#### SUPPLEMENTARY INFORMATION:

**Background:** The Denali Commission (Commission) is an independent federal agency based on an innovative federal-state partnership designed to provide critical utilities, infrastructure and support for economic development and training in Alaska by delivering federal services in the most cost-effective manner possible. The Commission was created in 1998 with passage of the October 21, 1998, Denali Commission Act (Act) (Title III of Pub. L. 105–277, 42 U.S.C. 3121).

The Commission's mission is to partner with tribal, federal, state, and local governments and collaborate with all Alaskans to improve the effectiveness and efficiency of government services, to develop a well-trained labor force employed in a diversified and sustainable economy, and to build and ensure the operation and maintenance of Alaska's basic infrastructure.

By creating the Commission, Congress mandated that all parties involved partner together to find new and innovative solutions to the unique infrastructure and economic development challenges in America's most remote communities.

Pursuant to the Act, the Commission determines its own basic operating principles and funding criteria on an annual federal fiscal year (October 1 to September 30) basis. The Commission outlines these priorities and funding recommendations in an annual Work Plan. The Work Plan is adopted on an annual basis in the following manner, which occurs sequentially as listed:

- Project proposals are solicited from local government and other entities.
- Commissioners forward a draft version of the Work Plan to the Federal Co-Chair.

- The Federal Co-Chair approves the draft Work Plan for publication in the **Federal Register** providing an opportunity for a 30-day period of public review and written comment. During this time, the draft Work Plan is also disseminated widely to Commission program partners including, but not limited to, the Bureau of Indian Affairs (BIA), the Economic Development Administration (EDA), and the United States Department of Agriculture—Rural Development (USDA–RD).

- Public comment concludes and Commission staff provides the Federal Co-Chair with a summary of public comment and recommendations, if any, associated with the draft Work Plan.

- If no revisions are made to the draft, the Federal Co-Chair provides notice of approval of the Work Plan to the Commissioners, and forwards the Work Plan to the Secretary of Commerce for approval; or, if there are revisions the Federal Co-Chair provides notice of modifications to the Commissioners for their consideration and approval, and upon receipt of approval from Commissioners, forwards the Work Plan to the Secretary of Commerce for approval.

- The Secretary of Commerce approves the Work Plan.

- The Federal Co-Chair then approves grants and contracts based upon the approved Work Plan.

#### FY 2015 Appropriations Summary

The Commission has historically received federal funding from several sources. These fund sources are governed by the following general principles:

- In FY 2015 no project specific direction was provided by Congress.

- The Energy and Water Appropriation (*i.e.* discretionary funding) is eligible for use in all programs.

- Certain appropriations are restricted in their usage. Where restrictions apply, the funds may be used only for specific program purposes.

- Final appropriation funds received may be reduced due to Congressional action, rescissions by the Office of Management and Budget, and other federal agency action.

- All Energy and Water Appropriation funds, including operating funds, designated as “up to” may be reassigned to other programs, if they are not fully expended in a program component area or a specific project.

- Total FY 2015 Budgetary Resources provided:

These funds are identified by their source name (*i.e.*, Energy and Water Appropriation, TAPL, etc.). The grand total for all appropriations appears at the end of the FY 2015 Funding Table.

- Total FY 2015 Program Available Funding:
