SUPPLEMENTARY INFORMATION: Section 1320.8(d), Title 5, Code of Federal Regulations, requires PHMSA to provide interested members of the public and affected agencies an opportunity to comment on information collection and recordkeeping requests. This notice identifies an information collection request PHMSA will submit to OMB for renewal. The following information is provided for each information collection: (1) Title of the information collection; (2) OMB control number; (3) Current expiration date; (4) Type of request; (5) Abstract of the information collection activity; (6) Description of affected public; (7) Estimate of total annual reporting and recordkeeping burden; and (8) Frequency of collection. PHMSA will request a 3-year term of approval for this information collection activity. PHMSA requests comments on the following information collection:

1. **Title:** Pipeline Safety: Periodic Underwater Inspection and Notification of Abandoned Underwater Pipelines.

OMB Control Number: 2137-0618.

Current Expiration Date: 8/31/2015.

Type of Request: Renewal of a currently approved information collection.

Abstract: The Federal pipeline safety regulations at 49 CFR 192.612 and 195.413 require operators to conduct appropriate periodic underwater inspections in the Gulf of Mexico and its inlets. If an operator discovers that its underwater pipeline is exposed or poses a hazard to navigation, among other remedial actions such as marking and reburial in some cases, the operator must contact the National Response Center by telephone within 24 hours of discovery and report the location of the exposed pipeline.

PHMSA's regulations for reporting the abandonment of underwater pipelines can be found at §§ 192.727 and 195.59. These provisions contain certain requirements for disconnecting and

purging abandoned pipelines and require operators to notify PHMSA of each abandoned offshore pipeline facility or each abandoned onshore pipeline facility that crosses over, under or through a commercially navigable waterway.

Affected Public: Operators of pipeline facilities (except master meter operators).

Annual Reporting and Recordkeeping Burden:

Estimated number of responses: 92.

Estimated annual burden hours: 1,372.

Frequency of collection: On occasion.

Comments are invited on:

(a) The need for the renewal and revision of these collections of information for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(d) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques.

Issued in Washington, DC, on April 16, 2015, under authority delegated in 49 CFR 1.97.

John A. Gale,

Director, Office of Standards and Rulemaking.

Bureau of Transportation Statistics

[Docket DOT-OST-2014-0031 BTS Paperwork Reduction Notice]

Agency Information Collection; Activity Under OMB Review; Submission of Audit Reports—Part 248

AGENCY: Bureau of Transportation Statistics (BTS), DOT.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, Public Law 104-13, the Bureau of Transportation Statistics invites the general public, industry and other governmental parties to comment on the continuing need for and usefulness of BTS requiring U.S. large certificated air carriers to submit two true and complete copies of its annual audit that is made by an independent public accountant. If a carrier does not have an annual audit, the carrier must file a statement that no audit has been performed. Comments are requested concerning whether (1) the audit reports are needed by BTS and DOT; (2) BTS accurately estimated the reporting burden; (3) there are other ways to enhance the quality, utility and clarity of the information collected; and (4) there are ways to minimize reporting burden, including the use of automated collection techniques or other forms of information technology.
