

ESTIMATED ANNUALIZED BURDEN HOURS AND COSTS

Type of respondent	Form name/form No.	Number of respondents	Number of responses per respondent	Total number of responses	Average burden per response (in hours)	Total annual burden (in hours)	Average hourly wage rate	Total annual respondent cost
Individuals or households.	NFIP Agent Referral Questionnaire/FEMA Form 512-0-1.	50,894	1	50,894	0.05 (3 mins.)	2,545	\$22.33	\$56,830
Businesses or other for-profit.	NFIP Agent Site Registration (Including electronic version)/ FEMA Form 517-0-1.	8,300	1	8,300	0.033 (2 mins.)	274	30.58	8,379
Total	59,194	59,194	2,819	65,209

• **Note:** The "Avg. Hourly Wage Rate" for each respondent includes a 1.4 multiplier to reflect a fully-loaded wage rate.

Estimated Cost: The estimated annual cost to respondents for the hour burden is \$65,209. There are no annual costs to respondents' operations and maintenance costs for technical services. There are no annual start-up or capital costs. The cost to the Federal Government is \$406,941.

Comments

Comments may be submitted as indicated in the **ADDRESSES** caption above. Comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Dated: May 15, 2015.

Janice Waller,

Acting Director, Records Management Division, Mission Support, Federal Emergency Management Agency, Department of Homeland Security.

Habitat Conservation Plan for the Morro Shoulderband Snail; Kroll Parcel, Community of Los Osos, San Luis Obispo County, California

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comment.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), have received an application for a 10-year incidental take permit under the Endangered Species Act of 1973, as amended. The application addresses the potential for "take" of the federally endangered Morro shoulderband snail likely to result incidental to the construction of a single-family residence, barn, septic system, and improved residential access; management of an existing open space area; and implementation of a conservation strategy. We invite comments from the public on the application package, which includes a habitat conservation plan (HCP) for the Morro shoulderband snail.

DATES: To ensure consideration, please send your written comments by June 29, 2015.

ADDRESSES: You may download a copy of the draft HCP and draft low-effect screening form and environmental action statement on the internet at <http://www.fws.gov/ventura/>, or you may request copies of the documents by U.S. mail or phone (see below). Please address written comments to Stephen P. Henry, Field Supervisor, Ventura Fish and Wildlife Office, U.S. Fish and Wildlife Service, 2493 Portola Road, Suite B, Ventura, CA 93003. You may

alternatively send comments by facsimile to (805) 644-3958.

FOR FURTHER INFORMATION CONTACT: Julie M. Vanderwier, Senior Fish and Wildlife Biologist, at the above address or by phone at (805) 644-1766.

SUPPLEMENTARY INFORMATION: We have received an application from James and Sharon Kroll for an incidental take permit (ITP) pursuant to section 10(a)(1)(B) of the Endangered Species Act (Act; 16 U.S.C. 1531 *et seq.*). The application addresses take of the federally endangered Morro shoulderband snail (*Helminthoglypta walkeriana*) likely to occur incidental to the construction and maintenance of a single-family residence, barn, septic system, and improved road access; management of an existing open space area; and implementation of a conservation strategy on 3.09 acres within an existing legal 5.08-acre parcel located in western San Luis Obispo County, California. The requested permit term is 10 years. We invite comments from the public on the application package. Issuance of an ITP pursuant to this HCP has been determined to be eligible for a categorical exclusion under National Environmental Policy Act (NEPA).

Background

The Morro shoulderband snail was listed as endangered on December 15, 1994 (59 FR 64613). Section 9 of the Act and its implementing regulations (16 U.S.C. 1531 *et seq.*) prohibit the take of fish or wildlife species listed as endangered or threatened. Under the Act, "take" is defined to include the following activities: "to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct" (16 U.S.C. 1532). Under section 10(a)(1)(B) of the Act, we may issue permits to authorize take of listed species if it is incidental to other lawful activities and not the

purpose of carrying out that activity. The Code of Federal Regulations provides those regulations governing incidental take permits for threatened and endangered species at 50 CFR 17.32 and 17.22. Issuance of an incidental take permit must not jeopardize the existence of any federally listed fish, wildlife or plant species.

