Federal Register

Vol. 80, No. 123

Friday, June 26, 2015

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

## ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

### Adoption of Recommendation

**AGENCY:** Administrative Conference of the United States.

**ACTION:** Notice.

**SUMMARY:** The Administrative Conference of the United States adopted one recommendation at its Sixty-second Plenary Session. The appended recommendation addresses: Promoting Accuracy and Transparency in the Unified Agenda.

**FOR FURTHER INFORMATION CONTACT:** Reeve Bull, Administrative Conference of the United States, Suite 706 South, 1120 20th Street NW., Washington, DC 20036; Telephone 202-480-2080.

**SUPPLEMENTARY INFORMATION:** The Administrative Conference Act, 5 U.S.C. 591-596, established the Administrative Conference of the United States. The Conference studies the efficiency, adequacy, and fairness of the administrative procedures used by Federal agencies and makes recommendations to agencies, the President, Congress, and the Judicial Conference of the United States for procedural improvements (5 U.S.C. 594(1)). For further information about the Conference and its activities, see [www.acus.gov](http://www.acus.gov). At its Sixty-second Plenary Session, held June 4, 2015, the Assembly of the Conference adopted one recommendation.

Recommendation 2015-1, *Promoting Accuracy and Transparency in the Unified Agenda*. This recommendation offers suggestions for improving the accuracy and transparency of the Unified Agenda of Federal Regulatory and Deregulatory Actions. Among other things, it urges agencies to consider providing relevant updates between Agenda reporting periods, offers recommendations for ensuring that Agenda entries are properly categorized by projected issuance date and status,

and encourages agencies to provide notice when entries are removed from the Agenda.

The Appendix below sets forth the full text of this recommendation. The Conference will transmit it to affected agencies and the Congress. The recommendation is not binding, so the entities to which it is addressed will make decisions on its implementation.

The Conference based this recommendation on a research report that is posted at: [www.acus.gov/62nd](http://www.acus.gov/62nd). A video of the Plenary Session is available at: [livestream.com/ACUS/62ndPlenary](http://livestream.com/ACUS/62ndPlenary), and a transcript of the Plenary Session will be posted when it is available.

Dated: June 22, 2015.

**Shawne C. McGibbon,**  
*General Counsel.*

## APPENDIX—RECOMMENDATION OF THE ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

### Administrative Conference Recommendation 2015-1

#### Promoting Accuracy and Transparency in the Unified Agenda

*Adopted June 4, 2015*

The Unified Agenda of Federal Regulatory and Deregulatory Actions (typically known simply as the “Unified Regulatory Agenda” or “Unified Agenda”) is an important mechanism by which federal agencies inform the public of upcoming rules. Required to be published on a semiannual basis, the Unified Agenda represents a joint enterprise of the Office of Information and Regulatory Affairs (OIRA), the Regulatory Information Service Center (RISC) within the General Services Administration, and the individual rulemaking agencies working on rules. The database used to produce the Unified Agenda is the RISC-OIRA Consolidated Information System (ROCIS). Publishing upcoming rules in the Unified Agenda satisfies requirements of both the Regulatory Flexibility Act<sup>1</sup> and Executive Order 12,866.<sup>2</sup>

The Unified Agenda serves the useful function of notifying stakeholders and the general public of upcoming regulatory actions.<sup>3</sup> In an increasingly globalized world, this notice-serving function is valuable not only for domestic stakeholders but also for foreign businesses and regulators, who must

remain apprised of developments in U.S. policymaking in order to coordinate effectively in promoting international regulatory cooperation.<sup>4</sup> Thus, it is critical to ensure that the information in the Unified Agenda is as accurate as possible to allow regulators and stakeholders to plan accordingly.

At the same time, it is unrealistic to expect that agencies can provide perfectly accurate predictions of upcoming actions. There will always be some uncertainty, given the dynamic environment in which agencies operate, and the information contained in the Unified Agenda will never achieve total predictive accuracy. The Agenda itself states that agencies are permitted to issue rules that were not predicted by the Agenda and are not required to issue rules that were so predicted. In addition, agencies may have limited time or resources to prepare Agenda entries.

The Unified Agenda functions reasonably well as a predictor of some agency actions, but is less accurate in other areas.<sup>5</sup> For example, estimated action dates may prove incorrect, the significance of a regulation may be misclassified, and jointly issued rules may inappropriately be characterized differently by different agencies. Additionally, some rules are classified as long-term actions when regulatory activity is imminent, while others remain listed as long-term actions after work on them has ceased. Occasionally, entries are removed from the Unified Agenda without explanation. Finally, a number of regulatory actions have recently been placed in a “pending” category that is not included in the published Unified Agenda.<sup>6</sup>

As technology has evolved, some agencies have begun to provide periodic updates on the progress of their rulemaking efforts on their Web sites and other media between the semiannual Agenda publication dates. Though this may not prove feasible in all instances, there are steps that agencies, OIRA, and RISC might take to ensure that the public has consolidated access to this information to the extent this updating takes place.<sup>7</sup>

The touchstone of the process should be transparency: although complete predictive accuracy is infeasible, all agencies that contribute to the Unified Agenda should strive to ensure that it offers the most up-to-

<sup>4</sup> See Administrative Conference of the United States, Recommendation 2011-6, *International Regulatory Cooperation*, ¶ 3, 77 FR 2257, 2260 (Jan. 17, 2012) (advocating the establishment of common regulatory agendas among trading partners).

<sup>5</sup> See generally Copeland, *supra* note 3.

<sup>6</sup> One consequence of eliminating the “pending” category and moving all active entries to the public-facing Unified Agenda, as recommended below, may be an increase in the total number of regulations in the Agenda, even though the number of rules under development has not actually increased.

