data provided for initial eligibility determinations should be done consistent with established parameters under 20 CFR part 680, subpart E.

Proposed § 677.230(a)(4) provides that the ETP performance reports contain information on the total number of individuals exiting from a program of study (or its equivalent). This includes all students in a program of study and is not limited to those students who are WIOA participants. Including all students provides significantly better information on the effectiveness of a program of study.

Proposed § 677.230(a)(5) reiterates the statutory requirements for outcome information on all students in a program of study with regard to the primary indicators of performance (as identified in clauses (I)–(IV), sec. 116(b)(2)(A)(i) of WIOA, and §§ 677.155(a)(1)(i)–(iv)).

Proposed § 677.230(b) is consistent with 20 CFR 680.470 and provides that registered apprenticeship programs need not submit performance information. Under this proposal, if a registered apprenticeship program voluntarily submits this information, it must be part of the report as with any other training provider.

Proposed § 677.230(c) requires the State to provide electronic access to the eligible training provide performance report as part of its annual State performance report. The Departments propose this requirement because while WIOA sec. 116(d)(6)(B) requires the State to make the ETP performance report available, sec. 116(d)(6)(D) requires the Secretaries to summarize and disseminate these reports to Congress. The proposal will enable the Departments to fulfill this statutory requirement.

Proposed § 677.230(d) requires States to follow reporting guidance to be issued that will explain and clarify procedures governing this section.

Proposed § 677.230(e) establishes that a Governor may designate one or more State agencies or appropriate State entities, such as a State education agency or State educational authority, to assist in overseeing the ETP performance and facilitating the production and dissemination of ETP performance reports. These agencies may be the same agencies that are designated responsible for administering the ETP list as provided for in § 680.210. The designated State agency or entity is responsible for data matching required to produce the ETP reports using quarterly wage data, creating and disseminating the reports, and coordinating the dissemination of the performance reports with the ETP list as provided in § 680.210.

Proposed § 677.230(e)(1) establishes that the designated agency would be responsible for the facilitating the data matches necessary to develop and compile the ETP performance reports. This proposed regulation seeks to provide a foundation for data matching for the purposes of these reports to allow States more opportunities to establish the necessary connections and procedures that are in compliance with the existing regulations governing education data governed by the Family Educational Rights and Privacy Act (FERPA) and the UI wage data governed by State law and UI Confidentiality Regulations found in 20 CFR part 603.

Proposed § 677.230(e)(2) establishes that the designated State agency or State entity responsible for these reports would carry the responsibility for the creation and dissemination requirements found in this subsection. The Departments recognize that the ETP performance reports are a departure from the previous reporting mechanisms related to ETPs as they existed under WIA. The Departments are seeking comment on specific aspects of this new performance reporting requirement as it relates to reporting burden for training providers under this requirement. The Departments are interested in comments on ways the Departments may reduce this burden for training providers as well as how the Departments may leverage this performance reporting requirement to be of more use to the ETPs. The Departments would like specific comments on what would facilitate the reporting process to make it easier for ETPs to report on multiple programs of study, including programs that they would like to be on the list but do not have currently any WIOA funded participants enrolled.

Proposed § 677.230(e)(3) establishes the designated State agency or State entity as responsible for coordinating the dissemination of the ETP performance reports with the dissemination of the ETP list. WIOA sec. 122 establishes the ETP list as a key resource in the State one-stop system and requires it to be available to individuals seeking information on training programs as well as participants receiving career services funded under WIOA and other programs. DOL

considers the ETP reports to also be a key component of consumer choice.

The Departments propose that the ETP performance report be disseminated in coordination with the dissemination of the ETP list and the information that is required to accompany that list under § 680.500. This coordination requirement is consistent with the statutory emphasis on consumer choice and performance accountability.

7. Subpart F—Performance Reporting Administrative Requirements

§ 677.235 What are the reporting requirements for individual records for core Workforce Innovation and Opportunity Act title I, III, and IV programs?

Proposed § 677.235 outlines the requirements for core WIOA title I, III and IV programs for the collection and submission of individual records.

Proposed § 677.235(a) requires that States submit individual records containing demographic information, information on services received, and information on resulting outcomes for individuals served by specific programs to be submitted by programs to their appropriate Secretary on a quarterly basis. At the time of WIOA's enactment, DOL already required the submission of standardized individual records for the adult, dislocated worker and youth programs, and programs authorized under the Wagner-Peyser Act. Similarly, ED required the submission of individual-level data from case service records for the Vocational Rehabilitation program.

DOL began requiring States to submit quarterly individual records, in part, to ensure the information submitted in States' annual reports as required by WIA were accurate. These quarterly reports also helped DOL identify States that needed early intervention to provide assistance if they are not meeting their performance goals. The DOL interpreted several provisions of WIA as authorizing the collection of these reports. Specifically, WIA sec. 136 required DOL to measure States' progress, WIA sec. 172 required DOL to evaluate the activities of its programs, and WIA sec. 189 required DOL to submit an annual report to Congress on WIA title I programs. Additionally, WIA sec. 185 required States to maintain records sufficient to prepare performance reports. Considered as a whole, these statutory provisions authorized DOL to require States submit these reports.

ED has collected individual-level data regarding all individuals served by the Vocational Rehabilitation program, whose case service records were closed, in order to satisfy data collection requirements and to ensure States' compliance with programmatic requirements under WIA and the Rehabilitation Act of 1973. ED has historically collected this data, via the Case Service Report (RSA–911), for open cases as well as closed cases, annually, but proposes to start collecting this data on a quarterly basis to satisfy requirements imposed by WIOA.

Section 13 of the Rehabilitation Act requires ED to collect and report information required by WIOA sec. 101(a)(10) to Congress and to the President in the Annual Report. Section 14 of the Rehabilitation Act requires ED to conduct evaluations of the VR program. The information from this data collection is used in these evaluations. Section 106 of the Rehabilitation Act requires each State to report to ED the extent to which each State is in compliance with standards and indicators. Section 107 of the Act requires an annual review and periodic onsite monitoring of States' performance, much of which is determined on the basis of this data collection activity. RSA–911 data are also needed to satisfy the requirements of sec. 131 of the Rehabilitation Act, which requires an exchange of data between RSA, the Social Security Administration (SSA), and DOL.

Sections 116, 169, and 185 of WIOA retain similar requirements to the WIA provisions the Departments relied on to require these reports. Additionally, WIOA's increased focus on performance accountability and requirement that the Departments sanction failing States, give the Departments authority to require these reports.

Proposed § 677.235(b) requires the individual records be submitted in one record that is integrated across all core DOL programs. The proposal would require that the individual records submitted by States be standardized in terms of data elements and associated reporting specifications. Currently quarterly individual records are program-specific and not part of an integrated performance reporting system. For DOL programs, States are required to provide two separate individual records for an individual receiving services under WIA and Wagner-Peyser. This duplication increases the reporting burden on States and treats these programs separately rather than as parts of a holistic, integrated system designed to efficiently provide necessary employment and training services to an individual.

Furthermore, sec. 504 of WIOA requires DOL and ED to reduce reporting burden and simplify reporting requirements. A single integrated individual record best meets these needs. Requiring a single, integrated record will eliminate duplicative reporting of an individual's demographic information across programs.

At the time of enactment, the Workforce Investment Streamlined Performance Reporting (WISPR) system is the most integrated individual record layout utilized in workforce development programs administered by DOL. The WISPR includes programmatic and performance reporting across programs authorized under WIA (adult, dislocated worker, and youth), Wagner-Peyser, the Trade Act, and the Jobs for Veterans State Grant programs administered by DOL's Veterans' Employment and Training Service (VETS). This new regulation proposes an integrated, individual record that is similar to the WISPR approach for core programs administered by DOL, which supports system alignment, as well as reduced reporting burden as required under sec. 504 of WIOA. The Departments are working towards establishing reporting templates for the required performance reports and individual record formats that States will be required to use in order to meet these reporting requirements.

Proposed § 677.235(c) explains that associated reporting instructions are proposed to be provided through policy guidance.

§ 677.240 What are the requirements for data validation of State annual performance reports?

Proposed § 677.240 implements sec. 116(d)(5) of WIOA, which requires States to establish procedures, consistent with DOL and ED guidelines to provide that the information in the States' annual performance reports are valid and reliable. Therefore, the Departments propose to add § 677.240, which requires States to submit valid and reliable annual State performance reports and associated individual record information consistent with requirements that the Secretaries of Labor and Education will explain through guidance. To ensure States are meeting this statutory requirement, the Departments propose that if a State fails to achieve the accuracy standards, the Secretary of Labor or Education may require the State to develop and implement corrective actions, which may require the State to provide training for its subrecipients. These proposed

requirements are separate from the corrective actions provided under § 677.185 and § 677.220. The Departments are committed to providing that States have the information needed to effectively validate data and propose that the Departments will provide training and technical assistance about these requirements.

C. Description of the One-Stop System Under Title I of the Workforce Innovation and Opportunity Act (20 CFR Part 678; 34 CFR Part 361, Subpart F; 34 CFR Part 463, Subpart J)

1. Introduction

In the section-by-section discussions of each proposed one-stop provision below, the heading references the proposed DOL CFR part and section number. However, the Department of Education proposes in this joint NPRM identical provisions at 34 CFR part 361, subpart F (under its State Vocational Rehabilitation Services Program regulations) and at 34 CFR part 463, subpart J (under a new CFR part for AEFLA regulations). For purposes of brevity, the section-by-section discussions for each Department's provisions appear only once—in conjunction with the DOL section number—and constitute the Departments' collective explanation and rationale for each proposed provision.

2. Subpart A—General Description of the One-Stop Delivery System

The WIOA reaffirms the role of the one-stop system, a cornerstone of the public workforce development system, and subpart A describes the one-stop delivery system. Although there are many similarities to the system established under the WIA, there are also significant changes under WIOA. This subpart, therefore, restates WIA requirements governing one-stop centers, to the extent they are still applicable under WIOA, and embodies a set of reforms that, when implemented effectively, are intended to make significant improvements to the public workforce delivery system. These proposed regulations would establish requirements of the one-stop career center system as defined under WIOA, requiring partners to collaborate to support a seamless customer-focused service delivery network. The proposed regulations would require that programs and providers collocate, coordinate, and integrate activities and information, so that the system as a whole is cohesive and accessible for individuals and businesses alike. The ultimate goal is to increase the long-term employment outcomes for individuals seeking services, especially those with significant barriers to employment, and to improve services to employers.

Proposed subpart A describes the one-stop center system established under WIOA. It establishes the different types of one-stop career centers allowable in each local area, and addresses the use of technology to provide services through the one-stop delivery system. As discussed in §§ 678.305 and 678.310, a local area's one-stop delivery system may be made up of a combination of a comprehensive one-stop center and a network of affiliated sites. When designing the one-stop delivery system, States and Local Boards must ensure that information on the availability of career services is available at all one-stop physical locations and access points, including electronic access points, regardless of where individuals initially enter the local one-stop system.

§ 678.300 What is the one-stop delivery system?

Proposed § 678.300(a) describes the requirements of the one-stop delivery system and the purpose. The one-stop delivery system brings together a series of partner programs and entities responsible for workforce development, educational, and other human resource programs to collaborate in the creation of a seamless customer-focused service delivery network that enhances access to the programs' services. Partners, programs, and providers will collocate, coordinate, and integrate activities so that individuals seeking assistance will have access to information and services that lead to positive employment outcomes for individuals seeking services.

Proposed § 678.300(b) provides that there are responsibilities at the local, State and Federal levels relative to the establishment and maintenance of the one-stop delivery system.

Proposed § 678.300(c) retains the same requirement found under WIA at 20 CFR 662.100(c) that there be at least one physical one-stop career center in each local area.

Proposed § 678.300(d) allows for the establishment of additional affiliate locations including specialized centers serving targeted participant populations, such as youth or dislocated workers, or industry sector specific centers.

Proposed § 678.300(e) states that required one-stop partners must provide electronic access to programs, activities, and services by electronic means, in addition to providing access to the services at a comprehensive one-stop center or making the program services available at an affiliated site if the partner is participating at the affiliated site. Services provided through electronic means would need to supplement and not supplant those provided through the physical one-stop delivery system. The phrase ''electronic means'' includes Web sites, social media, internet chat features, and telephone.

Proposed § 678.300(f) requires that the description of the one-stop delivery system be included in the Memorandum of Understanding (MOU) required at proposed 20 CFR 678.500.

§ 678.305 What is a comprehensive one-stop center and what must be provided there?

Proposed § 678.305 requires that there be a comprehensive one-stop career center in each local area. Although the requirement to have at least one physical center in each local area is unchanged from the requirement under WIA, and the requirement is more fully described under these proposed regulations.

Proposed § 678.305(a) establishes that the comprehensive one-stop center is a physical location where individuals must have access to a specific set of services that must be made available to individuals seeking services. The required services are listed in proposed § 678.305(b) and the proposed rule defines ''access'' in § 678.305(d). Customers can access a specific program without that program's staff being physically present at a one-stop center. However, in order to ensure that comprehensive one-stop centers are not all virtual services, the Departments propose that WIOA title I staff be physically present in the one-stop. There may be creative ways to provide all virtual services to customers, but such an all-virtual site would not be considered a comprehensive one-stop center. This proposed physical presence requirement does not have to be met by a full-time staff person, and can be met by the physical presence of different staff trading off throughout regular business hours (*e.g.,* job-sharing or shift work).

Proposed § 678.305(c) provides that individuals must have access to the required services under § 678.305(b) on regular business days, at a minimum, at the comprehensive center. This is a more specific requirement than exists under WIA. If, for example, the comprehensive one-stop center is open Monday through Friday, customers must have access to the services listed at § 678.305(b) Monday through Friday. The Departments strongly encourage Local Boards to find creative ways to expand the hours that services are available to customers, to ensure that

services are universally accessible to people with various working hours, different access to transportation, and different family care arrangements. For example, Local Boards should consider ways to make services available to job seekers who might have childcare responsibilities or work during the normal business day. State Boards must consider service hours when evaluating effectiveness of one-stop centers, as part of the one-stop certification process described further in § 678.800(b).

Proposed § 678.305(d) defines the access to services that must be available to individuals seeking assistance at the comprehensive one-stop. This access can be provided in one of three variations of physically present staff or through technology: (1) Program staff physically present at the location; (2) staff physically present at the one-stop from any partner program appropriately trained to provide information to customers about the programs, services, and activities available through partner programs, such as the types of services that program provides and whether the services might meet the individual's needs; or (3) providing direct linkage through technology to someone who can either provide the program services, or provide information such as how to apply for the program, or how to begin receiving services. Under the proposed rule, if there is access to technological direct linkages (as defined in § 678.305(d)(1)) at a comprehensive one-stop center for a specific program, no partner program staff must be physically present.

Proposed §§ 678.305(d)(1) and (2) provide that services provided through technology must be meaningful, available in a timely manner and not simply a referral to additional services at a later date or time.

Proposed § 678.305(e) requires that all comprehensive one-stop career centers be physically and programmatically accessible to individuals with disabilities.

§ 678.310 What is an affiliated site and what must be provided there?

In addition to the proposed requirement for a physical center in each local area where required one-stop partners must provide access to their programs, services and activities, proposed § 678.310 provides that the one-stop delivery system may also provide programs, services, and activities through affiliated sites or through a network of eligible one-stop partners that provide at least one or more of the programs, services, and activities at a physical location or through an electronically or technologically linked access point, such as a library.

Proposed § 678.310(a) defines an affiliated site as a location that makes available one or more of the required or optional programs, services, and activities to individuals. The proposed rule is not intended to establish a new physical presence requirement for one-stop partner programs in affiliated sites. Physical presence at affiliated sites can be negotiated at the local level by partner programs and the Local Board, and may be under 50 percent for any individual partner program, except in those cases described in proposed § 678.315(b).

Proposed § 678.310(b) sets forth the prohibition against standalone Wagner-Peyser employment service centers, described more fully in proposed § 678.315. Section 121(e)(3) of WIOA, which requires colocation of Wagner-Peyser employment services, is effective on July 1, 2015. However, proposed § 678.310(c) recognizes that States will need a reasonable amount of time to fully integrate the delivery of employment services into the one-stop system. Real property issues, decisions on site locations, discussions with municipal or county governments, and development of agreements with partners to participate at both comprehensive and affiliated sites may require some time. Nevertheless, a State in such circumstances must be prepared to provide DOL with a plan that details the steps the State will take to achieve colocation of Wagner-Peyser employment services as described in proposed § 678.315, and a timetable showing how the State will achieve colocation of Wagner-Peyser services within a reasonable time. The Departments are aware that States may also be considering how best to integrate other partner programs and may be considering the colocation of other programs as well. In its plan for achieving Wagner-Peyser employment services colocation, the State may wish to include how it will collocate other programs too, but this is not required. DOL may request the plan for achieving Wagner-Peyser employment services colocation during monitoring and other oversight activities. DOL's ETA will provide guidance on the approach it will use to obtain the plan and timeline from States.

Proposed § 678.310(d) requires that all affiliate one-stop centers be physically and programmatically accessible to individuals with disabilities, as described in proposed § 678.800.

§ 678.315 Can a stand-alone Wagner-Peyser employment service office be designated as an affiliated one-stop site?

Proposed § 678.315 sets forth the prohibition against standalone Wagner-Peyser employment services offices, to implement WIOA's amendment to the Wagner-Peyser Act that requires Wagner-Peyser employment services to be collocated with one-stop centers. Wagner-Peyser employment services cannot, by themselves, constitute an affiliated one-stop center. In those cases where Wagner-Peyser employment services are located in an affiliated site, there must be at least one other partner in that affiliated site whose staff is physically present more than 50 percent of the time the center is open. Certain partner programs cannot be considered the ''other partner'' when determining whether Wagner-Peyser employment services are stand-alone; these are: local veterans' employment representatives, disabled veterans' outreach program specialists, or unemployment compensation (UC) staff. Local veterans' employment representatives, disabled veterans' outreach program specialists, also referred to collectively as JVSG programs, are typically provided alongside Wagner-Peyser employment services programs. When a veteran does not receive services through the disabled veterans' outreach program, that veteran is served by the Wagner-Peyser employment service. To provide individuals with the full range of employment, training, and education services available, it is important to connect both the JVSG programs and the Wagner-Peyser employment service with the rest of the one-stop system. The Departments expect that the entity that administers the Wagner-Peyser employment service, in consultation with Local Boards and one-stop partners, will need to make the changes needed to comply with the proposed rule. The proposed rule is not intended to establish a new physical presence requirement for individual one-stop partner programs in affiliated sites. The proposed rule is meant to trigger adjustments on where Wagner-Peyser employment services are delivered. The Departments are aware that some one-stop partner programs are unable to have a physical presence in every affiliated site. Partner programs and the Local Board can negotiate physical presence at affiliated sites, and this presence may be below 50 percent for any one partner program. The Departments seek feedback, particularly from workforce programs outside WIOA title I and III, on whether the proposed requirement that other partners be

present more than 50 percent of the time creates an impediment to participating in the one-stop system, and whether any other changes would facilitate colocation.

§ 678.320 Are there any requirements for networks of eligible one-stop partners or specialized centers?

Proposed § 678.320 explains the requirements for the networks of one-stop partners and specialized centers named in the statute. These entities were not listed in WIA but were included as part of the one-stop system in the WIA regulations. An example of a specialized center is one targeted for youth, one geared at a specific industry sector, or one established specifically to respond to a large localized layoff. These specialized centers do not need to provide access to every required partner, but must have a way to make referrals to one-stop partners in comprehensive and affiliate centers. The specialized centers should also follow-up to make sure that services were provided after referral. A Local Board can design the specialized center to meet local needs. A specialized center must not be a standalone Wagner-Peyser employment service office. The requirements of proposed § 678.315(b) apply to specialized centers just as they apply to affiliated sites.

3. Subpart B—One-Stop Partners and the Responsibilities of Partners

The public workforce system envisioned by WIOA seeks to provide all participants with access to high-quality one-stop centers that connect them with the full range of services available in their communities, whether they are looking to find jobs, build basic educational or occupational skills, earn a post-secondary certificate or degree, get guidance on how to chart careers, or are employers seeking skilled workers. A true seamless, one-stop experience requires strong partnerships across programs that are able to streamline service delivery and align program requirements. In this subpart of the proposed rule, the Departments describe requirements relating to such one-stop partnerships. Specifically, this subpart identifies the programs that are required partners, the other entities that may serve as partners, the roles and responsibilities of required partners, and the types of services provided.

§ 678.400 Who are the required one-stop partners?

Proposed §§ 678.400(a)–(b) lists the required partners under WIOA. Beyond the partners previously required under WIA, WIOA adds the Temporary Assistance for Needy Families (TANF) program and the Ex-Offender program administered by DOL under sec. 212 of the Second Chance Act of 2007 to the list of required partners.

§ 678.405 Is Temporary Assistance for Needy Families a required one-stop partner?

Proposed § 678.405(a) clarifies that TANF is a required partner. Proposed § 678.405(b) provides further clarification that the Governor may determine that TANF will not be a required partner in a local area(s) but must notify the Secretaries of Labor and Health and Human Services in writing of this determination. This implements sec. 121(b)(1)(C) of WIOA. Proposed § 678.405(c) clarifies that TANF may always partner or collaborate with the one-stop, even if the Governor has determined it is not a required partner in that State or local area.

§ 678.410 What other entities may serve as one-stop partners?

Partnerships across programs are critical to supporting the one-stop vision for service delivery. Proposed § 678.410(a) reinforces the sec. 121(b)(2)(B)(vii) of WIOA, which states that other Federal, State, local, or private sector entities that carry out workforce development programs may serve as additional one-stop partners if the Local Board and CEOs approve. Proposed § 678.410(b) provides a list of possible additional partners. In addition to the optional partners listed, Local Boards may partner with a wide range of organizations, including but not limited to CBOs, non-profit community action agencies, disability service providers, nonprofit workforce providers, and nonprofit English-as-a-second-language (ESL) providers.

In contrast to the former WIA requirement, the proposed rule does not contain an allowance for the State to require that optional partners be included as a partner in all of the local one-stop delivery systems in the State. This omission reflects the WIOA requirement that the Local Board determine partners in the one-stop and that the State cannot mandate partners other than those specifically required in WIOA. This change places greater discretion at the local level in identifying the appropriate mix of services provided and the Departments expect that such decisions will be based on local or regional labor market information and population demographics.

§ 678.415 What entity serves as the one-stop partner for a particular program in the local area?

The proposed regulation at § 678.415 provides a general definition of the ''entity'' that carries out the programs identified in §§ 678.400 and 678.410 and serves as the one-stop partner. The regulation defines the entity as the grant recipient or other entity or organization responsible for administering the program's funds in the local area. The term ''entity'' does not include service providers that contract with or are sub recipients of the local entity. The proposed regulation notes that for programs that do not have local administrative entities, the responsible State agency may be the one-stop partner. In addition, the proposed regulation specifies the appropriate entity to serve as partner for the Adult Education and Vocational Rehabilitation (AEFLA) program, WIOA national programs, and the Carl D. Perkins Career and Technical Education (Perkins) program is the State eligible agency. Further, a State eligible agency for the AEFLA or Perkins programs may delegate its responsibilities to act as a local one-stop partner to one or more State agencies (for the Perkins program only), local entities, or consortia of local entities, as specified in the proposed regulation. In making such a delegation, a State eligible agency would have to meet all Federal and State requirements applicable to such delegations.

§ 678.420 What are the roles and responsibilities of the required one-stop partners?

Proposed § 678.420 describes and elaborates upon the statutory responsibilities of the one-stop partners. These responsibilities and corresponding WIOA provisions are identified and summarized in paragraphs (a) through (e). Jointly funding services is a necessary foundation for an integrated service delivery system. All partner contributions to the costs of operating and providing services within the one-stop center system must be proportionate to the benefits received and adhere to the partner program's Federal authorizing statute, and to Federal cost principles requiring that costs are reasonable, necessary and allocable. The proposed requirement in § 678.420(e), to provide representation on State and Local Workforce Development Boards, is new in WIOA and only required of core programs; WIA only required one-stop partner representation on Local Boards, and

required it for all one-stop partner programs.

§ 678.425 What are the applicable career services that must be provided through the one-stop delivery system by required one-stop partners?

§ 678.430 What are career services?

WIOA requires one-stop partners to deliver career services applicable to their specific program. This proposed regulation clarifies that an applicable career service is a service identified in § 678.430 and is an authorized program activity. The TANF statute does not include a definition for career services. Accordingly, the TANF State grantees need to identify any employment services and related supports being provided by the TANF program (within the particular local area) that are comparable with the career services as described in proposed § 678.430. At a minimum, the TANF program partner must provide intake services at the one-stop for TANF assistance and non-assistance benefits via application processing and initial eligibility determinations. These latter services comport with proposed § 678.420. The Departments seek specific comments about our proposal regarding the identification and inclusion of TANF employment, related support services and TANF intake functions as ''career services,'' that are required to be provided locally in one-stop centers. Other program specific information about the applicability of various career services is provided where needed in subsequent sections of this proposed rule. Proposed § 678.425 repeats the WIOA prohibition on one-stop partners requiring a particular sequence of services. Seamless service delivery, which is one of the underlying principles of the one-stop system, requires that appropriate services be made available to individuals based on their needs, and that multiple services can be provided simultaneously.

Career services are identified in sec. 134(c)(2) of WIOA. In addition to replacing core and intensive services as they were described in WIA, a number of new activities are included in the definition of ''career services.'' This section organizes WIOA careers services into three categories: (1) Career services that must be made available to all participants; (2) career services that must be made available if deemed appropriate and needed for an individual to obtain or retain employment; and (3) follow-up activities. The proposed regulation respectively designates these categories as: basic career services; individualized career services; and follow-up services. The activities included under these categories are identified in §§ 678.430(a), 678.430(b), and 678.430(c), respectively.

The proposed regulation reiterates the list of services included in the statute, and elaborates on some of the career services. Section 134(c)(2)(A)(x) of WIOA requires as a career service the provision of both information and assistance to customers regarding filing an UI claim. The proposed regulation at § 678.430(a)(10) further provides that such assistance must be meaningful and provided by staff who are well trained in UC claims. This proposed paragraph reflects the Departments' interpretation that the one-stop system established by WIOA is intended to provide participants with a seamless, one-stop experience that includes a professional level of service provided in a timely manner. Specifically, the Departments have concluded that individuals directly seeking career services from the one-stop system should receive more robust or ''meaningful'' service beyond what they could obtain on their own using self-service tools, such as public Web sites and phone numbers; instead, the Departments intend for them to receive meaningful staff assisted services if needed. In the context of providing assistance with UI claims, the proposed rule defines ''meaningful assistance'' as having staff well-trained in UC claims filing and the rights and responsibility of claimants available in the one-stop centers to provide customers with assistance in filing a claim if they request it or are identified as needing the service due to barriers such as limited English proficiency or disabilities. This staff can be UI staff placed in the one-stop or Wagner-Peyser or other one-stop partner staff who have been properly cross-trained to provide this service. Alternatively, meaningful assistance can also be provided by phone or by means of other technology, including computer access, as long as the assistance is provided by specifically identified staff and within a reasonable time. This means that if the customer is referred to a phone for UI claims assistance, it must be a phone line dedicated to serving one-stop customers. It cannot be simply placing the customer into the general State UI agency contact center's phone queue. If the assistance is provided remotely using technology, it must be a technology that enables trained staff to provide the assistance. Examples of technology that enables remote assistance include live Web chat applications, video conference applications, or other similar technology. In addition to UI program funding, adult and dislocated worker funds may be used for these services as allowed in WIOA sec. 134(c)(2)(A)(x); Wagner-Peyser funds may be used for the provision of these services as allowed sec. 7(a)(3)(F) of the Wagner-Peyser Act; or some combination of these three funding sources. It is important to acknowledge that the vast majority of UI claims filing will continue to be done remotely through self-service options. This proposed regulation does not require that States actively promote in-person claims filing through the one-stop centers. It does mean that assistance must be made available to customers who come to the one-stop for assistance in filing a UI claim and to customers that have been identified as having barriers to filing a UI claim without assistance.

§ 678.435 What are the business services provided through the one-stop delivery system, and how are they provided?

The one-stop system is intended to serve both job seekers and businesses. Similar to job seekers, businesses should have access to a truly one-stop experience in which high quality and professional services are provided across partner programs in a seamless manner. Labor markets are typically regional, but programs often design service delivery strategies around State and local geographic boundaries. Effective business services must be developed in a manner that supports engagement of employers of all sizes in the context of both regional and local economies, but should avoid burdening employers, for example with multiple uncoordinated points of contact. Proposed § 678.435(a) lists required business services. Proposed § 678.435(b) States that local areas have flexibility to provide services that meet the needs of area businesses and must carry out these activities in accordance with relevant statutory provisions.

Section 134(d)(1)(A)(ix)(I) of WIOA provides additional flexibility to allow business-focused activities to be carried out by business intermediaries working in conjunction with the Local Board. Such activities can also be carried out through the use of economic development, philanthropic, and other public and private resources in a manner determined by the Local Board and in cooperation with the State. Proposed § 678.435(b) reiterates this flexibility.

Proposed § 678.435(c) provides a non-exhaustive list of allowable business activities. In addition to traditional

employer services, such as customized screening and referral of candidates, this list includes activities specifically identified in sec. 134(d)(1)(A) of WIOA that demonstrate WIOA's emphasis on innovative and regional strategies, such as regional labor market information, sector strategies, and development of career pathways. This list reflects activities specifically identified in WIOA and activities the Department had previously identified in administrative guidance under WIA. Proposed § 678.435(d) states that business services and strategies must be reflected in the local plan.

§ 678.440 When may a fee be charged for the business services in 20 CFR 678.435?

Section 134(d)(1)(A)(ii) of WIOA allows customized employer-related services to be provided on a fee-for-service basis. Proposed § 678.440 clarifies that there is no requirement that a fee-for-service be charged to employers. However, the Local Workforce Development Boards should examine available resources and assets to determine an appropriate cost structure. They may also provide such services for no fee.

WIOA seeks to create a seamless service delivery system by linking and aligning one-stop partners. However, as described in § 678.425(a), eligibility and other requirements of one-stop partner programs continue to apply. Proposed § 678.425(b) clarifies that resources of each partner may only be used to provide authorized services to eligible individuals. It also clarifies that seamless service delivery can still be provided through joint funding of shared services based on the relative benefit received by each program. For example, one-stop staff conducting intake for all programs could be a shared cost. Joint funding must be in compliance with Federal cost principles.

4. Subpart C—Memorandum of Understanding for the One-Stop Delivery System

This subpart describes the requirements for the MOU between the Local Board, CEO, and the one-stop partners relating to the operation of the one-stop delivery system in the local area. The Local Board acts as the convener of MOU negotiations and shaper of how local one-stop services are delivered.

§ 678.500 What is the Memorandum of Understanding for the one-stop delivery system and what must be included in the Memorandum of Understanding?

Proposed § 678.500 describes what must be included in the MOU executed between the Local Board, with the agreement of the CEO, and the one-stop partners relating to the operation of the one-stop delivery system in the local area. Proposed § 678.500(a) establishes that two or more local areas in a region may develop a single joint MOU when the areas submit a regional plan. The Departments encourage regional planning, and allowing joint MOUs to support regional planning, particularly where local areas have the same one-stop operator, are providing business services at a regional level, or have planned other joint activities typically discussed in an MOU.

The MOU must include the provisions described in paragraphs (b) through (e) of the section, consistent with WIOA sec. 121(c)(2). As stated in proposed § 678.500(b), the MOU must include the final plan, or an interim plan if needed, on how the costs of the services and the operating costs of the one-stop system will be funded. Shared operating costs may include shared costs of the Local Board, as stated in proposed § 678.760. The MOU must also contain all of the information about infrastructure costs listed in proposed § 678.755. When fully executed, the MOU must contain the signatures of the Local Board, one-stop partners, the CEO(s), and the period in which the agreement is effective, and the MOU must be periodically updated to reflect any changes in the signatories or one-stop infrastructure funding. Signatures to the MOU indicate that the MOU has been executed. A lack of signatures for the MOU means that the Local Board has not established an MOU.

§ 678.505 Is there a single Memorandum of Understanding for the local area, or must there be separate Memoranda of Understanding between the Local Board and each partner?

Proposed § 678.505 establishes that a Local Board and one-stop partners may develop a single ''umbrella'' MOU that applies to all partners, or develop separate agreements between the Local Board and each partner or groups of partners. Under either approach, the MOU requirements described in § 678.500 apply. The Departments encourage States and local areas to use ''umbrella'' MOUs to facilitate transparent, flexible agreements that are not burdensome, so that partners may focus upon service delivery.

§ 678.510 How should the Memorandum of Understanding be negotiated?

Proposed § 678.510 describes the collaborative and good-faith approach Local Boards and partners are expected to use to negotiate MOUs. ''Good faith'' may include fully and repeatedly engaging partners, transparently sharing information, and maintaining a shared focus on the needs of the customer. Proposed § 678.510(a) allows Local Boards, CEOs, and partners to request assistance from a State agency responsible for the program, the Governor, State Board, or other appropriate parties when negotiating the MOU. Proposed § 678.510(b) describes options for including the infrastructure cost plans in the MOU; the MOU may include an interim infrastructure funding plan in the MOU, as described in proposed § 678.715(c). This may be particularly needed if the local area uses the State infrastructure cost funding mechanism, as described in proposed § 678.730, to enable the local area to move forward with implementing one-stop service delivery in areas where there is agreement. The MOU must be amended once a final infrastructure cost plan is determined. Proposed § 678.510(c) describes how to address MOU impasses. Consistent with WIA regulations, any local area in which a Local Board has failed to execute an MOU with all of the required partners is not eligible for State incentive grants and these sanctions are in addition to, not in lieu of, any other remedies that may be applicable to the Local Board or to each partner for failure to comply with any statutory requirements.

5. Subpart D—One-Stop Operators

This proposed subpart addresses the role and selection of one-stop operators. Unlike the other subparts in this proposed rule, this subpart is administered primarily by DOL. The DOL and ED agreed that the subpart should remain in this part of the Joint Rule, so that all of the subparts having to do with one-stop requirements are together. However, unlike the rest of this proposed part, this portion of the preamble refers mainly to DOL.

Under WIA, one-stop operators could be designated or certified through a competitive process, or they could be ''grandfathered'' in from JTPA. Section 121(d)(2)(A) of WIOA only allows for selection of a one-stop operator through a competitive process. This proposed regulation uses the term ''selection'' of one-stop operator through a competitive process, rather than ''designation'' or ''certification'' to avoid confusion. The

competitive process established by this proposed subpart requires States to follow the same policies and procedures they use for procurement from non-Federal funds. All other non-Federal entities, including subrecipients of a State (such as local areas), are required to use a competitive process based on the principles of competitive procurement in the Uniform Administrative Guidance set out at 2 CFR 200.318–200.326.

Unlike under WIA, there is no ''designation'' or ''certification'' of an entity as a one-stop operator, including a Local Board. Section 107(g)(2) of WIOA states that a Local Board may be designated or certified as a one-stop operator only with the agreement of the CEO in the local area and the Governor. The DOL interprets this provision to create an additional check for situations where a Local Board is selected to be one-stop operator through the competitive process as required under WIOA sec. 121(d)(2)(A) and as described in this proposed subpart at § 678.605(d). In these situations, it is appropriate to require that the Governor and chief local official to approve the selection.

The DOL received many comments during consultations regarding the impact of competition on local services. This proposed subpart seeks to clarify and address those concerns. For example, some States shared concerns that the outcome of such a competition may result in the layoff of State merit staff. Proposed § 678.635 clarifies that merit staff may continue to work in the one-stop so long as a system for management of merit staff in accordance with State policies and procedures is established. This is consistent with how some local non-governmental one-stop operators manage merit staff currently under WIA. Local government staff may also work in the one-stop regardless of who the operator is, if they are responsible for delivering a one-stop partner program's services.

Additionally, Stakeholders have voiced concerns about the cost and burden associated with running a competition, as well as situations where there are a limited number of, or only one, possible provider(s). While procurement can take time, Local Boards are encouraged to perform extensive market research and prepare a thorough cost and price analysis to best identify the type of procurement most appropriate to minimize cost and burden of the competitive process. A Local Board has the flexibility to identify and implement the options set forth in proposed § 678.605(d). This may include a limited competition where a smaller number of providers, identified in market research, Requests of Information (ROI), and/or the cost price analysis, are identified and invited to apply. Sole source awards are allowable in only very limited circumstances. For example, concern about the time associated with competition or failure to plan sufficient time for a competition does not constitute an ''unusual and compelling urgency'' as defined in § 678.605(d). Thus, Local Boards retain flexibility to reduce burden while remaining consistent with the provisions of WIOA. WIOA describes a more robust role for Local Boards and partners to jointly develop local plans and one-stop MOUs, and the DOL and ED strongly recommend that Local Boards align these activities with the one-stop operator function and competitive process. Similarly, the competitive process can and should provide for a transition time that minimizes or eliminates disruption in services to participants. This can be achieved in a variety of ways, including provisions in the competition to ensure some staff continuity, transition time between operators, and requiring robust standard operating procedures to be developed by one-stop operators.

Finally, numerous States and local agencies have inquired as to their eligibility to be a one-stop operator. There is nothing in the statute or in these proposed regulations that would prevent a State workforce agency or local agency from competing for and being selected as a one-stop operator. Because Local Board structures vary across State and local areas, in order to ensure there is no real or apparent conflict of interest, Local Boards (or State Boards in the case of single State areas) will need to have robust conflict of interest policies, as well as firewalls in place to ensure that development and conduct of the Board competition is kept separate and apart from the State or local agency, particularly if that entity is the current one-stop operator. Additionally, the firewalls and conflict of interest policy must ensure that, if selected as operator, there are internal controls to ensure that the agency, as operator, has oversight and management from a source other than itself. Use of internal controls and firewalls to avoid conflicts of interest are also addressed in proposed § 679.430.

In sum, this proposed regulation represents the most flexibility that could be offered to Local Boards within the confines of the statutory requirement that one-stop operators be selected through a competitive process.

§ 678.600 Who may operate one-stop centers?

Proposed §§ 678.600(a)–(d) describe who may operate a one-stop center. As stated in paragraph (a), WIOA allows a one-stop operator to be a single eligible entity or a consortium of one-stop partners. Consortia, like single entities, must be selected through a competitive process. Proposed paragraph (c) lists the types of entities what may be selected to be the one-stop operator. These repeat the eligible entities from sec. 121(d)(2)(B) of the statute, and also clarify that a Local Board, with the approval of the chief local elected official and the Governor, may serve as a one-stop operator, as stated in proposed paragraph (c)(6), and that another interested organization which is capable of carrying out the duties of one-stop operator may serve as the operator, as stated in proposed paragraph (c)(7). Proposed § 678.600(d) repeats the requirement in sec. 121(d)(3) of WIOA that elementary schools and secondary schools are not eligible to be one-stop operators; however, nontraditional public secondary schools such as night schools, adult schools, or area career and technical education schools are eligible to be operators.

§ 678.605 How is the one-stop operator selected?

Proposed § 678.605 requires the one-stop operator to be selected through a competitive process conducted not less than every 4 years. As discussed above, the Departments interpret sec. 121(d)(2)(A) of WIOA to require a competition for selection of a one-stop operator. Competition provides the best method of providing that Local Boards examine operator effectiveness. Additionally, regular competition allows Local Boards to make adjustments based on findings of the one-stop certification process described in proposed subpart F of this part, particularly to the role of the operator and other specifics that may shift as one-stop partners and the Local Board update their MOUs. The DOL received feedback that the burden of a competition every year would be large, and the Departments preliminarily concur. In looking at options, the Departments were concerned that a period of 3 years might also be too short because if a Local Board were to conduct a full competition with a Request for Proposals (RFP), it could take as long as 18 months and would result in a Board preparing for the next RFP before the current operator had an opportunity to demonstrate performance. Durations of 5 years or

more presents a risk of having an ineffective operator in place for an extended period. Therefore, proposed § 678.605 settled on a time period of 4 years to ensure that there is a solid period of performance in which to evaluate effectiveness of the operator, including the results of the one-stop certification. This proposed section also provides flexibility to both States and to local areas to require or implement competitions more frequently than every 4 years. The Departments seeks comments regarding the length of time required between competitions for operators.

Proposed §§ 678.605(a), (b), and (c) require the one-stop operator competition to be done through a competitive process. In most cases, the entity conducting the competition to procure a one-stop operator will be the Local Board, pursuant to its responsibility under sec. 107(d)(10)(A) of WIOA to select the one-stop operators. However, in some cases, such as when the one-stop is in a single State local area, a State entity might conduct the competition. If a State conducts the competition, the State must follow applicable State procurement laws. Other entities, including subrecipients of a State (such as local areas) must conduct the competition following the principles of competitive procurement in the Uniform Administrative Guidance at chapter II of 2 CFR.

This should simplify implementation for Local Boards. The requirements of the competitive process identified in WIOA should be consistent with the principles of competitive procurement in the Uniform Administrative Guidance set out at 2 CFR parts 200 and 2900. However, while the competitive process described in this proposed subpart is consistent with the principles of competitive procurement in the Uniform Administrative Guidance, not every particular requirement or process of that Guidance is applicable. This proposed subpart seeks to establish a particular competitive process that fulfills the requirements of sec. 121(d)(2)(A) of WIOA for a competitive process, while remaining consistent with the principles set forth in the Uniform Administrative Guidance. The Departments want to make clear that the specific requirements of the Uniform Guidance are only applicable where the subpart specifically refers to it. This approach provides sufficient flexibility to enable a range of operators, including current one-stop operators, State agencies, or consortia of required partners to compete for and be selected as one-stop operator. The Departments seek comments regarding the nature and extent of the competitive process outlined in the proposed regulations.

Proposed § 678.605(d) states that non-Federal entities, including subrecipients of a State (such as local areas) must first determine the nature of the competitive process to be used. The different processes that may be used are procurement by sealed bids or procurement by competitive proposals. Procurement by sole-source is permitted only under limited conditions. Because of the potential for abuse of the sole source selection method, DOL intends to set a high bar for justifying that there is only one possible operator. Local Boards cannot use their past experience with an entity being the one-stop operator or one response to Requests for Information (RFI) alone as justification. Robust market research, combined with other methods, including but not limited to an RFI and a detailed cost and price analysis, will help a Local Board meet the burden of demonstrating they meet the requirement of proposed § 678.605(d)(3)(i) for utilizing sole source selection. Additionally, the Local Board must comply with its own procurement policies regarding sole source procurements.

There are two scenarios listed in proposed paragraph (d)(3)(i) that justify the use of sole-source procurement, and as discussed the Departments envision limited use of these options. These two scenarios are consistent with the circumstances that justify sole source selection under the Uniform Administrative Guidance at 2 CFR 200.320(f), with the important exception of 2 CFR 200.320(f)(3). Governors may not approve a written request for sole source selection of a Local Board unless it complies with § 678.605(d)(3).

Proposed § 678.605(e) requires maintenance records, which are crucial to demonstrate compliance with the requirements of this subpart.

§ 678.610 How is sole source selection of one-stop operators accomplished?

Proposed § 678.610 explains how sole-source selection of one-stop operators is accomplished. It includes requirements about maintaining written documentation and developing appropriate conflict of interest policies. It states that a Local Board can be selected as one-stop operator through sole-source procurement only with the agreement of the CEO in the local area and the Governor. The Governor must approve the conflict of interest policies the Local Board has in place when also serving as one-stop operator. This is consistent with DOL's interpretation of sec. 107(g)(2) of WIOA—the section adds an additional check in the situations where a Local Board is selected to be operator.

§ 678.615 Can an entity serving as one-stop operator compete to be a one-stop operator under the procurement requirements of this subpart?

Proposed § 678.615(a) states that Local Boards may compete to be selected as a one-stop operator only if appropriate firewalls and conflict of interest policies and procedures are in place. The Departments seek comments on whether and how a sufficient firewall could be established in such a competition, whether alternate entities could conduct the competition, and who those entities might be.

Proposed § 678.615(b) allows State or local agencies to compete for, and be selected as, one-stop operators. However, the proposed paragraph recognizes that there would need to be strong firewalls, internal controls, and conflict of interest policies and procedures in place. There is precedent for State agencies applying and being selected as one-stop operators under WIA. For example, in one multi-county local area, the Local Board issued an RFP on a per county basis. In one county, a community action program was selected as the operator. In another county, the State workforce agency was selected as the operator. In this scenario, State workforce agency staff provides both WIA and Employment Services in the county where the agency was selected as one-stop operator. In a second example under WIA, from a single area State: the State Board (which also serves as the Local Board) issued an RFP for the entire State for adult and dislocated workers and a separate RFP for youth services. A non-profit entity was selected as the operator for adult and dislocated worker services. That non-profit then subcontracted with other non-profits to serve the different geographic regions of the State. The staff of the State workforce agency continues to provide the labor exchange services in the one-stop career centers. A State agency was selected as the youth provider. Additional sub-awards were made by that State agency to ensure that all ten youth program elements were available.

However, in the above two scenarios and any scenario where the State agency is competing to be the one-stop operator, there is a high risk for conflict of interest, particularly in the case of single State areas. Therefore, proposed § 678.615(b) and (c) require robust conflict of interest policies as well as internal firewalls within the State agency to address the real and perceived conflicts of interest that could arise for

a State or local agency applying to a competition run by a Local Board.

The DOL notes that this proposed section is relevant to the first competitions that are conducted after these regulations are promulgated for one-stop operators. With appropriate firewalls and conflict of interest policies and procedures to provide a fair and open competitive process, entities serving as one-stop operators at the time these regulations are promulgated, including Local Boards and other current one-stop operators, may compete and be selected as operator under the competition requirements in this proposed subpart. However, like the entities specifically mentioned in this proposed section, appropriate firewalls must be in place to provide that the current operator is not involved in conducting the competitive process, as that would be an inherent conflict of interest.

§ 678.620 What is the one-stop operator's role?

Proposed § 678.620(a) describes the role of the one-stop operator without prescribing a specific and uniform role across the system. The proposed minimum role that an operator must perform is coordination across one-stop partners and service providers. Additionally, the proposed paragraph (b) prohibits one-stop operators from assuming functions that are inherently the responsibility of the Local Board under proposed § 679.370. The DOL seeks comments as to whether all of the functions listed in proposed paragraph (b) are accurately described as inherent to the responsibility of a Local Board. As the one-stop system evolved under WIA, some of the Local Board responsibilities may have changed or been devolved to the operator or fiscal agent as well.

§ 678.625 Can a one-stop operator also be a service provider?

Proposed § 678.625 allows a one-stop operator to also be a service provider. However, the section clarifies that there must be firewalls in place to ensure that the operator is not conducting oversight of itself as service provider. There also must be proper internal controls and firewalls in place to ensure that the entity, in its role as operator, does not conflict with its role of service provider. This is consistent with the firewall and internal control provisions in proposed § 679.430.

§ 678.630 Can State merit staff still work in a one-stop where the operator is not a governmental entity?

Proposed § 678.630 addresses the concern about whether State merit staff can continue to work in a one-stop where the operator is an entity other than the State. State merit staff support numerous programs at the one-stop career center, including Wagner-Peyser, Vocational Rehabilitation, UI, and the JVSG program. Some States have shared concerns that competition may result in the layoff of State merit staff. Proposed § 678.630 clarifies that State merit staff may continue to work in the one-stop so long as a system for management of merit staff in accordance with State policies and procedures is established. This is consistent with how some local non-governmental one-stop operators manage merit staff currently under WIA. Local government staff may also work in the one-stop regardless of who the operator is, if they are responsible for delivering a one-stop partner program's services. Nothing prohibits this from occurring, and there are numerous examples under WIA where this is currently occurring, including the above scenario of a single area State where the State Board (which also serves as the Local Board) issued an RFP for the entire State for adult and dislocated workers and a separate RFP for youth services. A non-profit entity was selected as the operator for adult and dislocated worker services. That non-profit then subcontracted with other non-profits to serve the different geographic regions of the State. The staff of the State workforce agency continues to provide the labor exchange services in the one-stops due to the merit staffing requirements. In another multi-county local area, the Local Board issued an RFP for a single operator throughout the entire local area. A large-scale non-profit was selected as the operator. Under the arrangement, State merit staff still provided labor exchange services because of the merit staffing requirement but under the operational direction of the one-stop operator.

Similar to State merit staff, nothing would prevent local government staff from being employees in the one-stop center, although the Department recognizes that local government employees are not equivalent to the State merit staff, because State merit staff are governed by the requirements attached to specific programs that must be in the one-stop regardless of operator.

§ 678.635 What is the effective date of the provisions of this subpart?

To ensure an orderly transition, as authorized under sec. 503 of WIOA, proposed § 678.635(a) states that one-stop operators selected through the competitive process described in this subpart need to be in place no later than July 1, 2017. This lengthy transition period serves several goals: (1) It allows sufficient time for State and local areas to prepare to transition to a competitive process, including conducting market research, RFIs, cost and price analysis, and competitions; (2) it reduces or eliminates the likelihood of disruption in services to participants as Local Boards have time to plan for and incorporate into the competition a plan for transition to a new provider; and (3) it allows State and local areas to have the WIOA Final Rule to use to guide the implementation of a competitive process. It is important for Local Boards to begin planning for competition immediately, and therefore proposed § 678.635(b) states that Local Boards must engage in and be able to demonstrate they are planning for a competition for one-stop operator in PY 2015 (July 1, 2015–June 30, 2016).

6. Subpart E—One-Stop Operating Costs

One-stop partner funding of infrastructure costs is intended to:

(1) Maintain the one-stop delivery system to meet the needs of the local areas;

(2) Reduce duplication by improving program effectiveness through the sharing of services, resources and technologies among partners;

(3) Reduce overhead by streamlining and sharing financial, procurement, and facilities costs;

(4) Encourage efficient use of information technology to include where possible the use of machine readable forms and shared management systems; and

(5) Ensure that costs are appropriately shared by one-stop partners by basing contributions on proportionate share of use, and requiring that all funds are spent solely for allowable purposes in a manner consistent with the applicable authorizing statute and all other applicable legal requirements, including the Federal cost principles; and

(6) Ensure that services provided by the one-stop partners to reduce duplication or to increase financial efficiency at the one-stop centers are allowable under the partner's program.

§ 678.700 What are one-stop infrastructure costs?

Proposed § 678.700 provides the definition for infrastructure costs based

on sec. 121(h)(4) of WIOA. In addition to those items, the section adds common one-stop delivery system identifier costs. These costs are those associated with signage and other expenses related to the one-stop common identifier as required by sec. 121(e)(4) of WIOA. The Departments seek comments as to other common identifier costs, or other types of costs, to include in the definition of infrastructure costs.

Jointly funding services is a necessary foundation for an integrated service delivery system. Proposed § 678.700(c) reiterates that all partner contributions to the costs of operating and providing services within the one-stop center system must adhere to the partner program's Federal authorizing statute, and to all other applicable legal requirements, including the Federal cost principles that require costs that are allowable, reasonable, necessary and allocable. There are a variety of methods to allocate costs, for instance: Based on proportion of a partner program's customers of all customers coming to the one-stop, proportion of partner program's staff among all staff at the one-stop, or based on a partner program's use of a particular expense item such as certain equipment. The DOL's previous Financial Management Technical Assistance Guide published for WIA remains useful for cost allocation explanations. See *http://www.doleta.gov/grants/pdf/TAG_PartI.pdf* and *http://www.doleta.gov/grants/pdf/TAG_PartII_July2011.pdf.* The DOL and ED jointly will update this guide and provide technical assistance on cost allocation.

§ 678.705 What guidance must the Governor issue regarding one-stop infrastructure funding?

Proposed § 678.705 addresses the requirement in sec. 121(h)(1)(B) of WIOA for the Governor to issue guidelines to State programs and guidance to local areas regarding infrastructure funding. The Departments have interpreted the statute also to require that the local areas follow these guidelines, and to allow the State grantee to monitor local areas for compliance with the Governor's guidance. The proposed section includes certain requirements for the Governor's guidance, including establishing roles, defining equitable and efficient methods for negotiating around infrastructure costs, and establishing timelines for local areas. These requirements are essential to ensuring a consistent general approach to the Governors' guidance across States, and appropriate timeframes which then allow for one-stop certification, competition of one-stop operator, and inclusion of funding agreement terms into the local State plan. The proposed rule allows for different methods of reaching consensus, and different ways for the Governor to interact with a local area during the consensus-building process. The Departments seek comments about the types of information or requirements local areas would like to see included in guidance issued by the Governor.

§ 678.710 How are infrastructure costs funded?

Proposed § 678.710 indicates that sec. 121(h)(1) of WIOA establishes two methods for funding the infrastructure costs of one-stop centers: A local one-stop funding mechanism and a State one-stop funding mechanism. Both methods utilize the funds provided to one-stop partners by their authorizing legislations. There is no separate funding source for one-stop infrastructure costs.

§ 678.715 How are one-stop infrastructure costs funded in the local funding mechanism?

Proposed § 678.715 addresses the local funding mechanism. Local Boards, in consultation with CEOs, should engage one-stop partners early in discussions about one-stop center locations and other services, so that decisions about physical locations and services are cooperatively made, and can be financially supported by the partners within the workforce system. Under the local mechanism, local partners can contribute amounts in excess of the limitations contained under the State funded infrastructure mechanism at sec. 121(h)(2)(D)(ii) of WIOA, if the parties agree that is the proportionate share of their use for reasonable one-stop infrastructure costs and it is consistent with the Federal authorizing statute and other applicable legal requirements, including Federal cost principles Under this proposed paragraph, agreement is achieved when all of the one-stop partners sign the MOU with the Local Board, which includes a final agreement regarding funding of infrastructure that includes the elements listed in proposed § 678.755, or an interim funding agreement that includes as many of these elements as possible.

§ 678.720 What funds are used to pay for infrastructure costs in the local one-stop infrastructure funding mechanism?

Proposed § 678.720 explains the funding that one-stop partners can use to pay for infrastructure cost contributions. Partner programs can determine the funds they will use, but these funds must still meet the requirements of the program's relevant statutes and regulations. Further, all one-stop partners must work together to administer the partner programs and the one-stop and other activities of the core programs under WIOA as efficiently and effectively as possible. This will ensure that, as recipients and stewards of Federal funds for all of these programs, the partners and their subrecipients administer these programs and activities to meet all applicable legal requirements and goals. Different Federal statutes and regulations define administrative costs slightly differently. Some programs' statutes and regulations define all of the infrastructure costs listed in § 678.700 as administrative costs, some programs' statutes and regulations define some of the infrastructure costs as administrative costs, and some as program costs. Under this proposed paragraph, one-stop partner programs must adhere to the administrative and program cost limitations of their program's statutes and regulations.

Proposed § 678.720(a) would give State agencies responsible for title II of WIOA or the Carl D. Perkins Career and Technical Education Act of 2006 (Perkins Act) great flexibility in determining how to pay for infrastructure costs under the local one-stop funding mechanism. It would permit a State eligible agency under title II of WIOA to use Federal funds that were available for State administration of title II of WIOA. Similarly, proposed § 678.720 would permit a State eligible agency under the Perkins Act to use Federal funds that were available for State administration of post-secondary level programs or activities. Additionally, proposed § 678.720 would permit a State eligible agency under title II of WIOA or the Perkins Act to use non-Federal funds that these State agencies contribute to meet these programs' matching or maintenance of effort requirements in lieu of the State's administrative funds from its Federal grants. Further, if a State eligible agency were to delegate to a local entity or a consortium of local entities the authority to serve as the local one-stop partner pursuant to proposed § 678.415(b) and (e), the entity or consortium could contribute local administrative funds for title II of WIOA or the Perkins Act, respectively, to the infrastructure costs in lieu of a contribution from the State's administrative funds from its Federal grants. The goal of providing the State agencies with this flexibility is to enable them to meet their responsibilities for

paying one-stop infrastructure costs in a manner that best allows them to meet their responsibilities as one-stop partners and grantees under title II of WIOA or the Perkins Act. The Departments seek public comment on whether the proposed regulation would achieve this goal.

§ 678.725 What happens if consensus on infrastructure funding is not reached at the local level between the Local Board, chief elected officials, and one-stop partners?

Proposed § 678.725 states that failure to sign the MOU containing the final infrastructure funding agreement or interim agreement by the beginning of each PY would trigger the State one-stop infrastructure funding mechanism. The proposed section states that Local Boards must notify the State if they cannot reach consensus. This notification policy must be included in the Governor's guidance, as required by proposed § 678.705(b)(3). The State monitors the local areas to address violations of State guidance. The Governor's guidance might establish an earlier date for notification to the State of milestones or decision points in the negotiation process.

§ 678.730 What is the State one-stop infrastructure funding mechanism?

Proposed § 678.730 discusses the State infrastructure funding mechanism. In establishing a State-funded alternative to the local one-stop infrastructure funding mechanism, the statute ensures infrastructure costs will still be funded if one-stop partners cannot agree on their contribution amounts to fund the infrastructure of the one-stop center. An important goal under both the local and State funding mechanisms is to ensure that each one-stop partner contributes its proportionate share to the funding of one-stop infrastructure costs, consistent with the Federal cost principles. This is in alignment with the requirements in the new Uniform Requirements, cost principles and audit requirements issued on December 26, 2014 (2 CFR part 200). In the State infrastructure funding mechanism, the Governor determines how much each partner will contribute, as described in proposed §§ 678.735 and 678.740. The State Board determines how the contributed funds will be allocated out to local areas, as described in proposed § 678.745.

§ 678.735 How are partner contributions determined in the State one-stop funding mechanism?

In the State-funded option proposed in §§ 678.735(a)–(b), the Governor, after consultation with State and Local Boards and CEOs, will determine the amount each partner must contribute to assist in paying the infrastructure costs of one-stop centers. The Governor must calculate amounts based on the proportionate use of the one-stop centers by each partner and other factors stated in proposed § 678.735(a). Proposed § 678.735(b) clarifies that because Native American Program grantees under part 684 of this proposed rule have a government-to-government relationship, the Governor does not determine the contribution amounts for infrastructure grants from these grantees. The Native American Programs, as required one-stop partners, must contribute to infrastructure funding, and must negotiate with the Local Board on that contribution amount. The Local Board and Native American Program grantee can ask for assistance from the State in negotiating the MOU and infrastructure cost funding, and can also consult with DOL to resolve any impasse.

Proposed § 678.735(c) includes the limitation for one-stop partners' contributions, based on a percentage of their funding allocation, from sec. 121(h)(2)(D)(ii) of WIOA. These limitations do not apply to the local one-stop funding mechanism. However, the use of a program partner's funds must meet the requirements of the program's authorizing statute, all other applicable legal requirements, and the requirements in this subpart. Proposed § 678.735(c)(1) states that the cap on WIOA formula and Wagner-Peyser required contributions will not exceed 3 percent of the amount of funds provided to carry out that program for a PY. Although WIOA sec. 121(h)(2)(D)(ii)(I) refers to a fiscal year, WIOA and Wagner-Peyser funds are provided on a PY basis (which is from July 1 through June 30 of the following year). Therefore, calculating on a fiscal year basis would cause numerous administrative difficulties, because the WIOA and Wagner-Peyser formula programs receive their appropriations at two different times during the fiscal year. This interpretation is consistent with the statute because under WIOA sec. 121(h)(1)(A)(ii) the determination of whether the State infrastructure funding mechanism will apply occurs on July 1, at the beginning of each PY.

Proposed § 678.735(c)(2) includes a clarification that the 1.5 percent cap on contribution applies to the relevant education program and employment and training program of a required one-stop partner. For instance, States receive a large block grant for delivering TANF services. The 1.5 percent cap on contributions applies to the employment and training activities under that grant, not the entire TANF grant. Proposed § 678.735(c)(3) states that the entities administering the Vocational Rehabilitation program must not be required to contribute more than a specific cap each year. In States where there are two Vocational Rehabilitation agencies (a general agency and a blind agency), the combined contribution from these programs cannot exceed the cap in the proposed rule, which is based on the total allotment to the State.

Because there is a chance that the funding amount limitations would prevent the allocation from being fully funded, proposed § 678.735(d) allows the Governor to direct the local partners to reenter negotiations to resolve the shortage in a manner that is consistent with each partner's program's authorizing laws and regulations and all other applicable legal requirements, including the Federal cost principles, or to identify alternate infrastructure funding. When local partners reenter negotiations in this situation, the new negotiations should be conducted according to the same procedure as negotiations are conducted under the local funding mechanism, as discussed in proposed § 678.715. The limitations for one-stop partners' contributions discussed in proposed § 678.735(c) do not apply to the local funding mechanism. If an agreement is still not reached, the Governor will reduce the allocation for total one-stop infrastructure funding for that local area to match the amount of available partner contributions under the cap. In implementing a one-stop infrastructure allocation by the Governor, although sec. 121(h)(3)(B) of WIOA refers to the Governor allocating out to local areas the funds provided under sec. 121(h)(1) of WIOA, which is the local funding allocation mechanism, that section as enacted would also require the Governor to allocate those funds to only the local areas that are not using the local funding mechanism. This incongruity seems a clear scrivener's error—sec. 121(h)(3)(B) was meant to instruct the Governor to apply the allocation formula developed by the State Boards only to the local areas that are not subject to an agreement under the local funding mechanism. Proposed §§ 678.730 through 678.745 reflect this interpretation.

§ 678.740 What funds are used to pay for infrastructure costs in the State one-stop infrastructure funding mechanism?

Proposed § 678.740 describes the funds that one-stop partners can use to pay for infrastructure costs. For some

partner programs, some infrastructure costs are classified as program costs under the partners' authorizing statute or implementing regulations, while other infrastructure costs are classified as administrative costs. In other partner programs, all infrastructure costs are classified as administrative costs. One-stop partner programs must follow their own program's rules in classifying costs as program or administrative costs, and must adhere to their program's administrative cost limit.

Like proposed § 678.720(a), proposed §§ 678.740(c) and (d) would give State eligible agencies responsible for title II of WIOA and the Perkins Act great flexibility in determining how to pay for infrastructure costs under the State one-stop funding mechanism. It would enable these State agencies to use Federal funds that were available for State administration of title II of WIOA or for the administration of post-secondary level programs and activities under the Perkins Act, as well as non-Federal funds that the partners contribute to meet these programs' matching or maintenance of effort requirements. Further, as with § 678.720(a), if a State eligible agency were to delegate to a local entity or a consortium of local entities authority to serve as the local one-stop partner pursuant to proposed §§ 678.415(b) and (e), the entity or consortium could contribute local administrative funds for title II of WIOA or the Perkins Act, respectively, to the infrastructure costs in lieu of a contribution from the State's administrative funds from its Federal grants to be contributed to the one-stop infrastructure costs.

The goal of providing the State agencies with this flexibility is to enable them to meet their responsibilities for paying one-stop infrastructure costs in a manner that best allows them to meet their responsibilities as one-stop partners and grantees under title II of WIOA or the Perkins Act. The Departments seek public comment on whether the proposed regulation would achieve this goal.

§ 678.745 How is the allocation formula used by the Governor determined in the State one-stop funding mechanism?

Proposed § 678.745 states that the State Board must establish an allocation formula, taking into account several requirements from WIOA 121(h)(3)(B), and the Governor will use the allocation formula to distribute funds to local areas that are opting to use the State infrastructure cost funding mechanism, so long as the distribution is consistent with the Federal cost principles for each affected partner program.

§ 678.750 When and how can a one-stop partner appeal a one-stop infrastructure amount designated by the State under the State infrastructure funding mechanism?

Proposed § 678.750 requires an appeals process, as outlined in WIOA sec. 121(h)(2)(E), to be established by the Governor and proposes similar principles regarding timely resolution as those seen under other appeals processes, such as the WIA regulations at 20 CFR 661.280. The Departments seek comments regarding the proposed State infrastructure funding mechanism, and in how local areas with existing successful infrastructure cost agreements have funded these costs and what factors contributed to local areas' success.

§ 678.755 What are the required elements regarding infrastructure funding that must be included in the one-stop Memorandum of Understanding?

Proposed § 678.755 explains what information the local areas must include about operating costs in the one-stop MOU, described in proposed § 678.500. Under the State one-stop infrastructure funding mechanism, the partner contributions will be required to be included in the MOU. Once the State infrastructure funding mechanism is triggered, and the Governor determines each partner's required funding contribution, the partners must include these in, and sign, the MOU.

§ 678.760 How do one-stop partners jointly fund other shared costs under the Memorandum of Understanding?

In addition to infrastructure, WIOA sec. 121(i)(1) requires that one-stop partners must contribute jointly to fund the cost of career services, and allows one-stop partners to jointly fund other shared services, such as intake, assessment, skill appraisals, identification of appropriate services, referrals, accommodations and other services, including business services. Shared operating costs may also include shared costs of the Local Board's functions. Under proposed § 678.760, these costs must be determined as part of the MOU described in proposed § 678.500 and be comprised of cash and noncash resources. Non-cash, or in-kind, contributions may be such resources as space, equipment, staff to deliver shared services, and other examples. The Departments expect one-stop partners to engage early with each other and the Local Board to identify services that benefit multiple populations and programs and could be jointly funded through the MOU. Such agreements improve the efficiency and effectiveness of the one-stop system, and benefit the system's customers. WIOA neither requires programs to examine if other funds are available before using program funds to pay for a service, nor does it establish requirements that any program can only be a ''payer of last resort.'' One-stop partners may jointly fund services in a manner of their choosing that meets the requirements of this part, meets the Federal cost principles, and meets the requirements of the programs' authorizing statutes and regulations.

The DOL published Financial Management Technical Assistance Guides for use under WIA that are still useful in determining reasonable cost allocation methodologies, and how to jointly fund shared activities and services. See *http://www.doleta.gov/grants/pdf/TAG_PartI.pdf* and *http://www.doleta.gov/grants/pdf/TAG_PartII_July2011.pdf.* The DOL will provide further technical assistance on this topic.

7. Subpart F—One-Stop Certification

Proposed part 678, subpart F implements the requirements in sec. 121(g) of WIOA that the Local Board certify the one-stop center every 3 years. The certification process is important to setting a minimum level of quality and consistency of services in one-stop centers across a State. The certification criteria allow States to set standard expectations for customer-focused seamless services from a network of employment, training, and related services that help individuals overcome barriers to becoming and staying employed. The Departments seek comments on how local areas can best measure the customer satisfaction of individuals who utilize American Job Centers as an aspect of effectiveness.

§ 678.800 How are one-stop centers and one-stop delivery systems certified for effectiveness, physical and programmatic accessibility, and continuous improvement?

Proposed § 678.800(a) requires that State Boards establish criteria and procedures for certification, and allows Local Boards to use additional certification factors in order to respond to labor market, economic, and demographic conditions and trends in the local area. The criteria must assess the effectiveness, physical and programmatic accessibility, and continuous improvement of one-stop

centers and the one-stop delivery systems.

Proposed § 678.800(b) sets requirements for evaluations of effectiveness, including those mandated by sec. 121(g)(2)(B)(ii) and (iii) of WIOA. States may establish further effectiveness factors, and set specific standards for program coordination or integration. Program coordination standards might include customer-focused standards such as: front desk and intake staff are trained to complete an initial assessment of a participant's needs and inform participants of the services available to them; intake forms and basic assessment tools and processes are harmonized across programs to minimize customers filling out multiple forms; and staff work in functional rather than program teams. Program coordination standards might also include operational standards such as: integrated resource teams such as those piloted in the Disability Employment Initiative or other methods are used to jointly fund services to meet the specific needs of individuals; resource rooms include high-quality up-to-date information about the services and supportive services available to individuals; Web sites and materials for the one-stop provide information about the services and supports of all partner programs; and business services teams include representatives or otherwise integrate with key partner programs and represent the center as a whole. This paragraph also emphasizes the importance of maximizing access to services to all customers, particularly outside regular business hours. Access to services can be through a physical one-stop location, but can also be through online or phone access as discussed in the § 678.300(e) definition of ''direct linkage,'' as long as services are equally available to all customers, including those with disabilities. The Departments seek input on other important factors in making one-stop centers operate more efficiently and effectively, both for consideration as one-stop certification criteria and for general program implementation and management.

Proposed paragraph § 678.800(c) describes evaluations of continuous improvement, including those mandated by sec. 121(g)(2)(B)(i) of WIOA. Continuous improvement requires local areas and one-stop centers to collect, analyze and use several types of data, from customer satisfaction and feedback to program and performance data. Professional development is a key feature of any continuous improvement loop, in order to ensure that staff are aware of the implications of recent evidence-based research, and can implement the latest policies and procedures established at the local, State and Federal levels.

