SUPPLEMENTARY INFORMATION:

The OSHA Meeting: OSHA is hosting an open informal public meeting of the U.S. Interagency GHS Coordinating Group to provide interested groups and individuals with an update on GHS-related issues and an opportunity to express their views orally and in writing for consideration in developing U.S. Government positions for the upcoming UNSCEGHS meeting. Interested stakeholders may also provide input on issues related to OSHA's activities in the U.S.-Canada Regulatory Cooperation Council (RCC) at the meeting.

General topics on the agenda include:

- Review of Working papers
- Correspondence Group updates
- Regulatory Cooperation Council (RCC) Update

Information on the work of the UNSCEGHS including meeting agendas, reports, and documents from previous sessions, can be found on the United Nations Economic Commission for Europe (UNECE) Transport Division Web site located at the following web address; <http://www.unece.org/trans/main/dgdb/dgsubc4/c4age.html>. The UNSCEGHS bases its decisions on Working Papers. The Working Papers for the 29th session of the UNSCEGHS are located at: <http://www.unece.org/trans/main/dgdb/dgsubc4/c42015.html>.

Informal Papers submitted to the UNSCEGHS provide information for the Sub-committee and are used either as a mechanism to provide information to the Sub-committee or as the basis for future Working Papers. Informal Papers for the 29th session of the UNSCEGHS are not yet posted on the UN Web site but when they become available will be located at: <http://www.unece.org/trans/main/dgdb/dgsubc4/c4inf29.html>.

The PHMSA Meeting: The **Federal Register** notice and additional detailed information relating to PHMSA's public meeting will be available upon publication at <http://www.regulations.gov> (Docket No. PHMSA-2015-0101) and on the PHMSA Web site at: <http://www.phmsa.dot.gov/hazmat/regs/international>.

The primary purpose of PHMSA's meeting will be to prepare for the 47th session of the UNSCE TDG. The 47th session of the UNSCE TDG is the first of four meetings scheduled for the 2015-2016 biennium. The UNSCE will consider proposals for the 20th Revised Edition of the United Nations Recommendations on the Transport of Dangerous Goods Model Regulations,

which may be implemented into relevant domestic, regional, and international regulations from January 1, 2019. Copies of working documents, informal documents, and the meeting agenda may be obtained from the United Nations Transport Division's Web site at <http://www.unece.org/trans/danger/danger.html>.

General topics on the agenda for the UNSCE TDG meeting include:

- Explosives and related matters
- Listing, classification and packing
- Electric storage systems
- Transport of gases
- Miscellaneous pending issues
- Global harmonization of transport of dangerous goods regulations with the Model Regulations
- Guiding principles for the Model Regulations
- Electronic data interchange for documentation purposes
- Cooperation with the International Atomic Energy Agency (IAEA)
- New proposals for amendments to the Model Regulations
- Issues relating to the Globally Harmonized System of Classification and Labeling of Chemicals (GHS)

PHMSA specifically solicits comments relative to efforts by the UN TDG and GHS Sub-Committees relevant to enhancing recognition of additional Class 8 (corrosive) classification test methods that are currently included within the GHS but not specifically referenced within the UN Model Regulations for Transport. PHMSA is considering submission of a proposal to include within the UN Model Regulations additional GHS-based methods, such as the additivity method which was discussed by the GHS/TDG Informal Working Group that met during the last biennium. PHMSA sees value in the inclusion of alternative methods which provide an equivalent level of safety provided they are included as an option to provide greater flexibility for example with respect to the classification of mixtures to reduce the need for in-vitro and/or in-vivo testing where practicable.

Following the 47th session of the UNSCE TDG, a copy of the Sub-Committee's report will be available at the United Nations Transport Division's Web site at <http://www.unece.org/trans/main/dgdb/dgsubc3/c3rep.html>. PHMSA's Web site at <http://www.phmsa.dot.gov/hazmat/regs/international> provides additional information regarding the UNSCE TDG and related matters.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[Docket No. OSHA-2012-0004]

The Cadmium in Construction Standard; Extension of the Office of Management and Budget's (OMB) Approval of Collection of Information (Paperwork) Requirements

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Request for public comments.

SUMMARY: OSHA solicits public comments concerning its proposal to extend the Office of Management and Budget's (OMB) approval of the collection of information requirements contained in the Cadmium in Construction Standard (29 CFR 1926.1127).

DATES: Comments must be submitted (postmarked, sent, or received) by July 20, 2015.

