

7. What alternative procurement models might State Agencies consider to ensure they receive viable competitive bids?

8. Should State agencies pursue coalition procurements with the benefits they bring, such as economies of scale, or does it tend to limit competition or discourage new entrants into the marketplace?

### Pricing

9. Does the impact of the EBT vendor assuming development and implementation costs before they begin processing transactions pose a major barrier to entering the market?

10. Are there ways to separate EBT system development/startup costs from operational costs to reduce risk for new entrants when bidding on a project? If so, what are they?<sup>1</sup>

11. Are there other changes to the CPCM pricing model that would encourage potential vendors to enter the EBT market?

12. The tiered pricing model involves tiers within the CPCM pricing model, adjusted at smaller or larger intervals for different caseload levels. How can State consortia which want to procure together better realize economies of scale given their varying caseload sizes, and still benefit from a blended CPCM price based on their collective caseload volumes?

13. Are there pricing models other than the CPCM model that would be advantageous in reducing pricing risk to the vendor and still maintain sustainable prices for the State agencies? How can the disadvantages to State agencies in forecasting expenses be overcome, if costs are no longer tied to caseload levels?

### Managing Risk

Several stakeholders have advised FNS that too many procurements occurring in close succession may increase the risk that smaller State Agencies may receive fewer or even no bids, as vendors will devote scarce resources to preparing proposals for the most potentially profitable customers. Similarly, if too many implementations or conversions are scheduled in close succession, it may mean that vendors will not have sufficient technical resources to assign their top team to each one. Both of these situations represent risks which FNS would like to

<sup>1</sup> SNAP procurements involve acquiring an operational process with costs for start-up activities included in the monthly operational cost-per-case-month. WIC procurements are conversions from paper to electronic delivery with deliverables and milestones for start-up that may be priced separately.

help State Agencies manage and mitigate.

14. Besides sharing known and estimated RFP release dates and conversion dates, what can FNS do to help State Agencies manage these risks and ensure smooth transitions?

### Other Questions

15. Are there other areas or issues that we have not specifically asked for a response on which you would like to offer comment related to the two main objectives of this RFI?

### Appendix A

#### EBT Functions for On-line SNAP and WIC EBT

(1) Account setup and benefit authorization—support for on-line accounts for SNAP or WIC households authorized to receive benefits;

(2) Card issuance and participant training—provide cards, equipment (PIN pads, card readers and training materials);

(3) Participant account maintenance—receive daily and monthly benefit updates from State agency systems, aging benefits and reporting;

(4) Transaction processing—approval or denial of food purchases made at authorized SNAP and WIC retailers/vendors; WIC processing includes, but is not limited to, matching of food item UPC, price and quantity;

(5) Customer service—24x7 toll-free call support with help desk customer service representatives and Interactive Voice Response and web portal services inquiries related to purchase activities and balances from cardholders, merchants and State agency staff;

(6) Retailer participation—support commercial third party switching services and installation and maintenance of payment terminals in smaller retail locations. Manual backup vouchers for authorizations during system interruptions or for low volume SNAP merchants;

(7) EBT settlement—daily payment to authorized retailers for approved purchases; reconciliation via reports and data file exchanges, WIC also includes food item detail;

(8) EBT reporting—administrative and batch data exchange for reporting card account activities by card number and retail location; daily financial settlement reporting and reconciliation; and,

(9) Disaster Benefit Services (SNAP only)—providing card and benefit services for natural disasters.

### Appendix B

#### EBT Functions for Offline WIC EBT (Smart Cards)

WIC off-line EBT processing relies on State agencies to load a smart card chip with WIC food balances that can be read in grocery store lanes. Card and Personal Identification Number (PIN) support is provided by the State agency using the clinic system that tracks and determines participant benefits. Purchases are authorized off-line in the grocery lane (without an on-line authorization) and a daily claim file is sent to the WIC EBT host for processing payment to the WIC vendors. A hot card file, reconciliation file and authorized product list (APL) (containing the list of approved Universal Product Codes (UPC) and price look-up (PLU) codes called the APL file) are provided to the WIC grocer via the EBT host (an FTP server).

(1) EBT host processing—processing of daily WIC claim files containing WIC transaction purchases, editing for Not-to-Exceed price limits, and pick-up of hot card, APL and reconciliation files to authorized WIC retail vendors.

(2) Retail vendor equipage & integrated support (State agency option)

(3) Customer Service (State agency option)—toll-free call center support including customer service representatives, Interactive Voice Response (IVR) and/or web portal services for cardholder and retailer and State agency staff inquiries.

(4) EBT Reporting—administrative and batch data to support all processing and authorization activities.

(5) Settlement and Reconciliation—similar to SNAP settlement but also includes food product information.

#### Tongass National Forest; Alaska; Forest Plan Amendment

**AGENCY:** Forest Service, USDA.

**ACTION:** Notice of Intent to prepare an environmental impact statement; correction.

**SUMMARY:** A Notice of Intent (NOI) to prepare an Environmental Impact Statement to amend the 2008 Tongass National Forest Land and Resource

Management Plan (Forest Plan) was published in the **Federal Register** (79 FR 30074) on May 27, 2014. The Tongass National Forest is publishing this corrected NOI due to changes in the anticipated dates for the draft environmental impact statement (DEIS) and Record of Decision (ROD, to designate a new responsible official for the plan amendment, and to clarify the pre-decisional administrative review process. The 2012 Planning Rule (36 CFR part 219) includes subpart B, which establishes a pre-decisional administrative review (hereinafter referred to as “objection”) process for plan amendments giving an individual or entity an opportunity for an independent Forest Service review and resolution of issues before the approval of a plan amendment documented with a ROD (reference 36 CFR part 219, subpart B). This Forest Plan Amendment is subject to the objection process.

**FOR FURTHER INFORMATION CONTACT:**

Susan Howle, Project Manager, Tongass National Forest, Ketchikan, AK 99901, (907) 228-6340.

**Corrections**

In the **Federal Register** (79 FR 30074) of May 27, 2014 on page 30074, in the third column under the “Dates” caption, correct the second and fourth sentences to read:

The draft environmental impact statement is expected to be published in October 2015, which will begin a 90-day public comment period.

The Record of Decision is expected to be signed in October 2016.

In the **Federal Register** (79 FR 30074) of May 27, 2014 on page 30075, in the third column under “Scoping Process” caption, correct by adding the following as a third paragraph:

Forest Service regulations at 36 CFR 219, subpart B; published April 9, 2012 (77 FR 21162) include an objection process that applies to plan amendments. This proposed plan amendment is subject to 36 CFR 219, subpart B. There will be an objection process before the final decision is made, and after the final environmental impact statement and draft Record of Decision are made available to the public. Individuals and entities as defined in 36 CFR 219.53 who have submitted substantive formal comments related to the plan amendment during the opportunities for public comment as provided in subpart A (reference 36 CFR 219.16) may file an objection. Objections will be accepted only from those who have previously submitted substantive formal comments related to the plan amendment during scoping, the 90-day DEIS comment period, or other public involvement opportunity where comments are requested

by the responsible official in accordance with 36 CFR 219.16.

In the **Federal Register** (79 FR 30074) of May 27, 2014 on page 30075, in the third column at bottom, correct the name and title “Forrest Cole, Tongass Forest Supervisor” to read:
