

spreadsheets from the Census Bureau's Web site. Also provided is a spreadsheet programmed to consolidate the information from the various areas of the company so it can be simply uploaded into the web instrument.

Research, development and innovation are important to competitiveness in today's economy, and domestic and foreign researchers in academia, business, and government analyze and cite data from the BRDIS. Among the federal government users are the Bureau of Economic Analysis (BEA) and the White House's Office of Science and Technology Policy (OSTP). BEA includes R&D in the system of national accounts that measures the economic well-being of the country. BRDIS data are key inputs into these accounts, which feed into the calculation of the U.S. Gross Domestic Product (GDP). The White House, in 2006, issued the American Competitiveness Initiative to "increase investments in research and development, strengthen education, and encourage entrepreneurship." In support of this initiative and in response to legislative mandates, data on R&D are delivered to OSTP, primarily in the biennial National Science Board report Science and Engineering Indicators. Also, the National Science Foundation (NSF) produces a series of publications containing R&D data including the National Patterns of R&D Resources series, the S&E State Profile series, and the annual Business R&D and Innovation series. Special reports and other publications are also prepared.

II. Method of Collection

The Census Bureau will use a paperless strategy for the standard form (BRDI-1). Respondents will be mailed a letter referring them to the Census Bureau's Business Help Site where they can complete the questionnaire online. They can also obtain a PDF version of the questionnaire or they can request a paper form be mailed to them. The screener is a mail out/mail back survey form (BRDI-1(S)); a Web-based collection option also will be available. Companies will be asked to respond within 60 days of the initial mail out.

Bureau of Economic Analysis

Proposed Information Collection; Comment Request; Direct Investment Surveys: BE-15, Annual Survey of Foreign Direct Investment in the United States

AGENCY: Bureau of Economic Analysis, Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction

Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)).

DATES: Written comments must be submitted on or before August 10, 2015.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230, or via email at jjessup@doc.gov.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Patricia Abaroa, Chief, Direct Investment Division (BE-50), Bureau of Economic Analysis, U.S. Department of Commerce, Washington, DC 20230; phone: (202) 606-9591; or via email at patricia.abaroa@bea.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Annual Survey of Foreign Direct Investment in the United States (BE-15) obtains sample data on the financial structure and operations of foreign-owned U.S. business enterprises. The data are needed to provide reliable, useful, and timely measures of foreign direct investment in the United States to assess its impact on the U.S. economy. The sample data are used to derive universe estimates in nonbenchmark years from similar data reported in the BE-12 benchmark survey, which is conducted every five years. The data collected include balance sheets; income statements; property, plant, and equipment; employment and employee compensation; merchandise trade; sales of goods and services; taxes; and research and development activity. In addition, several data items are collected by state, including employment and property, plant, and equipment.

No changes to the survey forms or reporting requirements are proposed.

II. Method of Collection

BEA contacts potential respondents by mail in March of each year; responses covering a reporting company's fiscal year ending during the previous calendar year are due by May 31 (or by June 30 for respondents that file using BEA's eFile system). Reports are required from each U.S. business enterprise in which a foreign person has at least 10 percent of the voting stock in an incorporated business enterprise, or an equivalent interest in an unincorporated business enterprise, and that meets the additional conditions detailed in the BE-15 forms and instructions. Entities required to report

will be contacted individually by BEA. Entities not contacted by BEA have no reporting responsibilities.

BEA offers electronic filing through its eFile system for use in reporting on the BE-15 annual survey forms. In addition, BEA posts all its survey forms and reporting instructions on its Web site (www.bea.gov/fdi). These may be downloaded, completed, printed, and submitted via fax or mail.

Potential respondents of the BE-15 are selected from those U.S. business enterprises that were required to report on the 2012 BE-12, Benchmark Survey of Foreign Direct Investment in the United States, along with those U.S. business enterprises that subsequently entered the direct investment universe. The BE-15 is a sample survey, as described; universe estimates are developed from the reported sample data.

III. Data

OMB Control Number: 0608-0034.
Form Number: BE-15.

Type of Review: Regular submission.

Affected Public: Businesses or other for-profit organizations.

Estimated Number of Respondents: 4,800 annually, of which approximately 1,800 file A forms, 1,100 file B forms, 1,400 file C forms, and 500 file Claims for Exemption.

Estimated Total Annual Burden Hours: 88,625 hours. Total annual burden is calculated by multiplying the estimated number of submissions of each form by the average hourly burden per form, which is 44.5 hours for the A form, 4 hours for the B form, 1.75 hours for the C form, and 1 hour for the Claim for Exemption form.

Estimated Time per Respondent: 18.5 hours per respondent (88,625 hours/4,800 respondents) is the average, but may vary considerably among respondents because of differences in company size and complexity.

Estimated Total Annual Cost to Public: \$0.

Respondent's Obligation: Mandatory.

Legal Authority: International Investment and Trade in Services Survey Act (Pub. L. 94-472, 22 U.S.C. 3101-3108, as amended).

SUPPLEMENTARY INFORMATION:

I. Abstract

The Annual Survey of U.S. Direct Investment Abroad (BE-11) obtains

sample data on the financial structure and operations of U.S. parents and their foreign affiliates. The data are needed to provide reliable, useful, and timely measures of U.S. direct investment abroad to assess its impact on the U.S. and foreign economies. The sample data are used to derive universe estimates in nonbenchmark years from similar data reported in the BE-10, Benchmark Survey of U.S. Direct Investment Abroad, which is conducted every five years. The data collected include balance sheets; income statements; property, plant, and equipment; employment and employee compensation; merchandise trade; sales of goods and services; taxes; and research and development activity.

The survey, as proposed, incorporates two changes that were made to the 2014 BE-10, Benchmark Survey of U.S. Direct Investment Abroad, and five new proposed changes. The following two questions that were added to the 2014 benchmark survey will be added to the BE-11 survey: (1) A question to collect the city in which each foreign affiliate is located; and (2) for majority-owned foreign affiliates with assets, sales, or net income greater than \$300 million, a question to collect data on cash and cash equivalents on the balance sheet. Other proposed changes are: (1) Two items will be added to the balance sheet section for the U.S. reporter: (i) Equity investments in foreign affiliates, and (ii) all other assets; (2) a question will be added to collect the form of organization of the U.S. reporter; (3) a question will be added to collect expenditures for research and development performed by new foreign affiliates with assets, sales, or net income between \$25 million and \$60 million; (4) a question will be added to the Claim for Not Filing form to collect the names and BEA ID numbers of any foreign affiliates for which BEA requested a filing but which did not meet the filing criteria; and (5) the BE-11E (abbreviated) sample form for foreign affiliates will be eliminated. The exemption level for reporting on the proposed survey is unchanged from the 2013 BE-11 survey.

II. Method of Collection

BEA contacts potential respondents by mail in March of each year; responses covering a reporting company's fiscal year ending during the previous calendar year are due by May 31.
