DEPARTMENT OF EDUCATION

34 CFR Part 300
RIN 1820–AB65

[Notice of Proposed Rulemaking—Federal Register
Vol. 80, No. 81 / Tuesday, April 28, 2015 / Rules and Regulations

SUPPLEMENTARY INFORMATION:

FOR FURTHER INFORMATION CONTACT:

DATES:

AGENCY:

ACTION:

SUMMARY:

The Secretary of Education (Secretary) amends regulations for Part B of the Individuals with Disabilities Education Act (Part B or IDEA). These regulations govern the Assistance to States for the Education of Children with Disabilities program and the Preschool Grants for Children with Disabilities program. These amendments revise the regulations governing the requirement that local educational agencies maintain fiscal effort.

DATES: These regulations are effective on July 1, 2015.

Applicability dates: The Subsequent Years rule for Fiscal Years 2014 and 2015, stated in final § 300.203(c)(1), reiterates the relevant provision of the 2014 Appropriations Act and the 2015 Appropriations Act, respectively. As explained in the Effective Date section of the Analysis of Comments and Changes, the 2014 and 2015 Appropriations Acts made the Subsequent Years rule applicable for IDEA Part B grants awarded on July 1, 2014, and July 1, 2015, respectively.

FOR FURTHER INFORMATION CONTACT:

Telephone: (202) 245–7324. If you use a telecommunications device for the deaf (TDD) or a text telephone (TTY), you may call the Federal Relay System (FRS) at 1–800–877–8339.

SUPPLEMENTARY INFORMATION: We amend the regulations governing the Assistance to States for Education of Children with Disabilities program and the Preschool Grants for Children with Disabilities program. On September 18, 2013, the Secretary published a notice of proposed rulemaking (NPRM) in the Federal Register (78 FR 57324) to amend the regulations in 34 CFR part 300 governing these programs. In the preamble to the NPRM, the Secretary discussed the changes being proposed to the regulations governing the requirement that LEAs maintain effort, specifically: (1) The compliance standard; (2) the eligibility standard; (3) the level of effort required of an LEA in the year after it fails to maintain effort; and (4) the consequence for a failure to maintain local effort. These final regulations adopt the proposed amendments with modifications to improve organization, clarity, and flexibility for LEAs.

Major Changes in the Regulations

The following is a summary of the major changes in these final regulations from the regulations proposed in the NPRM. The rationale for each of these changes is discussed in the Analysis of Comments and Changes section of this preamble.

- We moved the regulations governing eligibility for an IDEA Part B subgrant (sections 611 and 619 of the IDEA) from proposed § 300.203(b) to § 300.203(c). The new § 300.203(c)(1) is applicable to any fiscal year beginning on or after July 1, 2015, and addresses the level of effort an LEA must maintain in a fiscal year after it fails to maintain effort, and the LEA is relying on local funds only, or local funds only on a per capita basis. The level of expenditures required of the LEA is the amount that would have been required under paragraph (b)(2) or (iii) in the absence of that failure, the LEA’s reduced level of expenditures.

The new § 300.203(c)(1) is applicable to any fiscal year beginning on or after July 1, 2015, and addresses the level of effort an LEA must maintain in a fiscal year after it fails to maintain effort, and the LEA is relying on local funds only, or local funds only on a per capita basis. The level of expenditures required of the LEA is the amount that would have been required under paragraph (b)(2) or (iii) in the absence of that failure, the LEA’s reduced level of expenditures.

- We moved the regulations governing compliance from proposed § 300.203(a) to § 300.203(b).

- We moved the regulations governing compliance from proposed § 300.203(a) to § 300.203(b).

Major Changes in the Regulations

The following is a summary of the major changes in these final regulations from the regulations proposed in the NPRM. The rationale for each of these changes is discussed in the Analysis of Comments and Changes section of this preamble.

- We moved the regulations governing eligibility for an IDEA Part B subgrant (sections 611 and 619 of the IDEA) from proposed § 300.203(b) to § 300.203(c). The new § 300.203(c)(1) is applicable to any fiscal year beginning on or after July 1, 2015, and addresses the level of effort an LEA must maintain in a fiscal year after it fails to maintain effort, and the LEA is relying on local funds only, or local funds only on a per capita basis. The level of expenditures required of the LEA is the amount that would have been required under paragraph (b)(2) or (iii) in the absence of that failure, the LEA’s reduced level of expenditures.

The new § 300.203(c)(1) is applicable to any fiscal year beginning on or after July 1, 2015, and addresses the level of effort an LEA must maintain in a fiscal year after it fails to maintain effort, and the LEA is relying on local funds only, or local funds only on a per capita basis. The level of expenditures required of the LEA is the amount that would have been required under paragraph (b)(2) or (iii) in the absence of that failure, the LEA’s reduced level of expenditures.

- We added language to the compliance standard in § 300.203(b)(2) to clarify the four methods that LEAs may use to meet this standard: (1) Local funds only, (2) the combination of State and local funds, (3) local funds only on a per capita basis, or (4) the combination of State and local funds on a per capita basis.

- We changed the language in the eligibility standard in § 300.203(a)(1) to provide that the comparison year is the most recent fiscal year for which information is available, regardless of which method an LEA uses to establish eligibility.

- We added language to the eligibility standard in § 300.203(a)(2) to provide that, when determining the amount of funds that the LEA must budget to meet the requirement in paragraph (a)(1), the LEA may take into consideration, to the extent the information is available, the exceptions and adjustment provided in §§ 300.204 (exceptions for local changes) and 300.205 (adjustment for Federal increase) that the LEA: (i) Took in the intervening year or years between the most recent fiscal year for which information is available and the fiscal year for which the LEA is budgeting; and (ii) reasonably expects to take in the fiscal year for which the LEA is budgeting.

- We added language in § 300.203(a)(3) to clarify that expenditures made from funds provided by the Federal government for which the State educational agency (SEA) is required to account to the Federal government, or for which the LEA is required to account to the Federal government directly or through the SEA, may not be considered in determining whether an LEA meets the eligibility standard in § 300.203(a)(1).

- We added language to the compliance standard in § 300.203(b)(1) to state that the comparison year is the preceding fiscal year, regardless of which method an LEA uses to establish compliance.

- We added language to the compliance standard in § 300.203(b)(2) to clarify the four methods that LEAs may use to meet this standard: (1) Local funds only, (2) the combination of State and local funds, (3) local funds only on a per capita basis, or (4) the combination of State and local funds on a per capita basis.

- We changed the language in the compliance standard in § 300.203(b)(1) to state that the comparison year is the preceding fiscal year, regardless of which method an LEA uses to establish compliance.

- We added language to the compliance standard in § 300.203(b)(2) to clarify the four methods that LEAs may use to meet this standard: (1) Local funds only, (2) the combination of State and local funds, (3) local funds only on a per capita basis, or (4) the combination of State and local funds on a per capita basis.
maintain its level of expenditures for the education of children with disabilities, the SEA is liable in a recovery action for either the amount by which the LEA failed to maintain its level of expenditures in that fiscal year or the amount of the LEA’s Part B subgrant in that fiscal year, whichever is lower.

- We made conforming changes to §§ 300.204, 300.205, and 300.208.
- We added a new “Appendix E to Part 300–Local Educational Agency Maintenance of Effort Calculation Examples”.

Public Comment

In response to our invitation in the NPRM, more than 300 parties submitted comments on the proposed regulations. The perspectives of parents, individuals with disabilities, teachers, related services providers, State and local officials, and others were very important in helping us identify where changes to the proposed regulations were necessary and in formulating those changes.

Analysis of Comments and Changes

An analysis of the comments and of any changes in the regulations since publication of the NPRM follows. We group comments and our responses to them by these subjects and sections:

THE SUBSEQUENT YEARS RULE, § 300.203(c)

Effective Date

LEA Compliance, § 300.203(b)

Compliance Standard and Methodology

Comparison Year

Exceptions and Adjustment

Data Retention and Administration

LEA Eligibility, § 300.203(a)

Eligibility Standard and Methodology

Comparison Year

Exceptions and Adjustment

SEA Review

Indigibility

Failure to Maintain Effort and Consequence, § 300.203(d)

Legal Authority

Burden on SEAs

Calculating Penalties

Miscellaneous Comments

Generally, we do not address:

(a) Minor changes, including technical changes made to the language published in the NPRM;

(b) Suggested changes the Secretary is not legally authorized to make under applicable statutory authority;

(c) Suggested changes that are beyond the scope of the changes proposed in the NPRM, including comments and suggestions relating to the scope and meaning of the exceptions and adjustment in §§ 300.204 and 300.205, except as those issues are directly related to the NPRM; and

(d) Comments that express concerns of a general nature about the U.S. Department of Education (Department) or other matters that are not germane, such as requests for information about innovative instructional methods or matters that are within the purview of State and local decision-makers.

However, the Department intends to issue guidance on LEA maintenance of effort (MOE) and to continue to provide technical assistance to States to address State-specific concerns.

The Subsequent Years Rule, § 300.203(c)

Throughout the Analysis of Comments and Changes, we reference the Subsequent Years rule. The rule, as provided in final § 300.203(c), applies to LEAs that fail to maintain effort and provides that, in the fiscal year after an LEA fails to maintain effort, the level of effort the LEA must meet under § 300.203 is the level of effort that would have been required in the absence of that failure, not the LEA’s actual reduced level of expenditures.

Comment: Some commenters supported the Subsequent Years rule, which provides that, in the fiscal year after an LEA fails to maintain effort, the level of effort it must meet under § 300.203 is the level of effort that would have been required in the absence of that failure, not the LEA’s actual reduced level of expenditures. Other commenters disagreed and asserted that the intent of the IDEA was to ensure that LEAs not reduce their level of expenditures for the education of children with disabilities from the preceding fiscal year, regardless of whether the LEA maintained effort in the preceding fiscal year.

Some commenters expressed concern that the Subsequent Years rule does not address the flexibility LEAs need as State and Federal funding levels shrink and as the demographics and educational needs of their students vary from year to year. These commenters recommended revising the proposed regulation to permit an LEA to use the preceding fiscal year as the comparison year to meet the compliance standard, regardless of whether the LEA met the compliance standard in that year.

In addition, a few of these commenters stated that the Subsequent Years rule is inconsistent with the IDEA and referenced the Subsequent Years provision in another section of the IDEA related to State financial support.

Section 612(a)(18)(D) of the IDEA (20 U.S.C. 1412(a)(18)(D)). These commenters stated that, while Congress provided an explicit requirement for maintaining State financial support in any fiscal year following a fiscal year in which a State failed to maintain State financial support, Congress did not address what happens in a fiscal year after an LEA fails to maintain effort. The commenters, therefore, concluded that Congress did not intend to provide for a Subsequent Years rule applicable to LEA MOE.

Discussion: The Department continues to believe that when an LEA fails to maintain its required level of expenditures, the level of expenditures required in future fiscal years is the amount that would have been required in the absence of that failure, and not the LEA’s actual expenditures in the fiscal year in which it failed to meet the compliance standard. We formally adopted this interpretation in April 2012, and it is based on a careful consideration of the statutory language, structure, and purpose. See April 4, 2012, letter to Ms. Kathleen Boundy, available at http://www2.ed.gov/policy/speeded/guid/idea/letters/2012-2/index.html.

Section 613(a)(2)(B) and (C) of the IDEA (20 U.S.C. 1413(a)(2)(B) and (C)) provides four exceptions and an adjustment that permit an LEA to lawfully reduce its expenditures for the education of children with disabilities when compared to the preceding fiscal year. The absence of an exception in the statute for the failure of an LEA to meet the compliance standard in the preceding fiscal year strongly supports that such a failure does not reduce the level of expenditures required in future years. In light of the detail with which other exceptions are laid out in the statute, we believe that the IDEA’s silence on the level of expenditures required in the fiscal year after an LEA has failed to meet the compliance standard does not reflect an intent by Congress to permit LEAs to benefit from a violation of the IDEA. Indeed, Congress included the Subsequent Years rule in the 2014 Appropriations Act, Public Law 113–76, 128 Stat. 5, 394 (2014), and in the 2015 Appropriations Act, Public Law 113–255, 128 Stat. 2130, 2499 (2014) and used substantially similar language to the language the Department used in the NPRM and to the language in the Subsequent Years subparagraph of the maintenance of State financial support provision in section 612(a)(18)(D) of the IDEA. These factors strongly support the Department’s conclusion that the Subsequent Years rule reflects congressional intent.

Furthermore, allowing an LEA to permanently reduce spending for the education of children with disabilities by failing to comply with the IDEA in a preceding fiscal year is inconsistent with the purpose of the MOE...
All references to a "fiscal year" in these regulations refer to the fiscal year covering that school year, unless otherwise noted.

We also believe that permitting an LEA to reduce expenditures for the education of children with disabilities for reasons not specifically stated in the exceptions and adjustment in section 613(a)(2)(B) and (C) of the IDEA (20 U.S.C. 1413(a)(2)(B) and (C)) would likely have a negative effect on the amount and type of special education and related services available for children with disabilities. This result would be contrary to the overall purpose of the IDEA, which is "to ensure that all children with disabilities have available to them a free appropriate public education." Section 601(d) of the IDEA (20 U.S.C. 1401(d)).

To provide additional clarity on the Subsequent Years rule and other issues raised in comments the Department received, we have included a number of tables in the Analysis of Comments and Changes. In addition, we are including all of the tables in a new Appendix E in order to ensure that they will be included when these final regulations are published in the Code of Federal Register. Tables 1 through 4 provide examples of how an LEA may comply with the Subsequent Years rule. Figures are in $10,000s. In Table 1, for example, an LEA spent $1 million in Fiscal Year (FY) 2012–2013 on the education of children with disabilities. The following year, the LEA was required to spend at least $1 million but spent only $900,000. In FY 2014–2015, therefore, the LEA is required to spend $1 million, the amount it was required to spend in 2013–2014, not the $900,000 it actually spent.

### Table 1—Example of Level of Effort Required to Meet MOE Compliance Standard in Year Following a Year in Which LEA Failed to Meet MOE Compliance Standard

<table>
<thead>
<tr>
<th>Fiscal year</th>
<th>Actual level of effort</th>
<th>Required level of effort</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>2012–2013</td>
<td>$100</td>
<td>$100</td>
<td>LEA met MOE.</td>
</tr>
<tr>
<td>2013–2014</td>
<td>$90</td>
<td>100</td>
<td>LEA did not meet MOE.</td>
</tr>
<tr>
<td>2014–2015</td>
<td></td>
<td>100</td>
<td>Required level of effort is $100 despite LEA’s failure in 2013–2014.</td>
</tr>
</tbody>
</table>

Table 2 shows how to calculate the required level of effort when there are consecutive fiscal years in which an LEA does not meet MOE.

