

**DEPARTMENT OF JUSTICE****Antitrust Division****Notice Pursuant to The National Cooperative Research and Production Act of 1993—CloudFoundry.Org Foundation, Inc.**

Notice is hereby given that, on April 16, 2015, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* (“the Act”), CloudFoundry.org Foundation, Inc. (“CFF”) has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing (1) the name and principal place of business of the standards development organization and (2) the nature and scope of its standards development activities. The notifications were filed for the purpose of invoking the Act’s provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances.

Pursuant to Section 6(b) of the Act, the name and principal place of business of the standards development organization is: CloudFoundry.org Foundation, Inc., San Francisco, CA. The nature and scope of CFF’s standards development activities are: to establish and sustain Cloud Foundry as the global industry standard Platform-as-a-Service (“PaaS”) open source technology with a thriving ecosystem; to deliver continuous quality, value, and innovation to users, operators, and providers of Cloud Foundry technology and thereby promote the common business interests of such users, operators, and providers; and to provide a vibrant agile experience for the community’s contributors that delivers the highest quality cloud-native applications and software at high velocity with global scale.

**Patricia A. Brink,**

*Director of Civil Enforcement, Antitrust Division.*

**DEPARTMENT OF LABOR****Employment and Training Administration****Comment Request for Information Collection for OMB 1205–0245, Unemployment Insurance (UI) Benefit Accuracy Measurement (BAM), Extension Without Revisions**

**AGENCY:** Employment and Training Administration (ETA), Labor.

**ACTION:** Notice.

**SUMMARY:** The Department of Labor (Department), as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 [44 U.S.C. 3506(c)(2)(A)]. This program helps ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

Currently, ETA is soliciting comments concerning the continuation of collection of data about the accuracy of paid and denied UI claims, which is accomplished through the BAM survey. The Department’s BAM information collection authority, under Office of Management and Budget (OMB) number 1205–0245, is scheduled to expire on December 31, 2015.

**DATES:** Written comments must be submitted to the office listed in the addresses section below on or before July 13, 2015.

**ADDRESSES:** Send written comments to Dennis Austin, Office of Unemployment Insurance, Room S–4524, Employment and Training Administration, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, DC 20210. Telephone number: 202–693–3056 (this is not a toll-free number). Individuals with hearing or speech impairments may access the telephone number above via TTY by calling the toll-free Federal Information Relay Service at 1–877–889–5627 (TTY/TDD). Email: [Austin.Dennis@dol.gov](mailto:Austin.Dennis@dol.gov). To obtain a copy of the proposed information collection request (ICR), please contact the person listed above.

**SUPPLEMENTARY INFORMATION:****I. Background**

Since 1987, all State Workforce Agencies (SWAs) except the U.S. Virgin Islands have been required by regulation at 20 CFR part 602 to operate BAM programs to assess the accuracy of their UI benefit payments in three programs: State UI, Unemployment Compensation for Federal Employees (UCFE), and Unemployment Compensation for Ex-servicemembers (UCX). Beginning in 2001, BAM was modified to include the sampling and investigation of UI claims denied for monetary, separation, or nonseparation issues.

BAM is one of the tools the Department uses to measure and reduce waste, fraud, and abuse in the UI program. By investigating small representative weekly samples of both paid and denied UI claims, each state is able to estimate reliably the number and dollar value of proper and improper payments; the number of proper and improper denials of claims for UI benefits; the rates of occurrence of these proper and improper payments and denials; and the error types, error causes, and the parties that are responsible for the errors.

*Paid Claims Accuracy (PCA).* Each week SWAs select random samples of both intrastate and interstate original payments (including combined wage claims) made for a week of UI benefits under the State UI, UCX or UCFE programs. A sample of 360 cases per year is pulled in the ten states with the smallest UI program workloads (defined as the average annual UI weeks paid during the last five years) and 480 cases per year in the other states. State BAM staff audit each selected claim, examining all aspects of a claimant’s eligibility to receive UI benefits during the sampled week. The findings are entered into an automated database that is maintained on a computer located in each state.

*Denied Claims Accuracy (DCA).* Each week states select random samples from three separate sampling frames constructed from the universes of UI claims for which eligibility was denied for monetary, separation and nonseparation reasons. All states sample a minimum of 150 cases of each denial type in each calendar year. State BAM staff review agency records and contact claimants, employers, and all other relevant parties to verify information in agency records or obtain additional information pertinent to the determination that denied eligibility for UI benefits. Unlike the investigation of paid claims, in which all prior determinations affecting claimant eligibility for the compensated week selected for the sample are evaluated, the investigation of denied claims is limited to the issue upon which the denial determination is based. The findings are entered into an automated database that is maintained on a computer located in each state.

The Department maintains a database of each state’s BAM paid and denied claims cases, minus any personally identifying information. The Department uses BAM data to measure state performance with respect to UI payment integrity and to meet the Department’s reporting requirements of the Improper Payments Information Act
