Saccharin From the People's Republic of China: Revocation of the Antidumping Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determination by the International Trade Commission (ITC) that revocation of the antidumping duty (AD) order on saccharin from the People's Republic of China (PRC) is not likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time, the Department of Commerce (the Department) is revoking the AD order on saccharin from the PRC.

DATES: *Effective Date:* June 8, 2014.

FOR FURTHER INFORMATION CONTACT: Laurel LaCivita, AD/CVD Operations, Office III, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-4243.

SUPPLEMENTARY INFORMATION:

Background

On July 9, 2003, the Department published the AD order on saccharin from the PRC¹ and, on June 8, 2009, at the conclusion of the first sunset review, the Department published a notice of continuation of the AD order on saccharin from the PRC.² On May 1, 2014, the Department initiated a second sunset review of the AD order on saccharin from the PRC, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). As a result of its review, the Department determined that revocation of the AD order on saccharin from the PRC would likely lead to a continuation or recurrence of dumping and notified the ITC of the magnitude of the margins of dumping likely to prevail were the order revoked.³

On May 28, 2015, the ITC published its determination, pursuant to sections 751(c) and 752(a) of the Act, that revocation of the AD order on saccharin from the PRC would not be likely to lead to the continuation or recurrence of material injury within a reasonably foreseeable time.⁴

Scope of the Order

The product covered by this AD order is saccharin. Saccharin is defined as a non-nutritive sweetener used in beverages and foods, personal care products such as toothpaste, table top sweeteners, and animal feeds. It is also used in metalworking fluids. There are four primary chemical compositions of saccharin: (1) Sodium saccharin (American Chemical Society Chemical Abstract Service ("CAS") Registry 128-44-9); (2) calcium saccharin (CAS Registry 6485-34-3); (3) acid (or insoluble) saccharin (CAS Registry 81-07-2); and (4) research grade saccharin. Most of the U.S.-produced and imported grades of saccharin from the PRC are sodium and calcium saccharin, which are available in granular, powder, spray-dried powder, and liquid forms. The merchandise subject to this order is currently classifiable under subheading 2925.11.00 of the Harmonized Tariff Schedule of the United States ("HTSUS") and includes all types of