### Table 2—Example of Level of Effort Required to Meet MOE Compliance Standard in Year Following Consecutive Years in Which LEA Failed to Meet MOE Compliance Standard

<table>
<thead>
<tr>
<th>Fiscal year</th>
<th>Actual level of effort</th>
<th>Required level of effort</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>2012–2013</td>
<td>$100</td>
<td>$100</td>
<td>LEA met MOE.</td>
</tr>
<tr>
<td>2013–2014</td>
<td>$90</td>
<td>100</td>
<td>LEA did not meet MOE.</td>
</tr>
<tr>
<td>2014–2015</td>
<td>$90</td>
<td>100</td>
<td>LEA did not meet MOE. Required level of effort is $100 despite LEA’s failure in 2013–2014.</td>
</tr>
</tbody>
</table>

Table 3 shows how to calculate MOE in a fiscal year after which an LEA spent more than the required amount on the education of children with disabilities. This LEA spent $1.1 million in FY 2015–2016 though only $1 million was required. The required level of effort in FY 2016–2017, therefore, is $1.1 million.

### Table 3—Example of Level of Effort Required to Meet MOE Compliance Standard in Year Following Year in Which LEA Met MOE Compliance Standard

Table 4 shows the same calculation when, in an intervening fiscal year, 2016–2017, the LEA did not maintain effort.

---

1 All references to a “fiscal year” in these regulations refer to the fiscal year covering that school year, unless otherwise noted.
To increase understanding of, and therefore compliance with, the Subsequent Years rule, and to address Congress’s adoption of it for FYs 2014 and 2015 (the fiscal years beginning on July 1, 2014 and July 1, 2015, respectively) in the 2014 Appropriations Act and 2015 Appropriations Act, we divided proposed § 300.203(c) into three paragraphs.

The first, § 300.203(c)(1), states the Subsequent Years rule for FYs 2014 and 2015, respectively, as provided by the 2014 and 2015 Appropriations Acts. Section 300.203(c)(1) states that if, in the fiscal year beginning on July 1, 2013 or July 1, 2014, an LEA fails to meet the requirements of § 300.203 in effect at that time, the level of expenditures required of the LEA for the fiscal year subsequent to the year of the failure is the amount that would have been required in the absence of that failure, not the LEA’s reduced level of expenditures. In short, the 2014 Appropriations Act requires the LEA to maintain effort, in 2014–2015, at the level that the LEA maintained in 2013–2014, unless the LEA did not meet the effort required in that year. If it did not, the LEA must maintain effort at the level that the LEA should have maintained in 2013–2014, which is the level from the preceding fiscal year, 2012–2013. Similarly, the 2015 Appropriations Act requires the LEA to maintain effort, in 2015–2016, at the level that the LEA maintained in 2014–2015, unless the LEA did not meet the effort required in that year. If it did not, the LEA must maintain effort at the level that the LEA should have maintained in 2014–2015, which is the level from the preceding fiscal year, 2013–2014.

The second paragraph, § 300.203(c)(2), is applicable beginning on July 1, 2015, and sets out the Subsequent Years rule for when an LEA failed to meet the compliance standard using local funds only, or local funds only on a per capita basis, in a preceding fiscal year, and the LEA is relying on the same method to meet the eligibility or compliance standard in a subsequent year.

The third paragraph, § 300.203(c)(3), is also applicable beginning on July 1, 2015, and sets out the Subsequent Years rule for when an LEA failed to meet the compliance standard using a combination of State and local funds, or a combination of State and local funds on a per capita basis, in a preceding fiscal year, and the LEA is relying on the same method to meet the eligibility or compliance standard in a subsequent year.

Changes: We replaced proposed § 300.203(c) with a clearer articulation of the Subsequent Years rule in three paragraphs, § 300.203(c)(1), (2), and (3). Final § 300.203(c) accounts for the adoption of the Subsequent Years rule for FY 2014 in the 2014 Appropriations Act, and, for FY 2015 in the 2015 Appropriations Act, but does not change the substance of the Subsequent Years rule from what was proposed in the NPRM.

Effective Date

Comment: Some commenters requested that the effective date of these regulations be extended to a date later than July 1, 2014, because SEAs and LEAs will need additional time to revise their policies and procedures. Several commenters recommended that the effective date be removed altogether, because the proposed regulations did not change LEAs’ existing obligation to maintain effort, which, some commenters stated, dates to 1997. Those commenters stated that the proposed July 1, 2014, effective date would permit some LEAs that did not maintain effort in a fiscal year prior to the fiscal year that begins on July 1, 2014, to take advantage of that failure.

Discussion: There appears to have been confusion among some commenters about the effective date proposed in the NPRM. We proposed July 1, 2014, because that date was to be the beginning of the first grant award period after the date on which these regulations were published. The beginning of the first grant award period after publication of these regulations is now July 1, 2015. We have, therefore, made July 1, 2015, the effective date of these regulations. We believe this gives SEAs and LEAs sufficient time to revise their policies and procedures. This does not mean, however, that the obligation of an LEA to maintain effort, or to comply with the Subsequent Years rule, begins on that date.

To the contrary, as we previously explained, the 2014 Appropriations Act and the 2015 Appropriations Act made the Subsequent Years rule applicable for the grant year beginning on July 1, 2014, and July 1, 2015, respectively. On March 13, 2014, the Office of Special Education Programs (OSEP) issued a letter to Chief State School Officers explaining the relevant provision of the 2014 Appropriations Act related to the Subsequent Years rule, and stating that the provision was effective for Part B grants awarded on July 1, 2014. See March 13, 2014 letter to Chief State School Officers, available at http://www2.ed.gov/policy/speced/guid/idea/memosdcltrs/lea-moe-3-13-14.pdf.

Prior to that, in 2012, OSEP issued the April 4, 2012, letter to Ms. Kathleen Boundy addressing this issue. In that letter, the Department set out the Subsequent Years rule, which stated that the level of effort that an LEA must meet in the year after it fails to maintain effort is the level of effort that it should have met in the preceding fiscal year and not the LEA’s actual expenditures for that year. While these regulations codify this position, this has been the Department’s interpretation of the statute since the letter to Ms. Boundy was issued. Therefore, the Department’s expectation is that SEAs and LEAs have been complying with this interpretation since FY 2012–2013.

For FY 2012–2013, an LEA must have maintained at least the same level of expenditures as it did in the preceding fiscal year, FY 2011–2012, unless it did

</tr>
</tbody>
</table>
not meet the compliance standard in that year. If it did not, the LEA must determine what it should have spent in FY 2011–2012, which is the amount that it actually spent in the preceding fiscal year, FY 2010–2011.

The Department is unable, as some commenters suggest, to make these regulations effective back to 1997. The Department’s guidance about MOE prior to April 2012 was not always consistent with the current interpretation. For example, our 2011 letter to Dr. Bill East offered different guidance on the Subsequent Years rule. See June 16, 2011, letter to Dr. Bill East, available at http://www2.ed.gov/policy/speech/specl/guid/idea/letters/2011-2/east061611partbmoep2g2011.pdf. We cannot now fault an SEA or an LEA for following the Department’s earlier guidance, and therefore cannot extend the effective date of the rules back to 1997.

Changes: The effective date of these regulations is July 1, 2015.

Comment: One commenter requested that we add a paragraph (d) to § 300.203 that would, in effect, provide that States could not determine that LEAs were out of compliance with the MOE requirement for any fiscal year for which the State had previously determined the LEA to be in compliance.

Discussion: Because the Department may not impose retroactive requirements on grantees, it is not necessary to include in the final regulations a separate provision indicating that States and LEAs that were determined to be in compliance with the regulations in effect at the time of the receipt of a grant or subgrant may rely on those determinations of compliance. The Department does not expect States to revisit their compliance determinations.

Changes: None.

LEA Compliance, § 300.203(b)

Comment: Some commenters suggested that the regulation be revised to reflect the order of the process so that the eligibility standard is set out before the compliance standard.

Discussion: We agree that the eligibility standard should precede the compliance standard and that doing so will provide additional clarity. Therefore, we have set out the eligibility standard in § 300.203(a) and the compliance standard in § 300.203(b).

Changes: We have revised final § 300.203(a) to specify the eligibility standard and final § 300.203(b) to specify the compliance standard. We also have made conforming changes in §§ 300.203(c), 300.204, 300.205, and 300.208.

Comment: Commenters raised many questions and concerns about the four methods by which an LEA may meet the compliance standard. One commenter requested that the proposed regulations specifically list the four methods available to LEAs. Some commenters requested that the Department clarify that SEAs are required to allow LEAs to meet the compliance standard using any of the four methods. Other commenters stated that the proposed regulations emphasize meeting the MOE requirement using local funds only.

Discussion: We agree that additional clarification is needed regarding the four methods by which an LEA may meet the compliance standard. We also agree that listing the four methods individually in the compliance standard will make it easier to understand that an LEA may meet the compliance standard using any one of these four methods and that SEAs must permit LEAs to do so. Listing the four methods individually should also clarify that the regulations do not emphasize meeting the compliance standard using local funds only or local funds only on a per capita basis.

Changes: We have revised final § 300.203(b)(2) to clarify that an LEA meets the compliance standard if it does not reduce the level of expenditures for the education of children with disabilities made by the LEA from at least one of the following sources below the level of those expenditures from the same source for the preceding fiscal year: (i) Local funds only; (ii) the combination of State and local funds; (iii) local funds only on a per capita basis; or (iv) the combination of State and local funds on a per capita basis.

Comment: A few commenters requested clarification regarding whether and how LEAs may change methods to establish compliance from one year to the next. A commenter asked whether an LEA must use the same method to meet the compliance standard in a fiscal year that it used to meet the eligibility standard for that same year.

Discussion: LEAs may change methods to establish compliance from one year to the next. Many LEAs will meet the compliance standard for a fiscal year using more than one method. An LEA is not required to use the same method to meet the compliance standard in a fiscal year that it used to meet the eligibility standard for that same year. If an LEA meets the eligibility standard for FY 2016–2017 using local funds only, it is not required to meet the compliance standard for FY 2016–2017 using local funds only. Likewise, an LEA is not required to use the same method to meet the eligibility standard in a subsequent year that it used to meet the compliance standard in a preceding fiscal year. For example, if an LEA met the compliance standard for FY 2016–2017 using a combination of State and local funds, the LEA is not required to meet the eligibility standard for FY 2017–2018 using a combination of State and local funds.

An LEA may demonstrate that it meets the eligibility standard using any of the four methods. Similarly, during the course of an audit or other compliance review, the LEA may demonstrate that it met the compliance standard using any of the four methods. Selecting a particular method does not mean that the LEA did not meet the compliance standard using any of the other methods, or that the LEA cannot rely on those other methods to identify the amount of expenditures it must budget in order to meet the eligibility standard in a future fiscal year. It simply means that the LEA only has to meet the eligibility or compliance standard using one method.

LEAs may meet the compliance standard using alternate methods from year to year. For example, an LEA met the compliance standard in FY 2016–2017 using all four methods. During a compliance review, the LEA provided data to the SEA demonstrating that it met the compliance standard for that year using a combination of State and local funds on a per capita basis. This data would be sufficient for the SEA to find that the LEA met the compliance standard. Subsequently, the State conducts an audit to determine if the LEA met the compliance standard in the next year, FY 2017–2018. The LEA provides information to the auditor that demonstrates that it met the compliance standard in FY 2017–2018 using local funds only. In order to demonstrate that it met the compliance standard using that method, the LEA provides to the auditor the amount of local funds only that the LEA spent for the education of children with disabilities in FY 2016–2017 and in FY 2017–2018 so that the auditor is comparing each year’s expenditures using the same method. A further example can be found in Table 5 below.

Changes: None.

Comment: Another commenter asked whether the LEA must use separate thresholds for compliance using local funds only as well as local funds only on a per capita basis.
Discussion: The LEA would compare the amount of local funds only spent in the comparison year and the year for which it seeks to establish compliance. The LEA is not required to maintain effort on both an aggregate and a per capita basis. For example, if the LEA spent $100 in local funds only in FY 2016–2017 and had 10 children with disabilities, the LEA spent $10 in local funds only on a per capita basis. Assuming the LEA met MOE in FY 2016–2017 using those two methods, that is the amount ($10 per child with a disability) that the LEA would have to spend in FY 2017–2018 in order to meet the compliance standard using local funds only on a per capita basis, and $100 is the aggregate amount that the LEA would have to spend in FY 2017–2018 in order to meet the compliance standard using local funds only, assuming that, in FY 2017–2018, the LEA did not take any exceptions or adjustment in §§ 300.204 and 300.205. As noted above, the LEA is required to meet the compliance standard using only one of the four methods.

Changes: None.

Comment: A commenter noted that the tables in the NPRM did not address the difficulties encountered by LEAs that wish to use the exceptions and adjustment in §§ 300.204 and 300.205, or use per capita methods.

Discussion: Tables 5 through 9 address this comment. Table 5 provides an example of how an LEA may meet the compliance standard using alternate methods from year to year without using the exceptions or adjustment in §§ 300.204 and 300.205, and provides information on the following scenario. In FY 2015–2016, the LEA meets the compliance standard using all four methods. As a result, in order to demonstrate that it met the compliance standard using any one of the four methods in FY 2016–2017, the LEA must expend at least as much as it did in FY 2015–2016 using that same method. Because the LEA spent the same amount in FY 2016–2017 as it did in FY 2015–2016, calculated using a combination of State and local funds and a combination of State and local funds on a per capita basis, the LEA met the compliance standard using both of those methods in FY 2016–2017. However, the LEA did not meet the compliance standard in FY 2016–2017 using the other two methods—local funds only or local funds only on a per capita basis—because it did not spend at least the same amount in FY 2016–2017 as it did in FY 2015–2016 using the same methods.

