

differences, such differences are not substantive and are still consistent with the scope of prior self-regulatory organization rulemaking.

Finally, the Exchange believes that as Rule 6.7 will now govern the liability of the Exchange for claims arising out of any errors or omissions by agents of the Exchange (which would include Order Book Officials, PAR Officials and their respective assistants or clerks), Rule 7.11 is superfluous and unnecessary to maintain in the rules. Additionally, the Exchange no longer believes it is necessary to single out the errors or omissions of Order Book Officials and PAR Officials in the manner described under Rule 7.11 as compared to other errors and omissions that are subject to Rule 6.7. The Exchange notes that although the Exchange's reciprocal right to bring a claim against Trading Permit Holders and the arbitration process for disputed claims will be eliminated, such language is no longer necessary.³⁰ As such, the Exchange believes that eliminating Rule 7.11 maintains clarity in the rules and avoids potential confusion, which removes impediments and perfects the mechanism of a free and open market and a national market system, and, in general, protects investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange believes that this proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. As stated above, the Exchange believes that these policies would promote fairness in the national market system. The proposed rule change would allow CBOE to address Trading Permit Holder requests for compensation under various circumstances and would allow CBOE to act in a fashion similar to many of its competitors. In addition, as stated above, several exchanges have substantially similar rules to those proposed here, except as otherwise noted, and the Exchange believes that the proposed rule change would place CBOE in a similar position to address Trading Permit Holder requests.³¹

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act³² and Rule 19b-4(f)(6)³³ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to update the public disclosure of the sources of data that PSX, the PHLX equities facility, utilizes when performing (1) order

handling and execution; (2) order routing; and (3) related compliance processes.

The text of the proposed rule change is below. Proposed new language is italicized; proposed deletions are bracketed.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

In her June 5, 2014 market structure speech, the Chair requested that all national securities exchanges review

and disclose their policies and procedures governing the market data used when performing important exchange functions.³ In a letter dated June 20, 2014, the Director of the Division of Trading and Markets codified this request:

We believe there is a need for clarity regarding whether (1) the SIP data feeds, (2) proprietary data feeds, or (3) a combination thereof, are used by the exchanges for purposes of (1) order handling and execution (e.g., with pegged or midpoint orders), (2) order routing, and (3) regulatory compliance, as applicable. . . . Accordingly, we ask that proposed rule changes be filed that disclose the particular market data feeds that are used for each of these purposes. Consistent with your recent discussions with Commission staff, we ask that each SRO file these proposed rule changes with the Commission by July 15, 2014.⁴

PHLX fully supports the Commission’s efforts to provide more clarity in this area. Through this proposed rule change, PHLX is publicly clarifying on a market-by-market basis the specific network processor and proprietary data feeds that PHLX

utilizes for the handling, routing, and execution of orders, and for performing the regulatory compliance checks related to each of those functions. These complex practices are governed by a few, simple principles that are designed to ensure that PHLX has the most accurate view of the trading interest available across multiple markets, and to maximize the synchronization of the many exchange functions that depend upon the calculation of an accurate NBBO and top-of-book for each market. These principles are:

1. PHLX uses a proprietary data feed from each exchange that provides a reliable proprietary data feed. Where no reliable proprietary data feed is available, PHLX uses the network processor feed;
2. Where PHLX uses a proprietary data feed for an exchange quote, it also maintains access to the network processor feed as a back-up in the event a specific proprietary feed become [sic] unavailable or unusable for any reason;
3. PHLX uses the same proprietary data feed when performing order handling, routing, and execution functions, and also when the execution and routing system performs internal compliance checks related to those functions; and
4. PHLX acquires and processes all proprietary and network processor feeds via the same technological configuration

(i.e., telecommunication circuitry, switches, and feed handlers) to the greatest extent possible.

5. PHLX calculates the National Best Bid and Offer (“NBBO”) and top-of-book for each exchange at a single point within the PHLX System, and then distributes that data simultaneously to numerous applications performing order handling, routing, execution, and internal compliance functions throughout the PHLX System.

6. PHLX aggregates odd-lot orders, including those in its own and affiliated

markets, when calculating the NBBO based upon a direct feed from an away exchange. PHLX processes odd-lot orders from each exchange direct feed in the same manner that that exchange aggregates odd-lots when reporting its own quotations to the SIP.

7. PHLX utilizes the NBBO and top-of-book calculations described above for the handling of orders that use those reference points, including all variations of midpoint orders, pegged orders, and price-to-comply orders described in PHLX Rule 3301(f).

