In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), this provides the public notice that by documents dated October 9, 2013 and November 18, 2014, the National Railroad Passenger Corporation (AMTRAK) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations governing the operation of passenger trains on the Northeast Corridor (NEC). Relief was also requested from speed limitations imposed by the Order of Particular Applicability for the Advanced Civil Speed Enforcement System (ACSES) Order. Specifically, Amtrak seeks relief from requirements that limit the current operation of its Tier II Acela trainsets to 150 mph from the current maximum authorized track speed for Class 8 track of 160 mph. In addition, Amtrak also requests relief from existing Tier II design requirements to allow for the procurement of new trainsets built to alternative design standards, as outlined in its petition. A previous notice was published outlining the details of Amtrak's petitions, on February 25, 2015 [80 FR 10208]. FRA assigned the petitions to Docket Numbers FRA-2013-0128 and FRA-2014-0124, respectively.

The hearing will be a non-adversarial proceeding in which all interested parties will be given the opportunity to express their views regarding the waiver petition without cross examination. After all initial statements have been completed, those individuals wishing to make brief rebuttal statements will be given an opportunity to do so.