In FY 2017–2018, the LEA may meet the compliance standard using any one of the four methods. To meet the compliance standard using a combination of State and local funds, or a combination of State and local funds on a per capita basis, the LEA must expend at least the same amount it did in FY 2016–2017 using either of those methods, since it met the compliance standard using those methods in FY 2016–2017. Or, if the LEA seeks to meet the compliance standard using the other two methods available, local funds only or local funds only on a per capita basis, in FY 2017–2018, it must expend at least as much as it did in FY 2015–2016 using either of those methods. This is because the LEA did not meet the compliance standard using local funds only or local funds only on a per capita basis in FY 2016–2017. In FY 2016–2017, to demonstrate that it met the compliance standard using local funds only, or local funds only on a per capita basis, the LEA is required to spend at least the amount it expended in FY 2015–2016 from those sources. Per the Subsequent Years rule, the amount of expenditures from local funds only and local funds only on a per capita basis in FY 2015–2016 becomes the required level of effort in FY 2017–2018. Numbers are in $10,000s spent for the education of children with disabilities.

* LEA met compliance standard using this method.

Changes: We have not changed the regulation but we have included Tables 5 through 9 to illustrate examples of how an LEA may meet the compliance or eligibility standard using alternate methods from year to year, either with or without using the exceptions or adjustment in §§ 300.204 and 300.205.

Comment: One commenter requested clarification of the two per capita methods, one based on local funds only and one based on a combination of State and local funds.

Discussion: The regulations do not change the standards for meeting MOE using local funds only on a per capita basis or a combination of State and local funds on a per capita basis. The regulations continue to use the term “per capita,” which, in context, refers to the amount per child with a disability served by the LEA, either in local funds per child with a disability or a combination of State and local funds per child with a disability.

When calculating the required level of effort on a per capita basis for the purpose of meeting the compliance standard, the LEA must determine the amount of local funds only (or a combination of State and local funds, as applicable) on a per capita basis that it expended for the education of children with disabilities, and reduce that amount by the exceptions and adjustment under §§ 300.204 and 300.205 calculated on a per capita basis. Specifically, the LEA must first divide the aggregate amount of exceptions and the adjustment it properly takes under §§ 300.204 and 300.205 by the child count in the comparison year. The LEA must then subtract that result from the amount of local funds only (or a combination of State and local funds, as appropriate) on a per capita basis expended in the comparison year. Using other methods to determine the required level of effort (e.g., dividing the required level of aggregate effort using local funds only by the current year child count or dividing the exceptions and adjustment under §§ 300.204 and 300.205 properly taken by an LEA by the current year child count) may result in an inaccurate calculation of the required level of effort.
Table 6 provides an example of how an LEA may meet the compliance standard using alternate methods from year to year in years that the LEA used the exceptions or adjustment in §§300.204 and 300.205, including using the per capita methods. Numbers are in $10,000s spent for the education of children with disabilities.

*LEA met MOE using this method.

**Note:** When calculating any exception(s) and/or adjustment on a per capita basis for the purpose of determining the required level of effort, the LEA must use the child count from the comparison year, and not the child count of the year in which the LEA took the exception(s) and/or adjustment. When determining the actual level of effort on a per capita basis, the LEA must use the child count for the current year. For example, in determining the actual level of effort in 2018–2019, the LEA uses a child count of 9, not the child count of 10 in the comparison year.

**Changes:** We have not changed the regulation but we have revised Table 6 to include the use of alternate methods from year to year to meet the MOE requirements in years where the LEA used the exceptions or adjustment.

**Comment:** One commenter asked whether the LEA or the SEA selects the method by which an LEA meets the compliance standard if the LEA in fact met the standard using more than one method. The commenter expressed concern that choosing one method over another will affect the comparison year to be used in the future.

**Discussion:** The SEA is responsible for determining whether an LEA meets the MOE eligibility standard in §300.203(a) and for determining whether an LEA meets the MOE compliance standard in §300.203(b). In order to make this determination, the SEA must permit the LEA to meet either standard using any of the four methods. If the LEA meets the standards using more than one method, the SEA may select the method it uses to determine that the LEA met the eligibility or compliance standard. Ultimately, however, regardless of the method used to make these determinations, an LEA is not precluded from selecting a different method to meet either the eligibility or compliance standard in a subsequent year.

**Changes:** None.

**Comment:** A commenter suggested that the per capita calculation be expanded to allow for either
“headcount” or a full-time equivalent (FTE) because FTE is more closely related to the cost of services than headcount.

Discussion: By referencing FTE, we assume that the commenter was referring to using a per capita method of calculating effort that measures the cost per hour of special education and related services an LEA provides to children with disabilities, rather than the amount spent per child with a disability, in a particular fiscal year. Using a measure that depends on the cost of FTEs could allow LEAs to meet MOE by reducing the number of hours of special education and related services an LEA provides to children with disabilities. We therefore decline to adopt this method of measuring effort. This decision is consistent with the position we have taken on the meaning of “per capita.” As explained in the Analysis of Comments and Changes in the preamble to the 2006 IDEA Part B regulations, “[w]e do not believe it is necessary to include a definition of ‘per capita’... because we believe that, in the context of the regulations, it is clear that we are using this term to refer to the amount per child with a disability served by the LEA.” See 71 FR 46540, 46624 (Aug. 14, 2006).

Changes: None.

Comment: Some commenters asked for clarification on how to determine the amount an LEA must spend in local funds only or local funds only on a per capita basis to meet the compliance and eligibility standards using local funds only, even in years when the level of expenditures for the education of children with disabilities made by the LEA is lower than the level of those expenditures in the comparison year.

Discussion: LEAs, including an LEA that has not spent any local funds for the education of children with disabilities since the MOE requirement was enacted in 1997, are permitted to use any of the four methods to meet the compliance and eligibility standards. An LEA that has spent $0 in local funds for the education of children with disabilities can meet the compliance and eligibility standards by continuing to budget and spend $0 in local funds for the education of children with disabilities. However, the Department believes that there are very few instances where LEAs have spent $0 in local funds for the education of children with disabilities. We remind LEAs that, when demonstrating that they meet the compliance and eligibility standards using any of the four methods, they must be able to provide auditable data regarding their expenditures from the relevant sources in all relevant years. Simply because an LEA does not account for local funds separately from State funds does not mean that the LEA expenses $0 in local funds for the education of children with disabilities. We also remind LEAs that, regardless of which method they use to demonstrate that they meet the standards, they must continue to make a free appropriate public education (FAPE) available to all eligible children with disabilities.

Changes: None.

Comment: One commenter suggested we adopt this method of measuring effort. This decision is consistent with the position we have taken on the meaning of “per capita.” As explained in the Analysis of Comments and Changes in the preamble to the 2006 IDEA Part B regulations, “[w]e do not believe it is necessary to include a definition of ‘per capita’... because we believe that, in the context of the regulations, it is clear that we are using this term to refer to the amount per child with a disability served by the LEA.” See 71 FR 46540, 46624 (Aug. 14, 2006).

Changes: None.

Discussion: Section 613(a)(2)(A)(iii) of the IDEA (20 U.S.C. 1413(a)(2)(A)(iii)) states that, except as provided in section 613(a)(2)(B) and (C) of the Act, Part B funds provided to an LEA must not be used to reduce the level of expenditures for the education of children with disabilities made by the LEA below the level of those expenditures for the preceding fiscal year. Substituting a requirement that an LEA not reduce the percentage of its total budget spent for the education of children with disabilities would not ensure that the LEA would meet the requirement in the statute, which prohibits a reduction in the level of expenditures for the education of children with disabilities, and not a percentage of the overall education budget. In addition, this approach does not provide protection for children with disabilities when the overall amount of the education budget drops. Therefore, the Department declines to make this change.

Changes: None.

Comment: A commenter suggested we reverse the order of the compliance standard in proposed § 300.203(a)(2)(i) and (ii) so that the methods that reference State and local funds. Another commenter recommended that the compliance standard in proposed § 300.203(a)(2) be rephrased in affirmative language.

Discussion: As previously stated, we have revised final § 300.203(b)(2) (proposed § 300.203(a)(2)(i) and (ii)). Therefore, the suggestion to reverse the order of proposed § 300.203(a)(2)(i) and (ii) is no longer applicable. These comments and analyses use affirmative language where appropriate. In addition, the Department intends to issue guidance on these regulations and plans to provide examples in that guidance using affirmative language.
Changes: None.

Comment: One commenter recommended that the determination that an LEA receives pursuant to section 616 of the IDEA (20 U.S.C. 1416) be considered when deciding whether an LEA met the MOE compliance standard because that determination is based on IDEA Part B compliance requirements and is an indication that the LEA implemented the requirements of the IDEA.

Discussion: Section 616 of the IDEA includes provisions related to monitoring, technical assistance, and enforcement of the IDEA. Pursuant to section 616(a)(1)(C) of the IDEA and 34 CFR 300.600(a), each State must determine annually whether an LEA meets the requirements and purposes of the IDEA. The commenter’s suggestion is not consistent with section 613(a)(2)(A)(iii) of the IDEA (20 U.S.C. 1413(a)(2)(A)(iii)), which requires LEAs to maintain effort. Compliance with the MOE provision is a distinct requirement that cannot be met through compliance with other IDEA requirements or through meeting results targets.

Changes: None.

Comment: One commenter recommended that we add a new subsection to proposed §300.203 entitled “Budget and Expenditure Categories” that would define or reference the terms “education” and “related services.” The commenter recommended that the regulations allow LEAs to compare either “education expenditures or “education and related services” expenditures to meet the compliance and eligibility standards. The commenter stated that, in States where certain federally-defined “related services” are considered “education” pursuant to State law, an annual MOE comparison of “education and related services” may be preferable. The commenter stated that, in that instance, the match provided in order to receive the Federal Medicaid reimbursement should be included in the calculation.

Discussion: The Department disagrees that the regulations should include definitions of these terms. The terms “special education” and “related services” are defined in §§300.39 and 300.34, respectively. When calculating the amount an LEA spends for the education of children with disabilities, the LEA must include expenditures for related services, regardless of whether a State considers certain federally-defined related services as education pursuant to State law. LEAs must include the amount of local only, or State and local, funds spent for the education of children with disabilities when calculating the level of effort required to meet the eligibility and compliance standards, even if those local only, or State and local, funds are also used to meet a matching requirement in the Medicaid program. We believe the regulations adequately address the expenditures that may be included in the MOE calculations, and therefore decline to add a new subsection addressing specific budget and expenditure categories.

Changes: None.

Comparison Year

Comment: We received many comments about proposed §300.203(a)(2)(ii), which provided that the comparison year for an LEA that seeks to establish compliance using local funds only, or local funds only on a per capita basis, is “the most recent fiscal year for which the LEA met the MOE compliance standard based on local funds only, even if the LEA also met the MOE compliance standard based on State and local funds.” Some commenters stated that the comparison year must always be the “preceding fiscal year” because that is the language in the statute. Other commenters suggested that proposed subsection (a)(1) include the language “even if the LEA also met the MOE compliance standard based on State and local funds.”

Discussion: We agree with the commenters that, when an LEA seeks to meet the compliance standard using local funds only, or local funds only on a per capita basis, the comparison year should align with the language in section 613(a)(2)(A)(ii) of the IDEA (20 U.S.C. 1413(a)(2)(A)(ii)), which is “the preceding fiscal year.” Using the same comparison year for local funds only and for State and local funds will simplify the requirement for LEAs, SEAs, and auditors, which should result in increased compliance and enforcement. Therefore, we changed the comparison year for meeting the compliance standard using local funds only in proposed §300.203(a)(2)(ii) to “the preceding fiscal year” from “the most recent fiscal year for which the LEA met the MOE compliance standard based on local funds only, even if the LEA also met the MOE compliance standard based on State and local funds.”

However, because we are adopting the Subsequent Years rule in §300.203(c), the Department is, in effect, defining “the preceding fiscal year” to mean the last fiscal year in which the LEA met MOE, regardless of whether the LEA is seeking to establish compliance based on local funds only, or based on State and local funds. Because our change affects the comparison year for the MOE calculation using local funds only, the provision in proposed §300.203(a)(2)(iii), which addresses the comparison year if the LEA has not previously met the MOE compliance standard based on local funds only, is no longer necessary.

With regard to the comment that the comparison year when using local funds only, or local funds only on a per capita basis, will usually be the year of the highest local funds only expenditures, the final regulations at §300.203(b)(2) provide that, regardless of the method used, the comparison year is always the preceding fiscal year. Therefore, the comparison year is subject to the Subsequent Years rule in §300.203(c), which means that, if the LEA did not maintain effort in the preceding fiscal year using local funds only, the required amount to meet the MOE compliance standard using local funds only is the amount that would have been required in the absence of that failure, and not the LEA’s reduced level of local funds only expenditures.

Changes: We have revised final §300.203(b)(2) to specify that the comparison year, regardless of the method used, is the preceding fiscal year. We also removed proposed §300.203(a)(2)(iii).

Comment: One commenter questioned the language in proposed §300.203(a)(2)(i) and (ii) that permitted LEAs to meet the compliance standard using local funds only and the combination of State and local funds. The commenter stated that having two standards imposes an unnecessary burden on SEAs and LEAs, which could result in additional misapplication of the MOE compliance standard.

Discussion: The Department agrees that proposed §300.203(a)(2)(i) and (ii) could benefit from additional clarification and that confusion will not promote compliance. Therefore, we have revised final §300.203(b)(2) (proposed §300.203(a)(2)(i) and (ii)) to state the compliance standard more clearly.

However, the option to meet the compliance standard based on local funds only or a combination of State and local funds is no longer necessary. The 1999 IDEA Part B regulations provided additional flexibility to LEAs in the
Comment: One commenter asked for clarification of the relationship between the amount by which an LEA is permitted to reduce its expenditures pursuant to §§ 300.204 and 300.205 and the amount the LEA must spend to meet the compliance standard in a future fiscal year. The commenter asked how the threshold for future compliance using local funds only or a combination of State and local funds is affected if an LEA reduces its expenditures in an amount less than the maximum amount permitted by §§ 300.204 and 300.205.

Discussion: The LEA’s actual level of expenditures for the education of children with disabilities in a preceding fiscal year, and not the reduced level of expenditures that the LEA could have spent had it taken all of the exceptions and the adjustment permitted by §§ 300.204 and 300.205, is the level of expenditures required of the LEA in a future fiscal year (which may be affected by the Subsequent Years rule in § 300.203(c)). For example, in FY 2015–2016, an LEA could have reduced its expenditures by $100,000 (from $2,100,000 to $2,000,000) by taking all of the exceptions permitted by § 300.204. However, this LEA actually spent $2,025,000 in FY 2015–2016. Therefore, this LEA only reduced its expenditures by $75,000. In FY 2016–2017, the LEA must spend at least $2,025,000 if it chooses to use the same method of measuring expenditures (before calculating any exceptions or adjustment in §§ 300.204 and 300.205 that it takes in FY 2016–2017).

