

Regulatory Guide, DG–1312. RG 1.36, Revision 1, updates NRC guidance to approve for use current voluntary consensus standards (specifications) related to thermal insulation in contact with austenitic stainless steel. The standards have been revised and improved in recent years; thus they represent current best practices available for that purpose. Significantly, the current standards offer more than one test method to satisfy the objective of the standard. Additionally, several test methods identified in the previous RG 1.36 are no longer in use and the references to them have been removed.

## II. Additional Information

Draft Guide (DG)–1312, was published in the **Federal Register** on October 6, 2014 (79 FR 60188) for a 30-day public comment period. The public comment period closed on November 5, 2014. Public comments on DG–1312 and the staff responses to the public comments are available under ADAMS Accession Number ML15026A678.

## III. Congressional Review Act

This regulatory guide is a rule as defined in the Congressional Review Act (5 U.S.C. 801–808). However, the Office of Management and Budget has not found it to be a major rule as defined in the Congressional Review Act.

## IV. Backfitting and Issue Finality

RG 1.36, Revision 1, provides guidance on one acceptable way of meeting the requirements in GDC 1 and GDC 14 with respect to stress-corrosion cracking in austenitic steel portions of the reactor coolant pressure boundary which are caused in part by contact with nonmetallic thermal insulation. This does not constitute backfitting as defined in Section 50.109 of Title 10 of the *Code of Federal Regulations* (10 CFR) (the Backfit Rule), and is not otherwise inconsistent with the issue finality provisions in 10 CFR part 52, “Licenses, Certifications, and Approvals for Nuclear Power Plants.” The NRC’s position is based upon the following considerations.

Existing licensees, part 50 construction permit holders and part 50 operating license holders, and applicants of final design certification rules would not be required to comply with the positions set forth in RG 1.36, Revision 1, unless the construction permit or an operating license holder makes a voluntary change to their licensing basis with respect to non-metallic thermal insulation in contact with austenitic stainless steel, and the NRC determines that the safety review

must include consideration of the matters addressed in this regulatory guide.

Existing design certification rules would not be required to be amended to comply with the positions set forth in RG 1.36 unless the NRC addresses the issue finality provisions in 10 CFR 52.63(a).

Existing combined license holders (referencing the AP1000 design certification rule in 10 CFR part 52, Appendix D) would not be required to comply with the positions set forth in RG 1.36 unless the NRC addresses the issue finality provisions in 10 CFR 52.63(a).

RG 1.36 may be applied to current applications for operating licenses, combined licenses, and certified design rules docketed by the NRC as of the date of issuance of the revision to the regulatory guide, as well as future applications submitted after the issuance of the revised regulatory guide. Such action would not constitute backfitting as defined in § 50.109(a)(1) or be otherwise inconsistent with the applicable issue finality provision in 10 CFR part 52.

Applicants and potential applicants are not, with certain exceptions, protected by either the Backfit Rule or any issue finality provisions under 10 CFR part 52. This is because neither the Backfit Rule nor the issue finality provisions under part 52—with certain exclusions discussed below—were intended to apply to every NRC action which substantially changes the expectations of current and future applicants.

The exceptions to the general principle are applicable whenever a combined license applicant references a part 52 license (*e.g.*, an early site permit) and/or NRC regulatory approval (*e.g.*, a design certification rule) with specified issue finality provisions. The NRC does not, at this time, intend to impose the positions represented in the RG, on combined license applicants in a manner that is inconsistent with any issue finality provisions. If, in the future, the NRC seeks to impose a position in the RG, in a manner which does not provide issue finality as described in the applicable issue finality provision, then the NRC must address the criteria for avoiding issue finality as described in the applicable issue finality provision.

## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-74973; File No. SR-FICC-2015-002]

### Self-Regulatory Organizations; Fixed Income Clearing Corporation; Notice of Filing of a Proposed Rule Change to the Government Securities Division Rules in Connection With the Extension of the GCF Repo Service Pilot Program

May 15, 2015.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on May 7, 2015, the Fixed Income Clearing Corporation ("FICC" or the "Corporation") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by FICC. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

#### I. Clearing Agency's Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule changes consist of modifications to the Rulebook of the Government Securities Division ("GSD") in connection with the extension of the GCF Repo<sup>®</sup> service<sup>3</sup> pilot program.

#### II. Clearing Agency's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, FICC included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. FICC has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

##### A. Clearing Agency's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

###### (i) Purpose of the Proposed Rule Change

FICC is seeking the Commission's approval to extend the current pilot program (the "2014 Pilot Program") that is currently in effect for the GCF Repo<sup>®</sup> service. FICC is requesting that the 2014