Proposed § 678.800(d) describes how Local Boards apply the certification criteria, including that Local Boards must assess the one-stop centers at least once every 3 years. This section also requires that any additional local criteria be reviewed and updated as part of the biennial review and modification process for updating local plans. This provision also explains that this certification must be completed for one-stop centers to be eligible to receive infrastructure funds in the State infrastructure funding mechanism, as required by sec. 121(g)(4) of WIOA.

Proposed § 678.800(e) emphasizes that all one-stops must be physically and programmatically accessible. The requirements related to accessibility are set forth in the regulations implementing WIOA sec. 188, at 29 CFR part 37.

In addition to complying with the applicable architectural and programmatic accessibility requirements of the proposed regulations, one-stop centers and Boards may wish to consider the use of ''universal design,'' which designs inclusive space and materials to be available to individuals regardless of their range of abilities, mobility, age, language, learning style, intelligence, or educational level. Improved availability, a welcoming atmosphere, inclusive settings, and high quality customer service benefit all customers. Extensive technical assistance is available at *www.ada.gov*, and *www.lep.gov*. The Departments recommend that State Boards and Local Boards engage early with relevant Equal Opportunity officers in establishing the criteria for determining compliance with accessibility standards and other requirements related to providing equal opportunity, particularly for persons with disabilities.

8. Subpart G—Common Identifier

The proposed regulation in subpart G promotes increased public identification of the one-stop delivery system through use of a common identifier across the nation, consistent with sec. 121(e)(4) of WIOA.

§ 678.900 What is the common identifier to be used by each one-stop delivery system?

Proposed § 678.900(a) designates the name ''American Job Center'' as the common identifier for the one-stop delivery system. This designation was made by the Secretaries after consulting with the heads of other appropriate departments and agencies, representatives of State Boards and Local Boards, and other stakeholders in the one-stop delivery system. As part of this consultation process, DOL engaged in a series of town hall meetings with State workforce agencies, and State and Local Workforce Boards, conducted in September and October 2014, in various cities across the country. In addition, two webinars were conducted on November 14 and December 9 with various stakeholders, including State agencies, State and Local Workforce Boards, and one-stop partners, and were open to the public. The topic of the webinar was dedicated solely to the topic of the common identifier for the one-stop delivery system. The DOL has also consulted with other departments and agencies, specifically ED and the Department of Health and Human Services (HHS). The Departments also specifically request that the public or any interested stakeholder provide feedback and input as comments on the proposed ''American Job Center'' common identifier designation.

''American Job Center'' is the common identifier that is currently being used by several one-stop delivery systems; furthermore, it has been promoted by the DOL and used by other Federal agencies since the issuance of Training and Employment Guidance Letter (TEGL) No. 36–11 on June 14, 2012. Continued use of the identifier ''American Job Center'' will avoid the confusion of implementing a new common identifier; and several State and Local Boards have already begun incorporating the identifier in their products, materials, Web sites, and facilities. The Departments continue to seek feedback on the name and associated logo as part of the proposed rulemaking process.

Proposed § 678.900(b) requires the use of ''American Job Center'' or the tagline ''a proud partner of the American Job Center network'' on all one-stop delivery system products, programs, activities, services, facilities, and related property and materials to help inform system users that the products, programs, activities, services, facilities, and related property and materials are provided by and through the publically funded one-stop delivery system. The Departments will issue templates and designs of a logo, phrase, or other material for the one-stop delivery system to use to associate this common identifier with the system. Local Boards should immediately start the process of incorporating the identifier on products, programs, activities, services, and related and materials. Incorporating the identifier on facilities and related

property may take time. Local Boards may start the process of incorporating the identifier on facilities and property anytime, but must start this process at the time these regulations are published as a final rule, and fully implement the requirements listed in the final rule within PY 2016.

Proposed paragraph § 678.900(c) allows the use of additional identifiers, per sec. 121(e)(4) of WIOA.

V. Rulemaking Analyses and Notices

A. Executive Orders 12866 and 13563: Regulatory Planning and Review

Executive Order (E.O.) 12866 directs agencies, in deciding whether and how to regulate, to assess all costs and benefits of available regulatory alternatives, including the alternative of not regulating. E.O. 13563 is supplemental to and reaffirms E.O. 12866. It emphasizes the importance of quantifying present and future benefits and costs; directs that regulations be adopted with public participation; and, where relevant and feasible, directs that regulatory approaches be considered that reduce burdens, harmonize rules across agencies, and maintain flexibility and freedom of choice for the public. Costs and benefits are to include both quantifiable measures and qualitative assessments of possible impacts that are difficult to quantify. If regulation is necessary, agencies should select regulatory approaches that maximize net benefits. OMB determines whether a regulatory action is significant and, therefore, subject to review.

Section 3(f) of E.O. 12866 defines a ''significant regulatory action'' as any action that is likely to result in a rule that may:

(1) Have an annual effect on the economy of $100 million or more or adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities;

(2) Create a serious inconsistency or otherwise interfere with an action taken or planned by another agency;

(3) Materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of recipients thereof; or

(4) Raise novel legal or policy issues arising from legal mandates, the President's priorities, or the principles set forth in E.O. 12866.

Summary of the analysis. The Departments provide the following summary of the regulatory impact analysis:

(1) The proposed joint rule is a ''significant regulatory action'' under section 3(f)(4) of E.O. 12866 and accordingly, OMB has reviewed the proposed rule.

(2) The proposed joint rule would have no cost impact on small entities.

(3) The proposed joint rule would not impose an unfunded mandate on Federal, State, local, or tribal governments as defined by the Unfunded Mandates Reform Act of 1995.

In total, the Departments estimate that this joint NPRM would have an average annual cost of $147,128,434 and a total 10-year cost of $1,154,622,032 (with 7-percent discounting). The largest contributor to the cost is the requirement related to evaluation of State programs, followed by the development of strategies to align technology and data systems across one-stop partner programs.

The Departments were unable to quantify estimates of several important benefits to society due to data limitations or lack of existing data or evaluation findings on particular items. Based on a review of empirical studies (primarily studies published in peer-reviewed academic publications and studies sponsored by the Departments), the Departments identified a variety of societal benefits: (1) Training services increase job placement rates; (2) participants in occupational training experience higher reemployment rates; (3) training is associated with higher earnings; and (4) State performance accountability measures, in combination with the Board membership provision requiring employer/business representation, can be expected to improve the quality of the training and, ultimately, the number and caliber of job placements. The Departments identified several channels through which these benefits might be achieved, including: (1) Better information about training providers will enable workers to make better-informed choices about programs to pursue; and (2) enhanced services for dislocated workers, self-employed individuals, and workers with disabilities will lead to the benefits discussed above.

The Departments request comment on the costs and benefits of this NPRM with the goal of ensuring a thorough consideration and discussion at the final rule stage.

1. Need for Regulation

Section 503(f)(1) of WIOA requires publication of proposed implementation regulations. Implementing regulations are necessary in order for WIOA to be efficiently and effectively operated and such regulations will provide Congress and others with uniform information necessary to evaluate the outcomes of the new workforce law.

2. Alternatives in Light of the Required Publication of Proposed Regulations

OMB Circular A–4, which outlines best practices in regulatory analysis, directs agencies to analyze alternatives outside the scope of their current legal authority if such alternatives best satisfy the philosophy and principles of E.O. 12866. While WIOA provides little regulatory discretion, the Departments assessed, to the extent feasible, alternatives to the proposed regulations.

In this NPRM, the Departments considered significant alternatives to accomplish the stated objectives of WIOA while also attempting to minimize any significant economic impact of the proposed rule on small entities. This analysis considered the extent to which WIOA's prescriptive language presented any regulatory options that also would allow for achieving the statute's articulated programmatic goals. In many instances, the Departments have reiterated WIOA's language in the regulatory text and expansions are offered for clarification and guidance to the regulated community. The additional regulatory guidance should create more efficient administration of the program by reducing ambiguities and subsequent State and local revisions as a result of unclear statutory language.

In addition, the Departments considered and, where feasible, proposed to issue sub-regulatory guidance in lieu of additional regulatory requirements. This policy option has two primary benefits to small entities. First, guidance will be issued following publication of the rules, thereby allowing States, local areas, and small entities additional time to prepare their compliance efforts. Second, this level of guidance is more flexible in nature allowing for faster modifications and any subsequent issuances, as necessary.

The Departments considered three possible alternatives:

(1) To implement the legislative changes prescribed in WIOA, as noted in this NPRM, thereby satisfying the legislative mandate; or

(2) To take no action, that is, to attempt to implement WIOA utilizing existing Workforce Investment Act (WIA) regulations; or

(3) To not publish any regulation and rescind existing WIA regulations, thereby ignoring the WIOA statutory requirement to publish implementing regulations and, thus forcing the regulated community to follow statutory language for implementation and compliance purposes.

The Departments considered these three options in accordance with the provisions of E.O. 12866 and chose to publish the WIOA NPRM, *i.e.,* the first alternative. The Departments considered the second alternative, *i.e.,* retain existing WIA regulations as the guide for WIOA implementation, but WIOA has changed WIA's requirements substantially enough that new implementing regulations are necessary in order for the workforce system to achieve compliance. The Departments considered the third alternative, *i.e.,* to not publish an implementing regulation and rescind existing WIA regulations, but rejected it because this option, in and of itself, does not provide sufficient detailed guidance to effectively implement the statutory requirements. Thus, regulations are necessary to achieve program compliance.

In addition to the regulatory alternatives noted above, the Departments also considered whether certain aspects of WIOA could be phased-in over a prescribed period of time (different compliance dates), thereby allowing States and localities additional time for planning and successful implementation. As a policy option, this alternative appears appealing in a broad theoretical sense and, where feasible, the Departments have recognized and made allowances for different schedules of implementation. However, upon further discussion and in order to begin to achieve the intended legislative benefits of WIOA, additional implementation delays beyond those noted in this NPRM may create potentially more issues than the benefit of alternative starting dates. Specifically, many critical WIOA elements follow upon the implementation of other provisions and, therefore, discussions around delaying aspects became quite complicated. The interrelatedness of WIOA's requirements suggested that the alternative of delaying aspects was not operationally feasible.

Furthermore, the data necessary to fully review this option does not yet exist and will not until Local Workforce Development Boards (WDBs) conduct procurements and announce awards. Similarly, performance standards will be negotiated at a future time and based on a variety of factors including State and local economic conditions, resources, and priorities. Establishing proposed standards in advance of this statutorily-defined process may not be an efficient or effective action. The enforcement methods described in the proposed joint rule are a reflection of prescribed WIOA requirements and entity size should not in and of itself create alternative methods for compliance or different time periods for achieving compliance. Although the Departments have not determined sufficiently valid reasons for altering compliance timeframes in addition to those described in the proposed rule for small entities, we seek comment on this issue.

The Departments' initial impact analysis has concluded that by virtue of WIOA's prescriptive language, particularly the requirement to publish implementing regulations within 180 days, there are no viable regulatory alternatives available other than those discussed above.

The Departments request comment on these or other alternatives, including alternatives on the specific proposed provisions contained in this NPRM, with the goal of ensuring a thorough consideration and discussion at the final rule stage.

3. Analysis Considerations

The Departments derived their estimates by comparing the existing baseline, *i.e.,* the benefits and costs associated with current practices, which at a minimum, must comply with the 2000 WIA Final Rule (65 FR 49294, Aug. 11, 2000), against the additional benefits and costs associated with implementation of the provisions contained in this WIOA-required joint NPRM.

For a proper evaluation of the additional benefits and costs of this NPRM, the Departments explain how the required actions of States, WDBs, employers and training entities, government agencies, and other related entities are linked to the expected benefits and estimated costs. The Departments also considered, when appropriate, the unintended consequences of the proposed regulations introduced by this NPRM. The Departments make every effort, when feasible, to quantify and monetize the benefits and costs of the joint NPRM. The Departments were unable to quantify the benefits associated with the proposed rule because of data limitations and a lack of operational data or evaluation findings on the provisions of the proposed rule or WIOA in general. Therefore, the Departments describe the benefits qualitatively. The Departments followed the same approach when we were unable to quantify the costs.

Throughout the benefit-cost analysis, the Departments made every effort to identify and quantify all potential incremental costs associated with the implementation of WIOA as distinct from what already exists under WIA, WIOA's predecessor statute. Despite our best estimation efforts, however, the Departments might be double-counting some activities that are already happening under WIA. Thus, the costs itemized below represent an upper bound of the potential cost of implementing the statute. The Departments request comment on our cost estimates, specifically in terms of whether we have accurately captured the additional costs associated with implementation of WIOA.

In addition to this joint NPRM, the Departments plan to propose separate NPRMs to implement program-specific requirements of WIOA that fall under each Department's purview; see the Executive Summary section of this NPRM for details. While the Departments acknowledge that these proposed rules and their associated impacts are not wholly independent from one another, we are unaware of any reliable method of quantifying the effects of this interdependence. Therefore, this analysis does not capture the correlated impacts of the benefits and costs of this proposed joint rule and those associated with the other NPRMs. The Departments have made an effort to ensure there are no duplication of costs and benefits between this and the other NPRMs. We request comments from the public about the appropriateness of this assumption.

In accordance with the regulatory analysis guidance contained in OMB Circular A–4 and consistent with the Departments' practices in previous rulemakings, this regulatory analysis focuses on the likely consequences (benefits and costs that accrue to citizens and residents of the United States) of this WIOA-required NPRM. The analysis covers 10 years (2015 through 2024) to ensure it captures major additional benefits and costs that accrue over time. The Departments express all quantifiable impacts in 2013 dollars and use 3-percent and 7-percent discounting following OMB Circular A–4.

Exhibit 1 presents the estimated number of entities expected to

[1] Based on internal Department of Education data. This figure includes the 50 States, the District of Columbia, American Samoa, Guam, the Northern Mariana Islands, Puerto Rico, the U.S. Virgin Islands, and Palau.

[2] Based on internal Department of Labor data. This figure includes the 50 States, the District of Columbia, American Samoa, Guam, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands.

[3] Pursuant to sec. 7(34) of the Rehabilitation Act of 1973, as amended, this figure includes the 50 States, the District of Columbia, American Samoa, Guam, the Northern Mariana Islands, Puerto Rico,

Continued

experience an increase in level of effort (workload) due to the proposed regulations contained in this joint NPRM. These estimates are provided by the Departments and are used extensively throughout this analysis to calculate the estimated cost of each proposed provision.

EXHIBIT 1—NUMBER OF AFFECTED ENTITIES BY TYPE

Entity type	Number of entities
States impacted by Adult Education and Family Literacy Act (AEFLA) program requirements	[1] 57
States impacted by DOL program requirements	[2] 56
States impacted by Vocational Rehabilitation (VR) program requirements	[3] 56
States that need to develop and disseminate best practices	40
States that need low effort to implement software/IT systems	20
States that need high effort to implement software/IT systems	15
Workforce Development Boards	580

Transfer Payments

The Departments provide an assessment of transfer payments associated with transitioning the nation's public workforce system from the requirements of WIA to new requirements imposed by WIOA. In accordance with OMB Circular A–4, the Departments consider transfer payments as payments from one group to another that do not affect total resources available to society. For example, under both WIA and WIOA, financial transfers via formula grants will be made from the Federal government to the States and from the States to Local WDBs, as appropriate. In accordance with the State allotment provisions required by WIOA sec. 127, the interstate funding formula methodology is not significantly different than that utilized for the distribution of funds under WIA.[4] Final program year grant allocations will reflect WIOA requirements and are under development.

One example of where impacts are discussed qualitatively, rather than quantified, concerns the expectation that available U.S. workers trained and hired who were previously unemployed will no longer need to seek new or continued unemployment insurance benefits. Assuming other factors remain constant, the Departments expect State unemployment insurance expenditures to decline because of the hiring of U.S. workers following WIOA implementation. The Departments, however, cannot quantify these transfer payments due to a lack of adequate data.

In the subject-by-subject analysis, the Departments present the additional labor and other costs associated with the implementation of each of the proposed provisions in this NPRM. Exhibit 2 presents the compensation rates for the occupational categories expected to experience an increase in level of effort (workload) due to the proposed rule. The Departments used wage rates from the Bureau of Labor Statistics' Mean Hourly Wage Rate for private and State and local employees.[5] The Departments also used wage rates from the Office of Personnel Management's Salary Table for the 2013 General Schedule for Federal employees.[6] The Departments adjusted the wage rates using a loaded wage factor to reflect total compensation, which includes health and retirement benefits. For the State and local sectors, the Departments used a loaded wage factor of 1.55, which represents the ratio of total compensation [7] to wages.[8] For Federal employees, we used a loaded wage factor of 1.69 based on internal data from DOL. The Departments then multiplied the loaded wage factor by each occupational category's wage rate to calculate an hourly compensation rate.

The Departments invite comments regarding the assumptions used to estimate the level of additional effort required for the various proposed new activities, as well as data sources for the wages and the loaded wage factors that reflect employee benefits used in the analysis.

The Departments use the hourly compensation rates presented in Exhibit 2 throughout this analysis to estimate additional labor costs for each proposed provision.

and the Virgin Islands. Twenty-four States have two designated State agencies for the VR program; therefore, there are a total of 80 VR agencies. The Departments note particularly that we have sought to avoid duplication of costs, given the fact that some States have two VR agencies.

[4] States may elect to change the distribution of funds at the local level and appropriately document such changes in the State plans. However, as small entities are fully funded by the States, which are not small entities, the Departments do not anticipate any significant impact on small entities.

[5] Bureau of Labor Statistics, May 2013, National Occupational Employment and Wage Estimates, retrieved from: *http://www.bls.gov/oes/current/oes_nat.htm*.

[6] The wage rate for Federal employees is based on Step 5 of the General Schedule (source: OPM, 2013, Salary Table for the 2013 General Schedule, retrieved from: *http://www.opm.gov/policy-data-oversight/pay-leave/salaries-wages/2013/general-schedule/gs_h.pdf*).

[7] BLS Employment Cost Index, 2013 Average Series ID CMU3010000000000D, CMU3010000000000P (source: Bureau of Labor Statistics, 2013 Employer Costs for Employee Compensation, retrieved from: *http://www.bls.gov/schedule/archives/ecec_nr.htm*).

[8] The State and local loaded wage factor was applied to all non-Federal employees. Discerning the number of State and local-sector employees and private-sector employees at the local level is difficult; therefore, the Departments used the State and local-sector loaded wage factor (1.55) instead of the private-sector wage factor (1.42) for all non-Federal employees to avoid underestimating the costs.

EXHIBIT 2—CALCULATION OF HOURLY COMPENSATION RATES

Position	Grade level	Average hourly wage	Loaded wage factor	Hourly compensation rate
		a	B	c = a × b
State and Local Employees				
Administrative staff [9]	N/A	$17.96	1.55	$27.84
Board staff [10]	....	45.32	1.55	70.25
Legal counsel/staff [11]	....	40.68	1.55	63.05
Local stakeholders [12]	....	44.52	1.55	69.01
Managers [11]	....	45.32	1.55	70.25

Federal Employees				
Federal positions	GS–13	38.92	1.69	65.77

The section-by-section analysis presents the total incremental cost of the proposed joint rule relative to the baseline, *i.e.,* the current practice under WIA. At a minimum, all affected entities are currently required to comply with the 2000 WIA Final Rule (65 FR 49294, Aug. 11, 2000); however, some affected entities may already be in compliance with aspects of the proposed joint rule. This analysis estimates the incremental cost that would be incurred by affected entities that are not yet in compliance with the proposed rule. The equation below shows the method by which the Departments calculated the incremental total cost for each provision over the 10-year analysis period.

$$\text{Total Cost} = \sum_{T=1}^{10}\left(A_l \sum_{i=1}^{n}(\mathrm{N_i} \text{ x } \mathrm{H_i} \text{ x } \mathrm{W}_i \text{ x } \mathrm{L}_i) + \sum_{j=1}^{m} \mathrm{A_j} \text{ x } \mathrm{C_j}\right)$$

Where,

A_l = Number of affected entities that would incur labor costs,

N_i = Number of staff of labor type *i,*

H_i = Hours required per staff of labor type *i,*

W_i = Mean hourly wage of staff of labor type *i,*

L_i = Loaded wage factor of staff of labor type *i,*

A_j = Number of affected entities incurring non-labor costs of type *j,*

C_j = Non-labor cost of type *j,*

i = Staff type,

n = Number of staff types,

j = Non-labor cost type,

m = Number of non-labor cost types,

T = Year.

The total cost of each provision is calculated as the sum of the total labor cost and total non-labor cost incurred each year over the 10-year period (see Exhibit 3 for a summary of the 10-year cost of the proposed joint rule by provision). The total labor cost is the sum of the labor costs for each labor type *i* (*e.g.,* administrative staff, counsel staff, and managers) multiplied by the number of affected entities that will incur labor costs, A_l. The labor cost for each labor type *i* is calculated by multiplying the number of staff required to perform the proposed activity, N_i; the hours required per staff member to perform the proposed activity, H_i; the mean hourly wage of staff of labor type *i,* W_i; and the loaded wage factor of staff of labor type i, L_i. The total non-labor cost is the sum of the non-labor costs for each non-labor cost type *j* (*e.g.,* consulting costs) multiplied by the number of affected entities that will incur non-labor costs, A_j.

4. Subject-by-Subject Benefit-Cost Analysis

The Departments' analysis below covers the expected impacts of the following proposed provisions of the WIOA joint NPRM against the baseline of the current practice under WIA: (a) Time to Review the New Rule; (b) New Elements to State and Local Plans; (c) Development and Updating of State Performance Accountability Measures; (d) Identification and Dissemination of Best Practices; (e) Development of Strategies for Aligning Technology and Data Systems across One-stop Partner Programs to Enhance Service Delivery and Improve Efficiencies; (f) Unified or Combined State Plan; (g) Local Plan Revisions; (h) State Performance Accountability Measures; (i) Performance Reports; and (j) Evaluation of State Programs.

The Departments emphasize that many of the proposed provisions in this WIOA-required joint NPRM are also existing requirements under WIA. For example, the requirement that States ''prepare performance reports'' is a current requirement under WIA that States routinely undertake. Accordingly, our regulatory analysis focuses on ''new'' benefits and costs that can be attributed exclusively to new requirements under WIOA, as addressed in this joint NPRM. Much of WIA's infrastructure and operations are carried

[9] BLS OES, May 2013, 44–0000 Office and Administrative Support Occupations (*http://www.bls.gov/oes/current/999201.htm#43-0000*).

[11] BLS OES, May 2013, 23–10111 Lawyers (*http://www.bls.gov/oes/current/999201.htm#23-0000*).

[12] BLS OES, May 2013, 11–0000 Management Occupations (*http://www.bls.gov/oes/current/999201.htm#11-0000*).

[13] BLS OES, May 2013, average for the following occupational categories weighted by the number of employees in State government: 15–1131 Computer Programmers (*http://www.bls.gov/oes/current/999201.htm#15-0000*); 15–1132 Software Developers, Applications (*http://www.bls.gov/oes/current/999201.htm#15-0000*); 15–1133 Software Developers, Systems Software (*http://www.bls.gov/oes/current/999201.htm#15-0000*); and 15–1134 Web Developers (*http://www.bls.gov/oes/current/999201.htm#15-0000*).

forward under WIOA and, therefore, are not considered ''new'' cost burdens under this NPRM.

a. Time To Review the New Rule

Upon publication of this joint NPRM, the regulated community would need to learn about the new WIOA requirements, including the proposed regulations, and plan for compliance.

Costs

At the State level for DOL programs, the Departments estimated this labor cost by multiplying the estimated average number of managers per State (2) by the time required to read and review the new rule (20 hours), and then by the applicable hourly compensation rate. We multiplied this product ($8,189) by the number of States (56) to estimate this one-time cost of $458,582.[14]

At the State level for the AEFLA program, the Departments estimated this labor cost by multiplying the estimated average number of managers per State (5) by the time required to read and review the new rule (40 hours) and then by the applicable hourly compensation rate. We performed the same calculation for the following occupational categories: counsel staff (1 legal counsel for 40 hours), technical staff (2 staff for 40 hours), and administrative staff (5 staff for 40 hours). We summed the labor cost for all four categories ($27,518) and multiplied the result by the number of States (57) to estimate this one-time cost of $1,568,531.

At the local level for the AEFLA program, the Departments multiplied the estimated average number of managers for all local entities within a State (40) by the time required to read and review the new rule (40 hours) and then by the hourly compensation rate. We repeated the calculation for the technical (40 staff for 40 hours) and administrative staff (40 staff for 40 hours). We did not estimate legal counsel hours for local level AEFLA programs as our experience indicates that this labor category is typically engaged only at the State level. We summed the labor cost for all three categories of personnel ($264,517) and multiplied the result by the number of States (57). This calculation yields a total of $15,077,458 in labor costs in the first year of the rule.

For State VR agencies, the Departments multiplied the estimated number of managers per VR agency (3) by the time required to read and review the new rule (20 hours) and then by the hourly compensation rate. We performed the same calculation for the counsel (1 staff for 40 hours) and technical staff (1 staff for 20 hours). We summed the labor cost for all three categories ($6,821) and multiplied the result by the number of VR agencies (80). The one-time cost is estimated to be $545,650.

The sum of these costs yields a total one-time cost of $17,650,220 for individuals from State-level DOL programs, State and local level AEFLA programs, and State VR agencies to read and review the proposed new rule. Over the 10-year period of analysis these one-time costs result in an average annual cost of $1,765,022.

b. New Elements to State and Local Plans

WIOA sec. 102(b) establishes new major content areas of the Unified or Combined State Plan, which include strategic and operational planning elements. Strategic planning elements include State analyses of economic and workforce factors, an assessment of workforce development activities, and formulation of the State's vision and goals for preparing an educated and skilled workforce that meets the needs of employers and a strategy to achieve the vision and goals. Operational planning elements include State strategy implementation, State operating systems and policies, program-specific requirements, assurances, and additional requirements imposed by the Secretaries of Labor or Education, or other Secretaries, as appropriate. WIOA sec. 108(b) establishes strategic planning and operational elements for local plans. These requirements set the foundation for WIOA principles by fostering strategic alignment, improving service integration, and ensuring that the workforce system is industry-relevant, responding to the economic needs of the local workforce development area, and matching employers with skilled workers.

Costs

At the State level for the AEFLA program, the Departments estimated this labor cost by multiplying the estimated average number of managers per State (5) by the time required to develop, review, and revise the State Plan (40 hours) and the hourly compensation rate. We performed the same calculation for the following occupational categories: counsel staff (1 staff for 20 hours), technical staff (2 staff for 40 hours), and administrative staff (5 staff for 20 hours). We summed the labor cost for all four categories ($23,473) and multiplied the result by the number of States (57) to estimate this biennial cost of $1,337,972. Over the 10-year period, this calculation yields an average annual cost of $668,986.

The Departments estimated the consultant costs for the State-level AEFLA program by multiplying the consultant costs per State ($25,000) by the number of States (57). This calculation yields a biennial cost of $1,425,000. Over the 10-year period, this results in an average annual cost of $712,500.

At the local level for the AEFLA program, the Departments estimated this cost by multiplying the estimated average number of managers for all local entities within a State (40) by the time required to develop, review, and revise the local plan (40 hours) and the hourly compensation rate. We repeated the calculation for the administrative staff (40 staff for 20 hours). We did not estimate any legal counsel or technical staff hours for local level AEFLA programs as our experience indicates that these labor categories are typically engaged only at the State level. We summed the labor cost for the two occupational categories ($134,664) and multiplied the result by the number of States (57). The biennial cost at the local level for the AEFLA program is estimated to be $7,675,848, which would result in an average annual cost of $3,837,924 over the 10-year period.

For State VR agencies, the Departments estimated this cost by first multiplying the estimated number of managers per VR agency (1) by the time required to review and revise the State Plan (5 hours) and the hourly compensation rate. We performed the same calculation for the technical staff (1 staff for 5 hours). Summing the labor cost for both categories ($687) and multiplying the result by the number of VR agencies (80) results in a biennial cost of $54,994 for State VR agencies. Over the 10-year period, this calculation yields an average annual cost of $27,497.

For State Boards, DOL estimates that there will be costs associated with State planning attributed to the extra effort to coordinate and develop a plan between the six core programs administered by the Departments of Education and Labor, respectively, which is a new requirement under WIOA. The Departments estimate the costs for this new requirement to coordinate among the six core programs in the State plan under (f) Unified or Combined State Plan and (g) Local Plan Revisions. WIOA requires more substantial labor market information (LMI) data be included in the State Plan than was required under WIA. This is a cost that

[14] The cost estimates in this analysis could be a little bit off due to rounding.

DOL estimates will impact the State level DOL core programs because the State typically provides the LMI data to local areas for the formulation of the local plan. Furthermore, WIOA will allow States to use existing data for their initial State Plan, so the additional cost will be offset substantially for the first State Plan required. For the required modification of State Plans and any subsequent State Plan under WIOA, the State will incur this cost to include substantial LMI data.

For State-level DOL programs, the Departments estimated this cost by first multiplying the estimated number of technical staff per State (2) by the time required to review and revise the State Plan (16 hours) and the hourly compensation rate. We performed the same calculation for administrative staff (1 staff for 16 hours). Summing the labor cost for both categories ($2,597) and multiplying the result by the number of States (56) results in an annual cost of $145,435.

The sum of these costs yields a total 10-year cost of $53,923,423, or an average annual cost of $5,392,342, for individuals from the State and local level for all core programs to review and revise State and local plans to ensure they include the new elements.

c. Development and Updating of State Performance Accountability Measures

WIOA sec. 116 establishes performance accountability indicators and performance reporting requirements to assess the effectiveness of States and local areas in achieving positive outcomes for individuals served by the core programs. The core programs are defined in WIOA sec. 116(b)(3)(A)(ii) to include the adult, dislocated worker, and youth programs under title I of WIOA, the AEFLA program under WIOA title II, the Wagner-Peyser program under the Wagner-Peyser Act as amended by WIOA title III, and the VR program under the Rehabilitation Act of 1973 as amended by WIOA title IV. With a few exceptions, including the local accountability system under WIOA sec. 116(c), the performance accountability requirements apply across all the core programs.

Costs

At the State level for DOL programs, the Departments estimated this labor cost by first multiplying the estimated average number of managers per State (1) by the time required to develop and update metrics and other accountability measures (32 hours) and the hourly compensation rate. We performed the same calculation for the technical (3 staff for 80 hours) and administrative staff (1 staff for 32 hours). We summed the labor cost for all three categories ($19,276) and multiplied the result by the number of States to estimate this annual cost of $1,079,459, or a total cost of $10,794,587 over the 10-year period.

The Departments estimated the software and IT system cost for State-level DOL programs by multiplying the software and IT system cost ($100,000) by the number of States. This calculation yields an annual cost of $5,600,000 or a total cost of $56,000,000 over the 10-year period.

The Departments estimated the licensing fee costs for State-level DOL programs by multiplying the licensing fee costs ($50,000) by the number of States. This calculation yields an annual cost of $2,800,000 or a total cost of $28,000,000 over the 10-year period.

The Departments estimated the consultant cost for State-level DOL programs by multiplying the consultant cost ($75,000) by the number of States. This calculation yields a one-time cost of $4,200,000, representing an average annual cost of $420,000 over the 10-year period.

At the State level for the AEFLA program, the Departments estimated this labor cost by first multiplying the estimated average number of managers per State (5) by the time required to develop and update metrics and other accountability measures (80 hours) and the hourly compensation rate. We repeated the calculation for the technical staff (2 staff for 80 hours) and administrative staff (5 staff for 80 hours). We summed the labor cost for all three categories ($49,992) and multiplied the result by the number of States to estimate this one-time cost of $2,849,535. Over the 10-year period, this calculation yields an average annual cost of $284,954.

The Departments estimated the consultant cost for the State-level AEFLA program by multiplying the consulting costs per State ($25,000) by the number of States. This calculation yields a one-time cost of $1,425,000. Over the 10-year period, this calculation yields an average annual cost of $142,500.

At the local level for the AEFLA program, the Departments estimated this cost by first multiplying the estimated average number of managers for all local entities within a State (40) by the time required to participate in statewide stakeholder meetings and other activities to provide input for the development and updating of metrics and other accountability measures (80 hours) and the hourly compensation rate. We performed the same calculation for the technical staff (40 staff for 80 hours). We summed the labor cost for the two occupational categories ($439,952) and multiplied the result by the number of States to estimate this one-time cost of $25,077,264. Over the 10-year period, this calculation yields an average annual cost of $2,507,726.

For State VR agencies, the Departments estimated this cost by first multiplying the estimated number of managers per VR agency (6) by the time required to develop and update metrics and other accountability measures (10 hours) and the hourly compensation rate. We repeated the calculation for the technical staff (4 staff for 10 hours). We summed the labor cost for both categories ($6,904) and multiplied the result by the number of VR agencies to estimate this one-time cost as $552,346.

The sum of these calculations yields a total first year costs of $43,583,603 and a subsequent annual cost of $9,479,459 for individuals from the State and local level for all core programs to develop and update metrics and other accountability measures to assess the effectiveness of the core programs in the State. The estimated total 10-year cost of developing and updating State performance accountability measures is $128,898,731, resulting in average annual cost of $12,889,873.

d. Identification and Dissemination of Best Practices

Under WIOA sec. 101(d)(5), State Boards must assist Governors in the identification and dissemination of best practices, including practices for the effective operation of one-stop centers; the development of effective Local Boards; and the development of effective training programs that respond to real-time labor market analysis and support efficient placement of individuals into employment or career pathways.

Costs

The Departments estimated the labor cost for State WDB staff by multiplying the estimated average number of managers per State (1) by the time required to identify and disseminate information (20 hours) and the hourly compensation rate. We performed the same calculation for the technical staff (2 staff for 40 hours) and administrative staff (1 staff for 20 hours). We summed the labor cost for all three categories ($7,341) and multiplied the result by the number of States that need to develop and disseminate best practices (40) to estimate an average annual cost of $293,632.

This cost is likely a lower bound estimate because we did not include the

effort required for the entities that receive the best practices to implement them. The Departments did not have adequate data to estimate this implementation cost and invites the public to submit data sources or estimates for consideration during the final rule stage.

e. Development of Strategies for Aligning Technology and Data Systems Across One-Stop Partner Programs To Enhance Service Delivery and Improve Efficiencies

Under WIOA sec. 101(d)(8), State Boards must assist Governors in the development of strategies for aligning technology and data systems across one-stop partner programs to enhance service delivery and improve efficiencies in reporting on performance accountability measures, including design implementation of common intake, data collection, case management information, and performance accountability measurement and reporting processes and the incorporation of local input into such design and implementation to improve coordination of services across one-stop partner programs.

Costs

At the State level for the AEFLA program, the Departments estimated this labor cost by first multiplying the estimated average number of managers per State (5) by the time required to develop strategies (40 hours) and the hourly compensation rate. We performed the same calculation for the technical staff (2 staff for 120 hours) and administrative staff (5 staff for 40 hours). We summed the labor cost for all three categories ($35,754) and multiplied the result by the number of States to estimate a recurring annual cost of $2,037,987.

The Departments estimated the software and IT systems cost for the State-level AEFLA program by multiplying the software and IT systems costs per State ($150,000) by the number of States. This calculation yields an estimated recurring annual cost of $8,550,000.[15]

At the local level for the AEFLA program, the Departments estimated this cost by first multiplying the estimated average number of managers for all local entities within a State (40) by the time required to develop strategies (40 hours) and the hourly compensation rate. We performed the same calculation for the technical staff (40 staff for 120 hours). We summed the labor cost for the two occupational categories ($435,141) and multiplied the result by the number of States to estimate a recurring annual cost of $24,803,026.

For State VR agencies, the Departments estimated this cost by first multiplying the estimated number of managers per VR agency (1) by the time required to develop strategies (8 hours) and the hourly compensation rate. We repeated the calculation for the legal staff (1 staff for 4 hours) and technical staff (1 staff for 16 hours). We summed the labor cost for the two categories ($1,890) and multiplied the result by the number of VR agencies to estimate a recurring annual cost of $151,201.

The Departments estimated the labor cost that State WDBs would incur by multiplying the estimated average number of WDB staff per State (1) by the time required to develop strategies (80 hours) and the hourly compensation rate. We repeated the calculation for the technical staff (2 staff for 120 hours). We summed the labor cost for both categories ($21,757) and multiplied the result by the number of States to estimate this one-time cost of $1,218,394.

The sum of these calculations yields a first year cost of $36,760,608 with subsequent annual costs of $35,542,213 for individuals from the State and local level for all core programs to develop strategies for aligning technology and data systems across one-stop partner programs. The estimated total 10-year cost of developing and updating State performance accountability measures is $356,640,528, resulting in average annual cost of $35,664,053.

f. Unified or Combined State Plan

WIOA sec. 102 requires the Governor of each State to submit a Unified or Combined State Plan to the Secretary of the Department of Labor that outlines a 4-year strategy for the State's workforce development system. States must have approved State Plans in place to receive funding for the six core programs under WIOA—the adult, dislocated worker, and youth programs (title I of WIOA); the AEFLA program (title II of WIOA); the Wagner-Peyser Employment Service (Wagner-Peyser Act as amended by title III of WIOA); and the VR program under title I of the Rehabilitation Act of 1973 (as amended by title IV of WIOA). At a minimum, States must submit a Unified State Plan, which encompasses these six core programs. Although each of the core programs was required to submit State Plans under WIA and, thus, the submission of the plans does not represent an added cost under WIOA, some programs may experience additional costs related to the planning requirements unique to becoming part of a Unified or Combined State Plan under WIOA.

As stated above, WIOA sec. 102 requires, at a minimum, States to submit a Unified State Plan, which encompasses the six core programs under WIOA. Under WIOA sec. 103, States may submit, in the alternative, a Combined State Plan, which includes the six core programs of the Unified State Plan, plus one or more of the optional Combined State Plan programs described in WIOA sec. 103(a)(2).

Costs

At the State level for the AEFLA program, the Departments estimated this labor cost by first multiplying the estimated average number of managers per State (5) by the time required to participate in statewide stakeholder meetings and other activities to develop, review, and revise the State Plan (24 hours) and the hourly compensation rate. We repeated the calculation for the following occupational categories: counsel staff (1 staff for 8 hours), technical staff (2 staff for 24 hours), and administrative staff (5 staff for 16 hours). We summed the labor cost for all four categories ($14,388) and multiplied the result by the number of States to estimate this one-time cost of $820,142.

The Departments estimated the consultant costs for the State-level AEFLA program by multiplying the consultant costs per State ($25,000) by the number of States. This calculation yields a one-time cost of $1,425,000.

At the local level for the AEFLA program, the Departments estimated this cost by first multiplying the estimated average number of managers for all local entities within a State (40) by the time required to participate in statewide stakeholder meetings and other activities to develop, review, and revise a Unified or Combined State plan (24 hours) and the hourly compensation rate. We repeated the calculation for the following occupational categories: counsel staff (3 staff for 8 hours), technical staff (40 staff for 24 hours), administrative staff (40 staff for 16 hours), and local stakeholders (100 stakeholders for 8 hours). We summed the labor cost for the five occupational categories ($217,221) and multiplied the result by the number of States to estimate this one-time cost of $12,381,609.

For DOL's State-level program costs associated with State WDBs, the Departments estimated this labor cost by first multiplying the estimated average

[15] The Departments estimated the annual software and IT systems cost of this provision at the State level for the AEFLA program by multiplying the software and IT systems cost per State by the number of States ($150,000 × 57). This yields an average annual cost of $8,550,000.

number of managers per State (2) by the time required to submit a Unified and Combined State Plan (20 hours) and the hourly compensation rate. We performed the same calculation for the following occupational categories: counsel staff (1 staff for 8 hours), technical staff (4 staff for 20 hours), and administrative staff (1 staff for 8 hours). We summed the labor cost for all four categories ($8,916) and multiplied the result by the number of States to estimate this cost of $499,301 that occurs in 2016 and 2020.

For State VR agencies, the Departments estimated this cost by multiplying the estimated number of managers per VR agency (2) by the time required to engage in the planning process for Unified or Combined State Plans (7 hours) and the hourly compensation rate. We performed the same calculation for the technical staff (2 staff for 7 hours). We summed the labor cost for the two categories ($1,925) and multiplied the result by the number of VR agencies to estimate a recurring annual cost of $153,983.

There is no additional cost to DOL State or local programs associated with this provision because these programs currently submit Unified or Combined State Plans under WIA.

The sum of these calculations yields first year costs of $14,780,735 for individuals from the State and local level for all core programs to comply with this provision, subsequent annual costs of $153,983 for VR State agencies, and a total cost of $998,603 associated with State WDBs for years 2016 and 2020. The estimated total 10-year cost of activities related to the submission of the States Unified or Combined State Plan is $17,165,187, resulting in average annual cost of $1,716,519.

g. Local Plan Revisions

WIOA sec. 108(b) establishes strategic planning and operational elements for local plans. These requirements set the foundation for WIOA principles, by fostering strategic alignment, improving service integration, and ensuring that the workforce system is industry-relevant, responding to the economic needs of the local workforce development area, and matching employers with skilled workers. The previously developed local plans under WIA will have to be revised to address new issues and submitted every 4 years.

Costs

For DOL's local-level program costs associated with local WDBs, the Departments estimated this cost by first multiplying the estimated average number of managers per local WDB (2) by the time required to revise and submit an updated local plan (20) and the hourly compensation rate. We performed the same calculation for the following occupational categories: counsel staff (1 staff for 8 hours), technical staff (4 staff for 20 hours), and administrative staff (1 staff for 8 hours). We summed the labor cost for all four categories ($8,916) and multiplied the result by the number of local WDBs (580) to estimate this cost of $5,171,336, which occurs twice during the analysis period (2016 and 2020).

At the local level for the AEFLA program, the Departments estimated this cost by first multiplying the estimated average number of managers for all local entities within a State (40) by the time required to develop, review, revise, and submit an updated local plan (24 hours) and the hourly compensation rate. We performed the same calculation for the following occupational categories: technical staff (40 staff for 24 hours), administrative staff (40 staff for 16 hours), and local stakeholders (100 stakeholders for 8 hours). We summed the labor cost for all four categories ($215,708) and multiplied the result by the number of States to estimate this one-time cost as $12,295,351.

These particular projected costs pertain solely to locally-administered programs and do not impact the core programs at the State level.

The sum of these calculations yields a total 10-year cost of $22,638,023, which results in an average annual cost of $2,263,802 for individuals from the local WDBs and the local AEFLA programs to revise and submit updated local plans.

h. State Performance Accountability Measures

WIOA sec. 116(b) establishes performance accountability indicators and performance reporting requirements to assess the effectiveness of States and local areas in achieving positive outcomes for individuals served by the core programs. Under that provision, States must include primary indicators of performance in their Unified or Combined State Plans, and may identify additional indicators of performance for the six core programs. These indicators must be included in the Unified or Combined State Plan.

Costs

At the State level for DOL programs, the Departments estimated this labor cost by first multiplying the estimated average number of managers per State (1) by the time required to comply with increased data collection and processing requirements (32 hours) and the hourly compensation rate. We performed the same calculation for the technical staff (3 staff for 80 hours) and administrative staff (1 staff for 32 hours). We summed the labor cost for all three categories ($19,276) and multiplied the result by the number of States to estimate this annual cost of $96,380.

The Departments estimated the software and IT system cost for State-level DOL programs by multiplying the software and IT system cost ($100,000) by the number of States expected to submit data (5). This calculation yields an annual cost of $500,000.

The Departments estimated the licensing fee costs for State-level DOL programs by multiplying the licensing fee costs ($50,000) by the number of States expected to submit data (5). This calculation yields an annual cost of $250,000.

The Departments estimated the consultant cost for State-level DOL programs by multiplying the consultant cost ($75,000) by the number of States expected to submit data. This calculation yields a one-time cost of $375,000.

At the State level for the AEFLA program, the Departments estimated this labor cost by first multiplying the estimated average number of managers per State (5) by the time required to obtain these data (7 hours) and the hourly compensation rate. We performed the same calculation for technical staff (2 staff for 7 hours) and administrative staff (5 staff for 7 hours). We summed the labor cost for all three categories ($4,374) and multiplied the result by the number of States expected to submit additional data to estimate this one-time cost as $21,871.

For State VR agencies, the Departments estimated the cost to obtain quarterly State unemployment insurance wage data by first multiplying the estimated number of managers per VR agency (2) by the time required to obtain these data (20 hours) and the hourly compensation rate. We performed the same calculation for the counsel staff (1 staff for 20 hours) and technical staff (2 staff for 20 hours). We summed the labor cost for all three categories ($6,760) and multiplied the result by the number of VR agencies expected to provide additional information (7) to estimate this one-time cost as $47,323.

For State VR agencies, the Departments estimated the cost to obtain additional information for new data fields by multiplying the estimated number of technical staff per VR agency (60) by the time required to obtain these data (9 hours) and the hourly compensation rate. We multiplied the

result ($36,309) by the number of VR agencies expected to provide additional information to estimate this annual cost as $254,163.

The Departments estimated the software and IT costs for State VR agencies to obtain additional information for new data fields by multiplying the software and IT costs ($5,000) by the number of VR agencies expected to provide additional information. This calculation yields a one-time cost of $35,000.

At the local level for the AEFLA program, the Departments estimated this labor cost by multiplying the estimated average number of managers for all local entities within a State (40) by the time required to obtain additional information (7 hours) and the hourly compensation rate. We performed the same calculation for technical staff (40 staff for 7 hours). We summed the labor cost for these categories ($38,496) and multiplied the number of States expected to provide additional information (5) to estimate this one-time cost of $192,479.

The sum of these calculations yields a total 10-year cost of $11,677,110, which results in an average annual cost of $1,167,711 for individuals from the State and local levels for core programs to comply with increased data collection and processing requirements.

i. Performance Reports

Under WIOA sec. 116(d), States must make available performance reports for local areas and for ETPs under title I of the WIOA. WIOA also requires that States cooperate in evaluations of State programs overseen by the Departments of Labor and Education. Section 116(d)(1) of WIOA requires the Departments to provide a performance reporting template for the performance reports required in WIOA secs. 116(d)(2)–(4).

Costs

At the Federal level, the Departments estimated this labor cost by first multiplying the estimated average number of GS–13 Step 5 managers (1) by the time required to develop the reporting template (60 hours) and the hourly compensation rate. We performed the same calculation for the Federal staff labor category (10 staff for 120 hours). We summed the labor cost of these two categories to estimate this one-time cost of $82,870.

At the State level for the AEFLA program, the Departments estimated this labor cost by first multiplying the estimated average number of managers per State (5) by the time required to develop the reporting template (40 hours) and the hourly compensation rate. We performed the same calculation for the technical staff (2 staff for 40 hours) and administrative staff (5 staff for 40 hours). We summed the labor cost for all three categories ($24,996) and multiplied the result by the number of States to estimate this one-time cost of $1,399,772.

The Departments estimated the software and IT system cost for the State-level AEFLA programs by multiplying the software and IT system cost ($1,750,000) by the number of States. This calculation yields a one-time cost of $99,750,000, resulting in an average annual cost of $9,975,000 over a 10-year period.

The Departments estimated the licensing fees for the State-level AEFLA programs by multiplying the per-State licensing fees ($25,000) by the number of States. This calculation yields a recurring annual cost of $1,425,000.

At the local level for the AEFLA program, the Departments estimated this labor cost by multiplying the estimated average number of managers for all local entities within a State (40) by the time required to participate in statewide stakeholder meetings and other activities to develop, review, and revise the reporting template (40 hours) and the hourly compensation rate. We multiplied the product by the number of States to estimate this one-time cost of $6,406,435.

The sum of these calculations yields a total one-time cost of $107,639,077 for individuals from the Federal, State, and local levels to develop the reporting templates and an annual cost of $1,425,000 for licensing fees. The 10-year total costs result in an average annualized cost of $12,188,908.

j. Evaluation of State Programs

WIOA sec. 116(e)(1) requires States to conduct ongoing evaluations of activities carried out in the State under the core programs. To comply with WIOA sec. 116(e)(4), States must, to the extent practicable, cooperate in the conduct of evaluations (including related research projects) provided for by the Secretary of Labor or the Secretary of Education under the provisions of Federal law identified in WIOA sec. 116(e)(1); WIOA secs. 169 and 242(c)(2)(D); secs. 12(a)(5), 14, and sec. 107 of the Rehabilitation Act of 1973 (29 U.S.C. 709(a)(5), 711, 727) (applied with respect to programs carried out under title I of that Act (29 U.S.C. 720 *et seq.*)); and the investigations provided for by the Secretary of Labor under sec. 10(b) of the Wagner-Peyser Act (29 U.S.C. 49i(b)).

Costs

At the State level for DOL programs, the Departments estimated this labor cost by first multiplying the estimated average number of managers per State (1) by the time required to evaluate ongoing program activities (20 hours) and the hourly compensation rate. We performed the same calculation for the technical staff (2 staff for 20 hours) and administrative staff (1 staff for 10 hours). We summed the labor cost for all three categories ($4,373) and multiplied the result by the number of States to estimate this annual cost of $244,880.

At the State level for DOL programs, the Departments estimated the software, IT system, and consultant costs for both ''low-effort'' States, those with either smaller populations or more robust existing IT system infrastructure, and for ''high-effort'' States with larger populations or limited IT system infrastructure. We first multiplied the software, IT system, and consultant costs for low-effort States ($200,000) by the number of low-effort States (20). We performed the same calculation for high-effort States (15 States at $1,000,000 each). We summed these costs for both State categories to estimate an annual cost of $19,000,000.[16] This estimate represents the cost associated with the proposed joint rule beyond the IT expenditures currently incurred by State workforce agencies.

At the State level for the AEFLA program, the Departments estimated the labor cost by first multiplying the estimated average number of managers per State (5) by the time required to evaluate ongoing program activities (120 hours) and the hourly compensation rate. We performed the same calculation for the technical staff (2 staff for 80 hours) and administrative staff (5 staff for 80 hours). We summed the labor cost for all three categories ($64,041) and multiplied the result by the number of States to estimate an annual cost of $3,650,339.

At the State level for the AEFLA program, the Departments estimated the software and IT system costs by

[16] To estimate the software, IT, and consultant cost of this provision at the State-level for DOL programs, the Departments first estimated the software, IT, and consultant cost for low-effort States by multiplying the non-labor cost per low-effort State by the number of low-effort States ($200,000 × 20 = $4,000,000). We estimated the software, IT, and consultant program cost for high-effort States by multiplying the non-labor cost per high-effort State by the number of high-effort States ($1,000,000 × 15 = $15,000,000). We summed these non-labor costs for low- and high-effort States ($4,000,000 + $15,000,000), yielding an estimated annual software, IT, and consultant cost of $19,000,000.

multiplying the software and IT system costs ($250,000) by the number of States. This calculation yields an annual cost of $14,250,000.[17]

At the local level for the AEFLA program, the Departments estimated this labor cost by first multiplying the estimated average number of managers for all local entities within a State (40) by the time estimated to collect, review, and revise data provided for the evaluation of ongoing program activities (120 hours) and the hourly compensation rate. We performed the same calculation for the technical staff (40 staff for 80 hours) and administrative staff (40 staff for 80 hours). We summed the labor cost for all three categories ($641,427) and multiplied the result by the number of States to estimate an annual cost of $36,561,350.

For State VR agencies, the Departments estimated this labor cost by first multiplying the estimated average number of managers per VR agency (1) by the time estimated to evaluate ongoing program activities (1 hour) and the hourly compensation rate. We performed the same calculation for the technical staff (1 staff for 13 hours) and administrative staff (1 staff for 2 hours). We summed the labor cost for all three categories ($1,000) and multiplied the result by the number of VR agencies to estimate an annual cost of $80,002.

The sum of these calculations yields a total annual cost of $73,786,572, resulting in a total cost over the 10-year period of $737,865,722, for individuals from the State and local levels for all core programs to evaluate ongoing program activities.

5. Summary of Analysis

Exhibit 3 summarizes the annual and total costs of the proposed joint rule. The exhibit provides the total 10-year costs and the average annualized costs for each provision of the proposed joint rule. The exhibit also presents a high-level description of the benefits resulting from full WIOA implementation for each rule provision. These qualitative forecasts are predicated on program experience and are outcomes for which data will become available only after implementation. The Departments estimate the average annual cost of the proposed joint rule over the 10-year period of analysis at $147.1 million. The largest contributor to this cost is the provision related to the evaluation of State programs, which is estimated at $73.8 million per year. The next largest cost results from the development of strategies for aligning technology and data systems across one-stop partner programs at an estimated $35.7 million per year, followed by the average cost of developing and updating State performance accountability measures at an estimated $12.9 million per year.

EXHIBIT 3—COST OF THE PROPOSED DEPARTMENTS OF EDUCATION AND LABOR JOINT RULE BY PROVISION

	Total 10-year cost (undiscounted)	Average annual cost (undiscounted)	Percent of total cost	Qualitative benefit highlights
(a) Time to Review the New Rule	$17,650,220	$1,765,022	1.20	General requirement.
(b) New Elements to State and Local Plans	53,923,423	5,392,342	3.67	Enhanced data for management decision-making and policy integration.
(c) Development and Updating of State Performance Accountability Measures.	128,898,731	12,889,873	8.76	Clear articulation of expectations and outcomes for evaluation and accountability purposes.
(d) Identification and Dissemination of Best Practices.	2,936,320	293,632	0.20	Mission clarification and system building.
(e) Development of Strategies for Aligning Technology and Data Systems across One-stop Partner Programs to Enhance Service Delivery and Improve Efficiencies.	356,640,528	35,664,053	24.24	More efficient use of public resources; enhanced customer service; improved program management based on actual client data.
(f) Unified or Combined State Plan	17,165,187	1,716,519	1.17	Avoided program service duplication; enhanced internal State planning; avoided ''silos'' and service duplications; more efficient use of public resources.
(g) Local Plan Revisions	22,638,023	2,263,802	1.54	Continued accountability and linkage to outcomes and customer service.
(h) State Performance Accountability Measures.	11,677,110	1,167,711	0.79	Improved policy and management decision-making from measure data.
(i) Performance Reports	121,889,077	12,188,908	8.28	Better management and policy decisions using outcome data; improved service and placements; more accountability.
(j) Evaluation of State Programs	737,865,722	73,786,572	50.15	Improved service delivery and customer service; enhanced policy-making and system building; more accountability.
Total	1,471,284,341	147,128,434	100.00	

Note: Totals might not sum due to rounding.

Exhibit 4 summarizes the first-year cost for each provision of the proposed joint rule. The Departments estimate the total first-year cost of the proposed joint rule at $320.6 million. The largest contributor to the first-year cost is the provision related to performance report development at $109.1 million. The next largest first-year cost results from evaluating State programs, amounting to $73.8 million, followed by the cost of developing and updating State performance accountability measures at $43.6 million.

[17] To estimate the software and IT system cost of this provision at the State-level for the AEFLA program, the Departments multiplied the software and IT system cost per State by the number of States ($250,000 × 57). This yields an annual software and IT system cost of $14,250,000.

EXHIBIT 4—FIRST-YEAR COST OF THE PROPOSED JOINT RULE BY PROVISION

	Total first-year cost	Percent of total first-year cost
(a) Time to Review the New Rule	$17,650,220	5.50
(b) New Elements to State and Local Plans	10,639,250	3.32
(c) Development and Updating of State Performance Accountability Measures	43,583,603	13.59
(d) Identification and Dissemination of Best Practices	293,632	0.09
(e) Development of Strategies for Aligning Technology and Data Systems across One-stop Partner Programs to Enhance Service Delivery and Improve Efficiencies	36,760,608	11.47
(f) Unified or Combined State Plan	14,780,735	4.61
(g) Local Plan Revisions	12,295,351	3.83
(h) State Performance Accountability Measures	1,772,217	0.55
(i) Performance Reports	109,064,077	34.02
(j) Evaluation of State Programs	73,786,572	23.01
Total	320,626,265	100.00

Note: Totals might not sum due to rounding.

Exhibit 5 summarizes the annual and total costs of the proposed joint Departments of Labor and Education rule. The total (undiscounted) cost of the rule sums to $1.5 billion over the 10-year analysis period, which amounts to an average annual cost of $147.1 million per year. In total, the 10-year discounted costs of the proposed rule range from $1.2 billion to $1.3 billion (with 7- and 3-percent discounting, respectively).

To contextualize the cost of the proposed joint rule, the average annual budget for WIA implementation over the past three years for the Departments of Labor and Education combined was $6.4 billion. Thus, the annual additional cost of implementing this proposed rule is between *2.6 percent* and *2.7 percent* of the current WIA budget (with *3 percent and 7 percent discounting, respectively*).

EXHIBIT 5—MONETIZED COSTS OF DEPARTMENTS OF LABOR AND EDUCATION PROPOSED JOINT RULE (2013 DOLLARS)

Year	Total costs
2015	$320,626,265
2016	127,597,475
2017	132,420,653
2018	121,926,838
2019	132,420,653
2020	127,597,475
2021	132,420,653
2022	121,926,838
2023	132,420,653
2024	121,926,838
Undiscounted 10-year Total	1,471,284,341
10-year Total with 3% Discounting	1,316,646,285
10-year Total with 7% Discounting	1,154,622,032
10-year Average	147,128,434
Annualized with 3% Discounting	154,351,111
Annualized with 7% Discounting	164,392,201

Note: Totals might not sum due to rounding.

Benefits

The Departments were unable to quantify the benefits associated with the proposed joint rule because of data limitations and a lack of operational (WIOA) data or evaluation findings on the provisions of the proposed joint rule. Thus, the Departments cannot provide monetary estimates of several important benefits to society, including the increased employment opportunities for unemployed or under-employed U.S. workers, enhanced ETP process, and evaluation of State programs. In support of a State's strategic plan and goals, State-conducted evaluation and research of programs would enable each State to test various interventions geared toward State conditions and opportunities. Results from such evaluation and research, if used by States, could improve service quality and effectiveness and, thus, potentially lead to higher employment rates and earnings among participants. Implementing various innovations that have been tested and found effective could also lead to lower unit costs and increased numbers of individuals served within a State. Sharing the findings nationally could lead to new service or management practices that other States could adopt and use to improve participant results, lower unit costs, or increase the number served.

The Departments invite comments regarding possible data sources or methodologies for estimating these benefits. In addition, the Departments invite comments regarding other benefits that might arise from the proposed joint rule and how these benefits could be estimated.

The Departments provide a qualitative description of the anticipated WIOA benefits below. These qualitative forecasts are predicated on program experience and are outcomes for which data will only become available after implementation. Although these studies are largely based on programs and their existing requirements under WIA, they capture the essence of the societal benefits that can be expected from this proposed joint rule.

Training's impact on placement. A recent study found that flexible and innovative training that is closely related to a real and in-demand occupation is associated with better labor market outcomes for training participants. Youth disconnected from work and school can benefit from comprehensive and integrated models of training that combine education, occupational skills, and support services.[18] However, the study noted that evidence for effective employment and training-related programs for youth is less extensive than for adults, and that there are fewer positive findings from evaluations.[19] The WIA youth program remains largely untested.[20] One study found that WIA training services increase placement rates by 4.4 percent among adults and by 5.9 percent among dislocated workers,[21] while another study concluded that placement rates are 3 to 5 percent higher among all training recipients.[22]

[22] Heinrich, Carolyn J., Peter R. Mueser, and Kenneth R. Troske. "Workforce Investment Act

Participants in occupational training had a ''5 percentage points higher reemployment rate than those who received no training, and reemployment rates were highest among recipients of on-the-job training, a difference of 10 to 11 percentage points.'' [23] However, the study found that training did not correspond to higher employment retention or earnings.[24] A Youth Opportunity Grant Initiative study found that Youth Opportunity was successful at improving outcomes for high-poverty youth. Youth Opportunity also increased the labor-force participation rate overall and for subgroups, including 16- to 19-year-old adolescents, women, African Americans, and in-school youth.[25] DOL-sponsored research found that participants who received core services (often funded by Employment Services) and other services in American Job Centers were more likely to enter and retain employment.[26]

Training's impact on wages. Before enactment of WIA, Job Training Partnership Act services had a modest but statistically significant impact on the earnings of adult participants.[27] WIA training increased participants' quarterly earnings by $660; these impacts persisted beyond 2 years and were largest among women.[28] WIA adult program participants who received core services (*e.g.,* skill assessment, labor market information) or intensive services (*e.g.,* specialized assessments, counseling) earned up to $200 more per quarter than non-WIA participants. Participants who received training services in addition to core and intensive services initially earned less but caught up within 10 quarters with the earnings of participants who only received core or intensive services; marginal benefits of training could exceed $400 per quarter. Earnings progressions were similar for WIA adult program participants and users of the labor exchange only.[29] WIA training services also improved participants' long-term wage rates, doubling earnings after 10 quarters over those not receiving training services.[30] However, WIA participants who did not receive training earned $550 to $700 more in the first quarter after placement. The study also noted that individuals who did not receive training received effective short-term counseling that enabled them to gain an immediate advantage in the labor market.[31]

Another DOL program, the Job Corps program for disadvantaged youth and young adults, produced sustained increases in earnings for participants in their early twenties. Students who completed Job Corps vocational training experienced average earnings increases by the fourth follow-up year over the comparison group, whereas those who did not complete training experienced no increase.[32]

Another publication also noted that on average, adults experienced a $743 quarterly post-exit earnings boost.[33]

Those who completed training experienced a 15-percent increase in employment rates and an increase in hourly wages of $1.21 relative to participants without training.[34] Participation in WIA training also had a distinct positive, but smaller, impact on employment and earnings, with employment 4.4 percentage points higher and quarterly earnings $660 higher than comparison group members.

National and international studies provided strong evidence for the need for and economic value of adult basic skills. One study shows that not only do individuals who participate in adult basic skills training programs have higher future earnings, but income premiums are higher with more intensive participation. At 100 hours or more, the average treatment effect corresponded to $9,621 in 2013 dollars.[35]

Vocational and adult literacy's education impact. Vocational managers indicate that closely aligning service offerings with labor market reports improves the likelihood that participants will learn applicable skills. The lengthy and involved process of implementing changes to existing programs and developing new programs, however, might delay the benefits derived from improved labor market data.[36]

Studies examining the impact of participation on literacy proficiency determined that individuals who participated in adult basic skills programs tended to have higher levels of future literacy proficiency.[37] Additional studies examined the impact of participation in adult basic skills training on General Education Development credential attainment and concluded that rates were elevated by 0.20 and 0.32 by adult basic skills program participation.[38] Another study found a robust impact of adult basic skills program participation on engagement in post-secondary education. The findings show that the programs increase adult basic skills students' success in the early stages of post-secondary engagement and serve as

effective tools for nontraditional student populations.[39]

The following are channels through which these benefits might be achieved:

Better information for workers. The accountability measures would provide workers with higher-quality information about potential training program providers and enable them to make better-informed choices about which programs to pursue. The information analyzed and published by the WDBs about local labor markets also would help trainees and providers target their efforts and develop reasonable expectations about outcomes.

Consumers of educational services, including disadvantaged and displaced workers, require reliable information on the value of different training options to make informed choices. Displaced workers tend to be farther removed from schooling and lack information about available courses and the fields with the highest economic return.[40] Given these information gaps and financial pressures, it is important that displaced workers learn of the economic returns to various training plans.[41] Still, one study determined that the cost-effectiveness of WIA job training for disadvantaged workers is ''modestly positive'' due to the limited sample of States on which the research was based.[42]

State performance accountability measures. This requirement would include significant data collection for Local Boards to address performance measures for the core programs in their jurisdictions. This data collection would permit the State WDBs to assess performance across each State. Training providers would be required to provide data to Local Boards, which would represent a cost in the form of increased data collection and processing. Employers and employees also would have to provide information to the training providers, which would take time. This provision, in combination with the Board membership provision requiring employer/business representation, is expected to improve the quality of local training and, ultimately, the number and caliber of job placements.

Implementation of follow-up measures, rather than termination-based measures, might improve long-term labor market outcomes, although some could divert resources from training activities.[43]

Before-after earning metrics capture the contribution of training to earnings potential and minimize incentives to select only training participants with high initial earnings.[44] The study found that value added net of social cost is one objective that is too difficult to measure on a regular basis. With the exception of programs in a few States, current incentives do not reward enrollment of the least advantaged.[45] In addition, the study noted evidence that the performance-standards can be ''gamed'' in an attempt to maximize their centers' measured performance.[46]

Pressure to meet performance levels could lead providers to focus on offering services to participants most likely to succeed. For example, current accountability measures might create incentives for training providers to screen participants for motivation, delay participation for those needing significant improvement, or discourage participation by those with high existing wages.[47]

The following subsections present additional channels by which economic benefits may be associated with various aspects of the proposed joint rule.

Dislocated workers. A study found that for dislocated workers, receiving WIA services significantly increased employment rates by 13.5 percent and boosted post-exit quarterly earnings by $951.[48] However, another study found that training in the WIA dislocated worker program had a net benefit close to zero or even negative.[49]

Self-employed individuals. Job seekers who received self-employment services started businesses sooner and had longer lasting businesses than nonparticipants. Self-employment assistance participants were 19 times more likely to be self-employed than nonparticipants and expressed high levels of satisfaction with self-employment. A study of Maine, New Jersey, and New York programs found that participants were four times more likely to obtain employment of any kind than nonparticipants.[50]

Workers with disabilities. A study of individuals with disabilities enrolled in training for a broad array of occupations (including wastewater treatment, auto body repair, meat cutter/wrapper, clerical support staff, surgical tools technician, and veterinary assistant) found that the mean hourly wage and hours worked per quarter for program graduates were higher than for individuals who did not complete the program.

In conclusion, after a review of the quantitative and qualitative analysis of the impacts of this NPRM, the Departments have determined that the societal benefits justify the anticipated costs.

Transfers

The Reemployment and Eligibility Assessment program was effective in assisting claimants to exit the unemployment insurance program and avoid exhausting regular unemployment insurance benefits in Florida, Idaho, and Nevada. By avoiding unemployment insurance benefit exhaustion, the program led to reductions in the likelihood of receiving Extended Unemployment Compensation benefits. There exists notable evidence that the Reemployment and Eligibility Assessment program is cost-effective.[51]

The program reduced unemployment insurance payments and increased tax revenue resulting from increased worker earnings.

B. Regulatory Flexibility Act

The Regulatory Flexibility Act (RFA), 5 U.S.C. 603, requires agencies to prepare a regulatory flexibility analysis to determine whether a regulation will have a significant economic impact on a substantial number of small entities. Section 605 of the RFA allows an agency to certify a rule in lieu of preparing an analysis if the regulation is not expected to have a significant economic impact on a substantial number of small entities. Further, under the Small Business Regulatory Enforcement Fairness Act of 1996, 5 U.S.C. 801 (SBREFA), an agency is required to produce compliance guidance for small entities if the rule has a significant economic impact.

The Small Business Administration (SBA) defines a small business as one that is ''independently owned and operated and which is not dominant in its field of operation.'' The definition of small business varies from industry to industry to the extent necessary to reflect industry size differences properly. An agency must either use the SBA definition for a small entity or establish an alternative definition, in this instance, for the workforce industry. The Departments have adopted the SBA definition for purposes of this certification.

The Departments have notified the Chief Counsel for Advocacy, SBA, under the RFA at 5 U.S.C. 605(b), and proposes to certify that this rule will not have a significant economic impact on a substantial number of small entities. This finding is supported, in very large measure, by the fact that small entities are already receiving financial assistance under the WIA program and will likely continue to do so under the WIOA program as articulated in this NPRM.

Affected Small Entities

The proposed rule can be expected to impact small one-stop center operators. One-stop operators can be a single entity (public, private, or nonprofit) or a consortium of entities. The types of entities that might be a one-stop operator include: (1) An institution of higher education; (2) an employment service State agency established under the Wagner-Peyser Act; (3) a community-based organization, nonprofit organization, or workforce intermediary; (4) a private for-profit entity; (5) a government agency; (6) a Local Board, with the approval of the chief local elected official and the Governor; or (7) another interested organization or entity that can carry out the duties of the one-stop operator. Examples include a local chamber of commerce or other business organization, or a labor organization.

The proposed joint rule can also be expected to impact a variety of AEFLA local providers: (1) Local education agencies; (2) community-based organizations; (3) faith-based organizations; (4) libraries; community, junior, and technical colleges; (5) 4-year colleges and universities; (6) correctional institutions; and (7) other institutions, such as medical and special institutions not designed for criminal offenders.[52]

Impact on Small Entities

The Departments indicate that transfer payments are a significant aspect of this analysis in that the majority of WIOA program cost burdens on State and Local WDBs will be fully financed through Federal transfer payments to States. The Departments have highlighted costs that are new to WIOA implementation and this NPRM. Therefore, the Departments expect that the WIOA joint NPRM will have no cost impact on small entities.