Changes: None.

Comment: A commenter asked whether exceptions taken pursuant to § 300.204 have to be specifically identified as reductions to State or local expenditures and whether all exceptions are allowable against local expenditures.

Discussion: An LEA need not identify the exceptions and adjustment in §§ 300.204 and 300.205 as applying specifically against State or local expenditures. An LEA may apply the exceptions and the adjustment in §§ 300.204 and 300.205 to meet the compliance standard using any of the four methods. For an example of this calculation, see Table 6.

Changes: None.

Comment: A commenter requested that the Department allow an LEA to reduce its required level of expenditures if the increase in expenditures with State and local funds only, in the preceding fiscal year was caused by a reduction in IDEA Part B funds. Some commenters stated that, as Federal funding fluctuates, LEAs need additional flexibility to move dollars in and out of programs.

Discussion: While it is unusual for IDEA Part B funds to be reduced, the Department recognizes that this has occurred in the past. Nevertheless, reductions in expenditures, other than those permitted by the exceptions and adjustment in §§ 300.204 and 300.205, are not permissible under the statute and regulations, even if the LEA experienced decreased revenues. LEAs, therefore, must meet the eligibility and compliance standards regardless of the amount of their IDEA Part B subgrant.

Changes: None.

Comment: A few commenters requested that the Department consider a provision in the regulations that would permit a waiver of the MOE requirement, and they noted that the IDEA does not specifically prohibit MOE waivers.

Discussion: The statute does not include a waiver provision for LEA MOE. Therefore, we believe that adding such a waiver would be inconsistent with the language and purpose of the MOE requirement in section 613(a)(2)(A)(iii) of the IDEA (20 U.S.C. 1413(a)(2)(A)(iii)). In addition, the Department believes that the exceptions and adjustment in §§ 300.204 and 300.205, and the ability to meet the MOE eligibility and compliance standards using any of the four methods, provide adequate flexibility to LEAs. Therefore, these regulations do not provide for waivers of LEA MOE.

Changes: None.

Data Retention and Administration

Comment: Commenters raised many questions and concerns about whether the proposed regulations would require LEAs and SEAs to maintain data and information on expenditures. Some commenters expressed concern about the requirements for LEAs and SEAs to have systems that maintain information on the reductions an LEA took pursuant to §§ 300.204 and 300.205. Commenters were concerned about LEAs’ ability to track the allowable exceptions and adjustment every year, and the cost of doing so, even if LEAs meet the MOE requirement, and particularly if they are required to go back an indefinite number of years to examine information. Some commenters stated that the proposed regulations would increase administrative costs if LEAs are required to track expenses by local and State sources separately. A few commenters asked what circumstances an LEA may take into account if it is required to go back more than five years to compare its expenditures (e.g., population shifts; State changes in funding formulas for special education; changes in poverty levels; statutory structural changes that shift pension or health care contributions from the employer (LEA) to the employee).

Discussion: As an initial matter, in accordance with 34 CFR 76.731, SEAs and LEAs must keep records to show their compliance with program requirements, including the MOE requirement in § 300.203 and the provisions for exceptions and adjustment permitted in §§ 300.204 and 300.205. SEAs and LEAs are subject to the record retention requirements in 2 CFR 200.333, under which records must generally be retained for three years from the day the grantee or subgrantee submits to the awarding agency its single or last expenditure report for that period. Under 34 CFR 76.709, if SEAs or LEAs do not obligate all of their IDEA
Part B grant or subgrant funds by the end of the fiscal year for which Congress appropriated the funds, they may obligate those funds during a carryover period of one additional year. Therefore, SEAs and LEAs must generally keep records to show compliance with the MOE requirement for a minimum of five years. SEAs and LEAs have the discretion to keep the records longer than the required retention period if necessary to meet State and local data retention requirements.

The Department recognizes that there is confusion about the information and data that LEAs and SEAs must maintain in order to meet the eligibility and compliance standards. In addition to the minimum five-year record retention requirement discussed above, an LEA that wishes to retain the flexibility to use any of the four methods to meet the MOE requirement in a particular fiscal year must have data and information that allow the LEA to determine the amount of expenditures it made in the relevant comparison year using that same method.

An LEA that wishes to reduce its expenditures pursuant to the exceptions and adjustment in §§300.204 and 300.205 must have data and information that demonstrate the LEA properly took the exceptions and adjustment.

Unless the LEA failed to meet the compliance standard in the preceding fiscal year, the LEA will need information only from the preceding fiscal year to demonstrate compliance with the MOE requirement. However, if the LEA did not meet the compliance standard in the preceding fiscal year, the LEA will have to determine the proper comparison year. To do so, the LEA must use the Subsequent Years rule in §300.203(c) and have information for that fiscal year, even if that fiscal year falls outside of the five years required for record retention.

For example, an LEA that wishes to meet the compliance standard in FY 2016–2017 using a combination of State and local funds must have information on the amount of State and local funds it expended for the education of children with disabilities in the preceding fiscal year, which is FY 2015–2016. If the LEA did not meet the compliance standard using that method in FY 2015–2016, it must have information from the proper comparison year. Since the Subsequent Years rule requirement is effective, at the earliest, for FY 2012–2013, the LEA must have spent at least the same amount for the education of children with disabilities as it spent in FY 2011–2012. If the LEA did not meet the compliance standard in FY 2011–2012, the LEA must, using that same method, determine what it should have spent in FY 2011–2012, which is what it actually spent in FY 2010–2011. In addition, in this hypothetical, if the LEA reduces expenditures in FY 2016–2017 based on an exception or adjustment permitted in §§300.204 and 300.205, the LEA must have documentation that it properly took the exception or adjustment.

Finally, neither the proposed nor the final regulations change the circumstances under which an LEA may use the exceptions and adjustment in §§300.204 and 300.205, nor do they impose additional data retention requirements on LEAs. The change in circumstances raised by commenters, such as shifts in funding formulas, or changes that shift pension or health care contributions from the State or LEA to the employee, are not exceptions to the MOE requirement, and LEAs, therefore, would not be required to retain this information to demonstrate compliance with the MOE requirement.

**Changes:** None.

### LEA Eligibility, §300.203(a)

#### Eligibility Standard and Methodology

**Comment:** Commenters raised many questions and concerns related to the four methods by which an LEA may meet the eligibility standard. One commenter requested that the Department clarify that SEAs are required to allow LEAs to meet the eligibility standard using all four methods. Other commenters stated that the proposed regulations emphasize meeting the MOE requirement using local funds only, rather than clarifying that an LEA may meet the requirement through any of the four methods.

**Discussion:** We agree that additional clarification is needed regarding the four methods by which an LEA may meet the eligibility standard. We also agree that listing the four methods individually in the eligibility standard will clarify that an LEA may meet the eligibility standard using any one of these four methods, and that SEAs must permit LEAs to do so. Listing the four methods individually should also clarify that the regulations do not give preference or greater weight to any of the four methods.

**Changes:** We have revised final §300.203(a)(1) (proposed §300.203(b)) to specify that, for purposes of establishing an LEA’s eligibility for an award for a fiscal year, the SEA must determine that the LEA budgets, for the education of children with disabilities, at least the same amount, from at least one of the following sources, as the LEA spent for that purpose from the same source for the most recent fiscal year for which information is available: (i) State funds only; (ii) the combination of State and local funds; (iii) local funds only; (iv) the combination of State and local funds; (v) State and local funds. The Department will provide guidance on these regulations that will assist States in training LEAs on the documentation needed to demonstrate compliance with the MOE requirement.

**Changes:** None.
a per capita basis; or (iv) the combination of State and local funds on a per capita basis.

Comment: One commenter recommended that the Department retain the language in current § 300.203(b)(1) requiring “at least the same total or per capita amount . . . the LEA spent . . . for the most recent prior year for which information is available.” The commenter objected that replacing “the most recent prior year” with “the most recent fiscal year” would narrow the regulation and not give LEAs the opportunity to submit allowable exceptions for reduced expenditures that may have taken place multiple fiscal years ago. Other commenters supported the change from “most recent prior year” to “most recent fiscal year” because the latter provides more clarity.

Discussion: We do not believe that the change from “most recent prior year” to “most recent fiscal year” has the effect on demonstrating eligibility that the commenter attributes to it. The change is not a substantive change, and merely aligns the language of the regulation to the language of the statute, which uses “fiscal year” and does not use “prior year.” Section 613(a)(2)(A)(iii) of the IDEA (20 U.S.C. 1413(a)(2)(A)(iii)).

Nothing in this language prevents an LEA from reducing the amount of funds expended for the education of children with disabilities pursuant to the exceptions in § 300.204 or adjustment in § 300.205. However, an LEA may not look back to a previous fiscal year and claim exceptions for that fiscal year that it did not actually take during that fiscal year. For example, an LEA expended $10,000 for the education of children with disabilities in FY 2014–2015. During that fiscal year, the LEA could have properly reduced its expenditures pursuant to exceptions in § 300.204 by $500 but chose not to do so. In January 2016, the LEA is budgeting for the expenditures for the education of children with disabilities in order to demonstrate eligibility for an IDEA Part B subgrant for FY 2016–2017. The most recent fiscal year for which the LEA has information is FY 2014–2015. The LEA must budget $10,000 for the education of children with disabilities, and not $9,500. This is not a change in current law.

Changes: None.

Comparison Year

Comment: The Department received many comments about the comparison year an LEA must use when meeting the eligibility standard. Some commenters supported a comparison year that is the same regardless of which of the four methods the LEA uses to meet the eligibility standard.

Discussion: The Department appreciates the comments and questions that we received about the comparison year for the eligibility standard. We agree that the comparison year should be the same regardless of the method an LEA uses to meet the eligibility standard.

Using the same comparison year for local funds only and for the combination of State and local funds will simplify the requirement for LEAs, SEAs, and auditors, and therefore should result in increased compliance and enforcement. In addition, this is consistent with how we changed the comparison year for the compliance standard using local funds only.

Therefore, we have changed the comparison year for meeting the eligibility standard using local funds only in proposed § 300.203(b)(2) from “the most recent fiscal year for which information is available and the LEA met the MOE compliance standard based on local funds only, even if the LEA also met the MOE compliance standard based on State and local funds” to “the most recent fiscal year for which information is available” in final § 300.203(a)(1). However, because we are adopting the Subsequent Years rule in § 300.203(c), the Department is, in effect, defining “the most recent fiscal year for which information is available” to mean the most recent fiscal year in which the LEA met MOE and for which it has information available, regardless of whether the LEA is seeking to meet the eligibility standard based on local funds only, or based on the combination of State and local funds.

Because we have changed the comparison year for local funds only, the provision in proposed § 300.203(b)(3), which addresses the comparison year if the LEA has not previously met the MOE compliance standard based on local funds only, is no longer necessary.

Changes: We have revised final § 300.203(a)(1) (proposed § 300.203(b)(2)) to specify that the comparison year, regardless of the method used, is the most recent fiscal year for which information is available. We also removed proposed § 300.203(b)(3).

Comment: Some commenters sought a comparison year for the eligibility standard that is the “preceding fiscal year” and objected to making the comparison year “the most recent fiscal year for which information is available.” These commenters noted that the proposed regulation leaves open the possibility that the comparison year will be so far in the past that it will not provide a meaningful comparison. Similarly, other commenters recommended including language that limits how far back SEAs and LEAs must look as a reference point for comparison.

Discussion: We do not agree with commenters who stated that the comparison year should be “the preceding fiscal year” because, at the time most LEAs are budgeting for the next fiscal year (the “budget year”), the fiscal year preceding the budget year has not yet ended. Therefore, the LEA must look to the amount actually spent in “the most recent fiscal year for which information is available” to determine the amount it must budget to meet the eligibility standard.

We anticipate that “the most recent fiscal year for which information is available” will be two years before the budget year and therefore will not be far in the past as to preclude a meaningful comparison. We assume, for example, that when an LEA is budgeting for FY 2016–2017, the most recent fiscal year for which final expenditure data are available would be FY 2014–2015. However, because circumstances in individual LEAs may vary, the Department declines to include language in the regulations that limits how far back SEAs and LEAs must go to identify a comparison year.

Changes: None.

Comment: A commenter asked what comparison year an LEA would use to meet the eligibility standard in a fiscal year subsequent to a fiscal year (or years) when the LEA was not eligible for, or did not receive, an IDEA Part B subgrant.

Discussion: An LEA that seeks to establish eligibility in a fiscal year subsequent to a fiscal year (or years) when the LEA was not eligible, or did not receive, an IDEA Part B subgrant, must use the comparison year in § 300.203(a)(1), which is “the most recent fiscal year for which information is available.” This is the case even if the most recent fiscal year for which information is available is a fiscal year during which the LEA was not eligible for, or did not receive, an IDEA Part B subgrant.

Changes: None.

Comment: A commenter asked whether, in order to meet the eligibility standard, an LEA must use the same method it used to meet the compliance standard in the most recent fiscal year for which information is available.

Discussion: When establishing eligibility, an LEA is not required to use the same method it used to meet the compliance standard in the most recent fiscal year.
fiscal year for which information is available. When an LEA is budgeting for the education of children with disabilities, the LEA selects a method by which it intends to meet the eligibility standard. The LEA identifies the amount it spent for the education of children with disabilities using that same method in the most recent fiscal year for which information is available. If the LEA met the compliance standard using the same method in the most recent fiscal year for which information is available, the LEA must budget at least that amount (after taking into consideration the exceptions and adjustment in §§ 300.204 and 300.205, as permitted by § 300.203(a)(2)) in order to meet the eligibility standard.

Pursuant to the Subsequent Years rule in § 300.203(c), if the LEA did not meet the compliance standard using that method in the most recent fiscal year for which information is available, the LEA should have spent for the education of children with disabilities using that same method in the most recent fiscal year for which information is available. In that case, the LEA must budget at least that amount (after taking into consideration the exceptions and adjustment in §§ 300.204 and 300.205, as permitted by § 300.203(a)(2)) in order to meet the eligibility standard.