ADDRESSES:

Electronically: You may submit comments and attachments electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal. Follow the instructions online for submitting comments.

Facsimile: If your comments, including attachments, are not longer than 10 pages you may fax them to the OSHA Docket Office at (202) 693-1648.

Mail, hand delivery, express mail, messenger, or courier service: When using this method, you must submit your comments and attachments to the OSHA Docket Office, Docket No. OSHA-2012-0004, Occupational Safety and Health Administration, U.S. Department of Labor, Room N-2625, 200 Constitution Avenue NW., Washington, DC 20210. Deliveries (hand, express mail, messenger, and courier service) are accepted during the Department of Labor's and Docket

Office's normal business hours, 8:15 a.m. to 4:45 p.m., e.t.

Instructions: All submissions must include the Agency name and the OSHA docket number (OSHA-2012-0004) for the Information Collection Request (ICR). All comments, including any personal information you provide, are placed in the public docket without change, and may be made available online at <http://www.regulations.gov>. For further information on submitting comments see the "Public Participation" heading in the section of this notice titled **SUPPLEMENTARY INFORMATION**.

Docket: To read or download comments or other material in the docket, go to <http://www.regulations.gov> or the OSHA Docket Office at the address above. All documents in the docket (including this **Federal Register** notice) are listed in the <http://www.regulations.gov> index; however, some information (e.g., copyrighted material) is not publicly available to read or download from the Web site. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. You also may contact Theda Kenney at the address below to obtain a copy of the ICR.

FOR FURTHER INFORMATION CONTACT:

Theda Kenney or Todd Owen, Directorate of Standards and Guidance, OSHA, U.S. Department of Labor, Room N-3609, 200 Constitution Avenue NW., Washington, DC 20210; telephone (202) 693-2222.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing collection of information requirements in accord with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and

accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

The collection of information requirements specified in the Cadmium in Construction Standard protect workers from the adverse health effects that may result from their exposure to cadmium. The major collection of information requirements of the Standard include: Conducting worker exposure monitoring, notifying workers of their cadmium exposures, implementing a written compliance program, implementing medical surveillance of workers, providing examining physicians with specific information, ensuring that workers receive a copy of their medical surveillance results, maintaining workers' exposure monitoring and medical surveillance records for specific periods, and providing access to these records by the worker who is the subject of the records, the worker's representative, and other designated parties.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed collection of information requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the collection of information requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

The Agency is requesting an adjustment decrease of 3,511 burden hours (from 37,231 to 33,720 burden hours) to account for the determination, upon further consideration, that neither training delivery nor collection of records during OSHA inspections constitute collections of information under the PRA-95. While OSHA believes exposures likely have decreased, without specific updated data, OSHA has retained the existing estimates regarding the number of

construction sites, employers and employees covered by the Standard.

Type of Review: Extension of a currently approved collection.

Title: Cadmium in Construction Standard (29 CFR 1926.1127).

OMB Control Number: 1218-0186.

Affected Public: Businesses or other for-profits.

Number of Respondents: 10,000.

Frequency of Response: On occasion; Quarterly; Semi-annually; Annually.

Total Responses: 258,249.

Average Time per Response: Varies from five minutes (.08 hour) for an employer to notify a worker of exposure monitoring results to 1.5 hours to administer worker medical examinations.

Estimated Total Burden Hours: 33,720.

Estimated Cost (Operation and Maintenance): \$2,082,199.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document as follows:

- (1) Electronically at <http://www.regulations.gov>, which is the Federal eRulemaking Portal; (2) by facsimile; or (3) by hard copy. All comments, attachments, and other material must identify the Agency name and the OSHA docket number for this ICR (Docket No. OSHA-2012-0004). You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled **ADDRESSES**). The additional materials must clearly identify your electronic comments by your name, date, and the docket number so the Agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693-2350, (TTY) (877) 889-5627).

Comments and submissions are posted without change at <http://www.regulations.gov>. Therefore, OSHA cautions commenters about submitting personal information such as their social security number and date of birth. Although all submissions are listed in the <http://www.regulations.gov> index, some information (e.g., copyrighted

material) is not publicly available to read or download from this Web site. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the <http://www.regulations.gov> Web site to submit comments and access the docket is available at the Web site's "User Tips" link. Contact the OSHA Docket Office for information about materials not available from the Web site, and for assistance in using the Internet to locate docket submissions.
