Forest Service

Title: Airplane Pilot Qualifications and Approval Record, Helicopter Pilot Qualifications and Approval Record, Airplane Data Record, and Helicopter Data Record

OMB Control Number: 0596-0015.

Summary of Collection: The Forest Service (FS) is the largest owner and operator of aircraft in the federal government outside of the Department of Defense. The process by which FS operates, maintains, and provides aircraft is through the use of Federal Government contractual agreements with private industry. Two types of aviation contracts are used: Exclusive Use contracts and Call-When-Needed (CWN) contracts. Currently, in excess of 700 private companies contract with the FS for use in resource protection and administrative projects. In addition, the agency owns and operates 27 agency aircraft. The majority of FS flying is in support of wildland fire suppression. Contractor aircraft and pilots are used to place water and chemical retardants on fires, provide aerial delivery of firefighters to fires, perform reconnaissance, resource surveys, search for lost personnel, and fire detection. Contracts for such services established rigorous qualification requirements for pilots and specific condition/equipment/performance requirements for aircraft. The authority is granted under the Federal Aviation Administration Regulations in Title 14 (Aeronautics and Space) of the Code of Federal Regulations.

Need and Use of the Information: FS will collect information using FS forms to document the basis for approval of contract pilot and aircraft for use in specific FS aviation missions. The information collected from contract pilots in face to face meetings (such as name, age, pilots license number, number of hours flown in type of aircraft, etc.) is based on the length and type of contract but is usually done on an reoccurring annual basis. Without the information supplied on these forms, FS contracting officers and pilot/aircraft inspectors cannot determine if pilots and aircraft meet the detailed

qualification, equipment, and condition requirements essential to safe, efficient accomplishment of FS specified flying missions and which are included in contract specifications.

Description of Respondents:

Individuals or households; Business or other for-profit; State, Local or Tribal Government.

Number of Respondents: 2,244.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 3,927.

Charlene Parker,

Departmental Information Collection Clearance Officer.