Tables 7 and 8 demonstrate how an LEA could meet the eligibility standard over a period of years using different methods from year to year. These tables assume that the LEA did not take any of the exceptions or adjustment in §§ 300.204 and 300.205. Numbers are in $10,000s budgeted and spent for the education of children with disabilities.

* LEA met MOE using this method.

**Changes:** None.

**Comment:** A commenter stated that because the SEA is responsible for paying back funds if an LEA fails to maintain effort, it is better left to the SEA to determine how LEAs must demonstrate eligibility for an IDEA Part B subgrant.

**Discussion:** Section 613(a) of the IDEA (20 U.S.C. 1413(a)) provides the standard for an LEA’s eligibility for an IDEA Part B subgrant. An LEA is eligible for assistance under IDEA Part B in a fiscal year only if it submits a plan that provides assurances to the SEA that the LEA meets each of the conditions in section 613(a) of the IDEA, including an assurance that amounts provided to the LEA will not be used, except as provided in the statutory exceptions and adjustment, to reduce the level of expenditures for the education of children with disabilities made by the LEA from local funds below the level of those expenditures for the preceding fiscal year. In addition, for the purpose of establishing an LEA’s eligibility for an IDEA Part B subgrant in § 300.203(a), the SEA must determine that the LEA budgets for the education of children with disabilities at least the same total or per capita amount as the LEA spent for that purpose from the same source for the most recent fiscal year for which information is available. Because the IDEA statute and regulations specify that LEAs must meet these eligibility requirements, it would be inconsistent with the IDEA to allow SEAs to use different eligibility requirements. The fact that an SEA would be liable in a recovery action pursuant to section 452 of the General Education Provisions Act (GEPA) (20 U.S.C. 1234a) does not affect the Department’s responsibility to interpret the statute and issue regulations on the MOE requirement or the State’s responsibility to ensure that LEAs meet the eligibility requirements.

**Changes:** None.

**Exceptions and Adjustment**

**Comment:** Many commenters objected to the eligibility standard in proposed § 300.203(b)(1), which would require an LEA to budget, for the education of children with disabilities, at least the same total or per capita amount as the LEA spent for that purpose from the same source for the most recent fiscal year for which information is available without permitting LEAs to take into consideration the exceptions and adjustment that it took in the comparison year, as permitted in §§ 300.204 and 300.205.

Some of these commenters recommended that proposed § 300.203(b)(1) make explicit reference to the authorized exceptions and adjustment in §§ 300.204 and 300.205. In addition, some commenters asked the Department to clarify how an LEA may consider the exceptions and adjustment in §§ 300.204 and 300.205 when budgeting for the expenditures for the education of children with disabilities.

**Discussion:** The commenters appear to have partially misread proposed § 300.203(b)(1), which did permit an LEA to take into consideration the exceptions and adjustment that the LEA actually took in the comparison year, as permitted in §§ 300.204 and 300.205, when calculating the amount of expenditures for the education of children with disabilities in the most recent fiscal year for which information is available. The final regulations at § 300.203(a)(1) continue to permit an LEA to take into consideration the exceptions and adjustment, as permitted in §§ 300.204 and 300.205.

What the proposed rule did not do, however, was permit an LEA to take into consideration exceptions or an adjustment taken in the intervening fiscal year(s) between the budget year and the comparison year. The proposed rule also did not permit an LEA to consider the exceptions and adjustment that it reasonably anticipates taking in the budget year but that have not yet occurred.

We understand that an LEA will have information about exceptions and an adjustment that it took in the intervening year(s), even if the LEA does not have final information on expenditures for that year(s). For example, when an LEA is budgeting for FY 2016–2017, the LEA knows that it took an exception under § 300.204 in FY 2015–2016 when compared to FY 2014–2015 (the most recent fiscal year for which the LEA has information). The LEA may also reasonably anticipate that it will take an exception under § 300.204 in FY...
2016–2017, the budget year. We agree with the commenters that the eligibility standard should permit LEAs to take into consideration the exceptions and adjustment in the intervening fiscal year(s) and the budget year. Table 9 provides an example of how an LEA may consider the exceptions and adjustment in §§ 300.204 and 300.205 when budgeting for the expenditures for the education of children with disabilities.

**TABLE 9—EXAMPLE OF HOW AN LEA MAY MEET THE ELIGIBILITY STANDARD USING EXCEPTIONS AND ADJUSTMENT IN §§ 300.204 AND 300.205, 2016–2017**

<table>

<td>When the LEA submits a budget for 2016–2017, the most recent fiscal year for which the LEA has information is 2014–2015. However, if the LEA has information on exceptions and adjustment taken in 2015–2016, the LEA may use that information when budgeting for 2016–2017. The LEA may also use information that it has on any exceptions and adjustment it reasonably expects to take in 2016–2017 when budgeting for that year.</td>
</tr>
</tbody>
</table>

However, we caution that, when taking into consideration the exceptions and adjustment that the LEA took in the intervening fiscal year(s) for the purposes of meeting the eligibility standard in the budget year, the LEA does so without having final information on its expenditures for the education of children with disabilities in the intervening fiscal year(s). That intervening fiscal year will be the comparison year (subject to the Subsequent Years rule) for the purpose of meeting the eligibility standard in the budget year. Accordingly, LEAs should also take into consideration information related to increased expenditures for the education of children with disabilities in the intervening fiscal year(s) that would affect the amount the LEA must spend in the budget year in order to meet the compliance standard in that year. Otherwise, the LEA may budget less for the education of children with disabilities than it will need to expend in order to meet the compliance standard in that year.

**Changes:** We added new § 300.203(a)(2), which permits an LEA to take into consideration, to the extent the information is available, the exceptions and adjustment provided in §§ 300.204 and 300.205 that the LEA: (i) Took in the intervening year or years between the most recent fiscal year for which information is available and the fiscal year for which the LEA is budgeting; and (ii) reasonably expects to take in the fiscal year for which the LEA is budgeting.

**SEA Review**

**Comment:** A few commenters objected to the language in the NPRM that “States will need to carefully review LEA applications, and compare amounts budgeted to amounts expended in prior years.” These commenters stated that section 613(a) of the IDEA (20 U.S.C. 1413(a)) requires only assurances in an LEA’s application to the State, rather than information that demonstrates its compliance with the MOE requirement, and that the requirement that an LEA have on file with the SEA information to demonstrate that the eligibility requirement has been met was intentionally removed from the IDEA Part B regulations after the 2004 reauthorization of the IDEA. Moreover, these commenters stated that requiring LEAs to submit a budget as part of the eligibility process imposes undue burden on SEAs and LEAs, creating additional paperwork and requiring more staff to provide oversight. One commenter stated that the Department
must clarify whether a State must receive a detailed special education budget from each LEA outlining how the LEA has taken the exceptions and adjustment in §§ 300.204 and 300.205 or whether the State must receive an overall budgeted amount from the LEA for the education of children with disabilities for the upcoming fiscal year. Discussion: The requirement that, in order to find an LEA eligible for an IDEA Part B subgrant award for a fiscal year, an SEA must determine that the LEA has budgeted sufficient funds to meet the MOE eligibility standard is a regulatory requirement that has been in effect since 1999 and was not removed from the 2006 IDEA Part B regulations implementing the 2004 amendments to the IDEA. In 2006, the Department did remove the requirement that an LEA have information on file with the SEA to demonstrate that the LEA actually met the MOE compliance standard. That regulatory change was based on the statutory change to section 613(a) made by the 2004 IDEA Amendments to require SEAs to provide assurances, rather than information demonstrating, that the LEA meets each of the conditions in section 613(a) of the IDEA. However, in § 300.203(b)(1) of the 2006 IDEA Part B regulations, the Department maintained the regulatory requirement that the SEA determine whether the LEA has met the MOE eligibility standard (i.e., has budgeted sufficient funds for the education of children with disabilities). The Department continues to believe that the MOE eligibility standard is necessary because an LEA that has met the eligibility standard for a fiscal year is more likely to meet the MOE compliance standard for that same fiscal year. We do not believe that this requirement imposes an undue burden on SEAs or LEAs. Some SEAs already use the IDEA Part B subgrant application process to collect compliance data on MOE, and the Department has learned through fiscal monitoring that most SEAs already require LEAs to submit budget information and are not relying on an assurance to determine whether an LEA has budgeted sufficient funds. In addition, the SEA has the discretion to determine the type and amount of information that it must review in order to be able to determine that the LEA has budgeted sufficient funds to meet the MOE eligibility standard. It is not necessary for the SEA to review a detailed budget, so long as the SEA has sufficient information to determine if the LEA meets the eligibility standard. For example, these regulations do not require LEAs to submit budgets broken down by object codes or line items. The Department intends to issue guidance following the publication of these regulations and will include information regarding the eligibility standard. Changes: None. Comment: A commenter urged the reviewing an LEA’s application for an IDEA Part B subgrant, an SEA may rely on information on expenditures for the most recent fiscal year for which information is available at the time the LEA submits its application, rather than requiring the SEA to review information on expenditures for a more recent fiscal year than the one for which the LEA submits information to the SEA during the review of the LEA’s application. Discussion: The Department understands that, in some States, because of the timing of their fiscal years or for other State- or LEA-specific reasons, after an LEA submits its application for an IDEA Part B subgrant, the LEA submits information on expenditures for a more recent fiscal year than the one for which it provided information in its application. SEAs need not make multiple determinations of an LEA’s eligibility for an IDEA Part B subgrant for a given fiscal year. However, the LEA must use, as a comparison year for the purpose of determining an LEA’s eligibility, the most recent fiscal year for which the LEA has information. Accordingly, if, before the SEA determines the LEA’s eligibility for a given fiscal year, the LEA submits to the SEA information on expenditures for a more recent fiscal year, the SEA must use that information in determining the LEA’s eligibility. Changes: None. Comment: A commenter noted that budget data submitted with an LEA’s application for an IDEA Part B subgrant are often preliminary, and that, therefore, by the time the SEA determines eligibility for an IDEA Part B subgrant, the LEA’s budget may have changed. Discussion: We recognize that, at the time some LEAs submit their applications to the SEA for an IDEA Part B subgrant, their budgets may be preliminary. The SEA has the discretion to determine, based on the patterns and practices of its LEAs, whether an LEA submitted reasonable budget data with its application. If, before it determines an LEA’s eligibility for an IDEA Part B subgrant, an LEA finds that the budget data have changed substantially, we expect the SEA would require the LEA to update its application. Changes: None. Comment: One commenter asked if an LEA must submit budget amendments to the SEA if its expenditures change during the year. Discussion: No. Once an SEA has determined an LEA’s eligibility for an IDEA Part B subgrant, the LEA does not need to provide amendments that reflect changes in expenditures in order to remain eligible for that year. Changes: None. Comment: One commenter asked whether an LEA must describe in its IDEA Part B subgrant application the method it will use to meet the MOE eligibility standard. Discussion: Although these regulations do not require an LEA to describe in its application the method that it will use to meet the MOE eligibility standard, an SEA may require this information, and the LEA is not prohibited from providing that information in its application. The SEA must be able to determine that the LEA meets the eligibility standard using at least one of the four permissible methods. As stated above, regardless of which method it uses to meet the MOE eligibility standard, the LEA may use a different method to meet the eligibility standard in a subsequent fiscal year. Changes: None. Comment: A commenter stated that the proposed regulations created a new requirement for auditors to compare the amounts budgeted to meet the MOE eligibility standard in a given fiscal year to the amounts spent in the comparison year to meet the MOE compliance standard. This commenter expressed concern that anticipated budget amounts might not align with prior expenditures. Discussion: Neither the proposed nor the final regulations create a new audit standard. The eligibility standard has always required a comparison of amounts budgeted in a given fiscal year to amounts expended in the comparison year. Changes: None. Ineligibility Comment: A few commenters requested clarification on the consequence of not meeting the MOE eligibility standard. One commenter asked if an SEA would be required to find an LEA ineligible for its IDEA Part B subgrant if the proposed LEA budget does not meet the MOE eligibility standard. Another commenter asked for clarification on what happens to the IDEA Part B funds that are not awarded to an LEA.
Discussion: If an SEA determines that an LEA does not meet the MOE eligibility standard using any of the four methods in final § 300.203(a) (proposed § 300.203(b)), the SEA must provide notice that the LEA is not eligible for an IDEA Part B subgrant, as required by § 300.221(a). The SEA must also provide the LEA with reasonable notice and an opportunity for a hearing, pursuant to § 300.221(b). If the SEA determines that the LEA is not eligible to receive a Part B subgrant for that fiscal year, the SEA retains the amount of Part B funds that the LEA would have received. 34 CFR 300.227(a)(1). The SEA would then be required to provide special education and related services directly to children with disabilities residing in the area served by that LEA. 34 CFR 300.227(a)(1).

Changes: None.

Comment: None.

Discussion: Current § 300.203(b)(3) provides that SEAs and LEAs may not consider any expenditures made from funds provided by the Federal government for which the SEA and LEA are required to account to the Federal government in determining an LEA’s compliance with current § 300.203(a). While the proposed regulations included this requirement in the compliance standard in proposed § 300.203(a)(3), the proposed regulations did not include this requirement in the eligibility standard. This was an oversight. To ensure that this requirement applies to both the eligibility and compliance standards, we added § 300.203(a)(3).

Changes: We added new § 300.203(a)(3) to require that expenditures made from funds provided by the Federal government for which the SEA is required to account to the Federal government or for which the LEA is required to account to the Federal government directly or through the Federal government may not be considered in determining whether an LEA meets the eligibility standard in § 300.203(a)(1).

Failure To Maintain Effort and Consequence, § 300.203(d)

Legal Authority

Comment: One commenter stated that proposed § 300.203(d) is based on a misreading of section 452 of GEPA (20 U.S.C. 1234a). The commenter stated that it is the responsibility of the LEA, rather than the SEA, to return any funds. Another commenter asked if an SEA has the right to seek recovery of funds from the LEA and requested that this right be included in the final regulation.

Discussion: The liability of the SEA in a recovery action if an LEA fails to meet the compliance standard is not new. The SEA is responsible for ensuring that LEAs receiving an IDEA Part B subgrant comply with all applicable requirements of that statute and its implementing regulations, including the MOE requirement. If an LEA fails to meet the MOE requirement in a particular fiscal year, the Department has authority to take steps to recover the appropriate amount of funds from the SEA.