C. Small Business Regulatory Enforcement Fairness Act of 1996

The Departments have determined that this proposed joint rulemaking does not impose a significant economic impact on a substantial number of small entities under the RFA; therefore, the Departments are not required to produce any Compliance Guides for Small Entities, as mandated by the SBREFA.

D. Paperwork Reduction Act

The purposes of the Paperwork Reduction Act of 1995 (PRA), 44 U.S.C. 3501 *et seq.,* include minimizing the paperwork burden on affected entities. The PRA requires certain actions before an agency can adopt or revise a collection of information, including publishing for public comment a summary of the collection of information and a brief description of the need for and proposed use of the information.

As part of continuing efforts to reduce paperwork and respondent burden, the Departments conduct preclearance consultation activities to provide the general public and Federal agencies with an opportunity to comment on proposed and continuing collections of information in accordance with the PRA. *See* 44 U.S.C. 3506(c)(2)(A). This activity helps to ensure that: (1) The public understands the collection instructions; (2) respondents can provide the requested data in the desired format; (3) reporting burden (time and financial resources) is minimized; (4) respondents clearly understand the collection instruments; and (5) the Departments can properly assess the impact of collection requirements on respondents. Furthermore, the PRA requires all Federal agencies to analyze proposed regulations for potential time burdens on the regulated community created by provisions in the proposed regulations, which require the submission of information. The information collection requirements must also be submitted to the OMB for approval.

The Departments note that a Federal agency may not conduct or sponsor a collection of information unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. The public is also not required to respond to a collection of information unless it displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person will be subject to penalty for failing to comply with a collection of information if the collection of information does not display a currently valid OMB Control Number (44 U.S.C. 3512).

The information collections in this joint NPRM are summarized in the section-by-section discussion of this NPRM, Section IV. The table below captures the current and proposed burden hours associated with the information collections.

Shen. ''Impact of the Reemployment and Eligibility Assessment (REA) Initiative.'' IMPAQ International, 2011. Available at *http://wdr.doleta.gov/research/keyword.cfm?fuseaction=dsp_puListingDetails&pub_id=2487&mp=y&start=21&sort=7.*

[52] In terms of VR grantees, they are State government entities and, by definition, are not small entities.

CURRENT AND PROPOSED INFORMATION COLLECTION BURDENS

OMB Approval No.	Annual burden hours currently approved	Annual burden hours proposed for new requirements under WIOA	Change
1205–0420—WIOA Common Performance Management and Information and Reporting for Core Programs	0	2,351,905	*2,351,905
1205–4NEW—Required Elements for Submission of the Unified or Combined State Plan and Plan Modifications under the Workforce Innovation and Opportunity Act	0	3,279	**3,279
Total	0	2,355,184	2,355,184

* OMB 1205–0420 will be the information collection for the common performance accountability data collected under sec. 116 of WIOA. Hours associated with this information collection represent the burden associated with reporting the new common performance data elements by the core programs. Burden hours associated with program-specific reporting for each of the core programs, which are currently approved and will continue in addition to the common performance reporting, will be reported and summarized in other NPRMs published elsewhere in this **Federal Register**. The currently-approved program-specific data reporting that will continue, as applicable, for the core programs include:

- Control Number 1205–0420, Workforce Investment Act Management Information and Reporting System, with an annual burden of 508,589;
- Control Number 1205–0240, Labor Exchange Reporting System, with an annual burden of 568,192;
- Control Number 1830–0027, Measures and Methods for the National Reporting System for Adult Education, with an annual burden of 5,700; and
- Control Number 1820–0508, RSA–911 Case Service Report, with an annual burden of 6,500.

The Departments anticipate that the above collections may be phased out or modified, as appropriate, as the WIOA performance measures are fully implemented.

The above-described currently-approved reporting burdens are presented here in order to provide respondents full transparency of the complete reporting burden that is imposed by WIOA, both in terms of the new common performance data elements as well as program-specific reporting requirements. However, to be clear, the net new burden as listed in the table above only reflects the additional burden imposed by the new common performance reporting requirements, set forth at sec. 116 of WIOA, that are applicable to all core programs.

** OMB 1205–4NEW is the information collection for the submission of the Unified or Combined State Plan under secs. 102 and 103 of WIOA, which will replace the following currently-approved State Plan collections for the core programs:

- Control Number 1205–0398, Planning Guidance and Instructions for Submission of the Strategic State Plan and Plan Modifications for Title I of the Workforce Investment Act and Wagner-Peyser Act, with an annual burden of 2,280;
- Control Number 1830–0026, Adult Education and Family Literacy Act State Plan, with an annual burden of 2,565; and
- Control Number 1820–0500, 1820–0500, State Plan for the Vocational Rehabilitation Services Program and Supplement for the Supported Employment Services Program (now referred under WIOA as the VR services portion of the Unified or Combined State Plan), with an annual burden of 2,000.

In an effort to give full meaning to the requirement that States submit a Unified or Combined State Plan, the Departments propose to consolidate all currently-approved program-specific State Plan submissions for each of the core programs into one information collection instrument. To that end, the total burden hours associated with this proposed new consolidated information collection is the sum of the additional burden required to satisfy the integrated strategic and operational planning requirements (see table above) plus the currently-approved requirements (see bullets above). However, to be clear, the net additional burden to respondents is only that associated with the new planning requirements.

Agency: DOL–ETA.

Title of Collection: WIOA Common Performance Management and Information and Reporting for Core Programs

OMB Control Number: 1205–0420.

Description: This new information collection will collect common performance data required under sec. 116 of WIOA from all core programs, including WIOA adult and dislocated workers, youth, Wagner-Peyser, Adult Education and Literacy, Eligible Training Providers, and Vocational Rehabilitation Services programs. The Departments of Education and Labor will use a common approach to standardize the quarterly, as appropriate, and annual reporting of common data elements for all core programs and Eligible Training Providers. These data are in addition to other performance data reported by each of the core programs under current and proposed regulations discussed in program-specific NPRMs available elsewhere in this **Federal Register**.

Affected Public: State, local and tribal governments, private sector.

Obligation to Respond: Required to obtain or retain benefits (WIOA sec. 116).

Total Estimated Number of Respondents Annually: 53 for DOL programs, 80 for RSA, 57 for OCTAE (no additional respondents resulting from this proposed rulemaking).

Total Estimated Number of Annual Responses: 722—each DOL and RSA respondent reports 5 times per year (quarterly plus annually); and each OCTAE respondent reports only annually (no additional responses resulting from this proposed rulemaking).

Total Estimated Annual Time Burden: 2,351,905 hours. This includes hours estimated for both collecting the information and reporting.

Total Estimated Annual Other Costs Burden: $0 (no change as a result of this proposed rulemaking).

Proposed Regulations Containing Information Collections Approved Under this Control Number: 20 CFR part 680 (Adult, Dislocated Workers, and Eligible Training Providers); 20 CFR part 681 (Youth); 20 CFR part 652 (Wagner-Peyser); 34 CFR parts 462 and 463 (Office of Career, Technical, and Adult Education); and 34 CFR part 361 (Rehabilitation Services Administration).

Title of Collection: Required Elements for Submission of the Unified or Combined State Plan and Plan Modifications under the Workforce Innovation and Opportunity Act: Wagner-Peyser and WIOA Title I programs (Department of Labor) and Vocational Rehabilitation and Adult Education programs (Department of Education).

OMB Control Number: 1205–4NEW.

Description: The proposed rule would require each State (which includes applicable outlying areas) to submit a Unified or Combined State Plan that fosters strategic alignment of the core programs, which include the title I adult, dislocated worker, and youth

programs; title II adult education and literacy programs; the Wagner-Peyser program as amended by title III of WIOA; and the title IV Vocational Rehabilitation program. The Unified or Combined State Plan requirements improve service integration and ensure that the workforce system is industry-relevant and responds to the economic needs of the State and matches employers with skilled workers. The Unified or Combined State Plan would describe how the State will develop and implement a unified, integrated service delivery system rather than separately discuss the State's approach to operating each core program individually. This consolidated information collection implements secs. 102 and 103 of WIOA. The Unified or Combined State Plan would replace the planning requirements collected under the currently-approved program-specific State Plan information collections.

While each State, at a minimum, must submit a Unified State Plan covering all core programs, sec. 103 of WIOA permits a State to submit a Combined State Plan that would include the core programs plus one or more additional Federal programs listed in sec. 103(b). If the State chooses to include these programs, the Combined Plan will include all of the common planning elements included in the Unified State Plan, and an additional element describing how the State will coordinate the additional programs with the core programs (WIOA sec. 103(b)(3)).

As with the Unified State Plan collection for the core programs described above, the total burden associated with the Combined State Plan would represent the total burden for the new (additional) WIOA planning requirements (as described in the table above), plus an additional 0.25 hours per Combined State Plan to account for the one additional new question that will be included in Combined State Plans. The burden required for fulfilling the program-specific State Plan requirements (for the non-core additional programs that may be included in the Combined State Plan) will continue to be separately accounted for under the non-core programs' existing, approved Information Collections. Those existing Information Collections are described in the table below for reference:

Additional program control No.	Approved burden hours
Control Number 1830–0029, Carl D. Perkins Career and Technical Education Improvement Act of 2006 (P.L. 109–270) State Plan Guide	2,240
Control Number 0970–0145, Temporary Assistance for Needy Families (TANF) State Plan Guidance	594
Control Number 0584–0083, Supplemental Nutrition Assistance Program Operating Guidelines, Forms, and Waivers, Program and Budget Summary Statement	1431
Control Number 1225–0086, Grant Application Requirements for the Jobs for Veteran State Grants Program	1620
Control Number 1205–0132, Unemployment Insurance State Quality Service Plan Planning and Reporting Guidelines	1530
Control Number 1205–0040, Senior Community Service Employment Program Performance Measurement System	406
Control Number 0970–0382, Community Services Block Grant (CSBG) Program Model Plan Applications	112

The table does not include the additional programs that may be part of a Combined State Plan but do not have currently-approved planning requirements of their own, such as the Housing and Urban Development Employment and Training Programs and the Trade Adjustment Assistance Program. Because these programs do not have currently-approved planning collections, the additional burden hours would be the total additional burden associated with the new unified planning requirements set forth in the table above that would be true for any program included in the Unified or Combined State Plan.

Affected Public: State, local and tribal governments.

Obligation to Respond: Required to obtain or maintain benefits (WIOA, secs. 102 and 103).

Total Estimated Number of Respondents Annually: 38. (This is the annualized number of respondents.) Fifty-seven jurisdictions submit a plan the first year and all 57 are required to submit an update in the third year of the planning cycle. No submissions are required the second year. This is the same as the current planning documents. (No additional respondents resulting from this proposed rulemaking.)

Total Estimated Number of Annual Responses: 38 (Annualized as described above; no additional responses resulting from this proposed rulemaking).

Total Estimated Annual Time Burden: 3,279. This number includes the hours for all the jurisdictions to submit a Unified State Plan, plus an additional 0.25 hours for each respondent submitting a Combined State Plan. We estimate that 10 respondents will submit a Combined State Plan. It also includes the estimate that all respondents will submit an update in the third planning year, which is estimated to require a third of the hours compared to submitting the initial plan. Then the number has been annualized over 3 years.

Total Estimated Annual Other Costs Burden: $0 (no change as a result of this proposed rulemaking).

Proposed Regulations Containing Information Collections Approved Under this Control Number: DOL programs—20 CFR 652.211, 653.107(d), 653.109(d), 676.105, 676.110, 676.115, 676.120, 676.135, 676,140, 676.145, 677.230, 678.310, 678.405, 678.750(a), 681.400(a)(1), 681.410(b)(2), 682.100, 683.115. Department of Education programs—34 CFR parts 361, 462 and 463.

Interested parties may obtain a copy free of charge of one or more of the information collection requests submitted to the OMB on the reginfo.gov Web site at *http://www.reginfo.gov/public/do/PRAMain*. From the *Information Collection Review* tab, select *Information Collection Review*. Then select the applicable Department (*e.g.,* Department of Education or Department of Labor) from the *Currently Under Review* dropdown menu, and lookup the Control Number. A free copy of the requests may also be obtained by contacting the person named in the **ADDRESSES** section of this preamble.

As noted in the **ADDRESSES** section of this joint NPRM, interested parties may send comments about the information collections to the applicable Department throughout the 60-day comment period and/or to the OMB within 30 days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention the applicable OMB Control Number(s). The Departments and OMB are particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Departments, including whether the information will have practical utility;

- Evaluate the accuracy of the Departments' estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses.

The Departments note that in order to meet WIOA requirements, the information collections mentioned in this NPRM need to be in place prior to the final rule taking effect. The Departments will follow PRA requirements in clearing the collections (emergency procedures, as appropriate), including providing appropriate public engagement and taking into account the comments received as part of this rulemaking.

E. Executive Order 13132 (Federalism)

E.O. 13132 requires Federal agencies to ensure that the principles of Federalism established by the Framers of our Constitution guide the executive departments and agencies in the formulation and implementation of policies and to further the policies of the Unfunded Mandates Reform Act. Further, agencies must strictly adhere to constitutional principles. Agencies must closely examine the constitutional and statutory authority supporting any action that would limit the policy-making discretion of the States and they must carefully assess the necessity for any such action. To the extent practicable, State and local officials must be consulted before any such action is implemented. Section 3(b) of the E.O. further provides that Federal agencies must implement regulations that have a substantial direct effect only if statutory authority permits the regulation and it is of national significance. The Departments have reviewed the WIOA joint NPRM in light of these requirements and have determined that, with the enactment of WIOA and its clear requirement to publish national implementing regulations, E.O. sec. 3(b) has been fully reviewed and its requirement satisfied.

Accordingly, the Departments have reviewed this WIOA-required joint NPRM and have determined that the proposed rulemaking has no Federalism implications. The proposed joint rule, as noted above, has no substantial direct effects on States, on the relationships between the States, or on the distribution of power and responsibilities among the various levels of government as described by E.O. 13132. Therefore, the Departments have determined that this proposed rule does not have a sufficient Federalism implication to warrant the preparation of a summary impact statement.

F. Unfunded Mandates Reform Act of 1995

This Act directs agencies to assess the effects of Federal regulatory actions on State, local, and tribal governments, and the private sector. A Federal mandate is any provision in a regulation that imposes an enforceable duty upon State, local, or tribal governments, or imposes a duty upon the private sector that is not voluntary.

WIOA contains specific language supporting employment and training activities for Indian, Alaska Natives, and Native Hawaiian individuals. These program requirements are supported, as is the WIOA workforce development system generally, by Federal formula grant funds and are accordingly not considered unfunded mandates. Similarly, Migrant and Seasonal Farmworker activities are authorized and funded under the WIOA program as is currently done under the WIA program. The States are mandated to perform certain activities for the Federal government under WIOA and will be reimbursed (grant funding) for the resources required to perform those activities. The same process and grant relationship exists between States and Local WDBs under the WIA program and must continue under the WIOA program as identified in this NPRM.

WIOA contains language establishing procedures regarding the eligibility of training providers to receive funds under the WIOA program and also contains clear State information collection requirements for training entities (*e.g.,* submission of appropriate, accurate, and timely information). A decision by a private training entity to participate as a provider under the WIOA program is purely voluntary and, therefore, information collection burdens do not impose a duty on the private sector that is not voluntarily assumed.

The Departments following consideration of these factors have determined that this proposed joint rule contains no unfunded Federal mandates, which are defined in 2 U.S.C. 658(6) to include either a ''Federal intergovernmental mandate'' or a ''Federal private sector mandate.''

G. Plain Language

The Departments drafted this joint NPRM in plain language.

H. Assessment of Federal Regulations and Policies on Families

Section 654 of the Treasury and General Government Appropriations Act, enacted as part of the Omnibus Consolidated and Emergency Supplemental Appropriations Act of 1999 (Pub. L. 105–277, 112 Stat. 2681) requires the assessment of the impact of this proposed rule on family well-being. A rule that is determined to have a negative effect on families must be supported with an adequate rationale. The Departments have assessed this proposed joint rule in light of this requirement and determined that the joint NPRM would not have a negative effect on families.

I. Executive Order 13175 (Indian Tribal Governments)

The Departments reviewed this proposed joint rule under the terms of E.O. 13175 and have determined it would have no tribal implications in addition to those created through the reimbursement of WIA and future WIOA program expenses via Federally disbursed formula grant funds. However, the proposed joint rule would have substantial direct effects on one or more Indian Tribes, on the relationship between the Federal government and Indian Tribes, or on the distribution of power and responsibilities between the Federal government and Indian Tribes. As a result, a tribal summary impact statement has been prepared.

Prior to developing the proposed joint rule, the Department of Labor held three events to talk with the tribal institutions about their concerns about the current state of Indian and Native American Programs (INAP) as well as what concerns they see in the future. These three events consisted of a consultation webinar and two in-person town hall meetings. The consultation webinar, entitled ''Listening session on Indian and Native American Programs,'' occurred on September 15, 2014. Two other consultations were held, including an October 21, 2014, town hall meeting with Indian and Native American (INA) leaders and membership organizations serving Indians and Native Americans, Hawaiians, and Alaskan Natives, and a formal consultation December 17, 2014, with members of the Native American Employment and Training Advisory Council to the Secretary of Labor.

The Department of Labor received feedback from the INA community and the public that established several areas

of interest concerning the Department of Labor's relationship with INA Tribes and tribal governments. These areas of interest are summarized below.

Services Received in American Job Centers

Specifically, the INA community expressed interest in learning how American Job Centers will account for the use of their INA funding dollars and how to ensure that the funds intended for the INA population will be dedicated to that population. In addition, several individuals expressed concerns that INA individuals that enter an American Job Center may not get the general assistance that is intended for all people that seek assistance. In other words, several commenters wanted to ensure that INA individuals should receive assistance intended for other populations for which they may qualify when seeking service. Finally, several commenters were interested in learning more about how INA programs may be required to contribute to American Job Center infrastructure funding and how American Job Centers will account for INA members served to ensure that the American Job Center network is responding to the relevant INA population needs.

Funding per Participant was Low for INA Programs Especially When Compared to Other Job Training Programs

Many commenters expressed concern that the funds made available on a per-participant basis for INA programs were not sufficient to meet the needs of the populations being served. Specifically, many commenters stated that funds available for INA youth are inadequate to fully meet their needs. In addition, commenters felt that more funds were needed for INA job training programs to ensure that career pathway training could be carried out. Several commenters compared the cost per participant funding for other programs, such as Job Corps, as evidence of the lack of funding for INA programs. The commenters went on to request a comparison of other WIA-funded programs and the INA programs. Finally, one commenter felt that because of the lack of funds, INA youth were being served instead of INA adults.

The majority of comments focused on the use of new funding streams and the requirements attached to those funds. Commenters expressed concern about the issue of using and transferring WIOA funding to support activities under Indian Employment, Training, and Related Services Demonstration Act of 1992, as amended (Pub. L. 102–477). Specifically, commenters talked about the importance of flexibility in adherence to the requirements because Pub. L. 102–477 programs are tribal programs, may be located in rural areas, and have been effectively and efficiently reporting through existing processes, including a single reporting feature in the annual report. Additionally, commenters suggested that vocational rehabilitation, adult education reentry, and other applicable job/education-related program funding also should be allowed to support Pub. L. 102–477 programs. Clarity around which funding streams are allowable also was suggested. Commenters also expressed hope that the Department of Education will integrate Carl D. Perkins funding under Pub. L. 102–477 which allows Federally-recognized Tribes and Alaska Native entities to combine formula-funded Federal grant funds administered by the Department of Interior, which are employment and training-related into a single plan with a single budget and a single reporting system. Commenters noted that the Native American Career and Technical Education Program (NACTEP) is a required partner and that NACTEP has limited the partner funds available to fund supportive services and work experiences. One commenter asked if statutory language regarding key investments in vulnerable populations would result in an increase in funding for Division of Indian and Native American Programs (DINAP) programs. Lastly, it was suggested that the 166 Advisory Council continue, and DINAP programs continue to be staffed with Native Americans and Native American Chiefs.

Concerns About the Effects of the New Performance Reporting Requirements Established in WIOA on the INA Community

Many commenters expressed concern that INA programs would not be able to meet the performance reporting requirements established by WIOA for several reasons, including limited funds to train individuals for the new performance standards and the need to purchase new technology and equipment to meet the reporting requirements. In addition, several commenters said that INA programs will have to be more selective in determining eligibility for training programs because of insufficient funding and the increased focus on performance outcomes.

Lack of Funding To Hire and Effectively Train Staff and Ensuring Policy is Responsive to INA Community Needs

Commenters stated concerns that INA programs will not be able to achieve expected performance levels because they lacked funding to adequately staff programs. Several commenters stated concerns about the limited number of staff, increased training needs for staff, and the need to ensure that technical assistance is made available to staff. Specifically, commenters are concerned that INA programs may transition slower than States to the new WIOA requirements because of funding and staff needs. In addition, they stated that INA programs need more funds to implement new administrative tasks as well as provide services to the INA community.

Working With States and Other Programs

Commenters expressed concerns about States' accountability to the INA community and how to make other training programs administered by the State work comprehensively with INA programs. Others encouraged flexibility and freedom in funding in working with these same entities and lauded this flexibility as a way to get more out of funds. Furthermore, the commenters emphasized how important it is for INA leaders to have a voice in the policy and guidance formulation process so that policy is directly responsive to the needs and funding has to go hand in hand with the needs identified. Some commenters suggested an ongoing dialogue between INA leaders, Workforce Investment Boards, local and State agencies, and the American Job Centers to discuss training and education that leads to jobs. Some commenters asserted that State-run programs need to be more accountable for how they interact with INA populations. Other commenters expressed frustration that some State programs do not see a need to work with INA programs because the States think that the INA programs get money from other sources, such as casinos. Many of the commenters said that they wanted better collaboration with State-run programs and increased networking among INA programs and State agencies. Finally, one commenter stated that collaboration between INA programs and the State-run training systems would make services to individuals more efficient because it would prevent ''double-dipping'' in programs. The Department invites public comment about what can be done to address the areas summarized above.

J. Executive Order 12630 (Government Actions and Interference With Constitutionally Protected Property Rights)

The Departments have determined that this joint NPRM is not subject to E.O. 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights, because it does not involve implementation of a policy with takings implications.

K. Executive Order 12988 (Civil Justice Reform)

This WIOA joint NPRM was drafted and reviewed in accordance with E.O. 12988, Civil Justice Reform, and the Departments have determined that the proposed rule will not unduly burden the Federal court system. The proposed WIOA regulations were written to minimize litigation and to the extent feasible, provide a clear legal standard for affected conduct, and have been reviewed carefully to eliminate drafting errors and ambiguities.

L. Executive Order 13211 (Energy Supply)

This joint NPRM was drafted and reviewed in accordance with E.O. 13211, Energy Supply. The Departments have determined the joint NPRM will not have a significant adverse effect on the supply, distribution, or use of energy and is not subject to E.O. 13211.

20 CFR Chapter V

For the reasons stated in the preamble, ETA proposes to amend 20 CFR chapter V as follows:

■ 1. Add part 676 to read as follows:

PART 676—UNIFIED AND COMBINED STATE PLANS UNDER TITLE I OF THE WORKFORCE INNOVATION AND OPPORTUNITY ACT

Sec.

676.100 What is the purpose of the Unified and Combined State Plans?
676.105 What are the general requirements for the Unified State Plan?
676.110 What are the program-specific requirements in the Unified State Plan for the adult, dislocated worker, and youth workforce investment activities in Workforce Innovation and Opportunity Act title I?
676.115 What are the program-specific requirements in the Unified State Plan for the Adult Education and Literacy Program in Workforce Innovation and Opportunity Act title II?
676.120 What are the program-specific requirements in the Unified State Plan for Wagner-Peyser Act Employment Service programs in title III of the Workforce Innovation and Opportunity Act?
676.125 What are the program-specific requirements in the Unified State Plan for the State Vocational Rehabilitation program in Workforce Innovation and Opportunity Act title IV?
676.130 What is the submission and approval process of the Unified State Plan?
676.135 What are the requirements for modification of the Unified State Plan?
676.140 What are the general requirements for submitting a Combined State Plan?
676.143 What is the submission and approval process of the Combined State Plan?
676.145 What are the requirements for modifications of the Combined State Plan?

Authority: Secs. 503, 102, 103, Pub. L. 113–128, 128 Stat. 1425 (Jul. 22, 2014).

§ 676.100 What is the purpose of the Unified and Combined State Plans?

(a) The Unified and Combined State Plans provide the framework for States to outline a strategic vision of, and goals for, how their workforce development systems will achieve the purposes of Workforce Innovation and Opportunity Act (WIOA).

(b) The Unified and Combined State Plans serve as 4-year action plans to develop, align, and integrate the State's systems and provide a platform to achieve the State's vision and strategic and operational goals. A Unified or Combined State Plan is intended to:

(1) Align, in strategic coordination, the six core programs required in the Unified State Plan pursuant to § 676.105(b), and additional optional programs that may be part of the Combined State Plan pursuant to § 676.140;

(2) Direct investments in economic, education, and workforce training programs to focus on providing relevant education and training to ensure that individuals, including youth and individuals with barriers to employment, have the skills to compete in the job market and that employers have a ready supply of skilled workers;

(3) Apply strategies for job-driven training consistently across Federal programs, and;

(4) Enable economic, education, and workforce partners to build a skilled workforce through innovation in, and alignment of, employment, training, and education programs.

§ 676.105 What are the general requirements for the Unified State Plan?

(a) The Unified State Plan must be submitted in accordance with § 676.130 and joint planning guidelines issued by the Secretary of Labor and the Secretary of Education.

(b) The Governor of each State must submit, in accordance with § 676.130, a Unified or Combined State Plan to the Secretary of Labor to be eligible to receive funding for the workforce development system's six core programs:

(1) The adult, dislocated worker, and youth programs authorized under subtitle B of title I of WIOA and administered by the U.S. Department of Labor;

(2) The Adult Education and Family Literacy Act (AEFLA) program authorized under title II of WIOA and administered by the U.S. Department of Education;

(3) The Wagner-Peyser Act Employment Services programs amended by title III of WIOA and administered by the U.S. Department of Labor; and

(4) The State Vocational Rehabilitation program amended by title IV of WIOA and administered by the U.S. Department of Education.

(c) The Unified State Plan must outline the State's 4-year strategy for the core programs described in paragraph (b) of this section and meet the requirements of sec. 102(b) of WIOA, as explained in the joint planning guidance issued by the Secretary of Labor and the Secretary of Education.

(d) The Unified State Plan must include strategic and operational planning elements to facilitate the development of an aligned, coordinated, and comprehensive workforce development system. The Unified State Plan must include:

(1) Strategic planning elements that describe the State's strategic vision and goals for preparing an educated and skilled workforce under sec. 102(b)(1) of WIOA. The strategic planning elements must be informed by and include an analysis of the State's economic conditions and employer and workforce needs, including education and skill needs.

(2) Strategies for aligning the core programs and optional programs, as well as other resources available to the State, to achieve the strategic vision and goals in accordance with sec. 102(b)(1)(E) of WIOA.

(3) Operational planning elements in accordance with sec. 102(b)(2) of WIOA that support the strategies for aligning the core programs and other resources available to the State to achieve the State's vision and goals and a description of how the State Workforce Development Board will implement its functions, in accordance with sec. 101(d) of WIOA. Operational planning elements must include:

(i) A description of how the State strategy will be implemented by each core program's lead State agency;

(ii) State operating systems, including data systems, and policies that will support the implementation of the State's strategy identified in paragraph (d)(1) of this section;

(iii) Program-specific requirements for the core programs required by WIOA sec. 102(b)(2)(D);

(iv) Assurances required by sec. 102(b)(2)(E) of WIOA and others deemed necessary by the Secretaries of Labor and Education under sec. 102(b)(2)(E)(x) of WIOA; and

(v) Any additional operational planning requirements imposed by the Secretary of Labor or the Secretary of Education under sec. 102(b)(2)(C)(viii) of WIOA.

§ 676.110 What are the program-specific requirements in the Unified State Plan for the adult, dislocated worker, and youth workforce investment activities in Workforce Innovation and Opportunity Act title I?

The program-specific requirements for the adult, dislocated worker, and youth workforce investment activities that must be included in the Unified State Plan are described in sec. 102(b)(2)(D) of WIOA. Additional planning requirements may be required by the Secretary of Labor or the Secretary of Education in accordance with joint planning guidelines issued by the Secretary of Labor and the Secretary of Education.

§ 676.115 What are the program-specific requirements in the Unified State Plan for the Adult Education and Family Literacy Act program in Workforce Innovation and Opportunity Act title II?

The program-specific requirements for the AEFLA program in title II that must be included in the Unified State Plan are described in secs. 102(b)(2)(D)(ii) and 102(b)(2)(C) of WIOA.

(a) With regard to the description required in sec. 102(b)(2)(D)(ii)(I) of WIOA pertaining to content standards, the Unified State Plan must describe how the eligible agency will, by July 1, 2016, align its content standards for adult education with State-adopted challenging academic content standards under the Elementary and Secondary Education Act of 1965, as amended.

(b) With regard to the description required in sec. 102(b)(2)(C)(iv) of WIOA pertaining to the methods and factors the State will use to distribute funds under the core programs, for title II of WIOA, the Unified State Plan must include—

(1) How the eligible agency will award multi-year grants on a competitive basis to eligible providers in the State; and

(2) How the eligible agency will provide direct and equitable access to funds using the same grant or contract announcement and application procedure.

(c) With regard to the description required under sec. 102(b)(2)(C)(v)(I) of WIOA pertaining to the integration of workforce and education data on core programs, unemployment insurance programs, and education through post-secondary education, for title II of WIOA, the Unified State Plan must include how the State will ensure interoperability of data systems in the reporting on core indicators of performance and performance reports required to be submitted by the State.

§ 676.120 What are the program-specific requirements in the Unified State Plan for Wagner-Peyser Act Employment Service programs in title III of the Workforce Innovation and Opportunity Act?

Wagner-Peyser Act Employment Services programs amended by title III are subject to requirements in sec. 102(b) of WIOA and any additional requirements imposed by the Secretary of Labor under sec. 102(b)(2)(C)(viii) of WIOA, in accordance with joint planning guidelines issued by the Secretary of Labor and the Secretary of Education.

§ 676.125 What are the program-specific requirements in the Unified State Plan for the State Vocational Rehabilitation program in Workforce Innovation and Opportunity Act title IV?

The program specific requirements for the vocational rehabilitation services portion of the Unified or Combined State Plan are set forth in sec. 101(a) of the Rehabilitation Act of 1973, as amended. All submission requirements of the Vocational Rehabilitation Services portion of the Unified or Combined State Plan are in addition to the jointly developed strategic and operational content requirements prescribed by secs. 102(b) and 103 of WIOA.

§ 676.130 What is the submission and approval process of the Unified State Plan?

(a) The Unified State Plan described in § 676.105 must be submitted in accordance with planning guidelines issued jointly by the Secretaries of Labor and Education which explain the submission and approval process in WIOA sec. 102(c).

(b) A State must submit its Unified State Plan to the Secretary of Labor pursuant to a process identified by the Secretary.

(1) The initial Unified State Plan must be submitted no later than 120 days prior to the commencement of the second full program year of WIOA.

(2) The subsequent Unified State Plan must be submitted no later than 120 days prior to the end of the 4-year period described in paragraph (b)(1) of this section.

(3) For purposes of paragraph (b) of this section, ''program year'' means July 1 through June 30 of any year.

(c) The State must provide an opportunity for public comment on and input into the development of the Unified State Plan prior to its submission.

(1) The opportunity for public comment must include an opportunity for comment by representatives of Local Boards and chief elected officials, businesses, representatives of labor organizations, community-based organizations, adult education providers, institutions of higher education, other stakeholders with an interest in the services provided by the six core programs, and the general public, including individuals with disabilities.

(2) Consistent with the ''Sunshine Provision'' of WIOA in sec. 101(g), the State Board must make information regarding the Unified State Plan available to the public through electronic means and regularly occurring open meetings in accordance with State law. The Unified State Plan must describe the State's process and timeline for ensuring a meaningful opportunity for public comment.

(d) Upon receipt of the Unified State Plan from the State, the Secretary of Labor will ensure that the entire Unified State Plan is submitted to the Secretary of Education pursuant to a process developed by the Secretaries.

(e) The Unified State Plan is subject to the approval of both the Secretary of Labor and the Secretary of Education.

(f) Before the Secretary of Labor and the Secretary of Education approve the Unified State Plan, the vocational

rehabilitation portion of the Unified State Plan described in WIOA sec. 102(b)(2)(D)(iii) must be approved by the Commissioner of the Rehabilitation Services Administration.

(g) The Secretary of Labor and the Secretary of Education will review and approve the Unified State Plan within 90 days of receipt by the appropriate Secretary, unless the Secretary of Labor or the Secretary of Education determines in writing within that period that:

(1) The plan is inconsistent with a core program's requirements;

(2) The Unified State Plan is inconsistent with any requirement of sec. 102 of WIOA; or

(3) The plan is incomplete or otherwise insufficient to determine whether it is consistent with a core program's requirements or other requirements of WIOA.

(h) If neither the Secretary of Labor nor the Secretary of Education makes the written determination described in paragraph (g) of this section within 90 days of the receipt by the Secretaries, the Unified State Plan will be considered approved.

§ 676.135 What are the requirements for modification of the Unified State Plan?

(a) In addition to the required modification review set forth in paragraph (b) of this section, a Governor may submit a modification of its Unified State Plan at any time during the 4-year period of the plan.

(b) Modifications are required, at a minimum:

(1) At the end of the first 2-year period of any 4-year State Plan, wherein the State Board must review the Unified State Plan, and the Governor must submit modifications to the plan to reflect changes in labor market and economic conditions or other factors affecting the implementation of the Unified State Plan;

(2) When changes in Federal or State law or policy substantially affect the strategies, goals, and priorities upon which the Unified State Plan is based;

(3) When there are changes in the statewide vision, strategies, policies, State adjusted levels of performance, the methodology used to determine local allocation of funds, reorganizations which change the working relationship with system employees, changes in organizational responsibilities, changes to the membership structure of the State Board or alternative entity, and similar substantial changes to the State's workforce investment system.

(c) Modifications to the Unified State Plan are subject to the same public review and comment requirements in § 676.130(c) that apply to the development of the original Unified State Plan.

(d) Unified State Plan modifications must be approved by the Secretary of Labor and the Secretary of Education, based on the approval standards applicable to the original Unified State Plan under § 676.130. This approval must come after the approval of the Commissioner of the Rehabilitation Services Administration for modification of any portion of the plan described in sec. 102(b)(2)(D)(iii) of WIOA.

§ 676.140 What are the general requirements for submitting a Combined State Plan?

(a) A State may choose to develop and submit a 4-year Combined State Plan in lieu of the Unified State Plan described in § 676.105.

(b) A State that submits a Combined State Plan covering an activity or program described in paragraph (d) of this section that is approved under WIOA sec. 103(c) or determined complete under the law relating to the program will not be required to submit any other plan or application in order to receive Federal funds to carry out the core programs or the program or activities described under paragraph (d) of this section that are covered by the Combined State Plan.

(c) If a State develops a Combined State Plan, it must be submitted in accordance with the process described in § 676.143.

(d) If a State chooses to submit a Combined State Plan, the Plan must include the six core programs and one or more of the optional programs and activities described in sec. 103(a)(2) of WIOA. The optional programs and activities that may be included in the Combined State Plan are:

(1) Career and technical education programs authorized under the Carl D. Perkins Career and Technical Education Act of 2006 (20 U.S.C. 2301 *et seq.*);

(2) Temporary Assistance for Needy Families or TANF, authorized under part A of title IV of the Social Security Act (42 U.S.C. 601 *et seq.*);

(3) Employment and training programs authorized under sec. 6(d)(4) of the Food and Nutrition Act of 2008 (7 U.S.C. 2015(d)(4));

(4) Work programs authorized under sec. 6(o) of the Food and Nutrition Act of 2008 (7 U.S.C. 2015(o));

(5) Trade adjustment assistance activities under chapter 2 of title II of the Trade Act of 1974 (19 U.S.C. 2271 *et seq.*);

(6) Services for veterans authorized under chapter 41 of title 38 United States Code;

(7) Programs authorized under State unemployment compensation laws (in accordance with applicable Federal law);

(8) Senior Community Service Employment Programs under title V of the Older Americans Act of 1956 (42 U.S.C. 3056 *et seq.*);

(9) Employment and training activities carried out by the Department of Housing and Urban Development;

(10) Employment and training activities carried out under the Community Services Block Grant Act (42 U.S.C. 9901 *et seq.*); and

(11) Reintegration of offenders programs authorized under sec. 212 of the Second Chance Act of 2007 (42 U.S.C. 17532).

(e) A Combined State Plan must contain:

(1) For the core programs, the information required by sec. 102(b) of WIOA and § 676.105, as explained in the joint planning guidance issued by the Secretaries;

(2) For the optional programs, except as described in paragraph (h) of this section, the information required by the law authorizing and governing that program to be submitted to the appropriate Secretary, any other applicable legal requirements, and any common planning requirements described in sec. 102(b) of WIOA, as explained in the joint planning guidance issued by the Secretaries;

(3) A description of joint planning methods across all programs included in the Combined State Plan; and

(4) An assurance that all of the entities responsible for planning or administering the programs described in the Combined State Plan have had a meaningful opportunity to review and comment on all portions of the Plan.

(f) Each optional program included in the Combined State Plan remains subject to the applicable program-specific requirements of the Federal law and regulations, and any other applicable legal or program requirements, governing the implementation and operation of that program.

(g) For purposes of §§ 676.140 through 676.145 the term ''appropriate Secretary'' means the head of the Federal agency who exercises either plan or application approval authority for the program or activity under the Federal law authorizing the program or activity or, if there are no planning or application requirements, who exercises administrative authority over the program or activity under that Federal law.

(h) States that include employment and training activities carried out under

the Community Services Block Grant (CSBG) Act (42 U.S.C. 9901 *et seq.*) under a Combined State Plan would submit all other required elements of a complete CSBG State Plan directly to the Federal agency that administers the program, according to the requirements of Federal law and regulations.

§ 676.143 What is the submission and approval process of the Combined State Plan?

(a) For purposes of § 676.140(a), if a State chooses to develop a Combined State Plan it must submit the Combined State Plan in accordance with the requirements described below and the joint planning guidelines, which will further explain the submission and approval procedures for the Combined State Plan, issued by the Secretaries.

(b) The State must submit to the Secretaries of Labor and Education and to the Secretary of the agency with responsibility for approving the program's plan or determining it complete under the law governing the program, as part of its Combined State Plan, any plan, application, form, or any other similar document that is required as a condition for the approval of Federal funding under the applicable program or activity. Such submission must occur in accordance with a process identified by the relevant Secretaries in paragraph (a) of this section.

(c) The Combined State Plan will be approved or disapproved in accordance with the requirements of sec. 103(c) of WIOA.

(1) The portion of the Combined State Plan covering programs administered by the Departments of Labor and Education must be reviewed, and approved or disapproved, by the appropriate Secretary within 90 days beginning on the day the plan is received by the appropriate Secretary from the State, except as provided in paragraph (d) of this section.

(2) If an appropriate Secretary other than the Secretary of Labor or the Secretary of Education has authority to approve or determine complete a portion of the Combined State Plan for a program or activity described in § 676.140(d), that portion of the plan must be reviewed, and approved, disapproved, or have a determination of completeness, by the appropriate Secretary within 120 days beginning on the day the plan is received by the appropriate Secretary from the State except as provided in paragraph (e) of this section.

(d) The review and determination of approval or disapproval, or determination of completeness, of the relevant portion of the Combined State Plan must occur within 90 days for all Department of Labor and Education programs included in the State Plan and within 120 days for the programs administered by other Federal Agencies unless the appropriate Secretary determines in writing within that period that:

(1) The Plan is inconsistent with the requirements of the six core programs or the Federal laws authorizing or applicable to the program or activity involved, including the criteria for approval of a plan or application, or determining the plan's completeness, if any, under such law;

(2) The portion of the Plan describing the six core programs or the program or activity described in paragraph (a) of this section involved does not satisfy the criteria as provided in sec. 102 or 103 of WIOA, as applicable; or

(3) The Plan is incomplete, or otherwise insufficient to determine whether it is consistent with a core program's requirements, other requirements of WIOA, or the Federal laws authorizing, or applicable to, the program or activity described in § 676.140(d), including the criteria for approval of a plan or application, if any, under such law.

(e) If the Secretary of Labor, the Secretary of Education, or the appropriate Secretary does not make the written determination described in paragraph (d) of this section within the relevant period of time after submission of the Plan, that portion of the Combined State Plan over which the Secretary has jurisdiction will be considered approved.

(f) *Special rule.* In paragraphs (d)(1) and (3) of this section, the term ''criteria for approval of a plan or application,'' with respect to a State or a core program or a program under the Carl D. Perkins Career and Technical Education Act of 2006 (20 U.S.C. 2301 *et seq.*), includes a requirement for agreement between the State and the appropriate Secretaries regarding State performance measures or State performance accountability measures, as the case may be, including levels of performance.

§ 676.145 What are the requirements for modifications of the Combined State Plan?

(a) For the core program portions of the Combined State Plan, modifications are required at the end of the first 2-year period of any 4-year Combined State Plan. The State Board must review the Combined State Plan, and the Governor must submit a modification of the Combined State Plan to reflect changes in labor market and economic conditions or in other factors affecting the implementation of the Combined State Plan.

(b) In addition to the required modification review described in paragraph (a) of this section, a State may submit a modification of its Combined State Plan at any time during the 4-year period of the plan.

(c) For any programs and activities described in § 676.140(d) that are included in a State's Combined State Plan, the State—

(1) May decide if the modification requirements under WIOA sec. 102(c)(3) that apply to the core programs will apply to the optional programs or activities described in § 676.140(d) that are included in the Combined State Plan or may comply with the procedures and requirements applicable to only the particular optional program or activity; and

(2) Must submit, in accordance with the procedure described in § 676.143, any other modification, amendment, or revision required by the Federal law authorizing, or applicable to, the program or activity described in § 676.140(d). If the underlying programmatic requirements change for Federal laws authorizing such programs, a State must either modify its Combined State Plan or submit a separate plan to the appropriate Federal agency in accordance with the new Federal law authorizing the optional program or activity and other legal requirements applicable to such program or activity. A State also may amend its Combined State Plan to add an optional program or activity described in § 676.140(d).

(d) Modifications of the Combined State Plan are subject to the same public review and comment requirements that apply to the development of the original Combined State Plan as described in § 676.130(c) except that, if the modification, amendment, or revision affects the administration of a particular optional program and has no impact on the Combined State Plan as a whole or the integration and administration of the core and optional programs at the State level, a State may comply instead with the procedures and requirements applicable to the particular optional program.

(e) Modifications for the core program portions of the Combined State Plan must be approved by the Secretary of Labor and the Secretary of Education, based on the approval standards applicable to the original Combined State Plan under § 676.143. This approval must come after the approval of the Commissioner of the Rehabilitation Services Administration for modification of any portion of the

Combined State Plan described in sec. 102(b)(2)(D)(iii) of WIOA.

(f) Modifications for the portions of the Combined State Plan for any optional program or activity described in § 676.140(d) must be submitted for approval by only the appropriate Secretary, based on the approval standards applicable to the original Combined State Plan under § 676.143, if the State elects, or in accordance with the procedures and requirements applicable to the particular optional program if the modification, amendment, or revision affects the administration of only that particular optional program and has no impact on the Combined State Plan as a whole or the integration and administration of the core and optional programs at the State level.

■ 2. Add part 677 to read as follows:

PART 677—PERFORMANCE ACCOUNTABILITY UNDER TITLE I OF THE WORKFORCE INNOVATION AND OPPORTUNITY ACT

Sec.
677.150 What definitions apply to Workforce Innovation and Opportunity Act performance measurement and reporting requirements?

Subpart A—State Indicators of Performance for Core Programs

677.155 What are the primary indicators of performance under the Workforce Innovation and Opportunity Act?
677.160 What information is required for State performance reports?
677.165 May a State require additional indicators of performance?
677.170 How are State adjusted levels of performance for primary indicators established?
677.175 What responsibility do States have to use quarterly wage record information for performance accountability?

Subpart B—Sanctions for State Performance and the Provision of Technical Assistance

677.180 What State actions are subject to a financial sanction under Workforce Innovation and Opportunity Act?
677.185 When are sanctions applied for failure to report?
677.190 When are sanctions applied for failure to achieve adjusted levels of performance?
677.195 What should States expect when a sanction is applied to the Governor's Reserve Allotment?
677.200 What other administrative actions will be applied to States' performance requirements?

Subpart C—Local Performance Accountability for Workforce Innovation and Opportunity Act Title I Programs

677.205 What performance indicators apply to local areas?
677.210 How are local performance levels established?

Subpart D—Incentives and Sanctions for Local Performance for Workforce Innovation and Opportunity Act Title I Programs

677.215 Under what circumstances are local areas eligible for State Incentive Grants?
677.220 Under what circumstances may a corrective action or sanction be applied to local areas for poor performance?
677.225 Under what circumstances may local areas appeal a reorganization plan?

Subpart E—Eligible Training Provider Performance for Workforce Innovation and Opportunity Act Title I Programs

677.230 What information is required for the eligible training provider performance reports?

Subpart F—Performance Reporting Administrative Requirements

677.235 What are the reporting requirements for individual records for core Workforce Innovation and Opportunity Act title I, III, and IV programs?
677.240 What are the requirements for data validation of State annual performance reports?

Authority: Secs. 503, 116, 189, Pub. L. 113–128, 128 Stat. 1425 (Jul. 22, 2014).

§ 677.150 What definitions apply to Workforce Innovation and Opportunity Act performance measurement and reporting requirements?

(a) *Participant.* A reportable individual who has received staff-assisted services after satisfying all applicable programmatic requirements for the provision of services, such as eligibility determination.

(1) For the Vocational Rehabilitation (VR) program, a Participant is an individual who has an approved and signed Individualized Plan for Employment (IPE) and has begun to receive services.

(2) The following individuals are not Participants:

(i) Individuals who have not completed at least 12 contact hours in the Adult Education and Family Literacy Act (AEFLA) program;

(ii) Individuals who only use the self-service system; and

(iii) Individuals who only receive information services or activities.

(3) Programs must include participants in their performance calculations.

(b) *Reportable individual.* An individual who has taken action that demonstrates an intent to use program services and who meets specific reporting criteria of the core program, including:

(1) Individuals who provide identifying information;

(2) Individuals who only use the self-service system; and

(3) Individuals who only receive information on services or activities.

(c) *Exit.* As defined for the purpose of performance calculations, exit is the point after which an individual who has received services through any program meets the following criteria:

(1) For the adult, dislocated worker, and youth programs under Workforce Innovation and Opportunity Act (WIOA) title I, the AEFLA program under WIOA title II, and the Employment Services authorized by the Wagner-Peyser Act as amended by WIOA title III, exit date is the last date of service:

(i) The exit date cannot be determined until 90 days of no services has elapsed. At that point the exit date is applied retroactively to the last date of service.

(A) Ninety days of no service does not include self-service or information-only activities or follow-up services and

(B) There are no future services planned, excluding follow-up services.

(ii) [Reserved]

(2)(i) For the VR program as amended by WIOA title IV:

(A) The participant's record of service is closed in accordance with 34 CFR 361.56 because the participant has achieved an employment outcome; or

(B) The participant's service record is closed because the individual has not achieved an employment outcome or the individual has been determined ineligible after receiving services in accordance with 34 CFR 361.43.

(ii) Notwithstanding any other provision of this section, a participant will not be considered as meeting the definition of exit from the Vocational Rehabilitation program if the individual's service record is closed because the individual has achieved a supported employment outcome in an integrated setting but not in competitive integrated employment.

Subpart A—State Indicators of Performance for Core Programs

§ 677.155 What are the primary indicators of performance under the Workforce Innovation and Opportunity Act?

(a) All States submitting either a Unified or Combined State Plan under §§ 676.130 and 676.143 of this chapter, must propose expected levels of performance for each of the primary indicators of performance for the adult, dislocated worker, and youth programs under title I of WIOA, the AEFLA program under title II of WIOA, the Wagner-Peyser Act as amended by title III of WIOA, and the VR program as amended by WIOA.

(1) The six primary indicators for performance are:

(i) The percentage of participants, who are in unsubsidized employment during the second quarter after exit from the program;

(ii) The percentage of participants, who are in unsubsidized employment during the fourth quarter after exit from the program;

(iii) Median earnings of participants, who are in unsubsidized employment during the second quarter after exit from the program;

(iv) The percentage of participants who obtained a recognized post-secondary credential or a secondary school diploma, or its recognized equivalent during participation in or within 1 year after exit from the program. A participant who has obtained a secondary school diploma or its recognized equivalent is only included in this measure if the participant is also employed or is enrolled in an education or training program leading to a recognized post-secondary credential within 1 year from program exit;

(v) The percentage of participants who during a program year, are in an education or training program that leads to a recognized post-secondary credential or employment and who are achieving measurable skill gains, defined as documented academic, technical, occupational or other forms of progress, towards such a credential or employment.

(vi) Effectiveness in serving employers, based on indicators developed as required by sec. 116(b)(2)(A)(iv) of WIOA.

(2) [Reserved]

(b) The indicators in paragraphs (a)(1)(i) through (vi) of this section apply to the adult, dislocated worker, AEFLA and VR programs.

(c) The indicators in paragraphs (a)(1)(i) through (iii) and (vi) of this section apply to the Employment Services.

(d) For the youth program under title I of WIOA, the indicators are:

(1) Percentage of participants who are in education or training activities, or in unsubsidized employment, during the second quarter after exit from the program;

(2) Percentage of participants in education or training activities, or in unsubsidized employment, during the fourth quarter after exit from the program;

(3) Median earnings of participants who are in unsubsidized employment during the second quarter after exit from the program;

(4) The percentage of participants who obtained a recognized post-secondary credential or a secondary school diploma, or its recognized equivalent, during participation or up to 1 year after exit. A participant who has obtained a secondary school diploma or its recognized equivalent is only included in this measure if the participant is also employed or is enrolled in an education or training program leading to a recognized post-secondary credential within 1 year from program exit;

(5) The percentage of participants who during a program year, are in an education or training program that leads to a recognized post-secondary credential or employment and who are achieving measurable skill gains, defined as documented academic, technical, occupational or other forms of progress towards such a credential or employment;

(6) Effectiveness in serving employers, based on indicators developed as required by sec. 116(b)(2)(iv) of WIOA.

§ 677.160 What information is required for State performance reports?

(a) Section 116(d)(2) of WIOA requires States to submit a State performance report. The State performance report must be submitted annually using a template the Departments will disseminate and must provide, at a minimum, information on the actual performance levels achieved consistent with § 677.175 with respect to:

(1) The total number of participants served, and the total number of participants who exited each of the core programs identified in sec. 116(b)(3)(A)(ii) of WIOA, including disaggregated counts of those who participated in and exited a core program, by:

(i) Individuals with barriers to employment as defined in WIOA sec. 3(24); and

(ii) Co-enrollment in any of the programs in WIOA sec 116(b)(3)(A)(ii).

(2) Information on the performance levels achieved for the primary indicators for all of the core programs identified in § 677.155 including disaggregated levels for:

(i) Individuals with barriers to employment as defined in WIOA sec. 3(24);

(ii) Age;

(iii) Sex; and

(iv) Race and ethnicity.

(3) The total number of participants and exiters who received career and training services for the most recent program year and the three preceding program years, as applicable to the program;

(4) Information on the performance levels achieved for the primary indicators consistent with § 677.155 for career and training services for the most recent program year and the 3 preceding program years, as applicable to the program;

(5) The percentage of participants in a program who obtained unsubsidized employment related to the training received (often referred to as training-related employment) through WIOA title I–B programs;

(6) The amount of funds spent on each type of career and training service for the most recent program year and the 3 preceding program years, as applicable to the program;

(7) The average cost per participant for those participants who received career and training services, respectively, during the most recent program year and the 3 preceding program years for, as applicable to the program;

(8) The percentage of a State's annual allotment under WIOA sec. 132(b) that the State spent on administrative costs; and

(9) Information that facilitates comparisons of programs with programs in other States.

(10) For WIOA title I programs, a State performance narrative, which, for States in which a local area is implementing a pay-for-performance contracting strategy, at a minimum provides:

(i) A description of pay-for-performance contract strategies being used for programs;

(ii) The performance of service providers entering into contracts for such strategies, measured against the levels of performance specified in the contracts for such strategies; and

(iii) An evaluation of the design of the programs and performance strategies and, when available, the satisfaction of employers and participants who received services under such strategies.

(b) The disaggregation of data for the State performance report must be done in compliance with WIOA sec. 116(d)(6)(C).

(c) The State performance reports must include a mechanism of electronic access to the State's local area and ETP performance reports.

(d) States must comply with these requirements from sec. 116 of WIOA as explained in joint guidance issued by the Departments of Education and Labor, which may include information on reportable individuals as determined by the Secretaries.

§ 677.165 May a State require additional indicators of performance?

States may identify additional indicators of performance for the six

core programs. These indicators must be included in the Unified or Combined State Plan.

§ 677.170 How are State adjusted levels of performance for primary indicators established?

(a) A State must submit in the State Plan expected levels of performance on the primary indicators for each core program as required by sec. 116(b)(iv) of WIOA as explained in joint guidance issued by the Secretaries of Education and Labor.

(1) The initial State Plan submitted under WIOA must contain expected levels of performance for the first 2 years of the State Plan period.

(2) States must submit expected levels of performance for the third and fourth year of the State Plan before the third program year consistent with §§ 676.135 and 676.145 of this chapter.

(b) The State must reach agreement on levels of performance with the Secretaries of Education and Labor for each of the core programs based on the following factors:

(1) How the levels of performance compare with State adjusted levels of performance established for other States;

(2) The application of an objective statistical model established by the Secretaries of Education and Labor, subject to paragraph (d) of this section;

(3) How the levels promote continuous improvement in performance based on the primary indicators and ensure optimal return on investment of Federal funds; and

(4) The extent to which the levels assist the State in meeting the performance goals established by the Secretaries of Education and Labor for the core programs in accordance with the Government Performance and Results Act of 1993, and its amendments.

(c) An objective statistical adjustment model will be developed and disseminated by the Secretaries. The model will be based on:

(1) Differences among States in actual economic conditions, including unemployment rates and job losses or gains in particular industries; and

(2) The characteristics of participants, including:

(i) Indicators of poor work history;

(ii) Lack of work experience;

(iii) Lack of educational or occupational skills attainment;

(iv) Dislocation from high-wage and high-benefit employment;

(v) Low levels of literacy;

(vi) Low levels of English proficiency;

(vii) Disability status;

(viii) Homelessness;

(ix) Ex-offender status; and

(x) Welfare dependency.

(d) The objective statistical adjustment model developed under paragraph (c) of this section will be:

(1) Applied to the core programs' primary indicators upon availability of data which is necessary to populate the model and apply it to the programs;

(2) Subject to paragraph (d)(1) of this section, used before the beginning of a program year in order to establish State performance targets for the upcoming program year; and

(3) subject to paragraph (d)(1) of this section, used to revise performance levels at the end of a program year based on actual circumstances, consistent with sec. 116(b)(3)(vii) of WIOA.

(e) States must comply with these requirements from sec. 116 of WIOA as explained in joint guidance issued by the Departments of Education and Labor.

§ 677.175 What responsibility do States have to use quarterly wage record information for performance accountability?

(a) States must, consistent with State laws, use quarterly wage record information in measuring the progress on State adjusted levels of performance for the primary indicators outlined in § 677.155 and local performance indicators identified in § 677.205. The use of social security numbers from participants and such other information as is necessary to measure the progress of those participants through quarterly wage record information is authorized.

(b) ''Quarterly wage record information'' means intrastate and interstate wages paid to an individual, the social security number (or numbers, if more than one) of the individual and the name, address, State, and the Federal employer identification number of the employer paying the wages to the individual.

(c) The Governor may designate a State agency [or appropriate State entity] to assist in carrying out the performance reporting requirements for WIOA core programs and eligible training providers. The Governor or such agency [or appropriate State entity] is responsible for:

(1) Facilitating data matches; and

(2) Data quality reliability, protection against disaggregation that would violate privacy.

Subpart B—Sanctions for State Performance and the Provision of Technical Assistance

§ 677.180 What State actions are subject to a financial sanction under Workforce Innovation and Opportunity Act?

The following failures by a State are subject to financial sanction under WIOA sec. 116(d):

(a) The failure by a State to submit the State annual performance report required under WIOA sec. 116(d)(2); or

(b) The failure by a State to meet adjusted levels of performance for the primary indicators of performance in accordance with sec. 116(f) of WIOA.

§ 677.185 When are sanctions applied for failure to report?

(a) Sanctions will be applied when a State fails to submit the State annual performance reports required under sec. 116(d)(2) of WIOA. It is a failure to report if the State either:

(1) Does not submit a State annual performance report by the date for timely submission set in performance reporting guidance; or

(2) Submits a State annual performance report by the date for timely submission, but the report is incomplete.

(b) Sanctions will not be assessed if the reporting failure is due to exceptional circumstances outside of the State's control. Exceptional circumstances may include, but are not limited to:

(1) Natural disasters;

(2) Unexpected personnel transitions; and

(3) Unexpected technology related impacts.

(c) In the event that a State may not be able to submit a complete and accurate performance report by the deadline for timely reporting:

(1) The State must notify the Secretary of Labor or Secretary of Education as soon as possible of a potential impact on the ability to submit their State annual performance reports by no later than 30 days prior to the established deadline in order to not be considered failing to report.

(2) In circumstances where unexpected events occur within the 30-day period before the deadline for submission of the State annual performance reports, the Secretary of Labor and Secretary of Education will review requests for extending the reporting deadline in accordance with the Departments' procedures explained in guidance on reporting timelines.

§ 677.190 When are sanctions applied for failure to achieve adjusted levels of performance?

(a) States' negotiated levels of performance will be adjusted through the application of the statistical adjustment model established under § 677.170 to account for actual conditions experienced during a program year and characteristics of participants, annually at the close of each program year.

(b) States that fail to meet adjusted levels of performance for the primary indicators of performance outlined in § 677.155 for any year will receive technical assistance, including assistance in the development of a performance improvement plan provided by the Secretary of Labor or Secretary of Education.

(c) State failure to meet adjusted levels of performance will be determined through three criteria:

(1) Overall State program scores, based on the percent achieved by a program on each of the six primary indicators compared to the adjusted goal for each primary indicator. The average of the percentage of the adjusted goal achieved for each primary indicator will constitute the overall program score for the State;

(2) Overall State indicator scores, based on the percent achieved by each program on each of the individual primary indicators compared to the adjusted goal. The average of the percentage of the adjusted goal achieved for each of the six core programs' will constitute an overall indicator score for the State; and

(3) Individual indicator scores, based on the percent achieved by each program on each of the individual primary indicators compared to the adjusted goals.

(d) A performance failure occurs when:

(1) Any overall State program score or overall State indicator score falls below 90 percent for the program year; or

(2) Any of the States' individual indicator scores fall below 50 percent for the program year.

(e) Sanctions based on performance failure will be applied to States if, for 2 consecutive years, the State fails to meet 90 percent of the overall State program score, 90 percent of the overall State indicator score, or 50 percent on any individual indicator score for the same program or indicator.

§ 677.195 What should States expect when a sanction is applied to the Governor's Reserve Allotment?

(a) The Secretary of Labor and the Secretary of Education will reduce the Governor's Reserve Allotment by 5 percent of the maximum available amount for the immediately succeeding program year if:

(1) The State fails to submit the State annual performance reports as required under WIOA sec. 116(d)(2), as defined in § 677.185; or

(2) The State fails to meet State adjusted levels of performance for the same primary performance indicator(s) under either § 677.190(d)(1) or § 677.190(d)(2) for the second consecutive year as defined in § 677.190.

(b) If the State fails under paragraphs (a)(1) and (2) of this section in the same program year, the Secretary of Labor and the Secretary of Education will reduce the Governor's Reserve Allotment by 10 percent of the maximum available amount for the immediately succeeding program year.

(c) If a State's Governor's Reserve Allotment is reduced:

(1) The reduced amount will not be returned to the State in the event that the State later improves performance or submits its annual performance report; and

(2) The Governor's reserve will continue to be set at the reduced level in each subsequent year until the Secretary of Labor or the Secretary of Education, dependent upon the impacted program, determines that the State met the State adjusted levels of performance for the applicable primary performance indicators and has submitted all of the required performance reports.

(d) A State may request review of a sanction the U.S. Department of Labor imposes in accordance with the provisions of § 683.800 of this chapter.

§ 677.200 What other administrative actions will be applied to States' performance requirements?

(a) In addition to sanctions for failure to report or failure to meet adjusted levels of performance, States will be subject to administrative actions in the case of poor performance.

(b) States' performance achievement on the individual primary indicators will be assessed in addition to the overall program score and overall indicator score. Based on this assessment, as clarified and explained in guidance, for performance on any individual primary indicator, the Secretary of Labor or the Secretary of Education will require the State to establish a performance risk plan to address continuous improvement on the individual primary indicator.

Subpart C—Local Performance Accountability for Workforce Innovation and Opportunity Act Title I Programs

§ 677.205 What performance indicators apply to local areas?

(a) Each local workforce investment area in a State under title I of WIOA is subject to the same primary indicators of performance for the core programs for WIOA title I under § 677.155(a)(1) and (d) that apply to the State.

(b) In addition to the indicators described in paragraph (a) of this section, under § 677.165, the Governor may apply additional indicators of performance to local areas in the State.

(c) States must annually make local area performance reports available to the public using a template that the Departments will disseminate in guidance, including by electronic means. The State must provide electronic access to the public local area performance report in its annual State performance report.

(d) The local area performance report must provide information on the actual performance levels for the local area based on quarterly wage records consistent with the requirements for States under § 677.175.

(e) The local area performance report must include:

(1) Performance levels achieved by the local area for the indicators for the adult, dislocated worker, and youth programs under title I of WIOA in § 677.155(a)(1) and (3);

(2) Performance levels achieved by the local area for the adult, dislocated worker, and youth programs under title I of WIOA in § 677.160(a);

(3) The percentage of a local area's allotment under WIOA sec. 128(b) and sec. 133(b) that the local area spent on administrative costs; and

(4) Other information that facilitates comparisons of programs with programs in other local areas (or planning regions if the local area is part of a planning region).

(f) States must comply with any requirements from sec. 116(d)(3) of WIOA as explained in guidance, including the use of the performance reporting template, issued by the Department of Labor.

§ 677.210 How are local performance levels established?

(a) The objective statistical adjustment model required under sec. 116(b)(3)(A)(viii) of WIOA and described in the § 677.170 must be:

(1) Used to establish local performance targets for the upcoming program year; and

(2) Used to revise performance levels at the end of a program year based on actual circumstances, consistent with WIOA sec. 116(c)(3).

(b) The Governor, Local Board, and chief elected official must reach agreement on local targets and levels based on a negotiations process before the start of a program year with the use of the objective statistical model described in paragraph (a) of this section. The negotiations will include a discussion of circumstances not accounted for in the model and will take into account the extent to which the levels promote continuous improvement. The objective statistical model will be applied at the end of the program year based on actual conditions experienced.

(c) The negotiations process described in paragraph (b) of this section must be developed by the Governor and disseminated to all Local Boards and chief elected officials.

(d) The Local Boards may apply performance measures to service providers that differ from the performance measures that apply to the local area. These performance measures should be established after considering:

(1) The established local performance levels;

(2) The services provided by each provider; and

(3) The populations the service providers are intended to serve.

Subpart D—Incentives and Sanctions for Local Performance for Workforce Innovation and Opportunity Act Title I Programs

§ 677.215 Under what circumstances are local areas eligible for State Incentive Grants?

(a) The Governor is not required to award local incentive funds. The Governor may use non-Federal funds to create incentives for Local Boards to implement pay-for-performance contract strategies for the delivery of training services described in WIOA sec. 134(c)(3) or activities described in WIOA sec. 129(c)(2) in the local areas served by the Local Boards.

(b) Pay-for-performance contract strategies must be implemented in accordance with §§ 683.500 through 683.530 of this chapter and § 677.160.

§ 677.220 Under what circumstances may a corrective action or sanction be applied to local areas for poor performance?

(a) If a local area fails to meet the levels of performance agreed to under § 677.210 for the primary indicators of performance in the adult, dislocated worker, and youth programs authorized under WIOA title I in any program year, technical assistance must be provided by the Governor or, upon the Governor's request, by the Secretary of Labor.

(1) A State must establish the threshold for failure in meeting levels of performance for a local area before negotiating the adjusted levels of performance for the local area.

(2) The technical assistance may include:

(i) Assistance in the development of a performance improvement plan;

(ii) The development of a modified local or regional plan; or

(iii) Other actions designed to assist the local area in improving performance.

(b) If a local area fails to meet the levels of performance agreed to under § 677.210 for the primary indicators of performance for the adult, dislocated worker, and youth programs authorized under WIOA title I for a third consecutive program year, the Governor must take corrective actions. The corrective actions must include the development of a reorganization plan under which the Governor:

(1) Requires the appointment and certification of a new Local Board, consistent with the criteria established under § 679.350 of this chapter;

(2) Prohibits the use of eligible providers and one-stop partners that have been identified as achieving poor levels of performance; or

(3) Takes such other significant actions as the Governor determines are appropriate.

§ 677.225 Under what circumstances may local areas appeal a reorganization plan?

(a) The Local Board and chief elected official for a local area that is subject to a reorganization plan under WIOA sec. 116(g)(2)(A) may appeal to the Governor to rescind or revise the reorganization plan not later than 30 days after receiving notice of the reorganization plan. The Governor must make a final decision within 30 days after receipt of the appeal.

(b) The Local Board and chief elected official may appeal the final decision of the Governor to the Secretary of Labor not later than 30 days after receiving the decision from the Governor. Any appeal of the Governor's final decision must be:

(1) Appealed jointly by the Local Board and chief elected official to the Secretary under § 683.650 of this chapter; and

(2) Must be submitted by certified mail, return receipt requested, to the Secretary, U.S. Department of Labor, 200 Constitution Ave. NW., Washington DC 20210, Attention: ASET. A copy of the appeal must be simultaneously provided to the Governor.

(c) Upon receipt of the joint appeal from the Local Board and chief elected official, the Secretary must make a final decision within 30 days. In making this determination the Secretary may consider any comments submitted by the Governor in response to the appeals.

(d) The decision by the Governor to impose a reorganization plan becomes effective at the time it is issued and remains effective unless the Secretary of Labor rescinds or revises the reorganization plan under WIOA sec. 116(g)(2)(B)(ii).

Subpart E—Eligible Training Provider Performance for Workforce Innovation and Opportunity Act Title I Programs

§ 677.230 What information is required for the eligible training provider performance reports?

(a) States are required to make available, and publish, annually using a template the Departments will disseminate including through electronic means, the eligible training provider performance reports for eligible training providers who provide services under sec. 122 of WIOA that are described in §§ 680.400 through 680.530 of this chapter. These reports at a minimum must include, consistent with § 677.175 and with respect to each program of study that is eligible to receive funds under WIOA:

(1) The total number of participants who received training services under the adult and dislocated worker programs authorized under WIOA title I for the most recent year and the 3 preceding program years, including:

(i) The number of participants under the adult and dislocated worker programs disaggregated by barriers to employment;

(ii) The number of participants under the adult and dislocated worker programs disaggregated by race, ethnicity, sex, and age;

(iii) The number of participants under the adult and dislocated worker programs disaggregated by the type of training entity for the most recent program year and the 3 preceding program years;

(2) The total number of participants who exit a program of study or its equivalent, including disaggregate counts by the type of training entity during the most recent program year and the 3 preceding program years;

(3) The average cost-per-participant for participants who received training services for the most recent program year and the 3 preceding program years disaggregated by type of training entity;

(4) The total number of individuals exiting from the program of study (or the equivalent); and

(5) The levels of performance achieved for the primary indicators of performance identified in §§ 677.155(a)(1)(i) through (iv) with respect to all individuals in a program of study (or the equivalent).

(b) Registered apprenticeship programs are not required to submit performance information. See § 680.470 of this chapter. If a registered apprenticeship program voluntarily submits performance information to a State, the State must include this information in the report.

(c) The State must provide electronic access to the public eligible training provider performance report in its annual State performance report.

(d) States must comply with any requirements from sec. 116(d)(4) of WIOA as explained in guidance issued by the Department of Labor.