8. When calculating the NBBO, the PHLX System does not utilize feedback from other venues when calculating the NBBO. The PHLX System assumes that a protected quotation to which it has routed an order has been executed and can be removed from the NBBO; it does not await or respond to execution reports from such routing activity. As of the date of this filing, PHLX utilizes the following data feeds for the handling, execution and routing of orders, as well as for performing related compliance checks:

Market center	Primary source	Secondary source
A—NYSE MKT (AMEX)	CQS/UQDF	n/a
B—NASDAQ OMX BX	BX ITCH 5.0	CQS/UQDF
D—FINRA ADF	CQS/UQDF	n/a
J—DirectEdge A	EdgeBook	CQS/UQDF
K—DirectEdge X	EdgeBook	CQS/UQDF
M—CSX	CQS/UQDF	n/a
N—NYSE	NYSE OpenBook Ultra	CQS/UQDF
P—NYSE Arca	ArcaBook Binary uncompactd	CQS/UQDF
T/Q—NASDAQ	ITCH 5.0	CQS/UQDF
X—NASDAQ OMX PSX	PSX ITCH 5.0	CQS/UQDF
Y—BATS Y-Exchange	BATS PITCH	CQS/UQDF
Z—BATS Exchange	BATS PITCH	CQS/UQDF

PHLX uses these feeds to calculate the NBBO via an application called the “NMSFeed.” The NMSFeed consumes the PHLX Protected Quote Service (“NPQS”), which provides an internal view of that exchange’s own market data as PHLX ITCH, plus the proprietary and network processor market data feeds listed above. The NMSFeed calculates a Regulation NMS-Compliant “Best Bid or Offer” (“Compliant BBO”), and then delivers that information throughout the PHLX System, including to the “OUCH” order entry ports,⁵ the routing system, and various compliance applications described below.

Upon receipt of an update to a protected quote for a specific venue, the NMSFeed updates its quote for that venue, recalculates the consolidated BBO based upon the update, and recalculates the Compliant BBO after applying PHLX’s own BBO. Any portion of a quote that crosses PHLX’s BBO is ignored for purposes of calculating the NBBO. PHLX odd lot orders at the same price are aggregated and considered in the NBBO calculation if the sum is greater than or equal to a round lot. Otherwise, they are not considered in the NBBO calculation. Out of the

remaining quotes, the most aggressive remaining bid and offer (excluding PHLX⁶ and any destination which has been excluded from the NBBO in compliance with the self-help procedures under Regulation NMS) is selected and reported as the best quote. If away markets are crossing the market after applying PHLX’s BBO, orders will be accepted as originally priced and have the potential to execute. Any order sent to PHLX that is not an Intermarket Sweep Order (“ISO”) will have the Compliant BBO check enforced by the system.⁷

The PHLX Routing and Special Handling System (“RASH”) utilizes the Compliant BBO to determine if and when an order with special processing directives is marketable either against one or more orders in either the Core Matching System or a remote trading venue. RASH also receives market data feeds from certain venues not displaying

protected quotes in the national market system for use in “XDRK” and “XCST” routing strategies set forth in PHLX Rule 3308(a)(1)(A)(xiii) [sic] and (xiv) [sic], respectively. RASH maintains a number of routing processes, or Routers, unique to each venue that the System accesses. These Routers maintain a limited set of details for orders that are configured as routable by the user, while also monitoring the current best bid and best offer prices on each exchange.

The PHLX System includes internal compliance applications related to locked and crossed markets, trade throughs, limit-up/limit-down, and Regulation SHO compliance. Each of these applications utilizes the Compliant BBO to ensure compliance with applicable regulations.

PHLX operates a separate real-time surveillance system that is external to the execution systems and that monitors the execution system’s compliance with applicable rules and regulations. The real-time surveillance system utilizes a “mirrored” version of the internal NMSFeed in various realtime surveillance patterns, including (1) Lock/Cross, which detects lock/cross events across all markets, regardless of whether or not PHLX is a participant in the event; (2) Trade Through, which detects potential trade through events for all three NASDAQ equity markets; and (3) RegSho, which detects potential RegSho violations, alerting when a trade executes at or below the NBB at the time

⁵ OUCH is a protocol that allows PHLX participants to enter, replace and cancel orders and receive executions. In addition to OUCH, PHLX offers the FLITE protocol as an option for participants. In this document, references to OUCH also include FLITE because they are interchangeable for these purposes.

⁶ Deletion of PHLX’s quote at this stage of the process is necessary because otherwise the system would prevent valid executions on PHLX in the erroneous belief that such executions would be “trade throughs” in violation of Regulation NMS.

⁷ In general, any order that is sent to PHLX with an ISO flag is not re-priced and will be processed at its original price. There are a limited number of circumstances in which an order marked as an ISO will be determined not to be executable at its original price and will be re-priced. These include re-pricing under the Plan to Address Extraordinary Market Volatility, re-pricing to comply with Regulation SHO, and the re-pricing of an order with a post-only condition if PHLX has an order at that price at the time the order is accepted.

of order entry while the stock is in a RegSho restricted state.

2. Statutory Basis

PHLX believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,⁸ in general and with Sections [sic] 6(b)(5) of the Act,⁹ in particular in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.