The Applicants' Proposed Project

James and Sharon Kroll (hereafter, the applicants) own a 5.08-acre residential suburban-zoned parcel legally described as County of San Luis Obispo Assessor Parcel Number 074-022-041 and located at 302/304 Madera Street in the western portion of Los Osos, an unincorporated community of San Luis Obispo County, California. The applicants have submitted a HCP in support of their application for an ITP to address take of Morro shoulderband snail likely to occur as the result of project activities that would occur within a 3.09-acre permit area within the larger parcel area. Proposed covered activities include direct impacts to up to 0.63 acre of predominantly nonnative grassland habitat associated with the construction and maintenance of a single-family residence, barn, septic system, and improved residential access; maintenance of a 0.93-acre open space area; and the restoration, monitoring, and management of 1.1 acres of habitat for Morro shoulderband snail.

The applicants propose to minimize and mitigate take of Morro shoulderband snail associated with the covered activities by fully implementing the HCP. The following minimization measures would be implemented: (1) Development and delivery of an environmental training program for Morro shoulderband snail to all personnel working onsite, (2) pre-construction and concurrent construction monitoring surveys for Morro shoulderband snail, (3) capture and moving out of harm's way all identified individuals of any life stage of Morro shoulderband snail to a Service-approved receptor site by an individual in possession of a current valid recovery permit for the species, (4) use of temporary construction fencing to prevent accidental egress into mitigation areas; and (5) installation of permanent fencing to separate use areas from conservation areas. To mitigate for unavoidable take of Morro shoulderband snail, the applicants would conserve and manage 1.1 acres of habitat for Morro shoulderband snail. This 1.1-acre area would be recorded under a conservation easement with the County of San Luis Obispo and restored

to native coastal dune scrub following control of non-native grasses and removal of orchard plantings. The applicants have committed to fund up to \$33,368 to ensure implementation of all minimization, mitigation, and reporting requirements identified in the HCP.

In the proposed HCP, the applicants consider two alternatives to the proposed action: "No Action" and "Alternate Project Design." Under the "No Action" alternative, the Service would not issue an ITP, and the legal construction of a single-family residence and barn would not occur. Absent the ITP, there would be no conservation and restoration of habitat for the Morro shoulderband snail that would, in concert with nearby habitat, provide a benefit to the species. Since the property is privately owned, there are ongoing economic considerations associated with continued ownership absent its ability to realize its intended use upon purchase (e.g., payment of associated taxes). The sale of this property for other than the currently zoned and identified purpose is not considered biologically meaningful or economically feasible. Because of economic considerations and because the proposed action results in a net benefit for the Morro shoulderband snail, the No Action Alternative has been rejected.

Under the "Alternate Project Design" alternative, the residence and barn would be located elsewhere within the parcel. No other configuration would result in a substantial increase in the net benefit to the species or better achieve the applicants' needs. As such, the Alternate Project Design alternative is also rejected.

Our Preliminary Determination

We have determined the applicants' proposal will have a minor or negligible effect on the Morro shoulderband snail, and the HCP qualifies for processing as a low-effect plan consistent with our Habitat Conservation Planning Handbook (November 1996). Three criteria form the basis for our determination: (1) the proposed project as described in the HCP would result in minor or negligible effects on federally listed, proposed, and/or candidate species and their habitats; (2) implementation of the HCP would result in minor negligible effects on other environmental values or resources; and (3) HCP impacts, considered together with those of other past, present, and reasonably foreseeable future projects, would not result in cumulatively significant effects. It is our preliminary determination that HCP approval and

ITP issuance qualify for categorical exclusion under the NEPA (42 U.S.C. 4321 *et seq.*), as provided by the Department of the Interior Manual (516 DM 2 Appendix 2 and 516 DM 8); however, we may revise our determination based upon review of public comments received in response to this notice.

Next Steps

We will evaluate the permit application, including the HCP and comments we receive, to determine whether it meets the requirements of section 10(a)(1)(B) of the Act. We will also evaluate whether issuance of the ITP would comply with section 7(a)(2) of the Act by conducting an intra-Service consultation pursuant to section 7(a)(2) of the Act.

Public Review

We request comments from the public regarding our preliminary determination that the applicants' proposal will have a minor or negligible effect on the Morro shoulderband snail and that the plan qualifies as a low-effect HCP. We will evaluate the comments we receive and make a final determination regarding whether the application meets the requirements of section 10(a)(1)(B) of the Act. We will incorporate the results of our intra-Service consultation, in combination with the above findings, in our final analysis to determine whether to issue the ITP. If all of our requirements are met, we will issue the ITP to the applicants. Permit issuance would not occur less than 30 days from the date of this notice.