(e) The Governor may designate one or more State agencies such as a State education agency or State educational authority to assist in overseeing eligible training provider performance and facilitating the production and dissemination of eligible training provider performance reports. These agencies may be the same agencies that are designated as responsible for administering the eligible training providers list as provided under § 680.500 of this chapter. The Governor or such agencies, or authorities, is responsible for:

(1) Facilitating data matches between ETP records and UI wage data in order to produce the report;

(2) The creation and dissemination of the reports as described in paragraphs (a) through (d) of this section;

(3) Coordinating the dissemination of the performance reports with the eligible training provider list and the information required to accompany the list, as provided in § 680.500 of this chapter.

Subpart F—Performance Reporting Administrative Requirements

§ 677.235 What are the reporting requirements for individual records for core Workforce Innovation and Opportunity Act title I, III, and IV programs?

(a) On a quarterly basis, each State must submit to the Secretary of Labor or Secretary of Education, as appropriate, individual records that include demographic information, information on services received, and information on resulting outcomes, as appropriate, for each reportable individual in a core program administered by the Secretary of Labor or Education. Such records submitted to the Department of Labor must be submitted in one record that is integrated across all core Department of Labor programs.

(b) For individual records submitted to the Secretary of Labor, records must be integrated across all core programs administered by the Secretary of Labor in one single file.

(c) States must comply with any other requirements from sec. 116(d)(2) of WIOA as explained in guidance issued by the Department of Labor.

§ 677.240 What are the requirements for data validation of State annual performance reports?

(a) States must establish procedures, consistent with guidelines issued by the Secretary of Education or Secretary of Labor, to submit complete annual performance reports that contain information that is valid and reliable.

(b) If a State fails to meet standards in paragraph (a) of this section as determined by the Secretary of Labor or Secretary of Education, the appropriate Secretary will provide technical assistance and may require the State to develop and implement corrective actions, which may require the State to provide training for its subrecipients.

(c) The Secretary of Labor and the Secretary of Education will provide training and technical assistance to States in order to implement this section.

■ 3. Add part 678 to read as follows:

PART 678—DESCRIPTION OF THE ONE–STOP SYSTEM UNDER TITLE I OF THE WORKFORCE INNOVATION AND OPPORTUNITY ACT

Subpart A—General Description of the One-Stop Delivery System

Sec.
678.300 What is the one-stop delivery system?
678.305 What is a comprehensive one-stop center and what must be provided there?
678.310 What is an affiliated site and what must be provided there?
678.315 Can a stand-alone Wagner-Peyser employment service office be designated as an affiliated one-stop site?
678.320 Are there any requirements for networks of eligible one-stop partners or specialized centers?

Subpart B—One-Stop Partners and the Responsibilities of Partners

678.400 Who are the required one-stop partners?
678.405 Is Temporary Assistance for Needy Families a required one-stop partner?
678.410 What other entities may serve as one-stop partners?
678.415 What entity serves as the one-stop partner for a particular program in the local area?
678.420 What are the roles and responsibilities of the required one-stop partners?
678.425 What are the applicable career services that must be provided through the one-stop delivery system by required one-stop partners?
678.430 What are career services?
678.435 What are the business services provided through the one-stop delivery system, and how are they provided?
678.440 When may a fee be charged for the business services in this subpart?

Subpart C—Memorandum of Understanding for the One-Stop Delivery System

678.500 What is the Memorandum of Understanding for the one-stop delivery system and what must be included in the Memorandum of Understanding?
678.505 Is there a single Memorandum of Understanding for the local area, or must there be separate Memoranda of Understanding between the Local Board and each partner?
678.510 How should the Memorandum of Understanding be negotiated?

Subpart D—One-Stop Operators

678.600 Who may operate one-stop centers?
678.605 How is the one-stop operator selected?
678.610 How is sole source selection of one-stop operators accomplished?
678.615 Can an entity serving as one-stop operator compete to be a one-stop operator under the procurement requirements of this subpart?
678.620 What is the one-stop operator's role?
678.625 Can a one-stop operator also be a service provider?
678.630 Can State merit staff still work in a one-stop where the operator is not a governmental entity?
678.635 What is the effective date of the provisions of this subpart?

Subpart E—One-Stop Operating Costs

678.700 What are one-stop infrastructure costs?
678.705 What guidance must the Governor issue regarding one-stop infrastructure funding?
678.710 How are infrastructure costs funded?
678.715 How are one-stop infrastructure costs funded in the local funding mechanism?
678.720 What funds are used to pay for infrastructure costs in the local one-stop infrastructure funding mechanism?
678.725 What happens if consensus on infrastructure funding is not reached at the local level between the Local Board, chief elected officials, and one-stop partners?
678.730 What is the State one-stop infrastructure funding mechanism?
678.735 How are partner contributions determined in the State one-stop funding mechanism?
678.740 What funds are used to pay for infrastructure costs in the State one-stop infrastructure funding mechanism?
678.745 How is the allocation formula used by the Governor determined in the State one-stop funding mechanism?
678.750 When and how can a one-stop partner appeal a one-stop infrastructure

amount designated by the State under the State infrastructure funding mechanism?
678.755 What are the required elements regarding infrastructure funding that must be included in the one-stop Memorandum of Understanding?
678.760 How do one-stop partners jointly fund other shared costs under the Memorandum of Understanding?

Subpart F—One-Stop Certification

678.800 How are one-stop centers and one-stop delivery systems certified for effectiveness, physical and programmatic accessibility, and continuous improvement?

Subpart G—Common Identifier

678.900 What is the common identifier to be used by each one-stop delivery system?

Authority: Secs. 503, 107, 121, 134, 189, Pub. L. 113–128, 128 Stat. 1425 (Jul. 22, 2014).

Subpart A—General Description of the One-Stop Delivery System

§ 678.300 What is the one-stop delivery system?

(a) The one-stop delivery system brings together workforce development, educational, and other human resource services in a seamless customer-focused service delivery network that enhances access to the programs' services and improves long-term employment outcomes for individuals receiving assistance. One-stop partners administer separately funded programs as a set of integrated streamlined services to customers.

(b) Title I of the Workforce Innovation and Opportunity Act (WIOA) assigns responsibilities at the local, State, and Federal level to ensure the creation and maintenance of a one-stop delivery system that enhances the range and quality of education and workforce development services that business and individual customers can access.

(c) The system must include at least one comprehensive physical center in each local area as described in § 678.305.

(d) The system may also have additional arrangements to supplement the comprehensive center. These arrangements include:

(1) An affiliated site or a network of affiliated sites, where one or more partners make programs, services, and activities available, as described in § 678.310;

(2) A network of eligible one-stop partners, as described in §§ 678.400 through 678.410, through which each partner provides one or more of the programs, services, and activities that are linked, physically or technologically, to an affiliated site or access point that assures customers are provided information on the availability of career services, as well as other program services and activities, regardless of where they initially enter the workforce system in the local area; and

(3) Specialized centers that address specific needs, including those of dislocated workers, youth, or key industry sectors, or clusters.

(e) Required one-stop partner programs must provide access to programs, services, and activities through electronic means if applicable and practicable. This is in addition to providing access to services through the mandatory comprehensive physical one-stop center and any affiliated sites or specialized centers. The provision of programs and services by electronic methods such as Web sites, telephones, or other means must improve the efficiency, coordination, and quality of one-stop partner services. Electronic delivery must not replace access to such services at a comprehensive one-stop center or be a substitute to making services available at an affiliated site if the partner is participating in an affiliated site. Electronic delivery systems must be in compliance with the nondiscrimination and equal opportunity provisions of WIOA in sec. 188 and its implementing regulations at 29 CFR part 37.

(f) The design of the local area's one-stop delivery system must be described in the Memorandum of Understanding (MOU) executed with the one-stop partners, described in § 678.500.

§ 678.305 What is a comprehensive one-stop center and what must be provided there?

(a) A comprehensive one-stop center is a physical location where jobseeker and employer customers can access the programs, services, and activities of all required one-stop partners. A comprehensive one-stop center must have at least one title I staff person physically present.

(b) The comprehensive one-stop center must provide:

(1) Career services, described in § 678.430;

(2) Access to training services described in § 680.200 of this chapter;

(3) Access to any employment and training activities carried out under sec. 134(d) of WIOA;

(4) Access to programs and activities carried out by one-stop partners listed in §§ 678.400 through 678.410, including Wagner-Peyser employment services; and

(5) Workforce and labor market information.

(c) Customers must have access to these programs, services, and activities during regular business days at a comprehensive one-stop center. The Local Board may establish other service hours at other times to accommodate the schedules of individuals who work on regular business days. The State Board will evaluate the hours of access to service as part of the evaluation of effectiveness in the one-stop certification process described in § 678.800(b).

(d) ''Access'' to programs and services means having either: Program staff physically present at the location; having partner program staff physically present at the one-stop appropriately trained to provide information to customers about the programs, services, and activities available through partner programs; or providing direct linkage through technology to program staff who can provide meaningful information or services.

(1) A ''direct linkage'' means providing direct connection at the one-stop, within a reasonable time, by phone or through a real-time Web-based communication to a program staff member who can provide program information or services to the customer.

(2) A ''direct linkage'' does not include providing a phone number or computer Web site that can be used at an individual's home; providing information, pamphlets, or materials; or making arrangements for the customer to receive services at a later time or on a different day.

(e) All comprehensive one-stop centers must be physically and programmatically accessible to individuals with disabilities, as described in § 678.800.

§ 678.310 What is an affiliated site and what must be provided there?

(a) An affiliated site, or affiliate one-stop center, is a site that makes available to jobseeker and employer customers one or more of the one-stop partners' programs, services, and activities. An affiliated site does not need to provide access to every required one-stop partner program. The frequency of program staff's physical presence in the affiliated site will be determined at the local level. Affiliated sites are access points in addition to the Comprehensive one-stop center(s) in each local area. If used by local areas as a part of the service delivery strategy, affiliate sites should be implemented in a manner that supplements and enhances customer access to services.

(b) As described in § 678.315, Wagner-Peyser employment services cannot be a stand-alone affiliated site.

(c) States, in conjunction with the Local Workforce Development Boards, must examine lease agreements and property holdings throughout the one-stop delivery system in order to use property in an efficient and effective way. Where necessary and appropriate, States and Local Boards must take expeditious steps to align lease expiration dates with efforts to consolidate one-stop operations into service points where Wagner-Peyser employment services are collocated as soon as reasonably possible. These steps must be included in the State Plan.

(d) All affiliated sites must be physically and programmatically accessible to individuals with disabilities, as described in § 678.800.

§ 678.315 Can a stand-alone Wagner-Peyser employment service office be designated as an affiliated one-stop site?

(a) Separate stand-alone Wagner-Peyser employment services offices are not permitted under WIOA, as also described in § 652.202 of this chapter.

(b) If Wagner-Peyser employment services are provided at an affiliated site, there must be at least one other partner in the affiliated site with staff physically present more than 50 percent of the time the center is open. Additionally, the other partner must not be the partner administering local veterans' employment representatives, disabled veterans' outreach program specialists, or unemployment compensation programs. If Wagner-Peyser employment services and any of these three programs are provided at an affiliated site, an additional partner must have staff present in the center more than 50 percent of the time the center is open.

§ 678.320 Are there any requirements for networks of eligible one-stop partners or specialized centers?

Any network of one-stop partners or specialized centers must be connected to, such as having processes in place to make referrals to, the comprehensive and any appropriate affiliate one-stop centers. Wagner-Peyser employment services cannot stand alone in a specialized center. Just as described in § 678.315 for an affiliated site, a specialized center must include other programs besides Wagner-Peyser employment services, local veterans' employment representatives, disabled veterans' outreach program specialists, and unemployment compensation.

Subpart B—One-Stop Partners and the Responsibilities of Partners

§ 678.400 Who are the required one-stop partners?

(a) Section 121(b)(1)(B) of WIOA identifies the entities that are required partners in the local one-stop systems.

(b) The required partners are the entities responsible for administering the following programs and activities in the local area:

(1) Programs authorized under title I of WIOA, including:

(i) Adults;

(ii) Dislocated workers;

(iii) Youth;

(iv) Job Corps;

(v) YouthBuild;

(vi) Native American programs; and

(vii) Migrant and seasonal farmworker programs;

(2) Employment services authorized under the Wagner-Peyser Act (29 U.S.C. 49 *et seq.*);

(3) Adult education and literacy activities authorized under title II of WIOA;

(4) The Vocational Rehabilitation program authorized under title I of the Rehabilitation Act of 1973 (29 U.S.C. 720 *et seq.*);

(5) The Senior Community Service Employment Program authorized under title V of the Older Americans Act of 1965 (42 U.S.C. 3056 *et seq.*);

(6) Career and technical education programs at the post-secondary level authorized under the Carl D. Perkins Career and Technical Education Act of 2006 (20 U.S.C. 2301 *et seq.*);

(7) Trade Adjustment Assistance activities authorized under chapter 2 of title II of the Trade Act of 1974 (19 U.S.C. 2271 *et seq.*);

(8) Jobs for Veterans State Grants programs authorized under chapter 41 of title 38, U.S.C.;

(9) Employment and training activities carried out under the Community Services Block Grant (42 U.S.C. 9901 *et seq.*);

(10) Employment and training activities carried out by the Department of Housing and Urban Development;

(11) Programs authorized under State unemployment compensation laws (in accordance with applicable Federal law);

(12) Programs authorized under sec. 212 of the Second Chance Act of 2007 (42 U.S.C. 17532); and

(13) Temporary Assistance for Needy Families (TANF) authorized under part A of title IV of the Social Security Act (42 U.S.C. 601 *et seq.*), unless exempted by the Governor under § 678.405(b).

§ 678.405 Is Temporary Assistance for Needy Families a required one-stop partner?

(a) Yes, TANF, authorized under part A of title IV of the Social Security Act (42 U.S.C. 601 *et seq.*), is a required partner. (WIOA sec. 121(b)(1)(B)(xiii)).

(b) The Governor may determine that TANF will not be a required partner in the State, or within some specific local areas in the State. In this instance, the Governor must notify the Secretaries of the U.S. Departments of Labor and Health and Human Services in writing of this determination.

(c) In States, or local areas within a State, where the Governor has determined that TANF is not required to be a partner, local TANF programs may still opt to be a one-stop partner, or to work in collaboration with the one-stop center.

§ 678.410 What other entities may serve as one-stop partners?

(a) Other entities that carry out a workforce development program, including Federal, State, or local programs and programs in the private sector, may serve as additional partners in the one-stop system if the Local Board and chief elected official(s) approve the entity's participation.

(b) Additional partners may include:

(1) Employment and training programs administered by the Social Security Administration, including the Ticket to Work and Self-Sufficiency Program established under sec. 1148 of the Social Security Act (42 U.S.C. 1320b–19);

(2) Employment and training programs carried out by the Small Business Administration;

(3) Supplemental Nutrition Assistance Program (SNAP) employment and training programs, authorized under secs. 6(d)(4) and 6(o) of the Food and Nutrition Act of 2008 (7 U.S.C. 2015(d)(4));

(4) Client Assistance Program authorized under sec. 112 of the Rehabilitation Act of 1973 (29 U.S.C. 732);

(5) Programs authorized under the National and Community Service Act of 1990 (42 U.S.C. 12501 *et seq.*); and

(6) Other appropriate Federal, State or local programs, including employment, education, and training programs provided by public libraries or in the private sector.

§ 678.415 What entity serves as the one-stop partner for a particular program in the local area?

(a) The entity that carries out the program and activities listed in § 678.400 or § 678.405, and therefore

serves as the one-stop partner, is the grant recipient, administrative entity, or organization responsible for administering the funds of the specified program in the local area. The term ''entity'' does not include the service providers that contract with, or are subrecipients of, the local administrative entity. For programs that do not include local administrative entities, the responsible State agency should be the partner. Specific entities for particular programs are identified in paragraph (b) of this section. If a program or activity listed in § 678.400 is not carried out in a local area, the requirements relating to a required one-stop partner are not applicable to such program or activity in that local one-stop system.

(b) For title II of WIOA, the entity that carries out the program for the purposes of paragraph (a) of this section is the sole entity or agency in the State or outlying area responsible for administering or supervising policy for adult education and literacy activities in the State or outlying area. The State eligible entity may delegate its responsibilities under paragraph (a) of this section to one or more eligible providers or consortium of eligible providers.

(c) For the Vocational Rehabilitation program, authorized under title I of the Rehabilitation Act, the entity that carries out the program for the purposes of paragraph (a) of this section is the designated State agencies or designated State units specified under sec. 101(a)(2) of the Rehabilitation Act that is primarily concerned with vocational rehabilitation, or vocational and other rehabilitation, of individuals with disabilities.

(d) Under WIOA, the national programs, including Job Corps, the Native American program, YouthBuild, and Migrant and Seasonal Farmworker programs are required one-stop partners. The entity for the Native American program and Migrant and Seasonal Farmworker programs is the grantee of those respective programs. The entity for Job Corps is the Job Corps center.

(e) For the Carl D. Perkins Career and Technical Education Act of 2006, the entity that carries out the program for the purposes of paragraph (a) of this section is the State eligible agency. The State eligible agency may delegate its responsibilities under paragraph (a) of this section to one or more State agencies, eligible recipients at the post-secondary level, or consortia of eligible recipients at the post-secondary level.

§ 678.420 What are the roles and responsibilities of the required one-stop partners?

Each required partner must:

(a) Provide access to its programs or activities through the one-stop delivery system, in addition to any other appropriate locations; (WIOA sec. 121(b)(1)(A)(i).)

(b) Use a portion of funds made available to the partner's program, to the extent consistent with the Federal law authorizing the partner's program and with Federal cost principles in 2 CFR parts 200 and 2900 (requiring, among other things, that costs are allowable, reasonable, necessary, and allocable), to:

(1) Provide applicable career services; and

(2) Work collaboratively with the State and Local Boards to establish and maintain the one-stop delivery system. This includes jointly funding the one-stop infrastructure through partner contributions that are based upon:

(i) A reasonable cost allocation methodology by which infrastructure costs are charged to each partner in proportion to the relative benefits;

(ii) Federal cost principles; and

(iii) Any local administrative cost requirements in the Federal law authorizing the partner's program. (This is further described in § 678.700). (WIOA sec. 121(b)(1)(A)(ii).)

(c) Enter into an MOU with the Local Board relating to the operation of the one-stop system that meets the requirements of § 678.500(d);

(d) Participate in the operation of the one-stop system consistent with the terms of the MOU, requirements of authorizing laws, the Federal cost principles, and all other applicable legal requirements; (WIOA sec. 121(b)(1)(A)(iv)); and

(e) Provide representation on the State and Local Workforce Development Boards as required and participate in Board committees as needed. (WIOA secs. 101(b)(iii) and 107(b)(2)(C) and (D))

§ 678.425 What are the applicable career services that must be provided through the one-stop delivery system by required one-stop partners?

(a) The applicable career services to be delivered by required one-stop partners are those services listed in § 678.430 that are authorized to be provided under each partner's program.

(b) One-stop centers provide services to individual customers based on individual needs, including the seamless delivery of multiple services to individual customers. There is no required sequence of services. (WIOA sec. 121(e)(1)(A).)

§ 678.430 What are career services?

Career services, as identified in sec. 134(c)(2) of WIOA, consist of three types:

(a) Basic career services must be made available and, at a minimum, must include the following services, as consistent with allowable program activities and Federal cost principles:

(1) Determinations of whether the individual is eligible to receive assistance from the adult, dislocated worker, or youth programs;

(2) Outreach, intake (including worker profiling), and orientation to information and other services available through the one-stop delivery system;

(3) Initial assessment of skill levels including literacy, numeracy, and English language proficiency, as well as aptitudes, abilities (including skills gaps), and supportive services needs;

(4) Labor exchange services, including—

(i) Job search and placement assistance, and, when needed by an individual, career counseling, including—

(A) Provision of information on in-demand industry sectors and occupations (as defined in sec. 3(23) of WIOA); and

(B) Provision of information on nontraditional employment; and

(ii) Appropriate recruitment and other business services on behalf of employers, including information and referrals to specialized business services other than those traditionally offered through the one-stop delivery system;

(5) Provision of referrals to and coordination of activities with other programs and services, including programs and services within the one-stop delivery system and, when appropriate, other workforce development programs;

(6) Provision of workforce and labor market employment statistics information, including the provision of accurate information relating to local, regional, and national labor market areas, including—

(i) Job vacancy listings in labor market areas;

(ii) Information on job skills necessary to obtain the vacant jobs listed; and

(iii) Information relating to local occupations in demand and the earnings, skill requirements, and opportunities for advancement for those jobs;

(7) Provision of performance information and program cost information on eligible providers of training services by program and type of providers;

(8) Provision of information, in usable and understandable formats and

languages, about how the local area is performing on local performance accountability measures, as well as any additional performance information relating to the area's one-stop delivery system;

(9) Provision of information, in usable and understandable formats and languages, relating to the availability of supportive services or assistance, and appropriate referrals to those services and assistance, including: child care; child support; medical or child health assistance available through the State's Medicaid program and Children's Health Insurance Program; benefits under SNAP; assistance through the earned income tax credit; and assistance under a State program for Temporary Assistance for Needy Families, and other supportive services and transportation provided through that program;

(10) Provision of information and assistance regarding filing claims for unemployment compensation, by which the one-stop must provide meaningful assistance to individuals seeking assistance in filing a claim for unemployment compensation.

(i) ''Meaningful assistance'' means:

(A) Providing assistance on-site using staff who are well-trained in unemployment compensation claims filing and the rights and responsibilities of claimants; or

(B) Providing assistance by phone or via other technology, as long as the assistance is provided by trained and available staff and within a reasonable time.

(ii) The costs associated in providing this assistance may be paid for by the State's unemployment insurance program, or the WIOA adult or dislocated worker programs, or some combination thereof.

(11) Assistance in establishing eligibility for programs of financial aid assistance for training and education programs not provided under WIOA.

(b) Individualized career services must be made available if determined to be appropriate in order for an individual to obtain or retain employment. These services include the following services, as consistent with program requirements and Federal cost principles:

(1) Comprehensive and specialized assessments of the skill levels and service needs of adults and dislocated workers, which may include—

(i) Diagnostic testing and use of other assessment tools; and

(ii) In-depth interviewing and evaluation to identify employment barriers and appropriate employment goals;

(2) Development of an individual employment plan, to identify the employment goals, appropriate achievement objectives, and appropriate combination of services for the participant to achieve his or her employment goals, including the list of, and information about, the eligible training providers (as described in § 680.180 of this chapter);

(3) Group counseling;

(4) Individual counseling;

(5) Career planning;

(6) Short-term pre-vocational services including development of learning skills, communication skills, interviewing skills, punctuality, personal maintenance skills, and professional conduct services to prepare individuals for unsubsidized employment or training;

(7) Internships and work experiences that are linked to careers (as described in § 680.170 of this chapter);

(8) Workforce preparation activities;

(9) Financial literacy services as described in sec. 129(b)(2)(D) of WIOA and § 681.500 of this chapter;

(10) Out-of-area job search assistance and relocation assistance; and

(11) English language acquisition and integrated education and training programs.

(c) Follow-up services must be provided, as appropriate, including: counseling regarding the workplace, for participants in adult or dislocated worker workforce investment activities who are placed in unsubsidized employment, for up to 12 months after the first day of employment.

§ 678.435 What are the business services provided through the one-stop delivery system, and how are they provided?

(a) Certain career services must be made available to local businesses, specifically labor exchange activities and labor market information described in §§ 678.430(a)(4)(ii) and 678.430(a)(6). Local areas must establish and develop relationships and networks with large and small employers and their intermediaries. (WIOA sec. 134(c)(1)(A)(iv).) Local areas also must develop, convene, or implement industry or sector partnerships. (WIOA sec. 134(c)(1)(A)(v).)

(b) Customized business services may be provided to employers, employer associations, or other such organizations (WIOA sec. 134(d)(1)(A)(ii)). These services are tailored for specific employers and may include:

(1) Customized screening and referral of qualified participants in training services to employers;

(2) Customized services to employers, employer associations, or other such organizations, on employment-related issues;

(3) Customized recruitment events and related services for employers including targeted job fairs;

(4) Human resource consultation services, including but not limited to assistance with:

(i) Writing/reviewing job descriptions and employee handbooks;

(ii) Developing performance evaluation and personnel policies;

(iii) Creating orientation sessions for new workers;

(iv) Honing job interview techniques for efficiency and compliance;

(v) Analyzing employee turnover; or

(vi) Explaining labor laws to help employers comply with wage/hour and safety/health regulations;

(5) Customized labor market information for specific employers, sectors, industries or clusters; and

(6) Other similar customized services.

(c) Local areas may also provide other business services and strategies that meet the workforce investment needs of area employers, in accordance with partner programs' statutory requirements and consistent with Federal cost principles. These business services may be provided through effective business intermediaries working in conjunction with the Local Board, or through the use of economic development, philanthropic, and other public and private resources in a manner determined appropriate by the Local Board and in cooperation with the State. Allowable activities, consistent with each partner's authorized activities, include, but are not limited to:

(1) Developing and implementing industry sector strategies (including strategies involving industry partnerships, regional skills alliances, industry skill panels, and sectoral skills partnerships);

(2) Customized assistance or referral for assistance in the development of a registered apprenticeship program;

(3) Developing and delivering innovative workforce investment services and strategies for area employers, which may include career pathways, skills upgrading, skill standard development and certification for recognized post-secondary credential or other employer use, and other effective initiatives for meeting the workforce investment needs of area employers and workers;

(4) Assistance to area employers in managing reductions in force in coordination with rapid response activities and with strategies for the aversion of layoffs, which may include strategies such as early identification of

firms at risk of layoffs, use of feasibility studies to assess the needs of and options for at-risk firms, and the delivery of employment and training activities to address risk factors;

(5) The marketing of business services to appropriate area employers, including small and mid-sized employers; and

(6) Assisting employers with accessing local, State, and Federal tax credits.

(d) All business services and strategies must be reflected in the local plan, described in § 679.560(b)(3) of this chapter.

§ 678.440 When may a fee be charged for the business services in this subpart?

(a) There is no requirement that a fee-for-service be charged to employers.

(b) No fee may be charged for services provided in § 678.435(a).

(c) A fee may be charged for services provided under §§ 678.435(b) and (c). Services provided under § 678.435(c) may be provided through effective business intermediaries working in conjunction with the Local Board and may also be provided on a fee-for-service basis or through the leveraging of economic development, philanthropic, and other public and private resources in a manner determined appropriate by the Local Board. The Local Workforce Development Board may examine the services provided compared with the assets and resources available within the local one-stop delivery system and through its partners to determine an appropriate cost structure for services, if any.

Subpart C—Memorandum of Understanding for the One-Stop Delivery System

§ 678.500 What is the Memorandum of Understanding for the one-stop delivery system and what must be included in the Memorandum of Understanding?

(a) The MOU is the product of local discussion and negotiation, and is an agreement developed and executed between the Local Board, with the agreement of the chief elected official and the one-stop partners, relating to the operation of the one-stop delivery system in the local area. Two or more local areas in a region may develop a single joint MOU, if they are in a region that has submitted a regional plan under sec. 106 of WIOA.

(b) The MOU must include:

(1) A description of services to be provided through the one-stop delivery system, including the manner in which the services will be coordinated and delivered through the system;

(2) A final plan, or an interim plan if needed, on how the costs of the services and the operating costs of the system will be funded, including:

(i) Funding of infrastructure costs of one-stop centers in accordance with §§ 678.700 through 678.755; and

(ii) Funding of the shared services and operating costs of the one-stop delivery system described in § 678.760;

(3) Methods for referring individuals between the one-stop operators and partners for appropriate services and activities;

(4) Methods to ensure that the needs of workers, youth, and individuals with barriers to employment, including individuals with disabilities, are addressed in providing access to services, including access to technology and materials that are available through the one-stop delivery system;

(5) The duration of the MOU and procedures for amending it; and

(6) Assurances that each MOU will be reviewed, and if substantial changes have occurred, renewed, not less than once every 3-year period to ensure appropriate funding and delivery of services.

(c) The MOU may contain any other provisions agreed to by the parties that are consistent with WIOA title I, the authorizing statutes and regulations of one-stop partner programs, and the WIOA regulations. (WIOA sec. 121(c).)

(d) When fully executed, the MOU must contain the signatures of the Local Board, one-stop partners, the chief elected official(s), and the time period in which the agreement is effective. The MOU must be updated not less than every 3 years to reflect any changes in the signatory official of the Board, one-stop partners, and chief elected officials, or one-stop infrastructure funding.

(e) If a one-stop partner appeal to the State regarding infrastructure costs, using the process described in § 678.750, results in a change to the one-stop partner's infrastructure cost contributions, the MOU must be updated to reflect the final one-stop partner infrastructure cost contributions.

§ 678.505 Is there a single Memorandum of Understanding for the local area, or must there be separate Memoranda of Understanding between the Local Board and each partner?

(a) A single ''umbrella'' MOU may be developed that addresses the issues relating to the local one-stop delivery system for the Local Board, chief elected official and all partners. Alternatively, the Local Board (with agreement of chief elected official) may enter into separate agreements between each partner or groups of partners.

(b) Under either approach, the requirements described in § 678.500 apply. Since funds are generally appropriated annually, the Local Board may negotiate financial agreements with each partner annually to update funding of services and operating costs of the system under the MOU.

§ 678.510 How should the Memorandum of Understanding be negotiated?

(a) WIOA emphasizes full and effective partnerships between Local Boards, chief elected officials, and one-stop partners. Local Boards and partners must enter into good-faith negotiations. Local Boards, chief elected officials, and one-stop partners may also request assistance from a State agency responsible for administering the partner program, the Governor, State Board, or other appropriate parties on other aspects of the MOU.

(b) Local Boards and one-stop partners must establish, in the MOU, a final plan for how the Local Board and programs will fund the infrastructure costs of the one-stop centers. If a final plan regarding infrastructure costs is not complete when other sections of the MOU are ready, an interim infrastructure cost plan may be included instead, as described in § 678.715(c). Once the final infrastructure cost plan is approved, the Local Board and one-stop partners must amend the MOU to include the final plan for funding infrastructure costs of the one-stop centers, including a description of the funding mechanism established by the Governor relevant to the local area. Infrastructure cost funding is described in detail in subpart E of this part. (WIOA sec. 121(h)(2).)

(c) The Local Board must report to the State Board, Governor, and relevant State agency when MOU negotiations with one-stop partners have reached an impasse.

(1) The Local Board and partners must document the negotiations and efforts that have taken place in the MOU. The State Board, one-stop partner programs, and the Governor may consult with the appropriate Federal agencies to address impasse situations related to issues other than infrastructure funding after attempting to address the impasse. Impasses related to infrastructure cost funding must be resolved using the State infrastructure cost funding mechanism described in § 678.730.

(2) The Local Board must report failure to execute an MOU with a required partner to the Governor, State Board, and the State agency responsible for administering the partner's program. Additionally, if the State cannot assist the Local Board in resolving the

impasse, the Governor or the State Board must report the failure to the Secretary of Labor and to the head of any other Federal agency with responsibility for oversight of a partner's program.

Subpart D—One-Stop Operators

§ 678.600 Who may operate one-stop centers?

(a) One-stop operators may be a single entity (public, private, or nonprofit) or a consortium of entities. If the consortium of entities is one of one-stop partners, it must include a minimum of three of the one-stop partners described in § 678.400.

(b) The one-stop operator may operate one or more one-stop centers. There may be more than one one-stop operator in a local area.

(c) The types of entities that may be a one-stop operator include:

(1) An institution of higher education;

(2) An Employment Service State agency established under the Wagner-Peyser Act;

(3) A community-based organization, nonprofit organization, or workforce intermediary;

(4) A private for-profit entity;

(5) A government agency;

(6) A Local Board, with the approval of the chief local elected official and the Governor; or

(7) Another interested organization or entity, which is capable of carrying out the duties of the one-stop operator. Examples may include a local chamber of commerce or other business organization, or a labor organization.

(d) Elementary schools and secondary schools are not eligible as one-stop operators, except that a nontraditional public secondary school such as a night school, adult school, or an area career and technical education school may be selected.

(e) The State and Local Boards must ensure that, in carrying out WIOA programs and activities, one-stop operators:

(1) Disclose any potential conflicts of interest arising from the relationships of the operators with particular training service providers or other service providers (further discussed in § 679.430 of this chapter);

(2) Do not establish practices that create disincentives to providing services to individuals with barriers to employment who may require longer-term career and training services; and

(3) Comply with Federal regulations and procurement policies relating to the calculation and use of profits, including those at § 683.295 of this chapter, the Uniform Guidance at 2 CFR chapter II, and other applicable regulations and policies.

§ 678.605 How is the one-stop operator selected?

(a) Consistent with paragraphs (b) and (c) of this section, the Local Board must select the one-stop operator through a competitive process, as required by sec. 121(d)(2)(A) of WIOA, at least once every 4 years. A State may require, or a Local Board may choose to implement, a competitive selection process more than once every 4 years.

(b) In instances in which a State is conducting the competitive process described in paragraph (a) of this section, the State must follow the same policies and procedures it uses for procurement with non-Federal funds.

(c) All other non-Federal entities, including subrecipients of a State (such as local areas), must use a competitive process based on the principles of competitive procurement in the Uniform Administrative Guidance set out at 2 CFR 200.318 through 200.326.

(d) Entities described in paragraph (c) of this section must first determine the nature of the process to be used to comply with sec. 121(d)(2)(A) of WIOA. The acceptable processes are:

(1) Procurement by sealed bids;

(2) Procurement by competitive proposals; or

(3) Procurement by sole source, permitted only if:

(i) Analysis of market conditions and other factors lead to a determination that it is necessary to use sole-source procurement because:

(A) There is only one entity that could serve as an operator; or

(B) Unusual and compelling urgency will not permit a delay resulting from competitive solicitation; or

(ii) Results of the competition conducted under paragraphs (d)(1) or (2) of this section were determined to be inadequate.

(e) Entities must prepare written documentation explaining the determination concerning the nature of the competitive process to be followed in selecting a one-stop operator.

§ 678.610 How is sole source selection of one-stop operators accomplished?

(a) As set forth in § 678.605(d)(3), under certain conditions, sole source procurement is an allowable method of procurement.

(b) In the event that sole source procurement is determined necessary and reasonable, in accordance with § 678.605(d)(3), written documentation must be prepared and maintained concerning the entire process of making such a selection.

(c) Such sole source procurement must include appropriate conflict of interest policies and procedures. These policies and procedures must conform to the specifications in § 679.430 of this chapter for demonstrating internal controls and preventing conflict of interest.

(d) A Local Board can be selected as a one-stop operator through sole source procurement only with agreement of the chief elected official in the local area and the Governor. The Local Board must establish sufficient conflict of interest policies and procedures and they must be approved by the Governor.

§ 678.615 Can an entity serving as one-stop operator compete to be a one-stop operator under the procurement requirements of this subpart?

(a) Local Boards can compete for and be selected as one-stop operators, as long as appropriate firewalls and conflict of interest policies and procedures are in place. These policies and procedures must conform to the specifications in § 679.430 of this chapter for demonstrating internal controls and preventing conflict of interest.

(b) State and local agencies can compete for and be selected as one-stop operators by the Local Board, as long as appropriate firewalls and conflict of interest policies and procedures are in place. These policies and procedures must conform to the specifications in § 679.430 of this chapter for demonstrating internal controls and preventing conflict of interest.

(c) In the case of single State areas where the State Board serves as the Local Board, the State agency is eligible to compete for and be selected as operator as long as appropriate firewalls and conflict of interest policies are in place and followed for the competition. These policies and procedures must conform to the specifications in § 679.430 of this chapter for demonstrating internal controls and preventing conflict of interest.

§ 678.620 What is the one-stop operator's role?

(a) At a minimum, the one-stop operator must coordinate the service delivery of required one-stop partners and service providers. Local Boards may establish additional roles of one-stop operator, including, but not limited to: Coordinating service providers within the center and across the one-stop system, being the primary provider of services within the center, providing some of the services within the center, or coordinating service delivery in a multi-center area. The competition for a

one-stop operator must clearly articulate the role of the one-stop operator.

(b) A one-stop operator may not perform the following functions: convene system stakeholders to assist in the development of the local plan; prepare and submit local plans (as required under sec. 107 of WIOA); be responsible for oversight of itself; manage or significantly participate in the competitive selection process for one-stop operators; select or terminate one-stop operators, career services, and youth providers; negotiate local performance accountability measures; and develop and submit budget for activities of the Local Board in the local area. An entity serving as a one-stop operator may perform some or all of these functions if it also serves in another capacity, if it has established sufficient firewalls and conflict of interest policies. The policies must conform to the specifications in § 679.430 of this chapter for demonstrating internal controls and preventing conflict of interest.

§ 678.625 Can a one-stop operator also be a service provider?

Yes, but there must be appropriate firewalls in place in regards to the competition, and subsequent oversight, monitoring, and evaluation of performance of the service provider. The operator cannot develop, manage or conduct the competition of a service provider in which it intends to compete. In cases where an operator is also a service provider, there must be firewalls and internal controls within the operator-service provider entity, as well as specific policies and procedures at the Local Board level regarding oversight, monitoring, and evaluation of performance of the service provider. The firewalls must conform to the specifications in § 679.430 of this chapter for demonstrating internal controls and preventing conflict of interest.

§ 678.630 Can State merit staff still work in a one-stop where the operator is not a governmental entity?

Yes. State merit staff can continue to perform functions and activities in the one-stop career center. The Local Board and one-stop operator must establish a system for management of merit staff in accordance with State policies and procedures. Continued use of State merit staff may be included in the competition for and final contract with the one-stop operator.

§ 678.635 What is the effective date of the provisions of this subpart?

(a) No later than June 30, 2017, one-stop operators selected under the competitive process described in this subpart must be in place and operating the one-stop.

(b) By June 30, 2016, every Local Board must demonstrate it is taking steps to prepare for competition of its one-stop operator. This demonstration may include, but is not limited to, market research, requests for information, and conducting a cost and price analysis.

Subpart E—One-Stop Operating Costs

§ 678.700 What are one-stop infrastructure costs?

(a) Infrastructure costs of one-stop centers are nonpersonnel costs that are necessary for the general operation of the one-stop center, including:

(1) Rental of the facilities;

(2) Utilities and maintenance;

(3) Equipment (including assessment-related products and assistive technology for individuals with disabilities); and

(4) Technology to facilitate access to the one-stop center, including technology used for the center's planning and outreach activities.

(b) Local Boards may consider common identifier costs as costs of one-stop infrastructure.

(c) Each entity that carries out a program or activities in a local one-stop center, described in §§ 678.400 through 678.410, must use a portion of the funds available for the program and activities to maintain the one-stop delivery system, including payment of the infrastructure costs of one-stop centers. These payments must be in accordance with this subpart; Federal cost principles, which require that all costs must be allowable, reasonable, necessary, and allocable to the program; and all other applicable legal requirements.

§ 678.705 What guidance must the Governor issue regarding one-stop infrastructure funding?

(a) The Governor, after consultation with chief elected officials, the State Board, and Local Boards, and consistent with guidance and policies provided by the State Board, must develop and issue guidance for use by local areas, specifically:

(1) Guidelines for State-administered one-stop partner programs for determining such programs' contributions to a one-stop delivery system, based on such programs' proportionate use of such system consistent with Office of Management and Budget Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards in 2 CFR part 200, including determining funding for the costs of infrastructure; and

(2) Guidance to assist Local Boards, chief elected officials, and one-stop partners in local areas in determining equitable and stable methods of funding the costs of infrastructure at one-stop centers based on proportionate benefits received, and consistent with Federal cost principles.

(b) The guidance must include:

(1) The appropriate roles of the one-stop partner programs in identifying one-stop infrastructure costs;

(2) Approaches to facilitate equitable and efficient cost allocation that results in a reasonable cost allocation methodology where infrastructure costs are charged to each partner in proportion to relative benefits received, consistent with Federal cost principles; and

(3) The timelines regarding notification to the Governor for not reaching local agreement and triggering the State-funded infrastructure mechanism described in § 678.730, and timelines for a one-stop partner to submit an appeal in the State-funded infrastructure mechanism.

§ 678.710 How are infrastructure costs funded?

Infrastructure costs are funded either through the local funding mechanism described in § 678.715 or through the State funding mechanism described in § 678.730.

§ 678.715 How are one-stop infrastructure costs funded in the local funding mechanism?

(a) In the local funding mechanism, the Local Board, chief elected officials, and one-stop partners agree to amounts and methods of calculating amounts each partner will contribute for one-stop infrastructure funding, include the infrastructure funding terms in the MOU, and sign the MOU. The local one-stop funding mechanism must meet all of the following requirements:

(1) The infrastructure costs are funded through cash and fairly evaluated in-kind partner contributions and include any funding from philanthropic organizations or other private entities, or through other alternative financing options, to provide a stable and equitable funding stream for ongoing one-stop delivery system operations;

(2) Contributions must be negotiated between one-stop partners, chief elected officials, and the Local Board and the amount to be contributed must be included in the MOU;

(3) The one-stop partner program's proportionate share of funding must be calculated in accordance with the

Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards in 2 CFR part 200 based upon a reasonable cost allocation methodology whereby infrastructure costs are charged to each partner in proportion to relative benefits received, and must be allowable, reasonable, necessary, and allocable;

(4) Partner shares must be periodically reviewed and reconciled against actual costs incurred, and adjusted to ensure that actual costs charged to any one-stop partners are proportionate and equitable to the benefit received by the one-stop partners and their respective programs or activities.

(b) In developing the section of the MOU on one-stop infrastructure funding fully described in § 678.755, the Local Board and chief elected officials will:

(1) Ensure that the one-stop partners adhere to the guidance identified in § 678.705 on one-stop delivery system infrastructure costs.

(2) Work with one-stop partners to achieve consensus and informally mediate any possible conflicts or disagreements among one-stop partners.

(3) Provide technical assistance to new one-stop partners and local grant recipients to ensure that those entities are informed and knowledgeable of the elements contained in the MOU and the one-stop infrastructure costs arrangement.

(c) The MOU may include an interim infrastructure funding agreement, including as much detail as the Local Board has negotiated with one-stop partners, if all other parts of the MOU have been negotiated, in order to allow the partner programs to operate in the one-stop centers. The interim infrastructure agreement must be finalized within 6 months of when the MOU is signed. If the infrastructure interim infrastructure agreement is not finalized within that timeframe, the Local Board must notify the Governor, as described in § 678.725.

§ 678.720 What funds are used to pay for infrastructure costs in the local one-stop infrastructure funding mechanism?

(a) In the local one-stop infrastructure funding mechanism, one-stop partner programs can determine what funds they will use to fund infrastructure costs. The use of these funds must be in accordance with the requirements in this subpart, and with the relevant partner's authorizing statutes and regulations, including, for example, prohibitions against supplanting non-Federal resources, statutory limitations on administrative costs, and all other applicable legal requirements. In the case of partners administering adult education and literacy programs authorized by title II of WIOA or the Carl D. Perkins Career and Technical Education Act of 2006, these funds may include Federal funds that are available for State administration of adult education and literacy programs authorized by title II of WIOA or for State administration of post-secondary level programs and activities under the Perkins Act, and non-Federal funds that the partners contribute to meet these programs' matching or maintenance of effort requirements. These funds also may include local administrative funds available to local entities or consortia of local entities that have been delegated authority to serve as one-stop local partners by a State eligible agency as permitted by § 678.415(b) and (e).

(b) There are no specific caps on the amount or percent of overall funding a one-stop partner may contribute to fund infrastructure costs under the local one-stop funding mechanism, except that contributions for administrative costs may not exceed the amount available for administrative costs under the authorizing statute of the partner program. However, amounts contributed for infrastructure costs must be allowable and based on proportionate use by or benefit to the partner program, taking into account the total cost of the one-stop infrastructure as well as alternate financing options, and must be consistent with 2 CFR chapter II, including the Federal cost principles.

§ 678.725 What happens if consensus on infrastructure funding is not reached at the local level between the Local Board, chief elected officials, and one-stop partners?

If, after July 1, 2016, and each subsequent July 1, the Local Board, chief elected officials, and one-stop partners do not reach consensus on methods of sufficiently funding local infrastructure through the local infrastructure cost funding mechanism, and include that consensus agreement in the signed MOU, then the Local Board must notify the Governor and the Governor must administer funding through the State one-stop funding mechanism, as described in § 678.730. (WIOA sec. 121(h)(2))

§ 678.730 What is the State one-stop infrastructure funding mechanism?

(a) In the State one-stop infrastructure funding mechanism, the Governor, after consultation with the chief elected officials, Local Boards, and the State Board, determines one-stop partner contributions, based upon a methodology where infrastructure costs are charged to each partner in proportion to relative benefits received and consistent with the partner program's authorizing laws and regulations, 2 CFR chapter II, including the Federal cost principles, and other applicable legal requirements described in § 678.735(a).

(b) The State Board develops an allocation formula to allocate funds to local areas to support the infrastructure costs for local area one-stop centers for all local areas that did not use the local funding mechanism, and the Governor uses that formula to allocate the funds. This is described in detail in § 678.745.

§ 678.735 How are partner contributions determined in the State one-stop funding mechanism?

(a) In the State one-stop funding mechanism, the Governor, after consultation with State and Local Boards and chief elected officials, will determine the amount each partner must contribute to assist in paying the infrastructure costs of one-stop centers. The Governor must calculate amounts based on the proportionate use of the one-stop centers by each partner, consistent with chapter II of title 2, Code of Federal Regulations (or any corresponding similar regulation or ruling), taking into account the costs of administration of the one-stop delivery system for purposes not related to one-stop centers for each partner such as costs associated with maintaining the Local Board, or information technology systems. The Governor will also take into account the statutory requirements for each partner program, all other applicable legal requirements, and the partner program's ability to fulfill such requirements.

(b) In certain situations, the Governor does not determine the infrastructure cost contributions for one-stop partner programs.

(1) The Governor will not determine the contribution amounts for infrastructure funds for Native American grantees described in 20 CFR part 684. (WIOA sec. 121(h)(2)(D)(iii).) The appropriate portion of funds to be provided by Native American grantees to pay for one-stop infrastructure must be determined as part of the development of the MOU described in § 678.500 and specified in that MOU.

(2) In a State in which the State constitution or a State statute places policy-making authority that is independent of the authority of the Governor in an entity or official with respect to the funds provided for adult education and literacy activities, post-secondary career and technical education activities, or vocational rehabilitation services, the chief officer

of that entity or the official must determine the contribution amounts for infrastructure funds in consultation with the Governor. (WIOA sec. 121(h)(2)(C)(ii).)

(c) *Limitations.* Per WIOA sec. 122(h)(2)(D), the amount established by the Governor under paragraph (a) of this section may not exceed the following caps:

(1) *WIOA formula programs and employment service.* The portion of funds required to be contributed under the WIOA youth, adult, or dislocated worker programs, or under the Wagner-Peyser Act (29 U.S.C. 49 *et seq.*) must not exceed 3 percent of the amount of Federal funds provided to carry out that program in the State for a program year.

(2) *Other one-stop partners.* The portion of funds required to be contributed must not exceed 1.5 percent of the amount of Federal funds provided to carry out that education program or employment and training program in the State for a fiscal year. For purposes of Carl D. Perkins Career and Technical Education Act of 2006, the cap on contributions is determined based on the funds made available for State administration of post-secondary level programs and activities.

(3) *Vocational rehabilitation.* Within a State, the entity or entities administering the programs described in WIOA sec. 121(b)(1)(B)(iv) the allotment is based on the one State allotment, even in instances where that allotment is shared between two State agencies, and will not be required to provide from that program a cumulative portion that exceeds—

(i) 0.75 percent of the amount of Federal funds provided to carry out such program in the State for Fiscal Year 2016;

(ii) 1.0 percent of the amount provided to carry out such program in the State for Fiscal Year 2017;

(iii) 1.25 percent of the amount provided to carry out such program in the State for Fiscal Year 2018; and

(iv) 1.5 percent of the amount provided to carry out such program in the State for Fiscal Year 2019 and following years.

(4) *Federal direct spending programs.* For local areas that have not reached a one-stop infrastructure funding agreement by consensus, an entity administering a program funded with direct spending as defined in sec. 250(c)(8) of the Balanced Budget and Emergency Deficit Control Act of 1985, as in effect on February 15, 2014 (2 U.S.C. 900(c)(8)), must not be required to provide more for infrastructure costs than the amount that the Governor determined (as described in § 678.735(a)).

(d) If the above limitations result in funding less than each partner's proportionate share and contribute to inadequate funding of the allocation amount determined under § 678.745(b), the Governor may direct the Local Board, chief elected officials, and one-stop partners to reenter negotiations to reduce the infrastructure costs to reflect the amount of funds that are available for such costs, discuss proportionate share of each one-stop partner, or to identify alternative sources of financing for one-stop infrastructure funding, but, in any event, a partner will only be required to pay an amount that is consistent with the proportionate benefit received by the partner, the program's authorizing laws and regulations, the Federal cost principles, and other applicable legal requirements.

(1) The Local Board, chief elected officials, and one-stop partners, after renegotiation, may come to agreement and sign an MOU and proceed under the local one-stop funding mechanism.

(2) If after renegotiation, agreement amongst partners still cannot be reached or alternate financing identified, the Governor may adjust the specified allocation, in accordance with the amounts available and the limitations described in § 678.735(c).

§ 678.740 What funds are used to pay for infrastructure costs in the State one-stop infrastructure funding mechanism?

(a) In the State one-stop infrastructure funding mechanism, infrastructure costs for WIOA title I programs, including Native American Programs described in 20 CFR part 684, can be paid using program funds, administrative funds, or both. Infrastructure costs for the Senior Community Service Employment Program under title V of the Older Americans Act (42 U.S.C. 3056 *et seq.*) can also be paid using program funds, administrative funds, or both. (WIOA sec. 121(h)(2)(D)(i)(II).)

(b) In the State one-stop infrastructure funding mechanism, infrastructure costs for other required one-stop partner programs (listed in §§ 678.400 through 678.410) are limited to the program's administrative funds, as appropriate. (WIOA sec. 121(h)(2)(D)(i)(I).)

(c) In the State one-stop infrastructure funding mechanism, infrastructure costs for the adult education program authorized by title II of WIOA must be paid from the funds that are available for State administration or from non-Federal funds that the partner contributes to meet the program's matching or maintenance of effort requirement. Infrastructure costs for title II of WIOA may also be paid from funds available for local administration of programs and activities to eligible providers or consortia of eligible providers delegated responsibilities to act as a local one-stop partner pursuant to § 678.415(b).

(d) In the State one-stop infrastructure funding mechanism, infrastructure costs for the Carl D. Perkins Career and Technical Education Act of 2006 must be paid from the Federal funds that are available for State administration of post-secondary level programs and activities under the Perkins Act, or from non-Federal funds that the partner contributes to meet the program's matching or maintenance of effort requirement. Infrastructure costs for the Carl D. Perkins Career and Technical Education Act of 2006 may also be paid from funds available for local administration of post-secondary level programs and activities to eligible recipients or consortia of eligible recipients delegated responsibilities to act as a local one-stop partner pursuant to § 678.415(e).

§ 678.745 How is the allocation formula used by the Governor determined in the State one-stop funding mechanism?

(a) The State Board must develop an allocation formula to be used by the Governor to allocate funds to the local areas that did not successfully use the local funding mechanism. The allocation formula must take into account the number of one-stop centers in a local area, the population served by such centers, the services provided by such centers, and other factors relating to the performance of such centers that the State Board determines are appropriate and that are consistent with Federal cost principles. (WIOA sec. 121(h)(3)(B).)

(b) Using the funds contributed by the one-stop partners described in § 678.735, the Governor will then use this formula to allocate funds to the local areas that did not use the local funding mechanism to fund one-stop center infrastructure costs, so long as that funding distribution is consistent with Federal cost principles for each of the affected one-stop partners.

§ 678.750 When and how can a one-stop partner appeal a one-stop infrastructure amount designated by the State under the State infrastructure funding mechanism?

(a) The Governor must establish a process, described under sec. 121(h)(2)(E) of WIOA, for a one-stop partner administering a program described in §§ 678.400 through 678.410 to appeal the Governor's determination regarding the one-stop partner's portion of funds to be provided for one-stop

infrastructure costs. This appeal process must be described in the Unified State Plan. (WIOA secs. 121(h)(2)(E) and 102(b)(2)(D)(i)(IV).)

(b) The appeal may be made on the ground that the Governor's determination is inconsistent with proportionate share requirements in § 678.735(a), the cost contribution limitations in § 678.735(b), or the cost contribution caps in § 678.735(c).

(c) The process must ensure prompt resolution of the appeal in order to ensure the funds are distributed in a timely manner, consistent with the requirements of § 683.630 of this chapter.

(d) The one-stop partner must submit an appeal in accordance with State's deadlines for appeals specified in the guidance issued under § 678.705(b)(3), or if the State has not set a deadline, within 21 days from the Governor's determination.

§ 678.755 What are the required elements regarding infrastructure funding that must be included in the one-stop Memorandum of Understanding?

The MOU, fully described in § 678.500, must contain the following information whether the local areas use either the local one-stop or the State one-stop infrastructure funding method:

(a) The period of time in which this infrastructure funding agreement is effective. This may be a different time period than the duration of the MOU.

(b) Identification of an infrastructure and shared services budget that will be periodically reconciled against actual costs incurred and adjusted accordingly to ensure that it reflects a cost allocation methodology that demonstrates how infrastructure costs are charged to each partner in proportion to relative benefits received, and that complies with chapter II of title 2 of the Code of Federal Regulations (or any corresponding similar regulation or ruling).

(c) Identification of all one-stop partners, chief elected officials, and Local Board participating in the infrastructure funding arrangement.

(d) Steps the Local Board, chief elected officials, and one-stop partners used to reach consensus or an assurance that the local area followed the guidance for the State one-stop infrastructure funding process.

(e) Description of the process to be used between partners to resolve issues during the MOU duration period when consensus cannot be reached.

(f) Description of the periodic modification and review process to ensure equitable benefit among one-stop partners.

§ 678.760 How do one-stop partners jointly fund other shared costs under the Memorandum of Understanding?

(a) In addition to jointly funding infrastructure costs, one-stop partners listed in §§ 678.400 through 678.410 must use a portion of funds made available under their programs' authorizing Federal law (or fairly evaluated in-kind contributions) to pay the additional costs relating to the operation of the one-stop delivery system, which must include applicable career services.

(b) Additionally, one-stop partners may jointly fund shared services to the extent consistent with their programs' Federal authorizing statutes and other applicable legal requirements. Shared services' costs may include the costs of shared services that are authorized for and may be commonly provided through the one-stop partner programs to any individual, such as initial intake, assessment of needs, appraisal of basic skills, identification of appropriate services to meet such needs, referrals to other one-stop partners, and business services. Shared operating costs may also include shared costs of the Local Board's functions.

(c) These shared costs must be allocated according to the proportion of benefit received by each of the partners, consistent with the Federal law authorizing the partner's program, and consistent with all other applicable legal requirements, including Federal cost principles in chapter II of title 2 of the Code of Federal Regulations (or any corresponding similar regulation or ruling) requiring that costs are reasonable, necessary, and allocable.

(d) Any shared costs agreed upon by the one-stop partners must be included in the MOU.

Subpart F—One-Stop Certification

§ 678.800 How are one-stop centers and one-stop delivery systems certified for effectiveness, physical and programmatic accessibility, and continuous improvement?

(a) The State Board, in consultation with chief elected officials and Local Boards, must establish objective criteria and procedures for Local Boards to use when certifying one-stop centers.

(1) The State Board must review and update the criteria every 2 years as part of the review and modification of State Plans pursuant to § 676.135 of this chapter.

(2) The criteria must be consistent with the Governor's and State Board's guidelines, guidance and policies on infrastructure funding decisions, described in § 678.705. The criteria must evaluate the one-stop centers and one-stop delivery system for effectiveness, including customer satisfaction, physical and programmatic accessibility, and continuous improvement.

(3) When the Local Board is the one-stop operator as described in § 679.410 of this chapter, the State Board must certify the one-stop center.

(b) Evaluations of effectiveness must include how well the one-stop center integrates available services for participants and businesses, meets the workforce development needs of participants and the employment needs of local employers, operates in a cost-efficient manner, coordinates services among the one-stop partner programs, and provides maximum access to partner program services even outside regular business hours. These evaluations must take into account feedback from one-stop customers. They must also include evaluations of how well the one-stop center ensures equal opportunity for individuals with disabilities to participate in or benefit from one-stop center services. These evaluations must include criteria evaluating how well the centers and delivery systems take actions to comply with the disability-related regulations implementing WIOA sec. 188, set forth at 29 CFR part 37. Such actions include, but are not limited to:

(1) Providing reasonable accommodations for individuals with disabilities;

(2) Making reasonable modifications to policies, practices, and procedures where necessary to avoid discrimination against persons with disabilities;

(3) Administering programs in the most integrated setting appropriate;

(4) Communicating with persons with disabilities as effectively as with others; and

(5) Providing appropriate auxiliary aids and services, including assistive technology devices and services, where necessary to afford individuals with disabilities an equal opportunity to participate in, and enjoy the benefits of, the program or activity.

(c) Evaluations of continuous improvement must include how well the one-stop center supports the achievement of the negotiated local levels of performance for the indicators of performance for the local area described in sec. 116(b)(2) of WIOA and 20 CFR part 677. Other continuous improvement factors may include a regular process for identifying and responding to technical assistance needs, a regular system of continuing professional staff development, and having systems in place to capture and respond to specific customer feedback.

(d) Local Boards must assess at least once every 3 years the effectiveness, physical and programmatic accessibility, and continuous improvement of one-stop centers and the one-stop delivery systems using the criteria and procedures developed by the State Board. The Local Board may establish additional criteria, or set higher standards for service coordination, than those set by the State criteria. Local Boards must review and update the criteria every 2 years as part of the Local Plan update process described in § 676.580 of this chapter. Local Boards must certify one-stop centers in order to be eligible to receive infrastructure funds in the State infrastructure funding mechanism described in § 678.730.

(e) All one-stop centers must comply with applicable physical accessibility requirements, as set forth in 29 CFR part 37.

Subpart G—Common Identifier

§ 678.900 What is the common identifier to be used by each one-stop delivery system?

(a) The common one-stop delivery system identifier is ''American Job Center.''

(b) As of July 1, 2016, each one-stop delivery system must include the ''American Job Center'' identifier or ''a proud partner of the American Job Center network'' on all products, programs, activities, services, facilities, and related property and materials used in the one-stop system.

(c) One-stop partners, States or local areas may use additional identifiers on their products, programs, activities, services, facilities, and related property and materials.

Department of Education

34 CFR Chapters III and IV

For the reasons stated in the preamble, the Department of Education proposes to amend 34 CFR chapters III and IV as follows:

PART 361—STATE VOCATIONAL REHABILITATION SERVICES PROGRAM

■ 4. The authority citation for part 361 continues to read as follows:

Authority: 29 U.S.C. 709(c), unless otherwise noted.

■ 5. Add subpart D of part 361 to read as follows:

Subpart D—Unified and Combined State Plans Under Title I of the Workforce Innovation and Opportunity Act

Sec.

361.100 What is the purpose of the Unified and Combined State Plans?
361.105 What are the general requirements for the Unified State Plan?
361.110 What are the program-specific requirements in the Unified State Plan for the adult, dislocated worker, and youth workforce investment activities in Workforce Innovation and Opportunity Act title I?
361.115 What are the program-specific requirements in the Unified State Plan for the Adult Education and Family Literacy Act program in Workforce Innovation and Opportunity Act title II?
361.120 What are the program-specific requirements in the Unified State Plan for Wagner-Peyser Act Employment Service programs in title III of the Workforce Innovation and Opportunity Act?
361.125 What are the program-specific requirements in the Unified State Plan for the State Vocational Rehabilitation program in Workforce Innovation and Opportunity Act title IV?
361.130 What is the submission and approval process of the Unified State Plan?
361.135 What are the requirements for modification of the Unified State Plan?
361.140 What are the general requirements for submitting a Combined State Plan?
361.143 What is the submission and approval process of the Combined State Plan?
361.145 What are the requirements for modifications of the Combined State Plan?

Subpart D—Unified and Combined State Plans Under Title I of the Workforce Innovation and Opportunity Act

§ 361.100 What is the purpose of the Unified and Combined State Plans?

(a) The Unified and Combined State Plans provide the framework for States to outline a strategic vision of, and goals for, how their workforce development systems will achieve the purposes of Workforce Innovation and Opportunity Act (WIOA).

(b) The Unified and Combined State Plans serve as 4-year action plans to develop, align, and integrate the State's systems and provide a platform to achieve the State's vision and strategic and operational goals. A Unified or Combined State Plan is intended to:

(1) Align, in strategic coordination, the six core programs required in the Unified State Plan pursuant to § 361.105(b), and additional optional programs that may be part of the Combined State Plan pursuant to § 361.140;

(2) Direct investments in economic, education, and workforce training programs to focus on providing relevant education and training to ensure that individuals, including youth and individuals with barriers to employment, have the skills to compete in the job market and that employers have a ready supply of skilled workers;

(3) Apply strategies for job-driven training consistently across Federal programs, and;

(4) Enable economic, education, and workforce partners to build a skilled workforce through innovation in, and alignment of, employment, training, and education programs.

§ 361.105 What are the general requirements for the Unified State Plan?

(a) The Unified State Plan must be submitted in accordance with § 361.130 and joint planning guidelines issued by the Secretary of Labor and the Secretary of Education.

(b) The Governor of each State must submit, in accordance with § 361.130, a Unified or Combined State Plan to the Secretary of Labor to be eligible to receive funding for the workforce development system's six core programs:

(1) The adult, dislocated worker, and youth programs authorized under subtitle B of title I of WIOA and administered by the U.S. Department of Labor;

(2) The Adult Education and Family Literacy Act (AEFLA) program authorized under title II of WIOA and administered by the U.S. Department of Education;

(3) The Wagner-Peyser Act Employment Services programs amended by title III of WIOA and administered by the U.S. Department of Labor; and

(4) The State Vocational Rehabilitation program amended by title IV of WIOA and administered by the U.S. Department of Education.

(c) The Unified State Plan must outline the State's 4-year strategy for the core programs described in paragraph (b) of this section and meet the requirements of sec. 102(b) of WIOA, as explained in the joint planning guidance issued by the Secretary of Labor and the Secretary of Education.

(d) The Unified State Plan must include strategic and operational planning elements to facilitate the development of an aligned, coordinated, and comprehensive workforce development system. The Unified State Plan must include:

(1) Strategic planning elements that describe the State's strategic vision and goals for preparing an educated and skilled workforce under sec. 102(b)(1) of WIOA. The strategic planning elements must be informed by and include an analysis of the State's economic conditions and employer and workforce needs, including education and skill needs.

(2) Strategies for aligning the core programs and optional programs, as well as other resources available to the State, to achieve the strategic vision and goals in accordance with sec. 102(b)(1)(E) of WIOA.

(3) Operational planning elements in accordance with sec. 102(b)(2) of WIOA that support the strategies for aligning the core programs and other resources available to the State to achieve the State's vision and goals and a description of how the State Workforce Development Board will implement its functions, in accordance with sec. 101(d) of WIOA. Operational planning elements must include:

(i) A description of how the State strategy will be implemented by each core program's lead State agency;

(ii) State operating systems, including data systems, and policies that will support the implementation of the State's strategy identified in paragraph (d)(1) of this section;

(iii) Program-specific requirements for the core programs required by WIOA sec. 102(b)(2)(D);

(iv) Assurances required by sec. 102(b)(2)(E) of WIOA and others deemed necessary by the Secretaries of Labor and Education under sec. 102(b)(2)(E)(x) of WIOA; and

(v) Any additional operational planning requirements imposed by the Secretary of Labor or the Secretary of Education under sec. 102(b)(2)(C)(viii) of WIOA.

§ 361.110 What are the program-specific requirements in the Unified State Plan for the adult, dislocated worker, and youth workforce investment activities in Workforce Innovation and Opportunity Act title I?

The program-specific requirements for the adult, dislocated worker, and youth workforce investment activities that must be included in the Unified State Plan are described in sec. 102(b)(2)(D) of WIOA. Additional planning requirements may be required by the Secretary of Labor or the Secretary of Education in accordance with joint planning guidelines issued by the Secretary of Labor and the Secretary of Education.

§ 361.115 What are the program-specific requirements in the Unified State Plan for the Adult Education and Family Literacy Act program in Workforce Innovation and Opportunity Act title II?

The program-specific requirements for the AEFLA program in title II that must be included in the Unified State Plan are described in secs. 102(b)(2)(D)(ii) and 102(b)(2)(C) of WIOA.

(a) With regard to the description required in sec. 102(b)(2)(D)(ii)(I) of WIOA pertaining to content standards, the Unified State Plan must describe how the eligible agency will, by July 1, 2016, align its content standards for adult education with State-adopted challenging academic content standards under the Elementary and Secondary Education Act of 1965, as amended.

(b) With regard to the description required in sec. 102(b)(2)(C)(iv) of WIOA pertaining to the methods and factors the State will use to distribute funds under the core programs, for title II of WIOA, the Unified State Plan must include—

(1) How the eligible agency will award multi-year grants on a competitive basis to eligible providers in the State; and

(2) How the eligible agency will provide direct and equitable access to funds using the same grant or contract announcement and application procedure.

(c) With regard to the description required under sec. 102(b)(2)(C)(v)(I) of WIOA pertaining to the integration of workforce and education data on core programs, unemployment insurance programs, and education through post-secondary education, for title II of WIOA, the Unified State Plan must include how the State will ensure interoperability of data systems in the reporting on core indicators of performance and performance reports required to be submitted by the State.

§ 361.120 What are the program-specific requirements in the Unified State Plan for Wagner-Peyser Act Employment Service programs in title III of the Workforce Innovation and Opportunity Act?

Wagner-Peyser Act Employment Services programs amended by title III are subject to requirements in sec. 102(b) of WIOA and any additional requirements imposed by the Secretary of Labor under sec. 102(b)(2)(C)(viii) of WIOA, in accordance with joint planning guidelines issued by the Secretary of Labor and the Secretary of Education.

§ 361.125 What are the program-specific requirements in the Unified State Plan for the State Vocational Rehabilitation program in Workforce Innovation and Opportunity Act title IV?

The program specific requirements for the vocational rehabilitation services portion of the Unified or Combined State Plan are set forth in sec. 101(a) of the Rehabilitation Act of 1973, as amended. All submission requirements of the Vocational Rehabilitation Services portion of the Unified or Combined State Plan are in addition to the jointly developed strategic and operational content requirements prescribed by secs. 102(b) and 103 of WIOA.

§ 361.130 What is the submission and approval process of the Unified State Plan?

(a) The Unified State Plan described in § 361.105 must be submitted in accordance with planning guidelines issued jointly by the Secretaries of Labor and Education which explain the submission and approval process in WIOA sec. 102(c).

(b) A State must submit its Unified State Plan to the Secretary of Labor pursuant to a process identified by the Secretary.

(1) The initial Unified State Plan must be submitted no later than 120 days prior to the commencement of the second full program year of WIOA.

(2) The subsequent Unified State Plan must be submitted no later than 120 days prior to the end of the 4-year period described in paragraph (b)(1) of this section.

(3) For purposes of paragraph (b) of this section, ''program year'' means July 1 through June 30 of any year.

(c) The State must provide an opportunity for public comment on and input into the development of the Unified State Plan prior to its submission.

(1) The opportunity for public comment must include an opportunity for comment by representatives of Local Boards and chief elected officials, businesses, representatives of labor organizations, community-based organizations, adult education providers, institutions of higher education, other stakeholders with an interest in the services provided by the six core programs, and the general public, including individuals with disabilities.

(2) Consistent with the ''Sunshine Provision'' of WIOA in sec. 101(g), the State Board must make information regarding the Unified State Plan available to the public through electronic means and regularly occurring open meetings in accordance with State law. The Unified State Plan must describe the State's process and timeline for ensuring a meaningful opportunity for public comment.

(d) Upon receipt of the Unified State Plan from the State, the Secretary of Labor will ensure that the entire Unified State Plan is submitted to the Secretary of Education pursuant to a process developed by the Secretaries.

(e) The Unified State Plan is subject to the approval of both the Secretary of Labor and the Secretary of Education.

(f) Before the Secretary of Labor and the Secretary of Education approve the Unified State Plan, the vocational

rehabilitation portion of the Unified State Plan described in WIOA sec. 102(b)(2)(D)(iii) must be approved by the Commissioner of the Rehabilitation Services Administration.

