

Citation 30 CFR 203 and related NTL(s)	Reporting or recordkeeping requirement +	Application/audit fees (rounded)		
		Hour burden	Average number of annual responses	Annual burden hours (rounded)
Recordkeeping				
81(d)	Retain supporting cost records for post-production development/fabrication reports (records retained as usual/customary business practice; minimal burden to make available at BSEE request).	8	2 recordkeepers	16
Subtotal	2 recordkeepers	16
Total Annual Burden.	16 Responses	724
			\$27,950 Fees	

+ In the future, BSEE may require electronic filing of some submissions.

* CPA certification expense burden also imposed on applicant.

** These applications currently do not have a set fee since they are done on a case-by-case basis.

Note: Applications include numerous items such as: transmittal letters, letters of request, modifications to applications, reapplications, etc.

Estimated Reporting and Recordkeeping Non-Hour Cost Burden:
We have identified several non-hour cost burdens for this collection. Under § 203.3, we charge lessees (respondents) applying for royalty relief an amount that covers the cost of processing their applications and auditing financial data when necessary to determine the proposed development's economic situation. As discussed in section A.1, these fees may be revised as necessary to recover our costs in processing royalty relief applications.

This submission includes these audits and their associated fees. Since there have been no applications approved in the last 14 years under our formal programs for deepwater royalty relief or end of life, so their estimated number of submittals is one every 10 years; but we include the audit and their respective fees due to the potential situation arising.

We estimate this cost burden to be approximately \$23,450 annually. Refer to the chart in Section A.12 of this supporting statement for a breakdown.

Under § 203.81, a report prepared by an independent certified public accountant (CPA) must accompany the application and post-production report (expansion project, short form, and preview assessment applications are excluded). The OCS Lands Act applications will require this report only once; the DWRRA applications will require this report at two stages—with the application and post-production development report for successful applicants. We estimate an average cost for a report is \$45,000 and that one CPA certification, during the information collection extension period, will be necessary if the applications are

approved. This annual cost burden is \$45,000/10 years = \$4,500.

Therefore, the total of the two burdens under Section A.13 (a) and (b) is estimated at \$27,950. We have not identified any other non-hour cost burdens associated with this collection of information.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: Before submitting an ICR to OMB, PRA section 3506(c)(2)(A) requires each agency “. . . to provide notice . . . and otherwise consult with members of the public and affected agencies concerning each proposed collection of information . . .”. Agencies must specifically solicit comments to: (a) Evaluate whether the collection is necessary or useful; (b) evaluate the accuracy of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of technology.

Agencies must also estimate the non-hour paperwork cost burdens to respondents or recordkeepers resulting from the collection of information. Therefore, if you have other than hour burden costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. For further information on this burden, refer to 5

CFR 1320.3(b)(1) and (2), or contact the Bureau representative listed previously in this notice.

We will summarize written responses to this notice and address them in our submission for OMB approval. As a result of your comments, we will make any necessary adjustments to the burden in our submission to OMB.

Public Comment Procedures: Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: May 14, 2015.

[Docket ID BSEE-2015-0007; OMB Control Number 1014-0013; 15XE1700DX EEEE500000 EX1SF0000.DAQ000]

Information Collection Activities: Global Positioning Systems (GPS) for Mobile Offshore Drilling Units (MODUs) NTL; Proposed Collection; Comment Request

ACTION: 60-Day notice.

SUMMARY: To comply with the Paperwork Reduction Act of 1995 (PRA), BSEE is inviting comments on a collection of information that we will submit to the Office of Management and Budget (OMB) for review and approval. The information collection request (ICR) concerns a renewal to the paperwork burden under the collection, *GPS for MODUs NTL*.

DATES: You must submit comments by July 21, 2015.

ADDRESSES: You may submit comments by either of the following methods listed below.

- Electronically go to <http://www.regulations.gov>. In the Search box, enter BSEE-2015-0007 then click search. Follow the instructions to submit public comments and view all related materials. We will post all comments.

- Email cheryl.blundon@bsee.gov. Mail or hand-carry comments to the Department of the Interior; Bureau of Safety and Environmental Enforcement; Regulations and Standards Branch; ATTN: Cheryl Blundon; 45600 Woodland Road, Sterling, VA 20166. Please reference ICR 1014-0013 in your comment and include your name and return address.

