SAFEGUARDS

[CHANGE TO READ]

Paper records and computer storage media are located in secure file cabinets within locked rooms or within locked filing cabinets. Computers are maintained in offices or rooms that can be locked when users are not present and their contents are protected by user IDs and passwords. Access to records is limited to individuals whose official duties require such access. Contractors and licensees are subject to contract controls and unannounced on-site audits and inspections. The use of computer systems is regulated with installed security software, computer logon identifications, and operating system controls including access controls, terminal and transaction logging, and file management software.

RETENTION AND DISPOSAL

[CHANGE TO READ]

1. *EEO discrimination complaint case records:* Precomplaint records are retained for 1 year after submission of a final report. Formal complaint records of closed cases are removed from the system of records quarterly, and retained as follows: Official files are retained for 4 years. Copies of official files are retained for 1 year. Background documents not in official files are retained for 2 years. Records of closed cases on computer storage media are removed for 3 years after the closure

date and moved to an inactive file for future comparative analyses.

2. *Labor arbitration records:* Field-level disciplinary and contract application cases are retained for 5 years from the date of final decision. National-level contract interpretation cases and court actions are retained for 15 years from the date of expiration of the agreement.

3. *EEO staff selection records:* Staff selection records are retained for 3 years from the date the position became vacant.

4. *ADR provider records:* Records of active providers are retained for 1 year beyond the date the provider is removed from or voluntarily withdraws from the program or is otherwise notified of their decertification. Records of prospective providers who are rejected are retained for 1 year beyond the year in which their survey was received.

Records existing on paper are destroyed by burning, pulping, or shredding. Records existing on computer storage media are destroyed according to the applicable USPS media sanitization practice.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–75001; File No. SR–BOX–2015–20]

Self-Regulatory Organizations; BOX Options Exchange LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Authorize the Exchange To Share Any Participant-Designated Risk Settings in the Trading System With the Clearing Participant That Clears Transactions on Behalf of the Participant

May 20, 2015.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b–4 thereunder,² notice is hereby given that on May 13, 2015, BOX Options Exchange LLC (the “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule from interested persons.

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b–4.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend BOX Rule 7000 (Access to and Conduct on the BOX Market) to authorize the Exchange to share any Participant-designated risk settings in the trading system with the Clearing Participant that clears transactions on behalf of the Participant. The text of the proposed rule change is available from the principal office of the Exchange, at the Commission's Public Reference Room and also on the Exchange's Internet Web site at <http://boxexchange.com>.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend BOX Rule 7000 (Access to and Conduct on the BOX Market) to authorize the Exchange to share any Participant-designated risk settings in the trading system with the Clearing Participant³ that clears transactions on behalf of the Participant.⁴ Rule 7000 states that "[u]nless otherwise provided in the Rules, no one but an Options Participant or a person associated with an Options Participant shall effect any BOX Transactions."⁵ The Exchange proposes to amend the rule by adding the following sentence: "The Exchange may share any Participant-designated risk settings in the trading system with the Clearing Participant that clears

³ The term "Clearing Participant" means an Options Participant that is self-clearing or an Options Participant that clears BOX Transactions for other Options Participants of BOX. See Rule 100(a)(13).

⁴ The term "Options Participant" or "Participant" means a firm, or organization that is registered with the Exchange pursuant to the Rule 2000 Series for purposes of participating in options trading on BOX as an "Order Flow Provider" or "Market Maker". See Rule 100(a)(40).

⁵ See Rule 7000(a).

transactions on behalf of the Participant." This is a competitive filing that is based on a proposal recently submitted by the International Securities Exchange, LLC ("ISE").⁶

Rule 7200 provides that every Clearing Participant shall be responsible for the clearance of BOX Transactions⁷ of such Clearing Participants and of each Participant that gives up such Clearing Participant's name pursuant to a letter of authorization, letter of guarantee or other authorization given by such Clearing Participant to such Participant, which authorization must be submitted to the Exchange.⁸ The Exchange believes that because Clearing Participants guarantee all transactions on behalf of a Participant, and therefore, bear the risk associated with those transactions, it is appropriate for Clearing Participants to have knowledge of what risk settings a Participant may utilize within the trading system.

The Exchange notes that while not all Participants are Clearing Participants, all Participants require a Clearing Participant's consent to clear transactions on their behalf in order to conduct business on the Exchange. As the Clearing Participant ultimately bears all the risk for a trade they clear on any Participant's behalf, the Exchange believes it is reasonable to provide Clearing Participants with information relating to the risk settings used by each Participant whose transactions they are clearing. To the extent that a Clearing Participant might reasonably require a Participant to provide access to its risk settings as a prerequisite to continue to clear trades on the Participant's behalf, the Exchange's proposal to share those risk settings directly reduces the administrative burden on Participants and ensures that Clearing Participants are receiving information that is up-to-date and conforms to the settings active in the trading system.