(g) The Secretary of Labor and the Secretary of Education will review and approve the Unified State Plan within 90 days of receipt by the appropriate Secretary, unless the Secretary of Labor or the Secretary of Education determines in writing within that period that:

(1) The plan is inconsistent with a core program's requirements;

(2) The Unified State Plan is inconsistent with any requirement of sec. 102 of WIOA; or

(3) The plan is incomplete or otherwise insufficient to determine whether it is consistent with a core program's requirements or other requirements of WIOA.

(h) If neither the Secretary of Labor nor the Secretary of Education makes the written determination described in paragraph (g) of this section within 90 days of the receipt by the Secretaries, the Unified State Plan will be considered approved.

§ 361.135 What are the requirements for modification of the Unified State Plan?

(a) In addition to the required modification review set forth in paragraph (b) of this section, a Governor may submit a modification of its Unified State Plan at any time during the 4-year period of the plan.

(b) Modifications are required, at a minimum:

(1) At the end of the first 2-year period of any 4-year State Plan, wherein the State Board must review the Unified State Plan, and the Governor must submit modifications to the plan to reflect changes in labor market and economic conditions or other factors affecting the implementation of the Unified State Plan;

(2) When changes in Federal or State law or policy substantially affect the strategies, goals, and priorities upon which the Unified State Plan is based;

(3) When there are changes in the statewide vision, strategies, policies, State adjusted levels of performance, the methodology used to determine local allocation of funds, reorganizations which change the working relationship with system employees, changes in organizational responsibilities, changes to the membership structure of the State Board or alternative entity, and similar substantial changes to the State's workforce investment system.

(c) Modifications to the Unified State Plan are subject to the same public review and comment requirements in § 361.130(c) that apply to the development of the original Unified State Plan.

(d) Unified State Plan modifications must be approved by the Secretary of Labor and the Secretary of Education, based on the approval standards applicable to the original Unified State Plan under § 361.130. This approval must come after the approval of the Commissioner of the Rehabilitation Services Administration for modification of any portion of the plan described in sec. 102(b)(2)(D)(iii) of WIOA.

§ 361.140 What are the general requirements for submitting a Combined State Plan?

(a) A State may choose to develop and submit a 4-year Combined State Plan in lieu of the Unified State Plan described in § 361.105.

(b) A State that submits a Combined State Plan covering an activity or program described in paragraph (d) of this section that is approved under WIOA sec. 103(c) or determined complete under the law relating to the program will not be required to submit any other plan or application in order to receive Federal funds to carry out the core programs or the program or activities described under paragraph (d) of this section that are covered by the Combined State Plan.

(c) If a State develops a Combined State Plan, it must be submitted in accordance with the process described in § 361.143.

(d) If a State chooses to submit a Combined State Plan, the Plan must include the six core programs and one or more of the optional programs and activities described in sec. 103(a)(2) of WIOA. The optional programs and activities that may be included in the Combined State Plan are:

(1) Career and technical education programs authorized under the Carl D. Perkins Career and Technical Education Act of 2006 (20 U.S.C. 2301 *et seq.*);

(2) Temporary Assistance for Needy Families or TANF, authorized under part A of title IV of the Social Security Act (42 U.S.C. 601 *et seq.*);

(3) Employment and training programs authorized under sec. 6(d)(4) of the Food and Nutrition Act of 2008 (7 U.S.C. 2015(d)(4));

(4) Work programs authorized under sec. 6(o) of the Food and Nutrition Act of 2008 (7 U.S.C. 2015(o));

(5) Trade adjustment assistance activities under chapter 2 of title II of the Trade Act of 1974 (19 U.S.C. 2271 *et seq.*);

(6) Services for veterans authorized under chapter 41 of title 38, United States Code;

(7) Programs authorized under State unemployment compensation laws (in accordance with applicable Federal law);

(8) Senior Community Service Employment Programs under title V of the Older Americans Act of 1956 (42 U.S.C. 3056 *et seq.*);

(9) Employment and training activities carried out by the Department of Housing and Urban Development;

(10) Employment and training activities carried out under the Community Services Block Grant Act (42 U.S.C. 9901 *et seq.*); and

(11) Reintegration of offenders programs authorized under sec. 212 of the Second Chance Act of 2007 (42 U.S.C. 17532).

(e) A Combined State Plan must contain:

(1) For the core programs, the information required by sec. 102(b) of WIOA and § 361.105, as explained in the joint planning guidance issued by the Secretaries;

(2) For the optional programs, except as described in paragraph (h) of this section, the information required by the law authorizing and governing that program to be submitted to the appropriate Secretary, any other applicable legal requirements, and any common planning requirements described in sec. 102(b) of WIOA, as explained in the joint planning guidance issued by the Secretaries;

(3) A description of joint planning methods across all programs included in the Combined State Plan; and

(4) An assurance that all of the entities responsible for planning or administering the programs described in the Combined State Plan have had a meaningful opportunity to review and comment on all portions of the Plan.

(f) Each optional program included in the Combined State Plan remains subject to the applicable program-specific requirements of the Federal law and regulations, and any other applicable legal or program requirements, governing the implementation and operation of that program.

(g) For purposes of §§ 361.140 through 361.145 the term ''appropriate Secretary'' means the head of the Federal agency who exercises either plan or application approval authority for the program or activity under the Federal law authorizing the program or activity or, if there are no planning or application requirements, who exercises administrative authority over the program or activity under that Federal law.

(h) States that include employment and training activities carried out under

the Community Services Block Grant (CSBG) Act (42 U.S.C. 9901 *et seq.*) under a Combined State Plan would submit all other required elements of a complete CSBG State Plan directly to the Federal agency that administers the program, according to the requirements of Federal law and regulations.

§ 361.143 What is the submission and approval process of the Combined State Plan?

(a) For purposes of § 361.140(a), if a State chooses to develop a Combined State Plan it must submit the Combined State Plan in accordance with the requirements described below and the joint planning guidelines, which will further explain the submission and approval procedures for the Combined State Plan, issued by the Secretaries.

(b) The State must submit to the Secretaries of Labor and Education and to the Secretary of the agency with responsibility for approving the program's plan or determining it complete under the law governing the program, as part of its Combined State Plan, any plan, application, form, or any other similar document that is required as a condition for the approval of Federal funding under the applicable program or activity. Such submission must occur in accordance with a process identified by the relevant Secretaries in paragraph (a) of this section.

(c) The Combined State Plan will be approved or disapproved in accordance with the requirements of sec. 103(c) of WIOA.

(1) The portion of the Combined State Plan covering programs administered by the Departments of Labor and Education must be reviewed, and approved or disapproved, by the appropriate Secretary within 90 days beginning on the day the plan is received by the appropriate Secretary from the State, except as provided in paragraph (d) of this section.

(2) If an appropriate Secretary other than the Secretary of Labor or the Secretary of Education has authority to approve or determine complete a portion of the Combined State Plan for a program or activity described in § 361.140(d), that portion of the plan must be reviewed, and approved, disapproved, or have a determination of completeness, by the appropriate Secretary within 120 days beginning on the day the plan is received by the appropriate Secretary from the State except as provided in paragraph (e) of this section.

(d) The review and determination of approval or disapproval, or determination of completeness, of the relevant portion of the Combined State Plan must occur within 90 days for all Department of Labor and Education programs included in the State Plan and within 120 days for the programs administered by other Federal Agencies unless the appropriate Secretary determines in writing within that period that:

(1) The Plan is inconsistent with the requirements of the six core programs or the Federal laws authorizing or applicable to the program or activity involved, including the criteria for approval of a plan or application, or determining the plan's completeness, if any, under such law;

(2) The portion of the Plan describing the six core programs or the program or activity described in paragraph (a) of this section involved does not satisfy the criteria as provided in sec. 102 or 103 of WIOA, as applicable; or

(3) The Plan is incomplete, or otherwise insufficient to determine whether it is consistent with a core program's requirements, other requirements of WIOA, or the Federal laws authorizing, or applicable to, the program or activity described in § 361.140(d), including the criteria for approval of a plan or application, if any, under such law.

(e) If the Secretary of Labor, the Secretary of Education, or the appropriate Secretary does not make the written determination described in paragraph (d) of this section within the relevant period of time after submission of the Plan, that portion of the Combined State Plan over which the Secretary has jurisdiction will be considered approved.

(f) *Special rule.* In paragraphs (d)(1) and (3) of this section, the term ''criteria for approval of a plan or application,'' with respect to a State or a core program or a program under the Carl D. Perkins Career and Technical Education Act of 2006 (20 U.S.C. 2301 *et seq.*), includes a requirement for agreement between the State and the appropriate Secretaries regarding State performance measures or State performance accountability measures, as the case may be, including levels of performance.

§ 361.145 What are the requirements for modifications of the Combined State Plan?

(a) For the core program portions of the Combined State Plan, modifications are required at the end of the first 2-year period of any 4-year Combined State Plan. The State Board must review the Combined State Plan, and the Governor must submit a modification of the Combined State Plan to reflect changes in labor market and economic conditions or in other factors affecting the implementation of the Combined State Plan.

(b) In addition to the required modification review described in paragraph (a) of this section, a State may submit a modification of its Combined State Plan at any time during the 4-year period of the plan.

(c) For any programs and activities described in § 361.140(d) that are included in a State's Combined State Plan, the State—

(1) May decide if the modification requirements under WIOA sec. 102(c)(3) that apply to the core programs will apply to the optional programs or activities described in § 361.140(d) that are included in the Combined State Plan or may comply with the procedures and requirements applicable to only the particular optional program or activity; and

(2) Must submit, in accordance with the procedure described in § 361.143, any other modification, amendment, or revision required by the Federal law authorizing, or applicable to, the program or activity described in § 361.140(d). If the underlying programmatic requirements change for Federal laws authorizing such programs, a State must either modify its Combined State Plan or submit a separate plan to the appropriate Federal agency in accordance with the new Federal law authorizing the optional program or activity and other legal requirements applicable to such program or activity. A State also may amend its Combined State Plan to add an optional program or activity described in § 361.140(d).

(d) Modifications of the Combined State Plan are subject to the same public review and comment requirements that apply to the development of the original Combined State Plan as described in § 361.130(c) except that, if the modification, amendment, or revision affects the administration of a particular optional program and has no impact on the Combined State Plan as a whole or the integration and administration of the core and optional programs at the State level, a State may comply instead with the procedures and requirements applicable to the particular optional program.

(e) Modifications for the core program portions of the Combined State Plan must be approved by the Secretary of Labor and the Secretary of Education, based on the approval standards applicable to the original Combined State Plan under § 361.143. This approval must come after the approval of the Commissioner of the Rehabilitation Services Administration for modification of any portion of the

Combined State Plan described in sec. 102(b)(2)(D)(iii) of WIOA.

(f) Modifications for the portions of the Combined State Plan for any optional program or activity described in § 361.140(d) must be submitted for approval by only the appropriate Secretary, based on the approval standards applicable to the original Combined State Plan under § 361.143, if the State elects, or in accordance with the procedures and requirements applicable to the particular optional program if the modification, amendment, or revision affects the administration of only that particular optional program and has no impact on the Combined State Plan as a whole or the integration and administration of the core and optional programs at the State level.

■ 6. Revise subpart E of part 361 to read as follows:

Subpart E—Performance Accountability Under Title I of the Workforce Innovation and Opportunity Act

Sec.

361.150 What definitions apply to Workforce Innovation and Opportunity Act performance measurement and reporting requirements?
361.155 What are the primary indicators of performance under the Workforce Innovation and Opportunity Act?
361.160 What information is required for State performance reports?
361.165 May a State require additional indicators of performance?
361.170 How are State adjusted levels of performance for primary indicators established?
361.175 What responsibility do States have to use quarterly wage record information for performance accountability?
361.180 What State actions are subject to a financial sanction under Workforce Innovation and Opportunity Act?
361.185 When are sanctions applied for failure to report?
361.190 When are sanctions applied for failure to achieve adjusted levels of performance?
361.195 What should States expect when a sanction is applied to the Governor's Reserve Allotment?
361.200 What other administrative actions will be applied to States' performance requirements?
361.205 What performance indicators apply to local areas?
361.210 How are local performance levels established?
361.215 Under what circumstances are local areas eligible for State Incentive Grants?
361.220 Under what circumstances may a corrective action or sanction be applied to local areas for poor performance?
361.225 Under what circumstances may local areas appeal a reorganization plan?
361.230 What information is required for the eligible training provider performance reports?
361.235 What are the reporting requirements for individual records for core Workforce Innovation and Opportunity Act title I, III, and IV programs?
361.240 What are the requirements for data validation of State annual performance reports?

Subpart E—Performance Accountability Under Title I of the Workforce Innovation and Opportunity Act

§ 361.150 What definitions apply to Workforce Innovation and Opportunity Act performance measurement and reporting requirements?

(a) *Participant.* A reportable individual who has received staff-assisted services after satisfying all applicable programmatic requirements for the provision of services, such as eligibility determination.

(1) For the Vocational Rehabilitation (VR) program, a Participant is an individual who has an approved and signed Individualized Plan for Employment (IPE) and has begun to receive services.

(2) The following individuals are not Participants:

(i) Individuals who have not completed at least 12 contact hours in the Adult Education and Family Literacy Act (AEFLA) program;

(ii) Individuals who only use the self-service system; and

(iii) Individuals who only receive information services or activities.

(3) Programs must include participants in their performance calculations.

(b) *Reportable individual.* An individual who has taken action that demonstrates an intent to use program services and who meets specific reporting criteria of the core program, including:

(1) Individuals who provide identifying information;

(2) Individuals who only use the self-service system; and

(3) Individuals who only receive information on services or activities.

(c) *Exit.* As defined for the purpose of performance calculations, exit is the point after which an individual who has received services through any program meets the following criteria:

(1) For the adult, dislocated worker, and youth programs under Workforce Innovation and Opportunity Act (WIOA) title I, the AEFLA program under WIOA title II, and the Employment Services authorized by the Wagner-Peyser Act as amended by WIOA title III, exit date is the last date of service:

(i) The exit date cannot be determined until 90 days of no services has elapsed. At that point the exit date is applied retroactively to the last date of service.

(A) Ninety days of no service does not include self-service or information-only activities or follow-up services and

(B) There are no future services planned, excluding follow-up services.

(ii) [Reserved]

(2)(i) For the VR program as amended by WIOA title IV:

(A) The participant's record of service is closed in accordance with § 361.56 because the participant has achieved an employment outcome; or

(B) The participant's service record is closed because the individual has not achieved an employment outcome or the individual has been determined ineligible after receiving services in accordance with § 361.43.

(ii) Notwithstanding any other provision of this section, a participant will not be considered as meeting the definition of exit from the Vocational Rehabilitation program if the individual's service record is closed because the individual has achieved a supported employment outcome in an integrated setting but not in competitive integrated employment.

§ 361.155 What are the primary indicators of performance under the Workforce Innovation and Opportunity Act?

(a) All States submitting either a Unified or Combined State Plan under §§ 361.130 and 361.143, must propose expected levels of performance for each of the primary indicators of performance for the adult, dislocated worker, and youth programs under title I of WIOA, the AEFLA program under title II of WIOA, the Wagner-Peyser Act as amended by title III of WIOA, and the VR program as amended by WIOA.

(1) The six primary indicators for performance are:

(i) The percentage of participants, who are in unsubsidized employment during the second quarter after exit from the program;

(ii) The percentage of participants, who are in unsubsidized employment during the fourth quarter after exit from the program;

(iii) Median earnings of participants, who are in unsubsidized employment during the second quarter after exit from the program;

(iv) The percentage of participants who obtained a recognized post-secondary credential or a secondary school diploma, or its recognized equivalent during participation in or within 1 year after exit from the program. A participant who has obtained a secondary school diploma or its recognized equivalent is only included in this measure if the

participant is also employed or is enrolled in an education or training program leading to a recognized post-secondary credential within 1 year from program exit;

(v) The percentage of participants who during a program year, are in an education or training program that leads to a recognized post-secondary credential or employment and who are achieving measurable skill gains, defined as documented academic, technical, occupational or other forms of progress, towards such a credential or employment.

(vi) Effectiveness in serving employers, based on indicators developed as required by sec. 116(b)(2)(A)(iv) of WIOA.

(2) [Reserved]

(b) The indicators in paragraphs (a)(1)(i) through (vi) of this section apply to the adult, dislocated worker, AEFLA and VR programs.

(c) The indicators in paragraphs (a)(1)(i) through (iii) and (vi) of this section apply to the Employment Services.

(d) For the youth program under title I of WIOA, the indicators are:

(1) Percentage of participants who are in education or training activities, or in unsubsidized employment, during the second quarter after exit from the program;

(2) Percentage of participants in education or training activities, or in unsubsidized employment, during the fourth quarter after exit from the program;

(3) Median earnings of participants who are in unsubsidized employment during the second quarter after exit from the program;

(4) The percentage of participants who obtained a recognized post-secondary credential or a secondary school diploma, or its recognized equivalent, during participation or up to 1 year after exit. A participant who has obtained a secondary school diploma or its recognized equivalent is only included in this measure if the participant is also employed or is enrolled in an education or training program leading to a recognized post-secondary credential within 1 year from program exit;

(5) The percentage of participants who during a program year, are in an education or training program that leads to a recognized post-secondary credential or employment and who are achieving measurable skill gains, defined as documented academic, technical, occupational or other forms of progress towards such a credential or employment;

(6) Effectiveness in serving employers, based on indicators developed as required by sec. 116(b)(2)(iv) of WIOA.

§ 361.160 What information is required for State performance reports?

(a) Section 116(d)(2) of WIOA requires States to submit a State performance report. The State performance report must be submitted annually using a template the Departments will disseminate and must provide, at a minimum, information on the actual performance levels achieved consistent with § 361.175 with respect to:

(1) The total number of participants served, and the total number of participants who exited each of the core programs identified in sec. 116(b)(3)(A)(ii) of WIOA, including disaggregated counts of those who participated in and exited a core program, by:

(i) Individuals with barriers to employment as defined in WIOA sec. 3(24); and

(ii) Co-enrollment in any of the programs in WIOA sec 116(b)(3)(A)(ii).

(2) Information on the performance levels achieved for the primary indicators for all of the core programs identified in § 361.155 including disaggregated levels for:

(i) Individuals with barriers to employment as defined in WIOA sec. 3(24);

(ii) Age;

(iii) Sex; and

(iv) Race and ethnicity.

(3) The total number of participants and exiters who received career and training services for the most recent program year and the three preceding program years, as applicable to the program;

(4) Information on the performance levels achieved for the primary indicators consistent with § 361.155 for career and training services for the most recent program year and the 3 preceding program years, as applicable to the program;

(5) The percentage of participants in a program who obtained unsubsidized employment related to the training received (often referred to as training-related employment) through WIOA title I–B programs;

(6) The amount of funds spent on each type of career and training service for the most recent program year and the 3 preceding program years, as applicable to the program;

(7) The average cost per participant for those participants who received career and training services, respectively, during the most recent program year and the 3 preceding program years for, as applicable to the program;

(8) The percentage of a State's annual allotment under WIOA sec. 132(b) that the State spent on administrative costs; and

(9) information that facilitates comparisons of programs with programs in other States.

(10) For WIOA title I programs, a State performance narrative, which, for States in which a local area is implementing a pay-for-performance contracting strategy, at a minimum provides:

(i) A description of pay-for-performance contract strategies being used for programs;

(ii) The performance of service providers entering into contracts for such strategies, measured against the levels of performance specified in the contracts for such strategies; and

(iii) An evaluation of the design of the programs and performance strategies and, when available, the satisfaction of employers and participants who received services under such strategies.

(b) The disaggregation of data for the State performance report must be done in compliance with WIOA sec. 116(d)(6)(C).

(c) The State performance reports must include a mechanism of electronic access to the State's local area and ETP performance reports.

(d) States must comply with these requirements from sec. 116 of WIOA as explained in joint guidance issued by the Departments of Education and Labor, which may include information on reportable individuals as determined by the Secretaries.

§ 361.165 May a State require additional indicators of performance?

States may identify additional indicators of performance for the six core programs. These indicators must be included in the Unified or Combined State Plan.

§ 361.170 How are State adjusted levels of performance for primary indicators established?

(a) A State must submit in the State Plan expected levels of performance on the primary indicators for each core program as required by sec. 116(b)(iv) of WIOA as explained in joint guidance issued by the Secretaries of Education and Labor.

(1) The initial State Plan submitted under WIOA must contain expected levels of performance for the first 2 years of the State Plan period.

(2) States must submit expected levels of performance for the third and fourth year of the State Plan before the third program year consistent with §§ 361.135 and 361.145.

(b) The State must reach agreement on levels of performance with the

Secretaries of Education and Labor for each of the core programs based on the following factors:

(1) How the levels of performance compare with State adjusted levels of performance established for other States;

(2) The application of an objective statistical model established by the Secretaries of Education and Labor, subject to paragraph (d) of this section;

(3) How the levels promote continuous improvement in performance based on the primary indicators and ensure optimal return on investment of Federal funds; and

(4) The extent to which the levels assist the State in meeting the performance goals established by the Secretaries of Education and Labor for the core programs in accordance with the Government Performance and Results Act of 1993, and its amendments.

(c) An objective statistical adjustment model will be developed and disseminated by the Secretaries. The model will be based on:

(1) Differences among States in actual economic conditions, including unemployment rates and job losses or gains in particular industries; and

(2) The characteristics of participants, including:

(i) Indicators of poor work history;

(ii) Lack of work experience;

(iii) Lack of educational or occupational skills attainment;

(iv) Dislocation from high-wage and high-benefit employment;

(v) Low levels of literacy;

(vi) Low levels of English proficiency;

(vii) Disability status;

(viii) Homelessness;

(ix) Ex-offender status; and

(x) Welfare dependency.

(d) The objective statistical adjustment model developed under paragraph (c) of this section will be:

(1) Applied to the core programs' primary indicators upon availability of data which is necessary to populate the model and apply it to the programs;

(2) Subject to paragraph (d)(1) of this section, used before the beginning of a program year in order to establish State performance targets for the upcoming program year; and

(3) Subject to paragraph (d)(1) of this section, used to revise performance levels at the end of a program year based on actual circumstances, consistent with sec. 116(b)(3)(vii) of WIOA.

(e) States must comply with these requirements from sec. 116 of WIOA as explained in joint guidance issued by the Departments of Education and Labor.

§ 361.175 What responsibility do States have to use quarterly wage record information for performance accountability?

(a) States must, consistent with State laws, use quarterly wage record information in measuring the progress on State adjusted levels of performance for the primary indicators outlined in § 361.155 and local performance indicators identified in § 361.205. The use of social security numbers from participants and such other information as is necessary to measure the progress of those participants through quarterly wage record information is authorized.

(b) ''Quarterly wage record information'' means intrastate and interstate wages paid to an individual, the social security number (or numbers, if more than one) of the individual and the name, address, State, and the Federal employer identification number of the employer paying the wages to the individual.

(c) The Governor may designate a State agency [or appropriate State entity] to assist in carrying out the performance reporting requirements for WIOA core programs and eligible training providers. The Governor or such agency [or appropriate State entity] is responsible for:

(1) Facilitating data matches;

(2) Data quality reliability, protection against disaggregation that would violate privacy.

§ 361.180 What State actions are subject to a financial sanction under Workforce Innovation and Opportunity Act?

The following failures by a State are subject to financial sanction under WIOA sec. 116(d):

(a) The failure by a State to submit the State annual performance report required under WIOA sec. 116(d)(2); or

(b) The failure by a State to meet adjusted levels of performance for the primary indicators of performance in accordance with sec. 116(f) of WIOA.

§ 361.185 When are sanctions applied for failure to report?

(a) Sanctions will be applied when a State fails to submit the State annual performance reports required under sec. 116(d)(2) of WIOA. It is a failure to report if the State either:

(1) Does not submit a State annual performance report by the date for timely submission set in performance reporting guidance; or

(2) Submits a State annual performance report by the date for timely submission, but the report is incomplete.

(b) Sanctions will not be assessed if the reporting failure is due to exceptional circumstances outside of the State's control. Exceptional circumstances may include, but are not limited to:

(1) Natural disasters;

(2) Unexpected personnel transitions; and

(3) Unexpected technology related impacts.

(c) In the event that a State may not be able to submit a complete and accurate performance report by the deadline for timely reporting:

(1) The State must notify the Secretary of Labor or Secretary of Education as soon as possible of a potential impact on the ability to submit their State annual performance reports by no later than 30 days prior to the established deadline in order to not be considered failing to report.

(2) In circumstances where unexpected events occur within the 30-day period before the deadline for submission of the State annual performance reports, the Secretary of Labor and Secretary of Education will review requests for extending the reporting deadline in accordance with the Departments' procedures explained in guidance on reporting timelines.

§ 361.190 When are sanctions applied for failure to achieve adjusted levels of performance?

(a) States' negotiated levels of performance will be adjusted through the application of the statistical adjustment model established under § 361.170 to account for actual conditions experienced during a program year and characteristics of participants, annually at the close of each program year.

(b) States that fail to meet adjusted levels of performance for the primary indicators of performance outlined in § 361.155 for any year will receive technical assistance, including assistance in the development of a performance improvement plan provided by the Secretary of Labor or Secretary of Education.

(c) State failure to meet adjusted levels of performance will be determined through three criteria:

(1) Overall State program scores, based on the percent achieved by a program on each of the six primary indicators compared to the adjusted goal for each primary indicator. The average of the percentage of the adjusted goal achieved for each primary indicator will constitute the overall program score for the State;

(2) Overall State indicator scores, based on the percent achieved by each program on each of the individual primary indicators compared to the adjusted goal. The average of the

percentage of the adjusted goal achieved for each of the six core programs' will constitute an overall indicator score for the State; and

(3) Individual indicator scores, based on the percent achieved by each program on each of the individual primary indicators compared to the adjusted goals.

(d) A performance failure occurs when:

(1) Any overall State program score or overall State indicator score falls below 90 percent for the program year; or

(2) Any of the States' individual indicator scores fall below 50 percent for the program year.

(e) Sanctions based on performance failure will be applied to States if, for 2 consecutive years, the State fails to meet 90 percent of the overall State program score, 90 percent of the overall State indicator score, or 50 percent on any individual indicator score for the same program or indicator.

§ 361.195 What should States expect when a sanction is applied to the Governor's Reserve Allotment?

(a) The Secretary of Labor and the Secretary of Education will reduce the Governor's Reserve Allotment by 5 percent of the maximum available amount for the immediately succeeding program year if:

(1) The State fails to submit the State annual performance reports as required under WIOA sec. 116(d)(2), as defined in § 361.185; or

(2) The State fails to meet State adjusted levels of performance for the same primary performance indicator(s) under either § 361.190(d)(1) or (2) for the second consecutive year as defined in § 361.190.

(b) If the State fails under paragraphs (a)(1) and (2) of this section in the same program year, the Secretary of Labor and the Secretary of Education will reduce the Governor's Reserve Allotment by 10 percent of the maximum available amount for the immediately succeeding program year.

(c) If a State's Governor's Reserve Allotment is reduced:

(1) The reduced amount will not be returned to the State in the event that the State later improves performance or submits its annual performance report; and

(2) The Governor's reserve will continue to be set at the reduced level in each subsequent year until the Secretary of Labor or the Secretary of Education, dependent upon the impacted program, determines that the State met the State adjusted levels of performance for the applicable primary performance indicators and has submitted all of the required performance reports.

(d) A State may request review of a sanction the U.S. Department of Labor imposes in accordance with the provisions of § 683.800 of this chapter.

§ 361.200 What other administrative actions will be applied to States' performance requirements?

(a) In addition to sanctions for failure to report or failure to meet adjusted levels of performance, States will be subject to administrative actions in the case of poor performance.

(b) States' performance achievement on the individual primary indicators will be assessed in addition to the overall program score and overall indicator score. Based on this assessment, as clarified and explained in guidance, for performance on any individual primary indicator, the Secretary of Labor or the Secretary of Education will require the State to establish a performance risk plan to address continuous improvement on the individual primary indicator.

§ 361.205 What performance indicators apply to local areas?

(a) Each local workforce investment area in a State under title I of WIOA is subject to the same primary indicators of performance for the core programs for WIOA title I under § 361.155(a)(1) and (d) that apply to the State.

(b) In addition to the indicators described in paragraph (a) of this section, under § 361.165, the Governor may apply additional indicators of performance to local areas in the State.

(c) States must annually make local area performance reports available to the public using a template that the Departments will disseminate in guidance, including by electronic means. The State must provide electronic access to the public local area performance report in its annual State performance report.

(d) The local area performance report must provide information on the actual performance levels for the local area based on quarterly wage records consistent with the requirements for States under § 361.175.

(e) The local area performance report must include:

(1) Performance levels achieved by the local area for the indicators for the adult, dislocated worker, and youth programs under title I of WIOA in § 361.155(a)(1) and (3);

(2) Performance levels achieved by the local area for the adult, dislocated worker, and youth programs under title I of WIOA in § 361.160(a);

(3) The percentage of a local area's allotment under WIOA sec. 128(b) and sec. 133(b) that the local area spent on administrative costs; and

(4) Other information that facilitates comparisons of programs with programs in other local areas (or planning regions if the local area is part of a planning region).

(f) States must comply with any requirements from sec. 116(d)(3) of WIOA as explained in guidance, including the use of the performance reporting template, issued by the Department of Labor.

§ 361.210 How are local performance levels established?

(a) The objective statistical adjustment model required under sec. 116(b)(3)(A)(viii) of WIOA and described in the § 361.170 must be:

(1) Used to establish local performance targets for the upcoming program year, and

(2) Used to revise performance levels at the end of a program year based on actual circumstances, consistent with WIOA sec. 116(c)(3).

(b) The Governor, Local Board, and chief elected official must reach agreement on local targets and levels based on a negotiations process before the start of a program year with the use of the objective statistical model described in paragraph (a) of this section. The negotiations will include a discussion of circumstances not accounted for in the model and will take into account the extent to which the levels promote continuous improvement. The objective statistical model will be applied at the end of the program year based on actual conditions experienced.

(c) The negotiations process described in paragraph (b) of this section must be developed by the Governor and disseminated to all Local Boards and chief elected officials.

(d) The Local Boards may apply performance measures to service providers that differ from the performance measures that apply to the local area. These performance measures should be established after considering:

(1) The established local performance levels,

(2) The services provided by each provider; and

(3) The populations the service providers are intended to serve.

§ 361.215 Under what circumstances are local areas eligible for State Incentive Grants?

(a) The Governor is not required to award local incentive funds. The Governor may use non-Federal funds to create incentives for Local Boards to implement pay-for-performance contract

strategies for the delivery of training services described in WIOA sec. 134(c)(3) or activities described in WIOA sec. 129(c)(2) in the local areas served by the Local Boards.

(b) Pay-for-performance contract strategies must be implemented in accordance with §§ 683.500 through 683.530 of this chapter and § 361.160.

§ 361.220 Under what circumstances may a corrective action or sanction be applied to local areas for poor performance?

(a) If a local area fails to meet the levels of performance agreed to under § 361.210 for the primary indicators of performance in the adult, dislocated worker, and youth programs authorized under WIOA title I in any program year, technical assistance must be provided by the Governor or, upon the Governor's request, by the Secretary of Labor.

(1) A State must establish the threshold for failure in meeting levels of performance for a local area before negotiating the adjusted levels of performance for the local area.

(2) The technical assistance may include:

(i) Assistance in the development of a performance improvement plan,

(ii) The development of a modified local or regional plan; or

(iii) Other actions designed to assist the local area in improving performance.

(b) If a local area fails to meet the levels of performance agreed to under § 361.210 for the primary indicators of performance for the adult, dislocated worker, and youth programs authorized under WIOA title I for a third consecutive program year, the Governor must take corrective actions. The corrective actions must include the development of a reorganization plan under which the Governor:

(1) Requires the appointment and certification of a new Local Board, consistent with the criteria established under § 679.350 of this chapter;

(2) Prohibits the use of eligible providers and one-stop partners that have been identified as achieving poor levels of performance; or

(3) Takes such other significant actions as the Governor determines are appropriate.

§ 361.225 Under what circumstances may local areas appeal a reorganization plan?

(a) The Local Board and chief elected official for a local area that is subject to a reorganization plan under WIOA sec. 116(g)(2)(A) may appeal to the Governor to rescind or revise the reorganization plan not later than 30 days after receiving notice of the reorganization plan. The Governor must make a final decision within 30 days after receipt of the appeal.

(b) The Local Board and chief elected official may appeal the final decision of the Governor to the Secretary of Labor not later than 30 days after receiving the decision from the Governor. Any appeal of the Governor's final decision must be:

(1) Appealed jointly by the Local Board and chief elected official to the Secretary under § 683.650 of this chapter; and

(2) Must be submitted by certified mail, return receipt requested, to the Secretary, U.S. Department of Labor, 200 Constitution Ave. NW., Washington DC 20210, Attention: ASET. A copy of the appeal must be simultaneously provided to the Governor.

(c) Upon receipt of the joint appeal from the Local Board and chief elected official, the Secretary must make a final decision within 30 days. In making this determination the Secretary may consider any comments submitted by the Governor in response to the appeals.

(d) The decision by the Governor to impose a reorganization plan becomes effective at the time it is issued and remains effective unless the Secretary of Labor rescinds or revises the reorganization plan under WIOA sec. 116(g)(2)(B)(ii).

§ 361.230 What information is required for the eligible training provider performance reports?

(a) States are required to make available, and publish, annually using a template the Departments will disseminate including through electronic means, the eligible training provider performance reports for eligible training providers who provide services under sec. 122 of WIOA that are described in §§ 680.400 through 680.530 of this chapter. These reports at a minimum must include, consistent with § 361.175 and with respect to each program of study that is eligible to receive funds under WIOA:

(1) The total number of participants who received training services under the adult and dislocated worker programs authorized under WIOA title I for the most recent year and the 3 preceding program years, including:

(i) The number of participants under the adult and dislocated worker programs disaggregated by barriers to employment;

(ii) The number of participants under the adult and dislocated worker programs disaggregated by race, ethnicity, sex, and age;

(iii) The number of participants under the adult and dislocated worker programs disaggregated by the type of training entity for the most recent program year and the 3 preceding program years;

(2) The total number of participants who exit a program of study or its equivalent, including disaggregate counts by the type of training entity during the most recent program year and the 3 preceding program years;

(3) The average cost-per-participant for participants who received training services for the most recent program year and the 3 preceding program years disaggregated by type of training entity;

(4) The total number of individuals exiting from the program of study (or the equivalent); and

(5) The levels of performance achieved for the primary indicators of performance identified in §§ 361.155(a)(1)(i) through (iv) with respect to all individuals in a program of study (or the equivalent).

(b) Registered apprenticeship programs are not required to submit performance information. See § 680.470 of this chapter. If a registered apprenticeship program voluntarily submits performance information to a State, the State must include this information in the report.

(c) The State must provide electronic access to the public eligible training provider performance report in its annual State performance report.

(d) States must comply with any requirements from sec. 116(d)(4) of WIOA as explained in guidance issued by the Department of Labor.

(e) The Governor may designate one or more State agencies such as a State education agency or State educational authority to assist in overseeing eligible training provider performance and facilitating the production and dissemination of eligible training provider performance reports. These agencies may be the same agencies that are designated as responsible for administering the eligible training providers list as provided under § 680.500 of this chapter. The Governor or such agencies, or authorities, is responsible for:

(1) Facilitating data matches between ETP records and UI wage data in order to produce the report;

(2) The creation and dissemination of the reports as described in paragraphs (a) through (d) of this section;

(3) Coordinating the dissemination of the performance reports with the eligible training provider list and the information required to accompany the list, as provided in § 680.500 of this chapter.

§ 361.235 What are the reporting requirements for individual records for core Workforce Innovation and Opportunity Act title I, III, and IV programs?

(a) On a quarterly basis, each State must submit to the Secretary of Labor or Secretary of Education, as appropriate, individual records that include demographic information, information on services received, and information on resulting outcomes, as appropriate, for each reportable individual in a core program administered by the Secretary of Labor or Education. Such records submitted to the Department of Labor must be submitted in one record that is integrated across all core Department of Labor programs.

(b) For individual records submitted to the Secretary of Labor, records must be integrated across all core programs administered by the Secretary of Labor in one single file.

(c) States must comply with any other requirements from sec. 116(d)(2) of WIOA as explained in guidance issued by the Department of Labor.

§ 361.240 What are the requirements for data validation of State annual performance reports?

(a) States must establish procedures, consistent with guidelines issued by the Secretary of Education or Secretary of Labor, to submit complete annual performance reports that contain information that is valid and reliable.

(b) If a State fails to meet standards in paragraph (a) of this section as determined by the Secretary of Labor or Secretary of Education, the appropriate Secretary will provide technical assistance and may require the State to develop and implement corrective actions, which may require the State to provide training for its subrecipients.

(c) The Secretary of Labor and the Secretary of Education will provide training and technical assistance to States in order to implement this section.

■ 7. Add subpart F to part 361 to read as follows:

Subpart F—Description of the One-Stop System Under Title I of the Workforce Innovation and Opportunity Act

Sec.

361.300 What is the one-stop delivery system?
361.305 What is a comprehensive one-stop center and what must be provided there?
361.310 What is an affiliated site and what must be provided there?
361.315 Can a stand-alone Wagner-Peyser employment service office be designated as an affiliated one-stop site?
361.320 Are there any requirements for networks of eligible one-stop partners or specialized centers?
361.400 Who are the required one-stop partners?
361.405 Is Temporary Assistance for Needy Families a required one-stop partner?
361.410 What other entities may serve as one-stop partners?
361.415 What entity serves as the one-stop partner for a particular program in the local area?
361.420 What are the roles and responsibilities of the required one-stop partners?
361.425 What are the applicable career services that must be provided through the one-stop delivery system by required one-stop partners?
361.430 What are career services?
361.435 What are the business services provided through the one-stop delivery system, and how are they provided?
361.440 When may a fee be charged for the business services in this subpart?
361.500 What is the Memorandum of Understanding for the one-stop delivery system and what must be included in the Memorandum of Understanding?
361.505 Is there a single Memorandum of Understanding for the local area, or must there be separate Memoranda of Understanding between the Local Board and each partner?
361.510 How should the Memorandum of Understanding be negotiated?
361.600 Who may operate one-stop centers?
361.605 How is the one-stop operator selected?
361.610 How is sole source selection of one-stop operators accomplished?
361.615 Can an entity serving as one-stop operator compete to be a one-stop operator under the procurement requirements of this subpart?
361.620 What is the one-stop operator's role?
361.625 Can a one-stop operator also be a service provider?
361.630 Can State merit staff still work in a one-stop where the operator is not a governmental entity?
361.635 What is the effective date of the provisions of this subpart?
361.700 What are one-stop infrastructure costs?
361.705 What guidance must the Governor issue regarding one-stop infrastructure funding?
361.710 How are infrastructure costs funded?
361.715 How are one-stop infrastructure costs funded in the local funding mechanism?
361.720 What funds are used to pay for infrastructure costs in the local one-stop infrastructure funding mechanism?
361.725 What happens if consensus on infrastructure funding is not reached at the local level between the Local Board, chief elected officials, and one-stop partners?
361.730 What is the State one-stop infrastructure funding mechanism?
361.735 How are partner contributions determined in the State one-stop funding mechanism?
361.740 What funds are used to pay for infrastructure costs in the State one-stop infrastructure funding mechanism?
361.745 How is the allocation formula used by the Governor determined in the State one-stop funding mechanism?
361.750 When and how can a one-stop partner appeal a one-stop infrastructure amount designated by the State under the State infrastructure funding mechanism?
361.755 What are the required elements regarding infrastructure funding that must be included in the one-stop Memorandum of Understanding?
361.760 How do one-stop partners jointly fund other shared costs under the Memorandum of Understanding?
361.800 How are one-stop centers and one-stop delivery systems certified for effectiveness, physical and programmatic accessibility, and continuous improvement?
361.900 What is the common identifier to be used by each one-stop delivery system?

Subpart F—Description of the One-Stop System Under Title I of the Workforce Innovation and Opportunity Act

§ 361.300 What is the one-stop delivery system?

(a) The one-stop delivery system brings together workforce development, educational, and other human resource services in a seamless customer-focused service delivery network that enhances access to the programs' services and improves long-term employment outcomes for individuals receiving assistance. One-stop partners administer separately funded programs as a set of integrated streamlined services to customers.

(b) Title I of the Workforce Innovation and Opportunity Act (WIOA) assigns responsibilities at the local, State, and Federal level to ensure the creation and maintenance of a one-stop delivery system that enhances the range and quality of education and workforce development services that business and individual customers can access.

(c) The system must include at least one comprehensive physical center in each local area as described in § 361.305.

(d) The system may also have additional arrangements to supplement the comprehensive center. These arrangements include:

(1) An affiliated site or a network of affiliated sites, where one or more partners make programs, services, and activities available, as described in § 361.310;

(2) A network of eligible one-stop partners, as described in §§ 361.400 through 361.410, through which each partner provides one or more of the programs, services, and activities that are linked, physically or

technologically, to an affiliated site or access point that assures customers are provided information on the availability of career services, as well as other program services and activities, regardless of where they initially enter the workforce system in the local area; and

(3) Specialized centers that address specific needs, including those of dislocated workers, youth, or key industry sectors, or clusters.

(e) Required one-stop partner programs must provide access to programs, services, and activities through electronic means if applicable and practicable. This is in addition to providing access to services through the mandatory comprehensive physical one-stop center and any affiliated sites or specialized centers. The provision of programs and services by electronic methods such as Web sites, telephones, or other means must improve the efficiency, coordination, and quality of one-stop partner services. Electronic delivery must not replace access to such services at a comprehensive one-stop center or be a substitute to making services available at an affiliated site if the partner is participating in an affiliated site. Electronic delivery systems must be in compliance with the nondiscrimination and equal opportunity provisions of WIOA in sec. 188 and its implementing regulations at 29 CFR part 37.

(f) The design of the local area's one-stop delivery system must be described in the Memorandum of Understanding (MOU) executed with the one-stop partners, described in § 361.500.

§ 361.305 What is a comprehensive one-stop center and what must be provided there?

(a) A comprehensive one-stop center is a physical location where jobseeker and employer customers can access the programs, services, and activities of all required one-stop partners. A comprehensive one-stop center must have at least one title I staff person physically present.

(b) The comprehensive one-stop center must provide:

(1) Career services, described in § 361.430;

(2) Access to training services described in of this chapter;

(3) Access to any employment and training activities carried out under sec. 134(d) of WIOA;

(4) Access to programs and activities carried out by one-stop partners listed in §§ 361.400 through 361.410, including Wagner-Peyser employment services; and

(5) Workforce and labor market information.

(c) Customers must have access to these programs, services, and activities during regular business days at a comprehensive one-stop center. The Local Board may establish other service hours at other times to accommodate the schedules of individuals who work on regular business days. The State Board will evaluate the hours of access to service as part of the evaluation of effectiveness in the one-stop certification process described in § 361.800(b).

(d) ''Access'' to programs and services means having either: Program staff physically present at the location; having partner program staff physically present at the one-stop appropriately trained to provide information to customers about the programs, services, and activities available through partner programs; or providing direct linkage through technology to program staff who can provide meaningful information or services.

(1) A ''direct linkage'' means providing direct connection at the one-stop, within a reasonable time, by phone or through a real-time Web-based communication to a program staff member who can provide program information or services to the customer.

(2) A ''direct linkage'' does not include providing a phone number or computer Web site that can be used at an individual's home; providing information, pamphlets, or materials; or making arrangements for the customer to receive services at a later time or on a different day.

(e) All comprehensive one-stop centers must be physically and programmatically accessible to individuals with disabilities, as described in § 361.800.

§ 361.310 What is an affiliated site and what must be provided there?

(a) An affiliated site, or affiliate one-stop center, is a site that makes available to jobseeker and employer customers one or more of the one-stop partners' programs, services, and activities. An affiliated site does not need to provide access to every required one-stop partner program. The frequency of program staff's physical presence in the affiliated site will be determined at the local level. Affiliated sites are access points in addition to the Comprehensive one-stop center(s) in each local area. If used by local areas as a part of the service delivery strategy, affiliate sites should be implemented in a manner that supplements and enhances customer access to services.

(b) As described in § 361.315, Wagner-Peyser employment services cannot be a stand-alone affiliated site.

(c) States, in conjunction with the Local Workforce Development Boards, must examine lease agreements and property holdings throughout the one-stop delivery system in order to use property in an efficient and effective way. Where necessary and appropriate, States and Local Boards must take expeditious steps to align lease expiration dates with efforts to consolidate one-stop operations into service points where Wagner-Peyser employment services are collocated as soon as reasonably possible. These steps must be included in the State Plan.

(d) All affiliated sites must be physically and programmatically accessible to individuals with disabilities, as described in § 361.800.

§ 361.315 Can a stand-alone Wagner-Peyser employment service office be designated as an affiliated one-stop site?

(a) Separate stand-alone Wagner-Peyser employment services offices are not permitted under WIOA, as also described in.

(b) If Wagner-Peyser employment services are provided at an affiliated site, there must be at least one other partner in the affiliated site with staff physically present more than 50 percent of the time the center is open. Additionally, the other partner must not be the partner administering local veterans' employment representatives, disabled veterans' outreach program specialists, or unemployment compensation programs. If Wagner-Peyser employment services and any of these three programs are provided at an affiliated site, an additional partner must have staff present in the center more than 50 percent of the time the center is open.

§ 361.320 Are there any requirements for networks of eligible one-stop partners or specialized centers?

Any network of one-stop partners or specialized centers must be connected to, such as having processes in place to make referrals to, the comprehensive and any appropriate affiliate one-stop centers. Wagner-Peyser employment services cannot stand alone in a specialized center. Just as described in § 361.315 for an affiliated site, a specialized center must include other programs besides Wagner-Peyser employment services, local veterans' employment representatives, disabled veterans' outreach program specialists, and unemployment compensation.

§ 361.400 Who are the required one-stop partners?

(a) Section 121(b)(1)(B) of WIOA identifies the entities that are required partners in the local one-stop systems.

(b) The required partners are the entities responsible for administering the following programs and activities in the local area:

(1) Programs authorized under title I of WIOA, including:

(i) Adults;

(ii) Dislocated workers;

(iii) Youth;

(iv) Job Corps;

(v) YouthBuild;

(vi) Native American programs; and

(vii) Migrant and seasonal farmworker programs;

(2) Employment services authorized under the Wagner-Peyser Act (29 U.S.C. 49 *et seq.*);

(3) Adult education and literacy activities authorized under title II of WIOA;

(4) The Vocational Rehabilitation program authorized under title I of the Rehabilitation Act of 1973 (29 U.S.C. 720 *et seq.*);

(5) The Senior Community Service Employment Program authorized under title V of the Older Americans Act of 1965 (42 U.S.C. 3056 *et seq.*);

(6) Career and technical education programs at the post-secondary level authorized under the Carl D. Perkins Career and Technical Education Act of 2006 (20 U.S.C. 2301 *et seq.*);

(7) Trade Adjustment Assistance activities authorized under chapter 2 of title II of the Trade Act of 1974 (19 U.S.C. 2271 *et seq.*);

(8) Jobs for Veterans State Grants programs authorized under chapter 41 of title 38, U.S.C.;

(9) Employment and training activities carried out under the Community Services Block Grant (42 U.S.C. 9901 *et seq.*);

(10) Employment and training activities carried out by the Department of Housing and Urban Development;

(11) Programs authorized under State unemployment compensation laws (in accordance with applicable Federal law);

(12) Programs authorized under sec. 212 of the Second Chance Act of 2007 (42 U.S.C. 17532); and

(13) Temporary Assistance for Needy Families (TANF) authorized under part A of title IV of the Social Security Act (42 U.S.C. 601 *et seq.*), unless exempted by the Governor under § 361.405(b).

§ 361.405 Is Temporary Assistance for Needy Families a required one-stop partner?

(a) Yes, TANF, authorized under part A of title IV of the Social Security Act (42 U.S.C. 601 *et seq.*), is a required partner. (WIOA sec. 121(b)(1)(B)(xiii)).

(b) The Governor may determine that TANF will not be a required partner in the State, or within some specific local areas in the State. In this instance, the Governor must notify the Secretaries of the U.S. Departments of Labor and Health and Human Services in writing of this determination.

(c) In States, or local areas within a State, where the Governor has determined that TANF is not required to be a partner, local TANF programs may still opt to be a one-stop partner, or to work in collaboration with the one-stop center.

§ 361.410 What other entities may serve as one-stop partners?

(a) Other entities that carry out a workforce development program, including Federal, State, or local programs and programs in the private sector, may serve as additional partners in the one-stop system if the Local Board and chief elected official(s) approve the entity's participation.

(b) Additional partners may include:

(1) Employment and training programs administered by the Social Security Administration, including the Ticket to Work and Self-Sufficiency Program established under sec. 1148 of the Social Security Act (42 U.S.C. 1320b–19);

(2) Employment and training programs carried out by the Small Business Administration;

(3) Supplemental Nutrition Assistance Program (SNAP) employment and training programs, authorized under secs. 6(d)(4) and 6(o) of the Food and Nutrition Act of 2008 (7 U.S.C. 2015(d)(4));

(4) Client Assistance Program authorized under sec. 112 of the Rehabilitation Act of 1973 (29 U.S.C. 732);

(5) Programs authorized under the National and Community Service Act of 1990 (42 U.S.C. 12501 *et seq.*); and

(6) Other appropriate Federal, State or local programs, including employment, education, and training programs provided by public libraries or in the private sector.

§ 361.415 What entity serves as the one-stop partner for a particular program in the local area?

(a) The entity that carries out the program and activities listed in § 361.400 or § 361.405, and therefore serves as the one-stop partner, is the grant recipient, administrative entity, or organization responsible for administering the funds of the specified program in the local area. The term "entity" does not include the service providers that contract with, or are subrecipients of, the local administrative entity. For programs that do not include local administrative entities, the responsible State agency should be the partner. Specific entities for particular programs are identified in paragraph (b) of this section. If a program or activity listed in § 361.400 is not carried out in a local area, the requirements relating to a required one-stop partner are not applicable to such program or activity in that local one-stop system.

(b) For title II of WIOA, the entity that carries out the program for the purposes of paragraph (a) of this section is the sole entity or agency in the State or outlying area responsible for administering or supervising policy for adult education and literacy activities in the State or outlying area. The State eligible entity may delegate its responsibilities under paragraph (a) of this section to one or more eligible providers or consortium of eligible providers.

(c) For the Vocational Rehabilitation program, authorized under title I of the Rehabilitation Act, the entity that carries out the program for the purposes of paragraph (a) of this section is the designated State agencies or designated State units specified under sec. 101(a)(2) of the Rehabilitation Act that is primarily concerned with vocational rehabilitation, or vocational and other rehabilitation, of individuals with disabilities.

(d) Under WIOA, the national programs, including Job Corps, the Native American program, YouthBuild, and Migrant and Seasonal Farmworker programs are required one-stop partners. The entity for the Native American program and Migrant and Seasonal Farmworker programs is the grantee of those respective programs. The entity for Job Corps is the Job Corps center.

(e) For the Carl D. Perkins Career and Technical Education Act of 2006, the entity that carries out the program for the purposes of paragraph (a) of this section is the State eligible agency. The State eligible agency may delegate its responsibilities under paragraph (a) of this section to one or more State agencies, eligible recipients at the post-secondary level, or consortia of eligible recipients at the post-secondary level.

§ 361.420 What are the roles and responsibilities of the required one-stop partners?

Each required partner must:

(a) Provide access to its programs or activities through the one-stop delivery system, in addition to any other

appropriate locations; (WIOA sec. 121(b)(1)(A)(i).)

(b) Use a portion of funds made available to the partner's program, to the extent consistent with the Federal law authorizing the partner's program and with Federal cost principles in 2 CFR parts 200 and 3474 (requiring, among other things, that costs are allowable, reasonable, necessary, and allocable), to:

(1) Provide applicable career services; and

(2) Work collaboratively with the State and Local Boards to establish and maintain the one-stop delivery system. This includes jointly funding the one-stop infrastructure through partner contributions that are based upon:

(i) A reasonable cost allocation methodology by which infrastructure costs are charged to each partner in proportion to the relative benefits;

(ii) Federal cost principles; and

(iii) Any local administrative cost requirements in the Federal law authorizing the partner's program. (This is further described in § 361.700). (WIOA sec. 121(b)(1)(A)(ii).)

(c) Enter into an MOU with the Local Board relating to the operation of the one-stop system that meets the requirements of § 361.500(d);

(d) Participate in the operation of the one-stop system consistent with the terms of the MOU, requirements of authorizing laws, the Federal cost principles, and all other applicable legal requirements; (WIOA sec. 121(b)(1)(A)(iv)) and

(e) Provide representation on the State and Local Workforce Development Boards as required and participate in Board committees as needed. (WIOA secs. 101(b)(iii) and 107(b)(2)(C) and (D))

§ 361.425 What are the applicable career services that must be provided through the one-stop delivery system by required one-stop partners?

(a) The applicable career services to be delivered by required one-stop partners are those services listed in § 361.430 that are authorized to be provided under each partner's program.

(b) One-stop centers provide services to individual customers based on individual needs, including the seamless delivery of multiple services to individual customers. There is no required sequence of services. (WIOA sec. 121(e)(1)(A).)

§ 361.430 What are career services?

Career services, as identified in sec. 134(c)(2) of WIOA, consist of three types:

(a) Basic career services must be made available and, at a minimum, must include the following services, as consistent with allowable program activities and Federal cost principles:

(1) Determinations of whether the individual is eligible to receive assistance from the adult, dislocated worker, or youth programs;

(2) Outreach, intake (including worker profiling), and orientation to information and other services available through the one-stop delivery system;

(3) Initial assessment of skill levels including literacy, numeracy, and English language proficiency, as well as aptitudes, abilities (including skills gaps), and supportive services needs;

(4) Labor exchange services, including—

(i) Job search and placement assistance, and, when needed by an individual, career counseling, including—

(A) Provision of information on in-demand industry sectors and occupations (as defined in sec. 3(23) of WIOA); and,

(B) Provision of information on nontraditional employment; and

(ii) Appropriate recruitment and other business services on behalf of employers, including information and referrals to specialized business services other than those traditionally offered through the one-stop delivery system;

(5) Provision of referrals to and coordination of activities with other programs and services, including programs and services within the one-stop delivery system and, when appropriate, other workforce development programs;

(6) Provision of workforce and labor market employment statistics information, including the provision of accurate information relating to local, regional, and national labor market areas, including—

(i) Job vacancy listings in labor market areas;

(ii) Information on job skills necessary to obtain the vacant jobs listed; and

(iii) Information relating to local occupations in demand and the earnings, skill requirements, and opportunities for advancement for those jobs;

(7) Provision of performance information and program cost information on eligible providers of training services by program and type of providers;

(8) Provision of information, in usable and understandable formats and languages, about how the local area is performing on local performance accountability measures, as well as any additional performance information relating to the area's one-stop delivery system;

(9) Provision of information, in usable and understandable formats and languages, relating to the availability of supportive services or assistance, and appropriate referrals to those services and assistance, including: Child care; child support; medical or child health assistance available through the State's Medicaid program and Children's Health Insurance Program; benefits under SNAP; assistance through the earned income tax credit; and assistance under a State program for Temporary Assistance for Needy Families, and other supportive services and transportation provided through that program;

(10) Provision of information and assistance regarding filing claims for unemployment compensation, by which the one-stop must provide meaningful assistance to individuals seeking assistance in filing a claim for unemployment compensation.

(i) ''Meaningful assistance'' means:

(A) Providing assistance on-site using staff who are well-trained in unemployment compensation claims filing and the rights and responsibilities of claimants, or

(B) Providing assistance by phone or via other technology, as long as the assistance is provided by trained and available staff and within a reasonable time.

(ii) The costs associated in providing this assistance may be paid for by the State's unemployment insurance program, or the WIOA adult or dislocated worker programs, or some combination thereof.

(11) Assistance in establishing eligibility for programs of financial aid assistance for training and education programs not provided under WIOA.

(b) Individualized career services must be made available if determined to be appropriate in order for an individual to obtain or retain employment. These services include the following services, as consistent with program requirements and Federal cost principles:

(1) Comprehensive and specialized assessments of the skill levels and service needs of adults and dislocated workers, which may include—

(i) Diagnostic testing and use of other assessment tools; and

(ii) In-depth interviewing and evaluation to identify employment barriers and appropriate employment goals;

(2) Development of an individual employment plan, to identify the employment goals, appropriate achievement objectives, and appropriate combination of services for the participant to achieve his or her

employment goals, including the list of, and information about, the eligible training providers (as described in);

(3) Group counseling;

(4) Individual counseling;

(5) Career planning;

(6) Short-term pre-vocational services including development of learning skills, communication skills, interviewing skills, punctuality, personal maintenance skills, and professional conduct services to prepare individuals for unsubsidized employment or training;

(7) Internships and work experiences that are linked to careers (as described in);

(8) Workforce preparation activities;

(9) Financial literacy services as described in sec. 129(b)(2)(D) of WIOA and § 681.500 of this chapter;

(10) Out-of-area job search assistance and relocation assistance; and

(11) English language acquisition and integrated education and training programs.

(c) Follow-up services must be provided, as appropriate, including: Counseling regarding the workplace, for participants in adult or dislocated worker workforce investment activities who are placed in unsubsidized employment, for up to 12 months after the first day of employment.

§ 361.435 What are the business services provided through the one-stop delivery system, and how are they provided?

(a) Certain career services must be made available to local businesses, specifically labor exchange activities and labor market information described in § 361.430(a)(4)(ii) and (a)(6). Local areas must establish and develop relationships and networks with large and small employers and their intermediaries. (WIOA sec. 134(c)(1)(A)(iv)). Local areas also must develop, convene, or implement industry or sector partnerships. (WIOA sec. 134(c)(1)(A)(v)).

(b) Customized business services may be provided to employers, employer associations, or other such organizations (WIOA sec. 134(d)(1)(A)(ii)). These services are tailored for specific employers and may include:

(1) Customized screening and referral of qualified participants in training services to employers;

(2) Customized services to employers, employer associations, or other such organizations, on employment-related issues;

(3) Customized recruitment events and related services for employers including targeted job fairs;

(4) Human resource consultation services, including but not limited to assistance with:

(i) Writing/reviewing job descriptions and employee handbooks;

(ii) Developing performance evaluation and personnel policies;

(iii) Creating orientation sessions for new workers;

(iv) Honing job interview techniques for efficiency and compliance;

(v) Analyzing employee turnover; or

(vi) Explaining labor laws to help employers comply with wage/hour and safety/health regulations;

(5) Customized labor market information for specific employers, sectors, industries or clusters; and

(6) Other similar customized services.

(c) Local areas may also provide other business services and strategies that meet the workforce investment needs of area employers, in accordance with partner programs' statutory requirements and consistent with Federal cost principles. These business services may be provided through effective business intermediaries working in conjunction with the Local Board, or through the use of economic development, philanthropic, and other public and private resources in a manner determined appropriate by the Local Board and in cooperation with the State. Allowable activities, consistent with each partner's authorized activities, include, but are not limited to:

(1) Developing and implementing industry sector strategies (including strategies involving industry partnerships, regional skills alliances, industry skill panels, and sectoral skills partnerships);

(2) Customized assistance or referral for assistance in the development of a registered apprenticeship program;

(3) Developing and delivering innovative workforce investment services and strategies for area employers, which may include career pathways, skills upgrading, skill standard development and certification for recognized post-secondary credential or other employer use, and other effective initiatives for meeting the workforce investment needs of area employers and workers;

(4) Assistance to area employers in managing reductions in force in coordination with rapid response activities and with strategies for the aversion of layoffs, which may include strategies such as early identification of firms at risk of layoffs, use of feasibility studies to assess the needs of and options for at-risk firms, and the delivery of employment and training activities to address risk factors;

(5) The marketing of business services to appropriate area employers, including small and mid-sized employers; and

(6) Assisting employers with accessing local, State, and Federal tax credits.

(d) All business services and strategies must be reflected in the local plan, described in § 679.560(b)(3) of this chapter.

§ 361.440 When may a fee be charged for the business services in this subpart?

(a) There is no requirement that a fee-for-service be charged to employers.

(b) No fee may be charged for services provided in § 361.435(a).

(c) A fee may be charged for services provided under § 361.435(b) and (c). Services provided under § 361.435(c) may be provided through effective business intermediaries working in conjunction with the Local Board and may also be provided on a fee-for-service basis or through the leveraging of economic development, philanthropic, and other public and private resources in a manner determined appropriate by the Local Board. The Local Workforce Development Board may examine the services provided compared with the assets and resources available within the local one-stop delivery system and through its partners to determine an appropriate cost structure for services, if any.

§ 361.500 What is the Memorandum of Understanding for the one-stop delivery system and what must be included in the Memorandum of Understanding?

(a) The MOU is the product of local discussion and negotiation, and is an agreement developed and executed between the Local Board, with the agreement of the chief elected official and the one-stop partners, relating to the operation of the one-stop delivery system in the local area. Two or more local areas in a region may develop a single joint MOU, if they are in a region that has submitted a regional plan under sec. 106 of WIOA.

(b) The MOU must include:

(1) A description of services to be provided through the one-stop delivery system, including the manner in which the services will be coordinated and delivered through the system;

(2) A final plan, or an interim plan if needed, on how the costs of the services and the operating costs of the system will be funded, including:

(i) Funding of infrastructure costs of one-stop centers in accordance with §§ 361.700 through 361.755; and

(ii) Funding of the shared services and operating costs of the one-stop delivery system described in § 361.760;

(3) Methods for referring individuals between the one-stop operators and partners for appropriate services and activities;

(4) Methods to ensure that the needs of workers, youth, and individuals with barriers to employment, including individuals with disabilities, are addressed in providing access to services, including access to technology and materials that are available through the one-stop delivery system;

(5) The duration of the MOU and procedures for amending it; and

(6) Assurances that each MOU will be reviewed, and if substantial changes have occurred, renewed, not less than once every 3-year period to ensure appropriate funding and delivery of services.

(c) The MOU may contain any other provisions agreed to by the parties that are consistent with WIOA title I, the authorizing statutes and regulations of one-stop partner programs, and the WIOA regulations. (WIOA sec. 121(c).)

(d) When fully executed, the MOU must contain the signatures of the Local Board, one-stop partners, the chief elected official(s), and the time period in which the agreement is effective. The MOU must be updated not less than every 3 years to reflect any changes in the signatory official of the Board, one-stop partners, and chief elected officials, or one-stop infrastructure funding.

(e) If a one-stop partner appeal to the State regarding infrastructure costs, using the process described in § 361.750, results in a change to the one-stop partner's infrastructure cost contributions, the MOU must be updated to reflect the final one-stop partner infrastructure cost contributions.

§ 361.505 Is there a single Memorandum of Understanding for the local area, or must there be separate Memoranda of Understanding between the Local Board and each partner?

(a) A single ''umbrella'' MOU may be developed that addresses the issues relating to the local one-stop delivery system for the Local Board, chief elected official and all partners. Alternatively, the Local Board (with agreement of chief elected official) may enter into separate agreements between each partner or groups of partners.

(b) Under either approach, the requirements described in § 361.500 apply. Since funds are generally appropriated annually, the Local Board may negotiate financial agreements with each partner annually to update funding of services and operating costs of the system under the MOU.

§ 361.510 How should the Memorandum of Understanding be negotiated?

(a) WIOA emphasizes full and effective partnerships between Local Boards, chief elected officials, and one-stop partners. Local Boards and partners must enter into good-faith negotiations. Local Boards, chief elected officials, and one-stop partners may also request assistance from a State agency responsible for administering the partner program, the Governor, State Board, or other appropriate parties on other aspects of the MOU.

(b) Local Boards and one-stop partners must establish, in the MOU, a final plan for how the Local Board and programs will fund the infrastructure costs of the one-stop centers. If a final plan regarding infrastructure costs is not complete when other sections of the MOU are ready, an interim infrastructure cost plan may be included instead, as described in § 361.715(c). Once the final infrastructure cost plan is approved, the Local Board and one-stop partners must amend the MOU to include the final plan for funding infrastructure costs of the one-stop centers, including a description of the funding mechanism established by the Governor relevant to the local area. Infrastructure cost funding is described in detail in subpart E of this part. (WIOA sec. 121(h)(2).)

(c) The Local Board must report to the State Board, Governor, and relevant State agency when MOU negotiations with one-stop partners have reached an impasse.

(1) The Local Board and partners must document the negotiations and efforts that have taken place in the MOU. The State Board, one-stop partner programs, and the Governor may consult with the appropriate Federal agencies to address impasse situations related to issues other than infrastructure funding after attempting to address the impasse. Impasses related to infrastructure cost funding must be resolved using the State infrastructure cost funding mechanism described in § 361.730.

(2) The Local Board must report failure to execute an MOU with a required partner to the Governor, State Board, and the State agency responsible for administering the partner's program. Additionally, if the State cannot assist the Local Board in resolving the impasse, the Governor or the State Board must report the failure to the Secretary of Labor and to the head of any other Federal agency with responsibility for oversight of a partner's program.

§ 361.600 Who may operate one-stop centers?

(a) One-stop operators may be a single entity (public, private, or nonprofit) or a consortium of entities. If the consortium of entities is one of one-stop partners, it must include a minimum of three of the one-stop partners described in § 361.400.

(b) The one-stop operator may operate one or more one-stop centers. There may be more than one one-stop operator in a local area.

(c) The types of entities that may be a one-stop operator include:

(1) An institution of higher education;

(2) An Employment Service State agency established under the Wagner-Peyser Act;

(3) A community-based organization, nonprofit organization, or workforce intermediary;

(4) A private for-profit entity;

(5) A government agency;

(6) A Local Board, with the approval of the chief local elected official and the Governor; or

(7) Another interested organization or entity, which is capable of carrying out the duties of the one-stop operator. Examples may include a local chamber of commerce or other business organization, or a labor organization.

(d) Elementary schools and secondary schools are not eligible as one-stop operators, except that a nontraditional public secondary school such as a night school, adult school, or an area career and technical education school may be selected.

(e) The State and Local Boards must ensure that, in carrying out WIOA programs and activities, one-stop operators:

(1) Disclose any potential conflicts of interest arising from the relationships of the operators with particular training service providers or other service providers (further discussed in);

(2) Do not establish practices that create disincentives to providing services to individuals with barriers to employment who may require longer-term career and training services; and

(3) Comply with Federal regulations and procurement policies relating to the calculation and use of profits, including those at, the Uniform Guidance at 2 CFR chapter II, and other applicable regulations and policies.

§ 361.605 How is the one-stop operator selected?

(a) Consistent with paragraphs (b) and (c) of this section, the Local Board must select the one-stop operator through a competitive process, as required by sec. 121(d)(2)(A) of WIOA, at least once every 4 years. A State may require, or

a Local Board may choose to implement, a competitive selection process more than once every 4 years.

(b) In instances in which a State is conducting the competitive process described in paragraph (a) of this section, the State must follow the same policies and procedures it uses for procurement with non-Federal funds.

(c) All other non-Federal entities, including subrecipients of a State (such as local areas), must use a competitive process based on the principles of competitive procurement in the Uniform Administrative Guidance set out at 2 CFR 200.318 through 200.326.

(d) Entities described in paragraph (c) of this section must first determine the nature of the process to be used to comply with sec. 121(d)(2)(A) of WIOA. The acceptable processes are:

(1) Procurement by sealed bids;

(2) Procurement by competitive proposals; or

(3) Procurement by sole source, permitted only if:

(i) Analysis of market conditions and other factors lead to a determination that it is necessary to use sole-source procurement because:

(A) There is only one entity that could serve as an operator; or

(B) Unusual and compelling urgency will not permit a delay resulting from competitive solicitation; or

(ii) Results of the competition conducted under paragraphs (d)(1) or (2) of this section were determined to be inadequate.

(e) Entities must prepare written documentation explaining the determination concerning the nature of the competitive process to be followed in selecting a one-stop operator.

§ 361.610 How is sole source selection of one-stop operators accomplished?

(a) As set forth in § 361.605(d)(3), under certain conditions, sole source procurement is an allowable method of procurement.

(b) In the event that sole source procurement is determined necessary and reasonable, in accordance with § 361.605(d)(3) of this section, written documentation must be prepared and maintained concerning the entire process of making such a selection.

(c) Such sole source procurement must include appropriate conflict of interest policies and procedures. These policies and procedures must conform to the specifications in for demonstrating internal controls and preventing conflict of interest.

(d) A Local Board can be selected as a one-stop operator through sole source procurement only with agreement of the chief elected official in the local area and the Governor. The Local Board must establish sufficient conflict of interest policies and procedures and they must be approved by the Governor.

