

identifiable information in your comments, you should be aware that your entire comment—including your personally identifiable information—may be made publicly available at any time. While you can ask us in your comment to withhold your personally identifiable information from public review, we cannot guarantee that we will be able to do so. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public disclosure in their entirety. Comments and materials we receive, as well as supporting documentation we used in preparing the draft EAS, will be available for public inspection by appointment, during normal business hours, at our Washington Fish and Wildlife Office (see **ADDRESSES**).

#### Next Steps

We will evaluate the draft SHA, associated documents, and any public comments we receive to determine whether the permit application and the EAS meet the requirements of section 10(a) of the ESA and NEPA, respectively, and their respective implementing regulations. We will also evaluate whether issuance of an enhancement of survival permit would comply with section 7 of the ESA by conducting an intra-Service section 7 consultation on the proposed permit action. If we determine that all requirements are met, we will sign the proposed SHA and IA, and issue an enhancement of survival permit under section 10(a)(1)(A) of the ESA to the applicant, Everett, for incidental take of the northern spotted owl and the marbled murrelet caused by covered activities in accordance with the terms of the permit, SHA, and IA. We will not make our final decision until after the end of the 30-day public comment period, and we will fully consider all comments and information we receive during the public comment period.
