

Performance Green Buildings and provides advice regarding how the Office can accomplish its mission most effectively.

The *Portfolio Prioritization* task group is pursuing the motion of two committee members to “propose a process for Federal agencies to consistently incorporate green building and resilience requirements into their capital investment criteria and strategies.” The *Energy Use Index* task group is pursuing the motion of a committee member to “develop guidelines for creating a new energy intensity metric [to reflect impacts of] densified facilities, centrally located workplace sites . . . and expansion of telework and hoteling.”

Both groups have met previously and had their work endorsed by the full Committee at its April 23, 2015 meeting. The conference calls will focus on how the task groups can further refine these motions into final consensus recommendations of each group to the full Committee, which will in turn decide whether to proceed with formal advice to GSA based upon these recommendations. Additional background information and updates will be posted on GSA’s Web site at <http://www.gsa.gov/gbac>.

Dated: May 14, 2015.