§ 361.615 Can an entity serving as one-stop operator compete to be a one-stop operator under the procurement requirements of this subpart?

(a) Local Boards can compete for and be selected as one-stop operators, as long as appropriate firewalls and conflict of interest policies and procedures are in place. These policies and procedures must conform to the specifications in for demonstrating internal controls and preventing conflict of interest.

(b) State and local agencies can compete for and be selected as one-stop operators by the Local Board, as long as appropriate firewalls and conflict of interest policies and procedures are in place. These policies and procedures must conform to the specifications in for demonstrating internal controls and preventing conflict of interest.

(c) In the case of single State areas where the State Board serves as the Local Board, the State agency is eligible to compete for and be selected as operator as long as appropriate firewalls and conflict of interest policies are in place and followed for the competition. These policies and procedures must conform to the specifications in for demonstrating internal controls and preventing conflict of interest.

§ 361.620 What is the one-stop operator's role?

(a) At a minimum, the one-stop operator must coordinate the service delivery of required one-stop partners and service providers. Local Boards may establish additional roles of one-stop operator, including, but not limited to: Coordinating service providers within the center and across the one-stop system, being the primary provider of services within the center, providing some of the services within the center, or coordinating service delivery in a multi-center area. The competition for a one-stop operator must clearly articulate the role of the one-stop operator.

(b) A one-stop operator may not perform the following functions: Convene system stakeholders to assist in the development of the local plan; prepare and submit local plans (as required under sec. 107 of WIOA); be responsible for oversight of itself; manage or significantly participate in the competitive selection process for one-stop operators; select or terminate one-stop operators, career services, and youth providers; negotiate local performance accountability measures; and develop and submit budget for activities of the Local Board in the local area. An entity serving as a one-stop operator may perform some or all of these functions if it also serves in another capacity, if it has established sufficient firewalls and conflict of interest policies. The policies must conform to the specifications in for demonstrating internal controls and preventing conflict of interest.

§ 361.625 Can a one-stop operator also be a service provider?

Yes, but there must be appropriate firewalls in place in regards to the competition, and subsequent oversight, monitoring, and evaluation of performance of the service provider. The operator cannot develop, manage or conduct the competition of a service provider in which it intends to compete. In cases where an operator is also a service provider, there must be firewalls and internal controls within the operator-service provider entity, as well as specific policies and procedures at the Local Board level regarding oversight, monitoring, and evaluation of performance of the service provider. The firewalls must conform to the specifications in for demonstrating internal controls and preventing conflict of interest.

§ 361.630 Can State merit staff still work in a one-stop where the operator is not a governmental entity?

Yes. State merit staff can continue to perform functions and activities in the one-stop career center. The Local Board and one-stop operator must establish a system for management of merit staff in accordance with State policies and procedures. Continued use of State merit staff may be included in the competition for and final contract with the one-stop operator.

§ 361.635 What is the effective date of the provisions of this subpart?

(a) No later than June 30, 2017, one-stop operators selected under the competitive process described in this subpart must be in place and operating the one-stop.

(b) By June 30, 2016, every Local Board must demonstrate it is taking steps to prepare for competition of its one-stop operator. This demonstration may include, but is not limited to, market research, requests for information, and conducting a cost and price analysis.

§ 361.700 What are one-stop infrastructure costs?

(a) Infrastructure costs of one-stop centers are nonpersonnel costs that are

necessary for the general operation of the one-stop center, including:

(1) Rental of the facilities;

(2) Utilities and maintenance;

(3) Equipment (including assessment-related products and assistive technology for individuals with disabilities); and

(4) Technology to facilitate access to the one-stop center, including technology used for the center's planning and outreach activities.

(b) Local Boards may consider common identifier costs as costs of one-stop infrastructure.

(c) Each entity that carries out a program or activities in a local one-stop center, described in §§ 361.400 through 361.410, must use a portion of the funds available for the program and activities to maintain the one-stop delivery system, including payment of the infrastructure costs of one-stop centers. These payments must be in accordance with this subpart; Federal cost principles, which require that all costs must be allowable, reasonable, necessary, and allocable to the program; and all other applicable legal requirements.

§ 361.705 What guidance must the Governor issue regarding one-stop infrastructure funding?

(a) The Governor, after consultation with chief elected officials, the State Board, and Local Boards, and consistent with guidance and policies provided by the State Board, must develop and issue guidance for use by local areas, specifically:

(1) Guidelines for State-administered one-stop partner programs for determining such programs' contributions to a one-stop delivery system, based on such programs' proportionate use of such system consistent with Office of Management and Budget Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards in 2 CFR part 200, including determining funding for the costs of infrastructure; and

(2) Guidance to assist Local Boards, chief elected officials, and one-stop partners in local areas in determining equitable and stable methods of funding the costs of infrastructure at one-stop centers based on proportionate benefits received, and consistent with Federal cost principles.

(b) The guidance must include:

(1) The appropriate roles of the one-stop partner programs in identifying one-stop infrastructure costs;

(2) Approaches to facilitate equitable and efficient cost allocation that results in a reasonable cost allocation methodology where infrastructure costs are charged to each partner in proportion to relative benefits received, consistent with Federal cost principles; and

(3) The timelines regarding notification to the Governor for not reaching local agreement and triggering the State-funded infrastructure mechanism described in § 361.730, and timelines for a one-stop partner to submit an appeal in the State-funded infrastructure mechanism.

§ 361.710 How are infrastructure costs funded?

Infrastructure costs are funded either through the local funding mechanism described in § 361.715 or through the State funding mechanism described in § 361.730.

§ 361.715 How are one-stop infrastructure costs funded in the local funding mechanism?

(a) In the local funding mechanism, the Local Board, chief elected officials, and one-stop partners agree to amounts and methods of calculating amounts each partner will contribute for one-stop infrastructure funding, include the infrastructure funding terms in the MOU, and sign the MOU. The local one-stop funding mechanism must meet all of the following requirements:

(1) The infrastructure costs are funded through cash and fairly evaluated in-kind partner contributions and include any funding from philanthropic organizations or other private entities, or through other alternative financing options, to provide a stable and equitable funding stream for ongoing one-stop delivery system operations;

(2) Contributions must be negotiated between one-stop partners, chief elected officials, and the Local Board and the amount to be contributed must be included in the MOU;

(3) The one-stop partner program's proportionate share of funding must be calculated in accordance with the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards in 2 CFR part 200 based upon a reasonable cost allocation methodology whereby infrastructure costs are charged to each partner in proportion to relative benefits received, and must be allowable, reasonable, necessary, and allocable;

(4) Partner shares must be periodically reviewed and reconciled against actual costs incurred, and adjusted to ensure that actual costs charged to any one-stop partners are proportionate and equitable to the benefit received by the one-stop partners and their respective programs or activities.

(b) In developing the section of the MOU on one-stop infrastructure funding fully described in § 361.755, the Local Board and chief elected officials will:

(1) Ensure that the one-stop partners adhere to the guidance identified in § 361.705 on one-stop delivery system infrastructure costs.

(2) Work with one-stop partners to achieve consensus and informally mediate any possible conflicts or disagreements among one-stop partners.

(3) Provide technical assistance to new one-stop partners and local grant recipients to ensure that those entities are informed and knowledgeable of the elements contained in the MOU and the one-stop infrastructure costs arrangement.

(c) The MOU may include an interim infrastructure funding agreement, including as much detail as the Local Board has negotiated with one-stop partners, if all other parts of the MOU have been negotiated, in order to allow the partner programs to operate in the one-stop centers. The interim infrastructure agreement must be finalized within 6 months of when the MOU is signed. If the infrastructure interim infrastructure agreement is not finalized within that timeframe, the Local Board must notify the Governor, as described in § 361.725.

§ 361.720 What funds are used to pay for infrastructure costs in the local one-stop infrastructure funding mechanism?

(a) In the local one-stop infrastructure funding mechanism, one-stop partner programs can determine what funds they will use to fund infrastructure costs. The use of these funds must be in accordance with the requirements in this subpart, and with the relevant partner's authorizing statutes and regulations, including, for example, prohibitions against supplanting non-Federal resources, statutory limitations on administrative costs, and all other applicable legal requirements. In the case of partners administering adult education and literacy programs authorized by title II of WIOA or the Carl D. Perkins Career and Technical Education Act of 2006, these funds may include Federal funds that are available for State administration of adult education and literacy programs authorized by title II of WIOA or for State administration of post-secondary level programs and activities under the Perkins Act, and non-Federal funds that the partners contribute to meet these programs' matching or maintenance of effort requirements. These funds also may include local administrative funds available to local entities or consortia of local entities that have been delegated

authority to serve as one-stop local partners by a State eligible agency as permitted by § 361.415(b) and (e).

(b) There are no specific caps on the amount or percent of overall funding a one-stop partner may contribute to fund infrastructure costs under the local one-stop funding mechanism, except that contributions for administrative costs may not exceed the amount available for administrative costs under the authorizing statute of the partner program. However, amounts contributed for infrastructure costs must be allowable and based on proportionate use by or benefit to the partner program, taking into account the total cost of the one-stop infrastructure as well as alternate financing options, and must be consistent with 2 CFR chapter II, including the Federal cost principles.

§ 361.725 What happens if consensus on infrastructure funding is not reached at the local level between the Local Board, chief elected officials, and one-stop partners?

If, after July 1, 2016, and each subsequent July 1, the Local Board, chief elected officials, and one-stop partners do not reach consensus on methods of sufficiently funding local infrastructure through the local infrastructure cost funding mechanism, and include that consensus agreement in the signed MOU, then the Local Board must notify the Governor and the Governor must administer funding through the State one-stop funding mechanism, as described in § 361.730. (WIOA sec. 121(h)(2))

§ 361.730 What is the State one-stop infrastructure funding mechanism?

(a) In the State one-stop infrastructure funding mechanism, the Governor, after consultation with the chief elected officials, Local Boards, and the State Board, determines one-stop partner contributions, based upon a methodology where infrastructure costs are charged to each partner in proportion to relative benefits received and consistent with the partner program's authorizing laws and regulations, 2 CFR chapter II, including the Federal cost principles, and other applicable legal requirements described in § 361.735(a).

(b) The State Board develops an allocation formula to allocate funds to local areas to support the infrastructure costs for local area one-stop centers for all local areas that did not use the local funding mechanism, and the Governor uses that formula to allocate the funds. This is described in detail in § 361.745.

§ 361.735 How are partner contributions determined in the State one-stop funding mechanism?

(a) In the State one-stop funding mechanism, the Governor, after consultation with State and Local Boards and chief elected officials, will determine the amount each partner must contribute to assist in paying the infrastructure costs of one-stop centers. The Governor must calculate amounts based on the proportionate use of the one-stop centers by each partner, consistent with chapter II of title 2, Code of Federal Regulations (or any corresponding similar regulation or ruling), taking into account the costs of administration of the one-stop delivery system for purposes not related to one-stop centers for each partner such as costs associated with maintaining the Local Board, or information technology systems. The Governor will also take into account the statutory requirements for each partner program, all other applicable legal requirements, and the partner program's ability to fulfill such requirements.

(b) In certain situations, the Governor does not determine the infrastructure cost contributions for one-stop partner programs.

(1) The Governor will not determine the contribution amounts for infrastructure funds for Native American grantees described in. (WIOA sec. 121(h)(2)(D)(iii).) The appropriate portion of funds to be provided by Native American grantees to pay for one-stop infrastructure must be determined as part of the development of the MOU described in § 361.500 and specified in that MOU.

(2) In a State in which the State constitution or a State statute places policy-making authority that is independent of the authority of the Governor in an entity or official with respect to the funds provided for adult education and literacy activities, post-secondary career and technical education activities, or vocational rehabilitation services, the chief officer of that entity or the official must determine the contribution amounts for infrastructure funds in consultation with the Governor. (WIOA sec. 121(h)(2)(C)(ii).)

(c) *Limitations.* Per WIOA sec. 122(h)(2)(D), the amount established by the Governor under paragraph (a) of this section may not exceed the following caps:

(1) *WIOA formula programs and employment service.* The portion of funds required to be contributed under the WIOA youth, adult, or dislocated worker programs, or under the Wagner-Peyser Act (29 U.S.C. 49 *et seq.*) must not exceed 3 percent of the amount of Federal funds provided to carry out that program in the State for a program year.

(2) *Other one-stop partners.* The portion of funds required to be contributed must not exceed 1.5 percent of the amount of Federal funds provided to carry out that education program or employment and training program in the State for a fiscal year. For purposes of Carl D. Perkins Career and Technical Education Act of 2006, the cap on contributions is determined based on the funds made available for State administration of post-secondary level programs and activities.

(3) *Vocational rehabilitation.* Within a State, the entity or entities administering the programs described in WIOA sec. 121(b)(1)(B)(iv) the allotment is based on the one State allotment, even in instances where that allotment is shared between two State agencies, and will not be required to provide from that program a cumulative portion that exceeds—

(i) 0.75 percent of the amount of Federal funds provided to carry out such program in the State for Fiscal Year 2016;

(ii) 1.0 percent of the amount provided to carry out such program in the State for Fiscal Year 2017;

(iii) 1.25 percent of the amount provided to carry out such program in the State for Fiscal Year 2018; and

(iv) 1.5 percent of the amount provided to carry out such program in the State for Fiscal Year 2019 and following years.

(4) *Federal direct spending programs.* For local areas that have not reached a one-stop infrastructure funding agreement by consensus, an entity administering a program funded with direct spending as defined in sec. 250(c)(8) of the Balanced Budget and Emergency Deficit Control Act of 1985, as in effect on February 15, 2014 (2 U.S.C. 900(c)(8)), must not be required to provide more for infrastructure costs than the amount that the Governor determined (as described in § 361.735(a)).

(d) If the above limitations result in funding less than each partner's proportionate share and contribute to inadequate funding of the allocation amount determined under § 361.745(b), the Governor may direct the Local Board, chief elected officials, and one-stop partners to reenter negotiations to reduce the infrastructure costs to reflect the amount of funds that are available for such costs, discuss proportionate share of each one-stop partner, or to identify alternative sources of financing for one-stop infrastructure funding, but, in any event, a partner will only be

required to pay an amount that is consistent with the proportionate benefit received by the partner, the program's authorizing laws and regulations, the Federal cost principles, and other applicable legal requirements.

(1) The Local Board, chief elected officials, and one-stop partners, after renegotiation, may come to agreement and sign an MOU and proceed under the local one-stop funding mechanism.

(2) If after renegotiation, agreement amongst partners still cannot be reached or alternate financing identified, the Governor may adjust the specified allocation, in accordance with the amounts available and the limitations described in § 361.735(c).

§ 361.740 What funds are used to pay for infrastructure costs in the State one-stop infrastructure funding mechanism?

(a) In the State one-stop infrastructure funding mechanism, infrastructure costs for WIOA title I programs, including Native American Programs described in, can be paid using program funds, administrative funds, or both. Infrastructure costs for the Senior Community Service Employment Program under title V of the Older Americans Act (42 U.S.C. 3056 *et seq.*) can also be paid using program funds, administrative funds, or both. (WIOA sec. 121(h)(2)(D)(i)(II).)

(b) In the State one-stop infrastructure funding mechanism, infrastructure costs for other required one-stop partner programs (listed in §§ 361.400 through 361.410) are limited to the program's administrative funds, as appropriate. (WIOA sec. 121(h)(2)(D)(i)(I).)

(c) In the State one-stop infrastructure funding mechanism, infrastructure costs for the adult education program authorized by title II of WIOA must be paid from the funds that are available for State administration or from non-Federal funds that the partner contributes to meet the program's matching or maintenance of effort requirement. Infrastructure costs for title II of WIOA may also be paid from funds available for local administration of programs and activities to eligible providers or consortia of eligible providers delegated responsibilities to act as a local one-stop partner pursuant to § 361.415(b).

(d) In the State one-stop infrastructure funding mechanism, infrastructure costs for the Carl D. Perkins Career and Technical Education Act of 2006 must be paid from the Federal funds that are available for State administration of post-secondary level programs and activities under the Perkins Act, or from non-Federal funds that the partner contributes to meet the program's matching or maintenance of effort requirement. Infrastructure costs for the Carl D. Perkins Career and Technical Education Act of 2006 may also be paid from funds available for local administration of post-secondary level programs and activities to eligible recipients or consortia of eligible recipients delegated responsibilities to act as a local one-stop partner pursuant to § 361.415(e).

§ 361.745 How is the allocation formula used by the Governor determined in the State one-stop funding mechanism?

(a) The State Board must develop an allocation formula to be used by the Governor to allocate funds to the local areas that did not successfully use the local funding mechanism. The allocation formula must take into account the number of one-stop centers in a local area, the population served by such centers, the services provided by such centers, and other factors relating to the performance of such centers that the State Board determines are appropriate and that are consistent with Federal cost principles. (WIOA 121(h)(3)(B))

(b) Using the funds contributed by the one-stop partners described in § 361.735, the Governor will then use this formula to allocate funds to the local areas that did not use the local funding mechanism to fund one-stop center infrastructure costs, so long as that funding distribution is consistent with Federal cost principles for each of the affected one-stop partners.

§ 361.750 When and how can a one-stop partner appeal a one-stop infrastructure amount designated by the State under the State infrastructure funding mechanism?

(a) The Governor must establish a process, described under sec. 121(h)(2)(E) of WIOA, for a one-stop partner administering a program described in §§ 361.400 through 361.410 to appeal the Governor's determination regarding the one-stop partner's portion of funds to be provided for one-stop infrastructure costs. This appeal process must be described in the Unified State Plan. (WIOA secs. 121(h)(2)(E) and 102(b)(2)(D)(i)(IV).)

(b) The appeal may be made on the ground that the Governor's determination is inconsistent with proportionate share requirements in § 361.735(a), the cost contribution limitations in § 361.735(b), or the cost contribution caps in § 361.735(c).

(c) The process must ensure prompt resolution of the appeal in order to ensure the funds are distributed in a timely manner, consistent with the requirements of.

(d) The one-stop partner must submit an appeal in accordance with State's deadlines for appeals specified in the guidance issued under § 361.705(b)(3), or if the State has not set a deadline, within 21 days from the Governor's determination.

§ 361.755 What are the required elements regarding infrastructure funding that must be included in the one-stop Memorandum of Understanding?

The MOU, fully described in § 361.500, must contain the following information whether the local areas use either the local one-stop or the State one-stop infrastructure funding method:

(a) The period of time in which this infrastructure funding agreement is effective. This may be a different time period than the duration of the MOU.

(b) Identification of an infrastructure and shared services budget that will be periodically reconciled against actual costs incurred and adjusted accordingly to ensure that it reflects a cost allocation methodology that demonstrates how infrastructure costs are charged to each partner in proportion to relative benefits received, and that complies with chapter II of title 2 of the Code of Federal Regulations (or any corresponding similar regulation or ruling).

(c) Identification of all one-stop partners, chief elected officials, and Local Board participating in the infrastructure funding arrangement.

(d) Steps the Local Board, chief elected officials, and one-stop partners used to reach consensus or an assurance that the local area followed the guidance for the State one-stop infrastructure funding process.

(e) Description of the process to be used between partners to resolve issues during the MOU duration period when consensus cannot be reached.

(f) Description of the periodic modification and review process to ensure equitable benefit among one-stop partners.

§ 361.760 How do one-stop partners jointly fund other shared costs under the Memorandum of Understanding?

(a) In addition to jointly funding infrastructure costs, one-stop partners listed in §§ 361.400 through 361.410 must use a portion of funds made available under their programs' authorizing Federal law (or fairly evaluated in-kind contributions) to pay the additional costs relating to the operation of the one-stop delivery system, which must include applicable career services.

(b) Additionally, one-stop partners may jointly fund shared services to the extent consistent with their programs'

Federal authorizing statutes and other applicable legal requirements. Shared services' costs may include the costs of shared services that are authorized for and may be commonly provided through the one-stop partner programs to any individual, such as initial intake, assessment of needs, appraisal of basic skills, identification of appropriate services to meet such needs, referrals to other one-stop partners, and business services. Shared operating costs may also include shared costs of the Local Board's functions.

(c) These shared costs must be allocated according to the proportion of benefit received by each of the partners, consistent with the Federal law authorizing the partner's program, and consistent with all other applicable legal requirements, including Federal cost principles in chapter II of title 2 of the Code of Federal Regulations (or any corresponding similar regulation or ruling) requiring that costs are reasonable, necessary, and allocable.

(d) Any shared costs agreed upon by the one-stop partners must be included in the MOU.

§ 361.800 How are one-stop centers and one-stop delivery systems certified for effectiveness, physical and programmatic accessibility, and continuous improvement?

(a) The State Board, in consultation with chief elected officials and Local Boards, must establish objective criteria and procedures for Local Boards to use when certifying one-stop centers.

(1) The State Board must review and update the criteria every 2 years as part of the review and modification of State Plans pursuant to § 361.135.

(2) The criteria must be consistent with the Governor's and State Board's guidelines, guidance and policies on infrastructure funding decisions, described in § 361.705. The criteria must evaluate the one-stop centers and one-stop delivery system for effectiveness, including customer satisfaction, physical and programmatic accessibility, and continuous improvement.

(3) When the Local Board is the one-stop operator as described in, the State Board must certify the one-stop center.

(b) Evaluations of effectiveness must include how well the one-stop center integrates available services for participants and businesses, meets the workforce development needs of participants and the employment needs of local employers, operates in a cost-efficient manner, coordinates services among the one-stop partner programs, and provides maximum access to partner program services even outside regular business hours. These evaluations must take into account feedback from one-stop customers. They must also include evaluations of how well the one-stop center ensures equal opportunity for individuals with disabilities to participate in or benefit from one-stop center services. These evaluations must include criteria evaluating how well the centers and delivery systems take actions to comply with the disability-related regulations implementing WIOA sec. 188, set forth at 29 CFR part 37. Such actions include, but are not limited to:

(1) Providing reasonable accommodations for individuals with disabilities;

(2) Making reasonable modifications to policies, practices, and procedures where necessary to avoid discrimination against persons with disabilities;

(3) Administering programs in the most integrated setting appropriate;

(4) Communicating with persons with disabilities as effectively as with others; and

(5) Providing appropriate auxiliary aids and services, including assistive technology devices and services, where necessary to afford individuals with disabilities an equal opportunity to participate in, and enjoy the benefits of, the program or activity.

(c) Evaluations of continuous improvement must include how well the one-stop center supports the achievement of the negotiated local levels of performance for the indicators of performance for the local area described in sec. 116(b)(2) of WIOA and. Other continuous improvement factors may include a regular process for identifying and responding to technical assistance needs, a regular system of continuing professional staff development, and having systems in place to capture and respond to specific customer feedback.

(d) Local Boards must assess at least once every 3 years the effectiveness, physical and programmatic accessibility, and continuous improvement of one-stop centers and the one-stop delivery systems using the criteria and procedures developed by the State Board. The Local Board may establish additional criteria, or set higher standards for service coordination, than those set by the State criteria. Local Boards must review and update the criteria every 2 years as part of the Local Plan update process described in § 361.580. Local Boards must certify one-stop centers in order to be eligible to receive infrastructure funds in the State infrastructure funding mechanism described in § 361.730.

(e) All one-stop centers must comply with applicable physical accessibility requirements, as set forth.

§ 361.900 What is the common identifier to be used by each one-stop delivery system?

(a) The common one-stop delivery system identifier is ''American Job Center.''

(b) As of July 1, 2016, each one-stop delivery system must include the ''American Job Center'' identifier or ''a proud partner of the American Job Center network'' on all products, programs, activities, services, facilities, and related property and materials used in the one-stop system.

(c) One-stop partners, States or local areas may use additional identifiers on their products, programs, activities, services, facilities, and related property and materials.

PART 463—ADULT EDUCATION AND FAMILY LITERACY ACT

■ 8. The authority citation for part 463 continues to read as follows:

Authority: 29 U.S.C. 102 and 103, unless otherwise noted.

■ 9. Add subpart H to part 463, as added elsewhere in this issue of the **Federal Register**, to read as follows:

Subpart H—Unified and Combined State Plans Under Title I of the Workforce Innovation and Opportunity Act

Sec.

463.100 What is the purpose of the Unified and Combined State Plans?
463.105 What are the general requirements for the Unified State Plan?
463.110 What are the program-specific requirements in the Unified State Plan for the adult, dislocated worker, and youth workforce investment activities in Workforce Innovation and Opportunity Act title I?
463.115 What are the program-specific requirements in the Unified State Plan for the Adult Education and Family Literacy Act program in Workforce Innovation and Opportunity Act title II?
463.120 What are the program-specific requirements in the Unified State Plan for Wagner-Peyser Act Employment Service programs in title III of the Workforce Innovation and Opportunity Act?
463.125 What are the program-specific requirements in the Unified State Plan for the State Vocational Rehabilitation program in Workforce Innovation and Opportunity Act title IV?
463.130 What is the submission and approval process of the Unified State Plan?
463.135 What are the requirements for modification of the Unified State Plan?
463.140 What are the general requirements for submitting a Combined State Plan?
463.143 What is the submission and approval process of the Combined State Plan?

463.145 What are the requirements for modifications of the Combined State Plan?

Subpart H—Unified and Combined State Plans Under Title I of the Workforce Innovation and Opportunity Act

§ 463.100 What is the purpose of the Unified and Combined State Plans?

(a) The Unified and Combined State Plans provide the framework for States to outline a strategic vision of, and goals for, how their workforce development systems will achieve the purposes of Workforce Innovation and Opportunity Act (WIOA).

(b) The Unified and Combined State Plans serve as 4-year action plans to develop, align, and integrate the State's systems and provide a platform to achieve the State's vision and strategic and operational goals. A Unified or Combined State Plan is intended to:

(1) Align, in strategic coordination, the six core programs required in the Unified State Plan pursuant to § 463.105(b), and additional optional programs that may be part of the Combined State Plan pursuant to § 463.140;

(2) Direct investments in economic, education, and workforce training programs to focus on providing relevant education and training to ensure that individuals, including youth and individuals with barriers to employment, have the skills to compete in the job market and that employers have a ready supply of skilled workers;

(3) Apply strategies for job-driven training consistently across Federal programs, and;

(4) Enable economic, education, and workforce partners to build a skilled workforce through innovation in, and alignment of, employment, training, and education programs.

§ 463.105 What are the general requirements for the Unified State Plan?

(a) The Unified State Plan must be submitted in accordance with § 463.130 and joint planning guidelines issued by the Secretary of Labor and the Secretary of Education.

(b) The Governor of each State must submit, in accordance with § 463.130, a Unified or Combined State Plan to the Secretary of Labor to be eligible to receive funding for the workforce development system's six core programs:

(1) The adult, dislocated worker, and youth programs authorized under subtitle B of title I of WIOA and administered by the U.S. Department of Labor;

(2) The Adult Education and Family Literacy Act (AEFLA) program authorized under title II of WIOA and administered by the U.S. Department of Education;

(3) The Wagner-Peyser Act Employment Services programs amended by title III of WIOA and administered by the U.S. Department of Labor; and

(4) The State Vocational Rehabilitation program amended by title IV of WIOA and administered by the U.S. Department of Education.

(c) The Unified State Plan must outline the State's 4-year strategy for the core programs described in paragraph (b) of this section and meet the requirements of sec. 102(b) of WIOA, as explained in the joint planning guidance issued by the Secretary of Labor and the Secretary of Education.

(d) The Unified State Plan must include strategic and operational planning elements to facilitate the development of an aligned, coordinated, and comprehensive workforce development system. The Unified State Plan must include:

(1) Strategic planning elements that describe the State's strategic vision and goals for preparing an educated and skilled workforce under sec. 102(b)(1) of WIOA. The strategic planning elements must be informed by and include an analysis of the State's economic conditions and employer and workforce needs, including education and skill needs.

(2) Strategies for aligning the core programs and optional programs, as well as other resources available to the State, to achieve the strategic vision and goals in accordance with sec. 102(b)(1)(E) of WIOA.

(3) Operational planning elements in accordance with sec. 102(b)(2) of WIOA that support the strategies for aligning the core programs and other resources available to the State to achieve the State's vision and goals and a description of how the State Workforce Development Board will implement its functions, in accordance with sec. 101(d) of WIOA. Operational planning elements must include:

(i) A description of how the State strategy will be implemented by each core program's lead State agency;

(ii) State operating systems, including data systems, and policies that will support the implementation of the State's strategy identified in paragraph (d)(1) of this section;

(iii) Program-specific requirements for the core programs required by WIOA sec. 102(b)(2)(D);

(iv) Assurances required by sec. 102(b)(2)(E) of WIOA and others deemed necessary by the Secretaries of Labor and Education under sec. 102(b)(2)(E)(x) of WIOA; and

(v) Any additional operational planning requirements imposed by the Secretary of Labor or the Secretary of Education under sec. 102(b)(2)(C)(viii) of WIOA.

§ 463.110 What are the program-specific requirements in the Unified State Plan for the adult, dislocated worker, and youth workforce investment activities in Workforce Innovation and Opportunity Act title I?

The program-specific requirements for the adult, dislocated worker, and youth workforce investment activities that must be included in the Unified State Plan are described in sec. 102(b)(2)(D) of WIOA. Additional planning requirements may be required by the Secretary of Labor or the Secretary of Education in accordance with joint planning guidelines issued by the Secretary of Labor and the Secretary of Education.

§ 463.115 What are the program-specific requirements in the Unified State Plan for the Adult Education and Family Literacy Act program in Workforce Innovation and Opportunity Act title II?

The program-specific requirements for the AEFLA program in title II that must be included in the Unified State Plan are described in secs. 102(b)(2)(D)(ii) and 102(b)(2)(C) of WIOA.

(a) With regard to the description required in sec. 102(b)(2)(D)(ii)(I) of WIOA pertaining to content standards, the Unified State Plan must describe how the eligible agency will, by July 1, 2016, align its content standards for adult education with State-adopted challenging academic content standards under the Elementary and Secondary Education Act of 1965, as amended.

(b) With regard to the description required in sec. 102(b)(2)(C)(iv) of WIOA pertaining to the methods and factors the State will use to distribute funds under the core programs, for title II of WIOA, the Unified State Plan must include—

(1) How the eligible agency will award multi-year grants on a competitive basis to eligible providers in the State; and

(2) How the eligible agency will provide direct and equitable access to funds using the same grant or contract announcement and application procedure.

(c) With regard to the description required under sec. 102(b)(2)(C)(v)(I) of WIOA pertaining to the integration of workforce and education data on core programs, unemployment insurance programs, and education through post-

secondary education, for title II of WIOA, the Unified State Plan must include how the State will ensure interoperability of data systems in the reporting on core indicators of performance and performance reports required to be submitted by the State.

§ 463.120 What are the program-specific requirements in the Unified State Plan for Wagner-Peyser Act Employment Service programs in title III of the Workforce Innovation and Opportunity Act?

Wagner-Peyser Act Employment Services programs amended by title III are subject to requirements in sec. 102(b) of WIOA and any additional requirements imposed by the Secretary of Labor under sec. 102(b)(2)(C)(viii) of WIOA, in accordance with joint planning guidelines issued by the Secretary of Labor and the Secretary of Education.

§ 463.125 What are the program-specific requirements in the Unified State Plan for the State Vocational Rehabilitation program in Workforce Innovation and Opportunity Act title IV?

The program specific requirements for the vocational rehabilitation services portion of the Unified or Combined State Plan are set forth in sec. 101(a) of the Rehabilitation Act of 1973, as amended. All submission requirements of the Vocational Rehabilitation Services portion of the Unified or Combined State Plan are in addition to the jointly developed strategic and operational content requirements prescribed by secs. 102(b) and 103 of WIOA.

§ 463.130 What is the submission and approval process of the Unified State Plan?

(a) The Unified State Plan described in § 463.105 must be submitted in accordance with planning guidelines issued jointly by the Secretaries of Labor and Education which explain the submission and approval process in WIOA sec. 102(c).

(b) A State must submit its Unified State Plan to the Secretary of Labor pursuant to a process identified by the Secretary.

(1) The initial Unified State Plan must be submitted no later than 120 days prior to the commencement of the second full program year of WIOA.

(2) The subsequent Unified State Plan must be submitted no later than 120 days prior to the end of the 4-year period described in paragraph (b)(1) of this section.

(3) For purposes of paragraph (b) of this section, ''program year'' means July 1 through June 30 of any year.

(c) The State must provide an opportunity for public comment on and input into the development of the Unified State Plan prior to its submission.

(1) The opportunity for public comment must include an opportunity for comment by representatives of Local Boards and chief elected officials, businesses, representatives of labor organizations, community-based organizations, adult education providers, institutions of higher education, other stakeholders with an interest in the services provided by the six core programs, and the general public, including individuals with disabilities.

(2) Consistent with the ''Sunshine Provision'' of WIOA in sec. 101(g), the State Board must make information regarding the Unified State Plan available to the public through electronic means and regularly occurring open meetings in accordance with State law. The Unified State Plan must describe the State's process and timeline for ensuring a meaningful opportunity for public comment.

(d) Upon receipt of the Unified State Plan from the State, the Secretary of Labor will ensure that the entire Unified State Plan is submitted to the Secretary of Education pursuant to a process developed by the Secretaries.

(e) The Unified State Plan is subject to the approval of both the Secretary of Labor and the Secretary of Education.

(f) Before the Secretary of Labor and the Secretary of Education approve the Unified State Plan, the vocational rehabilitation portion of the Unified State Plan described in WIOA sec. 102(b)(2)(D)(iii) must be approved by the Commissioner of the Rehabilitation Services Administration.

(g) The Secretary of Labor and the Secretary of Education will review and approve the Unified State Plan within 90 days of receipt by the appropriate Secretary, unless the Secretary of Labor or the Secretary of Education determines in writing within that period that:

(1) The plan is inconsistent with a core program's requirements;

(2) The Unified State Plan is inconsistent with any requirement of sec. 102 of WIOA; or

(3) The plan is incomplete or otherwise insufficient to determine whether it is consistent with a core program's requirements or other requirements of WIOA.

(h) If neither the Secretary of Labor nor the Secretary of Education makes the written determination described in paragraph (g) of this section within 90 days of the receipt by the Secretaries, the Unified State Plan will be considered approved.

§ 463.135 What are the requirements for modification of the Unified State Plan?

(a) In addition to the required modification review set forth in paragraph (b) of this section, a Governor may submit a modification of its Unified State Plan at any time during the 4-year period of the plan.

(b) Modifications are required, at a minimum:

(1) At the end of the first 2-year period of any 4-year State Plan, wherein the State Board must review the Unified State Plan, and the Governor must submit modifications to the plan to reflect changes in labor market and economic conditions or other factors affecting the implementation of the Unified State Plan;

(2) When changes in Federal or State law or policy substantially affect the strategies, goals, and priorities upon which the Unified State Plan is based;

(3) When there are changes in the statewide vision, strategies, policies, State adjusted levels of performance, the methodology used to determine local allocation of funds, reorganizations which change the working relationship with system employees, changes in organizational responsibilities, changes to the membership structure of the State Board or alternative entity, and similar substantial changes to the State's workforce investment system.

(c) Modifications to the Unified State Plan are subject to the same public review and comment requirements in § 463.130(c) that apply to the development of the original Unified State Plan.

(d) Unified State Plan modifications must be approved by the Secretary of Labor and the Secretary of Education, based on the approval standards applicable to the original Unified State Plan under § 463.130. This approval must come after the approval of the Commissioner of the Rehabilitation Services Administration for modification of any portion of the plan described in sec. 102(b)(2)(D)(iii) of WIOA.

§ 463.140 What are the general requirements for submitting a Combined State Plan?

(a) A State may choose to develop and submit a 4-year Combined State Plan in lieu of the Unified State Plan described in § 463.105.

(b) A State that submits a Combined State Plan covering an activity or program described in paragraph (d) of this section that is approved under WIOA sec. 103(c) or determined complete under the law relating to the program will not be required to submit any other plan or application in order to

receive Federal funds to carry out the core programs or the program or activities described under paragraph (d) of this section that are covered by the Combined State Plan.

(c) If a State develops a Combined State Plan, it must be submitted in accordance with the process described in § 463.143.

(d) If a State chooses to submit a Combined State Plan, the Plan must include the six core programs and one or more of the optional programs and activities described in sec. 103(a)(2) of WIOA. The optional programs and activities that may be included in the Combined State Plan are:

(1) Career and technical education programs authorized under the Carl D. Perkins Career and Technical Education Act of 2006 (20 U.S.C. 2301 *et seq.*);

(2) Temporary Assistance for Needy Families or TANF, authorized under part A of title IV of the Social Security Act (42 U.S.C. 601 *et seq.*);

(3) Employment and training programs authorized under sec. 6(d)(4) of the Food and Nutrition Act of 2008 (7 U.S.C. 2015(d)(4));

(4) Work programs authorized under sec. 6(o) of the Food and Nutrition Act of 2008 (7 U.S.C. 2015(o));

(5) Trade adjustment assistance activities under chapter 2 of title II of the Trade Act of 1974 (19 U.S.C. 2271 *et seq.*);

(6) Services for veterans authorized under chapter 41 of title 38, United States Code;

(7) Programs authorized under State unemployment compensation laws (in accordance with applicable Federal law);

(8) Senior Community Service Employment Programs under title V of the Older Americans Act of 1956 (42 U.S.C. 3056 *et seq.*);

(9) Employment and training activities carried out by the Department of Housing and Urban Development;

(10) Employment and training activities carried out under the Community Services Block Grant Act (42 U.S.C. 9901 *et seq.*); and

(11) Reintegration of offenders programs authorized under sec. 212 of the Second Chance Act of 2007 (42 U.S.C. 17532).

(e) A Combined State Plan must contain:

(1) For the core programs, the information required by sec. 102(b) of WIOA and § 463.105, as explained in the joint planning guidance issued by the Secretaries;

(2) For the optional programs, except as described in paragraph (h) of this section, the information required by the law authorizing and governing that program to be submitted to the appropriate Secretary, any other applicable legal requirements, and any common planning requirements described in sec. 102(b) of WIOA, as explained in the joint planning guidance issued by the Secretaries;

(3) A description of joint planning methods across all programs included in the Combined State Plan; and

(4) An assurance that all of the entities responsible for planning or administering the programs described in the Combined State Plan have had a meaningful opportunity to review and comment on all portions of the Plan.

(f) Each optional program included in the Combined State Plan remains subject to the applicable program-specific requirements of the Federal law and regulations, and any other applicable legal or program requirements, governing the implementation and operation of that program.

(g) For purposes of §§ 463.140 through 463.145 the term ''appropriate Secretary'' means the head of the Federal agency who exercises either plan or application approval authority for the program or activity under the Federal law authorizing the program or activity or, if there are no planning or application requirements, who exercises administrative authority over the program or activity under that Federal law.

(h) States that include employment and training activities carried out under the Community Services Block Grant (CSBG) Act (42 U.S.C. 9901 *et seq.*) under a Combined State Plan would submit all other required elements of a complete CSBG State Plan directly to the Federal agency that administers the program, according to the requirements of Federal law and regulations.

§ 463.143 What is the submission and approval process of the Combined State Plan?

(a) For purposes of § 463.140(a), if a State chooses to develop a Combined State Plan it must submit the Combined State Plan in accordance with the requirements described below and the joint planning guidelines, which will further explain the submission and approval procedures for the Combined State Plan, issued by the Secretaries.

(b) The State must submit to the Secretaries of Labor and Education and to the Secretary of the agency with responsibility for approving the program's plan or determining it complete under the law governing the program, as part of its Combined State Plan, any plan, application, form, or any other similar document that is required as a condition for the approval of Federal funding under the applicable program or activity. Such submission must occur in accordance with a process identified by the relevant Secretaries in paragraph (a) of this section.

(c) The Combined State Plan will be approved or disapproved in accordance with the requirements of sec. 103(c) of WIOA.

(1) The portion of the Combined State Plan covering programs administered by the Departments of Labor and Education must be reviewed, and approved or disapproved, by the appropriate Secretary within 90 days beginning on the day the plan is received by the appropriate Secretary from the State, except as provided in paragraph (d) of this section.

(2) If an appropriate Secretary other than the Secretary of Labor or the Secretary of Education has authority to approve or determine complete a portion of the Combined State Plan for a program or activity described in § 463.140(d), that portion of the plan must be reviewed, and approved, disapproved, or have a determination of completeness, by the appropriate Secretary within 120 days beginning on the day the plan is received by the appropriate Secretary from the State except as provided in paragraph (e) of this section.

(d) The review and determination of approval or disapproval, or determination of completeness, of the relevant portion of the Combined State Plan must occur within 90 days for all Department of Labor and Education programs included in the State Plan and within 120 days for the programs administered by other Federal Agencies unless the appropriate Secretary determines in writing within that period that:

(1) The Plan is inconsistent with the requirements of the six core programs or the Federal laws authorizing or applicable to the program or activity involved, including the criteria for approval of a plan or application, or determining the plan's completeness, if any, under such law;

(2) The portion of the Plan describing the six core programs or the program or activity described in paragraph (a) of this section involved does not satisfy the criteria as provided in sec. 102 or 103 of WIOA, as applicable; or

(3) The Plan is incomplete, or otherwise insufficient to determine whether it is consistent with a core program's requirements, other requirements of WIOA, or the Federal laws authorizing, or applicable to, the program or activity described in § 463.140(d), including the criteria for

approval of a plan or application, if any, under such law.

(e) If the Secretary of Labor, the Secretary of Education, or the appropriate Secretary does not make the written determination described in paragraph (d) of this section within the relevant period of time after submission of the Plan, that portion of the Combined State Plan over which the Secretary has jurisdiction will be considered approved.

(f) *Special rule.* In paragraphs (d)(1) and (3) of this section, the term ''criteria for approval of a plan or application,'' with respect to a State or a core program or a program under the Carl D. Perkins Career and Technical Education Act of 2006 (20 U.S.C. 2301 *et seq.*), includes a requirement for agreement between the State and the appropriate Secretaries regarding State performance measures or State performance accountability measures, as the case may be, including levels of performance.

§ 463.145 What are the requirements for modifications of the Combined State Plan?

(a) For the core program portions of the Combined State Plan, modifications are required at the end of the first 2-year period of any 4-year Combined State Plan. The State Board must review the Combined State Plan, and the Governor must submit a modification of the Combined State Plan to reflect changes in labor market and economic conditions or in other factors affecting the implementation of the Combined State Plan.

(b) In addition to the required modification review described in paragraph (a) of this section, a State may submit a modification of its Combined State Plan at any time during the 4-year period of the plan.

(c) For any programs and activities described in § 463.140(d) that are included in a State's Combined State Plan, the State—

(1) May decide if the modification requirements under WIOA sec. 102(c)(3) that apply to the core programs will apply to the optional programs or activities described in § 463.140(d) that are included in the Combined State Plan or may comply with the procedures and requirements applicable to only the particular optional program or activity; and

(2) Must submit, in accordance with the procedure described in § 463.143, any other modification, amendment, or revision required by the Federal law authorizing, or applicable to, the program or activity described in § 463.140(d). If the underlying programmatic requirements change for Federal laws authorizing such programs, a State must either modify its Combined State Plan or submit a separate plan to the appropriate Federal agency in accordance with the new Federal law authorizing the optional program or activity and other legal requirements applicable to such program or activity. A State also may amend its Combined State Plan to add an optional program or activity described in § 463.140(d).

(d) Modifications of the Combined State Plan are subject to the same public review and comment requirements that apply to the development of the original Combined State Plan as described in § 463.130(c) except that, if the modification, amendment, or revision affects the administration of a particular optional program and has no impact on the Combined State Plan as a whole or the integration and administration of the core and optional programs at the State level, a State may comply instead with the procedures and requirements applicable to the particular optional program.

(e) Modifications for the core program portions of the Combined State Plan must be approved by the Secretary of Labor and the Secretary of Education, based on the approval standards applicable to the original Combined State Plan under § 463.143. This approval must come after the approval of the Commissioner of the Rehabilitation Services Administration for modification of any portion of the Combined State Plan described in sec. 102(b)(2)(D)(iii) of WIOA.

(f) Modifications for the portions of the Combined State Plan for any optional program or activity described in § 463.140(d) must be submitted for approval by only the appropriate Secretary, based on the approval standards applicable to the original Combined State Plan under § 463.143, if the State elects, or in accordance with the procedures and requirements applicable to the particular optional program if the modification, amendment, or revision affects the administration of only that particular optional program and has no impact on the Combined State Plan as a whole or the integration and administration of the core and optional programs at the State level.

■ 10. Add subpart I to part 463, as added elsewhere in this issue of the **Federal Register**, to read as follows:

Subpart I—Performance Accountability Under Title I of the Workforce Innovation and Opportunity Act

Sec.

463.150 What definitions apply to Workforce Innovation and Opportunity Act performance measurement and reporting requirements?
463.155 What are the primary indicators of performance under the Workforce Innovation and Opportunity Act?
463.160 What information is required for State performance reports?
463.165 May a State require additional indicators of performance?
463.170 How are State adjusted levels of performance for primary indicators established?
463.175 What responsibility do States have to use quarterly wage record information for performance accountability?
463.180 What State actions are subject to a financial sanction under Workforce Innovation and Opportunity Act?
463.185 When are sanctions applied for failure to report?
463.190 When are sanctions applied for failure to achieve adjusted levels of performance?
463.195 What should States expect when a sanction is applied to the Governor's Reserve Allotment?
463.200 What other administrative actions will be applied to States' performance requirements?
463.205 What performance indicators apply to local areas?
463.210 How are local performance levels established?
463.215 Under what circumstances are local areas eligible for State Incentive Grants?
463.220 Under what circumstances may a corrective action or sanction be applied to local areas for poor performance?
463.225 Under what circumstances may local areas appeal a reorganization plan?
463.230 What information is required for the eligible training provider performance reports?
463.235 What are the reporting requirements for individual records for core Workforce Innovation and Opportunity Act title I, III, and IV programs?
463.240 What are the requirements for data validation of State annual performance reports?

Subpart I—Performance Accountability Under Title I of the Workforce Innovation and Opportunity Act

§ 463.150 What definitions apply to Workforce Innovation and Opportunity Act performance measurement and reporting requirements?

(a) *Participant.* A reportable individual who has received staff-assisted services after satisfying all applicable programmatic requirements for the provision of services, such as eligibility determination.

(1) For the Vocational Rehabilitation (VR) program, a Participant is an individual who has an approved and signed Individualized Plan for Employment (IPE) and has begun to receive services.

(2) The following individuals are not Participants:

(i) Individuals who have not completed at least 12 contact hours in

the Adult Education and Family Literacy Act (AEFLA) program;

(ii) Individuals who only use the self-service system; and

(iii) Individuals who only receive information services or activities.

(3) Programs must include participants in their performance calculations.

(b) *Reportable individual.* An individual who has taken action that demonstrates an intent to use program services and who meets specific reporting criteria of the core program, including:

(1) Individuals who provide identifying information;

(2) Individuals who only use the self-service system; and

(3) Individuals who only receive information on services or activities.

(c) *Exit.* As defined for the purpose of performance calculations, exit is the point after which an individual who has received services through any program meets the following criteria:

(1) For the adult, dislocated worker, and youth programs under Workforce Innovation and Opportunity Act (WIOA) title I, the AEFLA program under WIOA title II, and the Employment Services authorized by the Wagner-Peyser Act as amended by WIOA title III, exit date is the last date of service:

(i) The exit date cannot be determined until 90 days of no services has elapsed. At that point the exit date is applied retroactively to the last date of service.

(A) Ninety days of no service does not include self-service or information-only activities or follow-up services and

(B) There are no future services planned, excluding follow-up services.

(ii) [Reserved]

(2)(i) For the VR program as amended by WIOA title IV:

(A) The participant's record of service is closed in accordance with § 463.56 because the participant has achieved an employment outcome; or

(B) The participant's service record is closed because the individual has not achieved an employment outcome or the individual has been determined ineligible after receiving services in accordance with § 463.43.

(ii) Notwithstanding any other provision of this section, a participant will not be considered as meeting the definition of exit from the Vocational Rehabilitation program if the individual's service record is closed because the individual has achieved a supported employment outcome in an integrated setting but not in competitive integrated employment.

§ 463.155 What are the primary indicators of performance under the Workforce Innovation and Opportunity Act?

(a) All States submitting either a Unified or Combined State Plan under §§ 463.130 and 676.143 of this chapter, must propose expected levels of performance for each of the primary indicators of performance for the adult, dislocated worker, and youth programs under title I of WIOA, the AEFLA program under title II of WIOA, the Wagner-Peyser Act as amended by title III of WIOA, and the VR program as amended by WIOA.

(1) The six primary indicators for performance are:

(i) The percentage of participants, who are in unsubsidized employment during the second quarter after exit from the program;

(ii) The percentage of participants, who are in unsubsidized employment during the fourth quarter after exit from the program;

(iii) Median earnings of participants, who are in unsubsidized employment during the second quarter after exit from the program;

(iv) The percentage of participants who obtained a recognized post-secondary credential or a secondary school diploma, or its recognized equivalent during participation in or within 1 year after exit from the program. A participant who has obtained a secondary school diploma or its recognized equivalent is only included in this measure if the participant is also employed or is enrolled in an education or training program leading to a recognized post-secondary credential within 1 year from program exit;

(v) The percentage of participants who during a program year, are in an education or training program that leads to a recognized post-secondary credential or employment and who are achieving measurable skill gains, defined as documented academic, technical, occupational or other forms of progress, towards such a credential or employment.

(vi) Effectiveness in serving employers, based on indicators developed as required by sec. 116(b)(2)(A)(iv) of WIOA.

(2) [Reserved]

(b) The indicators in paragraphs (a)(1)(i) through (vi) of this section apply to the adult, dislocated worker, AEFLA and VR programs.

(c) The indicators in paragraphs (a)(1)(i) through (iii) and (vi) of this section apply to the Employment Services.

(d) For the youth program under title I of WIOA, the indicators are:

(1) Percentage of participants who are in education or training activities, or in unsubsidized employment, during the second quarter after exit from the program;

(2) Percentage of participants in education or training activities, or in unsubsidized employment, during the fourth quarter after exit from the program;

(3) Median earnings of participants who are in unsubsidized employment during the second quarter after exit from the program;

(4) The percentage of participants who obtained a recognized post-secondary credential or a secondary school diploma, or its recognized equivalent, during participation or up to 1 year after exit. A participant who has obtained a secondary school diploma or its recognized equivalent is only included in this measure if the participant is also employed or is enrolled in an education or training program leading to a recognized post-secondary credential within 1 year from program exit;

(5) The percentage of participants who during a program year, are in an education or training program that leads to a recognized post-secondary credential or employment and who are achieving measurable skill gains, defined as documented academic, technical, occupational or other forms of progress towards such a credential or employment;

(6) Effectiveness in serving employers, based on indicators developed as required by sec. 116(b)(2)(iv) of WIOA.

§ 463.160 What information is required for State performance reports?

(a) Section 116(d)(2) of WIOA requires States to submit a State performance report. The State performance report must be submitted annually using a template the Departments will disseminate and must provide, at a minimum, information on the actual performance levels achieved consistent with § 463.175 with respect to:

(1) The total number of participants served, and the total number of participants who exited each of the core programs identified in sec. 116(b)(3)(A)(ii) of WIOA, including disaggregated counts of those who participated in and exited a core program, by:

(i) Individuals with barriers to employment as defined in WIOA sec. 3(24); and

(ii) Co-enrollment in any of the programs in WIOA sec 116(b)(3)(A)(ii).

(2) Information on the performance levels achieved for the primary indicators for all of the core programs

identified in § 463.155 including disaggregated levels for:

(i) Individuals with barriers to employment as defined in WIOA sec. 3(24);

(ii) Age;

(iii) Sex; and

(iv) Race and ethnicity.

(3) The total number of participants and exiters who received career and training services for the most recent program year and the three preceding program years, as applicable to the program;

(4) Information on the performance levels achieved for the primary indicators consistent with § 463.155 for career and training services for the most recent program year and the 3 preceding program years, as applicable to the program;

(5) The percentage of participants in a program who obtained unsubsidized employment related to the training received (often referred to as training-related employment) through WIOA title I–B programs;

(6) The amount of funds spent on each type of career and training service for the most recent program year and the 3 preceding program years, as applicable to the program;

(7) The average cost per participant for those participants who received career and training services, respectively, during the most recent program year and the 3 preceding program years for, as applicable to the program;

(8) The percentage of a State's annual allotment under WIOA sec. 132(b) that the State spent on administrative costs; and

(9) information that facilitates comparisons of programs with programs in other States.

(10) For WIOA title I programs, a State performance narrative, which, for States in which a local area is implementing a pay-for-performance contracting strategy, at a minimum provides:

(i) A description of pay-for-performance contract strategies being used for programs;

(ii) The performance of service providers entering into contracts for such strategies, measured against the levels of performance specified in the contracts for such strategies; and

(iii) An evaluation of the design of the programs and performance strategies and, when available, the satisfaction of employers and participants who received services under such strategies.

(b) The disaggregation of data for the State performance report must be done in compliance with WIOA sec. 116(d)(6)(C).

(c) The State performance reports must include a mechanism of electronic access to the State's local area and ETP performance reports.

(d) States must comply with these requirements from sec. 116 of WIOA as explained in joint guidance issued by the Departments of Education and Labor, which may include information on reportable individuals as determined by the Secretaries.

§ 463.165 May a State require additional indicators of performance?

States may identify additional indicators of performance for the six core programs. These indicators must be included in the Unified or Combined State Plan.

§ 463.170 How are State adjusted levels of performance for primary indicators established?

(a) A State must submit in the State Plan expected levels of performance on the primary indicators for each core program as required by sec. 116(b)(iv) of WIOA as explained in joint guidance issued by the Secretaries of Education and Labor.

(1) The initial State Plan submitted under WIOA must contain expected levels of performance for the first 2 years of the State Plan period.

(2) States must submit expected levels of performance for the third and fourth year of the State Plan before the third program year consistent with §§ 463.135 and 463.145.

(b) The State must reach agreement on levels of performance with the Secretaries of Education and Labor for each of the core programs based on the following factors:

(1) How the levels of performance compare with State adjusted levels of performance established for other States;

(2) The application of an objective statistical model established by the Secretaries of Education and Labor, subject to paragraph (d) of this section;

(3) How the levels promote continuous improvement in performance based on the primary indicators and ensure optimal return on investment of Federal funds; and

(4) The extent to which the levels assist the State in meeting the performance goals established by the Secretaries of Education and Labor for the core programs in accordance with the Government Performance and Results Act of 1993, and its amendments.

(c) An objective statistical adjustment model will be developed and disseminated by the Secretaries. The model will be based on:

(1) Differences among States in actual economic conditions, including unemployment rates and job losses or gains in particular industries; and

(2) The characteristics of participants, including:

(i) Indicators of poor work history;

(ii) Lack of work experience;

(iii) Lack of educational or occupational skills attainment;

(iv) Dislocation from high-wage and high-benefit employment;

(v) Low levels of literacy;

(vi) Low levels of English proficiency;

(vii) Disability status;

(viii) Homelessness;

(ix) Ex-offender status; and

(x) Welfare dependency.

(d) The objective statistical adjustment model developed under paragraph (c) of this section will be:

(1) Applied to the core programs' primary indicators upon availability of data which is necessary to populate the model and apply it to the programs;

(2) Subject to paragraph (d)(1) of this section, used before the beginning of a program year in order to establish State performance targets for the upcoming program year; and

(3) Subject to paragraph (d)(1) of this section, used to revise performance levels at the end of a program year based on actual circumstances, consistent with sec. 116(b)(3)(vii) of WIOA.

(e) States must comply with these requirements from sec. 116 of WIOA as explained in joint guidance issued by the Departments of Education and Labor.

§ 463.175 What responsibility do States have to use quarterly wage record information for performance accountability?

(a) States must, consistent with State laws, use quarterly wage record information in measuring the progress on State adjusted levels of performance for the primary indicators outlined in § 463.155 and local performance indicators identified in § 463.205. The use of social security numbers from participants and such other information as is necessary to measure the progress of those participants through quarterly wage record information is authorized.

(b) ''Quarterly wage record information'' means intrastate and interstate wages paid to an individual, the social security number (or numbers, if more than one) of the individual and the name, address, State, and the Federal employer identification number of the employer paying the wages to the individual.

(c) The Governor may designate a State agency [or appropriate State entity] to assist in carrying out the performance reporting requirements for WIOA core programs and eligible

training providers. The Governor or such agency [or appropriate State entity] is responsible for:

(1) Facilitating data matches;

(2) Data quality reliability, protection against disaggregation that would violate privacy.

§ 463.180 What State actions are subject to a financial sanction under Workforce Innovation and Opportunity Act?

The following failures by a State are subject to financial sanction under WIOA sec. 116(d):

(a) The failure by a State to submit the State annual performance report required under WIOA sec. 116(d)(2); or

(b) The failure by a State to meet adjusted levels of performance for the primary indicators of performance in accordance with sec. 116(f) of WIOA.

§ 463.185 When are sanctions applied for failure to report?

(a) Sanctions will be applied when a State fails to submit the State annual performance reports required under sec. 116(d)(2) of WIOA. It is a failure to report if the State either:

(1) Does not submit a State annual performance report by the date for timely submission set in performance reporting guidance; or

(2) Submits a State annual performance report by the date for timely submission, but the report is incomplete.

(b) Sanctions will not be assessed if the reporting failure is due to exceptional circumstances outside of the State's control. Exceptional circumstances may include, but are not limited to:

(1) Natural disasters,

(2) Unexpected personnel transitions; and

(3) Unexpected technology related impacts.

(c) In the event that a State may not be able to submit a complete and accurate performance report by the deadline for timely reporting:

(1) The State must notify the Secretary of Labor or Secretary of Education as soon as possible of a potential impact on the ability to submit their State annual performance reports by no later than 30 days prior to the established deadline in order to not be considered failing to report.

(2) In circumstances where unexpected events occur within the 30-day period before the deadline for submission of the State annual performance reports, the Secretary of Labor and Secretary of Education will review requests for extending the reporting deadline in accordance with the Departments' procedures explained in guidance on reporting timelines.

§ 463.190 When are sanctions applied for failure to achieve adjusted levels of performance?

(a) States' negotiated levels of performance will be adjusted through the application of the statistical adjustment model established under § 463.170 to account for actual conditions experienced during a program year and characteristics of participants, annually at the close of each program year.

(b) States that fail to meet adjusted levels of performance for the primary indicators of performance outlined in § 463.155 for any year will receive technical assistance, including assistance in the development of a performance improvement plan provided by the Secretary of Labor or Secretary of Education.

(c) State failure to meet adjusted levels of performance will be determined through three criteria:

(1) Overall State program scores, based on the percent achieved by a program on each of the six primary indicators compared to the adjusted goal for each primary indicator. The average of the percentage of the adjusted goal achieved for each primary indicator will constitute the overall program score for the State;

(2) Overall State indicator scores, based on the percent achieved by each program on each of the individual primary indicators compared to the adjusted goal. The average of the percentage of the adjusted goal achieved for each of the six core programs' will constitute an overall indicator score for the State; and

(3) Individual indicator scores, based on the percent achieved by each program on each of the individual primary indicators compared to the adjusted goals.

(d) A performance failure occurs when:

(1) Any overall State program score or overall State indicator score falls below 90 percent for the program year; or

(2) Any of the States' individual indicator scores fall below 50 percent for the program year.

(e) Sanctions based on performance failure will be applied to States if, for 2 consecutive years, the State fails to meet 90 percent of the overall State program score, 90 percent of the overall State indicator score, or 50 percent on any individual indicator score for the same program or indicator.

§ 463.195 What should States expect when a sanction is applied to the Governor's Reserve Allotment?

(a) The Secretary of Labor and the Secretary of Education will reduce the Governor's Reserve Allotment by 5 percent of the maximum available amount for the immediately succeeding program year if:

(1) The State fails to submit the State annual performance reports as required under WIOA sec. 116(d)(2), as defined in § 463.185; or

(2) The State fails to meet State adjusted levels of performance for the same primary performance indicator(s) under either § 463.190(d)(1) or (2) for the second consecutive year as defined in § 463.190.

(b) If the State fails under paragraphs (a)(1) and (2) of this section in the same program year, the Secretary of Labor and the Secretary of Education will reduce the Governor's Reserve Allotment by 10 percent of the maximum available amount for the immediately succeeding program year.

(c) If a State's Governor's Reserve Allotment is reduced:

(1) The reduced amount will not be returned to the State in the event that the State later improves performance or submits its annual performance report; and

(2) The Governor's reserve will continue to be set at the reduced level in each subsequent year until the Secretary of Labor or the Secretary of Education, dependent upon the impacted program, determines that the State met the State adjusted levels of performance for the applicable primary performance indicators and has submitted all of the required performance reports.

(d) A State may request review of a sanction the U.S. Department of Labor imposes in accordance with the provisions of § 683.800 of this chapter.

§ 463.200 What other administrative actions will be applied to States' performance requirements?

(a) In addition to sanctions for failure to report or failure to meet adjusted levels of performance, States will be subject to administrative actions in the case of poor performance.

(b) States' performance achievement on the individual primary indicators will be assessed in addition to the overall program score and overall indicator score. Based on this assessment, as clarified and explained in guidance, for performance on any individual primary indicator, the Secretary of Labor or the Secretary of Education will require the State to establish a performance risk plan to address continuous improvement on the individual primary indicator.

§ 463.205 What performance indicators apply to local areas?

(a) Each local workforce investment area in a State under title I of WIOA is subject to the same primary indicators of performance for the core programs for WIOA title I under § 463.155(a)(1) and (d) that apply to the State.

(b) In addition to the indicators described in paragraph (a) of this section, under § 463.165, the Governor may apply additional indicators of performance to local areas in the State.

(c) States must annually make local area performance reports available to the public using a template that the Departments will disseminate in guidance, including by electronic means. The State must provide electronic access to the public local area performance report in its annual State performance report.

(d) The local area performance report must provide information on the actual performance levels for the local area based on quarterly wage records consistent with the requirements for States under § 463.175.

(e) The local area performance report must include:

(1) Performance levels achieved by the local area for the indicators for the adult, dislocated worker, and youth programs under title I of WIOA in § 463.155(a)(1) and (3);

(2) Performance levels achieved by the local area for the adult, dislocated worker, and youth programs under title I of WIOA in § 463.160(a);

(3) The percentage of a local area's allotment under WIOA sec. 128(b) and sec. 133(b) that the local area spent on administrative costs; and

(4) Other information that facilitates comparisons of programs with programs in other local areas (or planning regions if the local area is part of a planning region).

(f) States must comply with any requirements from sec. 116(d)(3) of WIOA as explained in guidance, including the use of the performance reporting template, issued by the Department of Labor.

§ 463.210 How are local performance levels established?

(a) The objective statistical adjustment model required under sec. 116(b)(3)(A)(viii) of WIOA and described in the § 463.170 must be:

(1) Used to establish local performance targets for the upcoming program year, and

(2) Used to revise performance levels at the end of a program year based on actual circumstances, consistent with WIOA sec. 116(c)(3).

(b) The Governor, Local Board, and chief elected official must reach agreement on local targets and levels based on a negotiations process before the start of a program year with the use of the objective statistical model described in paragraph (a) of this section. The negotiations will include a discussion of circumstances not accounted for in the model and will take into account the extent to which the levels promote continuous improvement. The objective statistical model will be applied at the end of the program year based on actual conditions experienced.

(c) The negotiations process described in paragraph (b) of this section must be developed by the Governor and disseminated to all Local Boards and chief elected officials.

(d) The Local Boards may apply performance measures to service providers that differ from the performance measures that apply to the local area. These performance measures should be established after considering:

(1) The established local performance levels,

(2) The services provided by each provider; and

(3) The populations the service providers are intended to serve.

§ 463.215 Under what circumstances are local areas eligible for State Incentive Grants?

(a) The Governor is not required to award local incentive funds. The Governor may use non-Federal funds to create incentives for Local Boards to implement pay-for-performance contract strategies for the delivery of training services described in WIOA sec. 134(c)(3) or activities described in WIOA sec. 129(c)(2) in the local areas served by the Local Boards.

(b) Pay-for-performance contract strategies must be implemented in accordance with §§ 683.500 through 683.530 of this chapter and § 463.160.

§ 463.220 Under what circumstances may a corrective action or sanction be applied to local areas for poor performance?

(a) If a local area fails to meet the levels of performance agreed to under § 463.210 for the primary indicators of performance in the adult, dislocated worker, and youth programs authorized under WIOA title I in any program year, technical assistance must be provided by the Governor or, upon the Governor's request, by the Secretary of Labor.

(1) A State must establish the threshold for failure in meeting levels of performance for a local area before negotiating the adjusted levels of performance for the local area.

(2) The technical assistance may include:

(i) Assistance in the development of a performance improvement plan,

(ii) The development of a modified local or regional plan; or

(iii) Other actions designed to assist the local area in improving performance.

(b) If a local area fails to meet the levels of performance agreed to under § 463.210 for the primary indicators of performance for the adult, dislocated worker, and youth programs authorized under WIOA title I for a third consecutive program year, the Governor must take corrective actions. The corrective actions must include the development of a reorganization plan under which the Governor:

(1) Requires the appointment and certification of a new Local Board, consistent with the criteria established under § 679.350 of this chapter;

(2) Prohibits the use of eligible providers and one-stop partners that have been identified as achieving poor levels of performance; or

(3) Takes such other significant actions as the Governor determines are appropriate.

§ 463.225 Under what circumstances may local areas appeal a reorganization plan?

(a) The Local Board and chief elected official for a local area that is subject to a reorganization plan under WIOA sec. 116(g)(2)(A) may appeal to the Governor to rescind or revise the reorganization plan not later than 30 days after receiving notice of the reorganization plan. The Governor must make a final decision within 30 days after receipt of the appeal.

(b) The Local Board and chief elected official may appeal the final decision of the Governor to the Secretary of Labor not later than 30 days after receiving the decision from the Governor. Any appeal of the Governor's final decision must be:

(1) Appealed jointly by the Local Board and chief elected official to the Secretary under § 683.650 of this chapter; and

(2) Must be submitted by certified mail, return receipt requested, to the Secretary, U.S. Department of Labor, 200 Constitution Ave. NW., Washington DC 20210, Attention: ASET. A copy of the appeal must be simultaneously provided to the Governor.

(c) Upon receipt of the joint appeal from the Local Board and chief elected official, the Secretary must make a final decision within 30 days. In making this determination the Secretary may consider any comments submitted by the Governor in response to the appeals.

(d) The decision by the Governor to impose a reorganization plan becomes effective at the time it is issued and

remains effective unless the Secretary of Labor rescinds or revises the reorganization plan under WIOA sec. 116(g)(2)(B)(ii).

§ 463.230 What information is required for the eligible training provider performance reports?

(a) States are required to make available, and publish, annually using a template the Departments will disseminate including through electronic means, the eligible training provider performance reports for eligible training providers who provide services under sec. 122 of WIOA that are described in §§ 680.400 through 680.530 of this chapter. These reports at a minimum must include, consistent with § 463.175 and with respect to each program of study that is eligible to receive funds under WIOA:

(1) The total number of participants who received training services under the adult and dislocated worker programs authorized under WIOA title I for the most recent year and the 3 preceding program years, including:

(i) The number of participants under the adult and dislocated worker programs disaggregated by barriers to employment;

(ii) The number of participants under the adult and dislocated worker programs disaggregated by race, ethnicity, sex, and age;

(iii) The number of participants under the adult and dislocated worker programs disaggregated by the type of training entity for the most recent program year and the 3 preceding program years;

(2) The total number of participants who exit a program of study or its equivalent, including disaggregate counts by the type of training entity during the most recent program year and the 3 preceding program years;

(3) The average cost-per-participant for participants who received training services for the most recent program year and the 3 preceding program years disaggregated by type of training entity;

(4) The total number of individuals exiting from the program of study (or the equivalent); and

(5) The levels of performance achieved for the primary indicators of performance identified in § 463.155(a)(1)(i) through (iv) with respect to all individuals in a program of study (or the equivalent).

(b) Registered apprenticeship programs are not required to submit performance information. See § 680.470 of this chapter. If a registered apprenticeship program voluntarily submits performance information to a State, the State must include this information in the report.

(c) The State must provide electronic access to the public eligible training provider performance report in its annual State performance report.

(d) States must comply with any requirements from sec. 116(d)(4) of WIOA as explained in guidance issued by the Department of Labor.

