**BILLING CODE 4165-15-P**

**DEPARTMENT OF HEALTH AND HUMAN SERVICES**

**Health Resources and Services Administration**

**Health Center Controlled Networks**

**AGENCY:** Health Resources and Services Administration, HHS.

**ACTION:** Notice of Class Deviation from Competition Requirements for Health Center Controlled Networks.

**SUMMARY:** In accordance with the Awarding Agency Grants Administration Manual (AAGAM) Chapter 2.04.103, the Bureau of Primary Health Care (BPHC) has been granted a class deviation from the exceptions to maximum competition requirements contained in the AAGAM Chapter 2.04.104A-5 to provide additional funding without competition to the 37 Health Center Controlled Networks (HCCNs) awarded under announcement HRSA-13-237, extending their December 1, 2014, to November 31, 2015, budget period through July 31, 2016. This action will align the project period end dates of all active HCCN grants and ensure maximum competition for a single HCCN funding opportunity in fiscal year (FY) 2016.

**SUPPLEMENTARY INFORMATION:**  
 Intended Recipient of the Award: Health Center Controlled Networks awarded under funding opportunity announcement HRSA-13-237.  
 Amount of Non-Competitive Awards: \$11,909,772.  
 Period of Supplemental Funding: December 1, 2015, to July 31, 2016.

CFDA Number: 93.527.

**Authority:** Section 330 of the Public Health Service Act, as amended (42 U.S.C. 254b, as amended).

**Justification:** Health Center Controlled Networks enhance the use of health information technology (HIT) to improve the quality of care provided by Health Center Program awardees and look-alikes, collectively referred to as health centers. HCCNs bring health centers together to jointly address operational and clinical challenges, particularly the acquisition and implementation of HIT in a cost-efficient manner. They help fulfill the Federal Health IT Strategic Plan and address HRSA's goal that all Health Center Program awardees will:

- Acquire and effectively implement certified Electronic Health Record (EHR) technology to enable all eligible providers to become meaningful users of EHRs as defined by the Centers for Medicare & Medicaid Services (CMS);
- access EHR incentive program payments; and

• enhance data reporting and technology-enabled quality improvement activities.

Two HCCN funding opportunities were competed in FY 2013, resulting in two grant cohorts with project period end dates that differ by 8 months: 37 grants funded under HRSA–13–237 ending November 30, 2015, and six

grants funded under HRSA–13–267 ending July 31, 2016. BPHC requests to implement one project period end date for all active HCCNs, July 31, 2016, by providing an additional 8 months of support to grants funded under HRSA–13–237. Creating one funding cycle will prevent a lapse in funding that may jeopardize HIT implementation

underway at the health centers receiving technical assistance from the HCCNs. By September 30, 2015, \$11,909,772 will be awarded to continue the 37 grants' approved activities for 8 months (see Table 1). Awardees will report progress and financial obligations made during the 8-month budget period extension as instructed by the Notice of Award.

TABLE 1—RECIPIENT GRANTS AND AWARD AMOUNTS

| Grant No.  | Organization name  | Award amount |
|------------|--|--------------|
| H2QCS25654 | ALABAMA PRIMARY HEALTH CARE ASSOCIATION, INC             | \$316,667    |

**BILLING CODE 4165–15–P**

**DEPARTMENT OF HEALTH AND HUMAN SERVICES****Indian Health Service****Request for Public Comment: 30-Day Proposed Information Collection: Indian Health Service Loan Repayment Program (LRP)**

**AGENCY:** Indian Health Service, HHS.

**ACTION:** Notice and request for comments. Request for extension of approval.

**SUMMARY:** In compliance with section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the Indian Health Service (IHS) is submitting to the

Office of Management and Budget (OMB) a request for an extension of a previously approved collection of information titled, “IHS Loan Repayment Program (LRP)” (OMB Control Number 0917–0014), which expires July 31, 2015. This proposed information collection project was recently published in the **Federal Register** (80 FR 23558) on April 28, 2015, and allowed 60 days for public comment, as required by 44 U.S.C. 3506(c)(2)(A). The IHS received no comments regarding this collection. The purpose of this notice is to allow 30 days for public comment to be submitted directly to OMB.