Section 452(a)(1) of GEPA (20 U.S.C. 1234a(a)(1)) provides that the Department may recover funds if a grantee has made an unallowable expenditure of funds or has otherwise failed to discharge its obligation to account properly for funds under the grant. Under IDEA Part B, it is the State (operating through the SEA), and not the LEA, that is the Department’s grantee. As such, the authority granted to the Department pursuant to GEPA specifically authorizes recovery of funds from the SEA. Section 453(a)(1) of GEPA (20 U.S.C. 1234b(a)(1)) provides that the measure of recovery in such a circumstance is an amount that is proportionate to the extent of the harm that the violation caused to an identifiable Federal interest associated with the program under which the recipient received the award. An identifiable Federal interest includes, but is not limited to, compliance with expenditure requirements and conditions, such as maintenance of effort. Section 453(a)(2) of GEPA (20 U.S.C. 1234b(a)(2)). Accordingly, when an SEA fails to ensure that an LEA has met the compliance standard in final § 300.203(b), the SEA, not the LEA, is liable in a recovery action under these provisions for the amount by which the LEA failed to maintain its level of expenditures, or the amount of the LEA’s Part B IDEA subgrant, whichever is lower.

The SEA, in turn, following applicable State procedures, could seek reimbursement from the LEA. See July 26, 2006, letter to Ms. Carol Ann Baglin, available at https://www2.ed.gov/policy/speced/guid/idea/letters/2006-3-baglin072606moesq2006.pdf. The Department has not included a provision permitting SEAs to seek reimbursement from LEAs because that is a matter of State law.

Changes: None.

Comment: Some commenters stated that SEAs should not be liable in a recovery action to return non-Federal funds because of an LEA’s failure to meet the MOE compliance standard. However, as noted in the Legal Authority section of the Analysis of Comments and Changes, the SEA (acting on behalf of the State), not the LEA, is the grantee in the IDEA Part B program. As a condition of eligibility for an IDEA Part B grant, States must provide an assurance to the Department that the SEA is responsible for ensuring that, among other things, all requirements of Part B are met. Section 612(a)(11)(A)(i) of the IDEA (20 U.S.C. 1412(a)(11)(A)(i)) of the IDEA (20 U.S.C. 1412(a)(11)(A)(i)). SEAs can minimize LEA noncompliance by carefully reviewing an LEA’s application for an IDEA Part B subgrant to determine if the LEA meets the MOE eligibility standard, by monitoring for compliance on a regular basis, and by providing technical assistance to LEAs. SEAs that find an LEA is failing to comply with the MOE requirement may take further enforcement action as provided in § 300.222.

With respect to the concern raised by some commenters that some SEAs may be unable to absorb the loss because they do not have sufficient State funds, or because the SEA may not withhold Federal funds to an LEA that has failed to meet the MOE compliance standard, we remind States that they may seek reimbursement of these amounts from the LEA, to the extent permitted under State law. Whether a State seeks recovery from an LEA is at the discretion of the State.

Changes: None.

Comment: Some commenters stated that SEAs will be required to spend additional administrative time collecting funds, accounting for the collection in their financial systems, and returning funds to the Department. One of these commenters requested clarification about the timeframe within
which funds must be returned to the Department and the process for returning funds (such as what identifying information to include on the check, where to send it, and what supporting documentation to include).

**Discussion:** There should be no additional burden on, or expense to, an SEA as a result of codifying the Department’s long-standing practice, which is consistent with GEPA, into final § 300.203(d). We added this provision to the final regulations not because this is a change in law, but because the Department believes that some SEAs and LEAs were not aware of the consequence of an LEA’s failure to meet the MOE compliance standard. We acknowledge that those SEAs that were not aware of this requirement may need additional time to set up a process for returning funds to the Department and taking any associated actions against an LEA that the SEA wishes to take. However, this is a long-standing requirement, and therefore, we expect that SEAs already have a process in place. The Department believes that enforcement of the MOE requirement is critical to ensuring compliance.

The Department intends to provide guidance on the process for returning funds but does not believe it is appropriate or necessary to include administrative details in these regulations.

**Changes:** None.

**Calculating Penalties**

**Comment:** A few commenters requested clarification of the definition of the “amount equal to the amount by which the LEA failed to maintain its level of expenditures” in proposed § 300.203(d). One commenter asked how to determine the amount of the penalty if an LEA failed to meet the MOE compliance standard. The commenter asked whether the SEA should determine the amount of the failure to be the lesser amount generated by the four methods (after accounting for the allowed exceptions and adjustment).

**Discussion:** The “amount equal to the amount by which an LEA failed to maintain its level of expenditures” is determined by calculating the amount by which the LEA failed to meet the MOE compliance standard. Before determining the amount of the failure, the SEA must permit the LEA to use any one of the four methods and to take the exceptions and the adjustment in §§ 300.204 and 300.205, where permissible. The amount of the failure, therefore, would be the smallest amount generated by the four methods (after accounting for the allowed exceptions and adjustment).

**Changes:** None.

### Table 10—Example of How to Calculate the Amount of an LEA’s Failure to Meet the Compliance Standard in 2016–2017 and the Amount That an SEA Must Return to the Department

<td>$1000 (the amount of the LEA's IDEA Part B subgrant in that fiscal year, whichever is lower).</td>
</tr>
</tbody>
</table>

The Department disagrees with the commenter who recommended that § 300.203(d) be changed to limit the amount of the penalty to the amount of education of children with disabilities below the level of those expenditures for the preceding fiscal year; therefore, the penalty should be no more than the IDEA Part B funds that the LEA spent in a particular fiscal year.

**Discussion:** The Department disagrees with the commenter who recommended that § 300.203(d) be changed to limit the amount of the penalty to the amount of

---

* LEA met MOE using this method.
IDEA Part B funds actually spent by the LEA in the fiscal year in which the failure led to the noncompliance. The Department failed to meet the compliance standard. Once an LEA accepts an IDEA Part B subgrant, the LEA is required to meet the compliance standard in § 300.203(b), and the amount of IDEA Part B funds spent by the LEA in that fiscal year is not relevant to the calculation of the MOE penalty.

Changes: None.

Comment: Many commenters requested that proposed § 300.203(d) incorporate language from the July 26, 2006, letter to Baglin, which stated, “Faced with a history of noncompliance with the MOE requirement, however, the SEA would need to carefully determine whether the LEA will meet the MOE requirement in the coming year (in which case a grant should be made), or whether the SEA should begin an administrative withholding action [consistent with section 613(c) and (d) of the IDEA] because it is not convinced that the LEA will meet the MOE requirement.” The commenters stated that this language would underscore the importance of SEA monitoring and oversight to ensure implementation and compliance with the MOE requirement. Another commenter suggested that the Department add a specific consequence for LEAs that fail to comply with MOE for more than one fiscal year.

Discussion: The Department agrees that SEAs have a responsibility to ensure that LEAs meet the MOE eligibility and compliance standards. However, §§ 300.221 and 300.222 address what procedures the SEA must follow if the SEA determines that the LEA is not eligible or that an eligible LEA is failing to comply with the MOE requirement, and it is not necessary to duplicate those provisions in § 300.203(d). We believe that § 300.203(d) provides an appropriate consequence for MOE failures that occur in more than one fiscal year, because the penalty in § 300.203(d) applies in each fiscal year in which the LEA fails to maintain effort. Therefore, it is not necessary to add an additional consequence for such LEAs.

Changes: None.

Comment: Some commenters stated that LEAs should not be penalized for MOE violations in the absence of evidence that the LEA has failed to make FAPE available. Another commenter questioned the effectiveness of the consequence for MOE violations. Specifically, the commenter asked what evidence demonstrates that repayment of Federal funds is a consequence for MOE failures that occur in more than one year.

Discussion: The Department appreciates, but disagrees with, these comments. LEAs that receive an IDEA Part B subgrant must meet both the FAPE obligation and the MOE requirement separately; the two provisions are not contingent on each other. Regarding the concern questioning the effectiveness of the consequence for failure to maintain effort, the Department notes that the requirement to return funds based on an LEA’s failure to maintain effort is a statutory requirement. Consistent with sections 452(a)(1) and (a)(2) and 453(a)(1) of GEPA (20 U.S.C. 1234a(a)(1) and (a)(2) and 1234b(a)(1)) and long-standing Department practice, an SEA is liable in a recovery action to pay the Department, from non-Federal funds or funds for which accountability to the Federal government is not required, the difference between the amount of local, State and local, funds the LEA should have expended and the amount that it actually did expend. Section 453(a)(1) of GEPA (20 U.S.C. 1234b(a)(1)) provides that the measure of recovery in such a circumstance is an amount that is proportionate to the extent of the harm that the violation caused to an identifiable Federal interest associated with the program under which the recipient received the award. An identifiable Federal interest includes, but is not limited to, compliance with expenditure requirements and conditions, such as maintenance of effort. 

Miscellaneous Comments

Comment: Many commenters supported the proposed changes to the MOE regulations because the changes would provide necessary clarification. Other commenters stated that the proposed regulations did not clarify the MOE requirement. A few commenters stated that the MOE requirement should be imposed only after the Department and Congress make an effort to compensate school districts for the 40 percent of special education costs that the commenters say the States were promised when the IDEA was enacted.

Discussion: We believe that the final regulations and the tables provided here clarify the MOE requirement. We disagree with the view expressed by commenters that the Department should not issue and enforce MOE regulations until the maximum amount of the grant a State receives is 40 percent of the average per-pupil expenditure in public elementary and secondary schools in the United States. The Department has no legal authority to condition
compliance with the MOE requirement on Congress’s providing a particular level of appropriations. The IDEA requires that amounts provided to LEAs shall not be used, except as allowed by the exceptions and adjustment in §§ 300.204 and 300.205, to reduce the level of expenditures for the education of children with disabilities made by the LEA from local funds below the level of those expenditures for the preceding fiscal year.

The Department believes that the MOE regulations provide necessary clarification on, and therefore will increase understanding by States and LEAs of, the MOE requirement, including: The Subsequent Years rule, the eligibility and compliance standards, the four methods available to LEAs to meet the eligibility and compliance standards, and the existing exceptions and adjustment in §§ 300.204 and 300.205. The Department also believes that the MOE requirement is consistent with, and promotes, the requirement that LEAs make FAPE available to all eligible children with disabilities.

Changes: None.

Comment: Several commenters objected generally to the MOE requirement and raised a variety of concerns, including that the proposed regulations encourage fraud, waste, and abuse because they encourage LEAs to spend funds to meet the MOE requirement rather than to ensure that children with disabilities receive FAPE. Other commenters stated a concern that LEAs will submit budgets that have inflated or non-existent costs simply to demonstrate eligibility for an IDEA Part B subgrant. A few commenters also stated that the proposed regulations create a disincentive for LEAs that wish to increase their expenditures for the education of children with disabilities for one-time, high-cost initiatives, because the district would be forced to continue spending the same amount of funds in future years after the initiative is completed.

Discussion: We do not believe that the regulations encourage fraud, waste, and abuse because they encourage LEAs to spend funds to meet the MOE requirement rather than to ensure that children with disabilities receive FAPE. State and local funds spent on the education of children with disabilities meet both the requirement to maintain effort and the requirement to make FAPE available to children with disabilities.

With respect to the comment that the MOE regulations create a disincentive for LEAs that wish to implement temporary initiatives for the education of children with disabilities because doing so will increase the LEA’s required level of effort in future years, section 613(a)(2)(B) of the IDEA and its implementing regulations in § 300.204 include five exceptions that permit an LEA to reduce its required level of expenditures. We believe these exceptions, such as the termination of costly expenditures for long-term purchases, and the adjustment in § 300.205 provide LEAs sufficient flexibility to adjust their required level of effort based on changed circumstances.

Changes: None.

Comment: Some commenters stated that the MOE regulations do not take into account the variety of fiscal systems in States and LEAs. The commenters expressed concern over the many State-specific issues that need to be independently addressed by OSEP or that fall outside the scope of the proposed regulation.

Discussion: We believe that the regulations provide sufficient direction to States and LEAs regardless of their fiscal systems. State-specific issues will be addressed by OSEP as needed. In addition, the Department intends to issue guidance on the MOE requirement and will continue to provide technical assistance to States to address State-specific concerns, including those related to the specifics of financial systems. One source of technical assistance will be the new Center for IDEA Fiscal Reporting that OSEP awarded under the FY 2014 competition CFDA 84.373F. OSEP awarded the grant to WestEd. The Center for IDEA Fiscal Reporting can be found at http://cifr.wested.org/. This center will improve the capacity of State staff to collect and report accurate fiscal data to meet the data collection requirements related to LEA MOE Reduction and Coordinated Early Intervening Services (CEIS) and State Maintenance of Financial Support (State MFS); and increase States’ knowledge of the underlying fiscal requirements and the calculations necessary to submit valid and reliable data on LEA MOE/CEIS and State MFS.

Changes: None.

Comment: One commenter asked whether the requirement regarding CEIS will be affected by the proposed regulations.

Discussion: The provisions regarding CEIS in §§ 300.205(d) and 300.226 are not affected by these regulations.

Changes: None.

Comment: A few commenters recommended that the Department issue additional guidance to accompany the final regulations. Suggestions included: A detailed checklist of what needs to be accounted for in LEAs’ budgets, a chart that lays out how to meet the MOE requirement, and examples that use specific numbers.

Discussion: We appreciate the commenters’ suggestions for additional guidance. This Analysis of Comments and Changes includes several tables to assist States and LEAs. These tables also have been included in new Appendix E to the regulations. In addition, the Department intends to issue guidance on the MOE requirement.

Changes: We have redesignated current Appendix E as new Appendix F. We have added new Appendix E to include Tables 1 through 10, which are included in the Analysis of Comments and Changes. This appendix will be published in the Code of Federal Regulations.

Executive Orders 12866 and 13563

Regulatory Impact Analysis

Under Executive Order 12866, the Secretary must determine whether this regulatory action is “significant” and, therefore, subject to the requirements of the Executive order and subject to review by the Office of Management and Budget (OMB). Section 3(f) of Executive Order 12866 defines a “significant regulatory action” as an action likely to result in a rule that may—

(1) Have an annual effect on the economy of $100 million or more or adversely affect a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities in a material way (also referred to as an “economically significant” rule);

(2) Create serious inconsistency or otherwise interfere with an action taken or planned by another agency;

(3) Materially alter the budgetary impacts of entitlement grants, user fees, or loan programs or the rights and obligations of recipients thereof; or

(4) Raise novel legal or policy issues arising out of legal mandates, the President’s priorities, or the principles stated in the Executive order.

