

attracting additional liquidity to the Exchange, which would continue to make the Exchange a more competitive venue for, among other things, order execution and price discovery.

The proposed changes to the Customer Posting Credit Tiers in Non Penny Pilot Issues, and the proposed modification to the Customer Incentives are designed to attract additional volume, in particular posted electronic Customer and Professional Customer executions, to the Exchange, which would promote price discovery and transparency in the securities markets thereby benefitting competition in the industry. As stated above, the Exchange believes that the proposed change would impact all similarly situated OTPs that post electronic Customer and Professional Customer executions on the Exchange equally, and as such, the proposed change would not impose a disparate burden on competition either among or between classes of market participants.

The Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues. In such an environment, the Exchange must continually review, and consider adjusting, its fees and credits to remain competitive with other exchanges. For the reasons described above, the Exchange believes that the proposed rule change reflects this competitive environment.
