

collection activities that FRA will submit for clearance by OMB as required under the PRA:

Title: FRA Emergency Order No. 30, Emergency Order Establishing a Maximum Operating Speed Operating Speed of 40 mph in High-Threat Urban Areas for Certain Trains Transporting Large Quantities of Class 3 Flammable Liquids.

OMB Control Number: 2130-0609.

Abstract: FRA is issuing Emergency Order No. 30 (E.O. or Order) to require that trains transporting large amounts of Class 3 flammable liquid through certain highly populated areas adhere to

a maximum authorized operating speed limit. FRA has determined that public safety compels issuance of the Order. The Order is necessary due to the recent occurrence of railroad accidents involving trains transporting petroleum crude oil and ethanol and the increasing reliance on railroads to transport voluminous amounts of those hazardous materials in recent years. Under the E.O., an affected train is one that contains: (1) 20 or more loaded tank cars in a continuous block, or 35 or more loaded tank cars, of Class 3 flammable liquid; and (2) at least one DOT

Specification 111 (DOT-111) tank car (including those built in accordance with Association of American Railroads (AAR) Casualty Prevention Circular 1232 (CPC-1232)) loaded with a Class 3 flammable liquid. Affected trains must not exceed 40 miles per hour (mph) in high-threat urban areas (HTUAs) as defined in 49 CFR 1580.3. This Order takes effect immediately.

Affected Public: Businesses.

Frequency of Submission: One-time; on occasion.

Respondent Universe: 70 Railroads.

Reporting Burden:

Emergency order item No. 30	Respondent universe	Total annual responses	Average time per response	Total annual burden hours
(1) Petitions for Special Approval to Take Actions <i>Not</i> in Accordance with This Order.	70 Railroads	25 Petitions	40 hours	1,000 hours

Form Number(s): N/A.

Total Estimated Responses: 25.

Total Estimated Annual Burden: 1,000 hours.

Status: Regular Review.

Pursuant to 44 U.S.C. 3507(a) and 5 CFR 1320.5(b), 1320.8(b)(3)(vi), FRA informs all interested parties that it may not conduct or sponsor, and a respondent is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Authority: 44 U.S.C. 3501-3520.

Erin McCartney,

Acting Chief Financial Officer.

BILLING CODE 4910-06-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket No. FRA 2015-0007-N-12]

Proposed Agency Information Collection Activities; Comment Request

AGENCY: Federal Railroad Administration, DOT.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 and its implementing regulations, the Federal Railroad Administration (FRA) hereby announces that it is seeking an extension of the following currently approved information collection activities. On April 23, 2015, FRA and the Pipeline and Hazardous Materials Administration (PHMSA) jointly published in the **Federal Register** a Safety Advisory titled *Hazardous*

Materials: Information Requirements Related to the Transportation of Trains Carrying Specified Volumes of Flammable Liquids (FRA Safety Advisory 2015-02; Docket No. PHMSA-2015-0118, Notice 15-11). See 80 FR 22778. The information collection activities associated with the Joint Safety Advisory received a six-month emergency approval from OMB on April 30, 2015. FRA seeks a regular clearance (extension of the current approval for three years) so that its personnel and PHMSA personnel can continue to collect certain information that is essential during the course of an investigation immediately following a train accident. Before submitting these information collection requirements for clearance by the Office of Management and Budget (OMB), FRA is soliciting public comment on specific aspects of the activities identified below.

DATES: Comments must be received no later than July 27, 2015.

ADDRESSES: Submit written comments on any or all of the following proposed activities by mail to either: Mr. Robert Brogan, Office of Safety, Planning and Evaluation Division, RRS-21, Federal Railroad Administration, 1200 New Jersey Ave. SE., Mail Stop 17, Washington, DC 20590, or Ms. Kimberly Toone, Office of Information Technology, RAD-20, Federal Railroad Administration, 1200 New Jersey Ave. SE., Mail Stop 35, Washington, DC 20590. Commenters requesting FRA to acknowledge receipt of their respective comments must include a self-addressed stamped postcard stating, "Comments on OMB control number 2130-0608." Alternatively, comments may be transmitted via facsimile to (202) 493-6216 or (202) 493-6497, or via email to

Mr. Brogan at *Robert.Brogan@dot.gov*, or to Ms. Toone at *Kim.Toone@dot.gov*. Please refer to the assigned OMB control number in any correspondence submitted. FRA will summarize comments received in response to this notice in a subsequent notice and include them in its information collection submission to OMB for approval.