(e) The Governor may designate one or more State agencies such as a State education agency or State educational authority to assist in overseeing eligible training provider performance and facilitating the production and dissemination of eligible training provider performance reports. These agencies may be the same agencies that are designated as responsible for administering the eligible training providers list as provided under § 680.500 of this chapter. The Governor or such agencies, or authorities, is responsible for:

(1) Facilitating data matches between ETP records and UI wage data in order to produce the report;

(2) The creation and dissemination of the reports as described in paragraphs (a) through (d) of this section;

(3) Coordinating the dissemination of the performance reports with the eligible training provider list and the information required to accompany the list, as provided in § 680.500 of this chapter.

§ 463.235 What are the reporting requirements for individual records for core Workforce Innovation and Opportunity Act title I, III, and IV programs?

(a) On a quarterly basis, each State must submit to the Secretary of Labor or Secretary of Education, as appropriate, individual records that include demographic information, information on services received, and information on resulting outcomes, as appropriate, for each reportable individual in a core program administered by the Secretary of Labor or Education. Such records submitted to the Department of Labor must be submitted in one record that is integrated across all core Department of Labor programs.

(b) For individual records submitted to the Secretary of Labor, records must be integrated across all core programs administered by the Secretary of Labor in one single file.

(c) States must comply with any other requirements from sec. 116(d)(2) of WIOA as explained in guidance issued by the Department of Labor.

§ 463.240 What are the requirements for data validation of State annual performance reports?

(a) States must establish procedures, consistent with guidelines issued by the Secretary of Education or Secretary of Labor, to submit complete annual performance reports that contain information that is valid and reliable.

(b) If a State fails to meet standards in paragraph (a) of this section as determined by the Secretary of Labor or Secretary of Education, the appropriate Secretary will provide technical assistance and may require the State to develop and implement corrective actions, which may require the State to provide training for its subrecipients.

(c) The Secretary of Labor and the Secretary of Education will provide training and technical assistance to States in order to implement this section.

■ 11. Add subpart J to part 463, as added elsewhere in this issue of the **Federal Register**, to read as follows:

Subpart J—Description of the One-Stop System Under Title I of the Workforce Innovation and Opportunity Act

Sec.

463.300 What is the one-stop delivery system?
463.305 What is a comprehensive one-stop center and what must be provided there?
463.310 What is an affiliated site and what must be provided there?
463.315 Can a stand-alone Wagner-Peyser employment service office be designated as an affiliated one-stop site?
463.320 Are there any requirements for networks of eligible one-stop partners or specialized centers?
463.400 Who are the required one-stop partners?
463.405 Is Temporary Assistance for Needy Families a required one-stop partner?
463.410 What other entities may serve as one-stop partners?
463.415 What entity serves as the one-stop partner for a particular program in the local area?
463.420 What are the roles and responsibilities of the required one-stop partners?
463.425 What are the applicable career services that must be provided through the one-stop delivery system by required one-stop partners?
463.430 What are career services?
463.435 What are the business services provided through the one-stop delivery system, and how are they provided?
463.440 When may a fee be charged for the business services in this subpart?
463.500 What is the Memorandum of Understanding for the one-stop delivery system and what must be included in the Memorandum of Understanding?
463.505 Is there a single Memorandum of Understanding for the local area, or must there be separate Memoranda of Understanding between the Local Board and each partner?

463.510 How should the Memorandum of Understanding be negotiated?
463.600 Who may operate one-stop centers?
463.605 How is the one-stop operator selected?
463.610 How is sole source selection of one-stop operators accomplished?
463.615 Can an entity serving as one-stop operator compete to be a one-stop operator under the procurement requirements of this subpart?
463.620 What is the one-stop operator's role?
463.625 Can a one-stop operator also be a service provider?
463.630 Can State merit staff still work in a one-stop where the operator is not a governmental entity?
463.635 What is the effective date of the provisions of this subpart?
463.700 What are one-stop infrastructure costs?
463.705 What guidance must the Governor issue regarding one-stop infrastructure funding?
463.710 How are infrastructure costs funded?
463.715 How are one-stop infrastructure costs funded in the local funding mechanism?
463.720 What funds are used to pay for infrastructure costs in the local one-stop infrastructure funding mechanism?
463.725 What happens if consensus on infrastructure funding is not reached at the local level between the Local Board, chief elected officials, and one-stop partners?
463.730 What is the State one-stop infrastructure funding mechanism?
463.735 How are partner contributions determined in the State one-stop funding mechanism?
463.740 What funds are used to pay for infrastructure costs in the State one-stop infrastructure funding mechanism?
463.745 How is the allocation formula used by the Governor determined in the State one-stop funding mechanism?
463.750 When and how can a one-stop partner appeal a one-stop infrastructure amount designated by the State under the State infrastructure funding mechanism?
463.755 What are the required elements regarding infrastructure funding that must be included in the one-stop Memorandum of Understanding?
361.760 How do one-stop partners jointly fund other shared costs under the Memorandum of Understanding?
463.800 How are one-stop centers and one-stop delivery systems certified for effectiveness, physical and programmatic accessibility, and continuous improvement?
463.900 What is the common identifier to be used by each one-stop delivery system?

Subpart J—Description of the One-Stop System Under Title I of the Workforce Innovation and Opportunity Act

§ 463.300 What is the one-stop delivery system?

(a) The one-stop delivery system brings together workforce development, educational, and other human resource services in a seamless customer-focused service delivery network that enhances access to the programs' services and improves long-term employment outcomes for individuals receiving assistance. One-stop partners administer separately funded programs as a set of integrated streamlined services to customers.

(b) Title I of the Workforce Innovation and Opportunity Act (WIOA) assigns responsibilities at the local, State, and Federal level to ensure the creation and maintenance of a one-stop delivery system that enhances the range and quality of education and workforce development services that business and individual customers can access.

(c) The system must include at least one comprehensive physical center in each local area as described in § 463.305.

(d) The system may also have additional arrangements to supplement the comprehensive center. These arrangements include:

(1) An affiliated site or a network of affiliated sites, where one or more partners make programs, services, and activities available, as described in § 463.310;

(2) A network of eligible one-stop partners, as described in §§ 463.400 through 463.410, through which each partner provides one or more of the programs, services, and activities that are linked, physically or technologically, to an affiliated site or access point that assures customers are provided information on the availability of career services, as well as other program services and activities, regardless of where they initially enter the workforce system in the local area; and

(3) Specialized centers that address specific needs, including those of dislocated workers, youth, or key industry sectors, or clusters.

(e) Required one-stop partner programs must provide access to programs, services, and activities through electronic means if applicable and practicable. This is in addition to providing access to services through the mandatory comprehensive physical one-stop center and any affiliated sites or specialized centers. The provision of programs and services by electronic methods such as Web sites, telephones, or other means must improve the efficiency, coordination, and quality of one-stop partner services. Electronic delivery must not replace access to such services at a comprehensive one-stop center or be a substitute to making services available at an affiliated site if the partner is participating in an affiliated site. Electronic delivery systems must be in compliance with the nondiscrimination and equal opportunity provisions of WIOA in sec. 188 and its implementing regulations at 29 CFR part 37.

(f) The design of the local area's one-stop delivery system must be described in the Memorandum of Understanding (MOU) executed with the one-stop partners, described in § 463.500.

§ 463.305 What is a comprehensive one-stop center and what must be provided there?

(a) A comprehensive one-stop center is a physical location where jobseeker and employer customers can access the programs, services, and activities of all required one-stop partners. A comprehensive one-stop center must have at least one title I staff person physically present.

(b) The comprehensive one-stop center must provide:

(1) Career services, described in § 463.430;

(2) Access to training services described in § 680.200 of this chapter;

(3) Access to any employment and training activities carried out under sec. 134(d) of WIOA;

(4) Access to programs and activities carried out by one-stop partners listed in §§ 463.400 through 463.410, including Wagner-Peyser employment services; and

(5) Workforce and labor market information.

(c) Customers must have access to these programs, services, and activities during regular business days at a comprehensive one-stop center. The Local Board may establish other service hours at other times to accommodate the schedules of individuals who work on regular business days. The State Board will evaluate the hours of access to service as part of the evaluation of effectiveness in the one-stop certification process described in § 463.800(b).

(d) ''Access'' to programs and services means having either: Program staff physically present at the location; having partner program staff physically present at the one-stop appropriately trained to provide information to customers about the programs, services, and activities available through partner

programs; or providing direct linkage through technology to program staff who can provide meaningful information or services.

(1) A ''direct linkage'' means providing direct connection at the one-stop, within a reasonable time, by phone or through a real-time Web-based communication to a program staff member who can provide program information or services to the customer.

(2) A ''direct linkage'' does not include providing a phone number or computer Web site that can be used at an individual's home; providing information, pamphlets, or materials; or making arrangements for the customer to receive services at a later time or on a different day.

(e) All comprehensive one-stop centers must be physically and programmatically accessible to individuals with disabilities, as described in § 463.800.

§ 463.310 What is an affiliated site and what must be provided there?

(a) An affiliated site, or affiliate one-stop center, is a site that makes available to jobseeker and employer customers one or more of the one-stop partners' programs, services, and activities. An affiliated site does not need to provide access to every required one-stop partner program. The frequency of program staff's physical presence in the affiliated site will be determined at the local level. Affiliated sites are access points in addition to the Comprehensive one-stop center(s) in each local area. If used by local areas as a part of the service delivery strategy, affiliate sites should be implemented in a manner that supplements and enhances customer access to services.

(b) As described in § 463.315, Wagner-Peyser employment services cannot be a stand-alone affiliated site.

(c) States, in conjunction with the Local Workforce Development Boards, must examine lease agreements and property holdings throughout the one-stop delivery system in order to use property in an efficient and effective way. Where necessary and appropriate, States and Local Boards must take expeditious steps to align lease expiration dates with efforts to consolidate one-stop operations into service points where Wagner-Peyser employment services are collocated as soon as reasonably possible. These steps must be included in the State Plan.

(d) All affiliated sites must be physically and programmatically accessible to individuals with disabilities, as described in § 463.800.

§ 463.315 Can a stand-alone Wagner-Peyser employment service office be designated as an affiliated one-stop site?

(a) Separate stand-alone Wagner-Peyser employment services offices are not permitted under WIOA, as also described in § 652.202 of this chapter.

(b) If Wagner-Peyser employment services are provided at an affiliated site, there must be at least one other partner in the affiliated site with staff physically present more than 50 percent of the time the center is open. Additionally, the other partner must not be the partner administering local veterans' employment representatives, disabled veterans' outreach program specialists, or unemployment compensation programs. If Wagner-Peyser employment services and any of these three programs are provided at an affiliated site, an additional partner must have staff present in the center more than 50 percent of the time the center is open.

§ 463.320 Are there any requirements for networks of eligible one-stop partners or specialized centers?

Any network of one-stop partners or specialized centers must be connected to, such as having processes in place to make referrals to, the comprehensive and any appropriate affiliate one-stop centers. Wagner-Peyser employment services cannot stand alone in a specialized center. Just as described in § 463.315 for an affiliated site, a specialized center must include other programs besides Wagner-Peyser employment services, local veterans' employment representatives, disabled veterans' outreach program specialists, and unemployment compensation.

§ 463.400 Who are the required one-stop partners?

(a) Section 121(b)(1)(B) of WIOA identifies the entities that are required partners in the local one-stop systems.

(b) The required partners are the entities responsible for administering the following programs and activities in the local area:

(1) Programs authorized under title I of WIOA, including:

(i) Adults;

(ii) Dislocated workers;

(iii) Youth;

(iv) Job Corps;

(v) YouthBuild;

(vi) Native American programs; and

(vii) Migrant and seasonal farmworker programs;

(2) Employment services authorized under the Wagner-Peyser Act (29 U.S.C. 49 *et seq.*);

(3) Adult education and literacy activities authorized under title II of WIOA;

(4) The Vocational Rehabilitation program authorized under title I of the Rehabilitation Act of 1973 (29 U.S.C. 720 *et seq.*);

(5) The Senior Community Service Employment Program authorized under title V of the Older Americans Act of 1965 (42 U.S.C. 3056 *et seq.*);

(6) Career and technical education programs at the post-secondary level authorized under the Carl D. Perkins Career and Technical Education Act of 2006 (20 U.S.C. 2301 *et seq.*);

(7) Trade Adjustment Assistance activities authorized under chapter 2 of title II of the Trade Act of 1974 (19 U.S.C. 2271 *et seq.*);

(8) Jobs for Veterans State Grants programs authorized under chapter 41 of title 38, U.S.C.;

(9) Employment and training activities carried out under the Community Services Block Grant (42 U.S.C. 9901 *et seq.*);

(10) Employment and training activities carried out by the Department of Housing and Urban Development;

(11) Programs authorized under State unemployment compensation laws (in accordance with applicable Federal law);

(12) Programs authorized under sec. 212 of the Second Chance Act of 2007 (42 U.S.C. 17532); and

(13) Temporary Assistance for Needy Families (TANF) authorized under part A of title IV of the Social Security Act (42 U.S.C. 601 *et seq.*), unless exempted by the Governor under § 463.405(b).

§ 463.405 Is Temporary Assistance for Needy Families a required one-stop partner?

(a) Yes, TANF, authorized under part A of title IV of the Social Security Act (42 U.S.C. 601 *et seq.*), is a required partner. (WIOA sec. 121(b)(1)(B)(xiii)).

(b) The Governor may determine that TANF will not be a required partner in the State, or within some specific local areas in the State. In this instance, the Governor must notify the Secretaries of the U.S. Departments of Labor and Health and Human Services in writing of this determination.

(c) In States, or local areas within a State, where the Governor has determined that TANF is not required to be a partner, local TANF programs may still opt to be a one-stop partner, or to work in collaboration with the one-stop center.

§ 463.410 What other entities may serve as one-stop partners?

(a) Other entities that carry out a workforce development program, including Federal, State, or local programs and programs in the private

sector, may serve as additional partners in the one-stop system if the Local Board and chief elected official(s) approve the entity's participation.

(b) Additional partners may include:

(1) Employment and training programs administered by the Social Security Administration, including the Ticket to Work and Self-Sufficiency Program established under sec. 1148 of the Social Security Act (42 U.S.C. 1320b–19);

(2) Employment and training programs carried out by the Small Business Administration;

(3) Supplemental Nutrition Assistance Program (SNAP) employment and training programs, authorized under secs. 6(d)(4) and 6(o) of the Food and Nutrition Act of 2008 (7 U.S.C. 2015(d)(4));

(4) Client Assistance Program authorized under sec. 112 of the Rehabilitation Act of 1973 (29 U.S.C. 732);

(5) Programs authorized under the National and Community Service Act of 1990 (42 U.S.C. 12501 *et seq.*); and

(6) Other appropriate Federal, State or local programs, including employment, education, and training programs provided by public libraries or in the private sector.

§ 463.415 What entity serves as the one-stop partner for a particular program in the local area?

(a) The entity that carries out the program and activities listed in § 463.400 or § 463.405, and therefore serves as the one-stop partner, is the grant recipient, administrative entity, or organization responsible for administering the funds of the specified program in the local area. The term ''entity'' does not include the service providers that contract with, or are subrecipients of, the local administrative entity. For programs that do not include local administrative entities, the responsible State agency should be the partner. Specific entities for particular programs are identified in paragraph (b) of this section. If a program or activity listed in § 463.400 is not carried out in a local area, the requirements relating to a required one-stop partner are not applicable to such program or activity in that local one-stop system.

(b) For title II of WIOA, the entity that carries out the program for the purposes of paragraph (a) of this section is the sole entity or agency in the State or outlying area responsible for administering or supervising policy for adult education and literacy activities in the State or outlying area. The State eligible entity may delegate its responsibilities under paragraph (a) of this section to one or more eligible providers or consortium of eligible providers.

(c) For the Vocational Rehabilitation program, authorized under title I of the Rehabilitation Act, the entity that carries out the program for the purposes of paragraph (a) of this section is the designated State agencies or designated State units specified under sec. 101(a)(2) of the Rehabilitation Act that is primarily concerned with vocational rehabilitation, or vocational and other rehabilitation, of individuals with disabilities.

(d) Under WIOA, the national programs, including Job Corps, the Native American program, YouthBuild, and Migrant and Seasonal Farmworker programs are required one-stop partners. The entity for the Native American program and Migrant and Seasonal Farmworker programs is the grantee of those respective programs. The entity for Job Corps is the Job Corps center.

(e) For the Carl D. Perkins Career and Technical Education Act of 2006, the entity that carries out the program for the purposes of paragraph (a) of this section is the State eligible agency. The State eligible agency may delegate its responsibilities under paragraph (a) of this section to one or more State agencies, eligible recipients at the post-secondary level, or consortia of eligible recipients at the post-secondary level.

§ 463.420 What are the roles and responsibilities of the required one-stop partners?

Each required partner must:

(a) Provide access to its programs or activities through the one-stop delivery system, in addition to any other appropriate locations; (WIOA sec. 121(b)(1)(A)(i).)

(b) Use a portion of funds made available to the partner's program, to the extent consistent with the Federal law authorizing the partner's program and with Federal cost principles in 2 CFR parts 200 and 3474 (requiring, among other things, that costs are allowable, reasonable, necessary, and allocable), to:

(1) Provide applicable career services; and

(2) Work collaboratively with the State and Local Boards to establish and maintain the one-stop delivery system. This includes jointly funding the one-stop infrastructure through partner contributions that are based upon:

(i) A reasonable cost allocation methodology by which infrastructure costs are charged to each partner in proportion to the relative benefits;

(ii) Federal cost principles; and

(iii) Any local administrative cost requirements in the Federal law authorizing the partner's program. (This is further described in § 463.700). (WIOA sec. 121(b)(1)(A)(ii).)

(c) Enter into an MOU with the Local Board relating to the operation of the one-stop system that meets the requirements of § 463.500(d);

(d) Participate in the operation of the one-stop system consistent with the terms of the MOU, requirements of authorizing laws, the Federal cost principles, and all other applicable legal requirements; (WIOA sec. 121(b)(1)(A)(iv)) and

(e) Provide representation on the State and Local Workforce Development Boards as required and participate in Board committees as needed. (WIOA secs. 101(b)(iii) and 107(b)(2)(C) and (D))

§ 463.425 What are the applicable career services that must be provided through the one-stop delivery system by required one-stop partners?

(a) The applicable career services to be delivered by required one-stop partners are those services listed in § 463.430 that are authorized to be provided under each partner's program.

(b) One-stop centers provide services to individual customers based on individual needs, including the seamless delivery of multiple services to individual customers. There is no required sequence of services. (WIOA sec. 121(e)(1)(A).)

§ 463.430 What are career services?

Career services, as identified in sec. 134(c)(2) of WIOA, consist of three types:

(a) Basic career services must be made available and, at a minimum, must include the following services, as consistent with allowable program activities and Federal cost principles:

(1) Determinations of whether the individual is eligible to receive assistance from the adult, dislocated worker, or youth programs;

(2) Outreach, intake (including worker profiling), and orientation to information and other services available through the one-stop delivery system;

(3) Initial assessment of skill levels including literacy, numeracy, and English language proficiency, as well as aptitudes, abilities (including skills gaps), and supportive services needs;

(4) Labor exchange services, including—

(i) Job search and placement assistance, and, when needed by an individual, career counseling, including—

(A) Provision of information on in-demand industry sectors and occupations (as defined in sec. 3(23) of WIOA); and,

(B) Provision of information on nontraditional employment; and

(ii) Appropriate recruitment and other business services on behalf of employers, including information and referrals to specialized business services other than those traditionally offered through the one-stop delivery system;

(5) Provision of referrals to and coordination of activities with other programs and services, including programs and services within the one-stop delivery system and, when appropriate, other workforce development programs;

(6) Provision of workforce and labor market employment statistics information, including the provision of accurate information relating to local, regional, and national labor market areas, including—

(i) Job vacancy listings in labor market areas;

(ii) Information on job skills necessary to obtain the vacant jobs listed; and

(iii) Information relating to local occupations in demand and the earnings, skill requirements, and opportunities for advancement for those jobs;

(7) Provision of performance information and program cost information on eligible providers of training services by program and type of providers;

(8) Provision of information, in usable and understandable formats and languages, about how the local area is performing on local performance accountability measures, as well as any additional performance information relating to the area's one-stop delivery system;

(9) Provision of information, in usable and understandable formats and languages, relating to the availability of supportive services or assistance, and appropriate referrals to those services and assistance, including: Child care; child support; medical or child health assistance available through the State's Medicaid program and Children's Health Insurance Program; benefits under SNAP; assistance through the earned income tax credit; and assistance under a State program for Temporary Assistance for Needy Families, and other supportive services and transportation provided through that program;

(10) Provision of information and assistance regarding filing claims for unemployment compensation, by which the one-stop must provide meaningful assistance to individuals seeking assistance in filing a claim for unemployment compensation.

(i) ''Meaningful assistance'' means:

(A) Providing assistance on-site using staff who are well-trained in unemployment compensation claims filing and the rights and responsibilities of claimants, or

(B) Providing assistance by phone or via other technology, as long as the assistance is provided by trained and available staff and within a reasonable time.

(ii) The costs associated in providing this assistance may be paid for by the State's unemployment insurance program, or the WIOA adult or dislocated worker programs, or some combination thereof.

(11) Assistance in establishing eligibility for programs of financial aid assistance for training and education programs not provided under WIOA.

(b) Individualized career services must be made available if determined to be appropriate in order for an individual to obtain or retain employment. These services include the following services, as consistent with program requirements and Federal cost principles:

(1) Comprehensive and specialized assessments of the skill levels and service needs of adults and dislocated workers, which may include—

(i) Diagnostic testing and use of other assessment tools; and

(ii) In-depth interviewing and evaluation to identify employment barriers and appropriate employment goals;

(2) Development of an individual employment plan, to identify the employment goals, appropriate achievement objectives, and appropriate combination of services for the participant to achieve his or her employment goals, including the list of, and information about, the eligible training providers (as described in § 680.180 of this chapter);

(3) Group counseling;

(4) Individual counseling;

(5) Career planning;

(6) Short-term pre-vocational services including development of learning skills, communication skills, interviewing skills, punctuality, personal maintenance skills, and professional conduct services to prepare individuals for unsubsidized employment or training;

(7) Internships and work experiences that are linked to careers (as described in § 680.170 of this chapter);

(8) Workforce preparation activities;

(9) Financial literacy services as described in sec. 129(b)(2)(D) of WIOA and § 681.500 of this chapter;

(10) Out-of-area job search assistance and relocation assistance; and

(11) English language acquisition and integrated education and training programs.

(c) Follow-up services must be provided, as appropriate, including: Counseling regarding the workplace, for participants in adult or dislocated worker workforce investment activities who are placed in unsubsidized employment, for up to 12 months after the first day of employment.

§ 463.435 What are the business services provided through the one-stop delivery system, and how are they provided?

(a) Certain career services must be made available to local businesses, specifically labor exchange activities and labor market information described in §§ 463.430(a)(4)(ii) and (a)(6). Local areas must establish and develop relationships and networks with large and small employers and their intermediaries. (WIOA sec. 134(c)(1)(A)(iv)). Local areas also must develop, convene, or implement industry or sector partnerships. (WIOA sec. 134(c)(1)(A)(v)).

(b) Customized business services may be provided to employers, employer associations, or other such organizations (WIOA sec. 134(d)(1)(A)(ii)). These services are tailored for specific employers and may include:

(1) Customized screening and referral of qualified participants in training services to employers;

(2) Customized services to employers, employer associations, or other such organizations, on employment-related issues;

(3) Customized recruitment events and related services for employers including targeted job fairs;

(4) Human resource consultation services, including but not limited to assistance with:

(i) Writing/reviewing job descriptions and employee handbooks;

(ii) Developing performance evaluation and personnel policies;

(iii) Creating orientation sessions for new workers;

(iv) Honing job interview techniques for efficiency and compliance;

(v) Analyzing employee turnover; or

(vi) Explaining labor laws to help employers comply with wage/hour and safety/health regulations;

(5) Customized labor market information for specific employers, sectors, industries or clusters; and

(6) Other similar customized services.

(c) Local areas may also provide other business services and strategies that meet the workforce investment needs of area employers, in accordance with partner programs' statutory requirements and consistent with

Federal cost principles. These business services may be provided through effective business intermediaries working in conjunction with the Local Board, or through the use of economic development, philanthropic, and other public and private resources in a manner determined appropriate by the Local Board and in cooperation with the State. Allowable activities, consistent with each partner's authorized activities, include, but are not limited to:

(1) Developing and implementing industry sector strategies (including strategies involving industry partnerships, regional skills alliances, industry skill panels, and sectoral skills partnerships);

(2) Customized assistance or referral for assistance in the development of a registered apprenticeship program;

(3) Developing and delivering innovative workforce investment services and strategies for area employers, which may include career pathways, skills upgrading, skill standard development and certification for recognized post-secondary credential or other employer use, and other effective initiatives for meeting the workforce investment needs of area employers and workers;

(4) Assistance to area employers in managing reductions in force in coordination with rapid response activities and with strategies for the aversion of layoffs, which may include strategies such as early identification of firms at risk of layoffs, use of feasibility studies to assess the needs of and options for at-risk firms, and the delivery of employment and training activities to address risk factors;

(5) The marketing of business services to appropriate area employers, including small and mid-sized employers; and

(6) Assisting employers with accessing local, State, and Federal tax credits.

(d) All business services and strategies must be reflected in the local plan, described in § 679.560(b)(3) of this chapter.

§ 463.440 When may a fee be charged for the business services in this subpart?

(a) There is no requirement that a fee-for-service be charged to employers.

(b) No fee may be charged for services provided in § 463.435(a).

(c) A fee may be charged for services provided under § 463.435(b) and (c). Services provided under § 463.435(c) may be provided through effective business intermediaries working in conjunction with the Local Board and may also be provided on a fee-for-service basis or through the leveraging of economic development, philanthropic, and other public and private resources in a manner determined appropriate by the Local Board. The Local Workforce Development Board may examine the services provided compared with the assets and resources available within the local one-stop delivery system and through its partners to determine an appropriate cost structure for services, if any.

§ 463.500 What is the Memorandum of Understanding for the one-stop delivery system and what must be included in the Memorandum of Understanding ?

(a) The MOU is the product of local discussion and negotiation, and is an agreement developed and executed between the Local Board, with the agreement of the chief elected official and the one-stop partners, relating to the operation of the one-stop delivery system in the local area. Two or more local areas in a region may develop a single joint MOU, if they are in a region that has submitted a regional plan under sec. 106 of WIOA.

(b) The MOU must include:

(1) A description of services to be provided through the one-stop delivery system, including the manner in which the services will be coordinated and delivered through the system;

(2) A final plan, or an interim plan if needed, on how the costs of the services and the operating costs of the system will be funded, including:

(i) Funding of infrastructure costs of one-stop centers in accordance with §§ 463.700 through 463.755; and

(ii) Funding of the shared services and operating costs of the one-stop delivery system described in § 463.760;

(3) Methods for referring individuals between the one-stop operators and partners for appropriate services and activities;

(4) Methods to ensure that the needs of workers, youth, and individuals with barriers to employment, including individuals with disabilities, are addressed in providing access to services, including access to technology and materials that are available through the one-stop delivery system;

(5) The duration of the MOU and procedures for amending it; and

(6) Assurances that each MOU will be reviewed, and if substantial changes have occurred, renewed, not less than once every 3-year period to ensure appropriate funding and delivery of services.

(c) The MOU may contain any other provisions agreed to by the parties that are consistent with WIOA title I, the authorizing statutes and regulations of one-stop partner programs, and the WIOA regulations. (WIOA sec. 121(c).)

(d) When fully executed, the MOU must contain the signatures of the Local Board, one-stop partners, the chief elected official(s), and the time period in which the agreement is effective. The MOU must be updated not less than every 3 years to reflect any changes in the signatory official of the Board, one-stop partners, and chief elected officials, or one-stop infrastructure funding.

(e) If a one-stop partner appeal to the State regarding infrastructure costs, using the process described in § 463.750, results in a change to the one-stop partner's infrastructure cost contributions, the MOU must be updated to reflect the final one-stop partner infrastructure cost contributions.

§ 463.505 Is there a single Memorandum of Understanding for the local area, or must there be separate Memoranda of Understanding between the Local Board and each partner?

(a) A single ''umbrella'' MOU may be developed that addresses the issues relating to the local one-stop delivery system for the Local Board, chief elected official and all partners. Alternatively, the Local Board (with agreement of chief elected official) may enter into separate agreements between each partner or groups of partners.

(b) Under either approach, the requirements described in § 463.500 apply. Since funds are generally appropriated annually, the Local Board may negotiate financial agreements with each partner annually to update funding of services and operating costs of the system under the MOU.

§ 463.510 How should the Memorandum of Understanding be negotiated?

(a) WIOA emphasizes full and effective partnerships between Local Boards, chief elected officials, and one-stop partners. Local Boards and partners must enter into good-faith negotiations. Local Boards, chief elected officials, and one-stop partners may also request assistance from a State agency responsible for administering the partner program, the Governor, State Board, or other appropriate parties on other aspects of the MOU.

(b) Local Boards and one-stop partners must establish, in the MOU, a final plan for how the Local Board and programs will fund the infrastructure costs of the one-stop centers. If a final plan regarding infrastructure costs is not complete when other sections of the MOU are ready, an interim infrastructure cost plan may be included instead, as described in § 463.715(c).

Once the final infrastructure cost plan is approved, the Local Board and one-stop partners must amend the MOU to include the final plan for funding infrastructure costs of the one-stop centers, including a description of the funding mechanism established by the Governor relevant to the local area. Infrastructure cost funding is described in detail in subpart E of this part. (WIOA sec. 121(h)(2).)

(c) The Local Board must report to the State Board, Governor, and relevant State agency when MOU negotiations with one-stop partners have reached an impasse.

(1) The Local Board and partners must document the negotiations and efforts that have taken place in the MOU. The State Board, one-stop partner programs, and the Governor may consult with the appropriate Federal agencies to address impasse situations related to issues other than infrastructure funding after attempting to address the impasse. Impasses related to infrastructure cost funding must be resolved using the State infrastructure cost funding mechanism described in § 463.730.

(2) The Local Board must report failure to execute an MOU with a required partner to the Governor, State Board, and the State agency responsible for administering the partner's program. Additionally, if the State cannot assist the Local Board in resolving the impasse, the Governor or the State Board must report the failure to the Secretary of Labor and to the head of any other Federal agency with responsibility for oversight of a partner's program.

§ 463.600 Who may operate one-stop centers?

(a) One-stop operators may be a single entity (public, private, or nonprofit) or a consortium of entities. If the consortium of entities is one of one-stop partners, it must include a minimum of three of the one-stop partners described in § 463.400.

(b) The one-stop operator may operate one or more one-stop centers. There may be more than one one-stop operator in a local area.

(c) The types of entities that may be a one-stop operator include:

(1) An institution of higher education;

(2) An Employment Service State agency established under the Wagner-Peyser Act;

(3) A community-based organization, nonprofit organization, or workforce intermediary;

(4) A private for-profit entity;

(5) A government agency;

(6) A Local Board, with the approval of the chief local elected official and the Governor; or

(7) Another interested organization or entity, which is capable of carrying out the duties of the one-stop operator. Examples may include a local chamber of commerce or other business organization, or a labor organization.

(d) Elementary schools and secondary schools are not eligible as one-stop operators, except that a nontraditional public secondary school such as a night school, adult school, or an area career and technical education school may be selected.

(e) The State and Local Boards must ensure that, in carrying out WIOA programs and activities, one-stop operators:

(1) Disclose any potential conflicts of interest arising from the relationships of the operators with particular training service providers or other service providers (further discussed in § 679.430 of this chapter);

(2) Do not establish practices that create disincentives to providing services to individuals with barriers to employment who may require longer-term career and training services; and

(3) Comply with Federal regulations and procurement policies relating to the calculation and use of profits, including those at § 683.295 of this chapter, the Uniform Guidance at 2 CFR chapter II, and other applicable regulations and policies.

§ 463.605 How is the one-stop operator selected?

(a) Consistent with paragraphs (b) and (c) of this section, the Local Board must select the one-stop operator through a competitive process, as required by sec. 121(d)(2)(A) of WIOA, at least once every 4 years. A State may require, or a Local Board may choose to implement, a competitive selection process more than once every 4 years.

(b) In instances in which a State is conducting the competitive process described in paragraph (a) of this section, the State must follow the same policies and procedures it uses for procurement with non-Federal funds.

(c) All other non-Federal entities, including subrecipients of a State (such as local areas), must use a competitive process based on the principles of competitive procurement in the Uniform Administrative Guidance set out at 2 CFR 200.318 through 200.326.

(d) Entities described in paragraph (c) of this section must first determine the nature of the process to be used to comply with sec. 121(d)(2)(A) of WIOA. The acceptable processes are:

(1) Procurement by sealed bids;

(2) Procurement by competitive proposals; or

(3) Procurement by sole source, permitted only if:

(i) Analysis of market conditions and other factors lead to a determination that it is necessary to use sole-source procurement because:

(A) There is only one entity that could serve as an operator; or

(B) Unusual and compelling urgency will not permit a delay resulting from competitive solicitation; or

(ii) Results of the competition conducted under paragraphs (d)(1) or (2) of this section were determined to be inadequate.

(e) Entities must prepare written documentation explaining the determination concerning the nature of the competitive process to be followed in selecting a one-stop operator.

§ 463.610 How is sole source selection of one-stop operators accomplished?

(a) As set forth in § 463.605(d)(3), under certain conditions, sole source procurement is an allowable method of procurement.

(b) In the event that sole source procurement is determined necessary and reasonable, in accordance with § 463.605(d)(3), written documentation must be prepared and maintained concerning the entire process of making such a selection.

(c) Such sole source procurement must include appropriate conflict of interest policies and procedures. These policies and procedures must conform to the specifications in § 679.430 of this chapter for demonstrating internal controls and preventing conflict of interest.

(d) A Local Board can be selected as a one-stop operator through sole source procurement only with agreement of the chief elected official in the local area and the Governor. The Local Board must establish sufficient conflict of interest policies and procedures and they must be approved by the Governor.

§ 463.615 Can an entity serving as one-stop operator compete to be a one-stop operator under the procurement requirements of this subpart?

(a) Local Boards can compete for and be selected as one-stop operators, as long as appropriate firewalls and conflict of interest policies and procedures are in place. These policies and procedures must conform to the specifications in § 679.430 of this chapter for demonstrating internal controls and preventing conflict of interest.

(b) State and local agencies can compete for and be selected as one-stop operators by the Local Board, as long as appropriate firewalls and conflict of interest policies and procedures are in place. These policies and procedures

must conform to the specifications in § 679.430 of this chapter for demonstrating internal controls and preventing conflict of interest.

(c) In the case of single State areas where the State Board serves as the Local Board, the State agency is eligible to compete for and be selected as operator as long as appropriate firewalls and conflict of interest policies are in place and followed for the competition. These policies and procedures must conform to the specifications in § 679.430 of this chapter for demonstrating internal controls and preventing conflict of interest.

§ 463.620 What is the one-stop operator's role?

(a) At a minimum, the one-stop operator must coordinate the service delivery of required one-stop partners and service providers. Local Boards may establish additional roles of one-stop operator, including, but not limited to: Coordinating service providers within the center and across the one-stop system, being the primary provider of services within the center, providing some of the services within the center, or coordinating service delivery in a multi-center area. The competition for a one-stop operator must clearly articulate the role of the one-stop operator.

(b) A one-stop operator may not perform the following functions: Convene system stakeholders to assist in the development of the local plan; prepare and submit local plans (as required under sec. 107 of WIOA); be responsible for oversight of itself; manage or significantly participate in the competitive selection process for one-stop operators; select or terminate one-stop operators, career services, and youth providers; negotiate local performance accountability measures; and develop and submit budget for activities of the Local Board in the local area. An entity serving as a one-stop operator may perform some or all of these functions if it also serves in another capacity, if it has established sufficient firewalls and conflict of interest policies. The policies must conform to the specifications in § 679.430 of this chapter for demonstrating internal controls and preventing conflict of interest.

§ 463.625 Can a one-stop operator also be a service provider?

Yes, but there must be appropriate firewalls in place in regards to the competition, and subsequent oversight, monitoring, and evaluation of performance of the service provider. The operator cannot develop, manage or conduct the competition of a service provider in which it intends to compete. In cases where an operator is also a service provider, there must be firewalls and internal controls within the operator-service provider entity, as well as specific policies and procedures at the Local Board level regarding oversight, monitoring, and evaluation of performance of the service provider. The firewalls must conform to the specifications in § 679.430 of this chapter for demonstrating internal controls and preventing conflict of interest.

§ 463.630 Can State merit staff still work in a one-stop where the operator is not a governmental entity?

Yes. State merit staff can continue to perform functions and activities in the one-stop career center. The Local Board and one-stop operator must establish a system for management of merit staff in accordance with State policies and procedures. Continued use of State merit staff may be included in the competition for and final contract with the one-stop operator.

§ 463.635 What is the effective date of the provisions of this subpart?

(a) No later than June 30, 2017, one-stop operators selected under the competitive process described in this subpart must be in place and operating the one-stop.

(b) By June 30, 2016, every Local Board must demonstrate it is taking steps to prepare for competition of its one-stop operator. This demonstration may include, but is not limited to, market research, requests for information, and conducting a cost and price analysis.

§ 463.700 What are one-stop infrastructure costs?

(a) Infrastructure costs of one-stop centers are nonpersonnel costs that are necessary for the general operation of the one-stop center, including:

(1) Rental of the facilities;

(2) Utilities and maintenance;

(3) Equipment (including assessment-related products and assistive technology for individuals with disabilities); and

(4) Technology to facilitate access to the one-stop center, including technology used for the center's planning and outreach activities.

(b) Local Boards may consider common identifier costs as costs of one-stop infrastructure.

(c) Each entity that carries out a program or activities in a local one-stop center, described in §§ 463.400 through 463.410, must use a portion of the funds available for the program and activities to maintain the one-stop delivery system, including payment of the infrastructure costs of one-stop centers. These payments must be in accordance with this subpart; Federal cost principles, which require that all costs must be allowable, reasonable, necessary, and allocable to the program; and all other applicable legal requirements.

§ 463.705 What guidance must the Governor issue regarding one-stop infrastructure funding?

(a) The Governor, after consultation with chief elected officials, the State Board, and Local Boards, and consistent with guidance and policies provided by the State Board, must develop and issue guidance for use by local areas, specifically:

(1) Guidelines for State-administered one-stop partner programs for determining such programs' contributions to a one-stop delivery system, based on such programs' proportionate use of such system consistent with Office of Management and Budget Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards in 2 CFR part 200, including determining funding for the costs of infrastructure; and

(2) Guidance to assist Local Boards, chief elected officials, and one-stop partners in local areas in determining equitable and stable methods of funding the costs of infrastructure at one-stop centers based on proportionate benefits received, and consistent with Federal cost principles.

(b) The guidance must include:

(1) The appropriate roles of the one-stop partner programs in identifying one-stop infrastructure costs;

(2) Approaches to facilitate equitable and efficient cost allocation that results in a reasonable cost allocation methodology where infrastructure costs are charged to each partner in proportion to relative benefits received, consistent with Federal cost principles; and

(3) The timelines regarding notification to the Governor for not reaching local agreement and triggering the State-funded infrastructure mechanism described in § 463.730, and timelines for a one-stop partner to submit an appeal in the State-funded infrastructure mechanism.

§ 463.710 How are infrastructure costs funded?

Infrastructure costs are funded either through the local funding mechanism described in § 463.715 or through the State funding mechanism described in § 463.730.

§ 463.715 How are one-stop infrastructure costs funded in the local funding mechanism?

(a) In the local funding mechanism, the Local Board, chief elected officials, and one-stop partners agree to amounts and methods of calculating amounts each partner will contribute for one-stop infrastructure funding, include the infrastructure funding terms in the MOU, and sign the MOU. The local one-stop funding mechanism must meet all of the following requirements:

(1) The infrastructure costs are funded through cash and fairly evaluated in-kind partner contributions and include any funding from philanthropic organizations or other private entities, or through other alternative financing options, to provide a stable and equitable funding stream for ongoing one-stop delivery system operations;

(2) Contributions must be negotiated between one-stop partners, chief elected officials, and the Local Board and the amount to be contributed must be included in the MOU;

(3) The one-stop partner program's proportionate share of funding must be calculated in accordance with the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards in 2 CFR part 200 based upon a reasonable cost allocation methodology whereby infrastructure costs are charged to each partner in proportion to relative benefits received, and must be allowable, reasonable, necessary, and allocable;

(4) Partner shares must be periodically reviewed and reconciled against actual costs incurred, and adjusted to ensure that actual costs charged to any one-stop partners are proportionate and equitable to the benefit received by the one-stop partners and their respective programs or activities.

(b) In developing the section of the MOU on one-stop infrastructure funding fully described in § 463.755, the Local Board and chief elected officials will:

(1) Ensure that the one-stop partners adhere to the guidance identified in § 463.705 on one-stop delivery system infrastructure costs.

(2) Work with one-stop partners to achieve consensus and informally mediate any possible conflicts or disagreements among one-stop partners.

(3) Provide technical assistance to new one-stop partners and local grant recipients to ensure that those entities are informed and knowledgeable of the elements contained in the MOU and the one-stop infrastructure costs arrangement.

(c) The MOU may include an interim infrastructure funding agreement, including as much detail as the Local Board has negotiated with one-stop partners, if all other parts of the MOU have been negotiated, in order to allow the partner programs to operate in the one-stop centers. The interim infrastructure agreement must be finalized within 6 months of when the MOU is signed. If the infrastructure interim infrastructure agreement is not finalized within that timeframe, the Local Board must notify the Governor, as described in § 463.725.

§ 463.720 What funds are used to pay for infrastructure costs in the local one-stop infrastructure funding mechanism?

(a) In the local one-stop infrastructure funding mechanism, one-stop partner programs can determine what funds they will use to fund infrastructure costs. The use of these funds must be in accordance with the requirements in this subpart, and with the relevant partner's authorizing statutes and regulations, including, for example, prohibitions against supplanting non-Federal resources, statutory limitations on administrative costs, and all other applicable legal requirements. In the case of partners administering adult education and literacy programs authorized by title II of WIOA or the Carl D. Perkins Career and Technical Education Act of 2006, these funds may include Federal funds that are available for State administration of adult education and literacy programs authorized by title II of WIOA or for State administration of post-secondary level programs and activities under the Perkins Act, and non-Federal funds that the partners contribute to meet these programs' matching or maintenance of effort requirements. These funds also may include local administrative funds available to local entities or consortia of local entities that have been delegated authority to serve as one-stop local partners by a State eligible agency as permitted by §§ 463.415(b) and (e).

(b) There are no specific caps on the amount or percent of overall funding a one-stop partner may contribute to fund infrastructure costs under the local one-stop funding mechanism, except that contributions for administrative costs may not exceed the amount available for administrative costs under the authorizing statute of the partner program. However, amounts contributed for infrastructure costs must be allowable and based on proportionate use by or benefit to the partner program, taking into account the total cost of the one-stop infrastructure as well as alternate financing options, and must be consistent with 2 CFR chapter II, including the Federal cost principles.

§ 463.725 What happens if consensus on infrastructure funding is not reached at the local level between the Local Board, chief elected officials, and one-stop partners?

If, after July 1, 2016, and each subsequent July 1, the Local Board, chief elected officials, and one-stop partners do not reach consensus on methods of sufficiently funding local infrastructure through the local infrastructure cost funding mechanism, and include that consensus agreement in the signed MOU, then the Local Board must notify the Governor and the Governor must administer funding through the State one-stop funding mechanism, as described in § 463.730. (WIOA sec. 121(h)(2))

§ 463.730 What is the State one-stop infrastructure funding mechanism?

(a) In the State one-stop infrastructure funding mechanism, the Governor, after consultation with the chief elected officials, Local Boards, and the State Board, determines one-stop partner contributions, based upon a methodology where infrastructure costs are charged to each partner in proportion to relative benefits received and consistent with the partner program's authorizing laws and regulations, 2 CFR chapter II, including the Federal cost principles, and other applicable legal requirements described in § 463.735(a).

(b) The State Board develops an allocation formula to allocate funds to local areas to support the infrastructure costs for local area one-stop centers for all local areas that did not use the local funding mechanism, and the Governor uses that formula to allocate the funds. This is described in detail in § 463.745.

§ 463.735 How are partner contributions determined in the State one-stop funding mechanism?

(a) In the State one-stop funding mechanism, the Governor, after consultation with State and Local Boards and chief elected officials, will determine the amount each partner must contribute to assist in paying the infrastructure costs of one-stop centers. The Governor must calculate amounts based on the proportionate use of the one-stop centers by each partner, consistent with chapter II of title 2, Code of Federal Regulations (or any corresponding similar regulation or ruling), taking into account the costs of administration of the one-stop delivery system for purposes not related to one-stop centers for each partner such as costs associated with maintaining the Local Board, or information technology systems. The Governor will also take into account the statutory requirements for each partner program, all other

applicable legal requirements, and the partner program's ability to fulfill such requirements.

(b) In certain situations, the Governor does not determine the infrastructure cost contributions for one-stop partner programs.

(1) The Governor will not determine the contribution amounts for infrastructure funds for Native American grantees described in 20 CFR part 684. (WIOA sec. 121(h)(2)(D)(iii).) The appropriate portion of funds to be provided by Native American grantees to pay for one-stop infrastructure must be determined as part of the development of the MOU described in § 463.500 and specified in that MOU.

(2) In a State in which the State constitution or a State statute places policy-making authority that is independent of the authority of the Governor in an entity or official with respect to the funds provided for adult education and literacy activities, post-secondary career and technical education activities, or vocational rehabilitation services, the chief officer of that entity or the official must determine the contribution amounts for infrastructure funds in consultation with the Governor. (WIOA sec. 121(h)(2)(C)(ii).)

(c) *Limitations.* Per WIOA sec. 122(h)(2)(D), the amount established by the Governor under paragraph (a) of this section may not exceed the following caps:

(1) *WIOA Formula programs and employment service.* The portion of funds required to be contributed under the WIOA youth, adult, or dislocated worker programs, or under the Wagner-Peyser Act (29 U.S.C. 49 *et seq.*) must not exceed 3 percent of the amount of Federal funds provided to carry out that program in the State for a program year.

(2) *Other one-stop partners.* The portion of funds required to be contributed must not exceed 1.5 percent of the amount of Federal funds provided to carry out that education program or employment and training program in the State for a fiscal year. For purposes of Carl D. Perkins Career and Technical Education Act of 2006, the cap on contributions is determined based on the funds made available for State administration of post-secondary level programs and activities.

(3) *Vocational rehabilitation.* Within a State, the entity or entities administering the programs described in WIOA sec. 121(b)(1)(B)(iv) the allotment is based on the one State allotment, even in instances where that allotment is shared between two State agencies, and will not be required to provide from that program a cumulative portion that exceeds—

(i) 0.75 percent of the amount of Federal funds provided to carry out such program in the State for Fiscal Year 2016;

(ii) 1.0 percent of the amount provided to carry out such program in the State for Fiscal Year 2017;

(iii) 1.25 percent of the amount provided to carry out such program in the State for Fiscal Year 2018; and

(iv) 1.5 percent of the amount provided to carry out such program in the State for Fiscal Year 2019 and following years.

(4) *Federal direct spending programs.* For local areas that have not reached a one-stop infrastructure funding agreement by consensus, an entity administering a program funded with direct spending as defined in sec. 250(c)(8) of the Balanced Budget and Emergency Deficit Control Act of 1985, as in effect on February 15, 2014 (2 U.S.C. 900(c)(8)), must not be required to provide more for infrastructure costs than the amount that the Governor determined (as described in § 463.735(a)).

(d) If the above limitations result in funding less than each partner's proportionate share and contribute to inadequate funding of the allocation amount determined under § 463.745(b), the Governor may direct the Local Board, chief elected officials, and one-stop partners to reenter negotiations to reduce the infrastructure costs to reflect the amount of funds that are available for such costs, discuss proportionate share of each one-stop partner, or to identify alternative sources of financing for one-stop infrastructure funding, but, in any event, a partner will only be required to pay an amount that is consistent with the proportionate benefit received by the partner, the program's authorizing laws and regulations, the Federal cost principles, and other applicable legal requirements.

(1) The Local Board, chief elected officials, and one-stop partners, after renegotiation, may come to agreement and sign an MOU and proceed under the local one-stop funding mechanism.

(2) If after renegotiation, agreement amongst partners still cannot be reached or alternate financing identified, the Governor may adjust the specified allocation, in accordance with the amounts available and the limitations described in § 463.735(c).

§ 463.740 What funds are used to pay for infrastructure costs in the State one-stop infrastructure funding mechanism?

(a) In the State one-stop infrastructure funding mechanism, infrastructure costs for WIOA title I programs, including Native American Programs described in 20 CFR part 684, can be paid using program funds, administrative funds, or both. Infrastructure costs for the Senior Community Service Employment Program under title V of the Older Americans Act (42 U.S.C. 3056 *et seq.*) can also be paid using program funds, administrative funds, or both. (WIOA sec. 121(h)(2)(D)(i)(II).)

(b) In the State one-stop infrastructure funding mechanism, infrastructure costs for other required one-stop partner programs (listed in §§ 463.400 through 463.410) are limited to the program's administrative funds, as appropriate. (WIOA sec. 121(h)(2)(D)(i)(I).)

(c) In the State one-stop infrastructure funding mechanism, infrastructure costs for the adult education program authorized by title II of WIOA must be paid from the funds that are available for State administration or from non-Federal funds that the partner contributes to meet the program's matching or maintenance of effort requirement. Infrastructure costs for title II of WIOA may also be paid from funds available for local administration of programs and activities to eligible providers or consortia of eligible providers delegated responsibilities to act as a local one-stop partner pursuant to § 463.415(b).

(d) In the State one-stop infrastructure funding mechanism, infrastructure costs for the Carl D. Perkins Career and Technical Education Act of 2006 must be paid from the Federal funds that are available for State administration of post-secondary level programs and activities under the Perkins Act, or from non-Federal funds that the partner contributes to meet the program's matching or maintenance of effort requirement. Infrastructure costs for the Carl D. Perkins Career and Technical Education Act of 2006 may also be paid from funds available for local administration of post-secondary level programs and activities to eligible recipients or consortia of eligible recipients delegated responsibilities to act as a local one-stop partner pursuant to § 463.415(e).

§ 463.745 How is the allocation formula used by the Governor determined in the State one-stop funding mechanism?

(a) The State Board must develop an allocation formula to be used by the Governor to allocate funds to the local areas that did not successfully use the local funding mechanism. The allocation formula must take into account the number of one-stop centers in a local area, the population served by such centers, the services provided by

such centers, and other factors relating to the performance of such centers that the State Board determines are appropriate and that are consistent with Federal cost principles. (WIOA 121(h)(3)(B))

(b) Using the funds contributed by the one-stop partners described in § 463.735, the Governor will then use this formula to allocate funds to the local areas that did not use the local funding mechanism to fund one-stop center infrastructure costs, so long as that funding distribution is consistent with Federal cost principles for each of the affected one-stop partners.

§ 463.750 When and how can a one-stop partner appeal a one-stop infrastructure amount designated by the State under the State infrastructure funding mechanism?

(a) The Governor must establish a process, described under sec. 121(h)(2)(E) of WIOA, for a one-stop partner administering a program described in §§ 463.400 through 463.410 to appeal the Governor's determination regarding the one-stop partner's portion of funds to be provided for one-stop infrastructure costs. This appeal process must be described in the Unified State Plan. (WIOA secs. 121(h)(2)(E) and 102(b)(2)(D)(i)(IV).)

(b) The appeal may be made on the ground that the Governor's determination is inconsistent with proportionate share requirements in § 463.735(a), the cost contribution limitations in § 463.735(b), or the cost contribution caps in § 463.735(c).

(c) The process must ensure prompt resolution of the appeal in order to ensure the funds are distributed in a timely manner, consistent with the requirements of § 683.630 of this chapter.

(d) The one-stop partner must submit an appeal in accordance with State's deadlines for appeals specified in the guidance issued under § 463.705(b)(3), or if the State has not set a deadline, within 21 days from the Governor's determination.

§ 463.755 What are the required elements regarding infrastructure funding that must be included in the one-stop Memorandum of Understanding?

The MOU, fully described in § 463.500, must contain the following information whether the local areas use either the local one-stop or the State one-stop infrastructure funding method:

(a) The period of time in which this infrastructure funding agreement is effective. This may be a different time period than the duration of the MOU.

(b) Identification of an infrastructure and shared services budget that will be periodically reconciled against actual costs incurred and adjusted accordingly to ensure that it reflects a cost allocation methodology that demonstrates how infrastructure costs are charged to each partner in proportion to relative benefits received, and that complies with chapter II of title 2 of the Code of Federal Regulations (or any corresponding similar regulation or ruling).

(c) Identification of all one-stop partners, chief elected officials, and Local Board participating in the infrastructure funding arrangement.

(d) Steps the Local Board, chief elected officials, and one-stop partners used to reach consensus or an assurance that the local area followed the guidance for the State one-stop infrastructure funding process.

(e) Description of the process to be used between partners to resolve issues during the MOU duration period when consensus cannot be reached.

(f) Description of the periodic modification and review process to ensure equitable benefit among one-stop partners.

§ 463.760 How do one-stop partners jointly fund other shared costs under the Memorandum of Understanding?

(a) In addition to jointly funding infrastructure costs, one-stop partners listed in §§ 463.400 through 463.410 must use a portion of funds made available under their programs' authorizing Federal law (or fairly evaluated in-kind contributions) to pay the additional costs relating to the operation of the one-stop delivery system, which must include applicable career services.

(b) Additionally, one-stop partners may jointly fund shared services to the extent consistent with their programs' Federal authorizing statutes and other applicable legal requirements. Shared services' costs may include the costs of shared services that are authorized for and may be commonly provided through the one-stop partner programs to any individual, such as initial intake, assessment of needs, appraisal of basic skills, identification of appropriate services to meet such needs, referrals to other one-stop partners, and business services. Shared operating costs may also include shared costs of the Local Board's functions.

(c) These shared costs must be allocated according to the proportion of benefit received by each of the partners, consistent with the Federal law authorizing the partner's program, and consistent with all other applicable legal requirements, including Federal cost principles in chapter II of title 2 of the Code of Federal Regulations (or any corresponding similar regulation or ruling) requiring that costs are reasonable, necessary, and allocable.

(d) Any shared costs agreed upon by the one-stop partners must be included in the MOU.

§ 463.800 How are one-stop centers and one-stop delivery systems certified for effectiveness, physical and programmatic accessibility, and continuous improvement?

(a) The State Board, in consultation with chief elected officials and Local Boards, must establish objective criteria and procedures for Local Boards to use when certifying one-stop centers.

(1) The State Board must review and update the criteria every 2 years as part of the review and modification of State Plans pursuant to § 463.135.

(2) The criteria must be consistent with the Governor's and State Board's guidelines, guidance and policies on infrastructure funding decisions, described in § 463.705. The criteria must evaluate the one-stop centers and one-stop delivery system for effectiveness, including customer satisfaction, physical and programmatic accessibility, and continuous improvement.

(3) When the Local Board is the one-stop operator as described in § 679.410 of this chapter, the State Board must certify the one-stop center.

(b) Evaluations of effectiveness must include how well the one-stop center integrates available services for participants and businesses, meets the workforce development needs of participants and the employment needs of local employers, operates in a cost-efficient manner, coordinates services among the one-stop partner programs, and provides maximum access to partner program services even outside regular business hours. These evaluations must take into account feedback from one-stop customers. They must also include evaluations of how well the one-stop center ensures equal opportunity for individuals with disabilities to participate in or benefit from one-stop center services. These evaluations must include criteria evaluating how well the centers and delivery systems take actions to comply with the disability-related regulations implementing WIOA sec. 188, set forth at 29 CFR part 37. Such actions include, but are not limited to:

(1) Providing reasonable accommodations for individuals with disabilities;

(2) Making reasonable modifications to policies, practices, and procedures where necessary to avoid discrimination against persons with disabilities;

(3) Administering programs in the most integrated setting appropriate;

(4) Communicating with persons with disabilities as effectively as with others; and

(5) Providing appropriate auxiliary aids and services, including assistive technology devices and services, where necessary to afford individuals with disabilities an equal opportunity to participate in, and enjoy the benefits of, the program or activity.

(c) Evaluations of continuous improvement must include how well the one-stop center supports the achievement of the negotiated local levels of performance for the indicators of performance for the local area described in sec. 116(b)(2) of WIOA and 20 CFR part 677. Other continuous improvement factors may include a regular process for identifying and responding to technical assistance needs, a regular system of continuing professional staff development, and having systems in place to capture and respond to specific customer feedback.

(d) Local Boards must assess at least once every 3 years the effectiveness, physical and programmatic accessibility, and continuous improvement of one-stop centers and the one-stop delivery systems using the criteria and procedures developed by the State Board. The Local Board may establish additional criteria, or set higher standards for service coordination, than those set by the State criteria. Local Boards must review and update the criteria every 2 years as part of the Local Plan update process described in § 463.580. Local Boards must certify one-stop centers in order to be eligible to receive infrastructure funds in the State infrastructure funding mechanism described in § 463.730.

(e) All one-stop centers must comply with applicable physical accessibility requirements, as set forth in 29 CFR part 37.

§ 463.900 What is the common identifier to be used by each one-stop delivery system?

(a) The common one-stop delivery system identifier is ''American Job Center.''

(b) As of July 1, 2016, each one-stop delivery system must include the ''American Job Center'' identifier or ''a proud partner of the American Job Center network'' on all products, programs, activities, services, facilities, and related property and materials used in the one-stop system.

(c) One-stop partners, States or local areas may use additional identifiers on their products, programs, activities, services, facilities, and related property and materials.

Thomas E. Perez,

Secretary of Labor.

Arne Duncan,

Secretary of Education.

DEPARTMENT OF LABOR

Employment and Training Administration

20 CFR Parts 603, 651, 652, 653, 654, 658, 675, 679, 680, 681, 682, 683, 684, 685, 686, 687, and 688

[Docket No. ETA–2015–0001]

RIN 1205–AB73

Workforce Innovation and Opportunity Act; Notice of Proposed Rulemaking

AGENCY: Employment and Training Administration (ETA), Labor.

ACTION: Notice of Proposed Rulemaking (NPRM).

SUMMARY: The Department of Labor (DOL) is proposing, through rulemaking, to implement titles I and III of the Workforce Innovation and Opportunity Act of 2014 (WIOA). Through these regulations, the Department proposes to implement job training system reform and strengthen the workforce investment system of the nation to put Americans, particularly those individuals with barriers to employment, back to work and make the United States more competitive in the 21st Century. This proposed rule intends to provide guidance for statewide and local workforce investment systems that increase the employment, retention and earnings of participants, and increase occupational skill attainment by participants, and as a result, improve the quality of the workforce, reduce welfare dependency, and enhance the productivity and competitiveness of the nation.

DATES: To be ensured consideration, comments must be submitted in writing on or before June 15, 2015.

ADDRESSES: You may submit comments, identified by docket number ETA–2015–0001, for Regulatory Information Number (RIN) 1205–AB73, by one of the following methods:

Federal e-Rulemaking Portal: *http://www.regulations.gov*. Follow the Web site instructions for submitting comments.

Mail and hand delivery/courier: Written comments, disk, and CD–ROM submissions may be mailed to Adele Gagliardi, Administrator, Office of Policy Development and Research, U.S. Department of Labor, 200 Constitution Avenue NW., Room N–5641, Washington, DC 20210.

Instructions: Label all submissions with ''RIN 1205–AB73.''

Please submit your comments by only one method. Please be advised that the Department will post all comments received that related to this NPRM on *http://www.regulations.gov* without making any change to the comments or redacting any information. The *http://www.regulations.gov* Web site is the Federal e-rulemaking portal and all comments posted there are available and accessible to the public. Therefore, the Department recommends that commenters remove personal information such as Social Security Numbers (SSNs), personal addresses, telephone numbers, and email addresses included in their comments as such information may become easily available to the public via the *http://www.regulations.gov* Web site. It is the responsibility of the commenter to safeguard personal information.

Also, please note that due to security concerns, postal mail delivery in Washington, DC may be delayed. Therefore, the Department encourages the public to submit comments on *http://www.regulations.gov*.

Docket: All comments on this proposed rule will be available on the *http://www.regulations.gov* Web site and can be found using RIN 1205–AB73. The Department also will make all the comments it receives available for public inspection by appointment during normal business hours at the above address. If you need assistance to review the comments, the Department will provide appropriate aids such as readers or print magnifiers. The Department will make copies of this proposed rule available, upon request, in large print and electronic file on computer disk. To schedule an appointment to review the comments and/or obtain the proposed rule in an alternative format, contact the Office of Policy Development and Research (OPDR) at (202) 693–3700 (this is not a toll-free number). You may also contact this office at the address listed below.

Comments under the Paperwork Reduction Act (PRA): In addition to filing comments with ETA, persons wishing to comment on the information collection (IC) aspects of this rule may send comments to: Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for DOL–ETA, Office of Management and Budget, Room 10235, 725 17th Street NW., Washington, DC 20503, Fax: 202–395–6881 (this is not a toll-free number), email: *OIRA_submission@omb.eop.gov*.

FOR FURTHER INFORMATION CONTACT:
Adele Gagliardi, Administrator, Office of Policy Development and Research (OPDR), U.S. Department of Labor, Employment and Training Administration, 200 Constitution Avenue NW., Room N–5641, Washington, DC 20210, Telephone: (202) 693–3700 (voice) (this is not a toll-free number) or 1–800–326–2577 (TDD).

I. Executive Summary

On July 22, 2014, President Obama signed the Workforce Innovation and Opportunity Act (WIOA) (Pub. L. 113–128), comprehensive legislation that reforms and modernizes the public workforce system. It reaffirms the role of the public workforce system, and brings together and enhances several key employment, education, and training programs. WIOA provides resources, services, and leadership tools for the workforce system to help individuals find good jobs and stay employed and improves employer prospects for success in the global marketplace. It ensures that the workforce system operates as a comprehensive, integrated and streamlined system to provide pathways to prosperity for those it serves and continuously improves the quality and performance of its services.

The Department of Labor is publishing this NPRM to implement those provisions of WIOA that affect the core programs under titles I and III, and the Job Corps and national programs authorized under title I which will administered by the Department. In addition to this NPRM, the Departments of Education (ED) and Labor (DOL) are jointly publishing an NPRM to implement those provisions of WIOA that affect all of the WIOA core programs (titles I–IV) and which will have to be jointly overseen and administered by both Departments. Readers should note that there are a number of cross-references to the Joint NPRM published by ED and DOL, with particular focus on those provisions in the Joint NPRM that have to do with performance reporting among all the core programs. Finally, this NPRM has been structured so that the proposed Code of Federal Regulations (CFR) parts will align with the Joint NPRM CFR parts in once all of the proposed rules of have been finalized.

WIOA seeks to deliver a broad array of integrated services to individuals seeking jobs and skills training, as well as employers seeking skilled workers by improving the workforce system, more closely aligning it with regional economies and strengthening the network of about 2,500 one-stop centers. Customers must have access to a seamless system of high-quality services through coordination of programs, services and governance structures. The Act builds closer ties among key workforce partners—business leaders, workforce boards, labor unions, community colleges, non-profit organizations, youth-serving organizations, and State and local officials—in striving for a more job-driven approach to training and skills development.

WIOA will help job seekers and workers access employment, education, training, and support services to succeed in the labor market and match employers with the skilled workers they need to compete in the global economy. The purposes of WIOA described in the Act include:

- Increasing access to and opportunities for the employment, education, training, and support services that individuals need, particularly those with barriers to employment.
- Supporting the alignment of workforce investment, education, and economic development systems, in support of a comprehensive, accessible, and high-quality workforce development system.
- Improving the quality and labor market relevance of workforce investment, education, and economic development efforts.
- Promoting improvement in the structure and delivery of services.
- Increasing the prosperity of workers and employers.
- Providing workforce development activities that increase employment, retention, and earnings of participants and that increase post-secondary credential attainment and as a result, improve the quality of the workforce, reduce welfare dependency, increase economic self-sufficiency, meet skill requirements of employers, and enhance productivity, and competitiveness of the nation.

WIOA is complemented by the groundwork laid by the Administration-wide review of employment, education, and training programs to ensure Federal agencies do everything possible to prepare ready-to-work-Americans with ready-to-be-filled jobs. The review identified seven priorities for these Federal programs:

- Work up-front with employers to determine local or regional hiring needs and design training programs that are responsive to those needs;
- Offer work-based learning opportunities with employers—including on-the-job training, internships, and pre-apprenticeships and registered apprenticeships—as training paths to employment;
- Make better use of data to drive accountability, inform what programs are offered and what is taught, and offer user-friendly information for job seekers to choose what programs and pathways work for them and are likely to result in a job;
- Measure and evaluate employment and earnings outcomes;
- Promote a seamless progression from one educational stepping stone to another, and across work-based training and education, so individuals' efforts result in progress;
- Break down barriers to accessing job-driven training and hiring for any American who is willing to work, including access to supportive services and relevant guidance; and
- Create regional collaborations among American Job Centers, education institutions, labor, and nonprofits.

As WIOA implementation progresses, success in accomplishing the purposes of WIOA at the State, local, and regional levels, will be assessed by whether:

- One-stop centers are recognized as a valuable community resource and are known for high quality, comprehensive services for customers.
- The core programs and one-stop partners provide seamless, integrated customer service.
- Program performance, labor market and related data drive policy and strategic decisions and inform customer choice.
- Youth programs reconnect out-of-school youth (OSY) to education and jobs.
- Job seekers access quality career services either online or in a one-stop career center through a ''common front door'' that connects them to the right services.
- One-stop centers facilitate access to high quality, innovative education and training.
- Services to businesses are robust and effective, meeting businesses' workforce needs across the business lifecycle.

III. Background

A. Workforce Innovation and Opportunity Act Principles

On July 22, 2014, President Obama signed the WIOA, the first legislative reform of the public workforce system in more than 15 years, which passed Congress by a wide bipartisan majority. WIOA supersedes the Workforce Investment Act of 1998 (WIA) and amends the Adult Education and Family Literacy Act (AEFLA), the Wagner-Peyser Act, and the Rehabilitation Act of 1973. WIOA presents an extraordinary opportunity for the workforce system to accelerate its transformational efforts and demonstrate its ability to improve job and career options for our citizens through an integrated, job-driven public workforce system that links diverse talent to our nation's businesses. It supports the development of strong, vibrant regional economies where businesses thrive and people want to live and work.

WIOA reaffirms the role of the customer-focused one-stop delivery system, a cornerstone of the public workforce investment system, and enhances and increases coordination among several key employment, education, and training programs. Most provisions in WIOA take effect on July 1, 2015, the first full program year (PY) after enactment, although the new State plans and performance accountability system take effect July 1, 2016. Title IV, however, took effect upon enactment.

WIOA presents an extraordinary opportunity for the workforce system to accelerate its transformational efforts and demonstrate its ability to improve job and career options for our citizens through an integrated, job-driven public workforce system that links diverse talent to our nation's businesses. It supports the development of strong, vibrant regional economies where businesses thrive and people want to live and work.

WIOA is designed to help job seekers access employment, education, training, and support services to succeed in the labor market and to match employers with the skilled workers they need to compete in the global economy. WIOA has six main purposes: (1) Increasing access to and opportunities for the employment, education, training, and support services for individuals, particularly those with barriers to employment; (2) supporting the alignment of workforce investment, education, and economic development systems in support of a comprehensive, accessible, and high-quality workforce development system; (3) improving the quality and labor market relevance of workforce investment, education, and economic development efforts; (4) promoting improvement in the structure and delivery of services; (5) increasing the prosperity of workers and employers; and (6) providing workforce development activities that increase

employment, retention, and earnings of participants and that increase post-secondary credential attainment and as a result, improve the quality of the workforce, reduce welfare dependency, increase economic self-sufficiency, meet skill requirements of employers, and enhance productivity and competitiveness of the nation.

Beyond achieving the requirements of the new law, WIOA offers an opportunity to continue to modernize the workforce system, and achieve key hallmarks of a customer centered workforce system, where the needs of business and workers drive workforce solutions, where one-stop career centers and partners provide excellent customer service to job seekers and businesses, where the workforce system pursues continuous improvement through evaluation and data-driven policy, and where the workforce system supports strong regional economies.

Regulations and guidance implementing titles I and III are issued by DOL, with the exception of joint regulations that will be issued by DOL and ED on the provisions in title I relating to unified and combined planning, performance, and the one-stop delivery system. Regulations and guidance on implementing titles II and IV will be issued by ED.