The Exchange believes that its proposal to describe the Exchange's use of data feeds removes impediments to and perfects the mechanism of a free and open market and protects investors and the public interest because it provides additional specificity and transparency. The Exchange's proposal will enable investors to better assess the quality of the Exchange's execution and routing services. The proposal does not change the operation of the Exchange or its use of data feeds; rather it describes how, and for what purposes, the Exchange uses the quotes disseminated from data feeds to calculate the NBBO for a security for purposes of Regulation NMS, Regulation SHO and various order types that update based on changes to the applicable NBBO. The Exchange believes the additional transparency into the operation of the Exchange as described in the proposal will remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, protect investors and the public interest.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended. To the contrary, the Exchange believes the proposal would enhance competition because describing the Exchange's use of data feeds enhances transparency and enables investors to better assess the quality of the Exchange's execution and routing services.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the proposed rule change does not (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act¹⁰ and Rule 19b-4(f)(6) thereunder.¹¹

A proposed rule change filed pursuant to Rule 19b-4(f)(6) under the Act¹² normally does not become operative for 30 days after the date of its filing. However, Rule 19b-4(f)(6)(iii)¹³ permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may become operative immediately upon filing, noting that waiver of the operative delay would permit the Exchange to immediately enhance transparency. The Commission believes the waiver of the operative delay is consistent with the protection of investors and the public interest. Therefore, the Commission hereby waives the operative delay and designates the proposal operative upon filing.¹⁴

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the

Self-Regulatory Organizations; Chicago Board Options Exchange, Incorporated; Notice of Filing of a Proposed Rule Change Relating to Trading Permit Holder Qualifications

May 14, 2015.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on May 4, 2015, Chicago Board Options Exchange, Incorporated (the "Exchange" or "CBOE") filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposed to amend its rules related to Trading Permit Holder requirements and direct access to the Exchange's Hybrid Trading System (the "System"). The text of the proposed rule change is provided below.

Rule 3.4. Foreign Trading Permit Holders

[(a)]A Trading Permit Holder that does not maintain an office in the United States responsible for preparing and maintaining financial and other reports required to be filed with the Securities and Exchange Commission and the Exchange must:

[(i)a] prepare all such reports, and maintain a general ledger chart of

account and any description thereof, in English and U.S. dollars;

[(ii)b] reimburse the Exchange for any expense incurred in connection with examination of the Trading Permit Holder to the extent that such expenses exceed the cost of examining a Trading Permit Holder located within the continental United States; and

[(iii)c] ensure the availability of an individual fluent in English knowledgeable in securities and financial matters to assist the representatives of the Exchange during examinations.

Rule 3.4A. Additional Trading Permit Holder Qualifications

(a) *In addition to the qualifications set forth in Rules 3.2 through 3.4, a Trading Permit Holder applicant:*

(i) *must be domiciled in (with respect to individuals), or organized under the laws of (with respect to organizations), a jurisdiction expressly approved by the Exchange. When determining whether to approve a jurisdiction, the Exchange will consider whether:*

(A) *The applicant will be able to supply the Exchange with such information with respect to its dealings with the Exchange as set forth in the Rules;*

(B) *the Exchange will be able to examine the applicant's books and records to verify the accuracy of any information so supplied;*

(C) *approval of the applicant as a Trading Permit Holder will comply with all applicable laws, rules and regulations; and*
(D) *other factors that the Exchange reasonably and objectively determines may impact the applicant's ability to comply with the Rules and the Act or the Exchange's ability to accept Trading Permit Holders from the applicable jurisdiction.*

This approval may be limited to one or more specified categories of Trading Permit Holders or Trading Permit Holder activities in a jurisdiction or be contingent upon the satisfaction of specified conditions by all applicants from a jurisdiction to the extent such limits or conditions are necessary to satisfy clauses (A) through (D);

(ii) *will be subject to the jurisdiction of the federal courts of the United States and the courts of the state of Illinois; and*

(iii) *prior to acting as agent for a customer, must be able to provide information regarding the customer and the customer's trading activities to the Exchange in response to a regulatory request for information pursuant to the Rules. To the extent an individual or organization is required by an*

applicable law, rule or regulation to obtain written consent from a customer to permit the provision of this information to the Exchange, the applicant must obtain such consent.

(b) *The Exchange may at any time determine that a Trading Permit Holder can no longer comply with this Rule 3.4A. In that event, the Trading Permit Holder will have three months following the date of that determination to come into compliance with this Rule 3.4A. If a Trading Permit Holder does not come into compliance during that time period, the Exchange may terminate the Trading Permit Holder's status as a Trading Permit Holder.*

Rule 6.20A. Sponsored Users

(a)-(b) No change.

(c) *A Sponsoring Trading Permit Holder must ensure that a Sponsored User satisfies the requirements set forth in Rule 3.4A(a) and only directly accesses the System from an approved jurisdiction as set forth in Rule 6.23A(d).*

Rule 6.23A. Trading Permit Holder Connectivity

(a)-(c) No change.

(d) *The Hybrid Trading System shall be available for entry and execution of orders only to Trading Permit Holders, [and]persons associated with Trading Permit Holders, and Sponsored Users (pursuant to Rule 6.20A) with authorized access. Such persons may only directly access the System from a jurisdiction expressly approved by the Exchange pursuant to Rule 3.4A(a). The Exchange will require a Trading Permit Holder to enter into a software user or license agreement with the Exchange in such form or forms as the Exchange may prescribe in order to obtain authorized access to the Hybrid Trading System, if the Trading Permit Holder elects to use an API for which the Exchange has determined such an agreement is necessary.*
