

(c) Recommendations for rewording or reorganizing.

### Response 9

All typographical and grammatical errors pointed out in comments were corrected. In many cases, requests for rewording or reorganizing were accepted (e.g., outcomes, outputs, and example activities listed under each long-term research priority in Section II were reordered to example activities, example outputs, and outcomes); however, some requests would have required extensive rewriting of the plan or were beyond the scope of this document. In other cases, the requested information was already in the plan—this revised version improves the organization and alignment of information and section headers throughout the plan to make it easier to locate specific information. There were several comments regarding some confusion on information presented in appendices. Several appendices have been revised and their captions have been clarified. Non-essential appendices have been removed from the plan.

This Notice announces a public webinar on May 20, 2015 to inform all stakeholders and other interested parties on how they can share their perspectives and recommend actions that the federal government can take to promote broadband deployment, adoption, and competition, including by identifying and removing regulatory barriers unduly impeding investments in broadband technology. The webinar will educate stakeholders and other interested parties on the purpose and objectives of the RFC. It will also provide the public with information on how to participate in the RFC, while also allowing the public to ask any questions about the RFC.

**SUPPLEMENTARY INFORMATION:** *Title; Associated Form; and OMB Number:* Diagnosis Related Groups (DRG) Reimbursement; OMB Control Number: 0720-0017.

**Needs and Uses:** The TRICARE/CHAMPUS contractors will use the information collected to reimburse hospitals for TRICARE/CHAMPUS share of capital and direct medical education costs.

**Affected Public:** Individuals; business or other for-profit.

**Annual Burden Hours:** 8,400.

**Number of Respondents:** 5,600.

**Responses per Respondent:** 1.

**Average Burden per Response:** 90 minutes.

**Frequency:** On occasion.

The Department of Defense Authorization Act, 1984, Public Law 98-94 amended Title 10, section 1079(j)(2)(A) of the U.S.C. and provided the Civilian Health and Medical Program of the Uniform Services (CHAMPUS) with the statutory authority to reimburse institutional providers based on diagnosis-related groups (DRGs). The CHAMPUS DRG-based payment system, except for children's hospitals (whose capital and

direct medical education costs are incorporated in the children's hospital differential), who want to be reimbursed for allowed capital and direct medical education costs must submit a request for payment to the TRICARE/CHAMPUS contractor. The request allows TRICARE to collect the information necessary to properly reimburse hospitals for its share of these costs. The information can be submitted in any form, most likely in the form of a letter. The contractor will calculate the TRICARE/CHAMPUS share of capital and direct medical education costs and make a lump-sum payment to the hospital. The TRICARE/CHAMPUS DRG-based payment system is modeled on the Medicare Prospective Payment System (PPS) and was implemented on October 1, 1987. Initially, under 42 CFR 412.46 of the Medicare regulations, physicians was required to sign attestation and acknowledgment statements. These requirements were implemented to ensure a means of holding hospitals and physicians accountable for the information they submit on the Medicare claim forms. Being modeled on the Medicare PPS, CHAMPUS also adopted these requirements. The physicians attestation and physician acknowledgment required by Medicare under 42 CFR 412.46 are also required for TRICARE/CHAMPUS as a condition for payment and may be satisfied by the same statements as required for Medicare, with substitution or addition of "TRICARE/CHAMPUS" when the word "Medicare" is used. Physicians sign a physician acknowledgement, maintained by the institution, at the time the physician is granted admitting privileges. This acknowledgement indicates the physician understands the importance of a correct medical record, and misrepresentation may be subject to penalties.
