SUPPLEMENTARY INFORMATION: On December 8, 2014, (79 FR 72552), the Environmental Protection Agency (EPA) published a final rulemaking action announcing the approval of Pennsylvania’s requests to redesignate to attainment the Harrisburg-Lebanon-Carlisle and York nonattainment areas for the 1997 annual PM_{2.5} NAAQS and the Harrisburg-Lebanon-Carlisle-York 2006 24-hour PM_{2.5} NAAQS nonattainment area.

Need for Correction

As published, the final redesignation contains errors. EPA inadvertently did not include a table for the 2017 and 2025 PM_{2.5} and nitrogen oxides (NO\textsubscript{X}) motor vehicle emissions budgets (MVEBs) for the 1997 annual PM_{2.5} NAAQS for Lebanon County. The Harrisburg-Lebanon-Carlisle Area is comprised of Cumberland, Dauphin and Lebanon Counties. This action corrects the title of the table entitled, "Harrisburg-Lebanon-Carlisle Area’s Motor Vehicle Emissions Budget for the 1997 Annual PM_{2.5} NAAQS in tons per year." to add “for Cumberland and Dauphin Counties” and adds a table for the 2017 and 2025 PM_{2.5} and NO\textsubscript{X} MVEBs for the 1997 annual PM_{2.5} NAAQS for Lebanon County.

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Nitrogen oxides, Ozone, Particulate matter, Reporting and recordkeeping requirements, Sulfur oxides, Volatile organic compounds.

William C. Early,
Acting Regional Administrator, EPA Region III.

Accordingly, 40 CFR part 52 is corrected by making the following correcting amendments:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 et seq.

Subpart NN—Pennsylvania

2. Section 52.2059 paragraph (k) is amended:

a. In the table heading by revising the heading to the second table; and

b. By adding a third table at end of paragraph (k).

The revision and addition read as follows:

§ 52.2059 Control strategy: Particular matter.

* See letter from Mat Ehrhardt, Executive Director, YSAQMD to Kurt Karperos, Chief, Air Quality Planning and Science Division, California Air Resources Board, requesting that YSAQMD Rules 2.13, 2.15 and 2.24 be withdrawn from the California SIP.

---

On May 5, 2014, EPA determined that the submittal for YSAQMD Rules 1.1 and 2.31 met the completeness criteria in 40 CFR part 51 Appendix V, which must be met before formal EPA review.

**B. Are there other versions of these rules?**

There are previous versions of Rules 1.1 and 2.31 in the SIP. YSAQMD adopted earlier versions of these rules on August 13, 1997 and April 27, 1994 respectively, and CARB submitted them to us on July 26, 2000 and November 30, 1994 respectively. We approved these versions of Rule 1.1 and 2.31 into the SIP on March 22, 2004 (69 FR 13234) and April 2, 1999 (64 FR 15922) respectively.

**C. What is the purpose of the submitted rule revisions?**

VOCs help produce ground-level ozone and smog, which harm human health and the environment. Section 110(a) of the CAA requires States to submit regulations that control VOC emissions. Rule 1.1—“General Provisions and Definitions,” contains definitions for specific terms applicable to all District rules. The revisions include additions to the exempt organic compound definition to coincide with those that EPA has determined to have negligible photochemical reactivity as listed in Title 40 of the Code of Federal Regulations Part 51.100 (40 CFR 51.100.) Rule 2.31, “Solvent Cleaning and Degreasing” establishes VOC limits and workplace requirements for cleaning and degreasing products sold, distributed or used within the District. It also prescribes administrative requirements for recordkeeping and test methods. YSAQMD has rescinded Rule 2.13, “Organic Solvents,” Rule 2.15 “Disposal and Evaporation of Solvents,” and Rule 2.24, “Solvent Cleaning Operations (Degreasing)” because the requirements of those rules are now included in the revised Rule 2.31, “Solvent Cleaning and Degreasing” and had they not been rescinded, there would have been redundancies between them and Rule 2.31. EPA’s technical support documents (TSDs) have more information about these rules.

---

**II. EPA’s Evaluation and Action**

**A. How is EPA evaluating the rules?**

Generally, SIP rules must be enforceable (see section 110(a) of the Act), must require Reasonably Available Control Technology (RACT) for each category of sources covered by a Control Techniques Guidelines (CTG) document as well as each VOC major source in ozone nonattainment areas classified as moderate or above (see sections 182(b)(2) and 182(f)), and must not relax existing requirements (see sections

**FURTHER INFORMATION CONTACT:**
Lazarus.arnold@epa.gov.
The YSAQMD regulates an ozone nonattainment area classified as Severe for the 8-hour ozone (NAAQS 40 CFR part 81.305), so Rules 1.1 and 2.31 must be consistent with RACT requirements.

Guidance and policy documents that we use to evaluate enforceability and RACT requirements consistently include the following:

B. Do the rules meet the evaluation criteria?

We believe these rules are consistent with the relevant policy and guidance regarding enforceability, RACT, and SIP relaxations. The TSDs have more information on our evaluation.

C. EPA Recommendations To Further Improve the Rules

The TSDs describe additional rule revisions that we recommend for the next time the local agency modifies the rules.

D. Public Comment and Final Action

As authorized in section 110(k)(3) of the Act, EPA is fully approving submitted YSAQMD Rules 1.1 and 2.31 for incorporation into the SIP and to replace in the SIP YSAQMD Rules 2.13, 2.15, 2.24, because we believe action on these rules fulfills all relevant requirements. We are also removing YSAQMD rules 2.13, 2.15 and 2.24 from the SIP because 2.31 contains more stringent requirements and eliminates redundancies. We do not think anyone will object to this approval, so we are finalizing it without proposing it in advance. However, in the Proposed Rules section of this Federal Register, we are simultaneously proposing the same action on these rules. If we receive adverse comments by May 28, 2015, we will publish a timely withdrawal in the Federal Register to notify the public that the direct final approval will not take effect and we will address the comments in a subsequent final action based on the proposal. If we do not receive timely adverse comments, the direct final approval will be effective without further notice on June 29, 2015. This will incorporate YSAQMD Rules 1.1 and 2.31 and replace YSAQMD Rules 2.13, 2.15 and 2.24 into the federally enforceable SIP.

Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

III. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 et seq.);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 et seq., as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the Federal Register. A major rule cannot take effect until 60 days after it is published in the Federal Register. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by June 29, 2015. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule by action.

Parties with objections to this direct final rule are encouraged to file a