FOR FURTHER INFORMATION CONTACT: Cheryl Blundon, Regulations and Standards Branch at (703) 787-1607 to request additional information about this ICR.

SUPPLEMENTARY INFORMATION:

Title: Global Positioning Systems (GPS) for Mobile Offshore Drilling Units (MODUs) NTL.

OMB Control Number: 1014-0013.

Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1331 *et seq.* and 43 U.S.C. 1801 *et seq.*), authorizes the Secretary of the Interior to prescribe rules and regulations necessary for the administration of the leasing provisions of that Act related to mineral resources on the OCS. Such rules and regulations will apply to all operations conducted under a lease, right-of-way, or a right-of-use and easement. Operations on the OCS must preserve, protect, and develop oil and natural gas resources in a manner that is consistent with the need to make such resources available to meet the Nation's energy needs as rapidly as possible; to balance orderly energy resource development with protection of human, marine, and coastal environments; to ensure the public a fair and equitable

return on the resources of the OCS; to preserve and maintain free enterprise competition; and to ensure that the extent of oil and natural gas resources of the OCS is assessed at the earliest practicable time. Section 43 U.S.C. 1332(6) states that "operations in the outer Continental Shelf should be conducted in a safe manner by well-trained personnel using technology, precautions, and techniques sufficient to prevent or minimize the likelihood of blowouts, loss of well control, fires, spillages, physical obstruction to other users of the waters or subsoil and seabed, or other occurrences which may cause damage to the environment or to property, or endanger life or health."

To carry out these responsibilities, the Bureau of Safety and Environmental Enforcement (BSEE) issues regulations to ensure that operations in the OCS will meet statutory requirements; provide for safety and protect the environment; and result in diligent exploration, development, and production of OCS leases. In addition, we also issue Notice to Lessees (NTLs) that provide clarification, explanation, and interpretation of our regulations. These NTLs are used to convey purely informational material and to cover situations that might not be adequately addressed in our regulations.

The subject of this information collection (IC) request is an NTL, GPS (Global Positioning System) for MODUs (Mobile Offshore Drilling Units). This NTL requires MODUs to be equipped with multiple tracking/location devices so that during a storm event (hurricane) the respondent, as well as BSEE, will have the capability to monitor their locations. This NTL also provides BSEE GPS data access thereby granting BSEE real-time location information as needed for the Hurricane Response Team (HRT).

The primary regulation for this IC is 30 CFR 250, Subpart A, approved under the OMB Control Number 1014-0013. However, in connection with this subpart, the burden requirements in the NTL are in addition to the currently approved paperwork burdens under those requirements.

After Hurricane Ike, 2008, due to the loss of an ENSCO MODU, the National Oceanic and Atmospheric Administration and US Army Corps of Engineers conducted numerous side-scan searches for dangerous submerged debris in several places in and around the Gulf of Mexico waters, including off the Louisiana coast, the Houston Ship

Channel, and the Galveston areas. These searches continued for numerous days, with multiple government agencies, and covered well over 75 square statute miles. Nothing was found.

On March 6, 2009, the SKS Satilla, a 900-ft Norwegian flagged tank ship carrying approximately 130K MT of crude oil, reported listing 8 degrees and taking on water about 65-miles offshore of Galveston, TX. It was determined that the SKS Satilla had hit the sunken MODU that was submerged approximately 24 feet below the surface of the water, that had been missing since Hurricane Ike. The MODU was displaced off the coast of Louisiana during Hurricane Ike and ended up off the coast of Galveston, roughly 105 miles away.

The information to be collected is necessary for BSEE to assess the whereabouts of any MODU becoming unmoored due to extreme weather situations; as well as, to follow the path of that facility to determine if other facilities/pipelines, etc., were damaged in any way. The offshore oil and gas industry will use the information to determine the safest and quickest way to either remove the obstacles or to fix and reuse them.

No questions of a sensitive nature are asked. We protect proprietary information according to the Freedom of Information Act (5 U.S.C. 552) and DOI's implementing regulations (43 CFR 2); 30 CFR 250.197, *Data and information to be made available to the public or for limited inspection*; and 30 CFR part 252, *OCS Oil and Gas Information Program*. Responses are mandatory.

