The Privacy Act requires agencies involved in computer matching programs to:

1. Negotiate written agreements with the other agency or agencies participating in the matching programs.
 2. Provide notification to applicants and beneficiaries that their records are subject to matching.
 3. Verify information produced by such matching program before reducing, making a final denial of, suspending, or terminating an individual's benefits or payments.

 5. Furnish reports about the matching program to Congress and the OMB.
 6. Obtain the approval of the matching agreement by the Data Integrity Board of any federal agency participating in a matching program.

Notice of New Computer Matching Program

A. PARTICIPATING AGENCIES

The participating agencies are the Office of Child Support Enforcement

(OCSE), which is the "source agency," and state agencies administering the Temporary Assistance to Needy Families (TANF) program, which are the "non-federal agencies."

B. PURPOSE OF THE MATCHING PROGRAM

The primary purpose of the matching program is to provide new hire, quarterly wage, and unemployment insurance information from OCSE's National Directory of New Hires (NDNH) to state agencies administering TANF to verify the eligibility of adult TANF recipients and applicants and, if ineligible, to take such action as may be authorized by law and regulation. The state agencies administering TANF may also use the NDNH information for the secondary purpose of updating the applicants and recipients' reported participation in work activities and updating contact information maintained by the state agencies administering TANF.

C. AUTHORITY FOR CONDUCTING THE MATCH

The authority for conducting the matching program is contained in section 453(j)(3) of the Social Security Act. 42 U.S.C. 653(j)(3).

D. CATEGORIES OF INDIVIDUALS INVOLVED AND IDENTIFICATION OF RECORDS USED IN THE MATCHING PROGRAM

The categories of individuals involved in the matching program are adult members of households that receive or have applied for TANF benefits. The system of records maintained by OCSE from which records will be disclosed for the purpose of this matching program is the "OCSE National Directory of New Hires" (NDNH), No. 09-80-0381, last published in the **Federal Register** at 80 FR 17906 on April 2, 2015. The NDNH contains new hire, quarterly wage, and unemployment insurance information. The disclosure of NDNH information by OCSE to the state agencies administering TANF is a "routine use" under this system of records. Records resulting from the matching program and are disclosed to state agencies administering TANF include names, Social Security numbers, home addresses, and employment information.

E. INCLUSIVE DATES OF THE MATCHING PROGRAM

The computer matching agreement will be effective and matching activity may commence the later of the following:

30 days after this notice is published in the **Federal Register**, or (2) 40 days after OCSE

sends a report of the matching program to the Congressional committees of jurisdiction under 5 U.S.C. 552a(o)(2)(A); and to OMB, unless OMB disapproves the agreement within the 40-day review period or grants a waiver within 10 days of the 40-day review period. The matching agreement will remain in effect for 18 months from its effective date, unless one of the parties to the agreement advises the other by written request to terminate or modify the agreement. The agreement is subject to renewal by the HHS Data Integrity Board for 12 additional months if the matching program will be conducted without any change and OCSE and the state agency certify to the Data Integrity Board in writing that the program has been conducted in compliance with the agreement.

Title: National Youth in Transition Database and Youth Outcome Survey.

OMB No.: 0970-0340.

Description: The Foster Care Independence Act of 1999 (42 U.S.C. 1305 *et seq.*) as amended by Public Law 106-169 requires State child welfare agencies to collect and report to the Administration on Children and Families (ACF) data on the characteristics of youth receiving independent living services and information regarding their outcomes. The regulation implementing the National Youth in Transition Database, listed in 45 CFR 1356.80, contains standard data collection and reporting requirements for States to meet the law's requirements. ACF will use the information collected under the regulation to track independent living services, assess the collective outcomes of youth, and potentially to evaluate State performance with regard to those outcomes consistent with the law's mandate.

Respondents: State agencies that administer the John H. Chafee Foster Care Independence Program.

Proposed Information Collection Activity; Comment Request

Title: Assets for Independence (AFI) Program Evaluation.

Description: The U.S. Department of Health and Human Services, Administration for Children and Families (ACF) is proposing a data collection activity as part of an experimental evaluation of the Assets for Independence (AFI) Program. The purpose of this study is to assess the impact of participation in AFI-funded individual development account (IDA) projects on the savings, asset purchases, and economic well-being of low-income individuals and families. The primary research question is: What is the impact of AFI project participation on outcomes such as savings, asset purchases, and material hardship?

While some evaluations suggest that IDAs help low-income families save, rigorous experimental research is limited. Few studies have focused on AFI-funded IDAs, and few have tested alternative design features.

The Assets for Independence Evaluation is the first experimental evaluation of IDA projects operating under the Assets for Independence Act, and will contribute importantly to understanding the effects of IDA project participation on project participants. The evaluation was launched in fall 2011 in two sites, with the random assignment of AFI-eligible cases to program and control groups. OMB approved three data collection efforts related to this project in October 2012, including approval of a baseline survey, 12-month follow-up survey, and implementation study protocols.

This **Federal Register** Notice provides the opportunity to comment on a proposed new information collection activity: the AFI Evaluation second follow-up survey (at 36 months post-random assignment) of both treatment and control group members. The purpose of the AFI Evaluation 36-month follow-up survey is to follow-up with study participants to document their intermediate savings and savings patterns, asset purchases, and other economic outcomes. The evaluation consists of both an impact study and an implementation study. Data collection activities will span a three-year period.

Data collection activities to submit in a future information collection request include a third follow-up survey for AFI Evaluation study participants approximately 60 months after study enrollment.

Respondents: Individuals enrolled in AFI programs, individuals who have left AFI programs, and control group members.

ANNUAL BURDEN ESTIMATES

Instrument	Total number of respondents	Annual number of respondents	Number of responses per respondent	Average burden hours per response	Annual burden hours
Follow-Up Survey: AFI-eligible participants	814	271	1	0.5	136

Estimated Total Annual Burden Hours: 136.
