Substance Abuse and Mental Health Services Administration

Announcement of Requirements and Registration for the Opioid Overdose Prevention Challenge

AGENCY: SAMHSA, HHS.

ACTION: Notice.

Authority: 15 U.S.C. 3719.

SUMMARY: In summarizing the challenge that will be issued by your agency, please answer the following four questions:

(1) What action is being taken?

The Substance Abuse and Mental Health Services Administration (SAMHSA) has issued a challenge to help prevent opioid overdose and support recovery through innovative, software-based solutions that help people know the signs of opioid use, understand what to do if a family member or friend overdoses on heroin or opioid pain medications, and support

treatment for opioid addiction and recovery.

(2) Why is this action necessary?

There were 17,000 deaths from opioids in 2010, double the deaths in 2001. Use of prescription opioids has quadrupled. Death by opioid overdose is preventable. SAMHSA hopes to help prevent deaths from opioid overdose, and support treatment and recovery for individuals with an opioid substance use disorder.

(3) What is the objective of the challenge?

To prevent deaths from opioid overdose, and support treatment and recovery for individuals with an opioid substance use disorder by providing resources and information on understanding the signs of overdose, how to respond to an overdose, information about opioid use, treatment, and recovery.

(4) What is the intended effect of this action?

A reduction in the number of individuals dying from opioid overdose. SAMHSA is seeking solutions to this problem through cost-effective, portable, technology-based products that effectively reach a diverse population of friends and family concerned about opioid use by someone they know. Technology-based products may include, but are not limited to, web applications, mobile apps, and Web sites.

DATES: The challenge starts on June 1, 2015 10:00 a.m. ET. The challenge ends on July 29, 2015 11:59 p.m. ET.