Public Comments

If you wish to comment on the permit application, HCP, and associated documents, you may submit comments by any one of the methods provided in **ADDRESSES**.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public view, we cannot guarantee that we will be able to do so.

Authority

We provide this notice under section 10(c) of the Act and the NEPA public involvement regulations (40 CFR 1500.1(b), 1500.2(d), and 1506.6).

Dated: May 21, 2015.

Stephen P. Henry,

Field Supervisor, Ventura Fish and Wildlife Office, Ventura, California.

Receipt of an Incidental Take Permit Application for Participation in the Oil and Gas Industry Conservation Plan for the American Burying Beetle in Oklahoma

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for public comments.

SUMMARY: Under the Endangered Species Act, as amended (Act), we, the U.S. Fish and Wildlife Service, invite the public to comment on an incidental take permit application for take of the federally listed American burying beetle resulting from activities associated with the geophysical exploration (seismic) and construction, maintenance, operation, repair, and decommissioning of oil and gas well field infrastructure within Oklahoma. If approved, the permit would be issued under the approved *Oil and Gas Industry Conservation Plan Associated with Issuance of Endangered Species Act Section 10(a)(1)(B) Permits for the American Burying Beetle in Oklahoma* (ICP).

DATES: To ensure consideration, written comments must be received on or before June 29, 2015.

ADDRESSES: You may obtain copies of all documents and submit comments on the applicant's ITP application by one of the following methods. Please refer to the permit number when requesting documents or submitting comments.

○ *U.S. Mail:* U.S. Fish and Wildlife Service, Division of Endangered Species—HCP Permits, P.O. Box 1306, Room 6034, Albuquerque, NM 87103.

○ *Electronically:* fw2_hcp_permits@fws.gov.

FOR FURTHER INFORMATION CONTACT: Marty Tuegel, Branch Chief, by U.S. mail at Environmental Review, P.O. Box 1306, Room 6034, Albuquerque, NM 87103; or by telephone at 505-248-6651.

SUPPLEMENTARY INFORMATION:

Introduction

Under the Endangered Species Act, as amended (16 U.S.C. 1531 *et seq.*; Act), we, the U.S. Fish and Wildlife Service, invite the public to comment on an incidental take permit (ITP) application for take of the federally listed American burying beetle (*Nicrophorus americanus*) resulting from activities associated with geophysical exploration (seismic) and construction, maintenance, operation, repair, and decommissioning of oil and gas well field infrastructure within Oklahoma. If approved, the permit would be issued to the applicant under the *Oil and Gas Industry Conservation Plan Associated with Issuance of Endangered Species Act Section 10(a)(1)(B) Permits for the American Burying Beetle in Oklahoma* (ICP). The ICP was made available for comment on April 16, 2014 (79 FR 21480), and approved on May 21, 2014 (publication of the FONSI notice was on July 25, 2014; 79 FR 43504). The ICP and the associated environmental assessment/finding of no significant impact are available on the Web site at <http://www.fws.gov/southwest/es/oklahoma/ABBICP>. However, we are no longer taking comments on these documents.

Applications Available for Review and Comment

We invite local, State, Tribal, and Federal agencies, and the public to comment on the following application under the ICP, for incidental take of the federally listed ABB. Please refer to the appropriate permit number (TE-54185B) when requesting application documents and when submitting comments. Documents and other information the applicants have submitted with this application are available for review, subject to the requirements of the Privacy Act (5 U.S.C. 552a) and Freedom of Information Act (5 U.S.C. 552).

Permit TE-66049B

Applicant: Quartz Mountain Oil & Gas, LLC, Oklahoma City, OK.

Applicant requests a new permit for gas upstream and midstream production, including geophysical exploration (seismic) and construction, maintenance, operation, repair, and decommissioning of gas well field infrastructure, as well as construction, maintenance, operation, repair, decommissioning, and reclamation of gas gathering, transmission, and distribution pipeline infrastructure within Oklahoma.

Public Availability of Comments

Written comments we receive become part of the public record associated with this action. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can request in your comment that we withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. We will not consider anonymous comments. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public disclosure in their entirety.

Authority

We provide this notice under section 10(c) of the Act (16 U.S.C. 1531 *et seq.*) and its implementing regulations (50 CFR 17.22) and the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*) and its implementing regulations (40 CFR 1506.6).

Dated: May 20, 2015.

Benjamin N. Tuggle,

Regional Director, Southwest Region, U.S. Fish and Wildlife Service.