<sup>7</sup> It may prove especially valuable for agencies’ Unified Agenda entries to provide a link to the rulemaking docket on “[regulations.gov](http://regulations.gov).”

<sup>3</sup> See Curtis W. Copeland, *The Unified Agenda: Proposals for Reform 7-8* (Apr. 13, 2015), available at <https://www.acus.gov/report/final-unified-agenda-report> (cataloguing various stakeholders’ expressions of support for the Unified Agenda and recent uses thereof).

date, valuable information possible. The following recommendations are designed to identify straightforward, simple steps that OIRA, RISC, and rulemaking agencies can take to enhance the predictive accuracy of the Unified Agenda and ensure that it remains a valuable resource for regulators, stakeholders, and the general public.

#### Recommendation

1. Federal agencies should take steps to provide on their Web sites and/or, where appropriate, through other media, periodic updates concerning rulemaking developments outside of the semiannual reporting periods connected with the Unified Agenda. These periodic updates would likely focus primarily on concrete actions undertaken in connection with particular rules (e.g., noting if a rule has been issued since the last Agenda), but could also include changes regarding rules still under development (e.g., revisions to predicted issuance dates or significance classification). Each agency's Unified Agenda entry should include a notice of where information about updates can be found; if updates are published on the agency's Web site, a link to the appropriate Web pages should be included in the Unified Agenda. OIRA and RISC should also facilitate sharing among agencies of best practices for providing periodic, digital updates on rulemaking developments.

2. OIRA and RISC should provide a mechanism for linking the information contained in the Unified Agenda and other regulatory data systems (e.g., the **Federal Register** and other parts of ROCIS) that would, where feasible, enable the Agenda information to be updated automatically. For example, if the Unified Agenda indicates that a proposed rule is forthcoming, and that rule is published in the **Federal Register** months before the next edition of the Agenda is issued, the **Federal Register** entry should result in an automatic update to the Agenda.

3. Federal agencies should not keep regulations that are still under active development in a "pending" category. The "pending" category should be included in the published Unified Agenda. OIRA should define the criteria distinguishing between "long term" and "pending" actions.

4. In instances in which a Unified Agenda entry has been in the "proposed rule" or "final rule" stage for three or more Agendas in a row, the agency should reexamine the entry to determine whether action on it is likely in the twelve months after the publication of the most recent Agenda. If not, the agency should reclassify the entry as a "long-term" action or, if the regulatory action is no longer in development, remove it from the Unified Agenda entirely, with the notation described in recommendation 7. If the agency is uncertain as to whether the proposed or final rule might be issued within twelve months, it should provide, where appropriate, an explanation in the associated Agenda entry.

5. To the extent feasible, agencies should ensure that any regulatory actions that are likely to occur in the ensuing twelve months (e.g., hearings or proposed or final rules) are included in the appropriate active "Stage of

Rulemaking" category (i.e., the "prerule," "proposed rule," or "final rule" stage), rather than in the "long-term" action category. Long-term actions are intended to reflect items that are under development but for which the agency does not expect to undertake a regulatory action in the twelve months after the publication of the most recent Agenda.

6. In instances in which a Unified Agenda entry has been in the "long-term" category for an extended period of time, the agency should reexamine the entry to ensure that it is still under development. If not, the agency should remove the entry from the Unified Agenda, with the notation described in recommendation 7.

7. Unified Agenda entries that have previously appeared in the Agenda should not simply disappear in the next edition. When an agency determines that it no longer intends to pursue any additional rulemaking activity with respect to such an entry, the agency should reclassify the entry as completed and indicate how the action was completed.

8. For rules expected to be jointly issued by more than one agency, the agencies should strive to ensure that the descriptive information provided in the Unified Agenda, including the timing of the rule's issuance and its classification as a "significant" or "major" regulatory action, is accurate across all of the agencies' entries. To the extent possible, OIRA and RISC should encourage agencies to publish a single Agenda entry for the joint rule. Where this is not possible, each agency's Unified Agenda entry should include a link to the other associated entry or entries.

9. At present, the Regulatory Flexibility Act (RFA) elements of the Unified Agenda and associated materials are ambiguous, making it difficult for agencies to know how to respond. For example, it is currently unclear if agencies should indicate whether an upcoming regulatory action is expected to have a significant economic impact on a substantial number of small entities or whether some type of RFA analysis will be conducted. OIRA should change the wording of the RFA elements in the Unified Agenda and associated materials to reflect the intent more clearly and should provide guidance to agencies to ensure that the meaning is clear.

## DEPARTMENT OF AGRICULTURE

### Submission for OMB Review; Comment Request

June 22, 2015.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the

agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by July 27, 2015 will be considered. Written comments should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), New Executive Office Building, 725-17th Street NW., Washington, DC 20502. Commenters are encouraged to submit their comments to OMB via email to: [OIRA\\_Submission@OMB.EOP.GOV](mailto:OIRA_Submission@OMB.EOP.GOV) or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

### Animal Plant and Health Inspection Service

*Title:* Emergency Management Response System (EMRS).

*OMB Control Number:* 0579-0071.

*Summary of Collection:* The Animal Health Protection Act (AHPA) of 2002 is the primary Federal law governing the protection of animal health. The law gives the Secretary of Agriculture broad authority to detect, control, or eradicate pests or diseases of livestock or poultry. The Secretary may also prohibit or restrict import or export of any animal or related material if necessary to prevent the spread of any livestock or poultry pest or disease. Through the Foreign Animal Disease Surveillance Program, the Animal and Plant Health Inspection Service (APHIS) Veterinary Services compiles essential epidemiological and diagnostic data that are used to define foreign animal diseases (FAD) and their risk factors. The data is compiled through the
