SUPPLEMENTARY INFORMATION: Interior established the Committee on July 26, 2012, in accordance with the provisions of the Federal Advisory Committee Act (FACA), as amended (5 U.S.C. App. 2), and with the concurrence of the General Services Administration. The

Committee serves as the U.S. Extractive Industries Transparency Initiative Multi-Stakeholder Group and advises the Secretary of the Interior on design and implementation of the initiative.

The Committee does the following:

- Oversees the U.S. implementation of the Extractive Industries Transparency Initiative (EITI), a global standard for governments to publicly disclose revenues received from oil, gas, and mining assets belonging to the government, with parallel public disclosure by companies of payments to the government (such as royalties, rents, bonuses, taxes, or other payments)
- Develops and recommends to the Secretary a fully-costed work plan, containing measurable targets and a timetable for implementation and incorporating an assessment of capacity constraints; this plan will be developed in consultation with key EITI stakeholders and published upon completion

- Provides opportunities for collaboration and consultation among stakeholders
- Advises the Secretary and posts for consideration by other stakeholders proposals for conducting long-term oversight and other activities necessary to achieve and maintain EITI-compliant status

The Committee consists of representatives from three stakeholder sectors. The sectors are as follows:

- Industry—including non-Federal representatives from the extractive industry—including oil, gas, and mining companies and industry-related trade associations.
- Civil society, including organizations with an interest in extractive industries, transparency, and government oversight; members of the public; and public and/or private investors.
- Government, including Federal, State, local, and Tribal governments and individual Indian mineral owners.

In addition to honoring the EITI principle of self-selection within the stakeholder sector, we will consider the following criteria when making final selections:

- Understanding of and commitment to the EITI process
- Ability to collaborate and operate in a multi-stakeholder setting
- Access to and support from a relevant stakeholder constituency
- Basic understanding of the extractive industry and/or revenue collection or willingness to be educated on such matters

Nominations should include a resume providing relevant contact information and an adequate description of the