WIOA retains much of the structure of WIA, but with critical changes to advance greater coordination and alignment. Under title I–A, each State will be required to develop a single, unified strategic plan that is applicable to four core workforce development programs. The core programs consist of (1) the adult, dislocated worker, and youth formula programs administered by the Department under title I of WIOA; (2) the Adult Education and Family Literacy program administered by ED under title II of WIOA; (3) the Wagner-Peyser Act employment services (ES) program administered by the Department, as amended by title III of WIOA; and (4) the vocational rehabilitation (VR) programs under title I of the Rehabilitation Act administered by ED, as amended by title IV of WIOA. In addition to core programs, WIOA provides States the opportunity to include other key one-stop partner programs such as the Supplemental Nutrition Assistance Program (SNAP), Unemployment Insurance (UI), Temporary Assistance for Needy Families (TANF), and Perkins Career Technical Education in a Combined State Plan. The law also includes a common performance accountability system applicable to all of the core programs.

The remainder of WIOA title I authorizes the adult, dislocated worker, and youth formula programs; the State and local workforce development (formerly investment) boards; the designation of regions and local areas; local plans; the one-stop system; national programs, including Job Corps, YouthBuild, Indian and Native American programs, and Migrant and Seasonal Farmworker (MSFW) programs; technical assistance and evaluations; and general administrative provisions currently authorized under title I of WIA. Title II retains and amends the Adult Education and Family Literacy Program currently authorized under title II of WIA. Title III contains amendments to the Wagner-Peyser Act relating to the ES and Workforce and Labor Market Information System (WLMIS), and requires the Secretary to establish a Workforce Information Advisory Council (WIAC). Title IV contains amendments to the Rehabilitation Act of 1973, which were also included under title IV of WIA; it also requires the Secretary of Labor to establish an Advisory Committee on Increasing Competitive Integrated Employment for Individuals with Disabilities. Finally, title V contains general provisions similar to the provisions applicable under title V of WIA as well as the effective dates and transition provisions.

Since the enactment of WIOA, the Department has used a variety of means to coordinate with other Federal agencies that have roles and responsibilities under the Act. The Department works closely with staff at ED and the Department of Health and Human Services (HHS) on all shared policy and implementation matters. Key areas of collaboration include the Unified State Plan, performance reporting, one-stop service delivery, and services to disconnected youth and to individuals with disabilities. WIOA created an opportunity to enhance coordination and collaboration across other Federal programs through the Combined State Plan and the Department meets with the other Federal agencies regarding those plans.

Before publishing the NPRM, the Department solicited broad input through a variety of mechanisms including:

- Issued Training and Employment Notice (TEN) No. 05–14 to notify the public workforce system that WIOA was enacted, accompanied by a statutory implementation timeline, a fact sheet that identified key reforms to the public workforce system, and a list of frequently asked questions.
- Issued TEN No. 06–14 to announce a series of webinars to engage WIOA stakeholders in implementation of WIOA.
- Issued TEN No. 12–14 to provide guidance to States and other recipients of funds under title I of WIA on the use and reporting of PY 2014 funds for planning and implementation activities associated with the transition to WIOA.
- Established a WIOA Resource Page (*www.doleta.gov/WIOA*) to provide updated information related to WIOA implementation to the public workforce system and stakeholders;
- Established a dedicated email address for the public workforce system and stakeholders to ask questions and offer ideas related to WIOA (*DOL.WIOA@dol.gov*);
- Conducted, in conjunction with ED and HHS outreach calls, webinars, and stakeholder and in-person town halls in each ETA region. The Department and its Federal partners hosted 10 town halls across the country, reaching over 2,000 system leaders and staff representing core programs and one-stop partners, employers, and performance staff. This included a town hall with Indian and Native American leaders and membership organizations serving Indians and Native Americans, Hawaiians, and Alaskan Natives as well as a formal consultation with members of the Native American Employment and Training Advisory Council to the Secretary of Labor.
- Conducted readiness assessments to implement WIOA in all States and 70 local workforce areas to inform technical assistance.

B. Major Changes From Current Workforce Investment Act of 1998

This section contains a summary of the major changes from the current WIA. As indicated above, WIOA retains much of the structure of WIA.

Major changes in WIOA are:

- *Aligns Federal investments to support job seekers and employers.* The Act provides for States to prepare a single Unified State Plan that identifies a 4-year strategy for achieving the strategic vision and goals of the State for preparing an educated and skilled workforce and for meeting the skilled workforce needs of employers. States govern the core programs as one system assessing strategic needs and aligning them with service strategies to ensure the workforce system meets employment and skill needs of all workers and employers.
- *Streamlines the governing bodies that establish State, regional and local workforce investment priorities.* WIOA makes State and Local Workforce

Development Boards more agile and well positioned to meet local and regional employers' workforce needs by reducing the size of the boards and assigning them additional responsibilities to assist in the achievement of the State and local strategic workforce vision and goals. The State Workforce Development Boards (State Boards) continue to have a majority of business representation and a business chair that work for all workers and jobseekers, including low-skilled adults, youth, and individuals with disabilities, while they foster innovation, and ensure streamlined operations and service delivery excellence.

- *Creates a common performance accountability system and information for job seekers and the public.* WIOA ensures that Federal investments in employment, education, and training programs are evidence-based and data-driven, and accountable to participants and the public. It establishes a performance accountability system that applies across the core programs, by generally applying six primary indicators of performance: entry into unsubsidized employment at two points in time, median earnings, attainment of post-secondary credentials, measurable skill gains, and effectiveness in serving employers.
- *Fosters regional collaboration to meet the needs of regional economies.* WIOA promotes alignment of workforce development programs with regional economic development strategies to meet the needs of local and regional employers.
- *Enhances access to high quality services through the network of one-stop system.* WIOA helps jobseekers and employers acquire the services they need in centers and online, clarifies the roles and responsibilities of the one-stop partner programs, adds the TANF program as a required one-stop partner unless the Governor objects, requires competitive selection of one-stop operators, and requires the use by the one-stop system of a common one-stop delivery identifier or brand that is to be developed by the Secretary of Labor.
- *Improves services to individuals with disabilities.* WIOA stresses physical and programmatic accessibility, including the use of accessible technology to increase individuals with disabilities' access to high quality workforce services.
- *Makes key investments for disconnected youth.* WIOA emphasizes services to disconnected youth to prepare them for successful employment by requiring that a minimum of 75 percent of youth formula program funds be used to help OSY, in contrast to the 30 percent required under WIA. WIOA increases OSYs' access to WIOA services, including pre-apprenticeship opportunities that result in registered apprenticeship. It adds a requirement that at least 20 percent of formula funds at the local level be used on work-based training activities such as summer jobs, on-the-job training (OJT), and apprenticeship.
- *Helps Employers Find Workers with the Necessary Skills.* WIOA contributes to economic growth and business expansion by ensuring the workforce system is job-driven—matching employers with skilled individuals. WIOA requires Local Boards to promote the use of industry and sector partnerships that include key stakeholders in an industry cluster or sector that work with public entities to identify and address the workforce needs of multiple employers.

Additionally, successful implementation of many of the approaches called for within WIOA, such as career pathways and sector strategies, require robust relationships across programs and with businesses, economic development, education and training institutions, including community colleges and career and technical education, local entities, and supportive services agencies.

C. Rule Format

The NPRM format reflects the Department's commitment to writing regulations that are reader-friendly. The Department has attempted to make this NPRM clear and easy to understand. To this end, the regulatory text is presented in a ''question and answer'' format and organized consistent with the Act. While the Department has provided cross-references to the statute(s), the Department also has included the Act's provisions in the answers for completeness.

While the Department has anticipated many issues that may arise and provided appropriate directions, there are many other areas where the Department continues to weigh options. Thus, the Department raises questions throughout the preamble where the Department seeks additional information or where the Department is weighing options and seek comments.

D. Legal Basis

On July 22, 2014, the President signed the Workforce Innovation Opportunity Act (WIOA) (Pub. L. 113–128) into law. WIOA repeals WIA (29 U.S.C. 2801 *et seq.*). As a result, the WIA regulations no longer reflect current law. Section 503(f) of WIOA requires that the Department issue an NPRM and then a final rule that implements the changes WIOA makes to the public workforce system in regulations. Therefore, DOL seeks to develop and issue a NPRM that proposes to implement WIOA. The Department of Labor will issue regulations regarding the Section 188 Nondiscrimination provisions through separate rulemaking.

IV. Section-by-Section Discussion of Proposal

A. Part 603—Federal-State Unemployment Compensation Program Disclosure of Confidential Unemployment Compensation Information Under WIOA Sec. 116

Relationship Between 20 CFR Part 603 and WIOA

The Department is amending its regulations at 20 CFR part 603 to help States comply with the WIOA. WIOA requires that States use ''quarterly wage records'' in assessing the performance of certain Federally-funded employment and training programs.

States must make available performance reports for local areas and for eligible training providers (ETPs) under title I of the WIOA. WIOA also requires that States cooperate in evaluations, by the Departments of Labor and Education, of State programs overseen by those Federal agencies.

To help States comply with these requirements, the Department has determined that it would be useful to more clearly and specifically, describe in unemployment compensation (UC) confidentiality regulations, the standards for disclosure between the State UC, workforce, and education systems. This proposal amends current regulations to clarify, in a limited fashion, those State government officials with whom the State may share certain confidential information in order to carry out requirements under the law. The regulations enumerate certain additional public officials who may access confidential State wage records that are the basis for the State's performance reporting. Ensuring such access to these State records would allow State agencies to better manage the information for the purpose of making Federally-required reports on certain program outcomes, and to cooperate more effectively and be more informative with respect to Federal program evaluations.

WIOA section (sec.) 116(i)(2) and proposed regulation § 677.175 (a) require State workforce, training, and education programs to use quarterly wage records to measure the progress of

the State on State and local performance accountability measures. Under WIA, the Department interpreted the reference to ''quarterly wage records'' in sec. 136(f)(2) to require States to use the confidential UC information in the employer-provided wage reports collected under sec. 1137 of the Social Security Act (SSA), 42 U.S.C. 1320b–7. (See 20 CFR 677.175.) These are the reports that the State UC agency obtains from employers for determining UC tax liability, monetary eligibility, or for cross-matching against State UC agencies' files to determine if improper payments have been made. The Department adheres to this interpretation in implementing WIOA sec. 116(i)(2).

The ''wage information'' defined in § 603.2(k)—which the regulations allow State agencies to disclose under limited circumstances—includes the three data categories or elements (wages, SSN(s), employer information) that States must use as their data source for State and local performance reporting under WIOA. The proposed WIOA implementing regulation at 20 CFR 677.175 (b) defines ''quarterly wage record information'' to include three data elements or categories of data elements: (1) A program participant's SSN(s); (2) information about the wages program participants earn after exiting from the program; and (3) the name, address, State and (when known) the Federal Employer Identification Number (FEIN) of the employer paying those wages. The disclosure of such wage record data is governed by UC part 603 regulations, which establish requirements for maintaining the confidentiality of UC information along with standards for mandatory and permissive disclosure of such information.

Part 603 permits State agencies to disclose confidential UC information—including ''wage information''—to ''public officials'' (defined at § 603.2(d)) under limited circumstances (defined under § 603.5), and authorizes such ''public officials,'' in turn, to use the information to develop Federally-required performance reports.

As explained in greater detail below, the Department proposes changes to § 603.2 (definition of ''public official'') and § 603.5 (governing disclosures to public officials), to help States comply with WIOA's performance requirements, including the performance reports of the States, local areas, and ETPs. In addition, the Department proposes to amend § 603.6 to add a provision requiring disclosure to implement the new statutory requirement on State cooperation with certain DOL and ED evaluations. These changes would facilitate States' obligations to report on performance through the use of quarterly wage records, and to cooperate in DOL and ED evaluations.

The amendments the Department is proposing to part 603 relate only to State agency disclosures necessary to comply with certain provisions of WIOA. The Department is not proposing to redefine or expand the confidential State information—the confidential wage records or wage information—that is currently the basis for State performance reporting, and is not proposing to reduce in any way the significant privacy protections and confidentiality requirements that currently govern that information. The Department is not proposing to change any requirements relating to the permissible or mandatory disclosure of confidential UC information for any other purpose, or addressing any general UC issues. We note, in particular, that nothing in these proposed regulations exempts disclosures made under these regulations from the safeguards and security requirements in § 603.9, the requirements in § 603.10 governing agreements, or the requirements for payment of costs under § 603.8(a).

The Department invites comments on our proposed additions to part 603, but will not consider or address comments on part 603 or other UC matters that are outside the scope of this NPRM.

Section 603.2(d)(2)–(5)

Proposed §§ 603.2(d)(2)–(5) expand the definition of who and what entities are considered ''public officials'' for purposes of complying with WIOA's requirements. Currently, § 603.2(d) defines ''public official'' as ''an official, agency, or public entity'' in the executive branch of government with ''responsibility for administering or enforcing a law,'' or ''an elected official in the Federal, State or local government.'' Proposed § 603.5(e) allows disclosure to public officials who need the information to carry out their official duties. This exception allows State agencies that collect ''wage information'' (including the data required for performance reporting under WIOA sec. 677.175) to provide that information to the State agencies responsible for administering and reporting on the WIOA core programs and mandatory one-stop partner programs. For example, State UC agencies, which are governed by part 603, may disclose confidential UC information to the State adult basic education agency for purposes of performing their official duties, as used in § 603.5(e).

The proposed amendments to § 603.2(d) would clearly enumerate that ''public official'' includes officials from public post-secondary educational organizations, State performance accountability and customer information agencies, the chief elected officials (CEOs) of local Workforce Development Areas (as that term is used in WIOA sec. 106), and a public State educational authority, agency, or institution. Proposed § 603.2(d)(2) would permit disclosure to public post-secondary educational institutions, regardless of how those institutions are structured or organized under State law. The regulation, as proposed, specifically mentions three categories of institutions. Proposed § 603.2(d)(2)(i) would permit disclosure to public post-secondary educational institutions that are part of a State's executive branch, *i.e.,* derive their authority either directly from the Governor or from an entity (State Board, commission, etc.) somewhere in that line of authority. Proposed § 603.2(d)(2)(ii) would permit disclosure to public post-secondary educational institutions that are independent of the State's executive branch, which means those institutions whose directors derive their authority either directly from an elected official in the State other than the Governor or from an entity (again, a State Board, commission, or other entity) in that line of authority. Proposed § 603.2(d)(2)(ii) covers any public post-secondary educational institution established and governed under State law, for example, a State Board of Regents. Proposed § 603.2(d)(2)(iii) would allow disclosure specifically to State technical colleges and community colleges. (Those institutions may also be covered under (i) or (ii))

Proposed § 603.2(d)(5) permits disclosure to a public State educational authority, agency or institution'' as the terms are used in the Family Educational Rights and Privacy Act (FERPA) to clarify that the Department considers the heads of public institutions that derive their authority from a State educational authority or agency to be ''public officials'' for purposes of part 603.

The Department proposes these changes to help States comply with WIOA's requirement to use wage records to measure performance (WIOA sec. 116(i)(2)) and to facilitate the performance reporting required for ETPs under secs. 116(d) and 122 of WIOA. WIOA mandates the use of wage records to measure State and local performance. As long as the recipients of the data adhere to all of the requirements in 20 CFR part 603, this proposed section

would permit States to make these disclosures to comply with WIOA requirements for Federal, State, or local government reporting on program outcomes and for other specified purposes.

Non-public educational institutions, including non-profit or for-profit educational institutions or other ETPs which are not subject to the authority of the executive branch or another State elected official would not be permitted to obtain confidential UC information, including wage information, under this authority because they are not public entities. Any disclosures of confidential UC information to those entities for purposes of complying with WIOA would have to be authorized under the provisions of § 603.5 other than § 603.5(e). However, it is permissible and encouraged to develop processes or systems, such as the Wage Record Interchange System, to enable a State agency or State educational authority (including a State Education Agency) that collects wage records to match program participant data with wage records, and to provide aggregate participant outcome data to non-governmental educational entities, including ETPs under title I of WIOA.

Section 603.5(e)

Proposed § 603.5(e), as amended, would assist State workforce and State education programs in complying with WIOA, and in particular with WIOA's sec. 116 performance accountability responsibilities, by explicitly stating that confidential UC information may be disclosed to a ''public official'' as defined in § 603.2(d)(2) for limited, specified WIOA purposes.

Proposed § 603.5(e), as amended, in conjunction with the revised definition of ''public official'' under 603.2(d)(2), would enable State UC agencies to disclose confidential UC information to State and local agencies and other public officials authorized to carry out their responsibilities under WIOA for performance accountability, including audits and evaluations of the programs and other required reporting of outcomes, as described in proposed § 603.2(d)(2). To enable States to comply with WIOA, State UI agencies, or other State agencies responsible for collection of wage record information, must collaborate with the entities under WIOA that are required to use wage record data for performance to make the data available pursuant to part 603.

The Department notes that the proposed amendment to § 603.5(e) would permit disclosure to a public official for purposes of performance accountability of the entities on the State's eligible training provider list (ETPL). In addition, disclosure of confidential UC information for other programs' performance accountability purposes (*e.g.,* TANF or SNAP) may be accomplished under existing § 603.5, as these entities are public officials and are performing their public duty, as defined in this section.

A new clause (iii) under proposed § 603.5(e) would permit disclosures ''as otherwise required for education or workforce training program performance accountability and reporting under Federal or State law.'' The Department intends that this provision apply only in the limited instance where a Federal or State law requires performance reporting for which data covered by part 603 is needed in a way that is not covered by the other WIOA-specific provisions. In those instances, this provision would permit a State agency to disclose confidential UC information to a ''public official'' seeking the information to comply with that statute.

Section 603.6(8)

Proposed § 603.6(8) makes the disclosure of confidential UC information for certain Federal evaluations mandatory when the disclosure would not interfere with the efficient administration of State UC law. The Department proposes this change to § 603.6 to implement the requirement, under WIOA sec. 116(e)(4), that States cooperate, ''to the extent practicable,'' in the conduct of evaluations by either the Secretary of Labor or the Secretary of Education. WIOA sec. 116(e)(4) defines cooperation to include ''the provision of data (in accordance with appropriate privacy protections established by the Secretary of Labor)''; this includes 20 CFR part 603 and any other privacy protections the Secretary may establish. The proposed new regulation at § 603.6(8) would implement these requirements for purposes of providing confidential UC information regulated by part 603. The new regulation would require disclosure of confidential UC information to Federal officials, or their agents or contractors, requesting such information in the course of an evaluation covered by WIOA § 116(e)(4) and 116(e)(1), to the extent that such disclosure is ''practicable.''

In these cases, the Department interprets ''to the extent practicable'' to mean that the disclosure would not interfere with the efficient administration of State UC law. This standard is consistent with the standard the regulation applies to disclosures under § 603.5, in situations where the disclosure is permitted but a State must determine, first, that the disclosure would not interfere with the efficient administration of State UC law. In effect, the proposed provision would require that State UC agencies make disclosures to Federal education and labor agencies carrying out evaluations when it would not interfere with the efficient administration of the State UC law. The Department anticipates this cooperation and related disclosures would include responding to surveys and allowing site visits, as well as disclosure of confidential UC information needed for the evaluation.

B. Part 675—Introduction to the Regulations for the Workforce Innovation and Opportunity Systems Under Title I of the Workforce Innovation and Opportunity Act

Proposed part 675 discusses the purpose of title I of the WIOA, explains the format of the regulations governing title I, and provides additional definitions which are not found and defined in the Act.

Proposed § 675.100 describes the purposes of title I of WIOA.

Proposed § 675.200 outlines the structure of the proposed WIOA regulations.

Proposed § 675.300 provides a list of proposed definitions that are applicable across the WIOA regulations.

In addition to the definitions in the WIOA regulations and at secs. 3, 142, 166(b), 167(i), 170(a), 171(b), 203, 302, and 404 of WIOA, proposed § 675.300 provides additional definitions that apply to the programs and activities authorized and funded under title I of WIOA.

Included in this list of definitions, the Department proposes to adopt the following relevant definitions from the Office of Management and Budget's (OMB) ''Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards'' found at 2 CFR part 200: Contract, Contractor, Cooperative Agreement, Federal Award, Federal Financial Assistance, Grant Agreement, Non-Federal Entity, Obligations, Pass-Through Entity, Recipient, Subaward, Subrecipient, Unliquidated Obligations, and Unobligated Balance. All other definitions at 2 CFR part 200 apply to these regulations where relevant, but have not been included in this section.

Contract: The proposed definition for ''contract'' incorporates the definition established by OMB at 2 CFR 200.22. Specifically, the proposed term ''contract'' refers to the legal document that a non-Federal entity uses to purchase property or services used to carry out its duties under a grant authorized under WIOA. If the

Department determines that a particular transaction entered into by the entity is a Federal award or subaward it will not be considered a contract.

Contractor: The proposed definition of ''contractor'' incorporates the definition contained in OMB's Uniform Guidance at 2 CFR 200.23. The Uniform Guidance has replaced the term ''vendor'' with the term ''contractor.'' As used in these regulations, the term ''contractor'' includes entities that the Act refers to as ''vendors.'' Additionally, it is important to note that contractors are not subrecipients. Additional guidance on distinguishing between a contractor and a subrecipient can be found at 2 CFR 200.330.

Cooperative Agreement: The proposed definition of ''cooperative agreement'' incorporates the definition contained in the Uniform Guidance at 2 CFR 200.24.

Department or DOL: This proposed term refers to the United States DOL, its agencies, and organizational units.

Employment and Training Activity: As used in these regulations, the proposed term ''employment and training activity'' refers to any workforce investment activities carried out for an adult or dislocated worker under sec. 134 of WIOA and 20 CFR part 678.

Equal Opportunity (EO) Data: This proposed term refers to the data required by the Department's regulations at 29 CFR part 37 implementing sec. 188 of WIOA.

ETA: This proposed term refers to the ETA, an agency of DOL, or its successor organization.

Federal Award: This proposed definition incorporates the definition in the Uniform Guidance at 2 CFR 200.38.

Federal Financial Assistance: The proposed definition of ''Federal financial assistance'' incorporates the definition contained in the Uniform Guidance at 2 CFR 200.40.

Grant or Grant Agreement: The proposed definition of ''grant agreement'' incorporates the definition contained in the Uniform Guidance at 2 CFR 200.51. Because both WIOA and these regulations use ''grant'' and ''grant agreement'' interchangabily, the inclusion of both terms here clarifies that the terms are synonymous.

Grantee: The proposed definition of ''grantee'' refers to a recipient of funds under a grant or grant agreement. Grantees are also referred to as recipients in these regulations.

Individual with a Disability: This proposed definition adopts the definition from sec. 3 of the Americans with Disabilities Act, as amended, and is further defined at 29 CFR 37.4.

Labor Federation: This proposed definition remains unchanged from the definition used in the regulations under WIA at 20 CFR 660.300.

Literacy: The proposed definition for ''literacy'' as used in these regulations is a measure of an individual's ability to participate and successfully function both in the workplace and in society.

Local Board: This proposed definition clarifies that the term ''Local Board'' as used in these regulations refers to the Local Workforce Development Boards established under sec. 107 of WIOA.

Non-Federal Entity: The proposed definition of ''non-Federal entity'' incorporates the definition contained in the Department's Exceptions to the Uniform Guidance at 2 CFR 2900.2.

Obligations: The definition of ''obligations'' incorporates the definition contained in the Uniform Guidance at 2 CFR 200.71.

Outlying Area: The proposed term ''outlying area'' refers to those Territories of the United States which are not within the definition of ''State,'' including the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and, in certain circumstances, the Republic of Palau.

Pass-through entity: The proposed definition of pass-through entity incorporates the definition in the Uniform Guidance at 2 CFR 200.74.

Recipient: The proposed definition of ''recipient,'' which is different than the current definition of recipient under WIA at 20 CFR 660.300, incorporates the definition in the Uniform Guidance at 2 CFR 200.86.

Register: The proposed definition of ''register'' means the point at which an individual seeks more than minimal assistance from staff in taking the next step towards self-sufficient employment. This is also when information that is used in performance information begins to be collected. At a minimum, individuals must provide identifying information to be registered.

Secretary: This proposed term refers to the Secretary of the U.S. DOL, or their officially delegated designees.

Secretaries: This proposed term refers to the Secretaries of the U.S. DOL and the U.S. ED, or their officially designated designees.

Self-Certification: The proposed term ''self-certification'' refers to the certification made by an individual that they are eligible to receive services under title I of WIOA.

State: The proposed term ''State'' refers to each of the several States of the United States, the District of Columbia, and the Commonwealth of Puerto Rico.

State Board: This proposed definition clarifies that the term ''State Board'' as used in these regulations refers to the State Boards established under sec. 101 of WIOA

Subgrant or Subaward: This proposed term incorporates the definition of ''subaward'' in the Uniform Guidance at 2 CFR 200.92. This term replaces the term ''subgrant'' found in WIA at 20 CFR 660.300. Because both WIOA and these regulations use ''subgrant'' and ''subaward'' interchangeably, the inclusion of both terms here clarifies that the terms are synonymous.

Subrecipient: The proposed definition of ''subrecipient'' incorporates the definition in the Uniform Guidance at 2 CFR 200.93. This term is synonymous with the term ''subgrantee.''

Unliquidated Obligations: The proposed definition of ''unliquidated obligations'' incorporates the definition contained in the Uniform Guidance at 2 CFR 200.97.

Unobligated Balance: The proposed definition of ''unobligated balance'' incorporates the definition in the Uniform Guidance at 2 CFR 200.98.

Wagner-Peyser Act: As used in these regulations, the proposed term ''Wagner-Peyser Act'' refers to the Wagner-Peyser Act passed on June 6, 1933, and codified at 29 U.S.C. 49, *et seq.*

WIA Regulations: The proposed term ''WIA Regulations'' as used in this regulation or subsequently by the Department refers to the regulations 20 CFR parts 660–672. This definition is necessary because, as described in the introduction to these regulations, the Department has chosen to retain the WIA regulations at parts 660–672 of title 20 of the CFR.

WIOA Regulations: This proposed term, as used in this regulation or generally by the Department means those regulations in 20 CFR parts 675 through 687, the Wagner-Peyser Act regulations in 20 CFR part 652, subpart C, and the regulations implementing WIOA sec. 188 in 29 CFR part 37.

Workforce Investment Activities: The proposed term ''workforce investment activities'' is a general term that describes the broad array of activities and services provided to eligible adults, dislocated workers, and youth under secs. 129 and 134 of title I of WIOA.

Youth Workforce Investment Activity: The proposed term ''youth workforce investment activity'' refers to those activities carried out for eligible youth that fall within the broad definition of ''workforce investment activity.''

C. Part 679—Statewide and Local Governance of the Workforce Innovation and Opportunity System Under Title I of the Workforce Innovation and Opportunity Act

1. Subpart A—State Workforce Development Board

This subpart A sets forth the conditions under which the Governor must establish the State Board.

Proposed §§ 679.100(a)–(e) explain the purpose of the State Board. The State Board represents a wide variety of individuals, businesses, and organizations throughout the State. WIOA is designed to help job seekers and workers access employment, education, training, and support services needed to succeed in the labor market, and match employers with the skilled workers needed to compete in the global economy. Further, the Department envisions a State Board that takes leadership to ensure that the one-stop system in each State is customer driven. The State Board can help lead this effort by aligning Federal investments in job training, integrating service delivery across programs, and ensuring that the workforce system is job-driven and matches employers with skilled individuals.

The Department envisions that the State Board will serve as a convener of State, regional, and local workforce system partners to enhance the capacity and performance of the workforce development system; align and improve employment, training, and education programs, and through these efforts, promote economic growth.

The State Board must be a strategic convener that promotes partnerships and engages key stakeholders. This role can only be accomplished if each State Board member is an active participant in the business of the board. State Board members must establish a platform in which all members actively participate and collaborate closely with the required partners of the workforce development system, including public and private organizations. This engagement is crucial in the State Board's role to help integrate and align a more effective job-driven workforce investment system that invests in the connection between education and career preparation.

Section 679.100 What is the vision and purpose of the State Board?

A key goal of Federally-funded training programs is to get more Americans ready to work with marketable skills and support businesses to find workers with the skills that are needed. The role of the State Board in achieving this goal includes engaging employers, education providers, economic development, and other stakeholders to help the workforce development system achieve the purpose of WIOA and the State's strategic and operational vision and goals outlined in the State Plan. The Department encourages the State Board to develop a comprehensive and high-quality workforce development system by working with its workforce, education, business, and other partners to improve and align employment, training, and education programs under WIOA.

The Department encourages the State to take a broad and strategic view when considering representatives of the State Board, and also in establishing processes which it will use to include necessary perspectives in carrying out State Board functions. For example, alignment of required one-stop partner investments is essential to achieving strategic and programmatic alignment at the State, regional, and local level. Further, States are encouraged to examine factors like the natural bounds of regional economies, commuting patterns, and how economic sectors impact the State, which may benefit from inputs either from formal members of the board, or through other engagement. Further, a broad geographic representation as well as a reflection of diversity of populations within the State is critical.

Section 679.110 What is the State Workforce Development Board?

Proposed § 679.110 describes the membership requirements of the State Board. WIOA sec. 101(b) uses the terms ''representative'' and ''representatives'' in several places. In this section the Department interprets ''representatives'' to mean two or more individuals and ''representative'' as one individual.

Proposed § 679.110(a) explains that States must establish State Boards in accordance to the requirements of WIOA sec. 101 and these regulations. This proposed section retains the same requirements found at 20 CFR 661.200(a).

Proposed § 679.110(b) generally requires, in accordance with sec. 101(b)(2) of WIOA, that the State Board membership represent the diverse geographic areas of the State. Employers' and workers' challenges and needs differ among the urban, rural, and suburban areas of the States due to demographics, labor market information and conditions, and business and worker needs and access to the workforce development system. Accordingly, the Department strongly encourages that each category of membership on the Board—the members of the State legislature, business representative, workforce and labor representatives, and State and local officials—represent the diverse geographic areas of the State to ensure that the workforce development system meets the education, employment, and skill needs of workers, jobseekers, and businesses, no matter their location in the State.

Proposed § 679.110(b)(1) and (2) implement secs. 101(1)(A) and (B) of WIOA by requiring that the board include the Governor of the State and one member of each chamber of the State legislature.

Proposed § 679.110(b)(3)(i)(A) through (C), implementing sec. 101(b)(1)(C)(i) of WIOA, require the majority of State Board representatives to be from businesses or organizations in the State. These representatives must either be the owner or chief executive of the business or be an executive with optimum policy-making or hiring authority as defined in proposed § 679.120. These representatives must also come from businesses or organizations that represent businesses which provide employment and training opportunities that include high-quality, work-relevant training, and development opportunities in in-demand industry sectors or occupations. Work-relevant and development opportunities may include customized training, registered apprenticeship, or OJT. Finally, the Governor must appoint these members based on nominations from business organizations and trade associations in the State. The Department envisions that these members will be individuals that will be able to drive the board to align the workforce investment, education, and economic development systems in support of a comprehensive, accessible, and high-quality workforce development system.

Proposed § 679.110(b)(3)(i)(D) requires, at a minimum, that one member of the State Board represent small business as defined by the U.S. Small Business Administration. Small businesses are a critical component of and major contributor to the strength of local economies and present new employment opportunities. The Department proposes to require a small business representative because the presence of at least one small business representative on the State Board will allow the board as a whole to more readily receive the unique perspectives, experiences, and needs of small businesses.

Proposed § 679.110(b)(3)(ii)(A) through (D) require that not less than 20

percent of the members of the State Board be representatives of the workforce. Such representatives must include representatives from labor organizations and registered apprenticeship programs within the State, in accordance with sec. 101(b)(1)(ii). This provision maintains WIA's emphasis and requirement that State Board representatives include members of the workforce and labor organizations. The Department anticipates that the inclusion of workforce and labor representatives will foster cooperation between labor and management, strengthening the operation and effectiveness of the State workforce development system. This proposed section also encourages representation from CBOs that have demonstrated experience and expertise, as defined in proposed § 679.120, in addressing the employment, training, or education needs of individuals with barriers to employment across the State including organizations that serve veterans or that provide or support competitive, integrated employment for individuals with disabilities, and organizations that have demonstrated experience and expertise in addressing the employment, training, or education needs of eligible youth, including organizations that serve OSY.

Proposed § 679.110(b)(3)(iii)(A)(*1*) and (*2*), implementing WIOA sec. 101(b)(1)(iii)(I), require the Governor to appoint to the State Board representatives of government that include the lead State officials with primary responsibility for each of the core programs and two or more CEOs that represent both cities and counties, where appropriate. The inclusion of State officials with primary responsibility for each of the core programs and CEOs on the State Board is important so that they can support and improve the service delivery of each core program through their experience in workforce investment activities and positions as public leaders. This provision also requires that where the State official with primary responsibility for a core program represents more than one core program, that official must ensure adequate representation on the State Board of the needs of all the core programs under their jurisdiction. Additionally, the CEOs must be able to represent their geographic area such as their surrounding cities and counties in the area.

Proposed § 679.110(b)(3)(iii)(B), in accordance with WIOA sec. 101(b)(1)(C)(iii)(II), allows the Governor to designate other representatives and officials to the Board, including but not limited to, representatives and officials such as State agency officials from agencies that are responsible for one-stop partners, State agency officials responsible for economic development or juvenile justice programs, individuals who represent an Indian tribe or tribal organizations, and State agency officials responsible for education programs.

Proposed § 679.110(c), implementing sec. 101(c) of WIOA, requires the Governor to select a chairperson for the State Board from the business representatives on the board. This proposed section retains the same requirements found at 20 CFR 661.200(g).

Proposed § 679.110(d) requires the Governor to establish by-laws that help improve operations of the State Board. Proposed § 679.110(d)(1) through (7) require that at a minimum the by-laws address the nomination process used by the Governor to select the State Board chair and members, term limitations and how the term appointments will be staggered to ensure only a portion of memberships expire in a given year, the process to notify the Governor of a board member vacancy to ensure a prompt nominee, the proxy and alternative designee process that will be used when a board member is unable to attend a meeting and assigns a designee, brokers relationships with stakeholders, and any other conditions governing appointment or membership on the State Board as deemed appropriate by the Governor. In addition to these required elements, the Governor must include any additional requirements in the board's by-laws that he or she believes is necessary to ensure the orderly administration and functioning of the board. An effective State Board establishes clear roles, responsibilities, procedures, and expectations through its by-laws, and that these requirements will help State Boards to be more agile and proactive in reacting to board turnover, increase board participation when board members are not able to physically attend board meetings, improve board functionality, and help ensure that the public is informed about the operation of the board.

Proposed § 679.110(e) requires, as a general condition of State Board membership, that members who represent the non-business organizations, agencies, or other entities described in proposed § 679.110(b)(3)(ii) and (iii) have optimum policy-making authority. Because WIOA sec. 101(d) adds State Board functions, such as identifying and disseminating information on best practices and developing and reviewing statewide policies affecting the coordinated provision of services through the State's one-stop delivery system, all members, not just those representing the business community, should have optimum policy-making authority to accomplish the purposes of WIOA and conduct the State Board required functions.

Proposed § 679.110(f) implements the multiple-entity representation limitations for State Board members at WIOA sec. 101(b)(3). Robust representation in each of the categories is essential to ensure that the State Board benefits from the diversity and experience of board members.

Proposed § 679.110(f)(1) explains that a State Board member may not represent more than one of the three membership categories: Business representatives, workforce representatives, or government representatives. For example, one member could not serve as a business representative and a joint labor-management apprenticeship program even if the member would otherwise satisfy the criteria for both categories.

Proposed § 679.110(f)(2) explains that a State Board member may not serve as a representative of more than one subcategory under (b)(3)(ii). Under this provision, a single board member could not serve as a representative of an organized labor organization and an apprenticeship program (or the optional subcategories) even if the member would otherwise satisfy the criteria for either category.

Proposed § 679.110(f)(3) prohibits a government representative from serving as a representative of more than one subcategory under (b)(3)(iii). However, where a single government agency is responsible for multiple required programs, the head of the agency may represent each of the required programs. In some instances, it would be appropriate and beneficial for one representative to represent multiple programs on the State Board. For example, the head of a State Workforce Agency might represent both the WIOA title I and Wagner-Peyser programs. This arrangement could serve to improve integration of these two programs and/or help the State Board better achieve the colocation requirements at WIOA sec. 123(c)(3). In other instances, such an arrangement would be less beneficial. For example, where vocational rehabilitation services fall under the State Workforce Agency, appointing a single representative to satisfy the membership requirements of WIOA title I, Wagner-Peyser, and vocational rehabilitation services may limit the voice and influence of a core program partner. The Department encourages Governors to use discretion

when appointing board members to represent multiple subcategories under (b)(3)(iii).

Proposed § 679.110(g) requires that all required board members have voting privileges and allows the option for the Governor to convey voting privileges to non-required members. All required board members must have a voice in the State Board's decisions to ensure that the interests of all members of the community represented by the required members are taken into account by the board. Requiring voting rights allows the required board members to have an effect on the State Board's key decisions and initiatives and enables the required board members to effectively represent the individuals and organizations of their communities. This proposed section also permits the Governor to grant voting privileges to the non-required members of the board, and the Department encourages the Governor to do so if doing so, in their opinion, would further the mission and goals of the board.

Section 679.120 What is meant by the terms ''optimum-policy-making authority'' and ''demonstrated experience and expertise''?

Proposed § 679.120(a) defines the term ''optimum policy-making authority'' as an individual who can reasonably be expected to speak affirmatively on behalf of the entity he or she represents and to commit that entity to a chosen course of action. This proposed section retains the same requirements found at 20 CFR 661.203(a).

Proposed § 679.120(b) defines the term ''demonstrated experience and expertise'' as an individual who has documented leadership in developing or implementing workforce development, human resources, training and development, or a core program function. WIOA sec. 101(d) adds new State Board functions, such as the development of strategies for aligning technology and data systems across one-stop partner programs to enhance service delivery and improve efficiencies in reporting on performance accountability measures. This provision will ensure that the State Board will include members that will assist the board in fulfilling these functions. The Department seeks public comment on how to further define ''demonstrated experience and expertise'' and examples of the types of qualifications that would meet such a definition.

Section 679.130 What are the functions of the State Board?

Proposed § 679.130 implements sec. 101(d) of WIOA and describes the role and functions of the State Board. Proposed § 679.130(a), (d) through (e), and (g) through (k) reiterate the relevant statutory requirements at secs. 101(d)(1), (4)–(5), and (7)–(11). These functions are the primary functions of the State Board.

Proposed § 679.130 is consistent with WIOA's statutory requirement that the State Board must assist the Governor in the development, implementation, and modification of the 4-year State Plan.

Proposed § 679.130(b) is consistent with WIOA sec. 101(d)(2) and reiterates the statutory requirements. The proposed regulation states the review of statewide policies, programs, and recommendations on actions that must be taken by the State to align workforce development programs to support a comprehensive and streamlined workforce development system. Such review of policies, programs, and recommendations must include a review and provision of comments on the State plans, if any, for programs and activities of one-stop partners that are not core programs.

Proposed § 679.130(c)(1) through (7) are consistent with WIOA secs. 101(d)(3)(A) through (G) and reiterate WIOA's requirements that the State Board assist the Governor in development and continuous improvement of the State's workforce development system, including removing barriers to aligning programs and activities, developing career pathways to support individuals to retain and enter employment, developing customer outreach strategies, identifying regions and designating local workforce areas, developing and continuously improving the one-stop system, and developing strategies to train and inform staff.

Proposed § 679.130(d) and (e) reiterate statutory language requiring State Boards to assist in the development of State performance and accountability measures and to identify and disseminate best practices.

Proposed § 679.130(f)(1) through (3) are consistent with WIOA secs. 101(d)(6)(A) through (C) to assist in the development and review of statewide policies on coordinated service provisions, which includes criteria for Local Boards to assess one-stop centers, allocation of one-stop center infrastructure funds, and the roles and contributions of one-stop partners within the one-stop delivery system. In addition, it is important for the State Board to consult with CEOs and Local Boards when establishing objective criteria and procedures for Local Boards to use when certifying one-stop centers. Where Local Boards serve as the one-stop operator, the State Board must use such criteria to assess and certify the one-stop center to avoid inherent conflicts of interest in a Local Board assessing itself.

Proposed § 679.130(g) through (k) reiterate statutory language requiring State Boards to assist in the development of strategies for technological improvements to improve access and quality of service, align technology and data systems across one-stop partner programs to improve service delivery and effectiveness in reporting on performance accountability, develop allocation formulas for distribution of adult and youth programs, and in accordance with WIOA and these regulations, prepare the annual report and develope the statewide WLMIS.

Proposed § 679.130(l) is consistent with WIOA sec. 101(d)(12). This proposed regulation requires the State Board to assist the Governor in the development of other policies that promote statewide objectives and enhance the performance of the workforce development system in the State.

Section 679.140 How does the State Board meet its requirement to conduct business in an open manner under ''sunshine provision'' of the Workforce Innovation and Opportunity Act sec. 101(g)?

Proposed § 679.140 implements sec. 101(g) of WIOA, requires that the State Board conduct its business in an open and transparent manner, and describes several pieces of information that the board is required to provide to ensure transparency.

Proposed § 679.140(b)(1) through (4) requires the State Board to make certain information available on a regular basis to ensure that it is conducting its business in an open manner. Transparency promotes accountability and provides valuable information to citizens on the Federal, State, and local government's activities. Therefore, the State Board must make available to the public on a regular basis, through electronic means and open meetings, information about State Board activities such as the State Plan, modifications to the State Plan, board membership, the board's by-laws, the minutes of meetings. This information must be easily accessed by interested parties. Ensuring that this information is widely available promotes transparency and

provides access to the public on how the State Board works to align, integrate, and continuously improve the workforce development system.

Section 679.150 Under what circumstances may the Governor select an alternative entity in place of the State Workforce Development Board?

Proposed § 679.150(a) and (b) implement the requirements of WIOA sec. 101(e)(1) and describe the circumstances by which the Governor may select an alternate entity in place of a State Board. Paragraph (b) lists the conditions that must be met if a State uses an alternative entity in place of the State Board and requires that the entity meets the requirements of § 679.110.

Proposed § 679.150 (c)(1) through (3) stipulate that if the alternative entity does not provide representatives for each of the categories required under WIOA sec. 101(b), the State Plan must explain the manner in which the State will ensure an ongoing role for any unrepresented membership group in the workforce development system. The proposed section further requires that the State Board ensure that the alternative entity maintain a meaningful, ongoing role for unrepresented membership groups, including entities carrying out the core programs, and to inform the Board's actions.

Proposed § 679.150(d) stipulates if the membership structure of the alternative entity had a significant change after August 7, 1998, the entity will no longer be eligible to perform the functions of the State Board. In such a case, the Governor must establish a new State Board which meets all of the criteria of WIOA sec. 101(b).

Proposed § 679.150 (e)(1) and (2) define a significant change in the membership structure which includes a change in the organization of the alternative entity or in the categories of entities represented on the alternative entity which requires a change to the alternative entity's charter or a similar document that defines the formal organization of the alternative entity, regardless of whether the required change to the document has or has not been made. This proposed section retains the same requirements found at 20 CFR 661.210(e).

Proposed § 679.150(f) stipulates all State Board references in 20 CFR parts 675 through 687 also apply to an alternative entity used by a State. This proposed section implements sec. 101(e)(2) of WIOA.

Section 679.160 Under what circumstances may the State Board hire staff?

Proposed § 679.160 implements sec. 101(h) and describes the board's authority to hire staff. Per proposed § 679.160(c), the pay provided to the director and staff hired by the board is subject to the limitations on the payment of salary and bonuses described in WIOA sec. 194(15).

2. Subpart B—Workforce Innovation and Opportunity Act Local Governance (Workforce Development Areas)

The WIOA envisions a workforce development system that is customer-focused on both the job seeker and business, and is able to anticipate and respond to the needs of regional economies. It requires Workforce Development Boards and CEOs to design and govern the system regionally, aligning workforce policies and services with regional economies and supporting service delivery strategies tailored to these needs. To support this regional approach, WIOA requires States to identify intrastate and interstate regions which may be comprised of more than one local area, and requires local areas to plan regionally. WIOA envisions a regional system where not only do local areas plan regionally, but workforce system leaders partner and provide leadership as part of comprehensive, regional workforce and economic strategies. This subpart provides the requirements for designation of regions and local areas under WIOA.

Section 679.200 What is the purpose of a region?

Proposed § 679.200 describes the purpose of requiring States to identify regions: to align workforce development resources to regional economies to ensure coordinated and efficient services to both job seekers and employers. WIOA requires States to establish regions in order to ensure that training and ES support economic growth and related employment opportunities and are meeting the skill competency requirements of the regions. The development of comprehensive regional partnerships facilitates alignment of workforce development activities with regional economic development activities, and better supports the execution and implementation of sector strategies and career pathways. Regional cooperation may also lower costs and increase the effectiveness of service delivery to businesses that span more than one local workforce development area within a region and to job seekers through coordination of shared services, processes, and operations. The Department encourages States to use these processes to identify any performance, fiscal, or planning challenges and to ensure that local and regional planning areas are aligned to support improved service delivery, improved training and employment outcomes, better meet employer needs, and greater effectiveness and efficiency in achieving these outcomes.

Section 679.210 What are the requirements for identifying a region?

Proposed § 679.210 outlines the requirements for identifying a region.

Proposed § 679.210(a) requires that the Governor assign local areas to a region prior to the submission of the State Unified or Combined Plan.

Proposed § 679.210(b) explains that the Governor must develop a policy for designation of a region prior to submission of the State Unified or Combined Plan, in order to receive WIOA title I–B adult, dislocated worker, and youth allotments. The regional assignment is important because regional economic development areas do not necessarily correspond to State, county, or local workforce development areas, or municipal boundaries.

Proposed § 679.210(b) clarifies the required factors that a Governor must consider when identifying a region and the parties the Governor must consult, implementing WIOA sec. 106(a)(1). The considerations for identifying a planning region are consistent with those for local area designation outlined in proposed § 679.240(a).

Proposed § 679.210(c) provides additional criteria the Governor may consider when identifying regions. These additional criteria, which provide a more comprehensive picture of regional economies and labor markets, provide additional data points to inform the Governor's decision to assign local areas to regions. However, the Department seeks comment on the appropriateness of these factors and requests suggestions of additional data points for defining a regional economy and labor market.

The Department has included ''population centers'' in proposed § 679.210(c)(1) because they and their contiguous areas of growth are a basic factor distinguishing economic development areas and planning regions.

Proposed § 679.210(c)(2) allows the consideration of ''commuting patterns'' because commuting pattern data can show the movement of workers from their residence to their workplace. A

strong flow of commuters from one local area, municipality, or county into another is an indication of the economic interdependence of the two areas.

"Land ownership" is included in proposed § 679.210(c)(3) because land ownership can significantly affect the economic development potential of an area.

"Industrial composition" has been proposed as a factor in § 679.210(c)(4) because it is primarily based upon industry employment patterns. The factors used in determining regions could be jobs by industry and share of total employment by industry.

Proposed § 679.210(c)(5) permits the Governor to consider "location quotients," which are ratios that could be computed by dividing a local area's percentage of employment in a particular industry by the State's percentage of employment in a particular industry. The economic base of a local area includes those industries in which the local area has a higher proportion of employment than the State as a whole, or a higher location quotient. Adjacent local areas with similar economic bases are strong candidates for placement in the same region.

"Labor force conditions" is proposed as a factor in § 679.210(c)(6). Local area labor force employment and unemployment data could provide a measure of labor availability throughout the State. Adjacent local areas with similar labor force characteristics, such as unemployment rates, might have similar workforce/economic development needs, thus joining those areas into a region may be beneficial.

Proposed § 679.210(c)(7) suggests that the Governor consider "geographic boundaries" when setting regions because they may serve to facilitate or hinder the movement of people and commerce between areas, thereby naturally delineating regional boundaries.

Finally, proposed § 679.210(c)(8) indicates that the Secretary may suggest additional factors in future guidance.

Proposed § 679.210(d), implementing sec. 106(a)(2) of WIOA, outlines the types of regions and how local areas may be assigned to regions. A region may consist of a single local area, two or more contiguous local areas with a State, or two or more contiguous local areas in two or more States. When the Governor(s) assigns two or more local areas to a region, the region, per WIOA sec. 3(48), is considered a planning region, which is required to coordinate regional service strategies, regional sector initiatives, the collection and analysis of regional labor market data, administrative costs, transportation, partnership with economic develop agencies, and the negotiation of local performance consistent with the regional planning requirements at § 679.510. A single local area may not be split across two planning regions. Local areas must be contiguous in order to be a planning region and effectively align economic and workforce development activities and resources. The Department anticipates providing additional guidance regarding the creation and management of interstate planning regions.

Section 679.220 What is the purpose of the local workforce development area?

Distinct from the regional designation, WIOA also provides for local workforce development areas. As described above, these local areas may be identified individually or in combination, as regions. Proposed § 679.220 describes the purpose of the local workforce development area (local area). The Governor must designate local areas in order to receive WIOA title I adult, dislocated worker, and youth allotments, as required by WIOA sec. 106. Local areas serve as a jurisdiction for the administration of workforce development activities and execution of adult, dislocated worker, and youth funds allocated by the State. States allocate workforce investment funds based on various population characteristics of the local area. Local areas may correspond to regions identified in WIOA sec. 106(a)(1) or may be smaller geographic areas within a planning region, each with its own Local Workforce Development Board.

Section 679.230 What are the general procedural requirements for designation of local workforce development areas?

Proposed § 679.230 describes the procedural requirements that the Governor must use for the designation or redesignation of a local workforce development area. Proposed § 679.220 (a) through (c), implementing WIOA sec. 106(b)(1)(A), requires the Governor to consult with the State Board and CEO, and consider public comments from a wide range of stakeholders consistent with provisions at WIOA sec. 102(b)(2)(e)(iii)(II) as part of the process of identifying the local area. The Governor has the discretion to establish the process and procedures to solicit comments that it determines appropriate; however a wide-reaching, inclusive process allows sufficient time for stakeholders to provide substantive comments that will enable the Governor to receive meaningful feedback from all interested stakeholders, ensuring that the Governor is able to consider all relevant information, data, and opinions before making a decision to designate or redesignate a local area.

Section 679.240 What are the substantive requirements for designation of local workforce development areas that were not designated as local areas under the Workforce Investment Act of 1998?

Proposed § 679.240 provides the substantive requirements that Governor must use for the designation or redesignation of local workforce development areas.

Proposed § 679.240(a) explains that the Governor must develop a policy for designation or redesignation of local workforce development areas, including the factors that the Governor must consider. The statute requires that the Governor designate local areas that "are consistent" with labor market and regional economic development areas: The Department interprets this to mean that within a local area, there must be common labor markets and economic development areas. Better integration between the workforce and economic development systems serves to best connect the employment needs of workers with the skilled workforce needs of employers. This section implements sec. 106(b)(1)(B) of WIOA.

Proposed § 679.240(b) permits the Governor to approve a local area designation request from any unit of local government, including a combination of multiple units. This provision implements sec. 106(b)(4) of WIOA and retains the same requirements found at 20 CFR 661.250(c). Proposed paragraph (c) permits the Governor to redesignate a local area that has been designated or redesignated under § 679.240(a) or has been designated under § 679.250(a) or (c) if the local area requests, and the Governor approves, the redesignation.

Section 679.250 What are the requirements for initial and subsequent designation of workforce development areas that had been designated as local areas under the Workforce Investment Act of 1998?

Proposed § 679.250 describes the requirements for initial and subsequent designation of local areas that had been designated as local areas under WIA.

Proposed § 679.250(a) implements sec. 106(b)(2) of WIOA that requires, during the first 2 full PYs following the enactment of WIOA, a Governor is to approve a request for initial designation from any local area designated as a local area under WIA as long as the entity

was designated a local area under WIA, performed successfully, and maintained sustained fiscal integrity for 2 years prior to the enactment of WIOA. This provision requires the Governor to continue the designation of local areas that performed well and maintained sound fiscal practices under WIA. If a local area that was designated under WIA requests initial designation under WIOA but does not meet all of the requirements of § 679.250(a), the Governor has the discretion to approve the initial designation under WIOA or to redesignate the local area pursuant to the procedures described in § 679.240.

Proposed § 679.250(b) clarifies that initial designation applies to PYs 2015 and 2016, as per WIOA sec. 106.

Proposed § 679.250(c), in accordance with sec. 106(b)(3) of WIOA, describes the requirements for the subsequent designation of local workforce development areas that were initially designated under § 679.250(a). Specifically, the Governor must approve requests for subsequent designation as long as the local area performed successfully, sustained fiscal integrity, and in the case of a local area in a planning region, met the planning region requirements during the 2-year period of initial designation. Local areas that are able to demonstrate successful performance and fiscal integrity must be permitted to continue to operate and may not be redesignated without the consent of the Local Board and CEO in the local area.

Proposed § 679.250(d) describes the role of the Governor in reviewing a local area's subsequent designation. Paragraph (d)(1) permits the Governor to evaluate a local area at any time to ensure the local area continues to meet the requirements for subsequent eligibility at paragraph (c). Paragraph (d)(2) requires the Governor to review local areas to ensure they continue to satisfy the requirements at paragraph (2) as part of each 4-year State planning cycle. Sections 116(g)(2)(A) and 184(b)(1) of WIOA describe the required actions that the Governor must take in the event that a local workforce area fails to meet its negotiated levels of performance or does not comply with administrative requirements, respectively. Under these provisions the Governor retains the authority to take corrective action in light of failure of performance or fiscal management short of redesignation, and is not required to redesignate a local area that has failed to maintain the requirements of paragraph (c). Furthermore, the Governor may redesignate local areas at any time with the cooperation of the CEO and Local Board in a given local area.

Proposed § 679.250(e) presumes that local areas will be considered to have requested continued designation unless the CEO and the Local Board directly notify the Governor that they no longer wish operate as a local area. This newly proposed paragraph reduces the administrative burden of maintaining local area status, while still holding local areas accountable to the requirements of paragraph (c).

Proposed § 679.250(f) specifies that the requirements for subsequent designation do not apply to local areas that are designated or redesignated under § 679.240 or are single-area States designated under § 679.270.

Proposed § 679.250(g) clarifies that rural concentrated employment programs are not eligible to apply for initial designation as a local area. WIOA allows any unit of local government (or combination of units of local government) to request designation as a local area; however, unlike under WIA, this provision does not extend to rural concentrated employment programs.

Section 679.260 What do the terms ''performed successfully'' and ''sustained fiscal integrity'' mean for purposes of designating local areas?

Proposed § 679.260 defines the terms ''performed successfully'' and ''sustained fiscal integrity'' used in § 679.250. This section implements sec. 106(e) of WIOA.

Proposed § 679.260(a) defines the term ''performed successfully'' for the purpose of initial designation to mean that the local area met or exceeded all performance levels the Governor negotiated with Local Board and CEO under WIA sec. 136(c) for the last 2 full PYs before the enactment of WIOA. It also requires that the local area not fail any individual measure for the last 2 consecutive PYs before the enactment of WIOA. Proposed § 679.260(a)(1) requires the Governor, in order to determine if a local area has performed successfully, to have defined the terms ''met or exceeded'' and ''failure'' at the time the performance levels were negotiated. Proposed § 679.260(a)(2) clarifies that the Governor may not retroactively apply any higher WIOA threshold to performance negotiated and achieved under WIA for the purposes of local area designation.

Proposed § 679.260(b) defines the term ''performed successfully'' for the purpose of subsequent designation to mean that the local area met or exceeded the levels of performance the Governor negotiated with Local Board and CEO for core indicators of performance described at WIOA sec. 116(b)(2)(A). It also requires the Governor to have defined the terms ''met or exceeded'' and ''failure'' in the State Plan.

Proposed § 679.260(a) and (b) expand on the definition at WIOA sec. 106(e)(1) to ensure that the initial and subsequent designation of local areas is conducted in a fair and transparent manner by ensuring that the local area's performance is judged on the contemporaneous standards agreed to between the State and local area at the time rather than under subsequently imposed performance standards.

Proposed § 679.260(c) defines the term ''sustained fiscal integrity'' for the purpose of determining initial and subsequent local area designation to mean that the Secretary has not made a formal determination that either the grant recipient or any other entity charged with expending local area funds misexpended such funds due to willful disregard of the requirements of the provision involved, gross negligence, or failure to comply with accepted standards of administration for the 2-year period preceding the determination.

Proposed §§ 679.250 and 679.260 allow for an orderly transition from WIA to WIOA and protects the designation status of local areas that meet or exceed performance targets negotiated in good faith under the relevant authorizing legislation while allowing the Governor both to oversee properly the performance of the local areas and take action necessary to improve the area's performance in a timely fashion.

Section 679.270 What are the special designation provisions for single-area States?

Proposed § 679.270 outlines the special designation provisions for single-area States. Under WIOA sec. 106(d), the Governor of any single-area State under WIA may choose to continue to designate the State as a single-State area. However, proposed § 679.270(b) clarifies that the Governor must identify the single-area status of the State in its Unified or Combined State Plan and proposed § 679.270(c) further clarifies that the State Board in a single-area State must continue to carry out the functions of the State and Local Boards. This section is intended to clarify single-area States' responsibilities and functions: Key local functions, such as monitoring; entering into a memorandum of understanding (MOU) with one-stop partners; selecting one-stop operators; selecting eligible providers of youth activities, career services and training services; and

certifying one-stop centers, are essential to the proper functioning of the public workforce system and remain so within single-area States.

Section 679.280 How does the State fulfill the requirement to provide assistance to local areas within a planning region that wish to redesignate into a single local area?

Proposed § 679.280 describes how the State fulfills the requirement to provide assistance to local areas within a planning region that wish to redesignate into a single local area.

Proposed § 679.280(a) asserts that the State must authorize statewide funds for transition activities when all local areas in a planning region petition the Governor for redesignation as a single local area as required by WIOA sec. 106(b)(6). WIOA introduces redesignation assistance as a required statewide activity. This provision will help local areas consolidate where appropriate for the purposes of cost savings and streamlined service delivery.

Proposed § 679.280(b) clarifies that when statewide funds are exhausted in a given PY, the State may fulfill the requirement to provide redesignation assistance in the following PY. This section provides States with the flexibility to balance priorities while ensuring local areas receive redesignation assistance.

Proposed § 679.280(c) provides examples of the activities that local areas may elect to pursue with the redesignation assistance received from the State. However, the State may establish policy on what other activities local areas may use funds received for the purposes of redesignation or leave such determination to the local areas.

Section 679.290 What right does an entity have to appeal the Governor's decision rejecting a request for designation as a workforce development area?

Proposed § 679.290 outlines the appeals process for an entity that submits a request for initial or subsequent designation as a local workforce development area that is rejected by the Governor. This section implements sec. 106(b)(5) of WIOA.

Proposed § 679.290(a) establishes that entities that are not approved as local areas may follow the process established at 20 CFR 683.640. This section is essentially unchanged from WIA. However, while provisions at WIOA sec. 106(b) permit any unit of local government or combination of units to apply for designation as a local area, the law does not specify that rural concentrated employment programs may apply for designation as a local area. The intent of this section was to prohibit such an arrangement under WIOA and that this prohibition logically applies to the appeals process.

Proposed § 679.290(b) establishes that an entity making an unsuccessful appeal to the State Board may request a review of the appeal by the Secretary of Labor if the State does not respond to the appeal in a timely manner or if the appeal for designation is denied by the State. The Department defines a 'timely manner' to be 60 days after the submission of the appeal. This provides adequate time for the State to review and make a ruling on the appeal while not being so long as to delay unreasonably the appeal and designation processes.

Proposed § 679.290(c) summarizes the circumstances under which the Secretary of Labor may require an entity to be designated as a local area. Specifically, the Secretary may require designation upon a finding of either a denial of procedural rights or a finding that the area meets the requirements for designation. This section was updated from WIA to reflect that neither the 'automatic' nor 'temporary and subsequent' designation statuses exist under WIOA.

3. Subpart C—Local Boards

Section 679.300 What is the vision and purpose of the Local Workforce Development Board?

Proposed § 679.300 explains the purpose of the Local Board. The Local Board represents a wide variety of individuals, businesses, and organizations throughout the local area. The Local Board serves as a strategic convener to promote and broker effective relationships between the CEOs and economic, education, and workforce partners.

The Local Board must develop a strategy to continuously improve and strengthen the workforce development system through innovation in, and alignment and improvement of, employment, training, and education programs to promote economic growth. Local Board members must establish a platform in which all members actively participate and collaborate closely with the required and other partners of the workforce development system, including public and private organizations. This is crucial to the Local Board's role to integrate and align a more effective, job-driven workforce investment system.

Proposed § 679.300(b)(1) and (2) outlines the purposes of the Local Board. A key goal of Federally-funded training programs is to prepare job seekers ready to work with marketable skills. This includes providing strategic and operational oversight in collaboration with required and other partners to help the workforce development system achieve the purposes outlined in WIOA sec. 2, and assist in the achievement of the State's strategic and operational vision and goals outlined in the State Plan. The Local Board must work to develop a comprehensive and high-quality workforce development system by collaborating with its workforce and education partners to improve and align employment, training, and education programs under WIOA.

Section 679.310 What is the Local Workforce Development Board?

Proposed § 679.310 defines the Local Workforce Development Board. Proposed § 679.310(a) explains that the CEO in each local area appoints the Local Board in accordance with WIOA sec. 107(b) and that the Governor must certify the Local Board on a biannual basis. This proposed section retains the same requirements found at 20 CFR 661.300(a).

Proposed § 679.310(b) describes that the Local Board sets policy within the local area in partnership with the CEO, consistent with State policy. This proposed section retains the same requirements found at 20 CFR 661.300(b).

Proposed § 679.310(c), asserts that the CEO may enter into an agreement with the Local Board that describes the respective roles and responsibilities of the parties. However, the CEO remains liable for funds received under title I of WIOA unless they reach an agreement for the Governor to act as the local grant recipient and bear such liability. This proposed section retains the same requirements found at 20 CFR 661.300(c).

Proposed § 679.310(d) describes that the Local Board, in partnership with the CEO, are responsible for the development of the local plan. This proposed section retains the same requirements found at 20 CFR 661.120(d).

Proposed § 679.310(e) affirms that in local areas with more than one unit of general local government, the CEOs of the respective units may execute an agreement to describe their responsibilities for carrying out their roles and responsibilities. If the various parties cannot come to an agreement, the Governor may appoint the Local Board. This proposed section retains the

same requirements found at 20 CFR 661.300(3).

Proposed § 679.310(f) indicates that in single-State areas, the State Board must fulfill the functions of the Local Board, which the Department also required under the WIA regulation at 20 CFR 661.300(f). As required by WIOA sec. 107(c)(4)(B)(iii), the proposed section clarifies that the State is not required to establish or report on local performance measures. This clarification presents a logical approach to local performance because the local area performance will be reflected in the State performance reports.

Proposed paragraph (g) requires the CEO to establish by-laws, consistent with State policy, that help improve operations of the Local Board. Proposed § 679.310(g)(1) through (7) require that at a minimum the by-laws address the nomination process used by the CEO to elect the Local Board chair and members, term limitations and how the term appointments will be staggered to ensure only a portion of memberships expire in a given year, the process to notify the CEO of a board member vacancy to ensure a prompt nominee, the proxy and alternative designee process that will be used when a board member is unable to attend a meeting and assigns a designee, the use of technology to improve board functions, brokers relationships with stakeholders, and any other conditions governing appointment or membership on the Local Board as deemed appropriate by the CEO. In addition to these required elements, the CEO must include any additional requirements in the board's by-laws that it believes is necessary to ensure the orderly administration and functioning of the board. An effective Local Board establishes clear roles, responsibilities, procedures, and expectations through its by-laws, and that these requirements will help Local Boards to be more agile and proactive in reacting to board turnover, increase board participation when board members are not able to physically attend board meetings, improve board functionality, and help ensure that the public is informed about the operation of the board.

Section 679.320 Who are the required members of the Local Workforce Development Board?

Proposed § 679.320 explains that the CEO in a local area must appoint a Local Workforce Development Board and provides guidelines on requirements and options for the CEO to follow in appointing members to the Local Board.

Proposed § 679.320(b) requires that a majority of the Local Board members must represent businesses as per WIOA sec. 107(b)(2)(A). Business representatives include owners, chief executive or operating officers, and other business executives, including small businesses, and business organizations. As reflected in proposed paragraph (b)(2), WIOA requires that business representatives on the Local Board must represent business that provide employment opportunities in in-demand industry sectors or occupations as defined in WIOA sec. 3(25). Employers with employment opportunities in high-growth sectors are uniquely suited to communicate the emerging workforce needs of employers in these high-growth, in-demand sectors to the Local Board.

Proposed § 679.320(c) explains the required and optional member categories that must make up at least 20 percent of the Local Board membership representing labor organizations, or where they do not exist, employee representatives. Proposed paragraphs (c)(1) and (2) require that the Local Board must include two or more representatives of labor organizations (or other employee representatives if there are no labor organizations operating in the local area) and one or more representatives of a joint-labor management registered apprenticeship program (or other registered apprenticeship program if there is no joint labor-management program in the local area). The use of the word 'representatives' with respect to labor organization membership indicates a requirement for two or more members. In areas with joint apprenticeship programs, the apprenticeship representative must be a member of a labor organization or a training director.

In addition to these required members, proposed paragraphs (c)(3) and (4) explain that the CEO may appoint one or more representatives of CBOs with experience in addressing the employment needs of individual barriers to employment including organizations that serve veterans or that provide or support competitive integrated employment for individuals with disabilities, and one or more representative of organizations with experience addressing the employment needs of WIOA-eligible youth, including serving OSY. While not mandatory, the two representative categories in proposed paragraphs (c)(3) and (4) count towards reaching the 20 percent threshold. Proposed § 679.320(c) underscores both the importance of registered apprenticeship, a proven training strategy that effectively meets the needs of both employers and workers,[1] and the role of organized labor in workforce development, particularly in developing registered apprenticeship programs.

Proposed § 679.320(d)(1) and (2) describe the entities required to be on the board to provide an adult education perspective and representation. These sections require that Local Boards include a minimum of one member with experience providing adult education and literacy activities under title II of WIOA and at least one member from a higher education institution, which may include community colleges, that provides workforce training.

Proposed paragraph (d)(3) sets forth the statutory requirement that a minimum of one Local Board member must be included from each of the following organizations: Economic or community development organizations, the State ES Office under Wagner-Peyser serving the local area, and programs carried out under title I of the Rehabilitation Act of 1973 (29 U.S.C. 720, *et seq.*) other than sec. 112 or part C of that title.

Proposed § 679.320(e) provides examples of other appropriate optional members of the board. In addition to the entities described in (e)(1) through (3), proposed paragraph (e)(4) explains that the CEO may appoint other individuals to the board at his or her discretion. This provides the CEO the flexibility to assemble a Local Board that connects all key resources and stakeholders.

Proposed § 679.320(f) requires that Local Board members possess optimum policy-making authority in the organizations they represent. This proposed section retains the same requirements found at 20 CFR 661.315(c).

Proposed § 679.320(g) explains the nomination criteria for business and labor representatives, as well as representatives of adult education and literacy activities under title II when there are multiple institutions providing these services in a local area. These nomination requirements are unchanged from the requirements at 20 CFR 661.315(e), however, a formal policy ensures that business and labor organizations are provided the opportunity to provide input on board member selection. When there is more than one local area provider of adult education and literacy activities under title II, or multiple institutions of higher education providing workforce

[1] Ibid; and Kleinman, Liu, Mastri, Reed, Reed, Sattar, & Ziegler (2012). An Effectiveness Assessment and Cost-Benefit Analysis of Registered Apprenticeship in 10 States. Mathematica Policy Research. Prepared for the U.S. Department of Labor, Employment and Training Administration.

investment activities as described in WIOA 107(b)(2)(C)(i) or (ii), the CEO must solicit nominations from those particular entities. This requirement provides for a representative selection process for these membership categories.

Proposed § 679.320(h) explains that an individual may be appointed as a representative of more than one entity if the individual meets all the criteria for representation, including the criteria described in paragraphs (c) through (g) of this section, for each entity. While such ''multiple entity'' representation may not be appropriate in all cases, the Department proposes to allow an individual to represent more than one entity, because there may be instances when such representation may be an effective tool for reducing board size while still ensuring that all entities entitled to representation receive effective representation.

Proposed § 679.320(i) explains that all required board members must have voting privileges and that the CEO may give voting privileges to non-required members. Voting rights allow the required board members to have an effect on the Local Board's key decisions and initiatives. This will enable the required board members to effectively represent the individuals and organizations of their communities.

Section 679.330 Who must chair a Local Board?

Proposed § 679.330 affirms that the Local Board must elect a chairperson from the business representatives on the Local Board. This proposed section retains the same requirements found at 20 CFR 661.320.
