SUPPLEMENTARY INFORMATION:

Title: Domestic Quarantine Notices.

OMB Control Number: 0579–0088.

Type of Request: Extension of approval of an information collection.

Abstract: As authorized by the Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*), the Secretary of Agriculture may prohibit or restrict the importation, entry, exportation, or movement in interstate commerce of any plant, plant product, biological control organism, noxious weed, means of conveyance, or other article to prevent a plant pest or noxious weed from being introduced into or disseminated within the United States. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture, which administers regulations to implement the PPA.

APHIS regulations in 7 CFR part 301, “Domestic Quarantine Notices,” prohibit or restrict the interstate movement of certain articles from infested areas to noninfested areas to prevent the spread of plant pests. Federal and State quarantines are necessary to regulate the movement of articles from infested areas to noninfested areas. For example, if an area in the United States has been placed under quarantine due to the Asian longhorned beetle, then certain plant products (regulated articles) that are susceptible to the Asian longhorned beetle can be moved from the quarantined area only under certain conditions (*i.e.*, after inspection and issuance of a certificate or limited permit). These measures help prevent the Asian longhorned beetle from spreading from the quarantined area to noninfested areas of the United States.

Administering these regulations requires APHIS to collect information

from a variety of individuals who are involved in growing, packing, handling, and transporting plants and plant products. The information serves as supporting documentation required for the issuance of forms and documents that authorize the movement of regulated plants and plant products and is vital to help prevent the spread of injurious plant pests within the United States. Collecting this information requires us to use a number of forms and documents, including certificates, limited permits, transit permits, and outdoor household article documents.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.31 hours per response.

Respondents: State plant regulatory officials, State cooperators, and individuals involved in growing, packing, handling, and transporting plants and plant products.

Estimated annual number of respondents: 27,464.

Estimated annual number of responses per respondent: 60.

Estimated annual number of responses: 1,640,893.

Estimated total annual burden on respondents: 512,491 hours. (Due to averaging, the total annual burden hours

may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 27th day of April 2015.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.

SUPPLEMENTARY INFORMATION:

Title: Volunteer Service Agreements and Volunteer Service Time and Attendance Record.

OMB Control Number: 0579-XXXX.

Type of Request: Approval of a new information collection.

Abstract: Section 1526 of the Food and Agricultural Act of 1981 (7 U.S.C. 2272) permits the Secretary of Agriculture to establish a program to use volunteers to carry out U.S. Department of Agriculture (USDA) programs. Departmental Regulation No. 4230-1, Volunteer Programs, provides the guidelines USDA agencies must use for acceptance of volunteers and sets a requirement for agencies to publish their guidelines. Regulations of the Office of Personnel Management (OPM) in 5 CFR part 308 provide agencies with the authority to establish programs designed to provide educationally related work assignments for students in nonpay status.

The Marketing and Regulatory Programs (MRP) mission area of USDA uses several information collection activities to assist MRP program officials, administrative personnel, and USDA Human Resources offices in determining a volunteer's eligibility and suitability for volunteer service. The information is necessary to facilitate establishment of guidelines for acceptance of volunteer services; make a determination of an individual's eligibility and suitability to serve as a volunteer in MRP; and comply with OPM regulations requiring documentation of volunteer service and maintenance of records. The information collection activities include a Student Volunteer Service Agreement, Nonstudent Volunteer Service Agreement, and Volunteer Time and Attendance Record.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.22 hours per response.

Respondents: Individuals engaged in activities for which they are not paid, except for authorized expenses associated with performance of volunteer activities.

Estimated annual number of respondents: 85.

Estimated annual number of responses per respondent: 2.

Estimated annual number of responses: 170.

Estimated total annual burden on respondents: 38 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.
