

technological collection techniques or other forms of information technology.

III. Current Actions

The Department seeks to revise this information collection to provide for electronic filing. The information collected by OLMS is used by union members to help self-govern their unions, by workers making decisions regarding their collective bargaining rights, by the general public, and as research material for both outside researchers and within the Department. The information is also used to assist the Department and other government agencies in detecting improper practices on the part of labor organizations, their officers and/or representatives, and is used by Congress in oversight and legislative functions.

Burden Statement

The Department does not anticipate any changes to its burden estimates, as provided in its most recent extension request for OMB #1245-0003.⁴ The only forms affected by this ICR amendment are the Forms LM-3 and LM-4. Further, none of the proposed changes affect the number of respondents. Rather, they would only affect the burden hours per respondent. Additionally, as stated in Part I, the Department already accounted for burden hour and cost savings, associated with EFS filing, in its last ICR revision, as it calculated the burden hour reduction associated with the 2011 implementation of EFS for Form LM-3 and LM-4 filers. Thus, the Department expects all filers to actualize the burden reductions anticipated in 2013, during the most recent ICR renewal, not just the 40% of Form LM-3 filers and 37% of Form LM-4 filers that currently take advantage of EFS.

The total burden for the Labor Organization and Auxiliary Reports information collection is summarized as follows:

Type of Review: Revision.

Agency: DOL-OLMS.

Title of Collection: Labor Organization and Auxiliary Reports.

OMB Control Number: 1245-0003.

Affected Public: Private Sector—businesses or other for-profits, farms, and not-for-profit institutions; and Individuals or Households.

Total Estimated Number of

Responses: 31,501.

Total Estimated Annual Burden Hours: 4,582,392.

⁴ The Department estimates that Form LM-3 and LM-4 filers will incur a one-time burden of one hour, in order to read the revised instructions and familiarize themselves with EFS.

Total Estimated Annual Other Costs Burden: \$0.

Comments submitted in response to this notice will be summarized and/or included in the request for the Office of Management and Budget (OMB) approval of the information collection request; they will also become a matter of public record. The Department notes that it has a pending rulemaking concerning two of the reports included in the Labor Organization and Auxiliary Reports information collection: The Form LM-10 Employer Report and the Form LM-20 Agreement and Activities Report filed by labor relations consultants. See 76 FR 37292. The Department received comments on those information collections during the rulemaking, and it will respond to such comments in any final rule issued, as well as in any separate request for amendment to the information collection submitted to OMB in the context of that rulemaking.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork

and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accord with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by the OSHA Training Institute's (OTI) Education Centers as necessary or appropriate to determine whether an applicant meets the prerequisite requirements for education and safety-related experience to become an authorized Outreach Training Program trainer.

The information collection requirements in the Outreach Training Program Requirements (dated February 2013) provide OTI Education Centers with the ability to determine the training and occupational safety and health experience of an applicant to become an authorized Outreach Training Program trainer to conduct the 10- and 30-hour Outreach Training Program classes for construction, general industry, and maritime, and the disaster site worker class.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on applicants who apply to become authorized Outreach Training Program trainers; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

The Agency is requesting approval of the OTI Education Center Prerequisite Verification Form. The information collected in the Prerequisite Verification Form will be used by the OTI Education Centers to determine whether an

applicant has met the prerequisite requirements of training and occupational safety and health-related experience to become an authorized Outreach Training Program trainer. Collecting this information prior to allowing an applicant to enroll in the Outreach Training Program trainer courses and become an authorized Outreach Training Program trainer ensures the validity of the Outreach Training Program and reduces the potential for individuals who are inexperienced in the occupational safety and health profession from conducting training through the Outreach Training Program. The Prerequisite Verification Form is provided to all applicants wishing to enroll in the Outreach Training Program trainer courses prior to their enrollment. Applicants are required to have five (5) years of occupational safety and health experience in the construction industry, general industry, or the maritime industry and to have completed the required OSHA standards course prior to their enrollment in the Outreach Training Program trainer course. Upon successful completion of the Outreach Training Program trainer course the applicant is authorized to conduct 10- and 30-hour Outreach Training Program classes in construction, general industry, or maritime, or disaster site worker classes and to provide students with Outreach Training Program class completion cards.

Type of Review: New.

Title: OSHA Training Institute (OTI) Education Center Prerequisite Verification Form.

OMB Control Number: 1218-0NEW.

Affected Public: Individuals.

Number of Respondents: 7,535 average per year.

Frequency of Response: Once.

Total Responses: 7,535 average per year.

Average Time per Response:

Applicants—1 hour, OTI Education Centers—0.5 hour

Estimated Total Burden Hours:

Applicants—7,535 hours per year, OTI Education Centers—3,772 hours per year, Total—11,307 hours per year.

Estimated Cost (Operation and Maintenance): Applicants—\$250,162, OTI Education Centers—\$109,962, Total: \$360,124.

IV. Public Participation—Submission of Comments on this Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows: (1) Electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by

facsimile; or (3) by hard copy. All comments, attachments, and other material must identify the Agency name and the OSHA docket number for this ICR (Docket No. OSHA-2015-0008). You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled **ADDRESSES**). The additional materials must clearly identify your electronic comments by your name, date, and docket number so the Agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693-2350, (TTY) (877) 889-5627).

Comments and submissions are posted without change at <http://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as their social security number and date of birth. Although all submissions are listed in the <http://www.regulations.gov> index, some information (*e.g.*, copyrighted material) is not publicly available to read or download from this Web site. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <http://www.regulations.gov> Web site to submit comments and access the docket is available at the Web site's "User Tips" link. Contact the OSHA Docket Office for information about materials not available from the Web site, and for assistance in using the Internet to locate docket submissions.
