A. Overview of Information Collection

Title of Information Collection: Rent Reform Demonstration.

OMB Approval Number: 2528-0306.

Type of Request: Revision of existing collection.

Description of the need for the information and proposed use: The Department is conducting this study under contract with MDRC and its subcontractors (Branch Associates, The Bronner Group, Quadel Consulting Corporation, and the Urban Institute). The project is a random assignment trial of an alternative rent system. Families will be randomly assigned to participate either in the new/alternative rent system or to continue in the current system. For voucher holders, outcomes of the alternative system are hypothesized to be increases in earnings, employment and job retention, among others. Random assignment will limit the extent to which selection bias drives observed results. The demonstration

will document the progress of a group of housing voucher holders, who will be drawn from current residents. The intent is to gain an understanding of the impact of the alternative rent system on the families as well as the administrative burden on Public Housing Agencies (PHAs). Four PHAs currently participating in the Moving to Work (MtW) Demonstration are participating in the demonstration:

- (1) Lexington Housing Authority (LHA), Lexington, Kentucky;
- (2) Louisville Metro Housing Authority (LMHA), Louisville, Kentucky;
- (3) San Antonio Housing Authority (SAHA), San Antonio, Texas; and
- (4) District of Columbia Housing Authority (DCHA), Washington, DC.

Data collection will include the families that are part of the treatment and control groups, as well as PHA staff. Data for this evaluation will be gathered through a variety of methods including informational interviews and discussions, direct observation, and analysis of administrative records. The work covered under this information request is for data collection proposed under the first of two required OMB submissions of the Task Order 2 of the Rent Reform Demonstration.

Respondents: 156.

This includes:

- Public Housing Authority Staff: up to 44 (*i.e.*, assuming up to 11 staff at up to 4 PHAs).
- Families with housing vouchers participating in the Rent Reform Demonstration, up to 80.

¹ Households participating in the Rent Reform Demonstration will range widely in employment position and earnings. We have estimated the hourly wage at the expected prevailing minimum wage, which is \$7.25 per hour in Kentucky and Texas. The hourly minimum wage in the District of Columbia is expected to be \$10.50 by Q3 of 2015. (Source: District of Columbia Department of Employment Services, http://does.dc.gov/sites/default/files/dc/sites/does/page_content/attachments/DC%20Minimum%20Wage%20Increase%20-%20DC%20Register%20Public%20Notice.pdf.) Accordingly, we assume an hourly rate across all sites of \$8.13 that represents an average of these two rates, weighted by the pledged sample at each site. (2,000 pledged participants in Washington, DC and 5,400 pledged in the remaining sites.) Moreover, we expect about 50 percent of the participants to be employed at the time of study entry. A recent report by the Center on Budget and Policy Priorities, some 55 percent of non-elderly, non-disabled households receiving voucher assistance reported earned income in 2010. The typical (median) annual earnings for these families were \$15,600, only slightly more than the pay from full-time, year-round minimum-wage work. (<http://www.cbpp.org/cms/?fa=view&id=3634>). Based on this, we assumed 50% of tenants would be working at the federal minimum wage.

² Number of PHA staff interviews could increase if the housing agency deploys more staff to work on activities related to Rent Reform implementation.

³ For program staff participating in interviews, the estimate uses the median hourly wages of selected occupations (classified by Standard Occupational Classification (SOC) codes) was sourced from the Occupational Employment Statistics from the U.S. Department of Labor's Bureau of Labor Statistics. Potentially relevant occupations and their median hourly wages are:

Occupation	SOC code	Median hourly wage rate
Community and Social Service Specialist	21–1099	\$19.26
Social/community Service Manager	11–9151	29.40

⁴ For program staff supporting data extraction activities, the estimate uses the median hourly wages of selected relevant occupations in a manner similar to the above. A standard wage assumption of \$33.58 was created by averaging median hourly wage rates for these occupations:

Source: Occupational Employment Statistics, accessed online March 20, 2015 at http://www.bls.gov/oes/current/oes_stru.htm. To estimate cost burden to program staff respondents, we use an average of the occupations listed, or \$24.33/hr.

Occupation	SOC code	Median hourly wage rate
Database Administrator	15–1141	\$37.75
Social/community Service Manager	11–9151	29.40