FOR FURTHER INFORMATION CONTACT:

Mr. Robert Brogan, Office of Planning and Evaluation Division, RRS-21, Federal Railroad Administration, 1200 New Jersey Ave. SE., Mail Stop 17, Washington, DC 20590 (telephone: (202) 493-6292) or Ms. Kimberly Toone, Office of Information Technology, RAD-20, Federal Railroad Administration, 1200 New Jersey Ave. SE., Mail Stop 35, Washington, DC 20590 (telephone: (202) 493-6132). (These telephone numbers are not toll-free.)

SUPPLEMENTARY INFORMATION: The Paperwork Reduction Act of 1995 (PRA), Public Law 104-13, sec. 2, 109 Stat. 163 (1995) (codified as revised at 44 U.S.C. 3501-3520), and its implementing regulations, 5 CFR part 1320, require Federal agencies to provide 60-days notice to the public for comment on information collection activities before seeking approval for reinstatement or renewal by OMB. 44 U.S.C. 3506(c)(2)(A); 5 CFR 1320.8(d)(1), 1320.10(e)(1), 1320.12(a). Specifically, FRA invites interested respondents to comment on the following summary of proposed information collection activities regarding: (i) Whether the information collection activities are necessary for FRA to properly execute its functions, including whether the activities will have practical utility; (ii)

the accuracy of FRA’s estimates of the burden of the information collection activities, including the validity of the methodology and assumptions used to determine the estimates; (iii) ways for FRA to enhance the quality, utility, and clarity of the information being collected; and (iv) ways for FRA to minimize the burden of information collection activities on the public by automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submission of responses). See 44 U.S.C. 3506(c)(2)(A)(i)–(iv); 5 CFR 1320.8(d)(1)(i)–(iv). FRA believes that soliciting public comment will promote its efforts to reduce the administrative and paperwork burdens associated with the collection of information mandated by Federal regulations. In summary, FRA reasons that comments received will advance three objectives: (i) Reduce reporting burdens; (ii) ensure that it organizes information collection

requirements in a “user friendly” format to improve the use of such information; and (iii) accurately assess the resources expended to retrieve and produce information requested. See 44 U.S.C. 3501.

Below is a brief summary of the currently approved information collection activities that FRA will submit for clearance by OMB as required under the PRA:

Title: FRA Safety Advisory 2015–02, Hazardous Materials: Information Requirements Related to the Transportation of Trains Carrying Specified Volumes of Flammable Liquids.

OMB Control Number: 2130–0608.

Abstract: Due to recent derailments involving “high hazard flammable trains” (HHFTs), FRA and PHMSA have conducted several post-accident investigations and to ensure that stakeholders are fully aware of each agency’s investigative authority and cooperate with agency personnel

conducting such investigations, where time is of the essence in gathering evidence, the agencies are issuing a Safety Advisory (FRA Safety Advisory 2015–02 and Docket NO. PHMSA–2015–0118, Notice No. 15–11) to remind railroads operating HHFTs—defined as a train comprised of 20 or more loaded tank cars of a Class 3 flammable liquid in a continuous block, or a train with 35 or more loaded tank cars of a Class 3 flammable liquid across the entire train—as well as the offerors of Class 3 flammable liquids transported on such trains, of their obligation to provide PHMSA and FRA, as expeditiously as possible, with information agency personnel need to conduct investigations immediately following an accident or incident.

Affected Public: Businesses.

Frequency of Submission: One-time; On occasion.

Respondent Universe: 70 Railroads/ Stakeholders.

Reporting Burden:

FRA Safety Advisory 2015–02; Docket No. PHMSA–2015–0118	Respondent universe	Total annual responses	Average time per response	Total annual burden hours
(1) Records of High Hazard Flammable Trains Containing Information Specified in This Safety Advisory Provided Upon Request to FRA/PHMSA Personnel After Train Accident.	70 Railroads	50 Records ..	2 hours	100 hours.

Form Number(s): N/A.

Total Estimated Responses: 50.

Total Estimated Annual Burden: 100 hours.

Status: Regular Review.

Pursuant to 44 U.S.C. 3507(a) and 5 CFR 1320.5(b), 1320.8(b)(3)(vi), FRA

informs all interested parties that it may not conduct or sponsor, and a respondent is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Authority: 44 U.S.C. 3501–3520.