This final regulatory action is a significant regulatory action subject to review by OMB under section 3(f) of Executive Order 12866.

We have also reviewed these regulations under Executive Order 13563, which supplements and explicitly reaffirms the principles, structures, and definitions governing regulatory review established in Executive Order 12866 to the extent permitted by law. Executive Order 13563 requires that an agency—

Discussion: We believe that the regulations provide sufficient direction to States and LEAs regardless of their fiscal systems. State-specific issues will be addressed by OSEP as needed. In addition, the Department intends to issue guidance on the MOE requirement and will continue to provide technical assistance to States to address State-specific concerns, including those related to the specifics of financial systems. One source of technical assistance will be the new Center for IDEA Fiscal Reporting that OSEP awarded under the FY 2014 competition CFDA 84.373F. OSEP awarded the grant to WestEd. The Center for IDEA Fiscal Reporting can be found at http://cifr.wested.org/. This center will improve the capacity of State staff to collect and report accurate fiscal data to meet the data collection requirements related to LEA MOE Reduction and Coordinated Early Intervening Services (CEIS) and State Maintenance of Financial Support (State MFS); and increase States’ knowledge of the underlying fiscal requirements and the calculations necessary to submit valid and reliable data on LEA MOE/CEIS and State MFS.

Changes: None.

Comment: One commenter asked whether the requirement regarding CEIS will be affected by the proposed regulations.

Discussion: The provisions regarding CEIS in §§ 300.205(d) and 300.226 are not affected by these regulations.

Changes: None.

Comment: A few commenters recommended that the Department issue additional guidance to accompany the final regulations. Suggestions included: A detailed checklist of what needs to be accounted for in LEAs’ budgets, a chart that lays out how to meet the MOE requirement, and examples that use specific numbers.

Discussion: We appreciate the commenters’ suggestions for additional guidance. This Analysis of Comments and Changes includes several tables to assist States and LEAs. These tables also have been included in new Appendix E to the regulations. In addition, the Department intends to issue guidance on the MOE requirement.

Changes: We have redesignated current Appendix E as new Appendix F. We have added new Appendix E to include Tables 1 through 10, which are included in the Analysis of Comments and Changes. This appendix will be published in the Code of Federal Regulations.

Executive Orders 12866 and 13563

Regulatory Impact Analysis

Under Executive Order 12866, the Secretary must determine whether this regulatory action is “significant” and, therefore, subject to the requirements of the Executive order and subject to review by the Office of Management and Budget (OMB). Section 3(f) of Executive Order 12866 defines a “significant regulatory action” as an action likely to result in a rule that may—

(1) Have an annual effect on the economy of $100 million or more or adversely affect a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities in a material way (also referred to as an “economically significant” rule);

(2) Create serious inconsistency or otherwise interfere with an action taken or planned by another agency;

(3) Materially alter the budgetary impacts of entitlement grants, user fees, or loan programs or the rights and obligations of recipients thereof; or

(4) Raise novel legal or policy issues arising out of legal mandates, the President’s priorities, or the principles stated in the Executive order.

This final regulatory action is a significant regulatory action subject to review by OMB under section 3(f) of Executive Order 12866.

We have also reviewed these regulations under Executive Order 13563, which supplements and explicitly reaffirms the principles, structures, and definitions governing regulatory review established in Executive Order 12866 to the extent permitted by law. Executive Order 13563 requires that an agency—
implementing the current Part B
and others, as compared to the costs of
to or reduce the costs to States, LEAs,
these proposed regulations would add
extent to which the changes made by
quantitative and qualitative, of this
Potential Costs and Benefits
regulatory action would not unduly
principles in Executive Order 13563.
Department believes that these final
approaches that maximize net benefits.
choosing among alternative regulatory
in the year following a failure to meet the MOE
provisions under Part B of the Act or if a State or LEA incorrectly calculated
MOE in a preceding year. The Secretary
believes that the benefits of ensuring
that adequate resources are available to
provide FAPE for children with
disabilities are likely to outweigh any
costs to LEAs that violated the MOE
requirement in the preceding year and
do not plan to restore funding in the
subsequent year to the level they should
have maintained in the preceding year.
Section 300.203
The effect of the final regulations on
LEAs will depend on: (1) The degree of
understanding by States and LEAs about
the eligibility and compliance standards
and the ability that the LEAs have to
meet one of four methods; and (2) the
likelihood that LEAs would violate the
MOE requirement in any given year and
seek to maintain funding at the reduced
level in subsequent years. One possible
source of information that could be used
to estimate the effect of the final
regulations on LEAs is data on previous
findings of LEA violations. However, as
described in the Analysis of Comments
and Changes section, the Department
has limited information on LEA violations.
States are responsible for
monitoring LEA compliance with the
MOE requirement and resolving any
audit findings in this area, but States are
not required to report the number of
LEAs that violated the MOE
requirement, the basis of the violations,
or the amount of funding involved.
Other sources of information on the
likely effects of the final regulations are
audit reports and OSEP’s fiscal
monitoring of States’ implementation of the
current regulations. OSEP’s fiscal
monitoring, in conjunction with the
Department’s Office of Inspector
General’s (OIG) audit findings and
reports, have identified a number of
problems with State administration of the
MOE requirement under the current
regulations, suggesting that there is
confusion about the MOE requirement
and a lack of clarity in the existing
regulations. Specifically, OSEP has
found that at least 40 percent of States
have policies and procedures that are
not consistent with how States should
determine eligibility for, or compliance
with, the MOE requirement. Most
notably, it appears that some States have
not allowed LEAs to use all four
methods to demonstrate that they have
met the MOE requirement for purposes
of eligibility or compliance
determinations, including the method
that allows the LEA to demonstrate that
it met the MOE requirement on the basis
of local funds only. There is also some
indication that States may have used an
incorrect comparison year when LEAs
made a local-to-local comparison.
In years in which States did not allow
the LEAs to use all four methods to
demonstrate they met MOE, it is
possible that LEAs budgeted for, and
expended, more than they would have
if both States and LEAs had understood
that they had flexibility to use any of the
four methods. In these instances, the
clarification made in the final
regulations will result in a reduction in
future expenditures on the part of LEAs.
Alternatively, in those cases in which
States may be allowing LEAs to use an
incorrect comparison year when using
the local funds only method, clarifying
the comparison year may result in
increased expenditures by LEAs. For
example, in its May 20, 2013 Alert
Memorandum, the OIG raised concerns
about the comparison years used by the
State of California in determining MOE
compliance. According to that
memorandum, the State used an
incorrect comparison year when
determining that two LEAs met the
MOE requirement using local funds
only method. Specifically, California
allowed the LEAs that had never relied
on local funds only to meet the MOE
requirement to use a comparison year
from three years earlier, instead of
requiring a comparison of expenditures
made with local funds only to the
preceding fiscal year. In this case, the
clarification made by the final
regulations will require increased LEA
expenditures. We do not know the
to or reduce the costs to States, LEAs,
and others, as compared to the costs of
implementing the current Part B
program regulations. Based on the
following analysis, the Secretary has
concluded that the changes could result
in reduced costs for States and LEAs to
the extent that increased understanding
of the MOE requirement and use of all
four methods to demonstrate that LEAs
met MOE would result in States making
fewer repayments to the Department
and seeking fewer recoveries from LEAs.
However, there is also the potential for
additional costs for States and LEAs to
the extent that LEAs are required to
increase expenditures in the year
following a failure to meet the MOE
provisions under Part B of the Act or if a
State or LEA incorrectly calculated
MOE in a preceding year. The Secretary
believes that the benefits of ensuring
that adequate resources are available to
provide FAPE for children with
disabilities are likely to outweigh any
costs to LEAs that violated the MOE
requirement in the preceding year and
do not plan to restore funding in the
subsequent year to the level they should
have maintained in the preceding year.
Section 300.203
The effect of the final regulations on
LEAs will depend on: (1) The degree of
understanding by States and LEAs about
the eligibility and compliance standards
and the ability that the LEAs have to
meet one of four methods; and (2) the
likelihood that LEAs would violate the
MOE requirement in any given year and
seek to maintain funding at the reduced
level in subsequent years. One possible
source of information that could be used
to estimate the effect of the final
regulations on LEAs is data on previous
findings of LEA violations. However, as
described in the Analysis of Comments
and Changes section, the Department
has limited information on LEA violations.
States are responsible for
monitoring LEA compliance with the
MOE requirement and resolving any
audit findings in this area, but States are
not required to report the number of
LEAs that violated the MOE
requirement, the basis of the violations,
or the amount of funding involved.
Other sources of information on the
likely effects of the final regulations are
audit reports and OSEP’s fiscal
monitoring of States’ implementation of the
current regulations. OSEP’s fiscal
monitoring, in conjunction with the
Department’s Office of Inspector
General’s (OIG) audit findings and
reports, have identified a number of
problems with State administration of the
MOE requirement under the current
regulations, suggesting that there is
confusion about the MOE requirement
and a lack of clarity in the existing
regulations. Specifically, OSEP has
found that at least 40 percent of States
have policies and procedures that are
not consistent with how States should
determine eligibility for, or compliance
with, the MOE requirement. Most
notably, it appears that some States have
not allowed LEAs to use all four
methods to demonstrate that they have
met the MOE requirement for purposes
of eligibility or compliance
determinations, including the method
that allows the LEA to demonstrate that
it met the MOE requirement on the basis
of local funds only. There is also some
indication that States may have used an
incorrect comparison year when LEAs
made a local-to-local comparison.
In years in which States did not allow
the LEAs to use all four methods to
demonstrate they met MOE, it is
possible that LEAs budgeted for, and
expended, more than they would have
if both States and LEAs had understood
that they had flexibility to use any of the
four methods. In these instances, the
clarification made in the final
regulations will result in a reduction in
future expenditures on the part of LEAs.
Alternatively, in those cases in which
States may be allowing LEAs to use an
incorrect comparison year when using
the local funds only method, clarifying
the comparison year may result in
increased expenditures by LEAs. For
example, in its May 20, 2013 Alert
Memorandum, the OIG raised concerns
about the comparison years used by the
State of California in determining MOE
compliance. According to that
memorandum, the State used an
incorrect comparison year when
determining that two LEAs met the
MOE requirement using local funds
only method. Specifically, California
allowed the LEAs that had never relied
on local funds only to meet the MOE
requirement to use a comparison year
from three years earlier, instead of
requiring a comparison of expenditures
made with local funds only to the
preceding fiscal year. In this case, the
clarification made by the final
regulations will require increased LEA
expenditures. We do not know the

would be required under the final regulations, or, alternatively, the extent to which using the incorrect comparison year has resulted in higher expenditures. However, in general, the findings made during fiscal monitoring demonstrating that States are providing less flexibility to LEAs than is allowable under the law suggest that the clarifications included in these regulations would reduce costs for both LEAs and States.

The regulations also specifically address the level of expenditures required by an LEA in the fiscal years following a fiscal year in which an LEA violated the MOE requirement. Specifically, the final regulations clarify that, in a fiscal year following a fiscal year in which the LEA failed to meet MOE, the required level of expenditures is the level of expenditures in the last fiscal year in which the LEA met the MOE requirement, not the reduced level of expenditures in the preceding fiscal year (the Subsequent Years rule). We believe that this clarification in the regulations will improve State administration of the program, and that it is consistent with the IDEA and in the best interest of children with disabilities. We do not expect this change to have a significant impact on LEA expenditures in the near term based on available data concerning the extent of LEA violations and the likelihood of future violations.

However, this change would eliminate the risk, under the current regulations, that State policy could permit LEAs that reduce spending only by 38 percent of the allowable amount. The combined amount of MOE reductions for these LEAs was $19,304,506, with a median reduction of 84.027 percent of the allowable amount. The data we have collected to date indicate reductions taken in the year in which LEAs were most likely to make reductions because of the availability of an additional $11.3 billion for formula grant awards under the Grants to States program provided under the American Recovery and Reinvestment Act of 2009 (ARRA). Because these additional funds increased the annual allocation to most LEAs in FFY 2009 over FFY 2008, LEAs meeting conditions established by the State and the Department were permitted to reduce the level of support they would otherwise be required to provide during SY 2009–2010 by up to 50 percent of the amount of the increase.

Of the 14,936 LEAs that received allocations under section 611 in FFY 2008 and FFY 2009, States reported that 12,061 received increased allocations under section 611 and met other conditions so that they were eligible to reduce their level of effort. Notably, only 4,237 LEAs (or 36 percent) reported that they reduced their level of effort. If they met the conditions, LEAs were permitted to reduce effort by up to 50 percent of the increase in their allocation, but they typically reduced spending only by 38 percent.

Larger LEAs were more likely to reduce expenditures than LEAs in general. For the 100 largest LEAs, based on their FFY 2008 allocations under section 611, 31 of the 51 LEAs that were eligible to reduce expenditures actually did so, and these LEAs reduced expenditures by an average of 73 percent of the allowable amount. Of the 4,237 LEAs that reported reducing expenditures, only 32 had been determined to have not met the requirements of IDEA Part B and may have violated the MOE requirement, unless one of the exceptions to the MOE requirement in § 300.204 was applicable. The combined amount of MOE reductions for these LEAs was $19,304,506, with a median reduction of $745. One of these LEAs reported a
reduction of $18,358,631, which represents 41 percent of the increase in that LEA’s allocation from the previous year; but the reductions that were taken by the remaining LEAs were relatively small. 

The combined amount by which eligible LEAs in the 50 States, the District of Columbia, and Puerto Rico could have reduced their level of effort in SY 2009–2010 was $5.6 billion, but the actual combined reduction was only 27 percent of that amount, or $1.5 billion. Because most LEAs did not reduce expenditures when they had an opportunity to do so, which would have led to an allowable reduction of their level of effort required in future years, it is reasonable to assume that a smaller number of LEAs would undertake reductions that constitute violations of the MOE requirement. We believe that it is highly unlikely that the 4,205 LEAs that met the requirement of section 613(a)(2)(C) of the IDEA and reduced their level of effort would seek further reductions that would violate the MOE requirement because they legitimately lowered their own required level of effort when they made those previous reductions. 