The Exchange further notes that any broker-dealer is free to become a clearing member of the Options Clearing Corporation (the "OCC"), which would enable that Participant to avoid sharing risk settings with any third party, if they so choose. For these reasons, the Exchange believes that the proposal is consistent with the Act as it provides Clearing Participants with additional risk-related information that may aid them in complying with the Act,

⁶ See Securities Exchange Act Release No. 74623 (April 1, 2015), 80 FR 18447 (April 6, 2015) (Notice of SR-ISE-2015-12).

⁷ The term "BOX Transaction" means a transaction involving an options contract that is effected on or through BOX or its facilities or systems. See Rule 100(a)(8).

⁸ See Rule 7200(b).

notably Rule 15c3-5 and, as noted, Participants that do not wish to share such settings with a Clearing Participant can do so by becoming a clearing member of the OCC.

The risk settings that would be shared pursuant to the proposed rule are currently codified in Rule 8130.⁹ The risk settings are designed to mitigate the potential risks of multiple executions against a Participant's trading interest that, in today's highly automated and electronic trading environment, can occur simultaneously across multiple series and multiple option classes. The proposed rule will allow the Exchange to share a Participant's risk settings with the Clearing Participant that guarantees the Participant's transactions, and therefore has a financial interest in understanding the risk tolerance of a Participant.

Because the letter of guarantee codifies the relationship between a Participant and the Clearing Participant, the Exchange is on notice of which Clearing Participants have relationships with which Participants. The proposed rule change would simply provide the Exchange with authority to directly provide Clearing Participants with information that may otherwise be available to such Clearing Participants by virtue of their relationship with the respective Participant.

2. Statutory Basis

The Exchange believes that the proposal is consistent with the requirements of Section 6(b) of the Securities Exchange Act of 1934 (the "Act"),¹⁰ in general, and Section 6(b)(5) of the Act,¹¹ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in

⁹ Under BOX Rule 8130 there are five triggering parameters that Market Makers can enable on a class-by-class basis. These are when the Market Maker: (1) Experiences a duration of no technical connectivity for between one and nine seconds; (2) trades a specified number of contracts in the aggregate across all series of an options class; (3) trades a specified absolute dollar value of contracts bought and sold in a class; (4) trades a specified number of contracts in a class of the net between (i) calls purchased plus puts sold, and (ii) calls sold and puts purchased; or, (5) trades a specified absolute dollar value of the net position in a class between (i) calls purchased and sold, (ii) puts and calls purchased; (iii) puts purchased and sold; or (iv) puts and calls sold.

general to protect investors and the public interest.

The Exchange believes that the proposed rule change removes impediments to and perfects the mechanism of a free and open market by codifying that the Exchange may directly provide to Clearing Participants which guarantee that Participant's transactions on the Exchange the Participant-designated risk settings in the trading system, which are designed to mitigate the potential risk of "rapid fire" executions that could result in large and unintended principal positions and expose the Participant to unnecessary market risk. The Exchange believes that the proposed rule change is consistent with the protection of investors and the public interest because it will permit Clearing Participants with a financial interest in a Participant's risk settings to better monitor and manage the potential risks assumed by Participants with whom the Clearing Participant has entered into a letter of guarantee, thereby providing Clearing Participants with greater control and flexibility over setting their own risk tolerance and exposure.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. In this regard and as indicated above, the Exchange notes that the rule change is being proposed as a response to a filing submitted by ISE.¹² The proposed rule change is not designed to address any competitive issues and does not pose an undue burden on non-Clearing Participants because, unlike Clearing Participants, non-Clearing Participants do not guarantee the execution of a Participant's BOX Transactions. The proposed rule change would provide authority for the Exchange to directly share risk settings with Clearing Participants regarding the Participants with whom the Clearing Participant has executed a letter of guarantee so the Clearing Participant can better monitor and manage the potential risks assumed by the Participants, thereby providing them with greater control and flexibility over setting their own risk tolerance and exposure. The proposed rule change is structured to offer the same enhancement to all Clearing Participants, regardless of size, and would not impose a competitive burden on any participant.

¹² See *supra*, note 6.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange has neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act¹³ and Rule 19b-4(f)(6)¹⁴ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
