AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: The Assistant Regional Administrator for Sustainable Fisheries, Greater Atlantic Region, NMFS, has made a preliminary determination that an Exempted Fishing Permit application contains all of the required information and warrants further consideration. This Exempted Fishing Permit would allow four commercial fishing vessels to fish outside of the limited access sea scallop regulations in support of bycatch reduction research.

Regulations under the Magnuson-Stevens Fishery Conservation and Management Act require publication of this notification to provide interested parties the opportunity to comment on applications for proposed Exempted Fishing Permits.

DATES: Comments must be received on or before June 18, 2015.

ADDRESSES: You may submit written comments by any of the following methods:

- *Email:* nmfs.gar.efp@noaa.gov.

Include in the subject line "DA15-036 CFF Dredge Speed on Bycatch Reduction Study EFP."

- *Mail:* John K. Bullard, Regional Administrator, NMFS, Greater Atlantic Regional Fisheries Office, 55 Great Republic Drive, Gloucester, MA 01930. Mark the outside of the envelope "DA15-036 CFF Dredge Speed on Bycatch Reduction Study EFP."

FOR FURTHER INFORMATION CONTACT: Shannah Jaburek, Fisheries Management Specialist, 978-282-8456.

SUPPLEMENTARY INFORMATION: NOAA awarded the Coonamesset Farm Foundation (CFF) a grant through the 2015 Atlantic sea scallop research set-aside program, in support of a project titled, "Determination of the Impacts of Dredge Speed on Bycatch Reduction and Scallop Selectivity."

CFF submitted a complete application for an EFP on March 30, 2015. The project would look at how high towing speeds using the Turtle Deflector Dredge (TDD) impact scallop catch per unit of
