

**SUPPLEMENTARY INFORMATION:****I. Abstract**

The BIE is requesting renewal of OMB approval for the admission forms for the Student Enrollment Application in Bureau-funded Schools. School registrars collect information on this form to determine the student's eligibility for enrollment in a Bureau-funded school, and if eligible, is shared with appropriate school officials to identify the student's base and supplemental educational and/or residential program needs. The BIE compiles the information into a national database to facilitate budget requests and the allocation of congressionally appropriated funds.

**II. Request for Comments**

The BIE requests your comments on this collection concerning: (a) The necessity of this information collection for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) The accuracy of the agency's estimate of the burden (hours and cost) of the collection of information, including the validity of the methodology and assumptions used; (c) Ways we could enhance the quality, utility, and clarity of the information to be collected; and (d) Ways we could minimize the burden of the collection of the information on the respondents.

Please note that an agency may not conduct or sponsor, and an individual need not respond to, a collection of information unless it displays a valid OMB Control Number.

It is our policy to make all comments available to the public for review at the location listed in the **ADDRESSES** section. Before including your address, phone number, email address or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

**SUPPLEMENTARY INFORMATION:** The American Flat Mill is an abandoned

mining feature located within the Virginia City National Historic Landmark. At the time of its completion in 1922, it was the largest concrete mill structure in the world utilizing cyanide extraction to process silver ore. Following a substantial decrease in silver prices in 1924, the operation never recovered and the mill was dismantled in 1927. Only the deteriorated concrete skeleton of the mill remains today. The BLM plans on abating the substantial physical safety hazard posed by the American Flat Mill by demolishing the remaining buildings. Public land surrounding and including the American Flat Mill will be closed to public entry for the duration of demolition and reclamation activities. The public land affected by this closure is described as follows:

**Mount Diablo Meridian**

T. 16 N., R. 21 E.,

The area described contains 190 acres, more or less, in Storey County, Nevada.

The closure notice, communications plan and map of the closure area will be posted at the BLM Carson City District Office, 5665 Morgan Mill Road, Carson City, Nevada and on the BLM Web site: [http://www.blm.gov/nv/st/en/fo/carson\\_city\\_field.html](http://www.blm.gov/nv/st/en/fo/carson_city_field.html).