Based on available audit findings and data, the Department believes that LEAs generally are unlikely to reduce expenditures in violation of the MOE requirement. Moreover, we believe that the requirement that LEAs make FAPE available to all eligible children with disabilities provides another critical protection against unwarranted reductions of expenditures to support education for children with disabilities. However, to ensure that State policy and administration of the MOE requirement are consistent with the Department’s position on the required level of future expenditures in cases of LEA violations, we think that it is critical to change the regulations to clearly articulate the Department’s interpretation of the law.

Paperwork Reduction Act of 1995

Under the Paperwork Reduction Act of 1995 (44 U.S.C.S. 3501–3520), we have assessed the potential information collections in these proposed regulations that would be subject to review by OMB (Report on IDEA Part B Maintenance of Effort Reduction (§ 300.205(a)) and Coordinated Early Intervening Services (§ 300.226)) (Information Collection 1820–0689). In conducting this analysis, the Department examined the extent to which the amended regulations would add information collection requirements for public agencies. Based on this analysis, the Secretary has concluded that these amendments to the Part B regulations would not impose additional information collection requirements.

Intergovernmental Review

This program is subject to the requirements of Executive Order 12372 and the regulations in 34 CFR part 79. One of the objectives of the Executive order is to foster an intergovernmental partnership and a strengthened federalism. The Executive order relies on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.

This document provides early notification of the Department’s specific plans and actions for this program.

Assessment of Educational Impact

In the NPRM we requested comments on whether the proposed regulations would require transmission of information that any other agency or authority of the United States gathers or makes available.

Based on the response to the NPRM and on our review, we have determined that these final regulations do not require transmission of information that any other agency or authority of the United States gathers or makes available.

Accessible Format: Individuals with disabilities can obtain this document in an accessible format (e.g., braille, large print, audiotape, or compact disc) on request to the program contact person listed under FOR FURTHER INFORMATION CONTACT.

Electronic Access to This Document: The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available via the Federal Digital System at: www.gpo.gov/fdsys. At this site you can view this document, as well as all other documents of this Department published in the Federal Register, in text or Adobe Portable Document Format (PDF). To use PDF you must have Adobe Acrobat Reader, which is available free at the site.

You may also access documents of the Department published in the Federal Register by using the article search feature at: www.federalregister.gov. Specifically, through the advanced search feature at this site, you can limit your search to documents published by the Department. (Catalog of Federal Domestic Assistance Number 84.181)

List of Subjects in 34 CFR Part 300

Administrative practice and procedure, Education of individuals with disabilities, Elementary and secondary education, Equal educational opportunity, Grant programs—education, Privacy, Private schools, Reporting and recordkeeping requirements.

Dated: April 9, 2015.

Arne Duncan,
Secretary of Education.

For the reasons discussed in the preamble, the Secretary amends part 300 of title 34 of the Code of Federal Regulations as follows:

PART 300—ASSISTANCE TO STATES FOR THE EDUCATION OF CHILDREN WITH DISABILITIES

1. The authority citation for part 300 is revised to read as follows: Authority: 20 U.S.C. 1221e–3, 1400, 1411–1419, 3474, unless otherwise noted.

2. Section 300.203 is revised to read as follows:

§ 300.203 Maintenance of effort.

(a) Eligibility standard. (1) For purposes of establishing the LEA’s eligibility for an award for a fiscal year, the SEA must determine that the LEA budgets, for the education of children with disabilities, at least the same amount, from at least one of the following sources, as the LEA spent for that purpose from the same source for the most recent fiscal year for which information is available:

(i) Local funds only;

(ii) The combination of State and local funds;

(iii) Local funds only on a per capita basis; or

(iv) The combination of State and local funds on a per capita basis.

(b) The procedures for determining the amount of funds that the LEA must budget to meet the requirement in paragraph (a)(1) of this section, the LEA may take into consideration, to the extent the information is available, the exceptions and adjustment provided in §§ 300.204 and 300.205 that the LEA:

(i) Took in the intervening year or years between the most recent fiscal year for which information is available and the fiscal year for which the LEA is budgeting; and

(ii) Reasonably expects to take in the fiscal year for which the LEA is budgeting.

(c) Expenditures made from funds provided by the Federal government for which the SEA is required to account to the Federal government or for which the LEA is required to account to the
Federal government directly or through the SEA may not be considered in determining whether an LEA meets the standard in paragraph (a)(1) of this section.

(b) Compliance standard. (1) Except as provided in §§ 300.204 and 300.205, funds provided to an LEA under Part B of the Act must not be used to reduce the level of expenditures for the education of children with disabilities made by the LEA from local funds below the level of those expenditures for the preceding fiscal year.

(2) An LEA meets this standard if it does not reduce the level of expenditures for the education of children with disabilities made by the LEA from at least one of the following sources below the level of those expenditures from the same source for the preceding fiscal year, except as provided in §§ 300.204 and 300.205:

(i) Local funds only;

(ii) The combination of State and local funds;

(iii) Local funds only on a per capita basis; or

(iv) The combination of State and local funds on a per capita basis.

(3) Expenditures made from funds provided by the Federal government for which the SEA is required to account to the Federal government or for which the LEA is required to account to the Federal government directly or through the SEA may not be considered in determining whether an LEA meets the standard in paragraphs (b)(1) and (2) of this section.

(c) Subsequent years. (1) If, in the fiscal year beginning on July 1, 2013 or July 1, 2014, an LEA fails to meet the requirements of § 300.203 in effect at that time, the level of expenditures required of the LEA for the fiscal year subsequent to the year of the failure is the amount that would have been required under paragraph (b)(2)(i) or (iii) of this section and the LEA is relying on local funds only, or local funds only on a per capita basis, to meet the requirements of paragraph (a) or (b) of this section, the level of expenditures required of the LEA for the fiscal year subsequent to the year of the failure is the amount that would have been required under paragraph (b)(2)(i) or (iii) in the absence of that failure, not the LEA’s reduced level of expenditures.

(2) If, in any fiscal year beginning on or after July 1, 2015, an LEA fails to meet the requirement of paragraph (b)(2)(i) or (iii) of this section and the LEA is relying on local funds only, or local funds only on a per capita basis, to meet the requirements of paragraph (a) or (b) of this section, the level of expenditures required of the LEA for the fiscal year subsequent to the year of the failure is the amount that would have been required under paragraph (b)(2)(i) or (iii) in the absence of that failure, not the LEA’s reduced level of expenditures.

(3) If, in any fiscal year beginning on or after July 1, 2015, an LEA fails to meet the requirement of paragraph (b)(2)(ii) or (iv) of this section and the LEA is relying on the combination of State and local funds, or the combination of State and local funds on a per capita basis, to meet the requirements of paragraph (a) or (b) of this section, the level of expenditures required of the LEA for the fiscal year subsequent to the year of the failure is the amount that would have been required under paragraph (b)(2)(ii) or (iv) in the absence of that failure, not the LEA’s reduced level of expenditures.

(d) Consequence of failure to maintain effort. If an LEA fails to maintain its level of expenditures for the education of children with disabilities in accordance with paragraph (b) of this section, the SEA is liable in a recovery action under section 452 of the General Education Provisions Act (20 U.S.C. 1234a) to return to the Department, using non-Federal funds, an amount equal to the amount by which the LEA failed to maintain its level of expenditures in accordance with paragraph (b) of this section in that fiscal year, or the amount of the LEA’s Part B subgrant in that fiscal year, whichever is lower. (Approved by the Office of Management and Budget under control number 1820–0600)

§ 300.204 [Amended]
3. Section 300.204 is amended by removing, from the introductory text, the citation “§ 300.203(a)” and adding, in its place, the citation “§ 300.203(b)”.

§ 300.205 [Amended]
4. Section 300.205 is amended by removing, from paragraph (a), both instances of the citation “§ 300.203(a)”, and adding, in both places, the citation “§ 300.203(b)”.

§ 300.208 [Amended]
5. Section 300.208 is amended by removing, from paragraph (a), the citation “300.203(a)” and adding, in its place, the citation “300.203(b)”.

Appendix E to Part 300 [Redesignated as Appendix F to Part 300]
6. Appendix E to part 300 is redesignated as Appendix F to part 300.

7. A new Appendix E is added to read as follows:

Appendix E To Part 300—Local Educational Agency Maintenance of Effort Calculation Examples

The following tables provide examples of calculating LEA MOE. Figures are in $10,000s. All references to a “fiscal year” in these tables refer to the fiscal year covering that school year, unless otherwise noted.

Tables 1 through 4 provide examples of how an LEA complies with the Subsequent Years rule. In Table 1, for example, an LEA spent $1 million in Fiscal Year (FY) 2012–2013 on the education of children with disabilities. In the following year, the LEA was required to spend at least $1 million but spent only $900,000. In FY 2014–2015, therefore, the LEA was required to spend $1 million, the amount it was required to spend in FY 2013–2014, not the $900,000 it actually spent.

Table 1—Example of Level of Effort Required to Meet MOE Compliance Standard in Year Following a Year in Which LEA Failed to Meet MOE Compliance Standard

<table>
<thead>
<tr>
<th>Fiscal year</th>
<th>Actual level of effort</th>
<th>Required level of effort</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>2012–2013</td>
<td>$100</td>
<td>$100</td>
<td>LEA met MOE.</td>
</tr>
<tr>
<td>2013–2014</td>
<td>90</td>
<td>100</td>
<td>LEA did not meet MOE.</td>
</tr>
<tr>
<td>2014–2015</td>
<td>........................</td>
<td>100</td>
<td>Required level of effort is $100 despite LEA’s failure in 2013–2014.</td>
</tr>
</tbody>
</table>

Table 2 shows how to calculate the required amount of effort when there are consecutive fiscal years in which an LEA does not meet MOE.
TABLE 2—EXAMPLE OF LEVEL OF EFFORT REQUIRED TO MEET MOE COMPLIANCE STANDARD IN YEAR FOLLOWING CONSECUTIVE YEARS IN WHICH LEA FAILED TO MEET MOE COMPLIANCE STANDARD

<table>
<thead>
<tr>
<th>Fiscal year</th>
<th>Actual level of effort</th>
<th>Required level of effort</th>
<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>2012–2013</td>
<td>$100</td>
<td>$100</td>
<td>LEA met MOE.</td>
</tr>
<tr>
<td>2013–2014</td>
<td>90</td>
<td>100</td>
<td>LEA did not meet MOE.</td>
</tr>
<tr>
<td>2014–2015</td>
<td>90</td>
<td>100</td>
<td>LEA did not meet MOE. Required level of effort is $100 despite LEA’s failure in 2013–2014.</td>
</tr>
</tbody>
</table>

Table 3 shows how to calculate the required level of effort in a fiscal year after the year in which an LEA spent more than the required amount on the education of children with disabilities. This LEA spent $1.1 million in FY 2015–2016 though only $1 million was required. The required level of effort in FY 2016–2017, therefore, is $1.1 million.

TABLE 3—EXAMPLE OF LEVEL OF EFFORT REQUIRED TO MEET MOE COMPLIANCE STANDARD IN YEAR FOLLOWING YEAR IN WHICH LEA MET MOE COMPLIANCE STANDARD

<table>
<thead>
<tr>
<th>Fiscal year</th>
<th>Actual level of effort</th>
<th>Required level of effort</th>
<th>Notes</th>
</tr>
</thead>

<td>100</td>
<td>LEA did not meet MOE. Required level of effort is $100 despite LEA’s failure in 2013–2014.</td>
</tr>
<tr>
<td>2015–2016</td>
<td>110</td>
<td>100</td>
<td>LEA did not meet MOE. Required level of effort is $110 because LEA expended $110, and met MOE, in 2015–2016.</td>
</tr>
<tr>
<td>2016–2017</td>
<td></td>
<td>110</td>
<td>LEA did not meet MOE. Required level of effort is $110 because LEA did not spend at least the same amount in FY 2016–2017 as it did in FY 2015–2016.</td>
</tr>
</tbody>
</table>

Table 5 provides an example of how an LEA may meet the compliance standard using alternate methods from year to year without using the exceptions or adjustment in §§ 300.204 and 300.205, and provides information on the following scenario. In FY 2015–2016, the LEA meets the compliance standard using all four methods. As a result, in order to demonstrate that it met the compliance standard using any one of the four methods in FY 2016–2017, the LEA must expend at least as much as it did in FY 2015–2016 using that same method. Because the LEA spent the same amount in FY 2016–2017 as it did in FY 2015–2016, calculated using a combination of State and local funds and a combination of State and local funds on a per capita basis, the LEA met the compliance standard using both of those methods in FY 2016–2017. However, the LEA did not meet the compliance standard in FY 2016–2017 using the other two methods—local funds only or local funds only on a per capita basis—because it did not spend at least the same amount in FY 2016–2017 as it did in FY 2015–2016 using the same methods.

</tr>
</tbody>
</table>

Because the LEA did not reduce its expenditures from the comparison year (2017–2018) using a combination of State and local funds, the LEA met MOE.

Because the LEA did not reduce its expenditures from the comparison year (2017–2018) using a combination of State and local funds on a per capita basis ($1,000/9 = $111.11 and $111.11 > $100), the LEA met MOE.

*LEA met MOE using this method.

**Note:** When calculating any exception(s) and/or adjustment on a per capita basis for the purpose of determining the required level of effort, the LEA may use the child count from the comparison year and the child count of the year in which the LEA took the exception(s) and/or adjustment. When determining the actual level of effort on a per capita basis, the LEA must use the child count for the current year. For example, in 2018–2019, the LEA uses a child count of 9, not the child count of 10 in the comparison year, to determine the actual level of effort.

Tables 7 and 8 demonstrate how an LEA could meet the eligibility standard over a period of years using different methods from year to year. These tables assume that the LEA did not take any of the exceptions or adjustment in §§ 300.204 and 300.205. Numbers are in $10,000s budgeted and spent for the education of children with disabilities.
## TABLE 7—EXAMPLE OF HOW AN LEA MAY MEET THE ELIGIBILITY STANDARD IN 2016–2017 USING DIFFERENT METHODS

The SEA determines that the amount of the LEA’s failure is $100 using the calculation method that results in the lowest amount of a failure. The SEA’s liability is the lesser of the four calculated shortfalls and the amount of the LEA’s Part B subgrant in the fiscal year in which the LEA failed to meet the compliance standard. In this case, the SEA must return $50 to the Department because the LEA’s IDEA Part B subgrant was $50, and that is the lower amount.

* LEA met MOE using this method.