Frequency: On occasion.

Description of Respondents: Potential respondents comprise Federal oil, gas, or sulphur lessees and/or operators.

Estimated Reporting and Recordkeeping Hour Burden: The currently approved annual reporting burden for this collection is 1 hour and \$102,500 non-hour cost burden. In this submission, we are requesting the same hour and non-hour cost burdens. The following chart details the individual components and respective hour burden estimates of this ICR. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.

BURDEN TABLE

NTL—Gulf of Mexico OCS region—GPS for MODUs	Non-hour cost burdens		
	Hour burden	Average number of annual responses	Annual burden hours
1—Notify BSEE with tracking/locator data access and supporting information; notify BSEE Hurricane Response Team as soon as operator is aware a rig has moved off location.	15 mins 15 mins	1 rig * 1 notification *	1 hour (rounded).
2—Purchase and install tracking/locator devices—(these are replacement GPS devices or new rigs).	20 devices per year for replacement and/or new × \$325.00 = \$6,500		
3—Pay monthly tracking fee for GPS devices already placed on MODUs/rig	40 rigs at \$50/month = \$600/year = \$24,000		
4—Rent GPS devices and pay monthly tracking fee per rig	40 rigs @ \$1,800 per year = \$72,000		
Total burden	102 responses	1 hour.

Estimated Reporting and Recordkeeping Non-Hour Cost Burden: We have identified three non-hour cost burdens for this collection, which are described and shown in the table. We have not identified any other non-hour cost burdens associated with this collection of information.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: Before submitting an ICR to OMB, PRA section 3506(c)(2)(A) requires each agency “. . . to provide notice . . . and otherwise consult with members of the public and affected agencies concerning each proposed collection of information . . .”. Agencies must specifically solicit comments to: (a) Evaluate whether the collection is necessary or useful; (b) evaluate the accuracy of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of technology.

Agencies must also estimate the non-hour paperwork cost burdens to respondents or recordkeepers resulting from the collection of information. Therefore, if you have other than hour burden costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. For further information on this burden, refer to 5 CFR 1320.3(b)(1) and (2), or contact the Bureau representative listed previously in this notice.

We will summarize written responses to this notice and address them in our submission for OMB approval. As a result of your comments, we will make any necessary adjustments to the burden in our submission to OMB.

Public Comment Procedures: Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

BILLING CODE 4310–VH–P

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337–TA–956]

Certain Recombinant Factor VIII Products; Institution of Investigation

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that a complaint was filed with the U.S. International Trade Commission on April 16, 2015, under section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, on behalf of Baxter International Inc. of Deerfield, Illinois; Baxter Healthcare Corporation of Deerfield, Illinois; and Baxter Healthcare SA, of Switzerland. Letters supplementing the complaint were filed on April 21, 2015; May 1, 2015; and

May 4, 2015. The complaint alleges violations of section 337 based upon the importation into the United States, the sale for importation, and the sale within the United States after importation of certain recombinant factor VIII products by reason of infringement of certain claims of U.S. Patent No. 6,100,061 (“the ‘061 patent”); U.S. Patent No. 6,936,441 (“the ‘441 patent”); and U.S. Patent No. 8,084,252 (“the ‘252 patent”). The complaint further alleges that an industry in the United States exists as required by subsection (a)(2) of section 337.

The complainants request that the Commission institute an investigation and, after the investigation, issue a limited exclusion order and cease and desist orders.

ADDRESSES: The complaint, except for any confidential information contained therein, is available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street SW., Room 112, Washington, DC 20436, telephone (202) 205–2000. Hearing impaired individuals are advised that information on this matter can be obtained by contacting the Commission’s TDD terminal on (202) 205–1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at (202) 205–2000. General information concerning the Commission may also be obtained by accessing its internet server at <http://www.usitc.gov>. The public record for this investigation may be viewed on the Commission’s electronic docket (EDIS) at <http://edis.usitc.gov>.

FOR FURTHER INFORMATION CONTACT: The Office of Unfair Import Investigations, U.S. International Trade Commission, telephone (202) 205–2560.
